PREFACE

"MOODY'S ANALYSES OF INVESTMENTS" was established as an annual publication in 1909, in response to the growing demand for an annual financial reference book which would cover a wider scope of usefulness than supplied by the old line "manuals." Mr. Moody's former experience in the publication of a successful reference book of the latter type, especially equipped him for this larger and more important undertaking. At the beginning, however, the establishment of a book comprising analyses of corporation activities was necessarily an experiment, and therefore the first issues of the new publication were confined to the Steam Railroad field alone, and only a part of this ground was covered. In recent years, however, the scope of the "Analyses" has grown with every issue, until today the entire field of American investments is covered by our publication. It is now issued annually in three parts or volumes, Part I covering Steam Railroad issues of every type, whether located in the United States, Dominion of Canada, Mexico, Central America or South America. The carefully developed plan of RATING SECURITIES according to their investment quality has been extended to cover the entire field, and in the present volume it will be found that Ratings are given to all stock and bond issues of known value.

Part II of the "Analyses" covering Public Utility and Industrial Securities, is now in preparation, and will be issued on or about June 1st. Part III, a new volume, covering Government and Municipal Securities, is also in active preparation, and will be ready for delivery on or about September 1st.

The growth in the use and popularity of "MOODY'S ANALYSES OF INVESTMENTS" during the past few years has been little short of phenomenal. Although, when established in 1909, the book was an immediate success and at once achieved great popularity, its circulation at that time was very small as compared with what it is today. During the year 1916, the amount of money received from sales and subscriptions for the publication was more than ten times as great as in 1909. Today, the circulation of the book is undoubtedly larger than that of any other financial reference book published, notwithstanding the fact that some of the other publications have been established for nearly half a century.

The pronounced success of "MOODY'S ANALYSES OF INVESTMENTS" is undoubtedly due, in large measure, to the fact that the publication is issued entirely for the benefit of its users and not for the purpose of promoting the selling programs of security dealers. This publication consistently declines all advertising patronage. No amount of money can buy advertising space in its pages; consequently there is no danger that its subscribers might be misled by conspicuous featuring of any particular securities. This is a factor of very great importance and continuously emphasizes the independence and unbiased character of the information and the investment ratings.

A further factor which has added greatly to the usefulness of the publication is the system of supplying monthly supplements of earnings, in order that the user may be kept abreast of developments during the year. Both the volume covering Steam Railroad Securities and the volume covering Public Utility and Industrial Securities are supplemented in this way right throughout the year without any additional cost to the subscriber.

In these days of rapid change and expansion in the investment field, it is becoming more and more necessary for investors, bankers and all types of banking institutions to adopt adequate methods for keeping in touch with all developments relating to investment and financial matters. Recognizing this situation, we established, at about the same time the first volume of "MOODY'S ANALYSES OF INVESTMENTS" appeared, a supplementary Investors Service for the purpose of giving investors special and exhaustive information and advice regarding all matters which might be of importance or interest to them. This Investors Service has grown in scope and efficiency with the years, and at the present time has come to be an institution of the first importance in the American financial field. A large majority of the subscribers to "MOODY'S ANALYSES OF INVESTMENTS" are also subscribers to "MOODY'S INVESTORS SERVICE," a combination subscription being arranged on an equitable basis. Full details regarding this supplementary service will be gladly furnished on request.

An important improvement in this edition of the Steam Railroad "Analyses" is the inclusion of the statements of the important railroad systems of South America. In the years to come, larger and larger amounts of American capital will probably go into South American enterprises, and full details regarding the business and corporate undertakings in the Republics to the South are steadily becoming more essential.

It will be noted also, that in the presentation of the statements of Steam Railroads in the United States, closer attention than ever has been given to necessary details, and substantial improvements have been made in all the security descriptions. Much new matter has been added, nearly three hundred railroad company statements being inserted this year that have never been included before. It can be asserted, without fear of contradiction, that this issue of our Steam Railroad Section is more complete with full uniform information than any other financial reference book in existence. It is the only investor's reference book published which undertakes to classify and RATE securities according to their investment position.

MOODY'S INVESTORS SERVICE.

NOTE: While the utmost care has been exercised in the compilation of figures, and all facts have been taken at first hand from official sources, the absolute accuracy of statements cannot be guaranteed. More than six million figures are embraced in the many tables in the volume, and it is very possible that an occasional error will have passed unnoticed in the checking of the proofs. It is not likely, however, that any serious inaccuracies will be found. The editor will appreciate having any such pointed out with a view of correcting in future editions.

KEY TO THE BOND RATINGS

EXPLANATION

As fully explained in the introductory chapters, the ratings given the different bond issues are based jointly on the *security* and the *salability* of the different issues. The *security* is determined through the methods of analysis followed uniformly throughout the book, and is based broadly on the average earning results shown for ten-year periods. Each bond issue is entitled to a certain claim on net income, dependent on the position of the bond as a mortgage, on the character of property on which the bond is secured, and on its general position in relation to other security obligations. For example, if a certain bond has a prior claim ahead of all other bond issues, or other security issues, on an important section of mileage, it is necessarily in a better position than the others. At the same time, if it is simply a first mortgage on a section of line which is apparently not of great value to the system, or does not make a profitable showing, then the fact of its being a first mortgage may not help its rating materially.

On most of the large systems it will be found that many of the issues have practically a joint or equal claim on income. That is to say, while their technical position may give them priority, yet in the actual results they do not stand a much better chance than some other issues of a more junior character. The figures shown in the bond records in relation to the average income available are, of course, simply the approximate averages of the past decade, reduced to a one-year basis, and are not the actual figures for any one year. The idea is, as already explained, to show the position of the issue in the results of the decade, thereby enabling one to arrive at a very conservative judgment of the strength and value of the given security. See "The Principles of Averages," and "The Bond Records and Ratings" (pages 115 and 116) in the Introduction, for a full discussion of this subject.

Aaa.

Bonds which are given this rating are to be regarded as of the highest class, not only in the matter of actual security of principal and certainty of interest or dividend payments, but of general marketability. In other words, issues of this type are almost ideally situated so far as these matters are concerned, and practically all such issues are directly responsive in their prices to current interest rates in the financial markets rather than to fluctuations in earning power. Such bonds and stocks will sell lower at some periods than at other times, but such change in price will not be due to any change or depreciation in their investment strength or true value. It will be due almost wholly to general investment conditions, which of course are at some times more favorable than at other times. For example: the highest grade government, railroad, public utility or other bonds during the years 1911 to 1914 underwent substantial declines in prices. These declines were, for such issues, in no degree due to any depreciation in their actual security, but came about wholly as a result of supply and demand in the general investment markets.

While the majority of bonds which are given the "Aaa" rating are either first mortgages or well protected underlying mortgages, yet there are some issues of more junior position which also receive this rating. But to secure a rating so high as this, the physical property back of the issue must be heavy; the amount of available income for a long period must have been at least several times the interest requirements and there must always be a substantial investment demand for the issue at reasonably close market prices.

Aa.

This rating is given to those bond issues which, while unquestionably high grade, are not, broadly speaking, so ideally situated as those which have the first rating. Sometimes the difference may be in the matter of equity or security, and sometimes it may be simply a matter of salability. More often this slight difference in the rating is due to the fact that the "Aa" bond is not so well "seasoned" as the other. That is to say, the length of its life or that of the company has been shorter, or the current earning results have not been maintained for a long enough period to absolutely insure the permanency or the maintenance of the recent increases. As a whole, however, looking at it from the general investment standpoint, there is but slight difference between these two classes of issues, and both are to be regarded as on a high investment plane.

A.

Issues which have this rating are apt to be affected to some degree by changing earning power, although they are to be regarded as high grade. Any bond which has been given an "A" rating is to be regarded as being quite secure, with a permanent and substantial future. An "A" rating implies that the price of the bond will be apt to respond to changes in the "margin of safety" shown by the company much more directly than would the higher grade issues. Furthermore, an "A" bond is not always a fully seasoned issue. Very often it is an issue which has risen in the past from a lower investment plane, but has added to its strength because of steady improvement in the earning power of the company. In a period of tight money an "A" bond would of course decline in price just as the higher grade issues would, but in addition to this, specific influences, such as rapid growth in surplus and financial strength of the company, would tend to force a more rapid increase in price to the "A" bond than it would to the higher grade type. In other words, the "A" bond is an issue which has arrived in the high-grade investment field, but is not altogether as sure of its future as are the other issues in the same field.

Baa.

Bond issues that are given the "Baa" rating are generally good investments, but are not so stable in position as are the "A" bonds, and are more apt to be affected to a substantial degree by changes in the actual earning power of the properties. In brief, they are not treated as in the class of first-grade bonds, but are considered as the best of the second-grade issues. Many bonds of this type will in the course of reasonable time reach a higher investment plane, especially if the results of the company prove as satisfactory in the future as they have in the recent past. But, nevertheless, there is an element of uncertainty regarding the permanently strong position of such issues.

Ba.

The bonds rated "Ba" are those which must be considered as in a half-way position between sound investments and speculations. Such bonds are often well secured so far as equity in property is concerned, but there is still some uncertainty as to their ultimate position as related to earning power. Further than this, they stand more directly in danger of declining in value with a falling off in earnings, although, on the other hand, with rapid improvement in earnings they are apt to materially advance in price. Many bonds which are not directly secured on the physical properties, but are secured by deposit of collateral or are simply promises to pay, are given this rating. One must not assume that a "Ba" rating implies great danger—it simply implies a larger percentage of risk than is found in a more substantial well-seasoned investment.

B.

Bond issues which are given this rating are directly responsive in price to fluctuations in earnings, and are to be regarded as in a speculative position. Many of them have investment elements back of them of considerable value, but in no case is the actual property worth much more than their face value, and in many cases it is worth far less. The bonds of this type usually move on the same principle as stocks of a somewhat speculative tinge, and should not generally be bought for permanent investment unless there is some special factor either present or pending which is to give them further strength.

Caa.

Bond issues which receive the "Caa" rating do not in many cases stand on a sound investment plane. Usually they are note issues of uncertain value or junior bonds which are not currently protected by sufficient income to equal much over their interest requirements. Such bonds are in danger of default, and must be classed as speculations.

Ca.

The bonds having a "Ca" rating are still weaker in position than those mentioned above and usually are protected by but a small equity or by very moderate income resources. Such issues often end by defaulting, although there have been many cases where a bond of this type has in time reached a sound investment position. "Ca" bonds should be treated always as speculative securities, and if held should be regarded as dependent for their ultimate payment on growth in possible earning power which has not yet materialized.

C.

The "C" rating is for bonds which, regardless of what may be said for them, are clearly in an uncertain position and on a very speculative plane. Either such bonds have already defaulted, been scaled down, or no definite knowledge of their value is available. Some note issues which have no security back of them, or are protected only by more or less doubtful collateral, are given this rating. In some cases in this book, where the companies have failed to give satisfactory information regarding their assets and earning power this rating has been given certain of their bond issues. It might turn out, were the facts available, that this rating would be too low, but it is a safe principle to avoid the purchase of any securities of this class, either for investment or speculation, when the facts are not available on which a reasonable judgment might be based.

Daa.

"Daa" issues are of doubtful value and in practically all cases of a purely speculative nature. There are not a very great number of bonds rated in this book which receive so low a rating as "Daa," but there are a few. Usually such a bond has already defaulted or stands in great danger of being scaled down to a nominal position as a result of foreclosure or reorganization. Some of these "Daa" bonds at times have a wide and active market, but their position in the financial field is purely a speculative one. Unless one is seeking a pure speculation, it is always wise to leave bonds of this type severely alone.

Da.

The "Da" rating is given to still lower issues than those mentioned above. Bonds with this rating are to be regarded as largely hopeless, even from a speculative standpoint.

D, E, and F.

The "D, E, and F" rating has been given to a few defaulted issues which are either rapidly evaporating into worthlessness or appear to have an entirely hopeless future. A defaulted bond with a "D" rating, if it lives in the future at all, is likely to be exchanged for a speculative stock which might or might not have some value.

KEY TO THE STOCK RATINGS

EXPLANATION

Aaa.

The stocks which have been accorded this rating are regarded as in the highest class, not only as regards equity in assets, and claim on surplus income, but also as to surety of income. Thus, some of the guaranteed stock issues of the large railroad systems (and there are many such) are accorded this rating, or the next below it. Many mature preferred stock issues are also in this high investment class, as are some common stocks which have long and favorable dividend records back of them.

Aa.

The stocks given this rating are also very high grade, but either because of a less extensive equity, shorter dividend record, or less attractive claim on assets, are slightly inferior to those given the best rating. All issues of this class, however, are on a high and assured investment plane. As in the case of the first rating, when stocks are given an "Aa" rating, it is based relatively more on marketability than a bond rating would be. There are but few stocks, unless they are guaranteed issues, or preferred stocks of limited amount, that receive the "Aaa" rating. A large number of seasoned preferred issues, and some common stocks, however, are clearly entitled to the "Aa" rating.

A.

These are good dividend-paying stock issues, either with excellent dividend records back of them, or rapidly growing equities, which have assured their future position. While inferior investments, as compared with the two higher classes, they are removed from the uncertain speculative plane of many issues, and to be regarded as selling on an investment basis. This rating is given, for example, to certain preferred stock issues, which have begun full dividend payments within the past few years only, but which seem assured of permanency in this regard in the future. It is also given to many of the standard dividend-paying common stock issues, which, while assured dividend-payers, may not have fully demonstrated their ability to retain a given dividend disbursement through good times and bad.

Baa.

In stocks the "Baa" rating is given to those issues which have a favorable dividend record and on which there seems to be little present doubt of a maintenance of current dividend rates. Such stocks are, however, necessarily on a more uncertain investment plane than the stock issues which receive the "A" rating.

Ba.

The stocks which are given the "Ba" rating are usually unseasoned issues, sometimes preferred and sometimes common, which are paying dividends, but regarding which there is no certainty of permanent maintenance of such dividends. In some cases a "Ba" stock may have been paying a moderate dividend for some years, but it will quite often be found that either too large a proportion of the surplus of the company has been consumed in the payment of these dividends, or prior obligations, such as increases in bond issues, have tended to expand out of proportion to the increases in the available surplus.

B.

Stocks given this rating have a strong speculative tinge. While some of them may be paying dividends, it is usually the case that the rate being disbursed is more than the results conservatively justify, or factors may be present which make the maintenance of the rate extremely doubtful. Many of these issues have, however, excellent prospects for future increase in strength. Stock issues having the "B" rating are generally receiving some dividend, but the certainty of this dividend is usually very speculative. It may often prove wise to purchase a "B" stock, but the purchaser should recognize that he has more of a speculation than an investment.

Caa.

Stocks with the "Caa" rating have very good prospective value and are not speculations in the same sense that many bond issues are which have this rating. A stock with a "Caa" rating usually sells at a heavy depreciation, and either pays no dividends or has only recently begun payments of dividends. Bought for possible appreciation such a stock may in time turn out to be a satisfactory investment, but the purchaser should always realize that he is taking a considerable chance in buying issues of this class.

Ca.

Stocks having a "Ca" rating are usually non-dividend payers, but issues on which a reasonable percentage is being shown in earnings. Generally, if a stock is given this rating it is approaching the time when it may begin moderate dividend payments.

C.

The stock issues which are given the "C" ratings are the large number of common stocks which are in the generally speculative class. They usually sell for much less than their face value, and while the records indicate that many such stocks may be headed for a better position, yet they have not yet reached a point where they are entitled to any rating beyond that of speculations.

Daa, Da, and D.

Stocks having these ratings are also on a purely speculative plane. Sometimes from this speculative standpoint such stocks might prove bargains to buy, as they usually sell at low prices. But purchasers of such securities are, of course, speculating on the future and run a substantial risk of ultimately either getting no profit or losing a considerable amount of their money.

E or F.

No attempt has been made to show differences between such issues as are not entitled even to a "D" rating. A few such have been marked either "E" or "F," which, of course, implies practical worthlessness. For example, such common stocks as those which sell for only a few dollars a share, and which could not increase in value even with a great growth in earnings of the company because of the prior claims ahead. They are given an "E" or even lower rating.

NOTE.

In rating the stocks, the question of "equity" is an important one, and the changing equities during the decade of the different railroad stocks have been steadily borne in mind in determining the different ratings. As in the bond ratings, the purpose has been to show the position of the different stock issues in the results of the decade, thereby maintaining a tendency to lean to conservatism in the ratings given, rather than the reverse. See "The Principle of Averages" (page 115) for further dicsussion of this subject.

It must not be forgotten that arbitrary judgment is used to a large degree in making all these ratings. The percentages showing the factors of safety, etc., serve as a general guide, but the rating given is, in many cases, affected by other considerations not shown in figures, such as character of management and of traffic, general position of the railroad system, policy of the company in maintenance and other expenses, and in other ways. The ratings are, therefore, to be looked upon as *indicators* of values, rather than as definite or final opinions.

In order to make the best possible use of the book, every subscriber should read with care the entire Introduction, which will be found on pages 93 to 117. In this Introduction, the entire subjects of railroad operation, management, accounting, and financing are fully discussed and explained, and the principles on which the classification and rating of the stock and bond issues are based are made clear.

The proper principles for studying railroad security values, however, cover a very broad field, and for those who wish to go into this subject more extensively than is done in our Introduction, we have published a separate text-book, entitled "How to Analyze Railroad Reports." This is a handy little volume of about 230 pages, bound in flexible leather, and sells for $2 per copy. It has been adopted as the standard text-book on the subject by many universities and colleges, while railroad officials are making practical use of it in many ways.

DEFINITIONS OF TERMS

NOTE: While most of the terms employed in the Analyses of the different railroad systems are self-explanatory, a full explanation is presented below of the meaning of them all. The user of the book is referred to the general Introduction for a detailed elaboration of the entire subject.

Average Miles Operated.—This indicates the average length of track operated by the railroad in a given year, and does not include the trackage of controlled or leased lines, except where the latter are directly operated. In many cases such lines are directly operated and, therefore, included in the figures given. Where a system owns other important controlled lines, which are separately operated, as, for instance, in the case of the New York Central and Michigan Central, a complete analysis is furnished of the separately operated lines. See "Average Miles Operated" in Introduction.

Extra Main Track.—This item includes second, third, and fourth tracks which the railroad may own and operate, but, as in the case of the average mileage, extra main track belonging to separately operated, leased and controlled lines is not included. The switches and sidings are also not included in extra main track. A separate statement is given of switches, sidings, etc., for nearly all the systems for the closing year of the decade.

Equipment Owned.—This includes all locomotives, passenger and freight cars, and other equipment of like nature owned by the company or embraced in equipment trusts. In many instances, large amounts of equipment are held under equipment trusts, and where possible this fact has been indicated in the analysis. See "Equipment," in Introduction, for discussion of the subject.

Passenger Density.—This is a term indicating the number of passengers carried one mile per mile of road. These figures are not usually given in the railroad reports, but the number of passengers carried one mile is usually stated, and the passenger density can be ascertained by dividing the figures showing passengers carried one mile by the average mileage operated for the year. The density figures are of great value as showing the volume of business done. See Introduction on "Passenger and Freight Density," for full discussion of the subject.

Freight Density.—This indicates the number of tons of freight carried one mile per mile of road, and can be worked out from the annual reports of the railroads, in the same manner as can the passenger density; that is, the number of tons carried one mile, which is stated in the report, should be divided by the average miles operated. It is important that thorough knowledge should be had by the user of the book as to the significance of the freight density, and Introduction on "Passenger and Freight Density" should be carefully read.

Average Freight Train Load.—This indicates the number of tons of revenue freight carried on each train per train mile. Some railroad reports furnish these figures, but many do not. The can be ascertained by dividing the number of tons carried one mile by the revenue freight train mileage. The latter figure, showing the number of miles run within the year by revenue freight trains, is given in practically all reports. As will be seen by examining the Analyses, the freight train load varies greatly on roads of different type and characteristics. See Introduction on "Average Freight Train Load" for complete explanation of the variation of the train load.

Train Mile Earnings.—These figures indicate, in dollars and cents, the amount of money earned on the average per mile by each train operated for both passengers and freight. The figures can be worked out in the annual reports by dividing the total gross business reported by the numebr of miles run by all trains, both passenger and freight. If desired, the same figures can be ascertained in relation to passenger business alone, or freight business alone, and also in relation to operating expenses and net operating earnings. See Introduction on "Train Mile Earnings," for full discussion of this important subject.

Average Passenger and Freight Rates.—These figures show the average rate received per passenger per mile and per ton per mile during the year by the railroad. Many reports state these rates, but where they do not they can in all cases be ascertained by dividing, in the case of passenger business, the passenger gross earnings by the passengers carried one mile, and in the case of freight, the freight gross earnings by the tons carried one mile. The subject of "Passenger and Freight Rates" is fully discussed in the Introduction.

Gross Revenues.—This item includes all operating revenues, and also now includes income from "non-operating" sources, but not income from outside investments or other sources. Under the present accounting requirements of the Interstate Commerce Commission, the gross earnings of the railroads are now reported as gross operating revenue, and include only receipts from sources derived from operation of the property. In the Analyses in this book, the requirements of the commission have been closely followed since 1908. The Gross Revenues are presented in Table B on a mileage basis, and also in full in the comparative income accounts. See "The Gross Revenues," in Introduction.

Maintenance of Way.—Indicates the amount spent by the railroad during the year for maintaining its tracks and buildings. These figures are presented in Table B on the mileage basis, and also in the full income accounts. See Introduction on "The Maintenance Accounts." It is important that this discussion be carefully read, as the maintenance figures are among the most important in the entire railroad report.

Maintenance of Equipment.—This item shows what amount the railroad is spending during the year for maintaining its engines and cars. These figures are presented in Table B on the mileage basis, and also in the full income accounts. See Introduction on "The Maintenance Accounts."

All Other Operating Expenses.—This item includes all traffic, transportation, and general expenses which relate to the operation of the railroad. It does not include taxes or other special charges. See Introduction on "Transportation and Other Operating Expenses."

Net Revenues.—These figures represent the operating profit shown by the railroad through the operating of its trains and do not include any items from outside sources. See Introduction on "The Net Revenues," for a full explanation of this subject. It is especially recommended that the Introduction be read as a preliminary to examining the Analyses themselves.

Total Net Income.—This is the sum of the operating income and the receipts from investments and all other sources distinct from operation. Among such special sources of income are dividends and interest on bonds and stocks owned, in many cases rentals of tracks and terminals, profit from rental of equipment, etc., as well as other miscellaneous items. See Introduction on "Other Income and Total Net Income."

Balance for Charges.—This is the amount of available income left over after deducting all taxes, and also any miscellaneous items properly chargeable in operating expenses.

Fixed Charges.—The fixed charges include all interest on bonds, or rentals, whether in the shape of guarantees on bond issues or stock issues, or otherwise; special charges, such as interest or principal of equipment trusts and other items which must be paid. See Introduction on "Fixed Charges and the Margin of Safety."

Margin of Safety.—This is a percentage figure indicating the proportion of the surplus remaining over after payment has been made of all fixed charges. For example, if the "balance for charges" in a given year is $5,000 per mile, and fixed charges consume $2,000 per mile (or 40%), the "margin of safety" is $3,000 per mile, or 60%. It is an important item and should be closely watched. See Introduction on "Margin of Safety" for a full explanation of this subject. The Margin of Safety is such an important key to the condition of the property that it is especially urged that the chapter on this subject he carefully read.

Surplus Over Charges.—This is the amount of money left over after payment of the fixed charges and is the sum total of the proportion of net income in hand, as reflected by the margin of safety. This surplus is not necessarily the amount available for dividends.

Dividend.—As shown in the tables, this indicates the amount paid out in dividends during each year, per mile of road. Actual dividend payments are shown in the full income statement. It is supposed to include all dividend payments made before carrying any remaining balance into the profit and loss account. See Introduction on "Disposal of Surplus" for elaboration of this subject.

Stock Outstanding and Per Cent. of Whole.—This term, in Table C, indicates the amount of capital stock, both common and preferred, per mile, which is outstanding, and also the percentage it bears to the aggregate amount of stocks and bonds, disregarding such items as rentals, etc.

Bonds Outstanding and Per Cent. of Whole.—This is the same figure relating to the bond issues of the company, and the percentage indicates the proportion of the whole capital which is represented. See Introduction on "Stocks and Bonds Outstanding per Mile."

Rentals Capitalized at 5%.—This column includes all guarantees and fixed obligations in connection with leased lines which the company is responsible for, the same being capitalized on a basis of 5% per annum. The capitalization figure is an arbitrary one, but is employed to harmonize the capitalization figures with the income results, as already explained in preceding chapters. See Introduction on "The Capitalization of Rentals." This is a very important chapter.

Total Gross Capital.—This is the sum total of the stock and bonds outstanding, and the capitalized rentals as given for the period.

Owned by Company as per Balance Sheet.—This represents the securities or investments which the railroad owns and carries in its balance sheet, the figures given being based on the valuations as shown by the company itself in its own balance sheets. Read Introduction entitled "The Capital Assets," for full explanation.

Net Capitalization.—This is the mileage figure showing the net value of the property, including the capitalization of rentals and after the deduction from the total of the investments owned by the property. It is an approximate figures indicating true capitalization. This subject is discussed in detail under the head of "Net Capitalization."

Net Income on Net Capital.—This is a percentage figure showing the relationship between the total net income of the road before deducting taxes and fixed charges and the net capital, as before shown. It is a valuable figure and should be closely scrutinized, as already explained. Chapter on "Net Income on Net Capital" discusses this important factor in detail.

Dividend Records.—In Table C, the rates and amounts of dividends paid per mile for each year are uniformly furnished, and a special margin of safety is worked out to show the proportion of surplus left over each year after the payment of the dividend. For example, if the surplus available for dividends (per mile) is $3,000 (as shown in Table B), and the dividend paid amounts to $2,000 per mile, this means that 66 2/3% has been consumed for dividends, and the balance ($1,000) 33 1/3%, is the "margin of safety" for the particular stock issue in question. If there are two classes of stock, the margin of safety for the common stock is of course based on the surplus shown after deducting preferred dividends.

Bond Record and Ratings.—Where a railroad company has but one or two bond issues outstanding, it is comparatively simple to classify and rate the issues. The margin of safety of the company as a whole fully reflects the position of the issue in cases of this kind. But where there are a large number of liens outstanding, some secured by direct first mortgage on the main lines, others by second or third mortgages, still others by a first lien on branches, or by a partial lien on branches and on main line, and futrher issues secured by joint mortgage or protected by guarantees, etc., it will be seen that the problem of correctly classifying and rating the bonds at once becomes far more complex.

The principle which has been followed in this volume in the matter of rating the bonds is briefly this: The issues which, as viewed from the practical standpoints of earning power, have the first claim on income are given the preference and rated highest; those of a more junior grade are classified and grouped, and in many cases give a joint position, as they have, in practice, a joint claim on income. Junior liens, debentures, etc., of course, are naturally rated lower than the underlying issues.

For a complete discussion of this matter, the user of the book is referred to pages 115 and 116, in the Introduction, under the headings "The Principle of Averages" and "The Bond Records and Ratings."

Stock Record and Ratings.—The same principle is followed in classifying and rating the various stock issues as is done in the case of the bond obligations.

It must be remembered, however, that stock issues, as a class, do not stand in as strong an investment position as bonds, even when they have a heavy margin of safety to protect them. The fluctuations in income available for dividends are naturally wider in this field than the fluctuations in surplus available for charges. And the character of the stock itself also in many cases tends to qualify a rating. A guaranteed stock is often fully as strong and in some cases stronger than a bond, and practically, its claim on income may have preference over the claim on certain bonds of the guaranteeing company. Due regard to such facts as this have been given in according the ratings to the stock issues. Preferred stocks also, as a class, have a better investment position than common stocks, although this does not always hold true.

Thus, the determination of a proper rating for the stock issues does not always depend as much on actual statistical exhibits as is the case with practically all bonds.

ALPHABETICAL INDEX

EXPLANATION.—This alphabetically arranged general index covers every title in the volume. All the Stock and Bond issues, as well as subject titles, are indexed in alphabetical order, regardless of their location in the volume, etc. It is therefore not necessary to know the title of any particular controlling road to find the description or rating of the underlying or controlled bond or stock issues. The plan is followed, as closely as possible, of arranging the titles in proper alphabetical order, disregarding "&" where the latter is part of the title.

For Key to Bond Ratings see Page 19.
For Key to Stock Ratings see Page 21.
For Definitions of all Technical Terms see Pages 24-26.
For Ten-Year Price Range of Stocks and Bonds see Page 1270.

INTRODUCTION

Location and Character of Tonnage

THE three chief elements to be studied in analyzing railroad reports are the *Physical Factors*, the *Income Factors*, and the financial or *Capitalization Factors*. The physical factors or characteristics embrace everything of a physical nature, such as the mileage and location of the road, the equipment owned and used, the character of tonnage transported, the methods of handling the tonnage and passengers, the efficiency of operation of the trains, and the average rates received per person and per ton for transportation services performed.

Many of the railroads furnish their stockholders with quite complete figures covering the physical sides of their properties. Usually the railroad report begins with a statement, in condensed form, of the mileage operated. This statement of "mileage operated" indicates the *average* number of miles of main track operated within a single year, and is usually sufficiently elaborate to show in detail the entire mileage of the system, indicating where this mileage is located and what points it reaches, showing the number of extra main tracks and their mileage, and also the mileage of yard tracks, switches and sidings. Most railroad corporations also present with their annual reports a complete map of the entire railroad system, enabling the stock- or bond-holder to see at a glance just where the railroad runs, what cities it enters, what connections it has with other lines, and what the general character and type of territory are in which it is located.

The majority of railroad reports are so arranged that, following a statement of the mileage operated, a statement of earnings, or a condensed income account, is presented. But to examine the report systematically and scientifically, the location of the road and its mileage should be immediately followed up by an examination of the nature of the tonnage which is transported on the property. The character of the tonnage has direct relationship to the location of the property, and to the type of territory. In other words, railroads are directly dependent for their prosperity on the particular industries which are dominant in the territories through which they run, and the prosperity of those industries and their general stability are at the base of the success of the railroad itself. So we find that a railroad like the Gulf & Ship Island is largely dependent on the lumber industry; the Boston & Maine and Maine Central are dependent on diversified local traffic, their through business being a factor of minor importance. The New Haven is more largely dependent for its success on the maintenance of passenger rates than it is on the maintenance of freight rates, as passenger business predominates and is a large source of revenue. The Reading, New Jersey Central, and Lehigh Valley are dependent largely upon stable conditions in the anthracite coal fields, and a large part of their value is bound up in their ownership or control of these great coal deposits. The Chesapeake & Ohio, the Norfolk & Western, the Hocking Valley, the Buffalo, Rochester & Pittsburg, and to an extent the Baltimore & Ohio, the Erie, and Pennsylvania are dependent upon conditions in the soft-coal industry. Properties like the St. Paul, the Chicago, Burlington & Quincy, the Northern Pacific and the Missouri Pacific are more or less bound up with the agricultural conditions in the territories through which they run. In the event of crop failures or short crops, their earnings are vitally affected, while, on the other hand, in years of "bumper" crops they all prosper to unusual extent.

In view of the foregoing facts, it will be seen that a definite knowledge of the nature and character of tonnage transported by the railroad is a matter of great importance to the owner of the shares or bonds. In this book these tonnage figures have been given proper prominence, and wherever possible a comparison of the tonnage percentages for the entire decade, closing with the last fiscal year, has been presented. In this way the user of the book can see at a glance the changes, if any, which have occurred during the period under review.

Most of the railroads long ago adopted a uniform classification for their freight traffic. This classification is divided as follows:

1st, Products of agriculture, embracing such things as grain, flour, cotton, tobacco, hay, fruit and vegetables, mill products, etc.
2d, Products of animals, embracing live stock, dressed meats, hides and leather, poultry and game, wool packing house products, etc.
3d, Products of mines, embracing anthracite and bituminous coal, coke, ores, stone, sand and similar articles.
4th, Products of forests, embracing lumber and all allied products.
5th, Manufactures.
6th, Merchandise and miscellaneous articles.

There is a very wide diversification in the character of the tonnage transported by the different railroads, and the great dependence of some systems on particular articles for their tonnage is well brought out in the statements given throughout this book. It will be seen, for instance, that, of the total tonnage reported in 1915 by the Baltimore & Ohio Railroad Company, about 64 per cent. represented products of mines; on the New York Central in 1915, 51 per cent. represented products of mines; on the Lake Erie & Western 39 per cent. was so represented, while on the Lehigh Valley about 63½ per cent. was mining products. Turning to Western properties, we find that the Missouri

INTRODUCTION

Location and Character of Tonnage

THE three chief elements to be studied in analyzing railroad reports are the *Physical Factors*, the *Income Factors*, and the financial or *Capitalization Factors*. The physical factors or characteristics embrace everything of a physical nature, such as the mileage and location of the road, the equipment owned and used, the character of tonnage transported, the methods of handling the tonnage and passengers, the efficiency of operation of the trains, and the average rates received per person and per ton for transportation services performed.

Many of the railroads furnish their stockholders with quite complete figures covering the physical sides of their properties. Usually the railroad report begins with a statement, in condensed form, of the mileage operated. This statement of "mileage operated" indicates the *average* number of miles of main track operated within a single year, and is usually sufficiently elaborate to show in detail the entire mileage of the system, indicating where this mileage is located and what points it reaches, showing the number of extra main tracks and their mileage, and also the mileage of yard tracks, switches and sidings. Most railroad corporations also present with their annual reports a complete map of the entire railroad system, enabling the stock- or bond-holder to see at a glance just where the railroad runs, what cities it enters, what connections it has with other lines, and what the general character and type of territory are in which it is located.

The majority of railroad reports are so arranged that, following a statement of the mileage operated, a statement of earnings, or a condensed income account, is presented. But to examine the report systematically and scientifically, the location of the road and its mileage should be immediately followed up by an examination of the nature of the tonnage which is transported on the property. The character of the tonnage has direct relationship to the location of the property, and to the type of territory. In other words, railroads are directly dependent for their prosperity on the particular industries which are dominant in the territories through which they run, and the prosperity of those industries and their general stability are at the base of the success of the railroad itself. So we find that a railroad like the Gulf & Ship Island is largely dependent on the lumber industry; the Boston & Maine and Maine Central are dependent on diversified local traffic, their through business being a factor of minor importance. The New Haven is more largely dependent for its success on the maintenance of passenger rates than it is on the maintenance of freight rates, as passenger business predominates and is a large source of revenue. The Reading, New Jersey Central, and Lehigh Valley are dependent largely upon stable conditions in the anthracite coal fields, and a large part of their value is bound up in their ownership or control of these great coal deposits. The Chesapeake & Ohio, the Norfolk & Western, the Hocking Valley, the Buffalo, Rochester & Pittsburg, and to an extent the Baltimore & Ohio, the Erie, and Pennsylvania are dependent upon conditions in the soft-coal industry. Properties like the St. Paul, the Chicago, Burlington & Quincy, the Northern Pacific and the Missouri Pacific are more or less bound up with the agricultural conditions in the territories through which they run. In the event of crop failures or short crops, their earnings are vitally affected, while, on the other hand, in years of "bumper" crops they all prosper to unusual extent.

In view of the foregoing facts, it will be seen that a definite knowledge of the nature and character of tonnage transported by the railroad is a matter of great importance to the owner of the shares or bonds. In this book these tonnage figures have been given proper prominence, and wherever possible a comparison of the tonnage percentages for the entire decade, closing with the last fiscal year, has been presented. In this way the user of the book can see at a glance the changes, if any, which have occurred during the period under review.

Most of the railroads long ago adopted a uniform classification for their freight traffic. This classification is divided as follows:

1st, Products of agriculture, embracing such things as grain, flour, cotton, tobacco, hay, fruit and vegetables, mill products, etc.
2d, Products of animals, embracing live stock, dressed meats, hides and leather, poultry and game, wool packing house products, etc.
3d, Products of mines, embracing anthracite and bituminous coal, coke, ores, stone, sand and similar articles.
4th, Products of forests, embracing lumber and all allied products.
5th, Manufactures.
6th, Merchandise and miscellaneous articles.

There is a very wide diversification in the character of the tonnage transported by the different railroads, and the great dependence of some systems on particular articles for their tonnage is well brought out in the statements given throughout this book. It will be seen, for instance, that, of the total tonnage reported in 1915 by the Baltimore & Ohio Railroad Company, about 64 per cent. represented products of mines; on the New York Central in 1915, 51 per cent. represented products of mines; on the Lake Erie & Western 39 per cent. was so represented, while on the Lehigh Valley about 63½ per cent. was mining products. Turning to Western properties, we find that the Missouri

Pacific, in 1915, depended to the extent of 21 per cent. on agriculture for its tonnage and 19 per cent. on forest products. The Missouri, Kansas & Texas reported 43 per cent. in mining products, and 25 per cent. in products of agriculture.

The more diversified the tonnage of a railroad and the less dependent it happens to be on any one or two types of industry, the stronger and more stable its traffic is apt to be. Thus the New England properties, like the New Haven and the Boston & Maine, on which the freight tonnage is unusually well diversified, can be expected to make a more satisfactory showing of stability, in good times and in bad, than can those railroads where the traffic is not so well diversified. The Boston & Maine, in 1915, reported its products of mines at 26 per cent. as the heaviest single class of tonnage, and its mining classification was itself well diversified. The same fact is true in relation to the Atchison reports of recent years.

Therefore, in considering the relative positions of different railroad companies, the length of track, as well as the characteristics of the territory covered and the type of tonnage carried, is a matter of vital importance. Superiority in these respects does much to put systems like the Atchison, the Baltimore & Ohio, the Canadian Pacific, the Great Northern, the New York Central, the Northern Pacific, the Pennsylvania, the Southern Railway, the Union Pacific and the Southern Pacific in a more desirable investment position than properties like the Chicago, Indianapolis & Louisville, the Toledo, St. Louis & Western, or the Mobile & Ohio. One of the elements of strength in the Southern Railway property which has enabled it to present a good record in recent years has been the fact that the system is of wide extent and penetrates much territory. The Toledo, Peoria & Western, confined to a small section, may make a fair showing in good times, but fails to earn its charges in poor times; the Lake Erie & Western and the Cincinnati, Hamilton & Dayton, confined within a narrow range for their business, have been at a disadvantage to meet periods of depression, entirely aside from the matter of diversity of tonnage.

The Management of the Railroad

OF equal importance with the geographical location of a railroad property, and the physical facts which grow out of that location, is the question of control or management. As position and credit among individuals are based largely on reputation for ability and past good records, so also the credit of a railroad property, other things aside, is better where that property is in the hands of men of acknowledged ability, integrity, and financial strength than where the reverse is true. It is a matter of far-reaching meaning to know whether a property is under the control of railroad builders or railroad speculators; to know whether the men at the head of the system are bent chiefly on operating it for the benefit of the real owners or for the benefit of themelves. In the days of Fiske and Jay Gould the Erie road had little or no credit; its volume of business grew as its territory grew in population, but the management was engaged in making it a football for speculation and not a well-operated and soundly financed business. While these conditions lasted and the standing of the property went from bad to worse, other railroads of like physical character, such as the Pennsylvania and the New York Central, were being managed with ability as business enterprises and were steadily building up their financial and operating strength, the fruits of which they have enjoyed in subsequent years.

Therefore, it is of great value to know something about the personnel of those who are the responsible heads of the railroad, and the statement of management is given in this book in the analyses in prominent position following the preliminary outline of location, etc. Each statement contains a full list of the officers and directors, and little trouble will be found in analyzing the significance of these names. Not only do they show managerial strength or weakness, as the case may be, but the general intercorporate relationships with other properties are indicated in this way. While many railroads have no alliances with other lines, in the technical sense, owning perhaps no securities to represent connection and control, yet the personnel of the directorate may be duplicated in many cases. Thus we find that men who are officers and directors in some Eastern railroad may also be officially connected with and influential in the management of other roads in other sections of the country, thus showing a connection entirely independent of that reflected by ownership of securities, lease or other control.

But the alliances of this nature are in most cases also reflected by stock or bond holdings of one railroad by another. The intercorporate relationships so brought about are of a far-reaching nature and of great significance. For example, the Pennsylvania Railroad not only controls numerous lines which are separately operated and which are grouped in this book under the general head of the Pennsylvania system, but it has important stock interests, and, therefore, some voice in the control or policy of a large number of other important railroad companies. Among these may be mentioned the Southern Pacific system, the New York, New Haven & Hartford system, and the Reading. The Baltimore & Ohio, on the other hand, itself has stock interests of importance in the Reading Company, and, therefore, in the New Jersey Central system. The Illinois Central is largely owned by the Union Pacific interests, who also have an interest in the Chicago & North Western and large stock holdings in the New York Central. In fact, nearly all the great railroad lines hold interests of some amount on other large systems, in addition to the holdings represented by control of many so-called subsidiary properties. This has resulted in segregating the railroad mileage of the country, in a broad sense, into a few enormous groups, and the final question of managerial policy is traced to the personnel of these groups.

The Results of the Decade

AN important question in relation to railroad results and earning power generally is that of permanency, and it is a matter to which entirely too little attention is given by the average investor. What the railroad may have done in the matter of earnings last year, which was a poor year, may be a very poor indication of what it can do in better times or what it did do in a period of prosperity. Consequently, the very poor earnings of 1913 and 1914 may

entirely mislead when the question of income in 1915 and 1916 comes to be considered. Many investors in both stocks and bonds were woefully misled by the 1906 and 1907 results of railroads, just as they were afterward misled by considering only the bad figures of 1914, or the lack of pronounced improvement in the earlier months of 1915.

The truth is that the principle of judging railroad securities on results for short periods is just as unsound and illogical as estimating the value of anything else of a business nature without considering the past record. A department store, if offered for sale, will bring more money (and it is worth more) if it can present a record of prosperity over a period of ten or twenty years, than one which, while it may be currently doing as well as the other, has no strong record back of it. The same principle applies with equal force to the business of a railroad. With a 10-year record as a dividend payer its stock will sell currently at a higher figure than were its dividend record only two years in duration; and this would be true were all else equal. An example of this is shown in connection with the Kansas City Southern and the Union Pacific. Each property has outstanding a preferred stock issue receiving 4 per cent. dividends per annum, and limited to that amount. The Union Pacific has paid its 4 per cent. dividend in every year since 1899, and on the average for the decade has earned the dividend five times over. The Kansas City Southern has paid its preferred dividend for ten years and has earned a sufficient amount over each year to place the stock apparently on a safe and permanent dividend basis. But there is really no comparison between the two stocks as to security and position, when the results of the decade are considered. An examination of the Kansas City Southern record would quickly divulge the fact that to show the same margin of surplus beyond dividend payments for the past ten years as did the Union Pacific beyond its 4 per cent. preferred dividend, it could have paid not more than 1½ per cent. per annum on its preferred stock issue, thus indicating that, judged on the average results of the decade, the Kansas City Southern preferred has nothing like the secure position which the Union Pacific preferred enjoys.

The same idea is applicable to railroad results generally; and it is on this basis of averages of 10-year results that the entire scheme of analysis is worked out in this volume. In every figure presented, the *yearly* average of every factor is presented, for each year of the decade, and then these yearly averages are themselves averaged, thus showing *the average yearly results of the entire decade.* By this method, a basis is reached which strongly emphasizes the element of permanency and stability, taking into consideration, as it does, good times and bad, poor managements and good, changes in costs of material, of wages and of operation, rises or falls in freight and passenger rates; as well as the periodical changes in character of traffic and of tonnage.

It is believed that the 10-year averages thus shown present as sound and conservative a basis for relative comparison of results as can be found, and in addition to being used as the standard for classifying the security issues and giving them a rating, the 10-year averages are employed for purposes of comparison with other properties of like general character.

Of course the application of this 10-year average principle is to be taken in given cases with proper qualification, and wherever in this book, extraordinary or unusual conditions enter in to affect the general result, reference is made to such conditions in the text. As pointed out in the preface, the changes in the accounting methods within the past few years have, in some of the items, varied the amounts and percentages for single years to some extent, but these changes, while in some cases producing a slightly inaccurate comparison between the last few years, have had little effect on the 10-year-average results.

Relative Values in the Railroad—The "Railroad-Mile"

ALL things are relative and must be measured by a fixed standard. This is just as true in considering railroad results as in considering other things. We cannot measure or compare the relative worth of a day's work and a pair of shoes except by measuring both according to a fixed standard of value, and this standard we call money; and we cannot measure the relative worth of a given piece of railroad property or a given amount of railroad results, except by means of a fixed standard for comparison, and this standard we call the "railroad-mile." In other words, to ascertain intelligently the condition and earning capacity of a railroad system we must consider everything in relation to the length of line operated, and measure all results by this standard. We must do this both in comparing the results over one year with the prior year or years, and also in comparing the results shown by one property with the results shown by another. If we do not do this any examination of railroad figures or railroad results which we might attempt to make would mean little or nothing and would lead in many cases to perfectly grotesque conclusions.

To illustrate: A given railroad may have doubled its equipment, as represented by the number of engines and cars owned, within a space of five years, and this fact, considered without relation to changes in the mileage figures, would lead one to assume that the volume of business, as well as the tangible value of the physical property, had shown gratifying growth within the period. But if in the same years the operated main track mileage has grown in equal or greater proportion, then the fact is quite apparent that the volume of business may not have grown at all, and the actual ownership of movable property, as represented by engines and cars, may not be any greater, *per mile of road operated*, than was the case before. The same principle applies to all figures presented in the railroad report. Its gross business may double in amount of money in five or ten years, but if the mileage has trebled in that time, then the traffic of the road is not nearly so dense as it was at the beginning of the period. Its earning capacity is declining. But if we measure the gross earnings each year by figuring the amount earned per mile, we then get an accurate scientific basis for comparison, and can measure the figures with those of other properties which we also reduce to a uniform mileage basis.

The same idea applies with equal force to all the income records, including operating and maintenance expenses, income from investments and other sources, fixed charges, dividends and surplus. And when we come to the

examination of questions of capitalization, the only measure we can use in a relative and comparative way is that of the length of line operated. The application of this principle to all parts of the railroad report is the only sound method which can be employed for analyzing the roads and their securities.

But while all exhibits made in the railroad report can be intelligently analyzed by methods of comparison with like properties, the fact should never be lost sight of that many qualifying factors are constantly entering in which must be given due weight. Take the maintenance accounts, for example. Two properties, operating in generally similar territory, and transporting similar types of traffic, should, other things being equal, spend about the same proportion of their gross receipts in the upkeep of road and equipment. But it may be that in one case a large portion of the mileage is new, while in the other the road has been operating its entire trackage for many years, and both its rails and equipment have had to stand the test of wear and tear to their limit. It is obvious, in such a case, that the older property, for this reason, should have more money per mile spent on it for its general maintenance than should the newer road. It is often noted that entirely new roads operate their lines at a very low ratio, and they are sometimes open to severe criticism for so doing. But as a matter of fact, they really may be spending even more for essential "upkeep" than the older and more or less worn-out properties which are perhaps disbursing larger amounts in the same accounts. In time, the newer property may have to increase its maintenance charges to the average attained by the older road; but it is no real evidence that sufficient amounts are not being spent if the maintenance accounts are running light for the first year or two of operation.

THE PHYSICAL FACTORS

Grouped under the head of the Physical Factors in the business of railroad operation are the records of Mileage and Equipment as well as other figures bearing on the physical side of the property. Nearly all railroad reports furnish the full figures necessary for making a comparison of the physical factors. Records of this nature in the average reports made to stockholders are not, however, always arranged in such form that the ordinary investor, not familiar with accounting principles, can make much use of them. Tabulations presenting freight or passenger traffic statistics, and embracing such items as "train-miles," "locomotive miles," "train mileage per mile of road" and "average number of passengers per train or engine mile," have little or no meaning to the average shareholder, and, as far as he is concerned, he apparently feels that they might as well have been left out of the report. But if he had some method for placing such figures in proper relationship to the other things in the report which he can understand, he would grasp their importance and meaning at once. And if, in addition to this, he could compare these and other figures shown with results and records of previous years, he would quickly find that the railroad report, instead of being made up of a large amount of technical matter which is of interest to railroad managers only, really embraces nearly all items required for making quick and intelligent comparative deductions.

But even when investors and dealers in railroad securities do possess the knowledge required for placing all the figures in the reports in their proper relationships, and are fully capable of making sound deductions, it is not possible for many to secure the necessary records more than a year or two back. Railroad reports themselves usually get out of print after a year or so; the current periodicals seldom publish the full records, while the old line railroad manuals give some of the facts, but not all. Therefore, one of the chief purposes of this volume is to furnish the complete back records of all the railroads for the full period of a decade; and this has been done in practically every case in the reviews of the railroad systems. As already stated, the deductions finally made for showing the position and value of the different security issues are all based on the average results of the decade closing with the last fiscal year.

Average Miles Operated

THIS is the "yard-stick" by which everything is measured, and indicates the length of line operated by the company during the given year. "Average miles operated" does not include second, third, or fourth track, nor any mileage controlled but not directly operated. The figures given on which the results apply are the operations or earnings of directly operated lines alone; that is, the results of lines which figure in the income accounts of the company. They often include the results of a leased or controlled line, but only where the leased or controlled line is directly operated; and in this case the mileage of the leased or controlled line is included in the "average mileage operated" of the main system. Where such mileage is separately operated, a separate analysis is of course necessary. For example, in the case of the Reading Company system, an entirely distinct statement is furnished for the Central Railroad of New Jersey, which is the leading separately operated controlled line.

It might be assumed that a better comparison could be made on the basis of length of track rather than length of line. That is to say, while all railroads have some extra tracks, such as second, third, and fourth tracks, yet it may seem that a comparison of two roads, one of which is 90 per cent. single track and the other only 50 per cent. single track, would be misleading. And it would, if the fact of the extra track or proportion of extra track were not taken into consideration. But it will be easily realized that to work out all the comparative figures on the basis of length of track would lead to very inequitable comparisons and grotesque results. Extra main track on a railroad does not in any case reflect the same earning capacity as the first track. A second track on an ordinary railroad line in the Eastern States might perhaps add from 30 to 50 per cent. to the possible capacity, but it would in no case double the capacity. Therefore, length of line in second track is not of the same relative significance as length of line in first track. The New York Central has a large percentage of extra main track, a substantial proportion of its main line being equipped with from three to four tracks. On the other hand, the Erie Railroad has a lesser percentage of extra main track and a large portion of its main lines are still single track. Yet the density of freight business on the Erie system, as shown by the records, is far greater than that of the New York Central. In 1915 the

Erie reported a freight density of 3,301,205 as compared with 2,803,146 for the New York Central. While extra main track is a factor of importance, it cannot be used as a mileage basis for a fair comparison.

At the same time the existence of all extra main track and its length must be considered in any comparative examination of railroad results, and in the following Analyses it will be noted that a statement of extra main track, wherever it exists, is furnished with the record of average miles operated of main track each year. These two columns thus convey to the user of the book the proportion of the average mileage which is equipped with more than one track, and, of course, show the trend of improvement in that direction. Where extra main track is increasing in greater ration than the main track mileage, it is an indication that the capacity of the road for handling its business has been increased and that its volume of business in general terms should be growing. As an illustration of this, an examination of the Illinois Central statement in this book is worth making. During the decade the average mileage operated (length of line) of the Union Pacific system has increased from 5,404 miles to 7,784 miles, an increase of over 44 per cent. During the same period its extra main track has grown from 168 miles as reported in 1906 to 1,097 miles in 1915, an increase of over 640 per cent. All of this increase has not, of course, been second track, some being third or perhaps fourth track. But every extra track which is main track mileage—that is to say, not switches, yard tracks, or sidings—is treated as extra main track.

As will be seen by a general examination of the Analyses, very few railroads of the United States can boast of extra main track up to 50 per cent. of their length of lines. Systems like the New York Central, the Pennsylvania, and New Haven report more than 50 per cent. in extra main track, but it must be remembered that a proportion of this is represented by third and fourth tracks and that, therefore, a very substantial part of the system is equipped with one track only. In the Western States most of the railroads are almost entirely single track, even a property like the Burlington reporting extra track equal to only 10 per cent. of its operated mileage and the Atchison reporting only about 9 per cent. The Missouri Pacific reports for 1915 only 269 miles of extra main track on its entire system of 7,285 miles, while the Kansas City Southern, with 837 miles operated in 1915, reported but 23 miles of extra main track. The Missouri, Kansas & Texas reported only 120 miles of extra main track.

Wherever possible in the Analyses the miles of yard tracks and sidings for the latest fiscal year are also stated, thus enabling the user of the book to get a complete general idea, not only of the length of the line and the trend of growth in length of line for the decade, but also the density of growth which is reflected by increase in extra main track, and in addition to get some conception of the amount of mileage involved in terminals, switches, etc. Having these general facts before him and comparing the averages as shown in the table with the average mileage and extra main track figures of the properties, he will be in a position to make an intelligent comparison. For example, the relative difference will be seen at a glance between the mileage of the St. Paul and the mileage of the Chicago & North Western. For the year 1915 the average mileage operated on the St. Paul was 10,053 miles, and the extra main track averaged 1,146 miles, while on the Chicago & North Western 8,108 miles of average main trackage were operated, with 1,114 miles of extra main track, showing at once that the North Western is equipped with a much higher percentage of extra main tracks than is the St. Paul. The same test applied to the Burlington would show that whereas the Burlington main track mileage averaged 9,339 miles for the year 1915, the extra main track averaged but 949 miles, a lower percentage in relation to the total length of line than that reported by the St. Paul.

So much for the trackage figures, which, as represented by mileage operated, as already stated, are the basis for working out all the comparisons and making all the deductions shown in the Analyses.

Equipment

THE equipment of a railroad consists of its movable property, that is to say, its engines and cars. Equipment as understood in railroad reports does not include such property as buildings, stations or other structures. It does include floating equipment, such as boats, tugs, etc., where a road has use for such, but as instances are rare where floating equipment is relatively important, the equipment question resolves itself almost wholly into the field of locomotives and passenger and freight cars. Just as it is important to know something about a railroad's location, its character of traffic and its length of lines, so it is important to have at hand full facts regarding its actual, movable property. In fact, the equipment is the machinery with which it does its business; it is constantly in motion, subject to endless wear and tear, and requires constant replacement. Every railroad report which is properly constructed furnishes a full statement of equipment, showing not only the number of engines owned, but usually the weight and tractive power of these engines and often their age and also the number of engines destroyed or displaced from service within the year and the number of new engines acquired. The total number of engines shown in use for the year is the net number after adding the new engines and deducting those destroyed or worn out. The same plan is followed in statements of passenger and freight equipment as well as company cars. The term "company cars" signifies those cars used for company work, and includes dirt cars, derricks, cabooses, etc. Company cars are separately classified, as they are not supposed to be direct revenue producers. On representative systems the company cars usually equal about 3 per cent. of the total number of freight cars owned by the company.

It is sometimes the custom in making up analyses of railroad reports to reduce the number of engines and cars to a mileage basis, just as the earnings are so reduced. That is to say, in addition to stating that the St. Paul owned, in 1915, 1,983 engines, we would divide that number of engines by the mileage operated and thus ascertain the number of engines *per mile* or the proportion of an engine per mile. But this method of statement is extremely technical; it involves the introduction of close fractions, and for ordinary analytical purposes is not necessary. Therefore, the plan has been followed in this book of stating for each year the actual number of engines and cars owned or controlled. As the mileage figures are stated on the same page, the relative significance of the equipment and the mileage can in all cases be readily seen, and it is believed in this form will prove more satisfactory and prac-

tical for general uses than if the equipment itself were stated on a per-mile basis. It should be explained also that the statements of equipment given in this book in all cases include, except where otherwise stated, equipment owned in fee and that embraced in equipment trusts. Many railroads follow the plan of "trusteeing" the equipment they buy from year to year, and paying off the obligations out of earnings as the equipment is being used. In this way, by the time the equipment is worn out or by the time substantial amounts have been spent on it for its maintenance, it is entirely paid for out of earnings, and is then owned in fee without having involved the creation of any capital obligations for its purchase. It is sometimes assumed that only those railroads which have poor credit follow the equipment or car trust idea. But this is not true, as most roads of very high credit, such as the Pennsylvania, purchase all their equipment in this way, and pay for it serially out of the operating results of the equipment itself. The figures in the statements in this book properly include the engines and cars held under equipment trusts for the reason that these equipment trusts are obligations of the companies; the payments on them from year to year are usually included in the fixed charges, or at least are deducted from the profit and loss accounts, and in the statements of capitalization they are included as liabilities with the bond issues. Where for special reasons exceptions have been made to this plan the fact is definitely stated in the Analyses.

The 10-year comparative statement of engines and cars shown in each table is of special value in indicating the growth of business of the company and also its increase or decrease in the possession of movable property. Practically all American railroads have shown decided increases in these items during the past ten years, and it is only here and there that a road has reported an actual decline in quantity of equipment owned. The figures are of value for comparative purposes for the different years of the decade and also for comparing one railroad system with another.

In examining the comparative statements of equipment figures in the tables, several qualifying factors should be kept in mind. For example, while the number of engines owned from year to year implies the growth of locomotive equipment, it is not an entirely accurate guide, for the reason that the capacity of locomotives has changed to a marked extent during the past ten years. For example, the average weight of the locomotive used on the Union Pacific system in 1901 was about 55 tons, while those being used to-day measure up in most cases to as much as 83 tons, thus showing an increase in capacity for locomotives equal to perhaps 50 per cent. over the conditions of fifteen years ago. The same facts apply to more or less extent in freight equipment. The introduction of the pressed steel car and the modern freight car of large capacity has resulted in displacing thousands of light-weight, small-capacity cars such as were used a decade or more ago. Thus in many cases where an increase is shown of 25 per cent. in the *quantity* of freight equipment during the decade, it may easily be that the average *capacity* of the freight equipment has increased far more than 25 per cent. For example, if we examine the coal-carrying roads, such as the New Jersey Central, the freight equipment figures should especially be considered with this fact in view. A large part of the New Jersey Central freight equipment consists of coal cars, and prior to 1904 many thousands of these cars were the old-fashioned eight-wheel box cars with a capacity of about ten tons of coal each. But these were rapidly replaced after 1903 with pressed steel cars of a capacity six to ten times as great, and, of course, the quantity of individual cars owned naturally declined. But the general business demands of the New Jersey Central grew so rapidly during this period that the actual decline in number of cars owned was very small, and in 1915 the company reported a much larger number of freight and company cars than it reported in 1904, just before the rapid replacement began.

The same facts should be borne in mind in relation to passenger equipment. The replacement which is constantly going on results each time in progressive railroad systems, in cars of better construction and larger capacity taking the place of those displaced, so that the mere quantity in itself is not a complete guide to the matter.

Proportion of Freight to All Traffic

IT is important to know, in examining a railroad report, what proportion of the business done is represented by the freight and what proportion by passengers or receipts from other kinds of transportation. As a whole, American railroads report an average of about 23 per cent. in passenger traffic, the remaining 77 per cent. being made up of freight, expressage, mail matter, etc. Eastern roads, as a rule, report a larger proportion of passenger traffic than those in the West and South, and, as a matter of fact, there is a fairly wide variation between the percentages on the various railroad systems even when located in the same territory. For example, while the percentage of freight to all traffic on the Pennsylvania Railroad averaged for the decade ending in 1915, 73 per cent., on the New York Central it averaged only 59 per cent. On the Norfolk & Western it averaged 85 per cent., while on the Baltimore & Ohio it averaged 78 per cent. The Delaware & Hudson reported an average of 83 per cent., but the Delaware, Lackawanna & Western average was but 72 per cent. Going further west we find that while the percentage on the Chicago & North Western was 67 per cent., on the Illinois Central it was also 67 per cent. The Hocking Valley business was 80 per cent. freight traffic, while that of the Pittsburg & Lake Erie was 88 per cent. In the East, the New Haven, which depends chiefly on passenger business, reported an average of only 49 per cent. for freight, while the Long Island Railroad, the traffic of which is confined to a very limited area, reported a freight percentage averaging but 29 per cent.

The value of this record showing the proportion of freight to all traffic is twofold. First, it indicates the character of traffic which is of most importance to the railroad and which is the source of most of its income, thus enabling the person examining the record to know the significance of changes in the freight or passenger rates and also when examining the operating records to judge properly the maintenance and operating costs. In addition to this, a 10-year comparative record shows at a glance any changing trend which may be going on in the character of the traffic.

Passenger and Freight Density

EVERY complete railroad report should contain statements showing the number of passengers carried during the year, the number of passengers carried one mile, the average number of passengers carried, and various other records of the same nature. Under "freight traffic statistics" figures should also be furnished of the number of tons carried during the year, with the number of tons carried one mile. As a general thing, entirely too little attention is given to these figures by the average shareholder when examining his report. The relationship of these figures to the general earning capacity of the property is not appreciated or understood and, therefore, these operating records are passed by without examination or analysis.

It would be well if traffic statistics of this kind were presented in more intelligible form and if comparative records were shown extending over a series of years. The chief value of these figures to the investor is that by means of them he can ascertain the relative volume of business being done by the railroad in both passengers and freight and, if he has the complete records at hand, can make comparisons both with the records shown in previous years and also with the records made by properties of similar type and operating in similar territory. But the average investor does not have at hand a series of reports covering a term of years, and therefore cannot readily make an intelligent use of the figures. As a matter of fact, these traffic figures are not amenable to comparison unless reduced to the mileage basis just as all other operating records must be. For example, an investor examining the Baltimore & Ohio annual report for the year ending June 30, 1911, will find it stated under the head of "passenger traffic statistics" that the number of passengers carried during the year was 21,969,166, and that this was an increase of 862,046 as compared with the previous year, a growth in number of about 4 per cent. Following this he will find that the number of passengers carried one mile is given as 795,884,886. He will then find it stated that the number of passengers carried one mile *per mile of road* was 179,506. Passing to the freight traffic statistics, he will find a record of the same kind in relation to the tons carried, the number of tons carried being 60,547,887, the number of tons carried one mile, 11,703,539,445, and the number of tons carried one mile *per mile of road*, he will find stated as 2,639,634, which is shown to be a decrease of about 3 per cent. as compared with the figures of the previous year.

It is one of the main purposes of this book to enable the investor to employ these figures simply and intelligently in the use for which they are intended. In the table of Physical Factors in each analysis it will be noted that the figures showing passenger density and freight density are presented for each year of the decade, with the complete 10-year averages and comparisons. "Passenger density" is simply an abbreviated term for the figure showing the number of passengers carried one mile *per mile of road*. Its value is relative purely and it shows concisely the volume of passenger business done and the increase or decrease from year to year, thus indicating the upward or downward trend as the case may be. When compared with other properties it indicates which roads are doing a heavier relative passenger business. Exactly the same principles apply to the figures showing "freight density."

Average Freight Train-Load

THE "train-load" indicates the *number of tons of revenue freight carried on the average on each train operated per mile*, and its great value is in its indication of the efficiency or non-efficiency of the operating methods of the property. If the train-load of a railroad is increasing it usually means that its volume of business is growing, that it is carrying less half-filled cars, and therefore generally doing its work more efficiently. The train-load is ascertained by dividing the number of tons of freight carried one mile by the freight-train mileage. Each report presents the figures of the latter, which are the aggregate number of miles run during the year by all freight trains which have been operated for revenue.

There is great variation in the train-load of railroads in the different parts of the country, and the size of the train-load has direct relation to the character of tonnage carried. The coal-carrying roads, which operate at low cost and receive very low freight rates and must, therefore, run extremely heavy and long trains, generally show a far heavier train-load than those which carry higher grade tonnage. To illustrate, the New Haven road, which does chiefly a "high-grade" freight business, reported an average train-load for the year 1915 of but 333 tons, while the Pennsylvania, with its tonnage made up to the extent of 65 per cent. in mining products reported a train-load of 727 tons. The Norfolk & Western, operating in the soft-coal fields, reported in 1915 an average train-load of 841 tons, while the Chesapeake & Ohio reported in the same year 1,035 tons. The railroad reporting the heaviest train-load of any in the country is the Virginian Railway, where in 1915 the average was over 1,469 tons. The Western grain-carrying roads, such as the St. Paul, show a much lighter average in this respect, and range usually between 350 and 450 tons. The Rock Island reported for the year 1915 an average of 321 tons and the Burlington 492. Turning to the Southern States we find that traffic is still lighter and that a road like the Central of Georgia reported 295 tons for the year, the Atlantic Coast Line 236 tons, and the Seaboard 282 tons.

There is a direct relationship between the traffic density and the train-load, and as a usual thing, with an increasing freight density there will be a growing train-load. This does not always follow, however, as is illustrated by again recurring to the figures of the Baltimore & Ohio, where, with only a moderate growth in freight density, the train-load increased from 420 tons in 1906 to 693 tons in 1915. Variations in the train-load result from a number of causes. If, as is the case with the Erie, and to some extent with the Pennsylvania, heavy grades are a feature of the line, and, therefore, in many instances two or three engines are attached for long distances to trains, the relative average train-load will naturally be heavier than where these conditions are not present. The Great Northern has always been noted for its heavy train-load, but here is a case where the *absence* of grades is a factor. As a general thing, the Great Northern operates heavier and longer trains than any of its rivals, and it is able to do this for the

reason that where they must climb mountain ranges it avoids the steepest grades. Its average in this item for the year 1915 was 650 tons as compared with 390 tons on the St. Paul and 573 tons on the Northern Pacific.

So it will be seen that, dependent on the policy of the company, and also on the topography of the territory, a train-load may be either heavy or light. With the low-grade, coal-carrying roads it is heavy because they operate large capacity trains with single engines; with the steep-grade coal carriers, it may be heavy when they operate long trains with two or more engines attached, as in the case of the Erie, and the Pennsylvania system on such lines as the Northern Central.

As arranged in the Analyses, the train-load records will prove of much value. Their worth to the holder of securities is, as already pointed out, in their comparative use and in relation to the trend, and in connection with the showing made by other properties in similar territory.

Train-Mile Earnings

THE table showing comparative figures over the decade of the train-mile earnings of the different properties is of very great value in analyzing the securities of the railroad. The averages are obtained by dividing the total gross receipts of the year (given in totals in all reports) by the "revenue train-mileage." The latter figures are always given among the traffic statistics, and are simply the number of miles run during the year by all passenger and freight revenue-producing trains. "Non-revenue mileage" (miles run by work trains, etc.), is not usually included in these figures. Any mile run by any revenue train is a "revenue train-mile," and it will be realized that these train-miles in a year run up into the millions. For instance, the Baltimore & Ohio report for 1911 shows that in the freight traffic for the year there were no less than 26,557,919 miles run; which means that freight trains on the Baltimore & Ohio railroad ran a distance in 1911 equal to over one-quarter of the distance between the earth and the sun, and about ninety times the distance between the earth and the moon. Passenger trains ran during the same year 16,369,066 miles, so that if we add the freight and passenger train-miles together, we get a total of 42,926,985 miles as the aggregate distance run by revenue trains of all kinds on the Baltimore & Ohio last year. To give another example, we find by the Pennsylvania Railroad report for the year 1910 that the mileage run by revenue freight trains that year was 31,247,374 and by revenue passenger trains 26,350,862, a total for both of 57,598,-236 miles; a distance equal to nearly two-thirds of the vast space between the earth and the sun. No more vivid idea of the essential character of railroad property—property in motion—can probably be had than by reflecting on such facts as these.

As the total gross operating revenues from transportation on the Baltimore & Ohio in 1911 were $87,264,060, we find that by dividing this figure by the number of miles run by all revenue trains (42,926,985), we will get $2.02 as the gross amount of money earned on the average on every mile run by trains during the year. This amount is the gross revenue per train-mile, or train-mile earnings. Its value in an analysis will be recognized at once. It shows the gross earning power of the property, and is, more than any other, the key to the entire question of railroad values. Considered comparatively, over a series of years, as is done in this volume, it indicates the trend of change from year to year, showing whether the road is improving or declining in its capacity for doing business, and also what its position is in this regard in relation to other properties of like general character.

It can be set down as a general principle that where a railroad is showing a high average in train-mile earnings or a healthy upward trend, there is little fault to be found with the operating side of the property, regardless of what the financial side may be. The Erie, while its capitalization features are not entirely to be commended, makes an excellent showing in earning power for the decade. The earnings per train-mile increased from $2.16 in 1906 to $2.87 in 1915, and the average for those years was considerably higher than that shown by the New York Central. If, however, a road does not improve its train-mile earnings as its traffic grows or as its mileage expands, then, like the decreasing train-load, it is to be regarded as a question for careful examination by the security holder.

The *net earnings* per train-mile can be ascertained in the same manner as the gross, by dividing the net operating revenue by the total train-mileage, thus showing the amount of *profit earned per mile.* On like principles the freight revenue per train-mile and the passenger revenue per train-mile can also be ascertained.

Passenger and Freight Rates

THE average rates received per passenger and per ton-mile are ascertained by the following method: For the average rate received per passenger per mile, divide the total passenger earnings for the year by the number of passengers carried one mile. The result will give you the average figure (in cents or mills) received per mile per person. The same principles applied to the freight traffic (dividing the total freight earnings by the tons of revenue freight carried one mile) will give the average freight rate per ton per mile.

The freight and passenger rate statistics are of great value in the analysis of the railroad report, particularly when used in a comparative way. Compared over a series of years, as is done in this volume, they show the actual tendency toward higher or lower levels, and as the rate directly affects the earnings of the property, a pronounced change in either direction may be of the utmost importance.

Variations in freight rates among different railroads are shown to be much more pronounced than in passenger rates. This fact is chiefly due to the vast difference in the types and classifications of tonnage transported on the different lines. For example, the Chesapeake & Ohio, the freight traffic of which is largely soft coal, reported the average gross rate on freight business for the year 1915 of .38 cent (three and eight-tenths mills) per ton-mile, and in the year 1900 operated on as low an average as .34 cent (three and four-tenths mills). The Norfolk & Western average was .41 cent, that of the Erie .62 cent, the Baltimore & Ohio .55 cent. On the New England properties,

however, where the freight traffic is well diversified and largely of a local nature, we find the freight rates per ton per mile double or more than double those among the class of properties we have been mentioning. On the New York, New Haven & Hartford the average rate for the year 1915 was 1.43 cents, on the Boston & Maine it was 1.12 cents, and on the Maine Central 1.10 cents. Properties of the type of the Union Pacific, operating in the far Western territory, report averages considerably higher than those shown by the coal-carrying roads, but not as high as the figures usually attained in New England. Thus the Atchison reported in 1915 an average of .97 cent, the Southern Pacific 1.10 cents, the Union Pacific .97 cent, and the Rock Island .87 cent. In the Southern States higher rates generally obtain. The Central of Georgia reported for the decade to end of 1915 an average of 1.03 cents, the Atlantic Coast Line 1.20 cents, and the Seaboard 1.07 cents. Rates on the Louisville & Nashville and the Southern Railway ranged considerably lower.

A fractional change in transportation rates, especially in freight, may make a vast difference in the operating results and gross and net income of a railroad property. If a railroad, the operating costs of which must naturally increase with increasing costs of materials and advancing wages, cannot maintain its freight rates or cannot raise those rates in some sort of ratio to the advancing costs of operation, it is apt to be in a very bad way indeed. A difference of one or two mills per ton per mile on the average freight tonnage of a railroad during the year may add or deduct millions of dollars from the aggregate gross business.

The entire problem is bound up with the question of the cost of carrying a ton of freight a given distance. In other words, it is a question of ton-mile cost. The ton-mile cost can only be reduced, on the average, by highly efficient methods of operation, and if this cost advances it simply means that the railroad property will make less money for its security holders. Ton-mile cost cannot be kept down unless the road is kept up. That is to say, a railroad company cannot afford to "skimp" on the maintenance of its property for any length of time, or to curtail its legitimate expenses, in order to make an apparently good showing of profit per ton per mile. Its only hope is to increase the density of its business and to get a larger volume of result out of a given piece of work. Railroad managers realize this, and the effort in all successful fields has been concentrated in this direction for more than a decade.

Earnings and Their Distribution

THE INCOME FACTORS

Like all other figures in the railroad statement, income accounts can only be examined satisfactorily in a comparative way, and the best method by which intelligent comparison can be made is through reduction to the mileage basis. And in considering relative results with other properties the only practical method, as in comparison of physical characteristics, is to compare roads situated in the same general territory, of the same general characteristics, and doing the same general character of business. It will be realized that these comparative results are always to be taken with proper qualifications, as there are often, even in the cases of properties of very similar type, certain cardinal differences which necessarily make great changes in results and fully account for facts which, other things being equal, might strongly affect the final judgment passed upon a property. In the Analyses in this book, therefore, all special factors of importance are referred to or pointed out wherever they exist.

A glance through the pages of the analyzing section of the volume will indicate the general plan which has been followed in comparing the results of one property with another. While in certain final results every railroad in the United States can be intelligently compared (as, for example, we can compare the margin of safety shown over fixed charges by the Pennsylvania with the margin shown by the Louisville & Nashville or the Atlantic Coast Line, or the percentage of gross business on the net capital of any of these lines, and make use of these comparisons as an intelligent guide), yet when we come to compare the relative results as shown in the gross business or receipts per mile of two railroad systems, we cannot, unless we take into consideration the type of territory and the class of tonnage and other traffic, get the best results, and if no other factors are considered, the comparisons thus made might lead to very absurd conclusions. Thus, one might say that the New York, Susquehanna & Western, which in 1915 reported an average in gross operating revenue of $14,043 per mile, made a better showing than the Great Northern, which reported for the same period gross operating revenue of $8,329 per mile; whereas, as a matter of fact, the Great Northern made a far better relative showing than the other and, in fact, a better relative showing than most other railroads in the United States. Similarly, we sometimes see it stated in the offering of securities that a certain railroad is "earning $15,000 or more per mile, while the average gross receipts of all the railroads in the country were in 1915 but $10,500 per mile," thus implying that the road on which the securities are offered is in a superior position in respect to earning capacity. Now, while this may or may not be true in a given case, such a statement as this demonstrates absolutely nothing. The Chicago Great Western in 1907 earned $11,174 per mile, considerably more than the average shown by all American railroads in 1908, but this fact was no argument at all in favor of the financial strength or value of the securities of the Chicago Great Western, which went into receivers' hands and could not meet its fixed charges.

These qualifying factors in matters of location, etc., have been borne in mind in the plan adopted for the comparative showing of results in the different properties. Thus, transcontinental lines in both the East and West are directly compared, "granger" lines are compared, soft and hard coal systems are shown comparatively, Southern properties are compared one with another, while those where local traffic predominates, such as the New England roads, are considered relatively.

As a general proposition, it will be seen that in order to make a favorable showing for these security holders, the coal-carrying roads, of both the anthracite and soft-coal type, must, entirely regardless of their capitalization and fixed charges, do a far heavier business at far lower cost per unit than those carrying grain or other agricultural

products; that Eastern roads, carrying miscellaneous traffic and operating in settled territories, must do more business per mile of line than those in the Southern or Western States, and that all roads in which "through" business predominates must normally report heavier gross earnings than those in which local traffic is the most important factor. All of which once more emphasizes the importance of considering thoroughly the relationship of the Physical Factors to the Income Factors in the railroad business.

As arranged in this volume, the Income Factors are grouped immediately after the Physical Factors, and the same principles of comparison are followed in every case. A 10-year record is furnished of every important operating railroad or system where obtainable; and averages are struck to show the position of the property in the 10-year results. The table presented is, in effect, an Income Account of the road for every year of the decade, all the vital figures being included and reduced to the average mileage basis, thus showing the actual earning power and income results, as well as the distribution of the income earned for every year embraced in the review. Comparison can thus be made on a uniform basis with all other properties of similar type and characteristics.

The General Income Account

THE income account of a railroad, which in condensed form is found in every railroad report and is usually made the most prominent feature, embraces the following items:

1. Operating revenues (gross earnings).
2. Operating expenses:
   - *a.* Maintenance of way and structures;
   - *b.* Maintenance of equipment;
   - *c.* Transportation expenses;
   - *d.* Traffic expenses;
   - *e.* General expenses.
3. Net operating revenue (or net earnings).
4. Income from investments and other sources.
5. Total net income.
6 Taxes.
7. Fixed charges:
   - *a.* Interest on funded and floating debt, etc.;
   - *b.* Equipment charges;
   - *c.* Hire of equipment, etc.;
   - *d.* Rental charges;
   - *e.* Miscellaneous items.
8. Surplus income.
9. Dividends paid.
10. Surplus beyond dividend requirements.
11. Appropriations for improvements, betterments, etc.
12. Balance carried to Profit and Loss Account.

Certain changes required by rulings of the Interstate Commerce Commission (chiefly of a minor nature, however) have affected the comparative results shown by the railroads in the last few years. Thus, where formerly the roads often followed a policy of charging such items as "hire of equipment" separately or in operating expenses, they are now required to state these items separately and may include them under the general head of "fixed charges." Formerly many roads included taxes in their operating expenses, though usually stating the actual amounts separately. The revised method is, generally speaking, a great improvement over the former, and enables the investigator to gauge the actual results with much more accuracy than was formerly the case. In the 10-year comparisons as worked out in this book, taxes have in every instance been shown separately.

The Operating Revenues (or Gross Earnings)

THE operating revenues of a railroad are the gross *operating* receipts from rail transportation; that is to say, the gross amount of money received from the actual moving of trains, and do not include any receipts from sources outside of the railroad operation itself. These sources of operating revenues are classified as follows:

a. Earnings from freight traffic;
b. Earnings from passenger traffic;
c. Earnings from express traffic;
d. Earnings from transportation of mails;
e. Earnings from miscellaneous transportation.

Freight traffic is, of course, the great income-producing source of American railroads, and it is this item which is to be watched most closely by everybody. Taking the American railroads as a whole for the year ended June 30, 1910, we find that the proportion of freight business to all traffic (in dollars, not tonnage or density) was 70 per

cent. Passenger traffic represented 22.87 per cent.; express, mails, and miscellaneous, 4.41 per cent., and "revenue from operations other than transportation" 0.86 per cent. Only a very few large railroads doing an interstate business report a freight business of less than 55 per cent. of the total business done.

On the other hand, we find numerous important railroads reporting a preponderance of freight traffic far above the average mentioned. The Pittsburg & Lake Erie (controlled by the New York Central) reports for 1915 an average of 85 per cent., the Ontario & Western 77 per cent., the Buffalo, Rochester & Pittsburg, 84 per cent., the Lehigh Valley, 83 per cent., and the Great Northern, 75 per cent.

In examining the gross earnings of any railroad the questions of freight rates, train-load and freight density will assume importance in direct ratio to the proportion of freight traffic represented in the total business of the road. One would give more consideration to these matters on the Buffalo, Rochester & Pittsburg and the Great Northern than on the Long Island or the New Haven; one would know that, if a road which formerly carried a smaller proportion of freight to the total traffic, is showing over a long period a definite trend in the other direction, the freight traffic questions are assuming relatively greater importance. The Ontario & Western in 1901 reported 81 per cent. for freight traffic, but in 1915 77 per cent. was the figure shown. Obviously, the passenger traffic is tending to become a matter of more vital importance on this line, and if this trend continues a few years more it will have to be considered more closely than has been the case in recent years. The Atchison records shows that whereas in 1900 the freight traffic represented 73 per cent. of the whole, by 1915 it had fallen to 68 per cent. The same figures, showing the trend, either upward or downward, for all the railroads in the country, can be examined in the pages of the Analyses and the proper deductions made therefrom.

Even a cursory examination of the exhibits made in this book will indicate the remarkable changes which have occurred during the past ten years in practically the entire railroad field, as far as gross earnings per mile are concerned. And unlike increases in operating costs, this vast growth in income has not come about as a result of advancing rates, for the prices charged by the railroads for freight transportation have, on the average, advanced but fractionally during the decade, while the passenger rates have as a whole advanced not at all, and in numerous instances have declined. The enormous expansion in earnings and profits shown by many manufacturing industries, and by the "industrial trusts" generally, has been in large degree the result of advancing prices as well as steady increases in population, and, therefore, in markets for goods. But while the railroads have had the full benefit of the movements in population and the advancement of industry generally, as well as the steady opening up and development of natural resources, they have all made their records in earnings during the decade without the opportunity for increase to any extent in the rates charged for handling tonnage.

The second important division in the gross operating revenue of the railroad is the passenger business. In 1910, as shown by the report of the Interstate Commerce Commission, the proportion of passenger business done by the railroads of the country was 22.87 per cent. of the whole. Like the freight traffic, passenger traffic varies on different lines, roads transporting coal and other minerals with a heavy freight density usually showing a much lighter passenger business than others. With such roads, therefore, the passenger rate is not so vital a factor as it is on lines like the New Haven and New York Central. The rates for passenger traffic on the soft-coal roads are usually higher than the average, while on the trunk lines, where a good deal of through traffic in passenger business is present, the rates tend to much lower levels. Averaged as a whole we find that passenger rates throughout the country are in the neighborhood of 2 cents per passenger per mile, but on the New York Central the rate averaged during the decade ending with 1915 only 1.76 cents, while on the Pennsylvania it was 1.96 cents. Where a road has the benefit of a good deal of local traffic the rate, of course, generally averages somewhat higher.

While the passenger traffic as a whole is a minor factor, yet it is quite as essential that fairly profitable rates should be received by the roads for this class of business as for the freight transportation. Experience shows that most of the roads cannot do a profitable passenger business unless they can average in the neighborhood of 2 cents per mile for their returns in this department. The records presented show that as a general thing during the past ten years passenger rates have tended to decline fractionally, and this means that this falling tendency must soon be arrested or many roads will be carrying on their passenger business at a positive loss.

On the New Haven and New York Central properties the return from passenger business should be closely watched. In the aggregate the gross revenue from these sources runs into many millions of dollars, and a decline of 10 per cent. in the average rate would mean a serious curtailment of their operating revenue and, therefore, a falling off in the surplus made available for charges and dividends.

The other sources of gross revenue represent but a small proportion of the total business of the average railroad. Little need be said in relation to the earnings from express business and from the transportation of United States mails. The rates for this class of traffic are stable and in the main profitable, but, as shown by the record, less than 7 per cent. of the entire operating revenues of the railroads of the country was last year represented in transportation of this type.

Earnings from miscellaneous traffic generally include those smaller items which cannot well be classed under the other heads. Sometimes this miscellaneous operating income amounts to a considerable total, as in the case of the Pennsylvania Railroad, where usually about 2 per cent. of the total operating revenues is reported under this head. But as a general thing the smaller roads report little or no "earnings from miscellaneous traffic."

Before turning to an examination of operating expenses, attention is called to the fact that most roads receive more or less income, or incur some net loss from "operations outside of transportation." Prior to June 30, 1907, such operations were generally included in the gross operating revenues (or gross earnings), but the Interstate Commerce Commission later required these operations to be reported in detail separately. Since 1914, however, they have again been merged directly into the gross revenue accounts. Further comment is made on this subject in proper order.

The Maintenance Accounts

THE most important items which require careful examination in the department of operating expenses are the Maintenance Accounts. The fact that the railroad is normally a moving property, and that its very existence depends upon never-ceasing action in all its parts, makes the question of "upkeep" a most vital factor at all times. Unless a railroad keeps its mechanism in constant repair and continuously offsets the effects of the steady depreciation which results from intense wear and tear, its operating efficiency is soon gone, and its earning power inevitably deteriorates. This latter fact is true even if all sorts of favorable circumstances, such as growth in population, development of natural resources, improved traffic connections or other matters, take place on its lines. And not only is it vital that proper amounts of money should be spent on the property regularly for its maintenance, but it is equally important to know where this money comes from—whether it is appropriated out of earnings or whether capital obligations are created to supply it.

The policy adopted by most railroads in this country in recent years has been to appropriate out of gross earnings for maintenance from 20 per cent. to 35 per cent., dependent upon the needs of the property as related to the gross business which it is doing. There is no such thing as a fixed "scientific" ratio between operating costs as a whole or gross receipts as a whole, although such a theory has been frequently asserted. The appropriations for maintenance on a railroad property must necessarily be made as a result of experience on that property and on properties of like type and doing a like character of business, but one has no more right to say that 30 per cent. of the gross income per mile should be continuously spent for maintenance on a given property, regardless of other considerations, than to say that a railroad operating on a basis of 75 per cent. of its gross business is in better condition and better managed than some other railroad which is operating on a basis of 55 per cent. And yet we see such statements made constantly, and prices of securities have often been fixed for a time by the wide exploitation of this theory. For many years the Great Northern was subject to wide criticism because it steadily operated for less than 55 per cent. of its gross business, and the prediction was freely made ten or fifteen years ago that it could never be permanently successful unless more money was spent per mile in doing the business which it was doing. But in spite of this theory the Great Northern, while continuing to operate at low relative cost, went through a phenomenally successful career, and is to-day in as good condition, both physically and in a traffic-producing sense, as any system in its section of the country.

Maintenance costs, like all other items in the railroad report, are to be judged relatively to other things—to the showing made in the same items in prior years, and to the showing made in the same matters by other railroads of like type operating in like territory. Consequently, railroads with double tracks must spend more for maintenance of way than those having single tracks; roads doing a heavy volume of business, as reflected by the freight-density figures and the train-load, will need to spend more for maintaining their equipment and also their trackage than those of lighter business. The Norfolk & Western, for example, increased its freight density nearly 70 per cent. within the decade, thus indicating a very heavy increase in its volume of business and, consequently, an increase in the wear and tear of both trackage and structures as well as of equipment. It met this increase in the wearing-out process by appropriating $6,895 per mile for all maintenance costs in 1915 as compared with $4,419 per mile in 1906. Considered relatively to the traffic density on the Norfolk & Western this expenditure for maintenance in recent years is probably fully as high, as far as requirements are concerned, as was the expenditure of $13,602 per mile on the Pennsylvania Railroad that year.

The Maintenance Expenses are grouped, as already pointed out, in two divisions—Maintenance of Way and Structures, and Maintenance of Equipment. The different items coming under these heads are, briefly stated, as follows:

Maintenance of Way and Structures includes all expenses for repairs of roadway and track, for repairs and renewals of machinery and tools, for ballasting, for repairs and renewals of switches, ties, fences, bridges, culverts, stations, shops, and other structures used in the business of transporting freight and passengers.

Maintenance of Equipment includes all expenses for repairs and renewals of all freight and passenger cars, locomotives, company cars, other railroad equipment of a movable nature, and the maintenance of shop machinery, etc.

In judging the maintenance-of-way expenditures of a given line, the physical characteristics must in all instances come in for careful consideration. If a railroad is obliged to maintain extensive sidings and terminals in addition to its ordinary trackage, it is obvious that it should spend more than a railroad of the same type in other respects which does not have these characteristics. If the road is doing a single line of business of the type of the Detroit & Mackinac, with light density, comparatively small wear and tear, and has no terminals or extra trackage to keep up, it need not spend nearly so much per mile as would otherwise be necessary. The Detroit & Mackinac spent in 1915 only $345 per mile in maintenance of way, and averaged for that decade only $500 per mile. Yet this small amount has apparently been sufficient to maintain the property at as high a standard as has been necessary for its type of business, and relatively is probably as good as the New York Central's average for the decade of $3,491 per mile. In fact, the maintenance-of-way expenditures on the railroads vary all the way from the nominally low showing of the Detroit & Mackinac to the totals shown by the Pittsburg & Lake Erie a few years ago of more than $12,500 per mile.

The same observations hold in relation to the maintenance of equipment costs. The small Detroit & Mackinac can thrive on an average expenditure for the decade in this item of only $578 per mile, while the heavily equipped Lackawanna requires an average of $5,160 per mile, or nearly nine times as much.

In the light of the 10-year records presented in this volume, the maintenance expenditures for both way and equipment can be judged very fully. It will be noted that, as a rule, very fair comparison can be made between

properties located in similar territory, and although the figures shown cannot always be accepted as accurate guides, as so many qualifying factors enter in to affect the result, yet where there has been a definite lack of proper maintenance expense, or where more has been included in this account than the conditions or requirements would seem to warrant, the fact can be readily detected. In a general way it can be stated that a normal average of $1,000 to $1,300 per mile should be spent for maintenance of way on Western or Southern lines, where practically all the mileage is single track, while the ordinary trunk lines should spend from $1,500 to $1,800 in the same department. In maintenance of equipment, the matter of mileage and type of territory do not govern to the same extent, and the relationship of the costs to the traffic density for both passengers and freight is much closer than in the other maintenance items. The figures showing changes in equipment owned, as tabulated in the Analyses, can also be profitably compared in connection with the maintenance-of-equipment items, as obviously, if the equipment owned is increasing in relation to the mileage operated, the maintenance-of-equipment costs should increase in proper ratio also.

Conducting Transportation and Other Operating Expenses

PRIOR to the adoption of the uniform accounting system in force since June 30, 1907, the railroads usually classified their expenses outside of maintenance under the general head of "Conducting Transportation and General Expenses." This general head has been subdivided by the ruling of the Commission into "Transportation Expenses, Traffic Expenses and General Expenses," while expenses of outside operations were afterwards transferred to an entirely separate account but recently have again been included in operating expenses.

As a railroad's traffic density increases the cost of conducting transportation must necessarily rise, but barring increasing costs of labor and service it should not radically change except in some relationship to changes in gross business and traffic density. If a road's density is increasing and its gross earnings are showing expansion, there is something wrong unless the transportation costs increase also, especially when considered over long periods of time. On the other hand, with traffic density standing still or declining, and gross business falling off, operating costs of this character should decline also, though not necessarily to the same extent. As in any other business, there is a level below which operating costs cannot go. Certain expenses are fixed if the railroad is to operate at all, and often we find the case of a small road which for extended periods will be operated at an actual loss, while more than one large system is burdened with controlled or leased lines which are carried along from year to year by the parent company in the face of constantly recurring deficits. This is another fact which goes to emphasize the importance of making the railroad "work for its board." It cannot stand still, for then it is of little value, while if it keeps moving it must develop sufficient traffic to earn its operating costs, in default of which it is worthless as a going concern.

Generally speaking, if a railroad is showing a record of stability in its traffic and a heavy train-load, the costs of conducting transportation will tend to consume a less percentage of its gross receipts than otherwise. The Norfolk & Western reports an average of about 32 per cent. of its gross business as consumed in operating costs, aside from maintenance, while the New Haven averages about 41 per cent. The train-load on the former for 1915 was 841 tons, while on the New Haven the average in 1915 was but 333 tons. On the Great Northern, with its train-load average of 650 tons, the percentage has been below 32 per cent., while on the Missouri, Kansas & Texas, reporting an average train-load of 310 tons, the figure on transportation expenses exceeds 42 per cent. of the gross.

In examining the relative amounts of transportation expenses on different properties and showing their relationship to the general efficiency of operation, as reflected in the density and the train-load, the strength or weakness of a property is clearly brought to the light. If a property like the Norfolk & Western, with a long record for stable traffic and a steadily growing train-load, consumes only 32 per cent. of its gross receipts in carrying on its business (operating its trains) it is clearly in a much stronger position than the Missouri, Kansas & Texas, which consumes 42 per cent. in the same way. In the event of a pronounced depression, if the gross business of the Norfolk & Western fell off 30 per cent., it could still, with a moderate curtailment of maintenance expenses, continue the full operation of its property and easily carry its charges. But when the gross business of the Missouri, Kansas & Texas falls away to like extent, even with a very drastic cutting of maintenance costs, it falls far short of earning its full charges.

Outside operations, or operations of the company other than transportation, was an account which was added after 1907 under the accounting requirements for railroads of the Interstate Commerce Commission. Prior to the foregoing date, the gross revenue from such operations was generally merged with the "miscellaneous operating revenues" of the company, and the costs of operation of these outside activities were charged in the general operating expenses as "miscellaneous costs." It was claimed that this was unsatisfactory because it tended to hide actual results in this department of the railroad's business, and there were doubtless many cases where operations of this kind were a continual loss to the company entirely unknown to the bondholders and stockholders. But in 1914 the Interstate Commerce Commission restored this account to the general group of operating expenses.

Included in the classification of "outside operations" are the following items: Boat and Ferry Lines; Harbor Terminal Transfers; Electric Railways; Express Lines; Cab and Omnibus Service; Sleeping Car and Parlor Car Service; Dining Car and Restaurant Service; Grain Elevators; Stock Yards; Telegraph and Telephone Lines; Amusement Parks and Resorts; Cold Storage Plants, etc.

All large railroad systems have more or less outside activities of these kinds; many operate their own railroad restaurants, some carry on their own sleeping-car, parlor-car, and dining-car service, a considerable number operate ferries and other water lines. Thus the results from these activities may materially change the net-income showing

for the stock- or bond-holders, and the facts regarding the profitableness of such business should of course be clearly shown in the annual reports.

Sometimes these outside operations steadily show a loss, but this may be no reason why they should be discontinued. There are usually vital reasons why these services are carried on, and indirectly they are supposed to contribute to the general earning-power of the railroad operation itself. For example, the Pennsylvania Railroad does a large business in these outside matters and in 1910 reported total revenues of $5,976,385. But the cost of carrying on these outside businesses was not directly profitable, as a net deficit was reported for the year of $1,309,388. Any one would be foolish to say, however, that the Pennsylvania Railroad should for this reason abandon its ferries, restaurants, boat lines, harbor-terminal transfers, etc. If it followed this policy, much of its passenger and freight business would soon be diverted to competing roads which continued to do these same things.

All railroads, however, do not report a net deficit in their outside operations. The New York, New Haven & Hartford in 1911 reported a net profit of $1,398,338, and the Delaware, Lackawanna & Western a net profit of $210,756. The New Jersey Central also reports a substantial profit in this department of its business.

Net Operating Revenue (or Net Earnings)

THE net earnings or net operating revenue of the railroad is the amount left over from gross receipts after all expenses of operation, including maintenance, have been deducted. It is, in other words, the amount of profit actually earned by the railroad as a result of its operations. It does not include any important profit or net income from sources outside of the actual results brought about by the moving of trains, although before the present accounting system required by the Interstate Commerce Commission was in force, certain items from outside operations were not separately classified. The policy followed in the 10-year averages in the Analyses in this book has been to include such outside operations, as explained above, with both the gross and net receipts.

While the net earnings of the railroad show its net profit-producing power as a railroad, there are very few cases where the net earnings represent the entire income of the property which is made available from year to year for the payment of fixed charges and dividends. Practically all American railroads have outside income in the shape of interests or dividends on investments in controlled and separately operated lines, which adds to the general income of the property and gives the road an increased amount each year with which to pay its obligations, distribute dividends, or make improvements.

The net operating revenue of a railroad can only be properly examined and analyzed after due consideration has been given to the costs of operation and the maintenance. If a railroad is not spending enough for the maintenance of its property or is economizing in too drastic a way in its methods of conducting transportation, its net earnings may appear to be very much heavier than the true circumstances warrant. Investors often examine the net earnings of a property before looking at anything else, and if a road has shown an increase of 10 per cent. in its net earnings over the figures of the previous year, the assumption is at once made that the showing is better than was the case the former year and, therefore, that its securities are stronger. But this does not necessarily follow at all, as the road may very easily have so handled its accounts and so cut down its operating costs that the net results shown will not reflect the true condition of the property. This method has been followed many times in past years by railroad companies, the controlling interests of which were desirous of paying large dividends for a period or enhancing the market prices of the stocks or bonds. The only way in which a railroad can show a proper increase in net revenue for a given period is to increase its gross business or density and currently spend a sufficient amount of this gross revenue in maintaining the property at a certain standard of efficiency and on a certain basis of operation. Temporarily a road may curtail its operating costs to face a period of declining earnings, if it has previously spent sufficiently liberal amounts to enable it to do this with safety. But where a railroad has over a period of years put less into its maintenance or its transportation costs than has really been necessary, it is then in no position, in the event of a depression, to radically reduce these costs in greater ratio than the fall in gross receipts in order to make a good showing in net operating profit.

"Other Income" and Total Net Income

NEARLY all American railroads have important sources of income aside from that of the direct operation of their properties. In many cases this income is a factor of great importance, and represents a very substantial proportion of the total amount of money made available each year for interest and dividend uses.

The "other income" of the railroad is made up of various items, some representing interest on bonds and stocks held for investment, some representing rental of tracks, rental of equipment, some representing receipts from controlled lines on division of earnings, etc. The Pennsylvania Railroad reported its "other income" for the year 1910 as consisting of the following amounts and items:

Interest and dividends on securities owned	$14,999,876
Interest and dividends on securities of United New Jersey R.R. and Canal Co.	174,456
Hire of equipment	362,510
Interest, General Account	1,226,947
Profit from sundry accounts	94,326
Rents	600,732
Total	$17,458,847

It will be seen that the most important item in the above statement is "Interest and dividends on securities owned," and this will be found to be the case with the majority of "other income" accounts of the railroads. Obviously, the question to be determined, then, is what are these investments on which the road is receiving income? Are they securities of other railroads or are they outside properties of some kind?

The answer to this question leads the investigator in many directions. But the question of the sources of the "other income" is, on many roads, fully as vital as that of the operating income itself. Examination of railroad reports will divulge the fact that many of the railroads depend, in large degree, on their "other income" for the payment of their dividends; and, in numerous cases, even a portion of the surplus used for meeting interest and sinking-fund payments comes from the "other income." To cite an instance, we find that the New York Central in 1910 earned (in net), from all operations, the sum of $25,710,613; but its "total net income" (from which sum its interest and dividends were paid) was $41,156,946, showing that its "other income" for this one year aggregated no less a sum than $15,446,333. Reference to that company's statement will show that the amount paid out in dividends by the New York Central in 1910 was $13,363,758, and that this amount practically consumed all the surplus remaining after fixed charges, taxes, etc. (amounting to $26,868,374), had been taken care of. In other words, the New York Central depended entirely in 1910 on its "other income" to pay its dividends, and without this "other income" could have paid no dividend whatever.

Now, where did this "other income" come from? From dividends and interest on securities owned; from interest on money loaned, and from sundry miscellaneous profits. The Lake Shore & Michigan Southern (since directly merged), 90 per cent. of the stock of which was owned by the New York Central, paid 18 per cent. in 1910, and this made up a large part of the New York Central's "other income." The Michigan Central, which was controlled in the same way, paid 8 per cent. on its stock, and this made up a substantial part of the "other income," much of the balance being accounted for by payments made to the New York Central by a large number of smaller lines and companies, in which it had either a minor or important interest, and from many other small and less important items.

The "other income," then, is a source of revenue entirely distinct from that received from the operation of the property, and yet, as is shown in many cases, it is a factor of vital importance in the general result for the period. Consideration of the "other income" figures leads, in the first place, to a direct examination of the balance sheet of the company, where the "investment" account is carried. As "other income" consists chiefly of returns on securities owned, it is at once important to know what these securities consist of and at what valuations they are carried in the balance sheet of the company; in other words, is the return on them sufficient to justify the company to carry them at a certain value? Again examining the New York Central analysis, we find that the "securities owned" were carried on the balance sheet of that company in 1910 at a valuation of $131,557,710. The "other income" for that year was, as already shown, $15,446,330. But a large part of this sum was made up of special items, such as interest on loans, sundry profits, etc., and the actual amount of money received by the company in direct return from its securities owned was about $12,000,000, which was something more than 9 per cent. on the valuation shown, as measured on the mileage basis. This showing indicates that the investments held by the New York Central were not overvalued as related to income for the year 1910.

But this does not finish the analysis. It may be that while the investments held yielded a return of over 9 per cent. in actual dividend or interest payments for the year, they may be undervalued for other reasons, or overvalued, as the case may be. For example, while the Lake Shore paid in to the New York Central but 18 per cent. on its stock in 1910, it actually showed a surplus equal to over 25 per cent. on its stock, a large portion of which went back into the property in the shape of betterment and improvement expenditures. And if we run back a few years in the record of the Lake Shore, we will find that for a long period it had been steadily earning each year a heavy surplus above the amounts disbursed in dividends to the parent company. The logical conclusion from this exhibit is that the equity owned by the New York Central in the Lake Shore property was heavily in excess of the value placed upon that equity in the balance sheet. And further, to follow the showing made by the Lake Shore in its available surplus for dividends, we are led immediately to examine the Lake Shore's sources of income. "Total net income" of the Lake Shore, in 1910, was $14,986 per mile, of which $8,688 was derived from "net earnings" and the balance from "other income." Now, what did the "other income" on the Lake Shore consist of? Like that of the New York Central, it is represented chiefly by dividends and interest on investments. So we are led to examine the balance sheet of the Lake Shore, note the approximate return on these investments, and examine in turn the properties there represented.

Thus it will be seen that the "other income" question tends to lead us far afield, especially where a large railroad system is being examined, and where many controlled lines are represented. The Lake Shore's "other income" was derived from returns on investments in the C., C., C. & St. Louis, the Pittsburg & Lake Erie, the New York, Chicago & St. Louis, and other properties, all of which have their own income accounts, their own liabilities, and their own investments. In fact, under the ordinary methods of analyzing security values, a thorough following-out of facts like these has been extremely difficult; but the plan followed in this book for analyzing the different systems is so arranged that it can be accomplished in practically all cases with great simplicity.

One other important point connected with the "other income" and investment valuations of the various systems should not be overlooked. While, as shown in the case of the New York Central, the return on all investments in 1910 was only about 9 per cent., the fact must be remembered that this was the *average* return on the aggregate investment holdings. These investment holdings were made up of a large number of items, some of which were yielding the company (as in the case of the Lake Shore stock) far more than the average rate of 9 per cent., while a considerable number were yielding nothing at all. The latter may have been of the value given because of other reasons—strategical or potential. The holding of Rutland stock was of no income value, but it may have been re-

garded as of great strategical value. And in many cases, it will be found that the control of a branch line operates as a traffic feeder to a very important extent.

Fixed Charges and "the Margin of Safety"

BRIEFLY stated, the fixed charges of a railroad consist of the following important items:

(*a*) Interest on funded debt.
(*b*) Interest on floating debt.
(*c*) Rentals.
(*d*) Sinking funds.
(*e*) Interest and principal of car trusts.

Other items of a miscellaneous and usually minor nature are often included under the head of fixed charges in addition to the above. Prior to the adoption of the uniform accounting system, taxes were sometimes embraced in operating expenses, sometimes in fixed charges, and sometimes stated separately. The present requirement is, however, that all taxes be stated separately from both operating expenses and fixed charges and in the Analyses the uniform plan is now followed of deducting them before showing the "balance for charges."

The uniform accounting requirements have also provided that the roads separately state such items as "hire of equipment," etc., and in some instances these are items of material importance. In the Analyses the policy has been followed of including such items in the sum total of the fixed charges after the year 1907, and where the item is important and materially changes the average the fact is so stated in the comment. Prior to 1908, such items as hire of equipment were spread over the operating expenses of the different roads in a number of ways.

The item "hire of equipment" refers to the charges made by one road against another in the exchange of their equipment in the course of business. Sometimes this results in a net loss to a line and sometimes a profit; but whether a loss or a profit, the balance as shown in the income account is designated the same.

Taken as a whole, the fixed charges of a property represent the sum it must currently earn and pay to be in a healthy financial condition. The reports usually state the items of fixed charges in satisfactory detail, and the investor can, therefore, easily judge of their nature. It is frequently the case that a railroad has car or equipment trusts outstanding, which mature serially, a portion of the principal as well as interest being payable each six months or each year. Items of this nature must naturally be included in the charges, just as sinking-fund payments are; and often they are of such amount as considerably to increase the sum total of the charges in a given year.

The relationship of the fixed charges to the property can best be judged comparatively, and when they are examined over a series of years the figures are of vast use. There is a direct relationship betwen the gross business and general traffic density of a property and the percentage of this business required for meeting the charges. As has been well brought out by Mr. Mundy in his excellent book, the "Earning Power of Railroads," those roads the fixed charges of which have averaged not more than 30 per cent. of the gross income have usually been able to withstand financial setbacks with much greater case than roads with fixed charges greatly exceeding this figure. Therefore, properties like the Baltimore & Ohio and the Great Northern, which have spent liberal sums for the maintenance of their properties and for the development of an intensive traffic, thus keeping down the ratio of operating costs aside from maintenance, have been in better position to carry their charges than some other roads which, while showing advances in earnings from year to year, have been obliged to consume a larger proportion of the gross receipts in operating their trains.

But the vital question with the holder of bond issues on railroads is to know what amount of money remains available after payment of all operating and other current expenses for meeting the interest on the bond issues in which he may be interested. Assuming that he has examined the operating and income records in his report in thorough manner and has ascertained the relationship of the traffic density to the gross business, maintenance and other costs, and has also properly examined the sources of outside income, he is on solid ground for ascertaining the position of the bond issues in the results shown by the road. But while it is a matter of interest to know what amount of available surplus a road has shown over its charges this year or last year, the more important thing is for him to know what the road has done in this regard for a series of years. This thought has been carried to fuller development in the Analyses than has ever been attempted before. The available surplus above the charges of the different roads is not merely shown for two or three years, but is shown for an entire decade. In this way the investor is able to ascertain the trend of improvement or retrogression for a long series of years. In order to reach a fair basis of judgment the records for each year are averaged and the average showing made is the basis on which the entire property is analyzed. Comparisons are made as usual with the average results shown by other properties.

The Margin of Safety is the *proportion* of Net Surplus remaining over after payment of all current fixed obligations, including car trust principal and interest payments, miscellaneous items, etc. For example, if the total net income of a given road was last year equal to $10,000 per mile, and the fixed charges were $6,000 per mile, then the remainder of $4,000 per mile (or 40%) is the margin of safety.

Nothing reflects the inherent stability of the great majority of American railroads at the present time so well as the Margin of Safety records given in this volume. They are a graphic display of the remarkable trend toward improvement in earning power and financial stability which has characterized at least 80 per cent. of the great railroad systems of this country since the depression of the '90s. The record is the more remarkable for the fact that this has

all been achieved in the face of either falling or stationary passenger and freight rates and in the midst of almost steadily advancing costs for labor and materials. Of course, the fact is not for a moment to be overlooked that the growth of the country in wealth and population during the decade, thereby developing new traffic to enormous extent, is at the base of this record as far as growth of the transportation business is concerned. But the almost steady improvement from year to year, in operating efficiency, in forcing from the same effort greater results, is a testimonial of the highest kind to modern American railroad management as a whole. Operating management of superior type is at the base of the Margin of Safety record shown over the decade by such properties as the Lehigh Valley, the Southern Pacific, the Pennsylvania, the Atchison, and the Louisville & Nashville.

Disposal of Surplus

THEORETICALLY, at least, the surplus shown by a railroad above its fixed charges is supposed to be available for dividends, and we often see it heralded far and wide that such and such a road is showing a surplus of, or "earning," 10 to 15 per cent. upon its stock. But like many another statement on which stocks are sold and market prices are manipulated, such a report often proves to be a delusion and a snare. Because a railroad has shown a surplus in its income account of 10 per cent. upon its stock, it does not necessarily mean that it has that amount available for dividend purposes or, in fact, that it has anything for such uses. In the past, especially, many railroads followed the policy of keeping down their current operating costs, including maintenance, but at the same time spending the necessary money on their properties, and then, at the close of the year, deducting from the surplus shown above charges the amounts currently spent but not currently charged up. So that in the final result they would really have no surplus at all, and the item "surplus above charges" or "surplus above dividends" would simply be a bookkeeping entry.

This practice may or may not be reprehensible. The real situation can only be judged in connection with the actual operating and maintenance expenses shown. If a railroad is not charging a proper amount to maintenance, but is holding up items which properly belong there and deducting them from surplus at the end of the year as "betterments and improvements," then the method is certainly misleading. It is one of the strong arguments in favor of the uniform accounting requirements that railroads coming under the jurisdiction of the Commission cannot do this any longer. They are now required to charge to maintenance the items which properly belong there and can only put in improvement or betterment accounts the actual expenditures of such nature. On the other hand, if, as in the case of properties like the Lake Shore, Pennsylvania and a host of others, full charges have been regularly made to maintenance, then the charging up of additional amounts after payment of all current obligations and dividends reflects great credit on the management, and adds to that extent to the efficiency and value of the property.

But even if no sums are being currently charged up to improvement accounts from surplus, this is no reason why a road should uniformly follow a policy of paying out all its surplus in dividends. As with any other business, a railroad should, to be conservative, accumulate a surplus and lay aside for a rainy day. The roads which did this in the highly prosperous years of 1900 to 1907 were in much stronger position to face the panic and the depression which followed than those which, like the Erie and the Southern, made dividend payments which largely consumed their current surplus every year. The New Jersey Central, the Lackawanna, the Reading, the Atchison, the Northern Pacific, and the St. Paul did not have to go into a tight money market in the winter of 1907-08 and borrow millions on short-time notes at high rates of interest to keep themselves afloat. They had conserved their resources simply by refraining from the policy of paying out the great sums they were making in dividends. The Pennsylvania has almost uniformly followed a policy for more than forty years of paying out only about half of its surplus from year to year in dividends, and most of its affiliated lines are doing the same. So that as a matter of fact it makes a very substantial difference to the bondholders of a road as well as the stockholders what is done with the surplus remaining after their demands have been satisfied. A bondholder will be better off if the surplus is not disbursed entirely; a preferred holder will be in a stronger position if the surplus remaining after his dividend has been paid is not all paid out in common stock dividends. Thus the bondholder and the preferred stockholder have a vital interest in where the balance of surplus goes to. Six years ago the Erie first preferred holders may have said they need not concern themselves about the way the second preferred holders were being handled, but, as a matter of fact, it was of vital importance to them to know just what was being done with these junior holders. When the panic came Erie was in trouble at once, and the first preferred holders found themselves in the same boat with the junior class—no dividends for anybody.

Stockholders in railroads are too apt to assume, if a given percentage of surplus is shown, as for example 6 per cent., that they are justly entitled to receive all or nearly all this amount in dividends. This is a mistaken idea. Too many roads have come to grief in the past by following a policy of over-liberal dividend disbursements. A careful distinction should be made between the amounts of surplus shown which are really necessary to retain as working capital commensurate with the normal growth in the needs of the company and the amounts which may fairly be disbursed in dividends. Because a railroad twenty years ago, with a very light business, required a reserve of only a nominal amount, this is no reason why to-day, with ten times the business, and ten times the uses for working capital, it should continually cripple itself by paying out nearly all its surplus earnings in dividends. The merchant, as his volume of business grows, steadily increases his bank balance and general reserve, and a railroad should do the same.

The items listed in railroad reports under improvements usually represent many charges. Many roads have special improvement and betterment accounts; others have simply charged the amounts spent directly, that is, for so much extending, building, so much new equipment, etc. There has been no fixed rule in the matter. The Pennsylvania, New York Central and some others have frequently charged their improvement costs up before deducting

dividends, thus showing, technically, but a narrow margin of surplus above dividend payments. In the interest of uniformity, however, the policy has been followed in this book of first showing the amounts of surplus appropriated for dividends, and then the amounts actually paid in dividends. The disposal of any surplus after dividend payments is shown in the full income statements and the Profit and Loss Accounts which are appended.

Especial value should attach to these 10-year comparative income tables, considered as a whole. Nowhere else, in such compact form, will the banker or investor be able to find so complete a comparative record.

The Balance Sheet

THE CAPITALIZATION FACTORS

Taken as a whole, probably the most important individual statement in the railroad report is the balance sheet. No definite idea can be gained of the property from its financial standpoint without the balance sheet, and if no other figures were given to the shareholders this, at least, would be of some assistance to them. A balance sheet is a statement of the company's assets and liabilities, and as presented publicly it is usually in very condensed form. That is to say, while it contains a large number of distinct items, these items can usually be classified under a few heads and in the statements as submitted to stockholders only the total amounts belonging under each head are given. It is therefore sometimes difficult properly to analyze a balance sheet thoroughly, but in the case of the capital assets and liabilities this can usually be done with a fair amount of accuracy, as these are almost always large items and are quite clearly stated.

Under the uniform accounting requirements of the Interstate Commerce Commission, a railroad's balance sheet contains the following definite heads:

Assets

Property investment.

1. Road and equipment (investment in the property with additions each year, including reserve for accrued depreciation, etc.);
2. Securities held (including securities of proprietary, affiliated, and controlled companies, pledged and unpledged; securities issued or assumed, and pledged);
3. Other investments (including advances to proprietary, affiliated and controlled companies for construction, equipment and betterments; also miscellaneous investments, including physical property, securities pledged and unpledged, which are not included in minutes).

Working Assets.

1. Cash;
2. Securities issued or assumed, held in treasury;
3. Marketable securities (issues held unpledged, or as pure investments and available for sale);
4. Loans and bills receivable;
5. Traffic and car service balances due from other companies;
6. Net balances due from agents and conductors;
7. Miscellaneous account receivable;
8. Materials and supplies;
9. Miscellaneous items.

Accrued Income Not Due.

1. Unmatured interest, dividends and rents receivable.

Deferred debit items.

1. Advances to proprietary, affiliated and controlled companies, working fund, and miscellaneous advances;
2. Rents and insurance paid in advance;
3. Taxes paid in advance;
4. Unextinguished discount on securities:
5. Property abandoned, chargeable to operating expenses;
6. Special deposits;
7. Cash and securities in sinking and redemption funds;
8. Cash and securities in insurance and reserve funds;
9. Cash and securities in provident funds;
10. Miscellaneous deferred debit items.

Liabilities

Stock.

1. Common, preferred or debenture stock;
2. Receipts outstanding for installments paid;
3. Stock liability for conversion purposes, etc.;
4. Premiums realized on capital stock.

Mortgage, Bonded and Secured Debt.

1. Funded debt;
2. Receiver's certificates (if any);
3. Obligations for advances received for construction, equipment or betterments.

Working Liabilities.

1. Loans and bills payable.
2. Traffic and car service balances due to other companies;
3. Audited vouchers and wages unpaid;
4. Miscellaneous accounts payable;
5. Matured dividends, interest and rents unpaid;
6. Matured mortgage, bonded and secured debt unpaid;
7. Working advances due to other companies:
8. Miscellaneous working liabilities.

Accrued Liabilities Not Due.

1. Unmatured interest dividends and rents payable;
2. Taxes accrued.

Deferred Credit Items.

1. Unextinguished premiums on outstanding funded debt;
2. Operating reserves;
3. Liability on account of provident funds;
4. Miscellaneous deferred debit items.

Appropriated Surplus.

1. Additions to property (since June 30, 1907, as required by the Interstate Commerce Commission);
2. Reserves from income or surplus.

The balance remaining, after the offsetting amounts shown on both sides in the above items, is known as "profit and loss," and may be either on the assets or liabilities side, as the case may be. If on the liability side, the profit and loss item is known as surplus; if on the asset side it is a deficit.

Theoretically, at least, the current assets and liabilities are supposed approximately to offset each other. In very few cases do they actually do this, but unless the amount of such items as cash on hand and on deposit, account receivable, etc., does not approximately equal the accounts payable and amounts due for interest and dividends and to other companies, it then means that the road is cramped for working capital. Another disturbing situation in current liabilities is to see the loans and bills payable mount up on one side of the balance sheet, and such items as advances to other companies increase in amount on the other side. This simply means that the company is going into debt for the purpose of helping out one or more of its branch lines or subsidiaries, which may or may not be a good thing. Also, if the accounts payable are increasing in greater ratio than the accounts receivable, or if the items such as "traffic balances due to other companies" are growing more rapidly than the amounts due from other companies, the situation also may be becoming complicated. And if, at any time, it is found that cash on hand is declining below the figures formerly shown over a reasonable period, it may mean that the road is getting tied up with a shortage of actual working capital.

The Capital Assets

THE largest item usually shown in the capital assets is the property investment account, formerly called "cost of road and equipment." This account is supposed to represent the actual capital invested in the road and its equipment. But, as a matter of fact, it does not in many cases represent anything of the kind. It has been customary in years past to charge to this account various items, such as discount on securities sold, special financing expenses, expenses for reorganizing the property, etc. As has been pointed out by Mr. Woodlock, in his "Anatomy of a Railroad Report," a pronounced example of the peculiar construction of this account is represented by the record of the old Atchison, Topeka & Santa Fe road before the reorganization. The "cost of road and equipment" stood at $95,755,207, but the expert audit of the books at the time of reorganization divulged the fact that over $40,000,000 stood for nominal items, such as discount on bonds, etc., and that less than half of this great total really represented money spent on the property. The same facts could be demonstrated to more or less degree in connection with most of the railroad systems in this country.

It will be realized, therefore, that the chief value attaching to the construction account figures is in the relative comparison of them from year to year. Most railroad reports present their balance sheet in comparison with the figures of the previous year, and with a series of reports the relative changes can be easily examined, showing the growth of this construction account and ascertaining just what the increase may represent. Most reports now furnish an itemized record each year of all expenditures which are charged to the property investment account, and, of course, it is an easy matter to see where this new money comes from, whether borrowed through the sale of bonds or notes, whether charged to profit and loss, or whether secured by the sale of stock.

The item of "investments in securities and other properties" is in many cases of relatively great importance. Roads which, like the New York Central, the Pennsylvania, or the Illinois Central, control a large number of subsidiary lines, depend, as we have already seen, to considerable extent on the income from these subsidiary lines. This income comes to them chiefly in the shape of dividends and interest on the securities owned, and there is a close relationship between the amount of other income of a railroad and the valuation of the securities owned as carried in the balance sheet of the company. Therefore, the importance of this particular item varies with the amount of outside interest the road under examination may happen to have. The item of sinking funds is sometimes of great and sometimes of minor importance. Whatever entries of this kind a road may have should be clearly stated so that they may be readily understood, and so that it can be ascertained just what condition the fund may be in.

The Capital Liabilities

THE capital liabilities consist chiefly of the stock and bond issues of the company. Of the former, there are not only issues of common and preferred stock outstanding, but very often we find such items as debenture stock, special equipment stock, special guaranteed stock, or betterment stock, and it has not unfrequently been the case that a large railroad will assume the stock issue of a smaller company and carry it as a liability of its own, just as is done in the case of many bond issues. Bonds themselves are of many classes, and, as has already been stated in these pages, they carry numerous qualifying terms and are of many distinct types. In the case of practically all the larger systems we find that numerous bond issues, originally created by prior companies, or by companies which have been consolidated into the main corporation, are treated as direct obligations and carried along as part of the liabilities of the company.

If all railroad companies consisted of single corporations with no controlled lines, or if all the miles of railroad they owned were directly operated, the consideration of the balance sheet and other financial statements would be comparatively simple. In order to get a comparative showing over a series of years, and form judgment of the relative position of the property with that of other railroad properties, we should simply need to reduce the figures to the ordinary mileage basis, as has been done in the examination of the other characteristics which go to make up the general report of the railroad. But in the great majority of cases, the investor immediately meets with a baffling problem as soon as he attempts to examine a railroad balance sheet intelligently. In addition to the records given, he finds that most railroads control, by stock ownership, contract, lease or otherwise, important lines of road which they may or may not operate directly, and in connection with which they have certain obligations independent of the ordinary charges involved in their regular stock and bond issues. In other words, a large portion of the operated mileage of many a railroad system is made up of leased lines. Some of these lines are leased on a basis of a fixed rental per annum; some are leased on a basis of a proportion of net or gross receipts, and some are leased on a guaranty basis which may or may not change. An example is shown in the case of the Pennsylvania Railroad. The Pennsylvania Railroad Company reported in 1914, for its directly operated lines, 4,512 miles. Of this mileage, 2,650 miles are owned by the Pennsylvania Railroad actually, the remaining 1,862 miles being operated under lease or contract or used under trackage rights. Obviously the latter mileage should be included in the income account records, as it has been directly operated by the Pennsylvania Railroad. But the lines controlled by lease are all separate corporations, with their own bonds and stocks outstanding, large portions of which are in the hands of the public and held as investments. These bond and stock issues, however, are not direct obligations of the Pennsylvania Railroad in the sense that its own bond and stock issues are obligations, and they, therefore, are not shown in the capital liabilities reported by the company in its balance sheet. Nevertheless, they cannot be ignored in an analysis of the railroad's position or results. The Pennsylvania Railroad has leased these properties on certain bases, in consideration of which it operates them, receiving into its own income account whatever profit it may be able to secure as a result of these operations. In consideration of having this right it pays out to the bond- and stock-holders of these leased properties certain fixed sums previously agreed upon, which take the nature of guaranties on stocks and bonds. These guaranties, or rental items, are on all kinds of bases, most of them having been arranged at different periods and as results of different circumstances. Thus we find that many leased lines are controlled through the guaranty by the parent company of the interest and principal of the bond issues alone; others are controlled through the guaranty of certain dividends on stocks as well as the interest on the bonds, while still others are controlled through guaranty of specific amounts which are used by the rented property for meeting current obligations of interest and dividends. In the case of the Pennsylvania Railroad the rental charges against its general income amounted in 1915 to over one-third of the total fixed charges, so that it will be seen that in this instance the item of rentals is practically as important a part of the charges against income as is the interest on its own bonded debt.

As this item of rentals in the operating results of railroads is such an important factor, it will be realized that unless it is in some way taken into consideration in the examination of the balance sheet of the company, it would not be possible to make any analysis of the balance sheet in an intelligent way. In other words, were we to examine the totals shown in the capital items of the balance sheet alone, and then examine the net income results to see what percentage of net income, or, in fact, of gross income, or any other income, were shown on the capital of the road, we should get very grotesque results if we did not in some way consider the fact that the rented properties themselves have stocks and bonds on which interest and dividends must be paid.

If we examine the income and capitalization record of the Lackawanna, the relative importance of considering the rental items in connection with the balance sheet will be seen. The Lackawanna itself now has only a nominal bonded debt. Its fixed charges, however, have averaged during the past ten years more than $8,800 per mile, and far more than 80 per cent. of these charges having been made up of rental items on leased-line securities. These items have been of various kinds; some guaranties on bond issues, many on stock issues. The outstanding capital of the Lackawanna in 1915, as reduced to the mileage basis of the operated system, was about $44,000 per mile. The amount of investments ownd by the company, as shown in its balance sheet, was about $27,460 per mile. Now, if we considered no other capital items and disregarded the securities of leased lines, not shown in the balance sheet, we should have a net capital per mile for the Lackawanna system of only $16,540. As the road earned in gross in 1915 $44,885 per mile, this would mean that it was each year earning several times its net capital, and as its total net income was $20,292 per mile, it would imply that the net income of the system at the present time was equivalent to 125 per cent. on the capital outstanding. The absurdity of this conclusion is apparent, but nevertheless it would be a logical deduction from the figures given in the balance sheet and income account, with the securities of the rented properties disregarded.

Capitalization of Rentals

THE problem of handling the capital items of leased lines in a manner for admitting of ready comparison has been a difficult one. As the terms of leases, both in length of time and in amount of rental, are so varied and as the figures given in different reports regarding these terms and payments are so incomplete, some arbitrary method must necessarily be adopted for reducing them to a comparative basis. In the case of some companies all the different rental items are separately stated, and it is a very simple matter to ascertain their amount and treat them accordingly. But this is not the case in most instances, and therefore, in presenting the comparative records of the capital factors in this volume, the uniform policy has been adopted of capitalizing the rental obligations of the operating companies at 5 per cent. An approximate estimate of a large number of rental obligations indicates that 5 per cent. is a fair and conservative basis for a purpose of this kind, and it is believed that it will approach the actual condition more closely than a lower percentage would. So the plan has been followed of adopting this basis even where the actual items themselves are furnished. Examinations of instances where the items are furnished in reports will show that the 5-per-cent. basis is in no case very far out of the way.

It might be contended by some that a more accurate method for capitalizing the rentals in the comparative statement would be to simply add up the stocks and bonds of the rented properties, and reduce them to the mileage basis and include them in the table. But in many cases this would be most illogical and misleading. The different leased lines which the operating companies control have usually been acquired on a basis which has disregarded the par value of their own capitalization, and has been arrived at more or less on a basis of earning power. Thus, it is found that in many cases a leased line may have been acquired through a guaranty of its bond issues only, thus leaving the stock issue of that leased line without dividends and without hope of any return as long as the lease is in operation. Obviously, in this case, the stock of the leased line, receiving no return whatever, and not having any control of the property during the life of the lease, will be worth a nominal sum only. On the other hand, there are many cases where a line has been considered of so much value to the leasing company that the latter has guaranteed some high rate of dividend, such as 10 per cent. or 15 per cent. on the capital of the leased road for a long series of years. In such an instance the value of the stock of that property will naturally be far higher than its par value as measured by income return, which will mean that the capital obligation on that leased line, for which the parent company is responsible, may be in effect far higher than the par value of the securities of the leased line. So we find that here, as everywhere else in the railroad report, the true valuations are based on earning capacity and income results, rather than on the mere nominal amounts given in the face values of the stocks and bonds.

To return again to our illustration of the Lackawanna capital showing. The Lackawanna operated, in 1915, 959 miles of road, including the mileage of the leased lines, all of which have their own bonds and stocks outstanding, and on which in most cases the Lackawanna road has made certain guaranties. The figures of gross and net income included in the income account are the results of operation on these 959 miles of road. Therefore, we must show the obligation of the Lackawanna Company in some way in the financial statement or balance sheet, which will give a proper idea of the actual liabilties in capital items of the Lackawanna Railroad. By capitalizing on a basis of 5 per cent. all the rentals for which the Lackawanna is responsible, we find that, as reduced to the mileage basis of the operated system, the Lackawanna rentals amount to about $130,052 per mile. We have already shown that the other capital items of the Lackawanna amounted, after the deduction of the investments of the company, to $16,450 per mile, thus giving as an approximate net capitalization for the railroad system a figure of about $147,000 per mile.

This method of capitalizing the rentals at 5 per cent., adding this capitalized liability to the other capital liabilities in the balance sheet, and treating this as the gross capital of the company, has been followed in every case. To arrive at a net capital figure the investments of the company have been deducted from the gross capital, the balance remaining being approximately the amount of capital value on which the railroad must make a net income return. An examination of the Analyses in the volume will show the great differences in the classes of capital figures. It will show that in many cases the rentals are merely nominal and do not affect the general result at all, while in other instances they are by far the most important factor.

Stocks and Bonds Outstanding Per Mile

LIKE the earnings figures of the railroads, there is vast variation in the amounts of capital outstanding on the different systems. This fact is naturally brought to light more definitely by a consideration of the figures on the mileage basis. As so reduced, many remarkable facts of variation are brought definitely into view. Stock outstanding per mile varies on different roads all the way from $5,000 up to more than $100,000 per mile, but, as already pointed out, the amount per mile really has no relation to the question of "over-capitalization" *per se*. A railroad with stock outstanding at the rate of $10,000 per mile may easily be far more heavily "over-capitalized," than one with stock outstanding of $50,000 per mile—assuming, of course, that we measure value on the income-producing basis, which really is the only logical way in which we can measure it. For example, the Ann Arbor, with stock outstanding at the rate of $24,576 per mile, is far more heavily capitalized, as measured by income results, than the Pennsylvania with stock outstanding at the rate of $110,000 per mile.

The records given in this book of the stocks outstanding per mile on the different roads during the ten years are chiefly valuable in showing the changes from year to year and also in showing the relative amounts of bonds and stocks as well as the proportion of stock to the entire net capital of the road. It is interesting to note that the position of many properties has undergone pronounced change in this respect during the past ten years. The Missouri Pacific, for example, reported in 1906 a total capitalization made up to the extent of 28 per cent. capital stock. During the years following the stock issue declined, not only in relation to the mileage operated, but also in relation to

the total capital liabilities of the road, and in 1915 the stock outstanding represented but 21 per cent. of the total amount of stocks and bonds. Often we find that the decline in the stock issues is offset in direct ratio by increase in the bond issues. At other times the offsetting increase is in rental charges or in declines in the amounts of securities held in the balance sheet. Conversely, where the stock outstanding has increased in pronounced proportion, a relative change of some kind, resulting in at least a partial offset, is sometimes shown in the decline in the bond obligations, or in the rentals, or possibly in an increase in the amounts of securities owned.

It will quickly be seen that a healthy trend in this comparative capitalization showing is naturally characterized by a declining percentage in the bonds outstanding. If the bond issues are declining in amount per mile, it means that the fixed charges are also declining, unless, of course, the rental items are growing. It is much better, for the railroad's position and credit, to issue non-interest-bearing obligations if it can, and generally speaking those roads which have made their extensions and carried on their developments during recent years through the issue of capital stock are in much better position than those which have uniformly followed the policy of issuing bonds. This ruling does not always hold, but is sound as a general proposition.

There are two conditions under which a railroad may be justified at a given time in issuing bonds for improvements and extensions rather than stocks. One of these is in the case of those properties the earning power of which has not reached a point where good dividends are being earned on the stocks, and where the latter are selling at depreciated values. The only way the road can raise money is by the issue of bonds, and it must either do the latter or not spend any money at all. The other situation is where a road of high credit can, in times of easy money, put out a long-term obligation at a low rate of interest. Instances of the latter have been reflected in the policy of the Ilinois Central in years gone by, and also more recently by the Pennsylvania.

As a general proposition, however, it is much better for a railroad to issue stock if it can. In the past few years the St. Paul, the Chicago & North Western, and the Canadian Pacific have adopted this policy with most satisfactory results. The Canadian Pacific, for example, increased its stock outstanding from $12,850 per mile in 1898 to $20,192 per mile in 1908, its bonds outstanding at the same time declining per mile about 10 per cent. and its rentals changing but nominally. The net result of this policy has been that the fixed charges were in 1915 no more per mile than they were ten years before, and the road has been finding it easier to pay 10 per cent. on its common stock in recent years than it was to pay 4 per cent. on this stock in 1899. The position of the road is in every sense stronger, and, as its bonded debt now represents only about 40 per cent. of its total gross capital as compared with 55 per cent. ten years ago, it will be realized that, as a whole, the equity in the property which is owned by the stockholders has very greatly increased.

In the stock and bond columns of Table C in the Analyses, the total amounts outstanding have been included for each year. Among the bond issues have also been included in all cases such items as equipment trust obligations, loans on realty or on other property, short-time note issues, etc. During the past few years, the railroads have, in many cases, issued notes running from two to five years, which, while not mortgages, and in a sense temporary obligations, will in all cases be sooner or later replaced by permanent capital obligations of one kind or another. Therefore, they should be treated as capital, rather than current obligations, in any relative consideration of the financial condition of the company. As in the case of the other tables, comparison is made in each instance with four other properties in similar territory. But it must be remembered that all the same conditions for comparison which apply to the Physical and Income Factors do not necessarily apply to the capital factors of a railroad. In examining the "capital factors," we are especially interested in ascertaining the relationship between the net value of the capital (which means the worth of the property) to the earning power shown. It is therefore an easy matter to compare the capital figures of the Union Pacific with the Pennsylvania, or of the Louisville & Nashville with the New Haven. By ascertaining the percentage of net income shown on net capital we can see relatively whether the New Haven property is doing better or has done better on its average net capital over a period than has the Louisville & Nashville on its own average net capital. We can in this way judge as to the relative financial strength and condition and general standing of both of the companies.

Thus we can compare the capital tables one with another as a whole. But we can also compare the individual columns. A comparison of the bond-liability column on the New Haven property with the bond-liability column on the Union Pacific property will bring into prominence certain striking differences. While the column in the Union Pacific statement has shown, in the face of great growth in volume of business during the ten years, a declining tendency, the bond column in the New Haven statement shows, in the face of only a moderate growth in business, an increase of over 100 per cent. as measured on the mileage basis. This simply means that while the Union Pacific has decreased its charges per mile, and increased its margin of safety very heavily, the New Haven has increased its fixed charges enormously, and that, although its business has grown it has not held up the margin of safety on its bond issues, and the margin on its stock issue has been entirely eliminated in the past few years. An investor in the stocks of either of these companies would at once reach the conclusion even five years ago, that, on the showing here made, the Union Pacific was clearly more certain of paying its dividend of 10 per cent. per annum than was the New Haven of continuing payments whatever. All things considered, the Union Pacific common stock at $160 per share, therefore, looked far more attractive than the New Haven stock at half the price, at which it ranged prior to 1913.

The analyses of the bond issues of the different systems have been somewhat difficult to make. In many cases issues have been assumed on branch lines which have been consolidated with the main company, and on which interest may have been guaranteed. Where a bond issue has been guaranteed on a separately operated property, which is not leased, the amount has been included in the bond column and not in the rental column. This has been the case in the New Haven analysis, where, in the past few years, many acquisitions have been made in properties outside of

the leased lines and the railroad system itself. Many of these bond issues have been assumed and guaranteed, but the properties have not been leased in the ordinary sense and, therefore, the bonds have been included in the bond column rather than in the rental column. Of course, whatever policy had been followed, the showing on net capital would have been approximately the same.

Net Capitalization

AS already pointed out, the only method for getting at an approximate figure for showing the true capitalized value of the railroad is to take into consideration the investments or securities owned which are reported by the company in its balance sheet. Sometimes these securities owned consist of stocks and bonds of the system itself; sometimes they consist of issues of branches or leased lines, while in other instances they may consist of securities of roads which are entirely independent. Securities held by railroad companies represent various conditions. On the Pennsylvania Railroad we find that its securities owned run into very large sums and that the return in interest and dividends on these securities is a very important factor in the income account. It is frequently the case that a railroad company will own all, or nearly all, of the bonds or stocks of a leased or controlled line, and will receive the income produced by its own guaranty on the securities which it owns. In such case the item must of course appear on both sides of the statement, and where a lease has been capitalized at 5 per cent. in the Analyses, it may be that a portion of this capitalized item is offset by items in securities owned. This, however, does not change the net result.

While the policy of investing in securities was begun by the railroads for the purpose of acquiring or controlling branches and feeders, this policy has in recent years enlarged to a vast extent, and we now find great railroad systems owning securities of other railroad properties which seem in no way, in a traffic sense, to have any real relationship. Thus we find that the Pennsylvania has a dominating interest in the Southern Pacific system. The Baltimore & Ohio, with the New York Central interests, practically controls the Reading Company and the Central Railroad of New Jersey. The Union Pacific also has heavy interests in the New York Central property, in the St. Paul, and in the Chicago & North Western. These investments have sometimes been acquired for other purposes than that of merely producing income, and this latter fact and the relative worth to the road as a whole must be taken into consideration when we examine the securities owned in connection with the amounts of other income of the roads.

Net Income on Net Capital

THE net capital per mile of a railroad furnishes us with the approximate worth of the property, and enables us to compare this approximate worth with the earning capacity shown. Thus we have a method at hand whereby we can at a glance ascertain whether, in face value, the railroad is or is not over-capitalized. By comparing the net income per annum with the approximate net capital, as shown in the tables in this book, we get a distinct view of the financial standing and strength of the property. If its net income on this net capital is above the average return and in the record shows an improving trend, we know at once that the financial strength of the property is favorable. On the other hand, if we find a declining tendency present or find that the percentage on the net capital is abnormally low, then it simply means that the road is over-capitalized, as measured by the par value; that its resources are small, and that its earning power from the standpoint of the security-owners is relatively weak. The column in the different Analyses, showing the Percentage of Net Income on Net Capital, is therefore of the most vital importance to the holders of securities. This column, with that showing the Margin of Safety, in Table B, gives at a glance the general key to the condition of the entire property. The Margin of Safety enables the bondholder to know the position of the bond in the income-producing capacity, as far as his interest is concerned, while the Net Income on Net Capital is of vital interest to every security-holder, whether he is in the position of bondholder or stockholder.

A dividend record is presented in each analysis as a portion of Table C. While this dividend record has a relationship more direct to that of the Income Table than to the Capital Table, it has been placed here for purposes of convenience and to show the changes in rates and percentage of surplus over dividends for both common and preferred stocks for the entire series of years. The aggregate amounts paid out for dividends are shown in the Income Tables, while here the separate rates, and changes in the rates, are indicated. The margin of safety on the dividend payments is worked out in the following manner: For all preferred stock issues the margin is the percentage of the surplus remaining after payment of the preferred dividend out of the amount left after payment of all charges prior to the payment of the dividend. The common-stock margin is the percentage of income remaining over after payment of the common-stock dividend from the net amount available for common dividends after payment of the preferred dividend. It will be noted that these percentages vary largely, and in many cases the common-stock percentage appears to be higher than that of the preferred. This does not, of course, signify that the common-stock dividend is more secure than the preferred, as these two columns have no relationship whatever to each other. Their value is in considering their showing over a series of years, the trend, and also the average showing made in the same column by other properties.

The Principal of Averages

The fundamental idea at the base of this book is to establish a standard for measuring railroad security values. As already explained, the only sound method for ascertaining and comparing railroad results is to reduce these results to a common measure—that of the average mileage operated. But in judging the values of the securities themselves, it is necessary to do more than merely show the aggregate results of the properties in this way. In other words, we must get at the average condition of the property and its earning capacity for a considerable length of

time. What the railroad has done this year or last year has some significance, of course, but it does not furnish conclusive evidence as to the actual value of the securities. Nearly all securities are more or less permanent in their nature; they not only depend for their values on present results, but also on the probable results during future years. Therefore, it is entirely necessary that we should be able to gauge the proper earning power of a property during the years to come, as well as know its earning power at the present time.

The plan adopted in this book is to base the values of all the securities on the results of the decade, and generally to ignore the temporary showing which may have been made for one or two years. By doing this we get a safe and conservative rating for securities, and while the average showing on the 10-year basis is not in many cases as favorable as may have been the showing for the past year or two, yet the element of stability in this average showing is so strong as to offset entirely any depreciating effect which would otherwise be involved. In 70 per cent. of the cases the 10-year records of American railroads reflect a steady upward trend in business growth and general earning capacity. In those few cases where a downward trend is shown the average result is nevertheless equitable as a basis to rate securities on, as the results achieved in the earlier years of the decade affect the value of the property at the present time, just as the results of early years in the roads which have shown improving trend naturally qualify the present values to some extent. If the railroad has shown a trend of improvement in net earning capacity equivalent to 25 per cent. during the past ten years, this fact is worthy of consideration in judging the probable value and trend of the securities during the next ten years. In other words, the whole idea is based upon the principle of average results, just as the insurance actuary bases his estimates and values on the results of averages. While these averages may in given cases be entitled to some qualification, yet it is believed that, as a general proposition, they indicate more accurately than can be done in any other way the real basis of value in the various security issues.

The Bond Records and Ratings

As will be seen by examination of the statement in the book, each railroad system contains a table of bond records and ratings. In this table is included, in all cases, every bond issue for which the system under review is responsible. The underlying issues are usually listed first and given the first approximate claim on the total net income. It will at once be realized, however, that where a railroad system is responsible for a number of bond issues the question of prior claim on income is an exceedingly difficult one. For example, a system like the Atlantic Coast Line Railway reports no fewer than 26 bond issues secured more or less directly on the different parts of its mileage. Many of these issues are first mortgages on particular sections; others are second mortgages; still others third mortgages; and in addition there are issues secured by the deposit of bond or stock collateral and still other issues in the shape of notes which are not secured by mortgage or collateral at all. Each of these issues has its particular claim on the income of the property, and those which have a first lien on particular sections of mileage are, of course, technically more secure than others which do not have a first mortgage. But, while a first mortgage gives a theoretical prior claim, it does not necessarily signify that there is any real prior claim in practice. It may be that there are existing a dozen or more first mortgages on sections or divisions, each of which sections or divisions is of equal importance to the railroad as a whole. In such a case one of these mortgages is not necessarily entitled to any prior claim on the income ahead of any of the others, and as a result these liens practically have a joint claim on the income. In other words, their claims must all be satisfied to preserve the integrity of the railroad property.

The same facts apply in the relations of junior liens, and it is often exceedingly difficult to so classify the issues that the actual position of any one bond issue will be clearly shown. In the bond records in this book, however, a plan of simply showing the approximate position of the issues is followed, and where a railroad system reports a large number of mortgages the underlying liens are largely treated together and given a general joint claim on the entire income available. The secondary liens are then treated in the same way, and the junior liens follow, of course, in their proper order.

In the case of railroad systems of high grade, with wide margins of safety, the question of allotting the income to the different bond issues is not so vital. In such instances it is a foregone conclusion that the liens are secure and it is simply a question of choice between one or two as far as the actual security is concerned. The differences in such cases are generally simply differencces of interest rate, maturity, and form. But where a railroad system has both high-grade and speculative issues outstanding, such, for example, as the Erie system or the Southern Railway system, it is then far more necessary to distribute the available income intelligently and show clearly which issues would, in the case of an emergency, be entirely safe, and which issues would be injured in value or position by falling earnings or other serious changes. It will be noted, therefore, that the chief value of showing the position of the securities applies to the systems or lines of poorer standing or more or less doubtful credit. On properties like the Union Pacific and Illinois Central the rating of the bond issues is high in every case, and little attention may be paid to the matter of distributing the income, but in examining a property like the Southern Railway it is most vital to know whether a bond issue is entitled to a high rating or a poor rating.

A word of explanation is essential in connection with these bond tables. It will be noted, for example, that as a matter of record, and to show the position of the security in the physical property itself, the length of line on which a given bond is secured is cited in all cases. But this length of line does not necessarily signify very much when the true value of the security is to be ascertained. The key to the latter is to know the average available income for meeting the interest on the bond issue. As the entire table is worked out on the basis of the 10-year average, this figure of available income is in no case the actual income for any given year (unless so stated), but is simply the amount reached by averaging the "balance for charges" for each year during the whole ten years. It

will be seen that where a railroad has shown an improving trend over the decade this average will be lower than that shown by the current results, while, if there has been a downward trend, the average will be somewhat higher than that shown by current results. The tables also show in each case the amount of money required per mile for meeting the interest on the issue or on a number of issues having a general joint claim on the income. This amount of interest is the amount required *per mile of the entire system* and not per mile of the section on which the bond may happen to be a lien. As the amounts required for payment of the interest are in all cases derived from the available income of the entire system, the only way in which equitable comparisons can be made of the available amount and the amount of income required for payment of interest on the bond is to reduce both to the average mileage of the entire operated system. This principle necessarily applies not only to issues of the main company and its underlying liens, but to all guaranteed issues, and, in fact, to all issues of bonds for which the company is responsible, whether they are secured on a part of the operated system or not.

The figures showing the interest required are based on current figures and not on average figures for the decade. The idea is to show the position of the issue as it stands to-day in amount, etc., as related to the average results of the decade. It would be very misleading to take the average interest requirement for the decade to judge the value of the bond at the present time. For instance, it would be found in many cases that, during the past ten years, a bond issue has more than doubled in amount, and, therefore, the interest required on the average, if figured on the whole decade, would be far below the amount needed to meet the obligation at the present time. On the other hand, where an issue has been largely retired by a sinking fund or by conversion into stock or other security, the average requirement for the decade would be far higher than that required at the present time. Therefore, in all instances, the figures showing the interest requirement are reduced to the average mileage basis for the whole system as operated for the decade, *but are the amounts which are consumed at the present time* for the payment of fixed charges.

The plan followed for showing the relative security of each issue as judged by the results of the decade is clearly seen by examination of the tables. A percentage figure is used as a Factor of Safety which simply indicates the percentage or proportion of available income remaining after the payment of the interest on the issue (and on other issues having an equal claim) has been taken care of. These "factors" range all the way from 99 per cent. down to nominal percentages, and indicate at a glance the relative claims of the different issues, and can be regarded as general reflectors of the security of the bond. In many cases, a bond showing a factor of safety of 90 per cent. is not necessarily any more secure than some other bond issue which shows a factor of 75 per cent. As a general thing, those bond issues reporting a factor of safety of 70 per cent, or more are well secured. It will be remembered that these factors are all based on the average results of the decade and not on the results of the past year. This principle of showing the relative value of these factor figures is stated concisely in the section which gives the general key to the ratings.

After what has been said it will be understood that the basis for rating issues, as far as security is concerned, depends primarily on the earning capacity and not on the character of the lien. A glance, however, through the pages will show that many consolidated mortgages and many collateral trust bonds, as well as debentures, have better ratings than many first mortgage bonds. While the fact that an issue is a first mortgage or a second mortgage is important, yet it is plainly not the fundamental consideration.

The general basis for rating adopted in the book involves not only the question of security, but also that of salability from the point of view of the investor. An issue of equal security is always better, if there is a good market for it at all times at its approximate value. Small inactive issues, although well secured in lien and well backed up by heavy earnings, will not sell at as good prices, as a rule, as will those issues on the larger systems which have an established market and which can be sold either on exchanges or to bankers on short notice. Therefore, in determining the ratings of the different issues, these facts have been taken fully into consideration.

The ratings themselves are, of course, to be regarded in a large degree as approximations. No arbitrary judgment has been employed in any case, and the position given each security is mainly the outcome of the showing made by the railroad itself in recent years. While, as a general thing, the bases adopted for the ratings are indorsed as sound and scientific, there is always criticism from interested quarters regarding the position accorded certain of the less secure issues. But an analysis of these securities and their position in the average results as shown in the tables will, it is believed, demonstrate the general correctness and soundness of the principles adopted.

HOW TO INVEST MONEY WISELY

By JOHN MOODY

DIVERSIFIED investing is something which no investor, large or small, should ignore. The general plan of this book is based on principles for intelligently diversifying investment capital, a subject which the writer has been carefully studying for many years in connection with his work as an analyst and investigator of investments for bankers, institutions, and individual investors both at home and abroad. These methods for wisely and intelligently investing money on comprehensive and intelligent principles of diversification have within the past few years been adopted by numerous institutions and many thousand individual investors with advantage and profit.

ALABAMA & VICKSBURG RAILWAY COMPANY

NOTE: The analysis is based on official documents of the company, including its annual reports of the past ten years. For Definitions and Key o Ratings, see pages 19-26.

Origin: Successor in 1889 of Vicksburg & Meridian R.R. Controlled by Alabama, New Orleans, Texas & Pacific Junction Rys. Ltd. of England, which owns 55.6% of the stock. (See below.) Forms, with the New Orleans & North Eastern, Vicksburg, Shreveport & Pacific, Alabama Great Southern and Cincinnati, New Orleans & Texas Pacific, the so-called "Queen & Crescent Route," operating between Cincinnati, New Orleans and Shreveport, La. Also owned 3,036 acres of land on June 30, 1916.

Control: The Alabama, New Orleans, Texas & Pacific Junction Railways Co. Ltd., a holding corporation, organized June 18, 1881, under English laws, holds a stock interest in the Alabama & Vicksburg Railway, and the Vicksburg, Shreveport & Pacific Railway. (See analyses of the latter property on the following pages.) On Dec. 31, 1916, this company owned $1,168,000 out of $2,100,000 stock of Alabama & Vicksburg Railway, and over 90% of both the common and preferred stocks of the Vicksburg, Shreveport & Pacific Railway. It also owned $30,000 first mortgage, $343,400 second mortgage, and $141,100 consolidated mortgage bonds of the Alabama & Vicksburg, $108,850 out of $120,000 stock of the Railroad Lands Co., and $1,613,000 general mortgage bonds of the Vicksburg, Shreveport & Pacific Railway Co. Formerly owned $5,595,000 general 4½s, $1,500,000 income 4½s and $5,336,000 common stock of the New Orleans & North Eastern R.R. which were sold in 1916 together with $448,700 stock of the Southwestern Construction Co. to J. P. Morgan & Co. in the interest of the Southern Ry.

The outstanding capital of the Alabama, New Orleans, Texas & Pacific Junction Rys. Ltd. consists of £1,500,000 preference A cumulative 6% stock and £2,500,000 deferred B stock. Par value £10 per share. Dividends in recent years have been paid as follows on the A preference stock: 1908, 3½%; 1910, 2½%; 1911, 4½%; 1912, 4½%; 1913, 3½%; 1914, 4½%. As the A preference stock is 6% "cumulative," and no dividends aside from the above have been paid since the reorganization many years ago, there have to date accumulated about 186% in unpaid back dividends. In consequence of the sale of the company's holdings in the New Orleans & North Eastern R.R., a capital readjustment was proposed in 1916 whereby the £1,500,000 of A preference stock will be reduced to £1,200,000 and the £2,500,000 deferred B stock to £50,000 making £1,250,000 to be converted into a like amount of consolidated stock all of one class.

The bond issues of this holding company consists of £748,850 5% A debentures, due Nov. 1, 1940, which are a first charge on the income of the company; £1,048,390 5% B income debentures, due Nov. 1, 1940, a second charge on the income of the company; £810,652 5% C income debentures, due Nov. 1, 1940, a third charge on the income of the company.

Location: Line extends across State of Mississippi from Vicksburg to Meridian, connecting at latter point with New Orleans & North Eastern, Alabama Great Southern, Mobile & Ohio, etc. Main line, Vicksburg to Meridian, Miss., 141.50 miles; extension to river front, 1.28 miles; total, 142.78 miles. Population of Mississippi in 1890, 1,289,600; in 1900, 1,551,665; in 1910, 1,797,114.

Management: D. D. Curran, Chairman; L. A. Jones, Pres. and Gen. Mgr.; T. F. Steele, Vice-Pres. and Tr. Mgr.; H. W. Wenham, Sec. and Treas.; Udolpho Wolfe, Asst. Sec.; Edward Ford, Asst. to Pres. DIRECTORS: G. T. Bonner, T. F. Steele, D. D. Curran, L. A. Jones, R. H. Thompson. Annual meeting, first Monday in November. OFFICES: Jackson, Miss., and New Orleans, La.

Classification of Freight Tonnage (Years Ending June 30)

10-Year Average	143	....	34	29	1,279	64%	125,442	751,296	290	$2.09	2.54c	1.00c

Note: Yard tracks and sidings, June 30, 1916, 69.80 miles. Main line nearly all laid with 75-lb. steel rails; side tracks, etc., 60-lb. steel ralls.

Comment: The operating exhibit of the Alabama & Vicksburg Railway for the year ended June 30, 1916 reflected a very substantial increase in the volume of business. As compared with the previous year both freight and passenger density rose to high figures, while the average freight train load was better than that of any year reported during the past decade. Train mile earnings and average freight rates also underwent considerable improvement. It will be noted that as in previous years the freight tonnage was well diversified.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ending June 30.	Gross Revenues.	Maintenance. Way.	Maintenance. Equipment.	Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.
1907	$10,873	$1,760	$1,671	$3,431	$4,246	$3,196	$3,568	$327	$3,241	$790	76%	$2,451	$513

1912	11,239	1,682	2,235	3,917	4,784	2,538	3,143	424	2,719	910	66	1,809	1,028
1913	13,020	1,965	2,601	4,566	5,256	3,198	3,862	486	3,376	893	73	2,483	1,028
1914	12,801	1,971	2,904	4,875	5,493	2,433	3,017	694	2,323	854	63	1,469	1,028
1915	10,430	1,576	2,634	4,210	4,979	1,241	3,400	666	2,734	1,020	63	1,714	1,028
1916	11,774	1,437	2,503	3,940	4,964	2,870	4,510	786	3,724	1,037	72	2,687	734
10-Year Average	$11,525	$1,739	$2,275	$4,014	$4,802	$2,709	$3,523	$478	$3,045	$889	70%	$2,156	$793

Note: Above figures are based on average mileage operated for each year. Margin of safety is the proportion of the surplus left over after deducting the fixed charges for each year. For example, in 1916 the "balance for charges" (per mile) was $3,724; fixed charges amounted to $1,037, or 28% of $3,274, leaving a margin of safety of 72%.

Comparative Income Account, Years Ended June 30

	1916	1915	1914	1913	1912	1911	1910
Gross revenues	$1,683,646	$1,491,542	$1,830,544	$1,861,937	$1,605,189	$1,741,982	$1,672,350

Other deductions	13,592	8,840	.....	.....	.....	.....	.....
Balance	$370,517	$89,210	$52,318	$208,055	$111,629	$219,266	$368,529
Earned on stock	18.3%	16.43%	9.49%	16.90%	12.31%	17.44%	21.05%

* Dividend paid from profit and loss account (see below).

Profit and Loss Account, year ended June 30, 1916: Credit balance at beginning of years, $1,461,831; balance from income account, $370,517; unrefundable overcharges, $449; donations, $55; miscellaneous credits, $127. Contra: Appropriations to sinking and other reserve funds, $5,000; dividends, $105,000; loss on retired road and equipment, $17,456; miscellaneous debits, $211; credit balance carried to balance sheet, $1,705,312.

Comment: Income results on the Alabama & Vicksburg Railway during the year ended June 30, 1916, were in all respects satisfactory. The gross revenues reached far better figures than those shown in 1915, while net income available for fixed charges was higher than for any year since 1910. After paying the usual fixed charges, the surplus left over exceeded 18% on the outstanding stock. Results since the close of the fiscal year have continued to be very satisfactory, and the credit of the company has been maintained at a high level.

Although the gross revenues on this property have shown no pronounced tendency to increase during the past ten years, and the operating ratio has always been high, the balance for charges has continuously been held up at a high level, and the percentage earned on the outstanding stock has ranged at figures far above all dividend requirements. In recent years, taxes have steadily advanced and there has also been a material increase in the total fixed charges. But, as indicated by the balance sheet on the following page, the management has each year appropriated a substantial amount to improvements and surplus, and has steadily added to the general credit of the property.

There is but little public interest in the company's stock issue, but substantial portions of the bond issues are outstanding in the hands of the public. As the statistics indicate, these bond issues all stand on a strong investment plane.

TABLE C.—Capitalization Factors (Security Obligations and Earning Power)

Capitalization Per Mile of Road. | Dividend Record.

Years Ended June 30.	Stock Outstanding and Per Cent of Whole.		Bonds Outstanding and Per Cent of Whole.		Rentals Cap. at 5 Per Cent.	Total Gross Capital.	Owned by Co. as per Balance Sheet. 10-Year Average	$12,482	45%	$14,184	55%	.....	$26,666	$27	$26,638	13.2%	.....	.....	$793	6.8%	.....	63%

Note: Above table is based on average mileage directly operated. The "net income on net capital" is the percentage of the income from all sources, before deducting taxes, on the net capital per mile (less investments) as shown for the period. The "margin of safety" is the proportion of surplus shown above all charges prior to the dividend for the given year.

Comparative Condensed Balance Sheet, as of June 30

Funded debt	2,007,785	2,007,800	2,007,800	2,010,900	2,020,900	2,023,700	2,024,700
Working liabilities	214,072	169,538	159,942	173,145	164,402	161,808	192,514
Accrued liabilities not due	99,817	80,160	70,077	57,999	58,409	53,570	52,945
Deferred credit items	62,019	37,281	43,906	47,134	62,408	80,603	71,904
Appropriated surplus	646,745	628,552	607,730	576,907	538,374	509,974	393,746
Surplus (profit and loss)	1,705,312	1,461,830	1,384,394	1,355,507	1,176,908	1,070,553	962,073
Total	$6,835,750	$6,485,161	$6,373,849	$6,321,592	$6,121,401	$6,000,207	$5,797,882

Note: Of the profit and loss surplus of $1,705,312, shown at the close of 1916, $864,092 has been invested in improvements and betterments, $193,800 in stock of affiliated company, and the balance is reported as "free surplus." The increase in capital stock made in 1910 was the result of a 100% stock dividend that year. In working assets were included $893,551 in cash.

Comment: There were no capitalization changes on the Alabama & Vicksburg Railway during the fiscal year ended June 30, 1916. The net capitalization of the property continues to range at relatively low figures as compared with other properties of similar type, and the net income on net capital has been held at a very high average. For the past ten years the net income of this property, as measured by the net capital, has always been high, and although in the fiscal year 1916 the dividend rate was reduced to 5%, the surplus earned was amply sufficient to justify a considerably higher rate, and in Sept., 1916, the full 7% was paid. The several bond issues of the property all stand on a strong investment plane, and high ratings are fully justified.

TABLE D.—Bond Record and Ratings (Based on 10-Year Results, Per Mile of Road)

Name of Issue.	Interest Payable.	Maturity.	Lien on Miles.	Outstanding per Mile.	Average Income Available.	Interest R'q'r'd per Mile of System.	Factor of Safety.	Basis for Rating.		Net Rating.
								Security.	Salability.	
1. Vicks. & Meridian first 6s	A&O	Ap 1921	(1st) 143	$7,000	$3,015	$420	86%	Very high	High	Aaa.
2. Ala. & Vicks. Ry. first con. 5s.	A&O	Ap 1921	(2d) 143	4,100	2,625	205	92%	" "	"	Aa.
3. Ala. & Vicks. Ry. second 5s	A&O	Ap 1921	(3d) 143	2,950	2,420	148	94%	" "	"	Aa.

Note: "Average income available" is the average net income per mile available for interest charges, after deducting taxes, for the ten years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Ratings, see pages 19 to 21.

See next page for Reference Notes on Bond Issues.

REFERENCE NOTES ON BOND ISSUES

1. Auth., $1,000,000, and outstanding $998,000. Dated April 1, 1881; due April 1, 1921. Int. paid at Central Trust Co., New York. Coupon, $1,000. First lien, 142.78 miles, Vicksburg to Meridian, Miss. Sinking fund held on June 30, 1916, $317,128. Underlie Nos. 2 and 3. Legal for S. B. in Mich., Minn., N. H., N. J., R. I., and Wis. Interest paid without deduction for normal income tax.

2. Auth., $1,800,000; outstanding, $585,100; in treas., $211,200; reserved to retire No. 1, $1,000,000. Dated April 1, 1889; due April 1, 1921. Int. paid at Central Trust Co., New York. Coupon, $100 and $1,000. Second lien, following No. 1, on 142.78 miles, Vicksburg to Meridian, Miss. Underlie No. 3. Legal for S. B. in N. H. and R. I. Normal income tax deducted from interest.

3. Auth., $700,000; outstanding, $422,700. Dated April 1, 1889; due April 1, 1921. Int. paid at Central Trust Co., New York. Coupon, $100 and $1,000. Sinking fund is net proceeds from sale of land to purchase and retire bonds. Retired by fund, $275,500. Third lien, following Nos. 1 and 2, on 142.78 miles, Vicksburg to Meridian; also lien on all lands owned by company. Interest paid without deduction for normal income tax.

TABLE E.—Stock Record and Ratings (Based on 10-Year Results, Per Mile of Road)

Name and Details of Issue.	Rate and Date Dividends.	Amount Outstanding per Mile.	Average Income Available per Mile.	Dividend Required per Mile of System.	Factor of Safety.	Basis for Rating.		Net Rating.
						Equity.	Salability.	
Alabama & Vicksburg Ry. stock..... Full voting power. Par $100. Outstanding, $2,100,000.	See text	$14,685	$2,156	$1,028*	52%	Very high	High	**Baa.**

*For 7% dividend.

Note: "Average income available" on stock issues is the average surplus, after deducting all fixed and other charges, for the ten years ending June 30, 1916. "Dividend requirement" is the requirement, at the current rate, on the present amount outstanding. For Key to Ratings, see pages 21 to 23.

REFERENCE NOTE ON STOCK ISSUE

Dividends have been paid, in past years, as follows: 1890-92, 3% each; 1893-95, none; 1896, 3%; 1897-99, 5% each; 1900-02, 6% each; 1903, 9%; 1904 to 1914, 7% per annum. In Sept., 1915, 5% only was paid; Sept., 1916, 7%. Stock dividends of 50%, in 1900, and 100%, in 1910, have been paid. Transfer office, New Orleans, La. Of the total issue, $1,168,000 is owned by the Ala., N. O., Tex. & Pac. Junc. Rys. Co., Ltd.

VICKSBURG, SHREVEPORT & PACIFIC RAILWAY COMPANY

Note: The analysis is based on official documents of the company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Successor in 1901 of old company of same name. Controlled by Alabama, New Orleans, Texas & Pacific Junction Rys. Ltd., of London, which owns 93½% of the capital stock of the Vicksburg, Shreveport & Pacific Ry., and $1,613,000 out of $1,922,000 of its general 5% bonds. The former company also owns $1,168,000 out of $2,100,000 stock, $30,000 first cons. mortgage, $343,300 second mortgage, and $141,100 consolidated mortgage bonds of the Alabama & Vicksburg Railway, described on the foregoing pages. It formerly owned $5,336,000 common stock, $5,595,000 general 4½s and $1,500,000 income bonds of the New Orleans & North Eastern Railroad, but the latter were sold to Southern Railway interests in 1916, together with $448,700 stock of the Southwestern Construction Co.

Location: Forms part of "Queen & Crescent Route," between New Orleans and Cincinnati. Line of road owned, Delta to Shreveport, La., 171.47 miles; Shreveport, La., to Wascom, Texas, 17 miles; total owned, 188.47 miles. The line from Shreveport to Wascom was leased Dec. 25, 1899, for a period of twenty-five years to the Missouri, Kansas & Texas Railway, therefore the operated mileage is 171.47 miles only. The company also owns river front property at Delta, Miss., and, jointly with the Alabama & Vicksburg Railway, controls the Louisiana & Mississippi R.R. Transfer at that point. Operated mileage all in Louisiana. Population of Louisiana in 1890, 1,118,587; in 1900, 1,381,625; in 1910, 1,656,388.

Management: Officers: D. D. Curran, Chairman; L. A. Jones, Pres. and Gen. Mgr.; T. F. Steele, Vice-Pres.; H. W. Wenham, Sec. and Treas.; Udolpho Wolfe, Asst. Sec.; Edward Ford, Asst. to Pres. Directors: D. D. Curran, L. A. Jones, T. F. Steele, W. P. Richardson, J. B. Ardis, J. Blanc Monroe, F. P. Stubbs, Jr. Annual meeting, first Wednesday in November. Office, New Orleans, La.

Classification of Freight Tonnage (Years Ending June 30)

	1907	1908	1909	1910	1911	1912	1913	1914	1915	1916

10-Year Average	171	....	31	33	1,147	63%	105,412	459,050	278	$2.29	2.69c	1.14c

Yard tracks and sidings, June 30, 1916, 50.59 miles. Weight of rails, 75-lb. steel for 154.03 miles; balance 60-lb. steel. Total carrying capacity of freight equipment, 30,310 tons. Equipment as shown above is all owned.

Comment: The operating figures of the Vicksburg, Shreveport & Pacific for the year ended June 30, 1916, show substantial improvement as compared with the previous year, but they do not quite equal those of 1914 or 1913. However, the improvement was important enough to raise the average train mile earnings to the best figure of the decade, while freight rates reached a higher average than any reported since 1912. The freight tonnage on this property has continued to be well maintained and the percentage of high grade freight last year was very substantial.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ending June 30.	Gross Revenues.	Maintenance. Way.	Maintenance. Equipment.	Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.
1907	$9,172	$1,925	$1,612	$3,537	$3,338	$2,297	$2,841	$409	$2,432	$980	59%	$1,452	$627

1915	8,109	1,525	1,930	3,455	3,864	790	2,353	519	1,834	1,195	35	639	627
1916	9,557	1,505	1,792	3,297	3,716	2,543	3,599	615	2,984	1,329	55	1,655	...
10-Year Average	$8,822	$1,631	$1,686	$3,317	$3,511	$1,991	$2,659	$460	$2,199	$1,100	48%	$1,099	$598

Note: Above figures are based on average mileage operated for each year. Margin of safety is the proportion of surplus left over after deducting the fixed charges for each year. For example, in 1916 the "balance for charges" (per mile) was $2,984; fixed charges amounted to $1,329 or 45%, leaving a "margin of safety" of 55%.

Comparative Income Account, Years Ended June 30

Fixed charges	227,324	203,935	185,976	182,665	181,502	181,682	180,675
Balance	$282,796	$109,187	$192,930	$221,921	$146,509	$239,440	$221,315
Dividends paid	*	107,140	164,270	107,140	107,140	107,140	107,140
Surplus	$282,976	$2,047	$28,660	$114,781	$39,369	$132,300	$114,175
Earned on Stock: On preferred	13.2%	5%	9%	10.4%	6.8%	11.2%	10.3%
On common	2.7%	.....	3%	4%	1.4%	4.7%	4.0%

* Paid 5% ($107,140) on preferred in Sept., 1916, out of earnings for year ended June 30, 1916.

Note: Other income in 1916 embraced $8,160 from lease to M., K. & T. Ry. of 17 miles; $10,712 from joint facility rents; $8,296 from miscellaneous rents; $81,639 special dividend income. Fixed charges included $167,303 interest on bonds, $24,318 for hire of equipment; $32,749 for joint facility rents, etc.

Profit and Loss Account, year ended June 30, 1916: Credit balance at beginning of year, $841,908; credit balance transferred from income account, $282,976; unrefundable overcharges, $978; miscellaneous credits, $516; total $1,106,378. Contra: Loss on retired road and equipment, $19,977; appropriations for investment in physical property, $1,843; miscellaneous debits, $1,660; credit balance carried to balance sheet, $1,102,378; total, $1,126,378.

Comment: The income record of the Vicksburg, Shreveport & Pacific for the year ended June 30, 1916, reflected very substantial improvement. Gross revenues were much higher than in the previous year, while net receipts were improved very substantially through a moderate curtailment in operating costs. Although the revenue from outside income was much lower than in 1915, the total income available for fixed charges reached a new high figure. While fixed charges advanced to some extent, the surplus left over was notwithstanding equal to more than 13% on the preferred stock. The result since the close of the fiscal year has continued to reflect substantial prosperity.

TABLE C.—Capitalization Factors (Security Obligations and Earning Power)

Capitalization Per Mile of Road. | Dividend Record.

Note: Above table is based on average milage directly operated, and does not include mileage owned or controlled, but not operated directly. The "net income on net capital" is the percentage of total net income shown before deducting taxes or charges. "Margin of safety" on dividends is the proportion of surplus left over after providing for the dividends paid.

Comparative Condensed Balance Sheet, as of June 30

Assets:	1916	1915	1914	1913	1912	1911	1910
Property investment	$8,834,017	$8,633,650	$8,434,329	$8,377,068	$8,354,638	$8,351,124	$8,313,782

Note: In 1916, the "working assets" included $528,295 in cash.

Comment: There were no important capitalization changes on this property during the year ended June 30, 1916. The funded debt of the company increased slightly, but the outstanding capital stock remained the same as in previous years. The net capitalization of the company is not abnormally heavy and has shown no growth whatever during the past ten years. While no dividends were paid in Sept., 1915 (but resumed in Sept., 1916), the net income on net capital was well in excess of any normal requirement which might have been made. The position of bond issues on the property has continued strong, and high investment ratings are fully justified.

TABLE D.—Bond Record and Ratings (Based on 10-Year Results, Per Mile on Road)

Name of Issue.	Interest Payable.	Maturity.	Lien on Miles.	Outstanding per Mile.	Average Income Available.	Interest R'q'r'd per Mile of System.	Factor of Safety.	Basis for Rating. Security.	Basis for Rating. Salability.	Net Rating.

3. V. S. & P. equip. 4½s	J&D	Je 1923	Equip.	.....		26	68%	"	"	A.

For Reference Notes on Bonds, see next page.

Note: "Average income available" is the average net income per mile available for interest charges, after deducting taxes, for the ten years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Ratings, see pages 19 to 21.

REFERENCE NOTES ON BOND ISSUES

1. Auth. and outstanding, $1,323,000. Dated Nov. 25, 1885; due Nov. 1, 1915; extended at 5% to Nov. 1, 1940. Int. paid at Central Trust Co., New York. Coupon, $1,000. First lien, 188.47 miles, as follows: Delta to Shreveport, La., 171.47 miles; Shreveport to Wascom, Texas, 17 miles, the latter being leased to the M., K. & T, Ry. Underlie No. 2 with provision by latter to retire at maturity. Interest paid without deduction for normal income tax.

2. Auth., $3,500,000; outstanding, $1,922,000. Dated May 1, 1901; due May 1, 1941. Int. paid at Farmers' Loan & Trust Co., New York. Coupon, $1,000. Of authorized issue, $1,323,000 are reserved to retire No. 1, and balance unissued are for improvements. The parent company owns $1,613,000 of this issue. Second lien on 188.47 miles, which are covered by No. 1 by first lien. Interest paid without deduction for normal income tax. Market: New York and London.

3. Auth. and outstanding, $100,000. Dated June 15, 1916; due semi-annually to June 15, 1923. First lien on 100 box cars. There are also outstanding $48,000 equipment 6% notes, dated Feb. 17, 1916, maturing monthly to Feb. 17, 1919. First lien on 4 locomotives.

TABLE E.—Stock Record and Ratings (Based on 10-Year Results, Per Mile of Road)

Name and Details of Issue.	Rate and Date Dividends.	Amount Outstanding per Mile.	Average Income Available per Mile.	Dividend Required per Mile of System.	Factor of Safety.	Basis for Rating.		Net Rating.
						Equity.	Salability.

Note: "Average income available" on stock issues is the average surplus, after deducting all fixed and other charges, for the ten years ending June 30, 1916. "Dividend requirement" is the requirement, at the current rate, on the present amount outstanding. For Key to Ratings, see pages 21 to 23.

REFERENCE NOTES ON STOCK ISSUES

1. Auth., $2,200,000; outstanding, $2,142,800; balance in treasury; par $100. Has preference as to assets and 5% non-cumulative dividends. Ala., N. O., Tex. & Pac. Junc. Rys., Ltd., owns $2,080,100. Dividends of 5% per annum paid from 1908 to Sept., 1914; none in Sept., 1915; 5% in Sept., 1916.

2. Auth., $3,000,000; outstanding, $2,856,500; balance in treasury; par $100. Nearly all owned by Ala., N. O., Tex. & Pac. Junc. Rys., Ltd. Dividends paid as follows: 1903, 2½%; 1904, 3%; 1905, 2%; 1913, 2% in November; none since. Transfer agent, H. W. Wenham, Sec., New Orleans, La.

What MOODY'S INVESTORS SERVICE Consists Of:

The Service rendered is a comprehensive one, and covers the needs of every class and every type of investor and financial institution. It embraces the following features:

1. Supervision of Investments
2. Correspondence and Consultation Service
3. News Bulletin Service
4. Weekly Review of Financial Conditions
5. Special Weekly Analyses
6. Moody's Analyses of Investments (two mammoth volumes) (Annual)
7. Analyses of New Investment Issues (Monthly)
8. Monthly Business Barometer
9. Monthly Quotation and Valuation Record
10. Monthly Reports of Earnings
11. Two Text Books,—"How to Invest Money Wisely" and "How to Analyze Railroad Reports"
12. General Analyses (Monthly)

Terms: The regular annual service is supplied for a fee of $100 per annum, payable in advance. Each subscriber is furnished with full equipment, which includes the regular annual volumes—"Moody's Analyses of Investments"; binders for filing the reviews, analyses, reports and bulletins which are supplied all through the year; text books on investment subjects, etc. A full detailed explanation of the Service and its many features, will be gladly furnished on request.

THE ATCHISON, TOPEKA & SANTA FE RAILWAY COMPANY

NOTE: The analysis is based on official documents of the company, including its annual reports of the past ten years.
For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated under Kansas laws, Dec. 12, 1895, as successor to the Atchison, Topeka & Santa Fe Railroad Co., which was sold under foreclosure. The original company was incorporated under Kansas laws Feb. 15, 1859, and the main line opened for traffic Feb. 20, 1873.

Controlled Companies: On Aug. 1, 1914, the Oklahoma Central R.R. was leased for five years, with privilege of renewal and option on bonds and stocks. This is operated as a part of the main system. See page 135. In 1915 acquired the Crosbyton-Southplains R.R., 38.45 miles from Lubbock to Crosbyton, Tex., the Laton & Western R.R. 17.57 miles Laton to Riverdale, Cal.

Location: The directly operated lines of the system consisted on June 30, 1916, of 11,270.70 miles, as follows: Atchison, Topeka & Santa Fe system proper, consisting of main lines from Chicago to Los Angeles and San Francisco, with numerous branches and spurs, 8,647.87 miles; Rio Grande & El Paso R.R., from New Mex.-Texas State line to El Paso, Texas, 20.22 miles; Gulf, Colorado & Santa Fe Ry., from Galveston, Texas, to Purcell, Okla., from Sommerville to Silsbee, from Temple to San Angelo, from Cleburne to Paris, and numerous other branches in Texas, total, 1,937.59 miles; Panhandle & Santa Fe Ry., Oklahoma-Texas line to Amarillo and New Mex. State line to Pecos, Texas, Farwell to Coleman, Amarillo to New Mexico State line, Slaton Junc. to Lamesa, Tex., etc.; total, 665.02 miles; and various minor branches. In addition to the above, the company owns or jointly controls the following: Beaumont Wharf & Terminal Co., Crosbyton-Southplains R.R., all securities owned; Grand Canyon Ry., of which 99% of stock is owned; Kansas Southwestern Ry., all stock owned; Leavenworth & Topeka Ry., owned jointly with Union Pacific; Northwestern Pacific R.R. and Sunset Ry., owned jointly with Southern Pacific. (See these jointly owned companies under their own heads.) The directly operated system penetrates or crosses the States of Illinois, Missouri. Kansas, Colorado, Oklahoma, Texas, New Mexico, California, and Arizona. Population of these States in 1890, 12,590,229; in 1900, 15,188,695; in 1910, 19,884,800.

Management: OFFICERS: Edward P. Ripley, Pres.; W. B. Storey, Vice-Pres.; Edward Chambers, Vice-Pres.; W. E. Hodges, Vice-Pres.; D. L. Gallup, Comp.; E. L. Copeland, Sec. and Treas. DIRECTORS: H. R. Duval, Chas. S. Gleed, Walker D. Hines, Edward J. Berwind, Henry C. Frick, Andrew C. Jobes, Benjamin P. Cheney, T. DeWitt Cuyler, Augustus D. Juilliard, Howel Jones, Edward P. Ripley, Henry S. Pritchett, Chas. Steele, H. A. Stillwell, Ogden L. Mills. Annual meeting, fourth Thursday in October. at Topeka, Kan. NEW YORK OFFICE AND TRANSFER AGENCY, 5 Nassau Street. CHICAGO OFFICE, 80 East Jackson Boulevard.

Classification of Freight Tonnage (Years Ending June 30)

	1907	1908	1909	1910	1911	1912	1913	1914	1915	1916
Products of Agriculture	25.34%	22.88%	23.08%	20.68%	22.33%	22.18%	20.90%	19.97%	26.57%	21.99%
Products of Animals	7.44	7.92	8.24	7.11	7.74	7.33	6.53	6.23	5.74	5.40
Products of Mines	30.87	32.05	28.29	29.28	28.36	30.95	37.25	40.92	38.65	42.30
Products of Forests	12.12	12.41	13.67	12.16	11.11	10.24	10.48	8.64	7.31	7.13
Manufactures	17.37	17.95	19.81	18 31	17.54	17.70	17.55	16.19	14.60	16.28
Miscellaneous	6.86	6.79	6.81	12.46	12.92	11.60	7.29	8.05	7.13	6.90

Total revenue tonnage in 1909, 17,220,597 tons; in 1910, 19,448.590 tons; in 1911, 20,093,219 tons; in 1912, 21,149,984 tons; in 1913, 25,061,711 tons; 25,034,240 in 1914; 26.093,880 in 1915; 31,193,939 in 1916.

The largest item in 1916 was ores, 4,648,451 tons; in 1915, 2,758,521 tons. Bituminous coal in 1916 was 3,559,028 tons, against 3,086,644 tons in 1915. (It will be noted that "Products of Mines" has represented a very substantial proportion of the total tonnage for the entire decade. In much earlier years, the Atchison property depended upon agricultural products for its prosperity to a very pronounced extent, but in recent years the tonnage has become far more diversified.)

TABLE A.—Physical Factors (Mileage, Equipment and Operation)

YEARS ENDED JUNE 30.	Average Miles Operated.	Extra Main Track.	Locomotives Owned.	Passenger Cars Owned.	Freight and Company Cars.	Fgt. to all Traffic.	Passenger Density.	Freight Density. 10-Year Average	10,340	730	2,002	1,454	63,013	68%	118,973	712,197	403*	$2.55	2.11c	.99c

* Includes "company" freight. Yard tracks and sidings, June 30, 1916, 4,072 miles.

Comment: The operating results of the Atchison, Topeka & Santa Fe Railway for the year ended June 30, 1916, underwent substantial improvement. Both freight and passenger density were much higher than in any previous year, while the train mile earnings also averaged at the best figures of the decade. Although average freight and passenger rates tended to decline, the volume of business on the property maintained a sound position. It will be noted that in the freight classification more dependence was placed during the past year on the transportation of low grade freight, such as products of mines. Agricultural products fell off to a considerable extent.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ending June 30.	Gross Revenues.	Maintenance. Way.	Maintenance. Equipment.	Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.
1907	$10,103	$1,648	$1,270	$2,918	$3,430	$3,755	$3,836	$229	$3,607	$1,324	63%	$2,283	$1,117
1908	9,624	1,500	1,513	3,013	3,447	3,164	3,235	296	2,939	1,384	53	1,555	1,206

1910	10,588	1,796	1,569	3,365	3,670	3,553	3,810	404	3,406	1,346	60	2,060	1,548
1911	10,393	1,552	1,612	3,164	3,673	3,556	3,769	335	3,434	1,368	60	2,066	1,511
1912	10,139	1,513	1,554	3,067	3,639	3,433	3,675	396	3,279	1,429	56	1,850	1,494
1913	10,874	1,679	1,806	3,485	3,737	3,652	3,886	434	3,452	1,391	60	2,061	1,498
1914	10,186	1,403	1,751	3,154	3,581	3,451	3,650	507	3,143	1,293	59	1,850	1,595
1915	10,586	1,486	1,778	3,264	3,582	3,740	4,008	495	3,513	1,342	62	2,171	1,579
1916	11,890	1,735	1,824	3,559	3,886	4,445	4,739	552	4,187	1,290	69	2,897	1,662
10-Year Average	$10,401	$1,563	$1,609	$3,172	$3,578	$3,651	$3,848	$392	$3,456	$1,368	60%	$2,088	$1,432

Note: Above figures are based on average miles operated for each year. Margin of safety is the proportion of surplus left over after deducting the fixed charges for each year. For example, in 1916 the "balance for charges" (per mile) was $4,187; fixed charges amounted to $1,290 or 31%, leaving $2,897 a "margin of safety" of 69%.

Comparative Income Account, Years Ended June 30

Com.	12.30%	9.19%	7.34%	8.62%	8.19%	9.30%

Note: Other income includes interest and discounts, income from investments, rentals of tracks and terminals, etc. Fixed charges include rental of tracks, etc., hire of equipment, interest on bonds, etc. "Improvement Appropriation" in 1910 included "Fuel Reserve Fund," $703,218, and for "Additions and Betterments," $4,000,000; in 1911, "Fuel Reserve Fund," $414,139, and for "Additions and Betterments," $5,000,000; in 1912, "Fuel Reserve Fund," $396,960, and "Additions and Betterments," $3,300,000; in 1913 and 1914, "Additions and Betterments" only. Appropriation for "Fuel Reserve Fund" was $461,105 in 1913; $51,486 in 1914; $54,503 in 1915; $55,482 in 1916. Appropriation to sinking fund was $12,946 in 1915; $14,197 in 1916.

Profit and Loss Account, year ended June 30, 1916: Surplus to credit of profit and loss, June 30, 1915, $20,581,222; additions to profit and loss—Sundry adjustments, $202,639; surplus from income account, $6,819,091; total, $27,602,952. Contra: Discount on capital stock and bonds sold during the year, $737,164; surplus appropriated for investment in physical property, $179,480; surplus to credit of profit and loss, June 30, 1916, $26,686,308; total, $27,602,952.

Comment: The income record of the Atchison system for the year ended June 30, 1916, was a brilliant one. Both gross and net revenues advanced to a very radical extent, and there was also a substantial increase in the revenue from outside sources. The net income available for fixed charges was over 20% higher than that of the previous year. Fixed charges themselves, actually underwent a slight decline, and as a result the surplus available for dividends equalled no less than 26¼% on the preferred stock and over 12% on the common stock.

As has been the custom of this company for a great many years a large amount of the surplus income after dividend disbursements was appropriated for improvements. It will be noted by reference to the balance sheet on the next page that since 1911, the company has appropriated from surplus income nearly $50,000,000 for general improvements.

Comment: During the year 1916 the outstanding capital stock of the Atchison system underwent a further increase, but there was, as has been the case during recent years, a very substantial decline in the total funded debt. These changes were largely brought about through the conversion of convertible bonds into common stock.

The net capitalization, which includes both stocks and bonds, showed only a very slight increase, as measured on the mileage basis. As compared with similar properties of like type, the net capitalization of the Atchison system is not heavy, and as measured by average earning power, it is really very light. It will be noted that during 1916, the net income on net capital equaled 8.3%, which is higher than in any previous year.

Note: "Average income available" is the average net income per mile available for interest charges, after deducting taxes, for the ten years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Bond Ratings, see pages 19 to 21.

REFERENCE NOTES ON BOND ISSUES

1. Auth., $35,000 per mile; outstanding, $560,000 (closed); deposited under No. 2, $14,790,000. Dated Jan. 1, 1887; due Jan. 1, 1937. Int. paid at 5 Nassau St., New York. Coupon, $1,000; reg., $5,000. First lien, 439.31 miles. Corwith, Ill. (near Chicago), to Big Blue Junc. (near Kansas City). Underlie Nos. 2 and 3. Retirement provided by No. 2. Legal for S. B. in Cal., Conn., Maine, Mass., Mich., Minn., Mo., N. J., N. Y., R. I., Vt., Wis. Normal income tax deducted from interest. Market: New York and Boston.

ATLANTA, BIRMINGHAM & ATLANTIC RAILWAY COMPANY

NOTE: The analysis is based on official documents of the company, including its annual reports of the past ten years.
For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated in January, 1916, as successor to Atlanta, Birmingham & Atlantic R.R., Georgia Terminal Co. and Alabama Terminal R.R. Co., sold at foreclosure. Foreclosed company was incorporated in August, 1914, to succeed to the orginal company of the same name, which was incorporated in 1905 to construct an extension of the Atlanta & Birmingham Ry., from Montezuma, Ga., to Birmingham, Ala. In 1906 the company consolidated with the Atlanta & Birmingham Ry., and the Eastern Ry. of Alabama was acquired. The company also acquired control of the Georgia Terminal Co. and the Alabama Terminal Ry., and leased their properties for 99 years, guaranteeing their bond issues, etc. In January, 1909, receivers were appointed, and the road underwent reorganization. The Georgia Terminal Co., Alabama Terminal Co., Birmingham Coal & Iron Co., and Brunswick Steamship Co., all went into receivers' hands in February, 1909. A plan of reorganization was adopted in June, 1914, but in December the road was again placed in the hands of receivers. Final plan, resulting in formation of present company, became operative at close of 1915 and new company took possession Jan. 1, 1916.

Location: Main line extends from Brunswick to Atlanta, Ga., with branches to Birmingham, Ala., and Thomasville, Ga., including terminal properties controlled 637.6 miles. Mileage mainly in State of Georgia. Population of Georgia in 1900, 2,216,331; in 1910, 2,609,121.

Management: E. T. Lamb, Pres.; Brooks Morgan, Vice. Pres.; F. K. Mays, Sec. and Treas.; J. L. Edwards, Traffic Manager. DIRECTORS: C. F. Ayer, G. C. Clark, Jr., Howard Bayne, E. K. Farmer, E. T. Lamb, E. B. Lewis, F. K. Mays, Brooks Morgan, J. K. Ottley, P. R. Pyne, F. D. M. Strachan, G. L. Stone, W. C. Vireen, M. R. Wilkinson, A. H. Woodward. Annual meeting, first Tuesday in October. MAIN OFFICE, Atlanta, Ga.

Yard tracks and sidings, 183 miles. Rails, 60 to 80 lbs.

Comment: The operating results on this property underwent substantial improvement during the first year under the new management. It will be noted that the freight density and average freight train load both rose to the highest figures ever reached, and although freight rates tended to decline still further, the train mile earnings were maintained at a substantial level. The freight tonnage of the road is very well diversified, and high-grade freight now represents a larger proportion of total business than was formerly the case.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ended June 30.	Gross Revenues.	Maintenance. Way.	Maintenance. Equipment.	Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.

10-Year Average	$4,278	$616	$711	$1,327	$2,088	$863	$989	$196	$793	$1,626	....	$833*	.....

* Deficit.

Note: Above figures are based on average miles operated for each year. Margin of safety is the proportion of surplus left over after deducting the fixed charges for each year. For example, in 1916 the "balance for charges" (per mile) was $791; fixed charges amounted to $541 or 68%, leaving a "margin of safety" of 32%.

Comparative Income Account, Years Ended June 30

	1916	1915	1914	1913	1912	1911
Gross revenues	$3,051,696	$2,654,596	$3,399,360	$3,243,046	$3,246,301	$2,810,410
Maintenane of way	473,442	421,847	539,650	529,744	363,134	355,538

Net operating rev.	$597,345	$280,485	$632,406	$566,301	$676,825	$662,593
Operating ratio	80.4%	89.4%	81.4%	82.5%	79.1%	76.4%
Other income	66,598	57,715	48,703	51,219	36,654	132,326
Total net income	$663,943	$338,200	$681,109	$617,520	$713,479	$794,919
Taxes accrued	158,253	146,847	172,042	164,236	173,500	131,146
Balance for charges.	$505,690	$181,353	$509,067	$453,284	$539,979	$663,773
Fixed charges	345,984	1,398,834	1,286,838	1,293,438	1,320,356	1,312,862
Surplus over charges.	$159,706	def.$1,207,481	def.$777,771	def.$840,154	def.$780,377	def.$649,089

Note: The income figures for 1916, as shown above, are a consolidation of the account of the old company for the six months ended Dec. 31, 1915, with that of the new company for the six months ended June 30th. Fixed charges for 1916 are the charges of the new company.

Profit and Loss Account six months ended June 30, 1916: Credit balance transferred from income, $9,723; miscellaneous credits, $564; total, $10,287. Contra: Loss on retired road and equipment, $50; miscellaneous debits, $510; credit balance carried to balance sheet, $9,727; total, $10,287.

Comment: Both gross and net revenues of this property were very satisfactory during the year ended June 30, 1916, while total net income was practically doubled as compared with 1915. The fixed charges for the year, which included various miscellaneous items, were relatively light, and the position of the property as a whole was greatly improved.

TABLE C.—Capitalization Factors (Security Obligations and Earning Power)

Capitalization Per Mile of Road. | Dividend Record.

Total	$40,280,169	$68,391,766	$67,390,310	$66,359,761	$60,320,624	$59,611,099
LIABILITIES:						
Capital stock	$30,000,000	$35,000,000	$35,000,000	$35,000,000	$35,000,000	$35,000,000
Funded debt	9,290,000	24,664,407	24,560,500	24,523,000	20,095,000	20,427,000
Working liabilities	795,430	8,225,185	7,420,173	6,739,607	5,117,132	4,148,979
Accrued liabilities not due	.....	76,406	89,250	78,508	.....	.....
Deferred credit items....	185,012	425,768	326,387	18,646	48,492	35,120
Profit and loss surplus...	9,727	.....	.....	.....	.....	.....
Total	$40,280,169	$68,391,766	$67,390,310	$66,359,761	$60,320,624	$59,611,099

Comment: The Atlanta, Birmingham & Atlantic Railway as reorganized carries a far lower capitalization than formerly. The funded debt, it will be noted, was cut to a very low figure, although the amount of outstanding stock still remains relatively high. However, the readjustment of capitalization puts the property in a much more secure position than ever before.

TABLE D.—Bond Record and Ratings (Based on 10-Year Results, Per Mile of Road)

NAME OF ISSUE.	Interest Payable.	Maturity.	Lien on Miles.	Outstanding per Mile.	Average Income Available.	Interest R'q'r'd per Mile of System.	Factor of Safety.	BASIS FOR RATING. Security.	BASIS FOR RATING. Salability.	Net Rating.
1. Atl. & Birm. Ry. first 5s.....	J&J	Ja 1934	(1st) 300	$13,633	$793	$320	60%	Good	Good	Baa.
2. Atl. Birm. & Atl. income 5s..	See text	N 1930	See text	.....	473	404	15%	Fair	Fair	B.

Note: In addition to above bonds, the new company has authorized a new first and refunding mortgage, which is to cover the entire properties, subject to No. 1. Sufficient of this issue are to be reserved to retire No. 1 at or before maturity. None of these bonds have been issued as yet. For Key to Ratings, see pages 19-21.

REFERENCE NOTES ON BOND ISSUES

1. Outstanding, $4,090,000 (closed). Dated Jan. 1, 1904; due Jan. 1, 1934. Int. paid at Old Colony Trust Co., Boston. Coupon, $1,000. First lien on line of original road, Brunswick to Montezuma, Ga., with various branches, 300.02 miles in all. Callable at 110 on any int. day, on 30 days' notice. Underlie No. 2. Interest paid without deduction for normal income tax.

2. Authorized, $5,200,000; outstanding, $5,165,787; in treasury, $34,213. Dated Nov. 1, 1915; due Nov. 1, 1930. Int. payable annually or semi-annully at rate not to exceed 5% as declared by directors; not cumulative. The mortgage provides that net income, as defined by the I.-S. C. Commission, as available for that purpose, shall be so declared by the board. The board may, however, reserve in any year from such "net income" not in excess of 20% thereof (but not to exceed $100,000 in any year), until the total amount so reserved, exclusive of interest, shall reach $300,000. This "Income Bond Reserve Fund," carrying interest at 6%, may be distributed to the income bonds at any time and in any amount, and any balance at the maturity of the bonds shall be paid over to the trustee for the benefit of the bondholders. The first installment of interest at the full rate of 5% per annum, from Nov. 1, 1915, to June 30, 1916 ($33.33 per $1,000 bond), was paid Sept. 1, 1916. The full rate now being paid.

Capital Stock: Authorized and issued, $30,000,000; par $100. Underwritten by a syndicate and offered to former first mortgage bondholders at $12 per share. Listed on New York Stock Exchange. Transfer agents, Guaranty Trust Co., New York; American Trust Co., Boston.

ATLANTA & WEST POINT RAILROAD COMPANY

NOTE: The analysis is based on official documents of the company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated in 1847, as the Atlanta & La Grange Railroad. Name changed as above in 1860. Purchased the Atlanta Belt Line in 1907-8 and has now directly merged this property. Also owns one-third interest in the Atlanta Terminal Co., and one-half interest in the La Grange Belt Line.

Control: An interest in the Atlanta & West Point R.R. is owned by the lessees of Georgia Railroad & Banking Co. (which see). The latter also owns a one-half interest in the Western Railway of Alabama. The Georgia Railroad & Banking Co., whose properties are operated by the Georgia Railroad, was leased in 1881, for ninety-nine years, to W. M. Wadley at a rental of $600,000 per year, and this lease has been jointly assumed by the Atlantic Coast Line Railroad and the Louisville & Nashville R.R. The Central of Georgia Railway (Illinois Central system) also holds a minority stock interest in the company.

Location: Lines extend from Atlanta to West Point, Ga., 93.19 miles, of which 90.86 miles are owned. At West Point connection is made with the Western Railway of Alabama, the latter extending from West Point to Selma, Ala. (See Western Railway of Alabama under its own heading.) These lines form a connecting link of a through route from Washington, D. C., over the lines of the Southern Railway, to Jackson, Miss., over the Queen & Crescent route, and to New Orleans over the lines of the Louisville & Nashville. Mileage of Atlanta & West Point is all in Georgia. Population of Georgia, in 1900, 2,216,331; in 1910, 2,609,121.

Management: OFFICERS: C. A. Wickersham, Pres. and Gen. Mgr.; W. H. Bruce, Sec. and Treas.; W. H. Smith, Aud. DIRECTORS: M. H. Smith, A. R. Lawton, H. C. Fisher, W. A. Winburn, H. Walters, J. W. English, C. A. Wickersham. Annual meeting, third Tuesday in October. OFFICE, Atlanta, Ga.

Classification of Freight Tonnage (Years Ended June 30)

	1907	1908	1909	1910	1911	1912	1913	1914	1915	1916
Products of Agriculture....	20.80%	19.88%	22.84%	19.15%	17.56%	18.43%	18.63%	19.52%	24.48%	21.84%

* Item of "Products of Animals" is increased and item of "Manufactures," etc., decreased by the transfer of "fertilizers" from the latter to the former.

Total revenue tonnage in 1909, 545,264 tons; 1910, 664,232 tons; 1911, 806,212 tons; 1912, 827,230 tons; 1913, 772,674 tons; 776,822 in 1914; 734,076 in 1915; 887,754 in 1916.

The freight business on this road is unusually well diversified. The company does not depend upon any single item of tonnage for the bulk of its business. Through traffic constitutes nearly 75% of the total business.

Yard tracks and sidings, June 30, 1916, 22.29 miles. All equipment is fully owned; there are no equipment trusts.

Comment: The operating exhibit of this company for the year 1916 was a very gratifying one. Both passenger and freight density were higher than for some years past, while the freight train load and train mile earnings also reached better figures. Although there was a decline in average freight rates, yet the operations were undoubtedly conducted on a very profitable basis. It will be noted by the exhibit of freight tonnage that the company continues to depend very largely on the transportation of high-grade freight for its business. The passenger business of the company is unusually large for a Southern property, and averages about 47% of the total amount of business done. Passenger rates have remained very stable in recent years.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

10-Year Average }	$13,098	$1,762	$2,465	$4,227	$5,393	$3,478	$4,226	$701	$3,525	$1,076	68%	$2,449	$1,337

Note: Above figures are based on average miles operated each year. Margin of safety is the proportion of surplus left over after deducting the fixed charges for each year. For example, in 1916 the "balance for charges" (per mile) was $5,021; fixed charges amounted to $1,907 or 38%, leaving $3,114, a "margin of safety" of 62%.

Comparative Income Account, Years Ended June 30

Taxes accrued	77,639	75,078	82,911	81,275	72,336	59,338	55,809
Balance for charges	$466,974	$322,502	$308,181	$302,918	$317,091	$368,527	$299,520
Fixed charges	177,339	154,300	52,730	53,147	55,159	43,243	114,048
Surplus	$289,635	$168,202	$255,451	$249,771	$261,932	$325,284	$185,472
Dividends paid	*	221,724	147,756	147,756	147,756	110,844	73,932
Balance	$289,635	(df.) $53,522	$107,695	$102,015	$114,176	$214,440	$111,540
Earned on stock	11.75%	6.83%	10.37%	10.13%	10.6%	14.3%	14.7%

*Dividend charged in Profit and Loss Account in 1916. See below.

Note: "Other income" in 1916 included hire of equipment, $122,668; joint facilities, $18,256; interest and dividends, $37,700. There is no bonded debt, and the fixed charge items represented in 1916 $93,103 paid for joint facilities; $84,236 for hire of equipment.

Profit and Loss Account, year ended June 30, 1916: Credit balance at beginning of year, $742,557; credit balance transferred from income account, $289,635; sundry credits, $5,409; total, $1,035,596. Contra: Dividend appropriations out of surplus, $147,816; sundry debits, $10,229; credit balance carried to balance sheet, $879,552; total, $1,037,596.

Comment: The income account of the Atlanta & West Point R.R., for the fiscal year 1916 was better than that reported in any previous year. Both gross and net earnings reached new high figures, while an increase in the outside income brought the total net revenues up to very high figures. Fixed charges increased slightly, but notwithstanding this increase the balance carried forward was equal to no less than 11¾% on the outstanding stock, and fully justified the dividend rate of 6%. A substantially larger dividend could have been paid without difficulty.

Although the net operating income of this property has not shown much growth in recent years, income from investment and other sources has tended to expand. In 1916, this "other income" amounted to $178,174, being over four times as great as in 1910.

TABLE C.—Capitalization Factors (Security Obligations and Earning Power)

Profit and loss surplus	879,552	742,553	779,258	752,047	663,868	551,525	336,504
Total	$3,998,967	$3,921,234	$3,940,997	$3,879,471	$3,664,661	$3,609,983	$3,422,833

* This represents "temporary obligations for advances."

Note: The entire funded debt of this company was retired in 1911 by an issue of a like amount of stock. Working assets in 1916 included $677,478 in cash.

Comment: There were no capitalization changes on this property during the year 1916. The company has no bonded debt and practically all its revenues accrue to the benefit of the outstanding capital stock. The net capitalization of the property as measured on the mileage basis is considerably lower than that of a few years ago, while net income on net capital is now ranging at higher figures than ever. The capital stock of the company, a large majority of which is owned by other roads, stands on a strong investment basis.

TABLE E.—Stock Record and Ratings (Based on 10-Year Results, Per Mile of Road)

NAME AND DETAILS OF ISSUE.	Rate and Date Dividends.	Amount Outstanding per Mile.	Average Income Available per Mile.	Dividend Required per Mile of System.	Factor of Safety.	BASIS FOR RATING.		Net Rating.
						Equity.	Salability.	
Atlanta & West Point R.R. stock. Outstanding, $2,463,600. Par $100.	See text	$26,490	$2,449	$1,589*	35%	High	High	A.*

* To pay 6%.

REFERENCE NOTE ON STOCK ISSUE

Authorized, $2,500,000; outstanding, $2,463,600; par $100. Of the total issue outstanding $188,500 was owned by the Central of Georgia Railway on June 30, 1916, and $936,100 by the Georgia R.R. and Banking Co. on March 31, 1916. Dividends: From 1884 to 1914, inclusive, 6% per annum has been paid. In 1915, 9% was paid from surplus account; in 1916, 6%. In 1899, 25% extra was paid. TRANSFER AGENT, secretary of the company.

Investment Position: The stock ratings are based largely on the average earning power of the company and its exhibits in net surplus available from year to year for dividends on the stock issue. For Key to Stock Ratings, see pages 21-23.

ATLANTIC COAST LINE COMPANY OF CONNECTICUT

Origin: Chartered May 29, 1889, under the laws of Connecticut. This company formerly controlled and still owns an interest in the Atlantic Coast Line System of railroads, extending from Richmond and Norfolk, Va. to Atlanta, Ga., Montgomery, Ala., and Punta Gorda, Fla., reaching Wilmington, N. C., Charleston, Port Royal, and Columbia, S. C., Augusta, Macon, Savannah and Brunswick, Ga., Jacksonville, Port Tampa and Fort Myers, Fla., and numerous other points in the South Atlantic States. The railroad companies in which the company was interested, directly or indirectly, on June 30, 1916, were as follows:

Atlantic Coast Line Railroad System (total, 5,209.89 miles).

	Miles
Atlantic Coast Line R.R.	4,743.93
Charleston and Western Carolina Ry.	342.50
Northwestern R.R. of South Carolina	80.5
Washington and Vandemere R.R.	42.96

Louisville and Nashville Railroad System (total, 6,890.75 miles).

		Miles.
Louisville and Nashville R.R. System		5,071.29
Louisville, Henderson and St. Louis Ry.	Controlled by Louisville and Nashville R.R. Co.	181.70
Nashville, Chattanooga and St. Louis Ry.		1,230.76
Georgia Railroad System (A. C. L. R.R., lessees)		307.00
Total mileage		12,100.64

Note: As the following exhibit of security holdings indicates, the company still controls the Charleston & Western Carolina Ry., but now holds only $18,590,600 of Atlantic Coast Line R.R. stock out of a total outstanding of $68,754,700. This compares with $36,230,600 owned on June 30, 1913. The large remaining holding (representing over 25%) still gives a dominant interest in the system, however.

Management: OFFICERS: Henry Walters, Chairman and Pres.; Waldo Newcomer, Vice-Pres.; J. J. Nelligan, Treas. and Asst. Sec.; R. D. Cronly, Sec. DIRECTORS: Henry Walters, Geo. C. Jenkins, Waldo Newcomer, Norman James, Geo. B. Elliott, Warren Delano, Jr., W. J. Brennan. Annual meeting, second Wednesday in October. CORPORATE OFFICE, Bridgeport, Conn.

Comparative Condensed Balance Sheet as of June 30

Total	$1,562.81
Total Securities Owned (at book value)	$29,141,339.24

Bonded Debt: (1) $5,061,800 Certificates of Indebtedness. Of this amount, $61,800 carry 4% and the balance 5%. The 4% certificates are redeemable by the company at 105 after Nov. 1, 1920; the 5% certificates are irredeemable, and were issued in 1897 to retire an equal amount of capital stock of the company. They are not a mortgage, but if any mortgage is created, the holders of these certificates will have the option of exchanging them, par for par, for such mortgage bonds. They are in denominations of $100, and int. on 5s is paid June and December; on 4s, January and July. Listed on Baltimore Stock Exchange. Normal income tax deducted from interest. Rating Aa.

(2) $3,000.000 4% Debenture Certificates of Indebtedness. Dated Jan. 1, 1905; due Jan. 1, 1925; redeemable at any time at par and int. Int. paid January and July, being a first fixed-charge on the income of the company. Not a mortgage, but if a mortgage is created, the holders of these certificates will have the option to exchange same, par for par, for such mortgage bonds. Listed on Baltimore Stock Exchange. Normal income tax deducted from interest. Rating, Aa.

Capital Stock: Auth., $30,000,000; outstanding, $8,820,000; par $50. Dividends paid as follows: 1895, 1½%; 1896, 3%; 1897, 3½%; 1898, 4% cash and 100% stock; 1899, 4½%; 1900 5% cash and 100% paid in certificates of indebtedness; 1901, 4½%; 1902, 6½%; 1903 and 1904, 8% each; 1905, 9%; 1906 and 1907, 10% each; 1908, 8%; 1909, 9%; 1910 and 1911, 10% each; 1912, 1913, 1914, 1915 and 1916, 12% each. Stock transferred at Safe Deposit & Trust Co., Baltimore. Outstanding stock was reduced on March 10, 1914, from $17.640,000 by change in par value of shares from $100 to $50, and at same time a distribution was made of $17,640,000 Atlantic Coast Line R.R. Co. stock. Listed on Baltimore Stock Exchange. Rating, A.

Note: The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Ratings, see pages 19 to 23.

Latest Facts and Figures: By means of our regular Investors Service, all investors and dealers in securities can be kept currently up to date regarding all developments affecting the above company. Events of importance frequently occur during the year which should not be ignored. Send for full details, which will show you just how you can secure the benefit of this special service.

ATLANTIC COAST LINE RAILROAD COMPANY

NOTE: The analysis is based on official documents of the company, including its annual reports of the past ten years. For Definitions and Key o Ratings, see pages 19-26.

Origin: Incorporated under Virginia laws, March 14, 1836, as the Richmond & Petersburg R.R.; the latter was succeeded Jan. 12, 1900, through change of name and by amendment of charter, by the Atlantic Coast Line R.R. of Virginia. On April 23, 1900, the Norfolk & Carolina R.R., the South Eastern R.R., the Wilmington & Weldon R.R. and the Atlantic Coast Line R.R. of South Carolina were consolidated with the Atlantic Coast Line R.R. of Virginia under the name of the Atlantic Coast Line Railroad Company. On July 1, 1902, the Savannah, Florida & Western Ry. Co. was consolidated with the system; June 12, 1902, the St. John's & Lake Eustis R.R. and the Sanford & Lake Eustis R.R. were merged; April 1, 1903, the Florida Southern R.R. and the Sanford & St. Petersburg R.R. were merged; July 28, 1904, the Jacksonville & Southwestern R.R. was acquired; in October, 1905, control of tho Conway Coast & Western R.R. was acquired, and in 1913 was directly merged. In 1915, the Florida Central R.R. was merged.

Control: The Atlantic Coast Line R.R. Co. was formerly controlled through ownership of a majority of stock by the Atlantic Coast Line Company of Connecticut. In March, 1914, however, $17,640,000 of the stock was distributed as a dividend to the individual stockholders of that company, and the present interest of the Atlantic Coast Line Co. amounts to $18,590,600 out of $68,754,700 outstanding.

Interests in Other Railroads: The Atlantic Coast Line Railroad owns 51% of the capital stock of the Louisville & Nashville R.R.; jointly with the Louisville & Nashville is a lessee of the railroad properties of the Georgia R.R.; jointly with the Norfolk & Western Ry. It controls the Winston-Salem Southbound R.R., and jointly guarantees the bonds of the latter; it owns a one-third interest in the Chesapeake Steamship Co., operating between Baltimore & Norfolk; a half interest in the Wilmington Railway Bridge Co., the other half being owned by the Seaboard Air Line Ry., and the bonds of which are jointly guaranteed; a half interest in the Charleston Union Station Co., the other half being owned by the Southern Railway Co., and the bonds of which are jointly guaranteed; a joint interest with the Seaboard Air Line and the Florida East Coast Ry. In the Jacksonville Terminal Co., this company guaranteeing one-third of the principal, and together with the Southern Railway interests, guaranteeing one-fourth of the interest; a one-sixth interest in the Richmond-Washington Co., with a joint guarantee of the bond issue of the latter; a full interest in the Washington & Vandemere R.R., the bonds of the latter being guaranteed. Also leases on "user basis," jointly with others, Albany Passenger Terminal Co., Augusta Union Station, Columbia Union Station, Goldsboro Union Station, Savannah Union Station, and Tampa Union Station. The Central R.R. of South Carolina, extending from Lowes to Sumter, is leased for 99 years from Dec. 1, 1881, at an annual rental of $31,000. The South Carolina Pacific Ry. is leased at an annual rental of $9,276 per annum to January 1, 1918; $10,276 per annum thereafter to Jan. 1, 1922; and $11,276 thereafter. The Tidewater Power Co.'s dummy line is operated under a forty-year lease from Jan. 1, 1895, at an annual rental of $3,000. The use of the Augusta Union Station Co. involves the payment of interest to cover the latter's 4% bonds (outstanding, $225,000), and other small liabilities. This payment is provided jointly by the Atlantic Coast Line R.R., Southern Ry., Charleston & Western Carolina Ry., Central of Georgia Ry. and Augusta Southern R.R. The use of the Savannah Union station involves the payment of interest and sinking fund on $600,000 4% bonds; this payment being supplied jointly by the Atlantic Coast Line R.R., Southern Ry. and Seaboard Air Line.

Location: The directly operated lines of the company on June 30, 1916, comprised 4,743.93 miles, of which 4,654.80 miles were owned and the balance operated under lease or otherwise. The system extends from Richmond, Va., south to Tampa and Fort Myers, Fla., forming a through line with a network of branches and spurs radiating throughout the States of Virginia, North Carolina, South Carolina, Georgia, Alabama, and Florida. Population of these States in 1890, 8,166,488; in 1900, 9,661,880; in 1910, 11,283,132.

Management: OFFICERS: H. Walters, Chairman; J. R. Kenly, Pres.; Lyman Delano, 1st Vice-Pres.; R. A. Brand, 2nd Vice-Pres.; James F. Post, Treas.; H. L. Borden, Sec.; P. R. Albright, Gen. Mgr. DIRECTORS: H. Walters, Geo. C. Jenkins, Waldo Newcomer, Warren Delano, M. F. Plant, F. W. Scott, Geo. B. Elliott, E. B. Borden, Donald MacRae, F. B. Adams, W. W. Mackall, H. L. Borden. MAIN OFFICE: Richmond, Va.; office of President and Treasurer, Wilmington, N. C.; NEW YORK OFFICE: 71 Broadway, New York. TRANSFER AGENTS, J. P. Morgan & Co.

Classification of Freight Tonnage (Years Ended June 30)

10-Year Average	4,528	173	727	643	27,515	69%	73,554	387,738	215	$1.97	2.27c	1.21c

Yard tracks and sidings, 1,166 miles.

Comment: The Atlantic Coast Line Railroad for the fiscal year ended June 30, 1916, reported great improvement in its operating exhibit, and the freight density rose to the highest figures ever recorded. It will be noted also that the freight train load underwent a substantial improvement, while train mile earnings now range at a very high level. The freight tonnage, as has been the case for many years, is made up largely of manufactures and miscellaneous articles, although the product of mines are tending to become a more important factor than formerly.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ended June 30.	Gross Revenues.	Maintenance.		Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.
		Way.	Equipment.										
1907	$6,158	$899	$907	$1,806	$2,699	$1,653	$2,268	$198	$2,070	$1,353	**35%**	$717	$692

1912	7,395	944	1,113	2,057	2,935	2,403	3,098	309	2,789	1,264	**55**	1,525	957
1913	7,834	1,012	1,211	2,223	3,120	2,491	3,299	315	2,984	1,273	**57**	1,711	995
1914	7,926	1,101	1,312	2,413	3,229	2,284	3,157	336	2,821	1,241	**56**	1,580	1,035
1915	6,726	975	1,160	2,135	2,750	1,841	2,571	342	2,229	1,309	**41**	920	733
1916	7,321	917	1,187	2,104	2,744	2,473	3,353	381	2,972	1,323	**55**	1,649	731
10-Year Average	$6,891	$924	$1,063	$1,987	$2,726	$2,183	$2,916	$294	$2,622	$1,301	**49%**	$1,321	$789

Note: Above figures are based on average miles operated for each year. Margin of safety is the proportion of surplus left over after deducting the fixed charges for each year. For example, in 1916 the "balance for charges" (per mile) was $2,972; fixed charges amounted to $1,323 or 45%, leaving $1,649, a "margin of safety" of 55%.

Comparative Income Account, Years Ended June 30

	1916	1915	1914	1913	1912	1911	1910

Balance	$7,598,892	$863,202	$2,520,050	$3,299,042	$2,912,296	$4,019,206	$3,753,317
Earned on stock	11.00%	6.26%	10.83%	11.64%	12.12%	13.04%	12.20%

* Dividend paid from profit and loss in 1916 (see next page).

Note: "Other Income" includes income on investments, rents, hire of equipment balance, interest on deposits, income from Georgia R.R. lease, etc. Fixed charges include interest and rentals; also miscellaneous deductions. Other income was made up largely from dividends on stocks owned, this item amounting to $2,020,131 in 1915 and $2,386,447 in 1916.

Profit and Loss Account, year ended June 30, 1916: Credit balance on June 30, 1915, $29,843,289; credit balance transferred from income acct., $7,598,893; unrefundable overcharges, $4,645; donations, $23,609; miscellaneous credits, $58,016; total, $37,528,452. Contra: Dividend appropriations of surplus, $3,437,735; surplus invested for investment in physical property, $23,609; debt discount extinguished through surplus, $280,279; loss on retired road and equipment, $61,672; miscellaneous debits, $141,532; credit halance carried to balance sheet, $33,583,625; total, $37,528,452.

Comment: The income statement of the Atlantic Coast Line for the year ended June 30, 1916 was very satisfactory. While gross revenues did not reach the high totals of 1913, yet the net operating revenues were considerably higher than in that year. As outside income also improved, the total surplus available for charges materially increased the margin of safety on the property. The company had no difficulty in restoring the old dividend rate, as the surplus reported was equivalent to 11% on the outstanding stock. Conditions since the close of the fiscal year have continued to improve, and the outlook for the property at the present time is most favorable.

TABLE C.—Capitalization Factors (Security Obligations and Earning Power)

	Capitalization Per Mile of Road.								Dividend Record.

Appropr'ed surplus	237,970	73,820	334,059	289,166	223,820	150,000	.....
Profit and loss surplus	33,583,626	29,843,289	30,075,202	27,895,987	25,228,064	22,164,524	17,503,919
Total	$275,733,692	$268,205,276	$268,179,958	$260,780,103	$241,474,581	$236,746,328	$231,674,968

Note: Capital stock, as shown above, includes a nominal amount of unretired preferred stock, $1,000,000 Class "A" Richmond & Petersburg stock, as well as the common stock of the company, and premiums. Bonded debt includes all direct obligations of the company, including col'ateral bonds issued against L. & N. stock. Working assets included $11,380,318 in cash in 1915 and $15,763,640 in 1916.

Comment: There were no important capitalization changes on the Atlantic Coast Line property for the year ended June 30, 1916. There was a slight increase in the outstanding bonded debt, but the capital stock remained the same as in the previous year. It will be noted that the net income on net capital rose to a substantially higher figure than that reported for 1915. After the close of the fiscal year, the dividend rate on the common stock was restored to the former figure of 7%, which had been maintained up to the end of the fiscal year 1914.

During the past ten years the Atlantic Coast Line Railroad has continuously added to its surplus accounts, and in 1916 the profit and loss credit was substantially double that of 1910. It is unnecessary to state that the company's bond issues all stand on a high investment plane.

Stocks and Bonds Owned: The following securities (with book values) were owned June 30, 1916:

Unpledged Stocks of Proprietary Companies, etc.	Book Value.
South Carolina Pacific Ry. Co	$2,371.25
Augusta Union Station Co	9,375.00
Charleston Union Station Co	25,000.00
Columbia Union Station Co	50,000.00
Jacksonville Terminal Co	1.00
Savannah Union Station Co	5,071.56
Wilmington Railway Bridge Co	20,000.00
Augusta & Summerville R.R. Co	9,527.50
Goldsboro Union Station Co	5,000.00
Atlantic & East Coast Terminal Co	12,500.00
Tampa Union Station Co	10,000.00
Albany Passenger Terminal Co	3,000.00
Other Stocks Pledged:	$151,846.31
367,200 shares of Louisville & Nashville R.R. Co. stock, and 3,060 shares of Louisville Property Co. stock, deposited with The New York Trust Co. Trustee	$51,674,220.58
Other Stocks Unpledged.	
Richmond Washington Co	$445,000.00

"Int. required" for No. 26 includes serial payments on principal.

Note: "Average income available" is the average net income available for interest charges, after deducting taxes for the ten years ended June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general condition of the property, character of its business, relative position of the issue, etc. For full explantion, see Introduction. For Key to Ratings, see pages 19 to 21.

REFERENCE NOTES ON BOND ISSUES

Yard track and sidings, June 30, 1916, 96.76 miles.

Comment: The freight density on the Charleston & Western Carolina for the fiscal year ended June 30, 1916, underwent substantial improvement as compared with the previous year, and the freight train load was considerably higher. While average freight rates have tended to decline in recent years, yet train mile earnings have held up well and during the year just closed reached the best average of the decade. The company's freight tonnage is quite well diversified, a very substantial proportion being high grade freight.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ended June 30.	Gross Revenues.	Maintenance. Way.	Maintenance. Equipment.	Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.

* Deficit.

Note: Above figures are based on average miles operated for each year. Margin of safety is the proportion of surplus left over after deducting the fixed charges for each year. For example, in 1916 the "balance for charges" (per mile) was $1,849; fixed charges amounted to $856, or 46%, leaving $993, a "margin of safety" of 54%.

Comparative Income Account, Years Ended June 30

*Appropriations for Additions and Betterments.

Profit and Loss Account, year ended June 30, 1916: Credit balance at beginning of year, $487,395; credit balance transferred from income, $337,001; unrefundable overcharges, $594; donations, $1,240; miscellaneous credits, $3,750; total, $829,980. Contra: Surplus appropriated for investment in miscellaneous physical property, $1,240; miscellaneous debits, $9,758; credit balance carried to balance sheet, $818,982; total, $829,980.

Comment: While the increase in gross revenues on the Charleston & Western Carolina property in 1916 was small, the company curtailed its maintenance and operating costs and was thus able to report the best net operating revenue figures of the decade. Fixed charges tended to decline during the year and therefore the final surplus was far above any recent figures, equalling 28.3% on the outstanding capital stock. Since the close of the fiscal year operating results have continued to show substantial improvement.

Diversified Investing

Price of the Book, $2.00 per copy net

This subject is fully covered in a small volume entitled "*How to Invest Money Wisely*," by John Moody, which we have recently published. For many years Mr. Moody has made a careful study of this subject in connection with his work as an analyst and adviser for bankers, financial institutions and investors, both at home and abroad. These principles for wisely and intelligently diversifying investment capital have been adopted within the past few years by numerous institutions and several thousand individual investors with satisfaction and profit.

Comment: The Charleston & Western Carolina property reported practically no changes in its capitalization figures during the fiscal year ended June 30, 1916. As measured on the mileage basis the company is lightly capitalized, its total bonded debt averaging only $16,716 per mile during the past decade. While the road is not an exceptionally heavy earner it will be noted that for 1916 the net income on net capital equalled 10.3%. No attempt has been made by the management to pay dividends in recent years, the entire surplus above charges being conserved among the resources of the company.

REFERENCE NOTES ON BOND ISSUES

1. Auth. at $8,000 per mile; outstanding, $2,720,000. Dated Oct. 1, 1896; due Oct. 1, 1946; int. paid at Central Trust Co., New York. Coupon and reg., $1,000. First lien, 339.58 miles, as follows: Port Royal, S. C., to Augusta, Ga., 112.2 miles; Augusta to Spartanburg, 133.30 miles; Augusta to Greenville, 136.41 miles; Augusta to Anderson, 57.75 miles; also follow No. 2 on 1.70 miles and terminals at Augusta. Listed on Richmond Stock Exchange. Interest paid without deduction for normal income tax.

2. Auth. and outstanding, $600,000. Dated April 1, 1897; due April 1, 1947; int. paid at Central Trust Co., New York. Coupon, $1,000. Guar. prin. and int. by Char. & Western Carolina Ry., and now assumed. First lien on 1.70 miles and terminals at Augusta. Interest paid without deduction for normal income tax. Underlies No. 1 on this property.

3. Auth., $10,000,000; outstanding, $2,380,000. Dated Feb. 12, 1914; due Jan. 1, 1964; int. paid at Safe Deposit & Trust Co., Baltimore and New York. Coupon, $1,000. In two series, as follows: Series A, $2,380,000 (now issued) to retire an equal amount of income 5s of 1946, and to carry 2% interest for first 2 years, 3% for next 3 years, 4% for next 5 years, and 5% thereafter. Series B, $7,620,000, to be reserved for retirement of Nos. 1 and 2, at or before maturity and to provide for future extensions, betterments or equipments. Second lien on properties covered by No. 1 and third lien on property covered by No. 2. Normal income tax deducted from interest. Market: Baltimore.

Capital Stock: Auth. and issued, $1,200,000; par $100. No dividends. All owned by Atlantic Coast Line Company of Connecticut.

GEORGIA RAILROAD & BANKING COMPANY

Origin: Incorporated in Georgia March 10, 1834; name changed to present title in 1835. Owns line from Augusta to Atlanta, Ga., with various branches, 307 miles in all. The property is operated by the Georgia Railroad, which also operates 39 miles additional for smaller controlled companies. The property was leased in 1881 for 99 years to William M. Wadley, at a rental of $600,000 a year; this lease has since been jointly assumed by Louisville & Nashville R.R. and Atlantic Coast Line R.R. The lease is fully secured by deposit of collateral, consisting of $500,000 North & South Alabama 5s, $500,000 Atlantic Coast Line of S. C. 5s, and $75,000 Atlantic Coast Line cons. 4s. The company owns a half interest in the Western Ry. of Alabama and also an interest in the Atlanta & West Point R.R.

Note: The banking business of the Georgia R.R. & Banking Co. was many years ago turned over to the Georgia R.R. Bank, a separate corporation, with a capital stock of $600,000, of which this company owns all but $5,100.

Management: OFFICERS: Jacob Phinizy, Pres.; Rufus H. Brown, Cashier. DIRECTORS: H. D. McDaniel, Ernst Woodruff, J. P. Mulherin, Leonard Phinizy, Porter Fleming, Wm. A. Latimer, H. C. Boardman, W. B. White, H. B. King, Fielding Wallace, W. J. Hollingsworth, Billups Phinizy, J. T. Neal, L. D. Faver, Jno. R. White. Annual meeting, second Wednesday in May. OFFICE, Augusta, Ga.

Bonded Debt: (1) $300,000 Georgia R.R. & Banking Co. debenture 6s. Dated Jan. 1, 1882; due Jan. 1, 1922. Int. paid at American Exchange National Bank, New York, and at company's office, Augusta, Ga. Coupon, $1,000. Registered, $1,000. Direct obligation of the company, but not a mortgage. Net Rating, Aaa.

(2) $200,000 Georgia R.R. & Banking Co. currency 5s. Dated Jan. 1, 1887; due Jan. 1, 1922. Int. paid at American Exchange National Bank, New York, and at company's office, Augusta, Ga. Coupon, $1,000. Registered, $1,000. Direct obligation of the company, but not a mortgage. Net Rating, Aaa.

(3) $1,000,000 Georgia R.R. & Banking Co. ref. cur. 5s; dated July 1, 1897; due Jan. 1, 1922. Int. paid at American Exchange National Bank, New York, and at company's office, Augusta, Ga. Coupon, $1,000. Direct obligation of the company, but not a mortgage. Net Rating, Aaa.

(4) $1,000,000 Georgia R.R. & Banking Co. ref. deben. 4s; dated Jan. 1, 1907; due January 1, 1947. Int. paid at American Exchange National Bank, New York. Coupon, $1,000. Direct obligation of the company, but not a mortgage. Net Rating, Aaa.

Capital Stock: Auth. and outstanding, $4,200,000; par $100. Dividends have been continuously paid since Nov. 15, 1836, the rate having been 11% per annum from 1888 to 1911 and 12% per annum since. In Dec., 1916, paid 1% extra. In all, the company has paid 661% in dividends. Stock is transferred at company's office in Augusta, Ga. Net Rating, Aa.

GEORGIA RAILROAD

History: Operated in the interest of the Atlantic Coast Line R.R. and Louisville & Nashville R.R. under lease from the Georgia R.R. and Banking Co. for term of 99 years from April 1, 1881, at annual rental of $600,000. Under the terms of the lease the lessees hold interest in the following mileage: Atlanta & West Point R.R. (9,361 shares), 87 miles; Western Ry. of Alabama (15,000 shares), 138 miles.

Location: Total operated mileage on June 30, 1916, comprised 307 miles as follows: Main line, Augusta to Atlanta, 171 miles; Macon division, 74 miles; Athens division, 40 miles; Washington branch, 18 miles; trackage rights, 4 miles. In addition, the following companies are separately operated: Union Point & White Plains R.R., 12 miles; Monroe R.R., 10 miles; Augusta Belt Ry., 7 miles; Lexington Terminal R.R., 4 miles; Milledgeville Ry., 6 miles. (See separate statements of these companies.)

Management: Chas. A. Wickersham, Gen. Mgr.; W. S. Morris, Treas.; W. H. Vincent, Aud.; J. A. Best, Pas. Agt. GENERAL OFFICES, Augusta, Ga.

10-Year Average	307	2	74	71	2,013	67%	122,879	656,893	194	$1.63	2.17c	1.01c

Yard tracks and sidings on June 30, 1916, 107.28 miles.

Comment: For a long series of years the Georgia Railroad has displayed great stability of earning power. Its freight tonnage is unusually well diversified and in recent years, although the freight density has not risen very rapidly, it will be noted that the average freight train load has steadily increased. Train mile earnings are also now much better than formerly.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ended June 30.	Gross Revenues.	Maintenance. Way.	Maintenance. Equipment.	Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.

Fixed charges	871,213	734,626	704,050	804,503	816,501	703,324	703,356
Surplus over charges	$65,368	$76,930	$125,345	(def.) $123	$64,071	$178,136	$284,159
Other deductions	78,175	41,977	72,292	.....	.....	79,299	56,073
Balance	(def.) $12,807	$34,953	$53,053	(def.) $123	$64,071	$98,837	$228,086

Profit and Loss Account, for year ended June 30, 1916: Unrefundable overcharges, $1,194; miscellaneous credits, $12,786; total, $13,980. Contra: Debit balance transferred from income, $12,807; loss on retired road and equipment, $363; miscellaneous debits, $810; total, $13,980.

Comment: Gross operating revenues were much better on the lines of the Georgia Railroad for the year ended June 30, 1916, than for the previous year, but they did not equal those of 1914. However, a reduction in the operating ratio resulted in the highest net operating receipts since 1910. During the year the fixed charges increased sharply and therefore the surplus was comparatively small. The fixed charges of course include the rental paid to the Georgia Railroad and Banking Company, amounting to $600,000, and in 1916 included an item amounting to $115,952, representing "income transferred to other companies."

LOUISVILLE & NASHVILLE RAILROAD COMPANY

NOTE: The analysis is based on official documents of the Company, including its annual reports of the past ten years. For Definition and Key to Ratings, see pages 19-26.

Origin: Incorporated in Kentucky, March 5, 1850. Main line opened in 1859. Controls, through stock ownership, the Nashville, Chatt. & St. Louis and the Louisville, Henderson & St. Louis, and, jointly with the Southern Railway, controls the Chicago, Indianapolis & Louisville Ry. Is also joint lessee with the Atlantic Coast Line R.R. of the Georgia R.R. system. These properties are separately operated. Also formerly owned one-half of a majority of the common and preferred stocks of the New Orleans, Mobile & Chicago Ry. (the St. L. & San Fran. R.R. formerly owning the other half), the latter extending from New Orleans & Mobile northward, with connection with this system under construction.

Location: Owns or operates an extensive system of lines from Covington and Newport, Ky. (opposite Cincinnati), to Louisville, St. Louis, Nashville, Memphis, Atlanta, Birmingham, Montgomery, Pensacola, Mobile, and New Orleans. Of the mileage operated, 4,226.51 are owned; 133.46 miles are leased; 450.12 miles are controlled by stock ownership; 38.92 miles operated "under contract"; trackage rights, 222.28 miles; total operated, 5,071.29 miles. In addition, 269.60 miles are owned but operated by other companies and 2,301.49 miles are separately operated, including lines either controlled by majority of stock ownership or of which the company is joint owner or lessee. In October, 1915, the Lexington & Eastern Railway, which had been controlled by stock ownership for many years, was directly merged. The operated lines penetrate or cross mainly the States of Kentucky, Tennessee, Alabama, Florida and Mississippi. Population of these States in 1890, 6,839,092; in 1900, 8,095,293; in 1910, 9,162,520.

Control: The Louisville & Nashville Railroad is controlled by the Atlantic Coast Line Railroad, which owns 51% of the capital stock, the latter being deposited under its 4% collateral mortgage of 1952. (See under Bond Notes of Atl. Coast Line R.R. Co.)

Acquisition of South & North Alabama R.R.: Oct. 1, 1913, the Louisville & Nashville R.R., formally absorbed the South & North Alabama R.R., which it had formerly operated and controlled. Under this arrangement, the entire debt of the latter has been assumed. See Bonds notes, Nos. 25 and 26.

Management: OFFICERS: H. Walters, Chairman; Milton M. Smith, Pres.; W. L. Mapother, 1st Vice-Pres.; E. L. Smithers, 2d Vice-Pres.; Addison R. Smith, 3d Vice-Pres.; George E. Evans, 4th Vice-Pres.; Wm. W. Thompson, Treas.; J. H. Ellis, Sec. DIRECTORS: August Belmont, L. W. Botts, Warren Delano, Geo. B. Elliott, Geo. C. Jenkins, W. L. Mapother, F. B. Adams, W. G. Oakman, Lyman De'ano, Edward W. Sheldon, Milton H. Smith, H. Walters, John I. Waterbury. Annual meeting, first Wednesday in October. NEW YORK OFFICE, 71 Broadway; MAIN OFFICE, Louisville, Ky. New York Transfer Office, 71 Broadway.

Note: Yard tracks and sidings not furnished in annual reports.

Comment: During the year ended June 30, 1916, the Louisville & Nashville Railroad reported a very substantial increase in its freight density, while there was a fair recovery in its passenger business. The train load reached a far higher figure than ever before, and although average freight rates tended to decline, the train mile earnings also underwent a substantial increase. This property has in recent years been depending more and more on the transportation of mining products for its volume of business, and therefore the downward tendency in average freight rates has not seriously affected its earning power.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ended June 30.	Gross Revenues.	Maintenance. Way.	Maintenance. Equipment.	Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.
1907	$11,208	$1,873	$2,023	$3,896	$4,413	$2,899	$3,262	$264	$2,998	$1,500	50%	$1,498	$836
1908	10,263	1,447	2,072	3,519	4,205	2,536	2,839	296	2,543	1,529	40	1,014	759

1912	11,935	1,875	2,138	4,013	4,400	3,522	4,038	394	3,644	1,613	56	2,031	898
1913	12,337	2,289	2,327	4,616	4,681	3,040	3,675	365	3,310	1,519	51	1,791	958
1914	12,089	1,888	2,479	4,367	4,703	3,019	3,623	527	3,096	1,631	47	1,465	1,021
1915	10,245	1,785	2,047	3,832	3,996	2,417	3,097	429	2,668	1,685	37	983	715
1916	11,958	1,649	2,164	3,813	4,080	4,065	4,950	444	4,506	1,722	62	2,784	857
10-Year Average	$11,361	$1,779	$2,102	$3,881	$4,248	$3,232	$3,743	$382	$3,361	$1,598	51%	$1,763	$863

Note: Above figures are based on average mileage operated for each year. "Margin of safety" is the proportion of surplus left over after deducting the fixed charges for each year. For example, in 1916, the "balance for charges" (per mile) was $4,506; fixed charges amounted to $1,722, or 38%, leaving $2,784, a "margin of safety" of 62%.

Comparative Income Account, Years Ended June 30

	1916	1915	1914	1913	1912	1911	1910
Gross revenues	$60,293,970	$51,599,950	$59,682,778	$59,465,699	$56,211,788	$53,993,741	$52,433,382

Earned on stock	19.5%	6.9%	9.84%	11.99%	15.93%	14.26%	17.36%

* Outside operations are not shown separately in the 1915 and 1916 reports made to the Interstate Commerce Commission, but are included in gross and net revenues.

† Appropriated from profit and loss account. See below.

Note: Other Income In 1916 included $2,161,116 from Interest and dividends; $219,732 from leases, and the balance from outside operations, hire of equipment, joint facilities, etc.

Profit and Loss Account, year ended June 30, 1916: Credit balance, June 30, 1915, $40,998,117; credit balance from income account, $13,953,849; profit on road and equipment sold, $1,295; donations, $25,045; miscellaneous credits, $50,888; total, $55,029,194. Contra: Dividend appropriations out of surplus, $4,320,000; appropriations for investment in physical property, $25,153; debt discount extinguished through surplus, $3,075; loss on retired road and equipment, $29,517; miscellaneous debits, $478,697; credit balance transferred to balance sheet, $50,172,752; total, $55,029,194.

Comment: The income report of the Louisville & Nashville system for the year ended June 30, 1916, was in all respects favorable. Not only did gross revenues undergo an increase of nearly $9,000,000, but a large part of this increase was retained in the net revenues. This was accomplished by holding down maintenance costs and also in preventing any important increase in other operating expenditures. As the revenue from outside sources again increased substantially, the balance available for fixed charges, after deducting taxes, was far higher than in any previous year. The surplus carried forward above charges was not only sufficient to justify the disbursement of the larger dividend, but equaled more than 19% on the outstanding stock. Results since the close of the fiscal year have continued to be unusually favorable, and the credit of the property has thus been maintained at a high level.

TABLE C.—Capitalization Factors (Security Obligations and Earning Power)

Deferred credit items..	1,121,282	1,051,548	1,373,818	1,695,639	1,237,688	1,210,873	5,996,939
Appropriated surplus ..	3,192,562	3,098,541	3,117,806	2,922,012	2,606,445	2,548,642	2,512,738
Profit and loss surplus..	50,172,752	40,998,117	39,597,434	40,338,581	37,095,001	31,246,881	27,462,794
Total	$348,855,647	$327,302,106	$313,300,280	$294,749,013	$267,508,983	$260,045,739	$261,319,589

Note: The bonded debt, as shown in the Table C above, includes in 1916, besides the direct mortgages shown in the balance sheet, the guaranteed bond issues. In 1916, the contingent liabilities were $5,000,000, represented by $2,500,000 L. & N. Terminal and $2,500,000 Memphis Union Station guaranteed bonds. These are included in "Bonds Outstanding." "Working assets" in 1916 included $16,987,960 in cash.

Comment: There were practically no radical capitalization changes in the Louisville & Nashville system during 1916, except that the bonded debt was moderately increased. It will be noted, as measured on a mileage basis, that while the bonded debt of this system has grown rather rapidly during the past ten years, there has been only a moderate increase in the outstanding stock per mile. The net capitalization, while higher than ten years ago, is to-day no higher than it was in 1913, and as earnings and net income have tended to increase steadily with the moderate growth in capitalization, the credit of the property has been fully maintained. During 1916 the net income on net capital was nearly 10%, which was far higher than the average for the decade.

Public Utilities

If you are interested in any way in the securities of Gas, Electric Light, Electric Traction, Telephone and Telegraph or Power Companies, the "Public Utilities and Industrials" Edition of "MOODY'S ANALYSES OF INVESTMENTS" will prove indispensable. This whole field is covered in the same comprehensive and accurate way that Steam Railroads are covered in the Railroad Edition. In fact, the two volumes constitute a complete Service for the Banker and Investor. Separately, the editions sell at $15 each; in combination, they are supplied at $25, when ordered in advance.

MOODY'S INVESTORS SERVICE, 35 NASSAU STREET, NEW YORK

Note: "Average income available" is the average net income available for interest charges, after deducting taxes, etc., for the ten years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see "Introduction." For Key to Ratings, see pages 19 to 21.

REFERENCE NOTES ON BOND ISSUES

1. Auth., $20,000,000; outstanding, $2,284,000. Originally issued, $12,597,000, of which $10,302,000 have been retired by sinking fund, and $11,000 are owned by company. Capital Stock: Outstanding, $3,553,750; par, $25. The Louisville & Nashville owns $1,958,850 of the stock. Of the balance of $1,594,900, which is in the hands of the public, $1,374,150 is endorsed "original stock" and is guaranteed as to 7½% dividends by L. & N. R.R. Payments are made Jan. and July 1, at Louisville, Ky. Transfer agent, T. A. Clarkson, Sec.; Nashville, Tenn. The company has no bonded debt. For Rating, see page 164.

LOUISVILLE, HENDERSON & ST. LOUIS RAILWAY COMPANY

NOTE: The analysis is based on official documents of the company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated in 1896 as successor through reorganization of the Louisville, St. Louis & Texas Railway.

Location: Lines owned, Strawberry (near Louisville) to Henderson, Ky. (near Evansville, Ind.), 137.90 miles; Irvington to Fordsville, Ky., 43.80 miles; total owned, 181.70 miles. Trackage, Louisville to Strawberry, 5.90 miles; Henderson to Evansville, 12.20 miles. Total miles operated, 199.80. Forms an important link of the main line of the Louisville & Nashville system from Cincinnati, *via* Louisville to St. Louis.

Control: The Louisville & Nashville R.R. acquired control of this property in 1904-5, by the acquisition of $776,-081 out of $2,000,000 preferred and $1,631,285 out of $2,000,000 common. On June 30, 1916, the Louisville & Nashville had acquired in all $1,511,405 preferred and $1,721,871 common.

Management: OFFICERS: R. N. Hudson, Pres.; W. L. Mapother, Vice-Pres.; Ridgely Cayce, Sec.; L. W. Botts, Treas. DIRECTORS: M. H. Smith, W. L. Mapother, J. H. Ellis, L. W. Botts, Osear Fenley, J. L. Helm, J. D. Stewart, R. N. Hudson, Geo. E. Evans. Annual meeting, first Tuesday in September. MAIN OFFICE, Louisville Ky.

Classification of Freight Tonnage (Years Ended June 30)

	1907	1908	1909	1910	1911	1912	1913	1914	1915	1916
Products of Agriculture		30.39%	34.50%	28.86%	22.43%	19.87%	21.33%	18.20%	15.97%	14.51%
Products of Animals		4.64	4.89	3.16	3.26	3.10	3.23	2.96	2.56	2.29
Products of Mines		16.85	10.81	26.35	35.14	41.39	42.27	51.15	59.55	60.89
Products of Forests		8.48	5.64	5.47	4.67	4.41	5.35	4.78	3.26	2.62
Manufactures		8.25	9.21	9.45	9.52	8.34	13.55	10.93	8.78	9.12
Merchandise and Miscel.		31.39	34.92	26.71	24.98	22.89	14.27	11.98	9.88	10.57

Tonnage not classified prior to 1908: Total freight tonnage in 1909, 567,267 tons; in 1910, 759,823 tons; in 1911, 819,907 tons; in 1912, 928,018 tons; In 1913, 947,459 tons; in 1914, 1,124,014 tons; in 1915, 1,225,940 tons; in 1916, 1,538,110 tons.

The chief single item of freight tonnage is bituminous coal. In 1916, this aggregated 811,893 tons, or 52.79% of the total freight tonnage. Formerly agricultural products constituted a large part of the company's business, but in recent years this class of traffic has become less important.

10-Year Average	200	....	27	32	563	62%	91,923	483,097	211	$1.39	2.14c	.83c

Yard tracks and sidings, June 30, 1916, 45.58 miles. There were outstanding on June 30, 1916, $210,750 in equipment trust obligations, covering a portion of above equipment.

Comment: Freight density underwent a further substantial increase on this property during 1916, and the average freight train load also reached a much better figure than formerly. Although average freight rates are now ranging at relatively low figures, yet the train mile earnings have tended each year to increase, and in 1916 were very much higher than at any previous time. These changes in the exhibit of the property have largely been brought about by the revolution which has taken place in the last ten years in the character of freight tonnage. Whereas in 1908, low grade freight, such as mining products, represented only a small percentage of the business done, in 1916, they represented over 60%.

SUPPLEMENTARY SERVICE Users of this book should not overlook our Supplementary Investors Service. For a moderate annual fee we undertake to keep investors in the above and all other securities constantly up to date. Send for full details.

Operating ratio	69.9%	77.9%	74%	83.6%	77.1%	78.1%	72.2%
Other income	8,752	6,285	2,369	2,269	2,861	3,252	2,622
Total net income	$493,937	$315,324	$359,184	$207,454	$299,452	$271,758	$333,636
Taxes accrued	45,877	38,425	45,463	43,348	36,000	37,977	35,761
Balance for charges	$448,060	$276,899	$313,721	$164,106	$163,452	$233,781	$297,875
Fixed charges	268,239	245,654	231,946	237,726	230,143	217,016	204,575
Surplus	$179,821	$31,245	$81,775	def.$73,620	$33,309	$16,765	$93,300
Earned on stock: Preferred	8.99%	1.56%	4.09%	.....	1.66%	0.83%	4.66%

Note: Fixed charges in 1916 included $164,395 interest on bonds, $91,538 hire of equipment and joint rents.

Profit and Loss Account, Year ended June 30, 1916. Credit balance, June 30, 1915, $222,293; credit balance transferred from income account, $179,821; donations, $1,129; miscellaneous credits, $14,124; total, $417,377. Contra: Debt discount, $94,391; loss on retired road and equipment, $11,605; miscellaneous debits, $989; credit balance transferred to balance sheet, $310,392; total, $417,377.

Comment: Both gross and net revenues underwent a very important increase on the lines of the Louisville, Henderson & St. Louis Railway, during the year ended June 30, 1916. As fixed charges increased only slightly, the surplus carried forward was far in excess of that reported in any year of the past decade.

Total	$8,139,935	$7,678,034	$7,654,503	$7,683,689	$7,312,485	$7,166,957	$7,000,804
LIABILITIES:							
Capital stock	$4,000,000	$4,000,000	$4,000,000	$4,000,000	$4,000,000	$4,000,000	$4,000,000
Funded debt	3,520,750	2,854,588	2,890,889	2,932,047	2,630,811	2,520,476	2,500,000
Working liabilities	218,560	530,310	483,104	541,318	382,438	370,143	266,946
Accrued liabilities not due	34,567	17,617	27,755	27,956	23,489	17,082	13,269
Deferred credit items	15,885	13,445	18,785	18,953	18,749	23,784	3,571
Appropriated surplus	39,781	39,781	39,781	39,781	39,781	39,781	39,781
Profit and loss surplus	310,392	222,293	194,189	123,634	217,217	195,691	177,237
Total	$8,139,935	$7,678,034	$7,654,503	$7,683,689	$7,312,485	$7,166,957	$7,000,804

Note: The increase in funded debt in 1916 was due to issue in 1915 of $700,000 new consolidated 5s.

Comment: There was a moderate increase in the funded debt of this property during the year 1916, this being chiefly accounted for by the creation of the new consolidated 5% mortgage. The capitalization of the property, however, is relatively low, and in recent years the tendency has been toward a substantial increase of the net income on net capital. During 1916 this net income averaged 6.5% on net capitalization.

TABLE D.—Bond Record and Ratings (Based on 10-Year Results, Per Mile of Road)

For Key to Stock Ratings, see pages 21-23.

* To pay 5% dividend.

Note: Auth., $2,000,000 preferred and $2,000,000 common. Preferred is entitled to 5% non-cumulative dividends. The Louisville & Nashville R.R. owned on June 30, 1916, $1,511,405 preferred and $1,721,871 common, or over 80% of the entire capital. Transfer office, Louisville Ky. No dividends. In Jan., 1912, a protective committee was formed in the interest of the minority preferred stockholders, and in Mar., 1913, a majority of these holders had deposited their stock with this committee and accepted an offer of $38 per share for same.

NASHVILLE, CHATTANOOGA & ST. LOUIS RAILWAY

NOTE: The analysis is based on official documents of the company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated under laws of Tennessee, Georgia, Alabama, and Kentucky, Jan. 24, 1848, under name of Nashville & Chattanooga R.R. In 1873 acquired the Nashville & Northwestern R.R., when name was changed to present title.

Location: Lines owned extend from Chattanooga to Nashville, Tenn., and thence to Hickman, Ky., with branches to Columbia and Pikeville, Tenn., Huntsville and Gadsden, Ala., etc.; making 839.74 miles owned. There is also leased, from the Louisville and Nashville, the Paducah and Memphis division of that company, consisting of 254.20 miles from Paducah to Memphis, and also the Western & Atlantic R.R., 136.82 miles, from Chattanooga south to Atlanta and Rome, Ga. Total operated, 1,230.76 miles. Also leases, jointly with the Louisville & Nashville, the L. & N. Terminal Co. Crosses or penetrates the States of Tennessee, Alabama, Georgia, and Kentucky. Population of these States in 1890, 6,976,523; in 1900, 8,212,812; in 1910, 9,221,108.

Control: The company is controlled by the Louisville & Nashville, which owns $11,484,100 stock out of a total of $16,000,000. Of the amount so owned, $8,802,400 is pledged as collateral under the Louisville & Nashville unified 4 per cent. mortgage.

Management: OFFICERS: E. C. Lewis, Chairman; John H. Peyton, Pres. and Gen. Mgr.; H. F. Smith, Vice-Pres.; J. H. Ambrose, Treas.; T. A. Clarkson, Sec. DIRECTORS: E. C. Lewis, W. R. Cole, V. E. Shwab, A. H. Robinson, E. W. Thompson, J. H. Fall, W. W. Berry, M. H. Smith, Newell Sanders, John H. Peyton, C. H. Brandon, J. H. Crichlow, J. S. Robinson, P. D. Maddin, G. N. Tillman. Annual meeting, second Tuesday in October. MAIN OFFICE, Nashville, Tenn. New York Transfer Office, 71 Broadway.

Classification of Freight Tonnage (Years Ending June 30)

	1907	1908	1909	1910	1911	1912	1913	1914	1915	1916

Yard tracks and sidings, June 30, 1916, 510.00 miles. Weight of rails of main lines, 52 to 90 pounds.

Comment: During the fiscal year ended June 30, 1916, this property underwent substantial improvement in its operating results. While the freight density did not reach the high figures of 1913, yet it far exceeded that reported in 1915, and the passenger density was also higher than for the previous year. There was practically no change in the average passenger or freight rates, but both train mile earnings and average freight train load reflected substantial improvement. As has been the case for many years, the freight tonnage on this property was well diversified, a liberal proportion of the business being represented by manufactures and miscellaneous tonnage.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ended June 30.	Gross Revenues.	Maintenance. Way.	Maintenance. Equipment.	Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.
1907	$9,950	$1,413	$1,379	$2,792	$3,877	$3,281	$3,296	$179	$3,117	$1,301	58%	$1,816	$489

Earned on stock	14.61%	5.15%	11.56%	15.50%	13.96%	16.31%	15.59%

Note: Total net income in 1915 and 1916 included hire of equipment (a large credit item), rentals received, interest on investments, etc. Fixed charges included rentals of leased lines (a large item), interest on bonds, etc.

Profit and Loss Account, year ended June 30, 1916: Credit balance July 1, 1916, $9,725,837; credit balance transferred from income, $1,297,986; unrefundable overcharges, $8,412; donations, $9,169; miscellaneous credits, $77,812; total, $11,119,216. Contra: Surplus appropriated for investment in physical property, $9,170; miscellaneous appropriations of surplus, $100,000; loss on retired road and equipment, $23,118; miscellaneous debits, $54,079; credit balance carried to balance sheet, $10,932,849; total, $11,119,216.

Comment: The income account of the Nashville, Chattanooga & St. Louis Railway for the year ended June 30, 1916, was in all respects satisfactory. The gross revenues were far higher than in 1915, while the net receipts even exceeded those of the record year 1910. As there was no very important increase in fixed charges the surplus available for dividends equaled the high figure of 14.6% on the outstanding stock.

Note: The bonded debt outstanding per mile includes all the direct obligations of the company. The rentals represent the amounts capitalized at 5% which are paid for the Paducah & Memphis division of the Louisville & Nashville (5% of cost and 5% on improvements and betterments) and for the use of the Western & Atlantic Railway, owned by the State of Georgia, which is leased for 29 years from 1890 at $35,000 per month. The investments owned are carried at cost.

Comparative Condensed Balance Sheet, as of June 30

Comment: There were practically no capitalization changes on the Nashville, Chattanooga & St. Louis in the year 1916. Both gross and net capitalization continued to range at low average figures as measured on the mileage basis, and the general financial exhibit of the company remained a very strong one. The net income on net capital exceeded 10% during the year, which is a higher average than that reported at any time since 1907. It is unnecessary to state that the credit of this property is of the strongest type, and the several outstanding bond issues are entitled to the best investment rating.

TABLE D.—Bond Record and Ratings (Based on 10-Year Results, Per Mile of Road)

NAME OF ISSUE.	Interest Payable.	Maturity.	Lien on Miles.	Outstanding per Mile.	Average Income Available.	Interest R'q'r'd per Mile of System.	Factor of Safety.	BASIS FOR RATING. Security.	BASIS FOR RATING. Salability.	Net Rating.
1. Nash. C. & St. L. Jasper Br. Ex. first 6s	J&J	Ja 1923	(1st) 18	$20,550	$2,487	$18	98%	Very high	High	Aaa.
2. Nash. C. & St. L. Centreville Br. first 6s	J&J	Ja 1923	(1st) 46	8,175		18	98%	"	"	Aaa.

Note: "Average income available" is the average net income per mile available for interest charges, after deducting taxes, for the ten years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Bond Ratings, see pages 19 to 21.

REFERENCE NOTES ON BOND ISSUES

1. Auth., $16,000 per mile; outstanding, $370,000; in treasury, $1,000 (closed). Dated Jan. 1, 1883; due Jan. 1, 1923. Int. at Hanover National Bank, New York. Coupon, $1,000. First lien, 18.50 miles, Victoria to Dunlap, Tenn. Underlie No. 3, which provides for retirement. Legal for S. B. in Cal., Conn., Fla., Mass., Mich., Minn., N. H., N. J., N. Y., R. I., Vt., Wis. Listed on New York Stock Exchange. Normal income tax deducted from interest.

2. Auth. and outstanding, $376,000. Dated Jan 1, 1883; due Jan. 1, 1923. Int. at Hanover National Bank, New York. Coupon, $1,000. First lien; 46.46 miles, Dickson to Etna, Tenn. Underlie No. 3, which provides for retirement. Legal for S. B. in Cal., Conn., Fla., Mich., Minn., N. H., N. J., N. Y., R. I., Vt., Wis. Normal income tax deducted from interest

3. Auth., $20.000,000; outstanding, $10,106,000; in treasury, $2,000. Dated April 2, 1888; due April 1, 1928. Int. at Hanover National Bank, New York. Coupon, $1,000. First lien on 775.74 miles, as follows: Fayetteville to Columbia and to Lax, Tenn., 84.55 miles; Kingston to Rome, Ga., 18.15 miles; Etna to Allens Creek, Tenn., 24.21 miles; Huntsville to Gadsden, Ala., 53.28 miles; Jasper to Victoria and Dunlap to Pikeville, Tenn., 27.60 miles; Tracy to Coalmount, Tenn., 10.44 miles; Sparta to Clifty, 22.99 miles; Chattanooga to Hickman, 322.33 miles; Bridgeport, Ala. to Pikeville, Tenn., 49.80 miles; Wartrace to Shelbyville. 8.08 miles; Nashville to West Nashville, 6.26 miles; Decherd to Fayetteville, 38.78 miles; Tullahoma to Sparta, Tenn., 60.63 miles; Elona to Huntsville, Ala., 26.80 miles; Nashville to Lebanon, 29.21 miles; Coman to Tracy City, Tenn., 20.73 miles; also by second lien on 64.96 miles, subject to Nos. 1 and 2; also by first lien on 300 acres of land in Nashville and 17 acres in Chattanooga. Legal for S. B. in Cal., Conn., Mass., Mich, Minn., N. H., N. J., N. Y., R. I., Vt., Wis. Listed on New York Stock Exchange. Normal income tax deducted from interest.

Note: Company also jointly guarantees bonds of Louisville & Nashville Terminal Co., Memphis Union Station Co., and the Paducah & Illinois R.R. (see general index).

TABLE E.—Stock Record and Ratings (Based on 10-Year Results, Per Mile of Road)

THE BALTIMORE & OHIO RAILROAD COMPANY

Note: The analysis is based on official documents of the company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Chartered under Maryland and Virginia laws in 1827; reorganized without foreclosure in 1899. Subsequently acquired and now directly operates the Baltimore & Ohio Southwestern, the Cleveland, Lorain & Wheeling, the Cleveland Terminal & Valley, the Ohio & Little Kanawha, the Ravenswood, Spencer & Glenville, and Valley Railroad of Virginia.

Location: The directly operated lines of the system consisted, June 30, 1916, of 4,539.38 miles, of which 4,464.78 miles are owned and 74.60 miles operated under trackage rights. Lines extend from Philadelphia *via* Baltimore and Washington to Cumberland, Md., and thence, *via* Pittsburg to Chicago, and *via* Cincinnati to St. Louis; with many branches, including those to Frederick and Hagerstown, Md., Johnstown, Pa., Wheeling, W. Va., Sandusky, Ohio, Louisville, Ky., etc. Operates from Philadelphia to New York over lines of Philadelphia and Reading and New Jersey Central for passengers, and over its own terminal line to Staten Island, with the Staten Island Railway, which it controls, for freight. Enters or traverses States of Pennsylvania, Maryland, Virginia, West Virginia, Ohio, Indiana, and Illinois. Population of these States in 1890, 18,412,159; 1900, 21,798,700; in 1910, 25,349,776.

Controlled Lines: The company controls, but operates separately, the Staten Island Railway, consisting of 12.65 miles; Staten Island Rapid Transit Co., 10.89 miles, and the Baltimore & Ohio Chicago Terminal R.R. Co., 93.19 miles. Also, in August, 1909, the company acquired virtual control of the Cincinnati, Hamilton & Dayton Railway. (See C. H. & D. Ry. analysis for full details.) In October, 1912, the control of the Sandy Valley & Elkhorn Railway was acquired.

Affiliated Interests: The Baltimore & Ohio owns $6,065,000 first preferred, $14,265,000 second preferred, and $10,002,500 common stock of the Reading Company, giving it, jointly with the New York Central R.R. control of that property. The Pennsylvania Railroad and subsidiary companies owned, Jan. 1, 1913, $21,273,600 preferred and $21,373,600 common stock of the Baltimore & Ohio, while the Union Pacific Railroad owned, June 30, 1913, $7,206,400 preferred and $32,334,200 common stock of the Baltimore & Ohio Railroad. In October, 1913, the Union Pacific acquired from the Pennsylvania Railroad interests all the Baltimore & Ohio preferred and common stock held by the latter in exchange for a part of its own holdings of Southern Pacific stock. By this exchange the total holdings of Union Pacific in Baltimore & Ohio were increased to $28,480,000 preferred and $53,607,800 common.

Distribution of Union Pacific Stockholdings: The directors of the Union Pacific R.R. on Jan. 8, 1914, voted to distribute on April 1 out of accumulated surplus profits to the holder of each share of common stock 12% in Baltimore & Ohio preferred and 22% of B. & O. common held in the treasury and also $3 per share in cash; also to correspondingly reduce the regular annual dividend rate from 10% to 8%. The dividends on the $216,635,400 U. P. common, outstanding Jan. 8, 1914, called for $48,742,965 B. & O. common and $25,996,248 preferred. This stock was distributed in July, 1914. For full details regarding Union-Southern Pacific dissolution plans, see statements of those companies.

Management: Officers: Daniel Willard, Pres.; Geo. F. Randolph, 1st Vice-Pres.; Geo. M. Shriver, 2d Vice-Pres.; A. W. Thompson, 3d Vice-Pres.; F. C. Batchelder, 4th Vice-Pres.; J. M. Davis, 5th Vice-Pres.; E. M. Devereux, Treas.; C. W. Woolford, Sec.; J. T. Leary, Comptroller. Geo. H. Campbell, J. S. Murray, Assts. to Pres. Directors: Oscar G. Murray, Chairman; Chas. A. Peabody, R. B. Keyser, Robert Garrett, James Speyer, John R. Morron, John G. Shedd, L. F. Loree, W. Averell Harriman, Felix Warburg, J. G. Schmidlapp, H. L. Bond, Jr. Annual meeting, third Monday in November. General Office, Terminal Building, Baltimore, Md. New York Office, 2 Wall Street.

Classification of Freight Tonnage (Years Ending June 30)

Yard tracks and sidings, June 30, 1916, 3,004.48 miles.

Comment: The operating exhibit of the Baltimore & Ohio system during the fiscal year 1916, was a brilliant one. While there was no important increase in the passenger density, it will be noted that the freight density rose to new high figures, and the average freight train load also reached a very heavy total. Although there was practically no improvement during the year in average freight and passenger rates, yet the train mile earnings underwent substantial growth and the whole exhibit of the property was a strong one. As usual, nearly two-thirds of the freight tonnage carried was represented by products of mines, though there was also some improvement in high grade freight, such as miscellaneous articles.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ended June 30.	Gross Revenues.	Maintenance.		Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.

10-Year Average }	$20,681	$2,603	$3,682	$6,285	$8,306	$6,090	$7,149	$629	$6,520	$3,456	47%	$3,064	$2,592

Note: Above figures are based on averages miles operated for each year. "Margin of safety" is the proportion of the surplus left over after deducting the fixed charges for each year. For example, in 1916, the "balance for charges" (per mile) was $7,547; fixed charges amounted to $4,530, or 60%, leaving $3,017, a "margin of safety" of 40%.

* Outside operations now included in Gross and Net Revenues. † Of which $3,798,652 paid from surplus.

‡ Deficit.

Note: Other income in 1916 included $706,663 in joint facility rents; $404,441 in miscellaneous rents; $1,901,968 in dividends on stocks owned; $1,589,100 in interest on bonds; $735,468 in other interest. Fixed charges included, besides interest on bonds, $1,378,491 for hire of equipment; $1,194,054 in joint facility rents.

Profit and Loss Account, for year ended June 30, 1916: Credit balance June 30, 1915, $32,575,514; credit balance transferred from income, $7,463,115; profit on road and equipment sold, $29,616; unrefundable overcharges, $89,077; donations, $31,800; miscellaneous credits, $1,046,423; total, $41,235,525. Contra: Dividend appropriations of surplus, $3,798,652; surplus appropriated for investment in physical property $40,929; debt discount extinguished through surplus, $1,930,741; loss on retired road and equipment, $623,527; miscellaneous debits, $14,235,090; credit balance carried to balance sheet, $20,606,586; total, $41,235,525.

Comment: During the year ended June 30, 1916, the gross revenues on the Baltimore & Ohio, far exceeded those of any previous year. Notwithstanding the fact that operating and maintenance costs increased very radically, there was also a healthy growth in net operating revenues. Investment income increased substantially, and therefore the surplus above the enlarged fixed charges averages better than for any year since 1912. After payment of the preferred dividend at the regular rate, the company reported earnings equal to nearly 7½% on the common stock. No attempt was made to increase the dividend rate on the common stock. The management evidently determined to "plough in" to the property a large part of its large earnings for the year, as is indicated by the exceptionally large maintenance charges.

Total	$692,573,586	$679,018,369	$694,114,554	$645,051,843	$622,377,241	$605,403,436	$602,193,136

Comment: There was a further increase during the fiscal year 1916 in the outstanding funded debt of the Baltimore & Ohio system, but no important change was shown in the capital stock outstanding. The net capitalization of this property as measured on the mileage basis has tended to increase heavily since 1907 and now ranges at pretty high figures, but the net income of the system has continued to be well maintained, and in 1916 the net income on net capital equalled 6.3%, which was slightly higher than the average reported for the decade. The company had no difficulty in disbursing 5% on the common stock. All the bond issues of this company continue to stand on high investments bases.

While the net funded debt of the company at the close of 1916 stood approximately $100,000,000 higher than in 1910, and the fixed charges are consequently far larger than formerly, the proportion of bonded debt to capital stock is still only 66% of the total gross capital.

Securities Owned by The Baltimore & Ohio R.R. Co., June 30, 1916

Other than those deposited with trustees of mortgages securing funded debt.

Requirement of No. 27 includes maturing principal.

Note: "Average income available" is the average net income per mile available for interest charges, after deducting taxes, for the year ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Ratings, see pages 19 to 21.

REFERENCE NOTES ON BOND ISSUES

1. Auth. and outstanding, $695,000; in treasury, $5,000. Dated Feb. 1, 1889; due Feb. 1, 1919. Int. at B. & O. office, New York. Coupon, $1,000. Guar. prin. and int. by B. & O. 25. **Convertible 4½s:** Auth. and outstanding, $63,250,000. Dated March 1, 1913; due March 1, 1933. Int. paid at B. & O. office, New York. Coupon, $500 and $1,000; reg., $500, $1,000, $5,000, $10,000 and multiples; interchangeable. Callable as a whole on March 1, 1923, or on any interest date thereafter at 102½ and interest on 90 days' notice. Convertible at the option of the holder into common stock at $110 per share on or before February 28, 1923; that is, $100 par value in stock will be given for $110 par value in bonds. Adjustment of interest and dividends will be made at time of conversion. Secured by direct mortgag lien, *pari passu* with the new refunding and general mortgage, dated Dec. 1, 1915 (No. 26 below), which follows all prior liens but provides for their retirement and for retirement of this issue. Interest paid without deduction for normal income tax. Listed on New York and London Stock Exchanges. Legal for S. B. in Cal., Conn., Mass., N. H., N. Y., Vt.

26. **Refunding and General 5s, Series A:** Authorized (see below); outstanding, $60,000,000. Dated December 1, 1915; due December 1, 1995. Int. paid at B. & O. office, New York. Coupon and reg., $500 and $1,000. Callable as a whole on June 1, 1925 or on any interest date thereafter at 105 and interest. A direct obligation of the company and secured, *pari passu* with the convertible 4½s (No. 25 above) on the entire properties of the Baltimore & Ohio R. R., subject to the various direct and assumed prior liens, being a first lien on 72.73 miles; first collateral lien on 57.52 miles; second lien on 359.35 miles; second collateral lien on 1,326.89 miles; third lien on 1,340.62 miles; third collateral lien on 374.84 miles; fourth lien on 308.34 miles; fifth lien on 191.14 miles and a further collateral lien on 454.71 miles; and subject to prior liens on all terminals, equipment and other property. Authorized amount limited to a total which, together with all the prior debts of the company, after deducting therefrom the bonds reserved to retire prior debts at maturity, shall not exceed three times the then outstanding capital stock of the company, with the additional limitation that when the aggregate amount outstanding, and the bonds reserved to retire prior debts shall be $600,000,000, no additional amount of bonds shall thereafter be issued, except the bonds so reserved to retire prior debt, without the further consent of the stockholders of the company, and such additional bonds may be issued only to an amount not exceeding 80 per cent. of the cost of the work or of the property acquired. Sufficient of the issue are reserved to retire No. 25 and all the prior liens. The present issue were partly used to redeem the notes of the company, maturing in 1917 and 1918, amounting to $40,000,000, and the remainder for other uses of the company. Normal income tax deducted from interest. Legal for S. B. in Cal., Conn., Maine, Mass., N. H., N. J., N. Y., R. I., Vt., Wis.

27. Equipment Trust 4½s of 1912: Dated February 1, 1912; due $1,000,000 each February 1 to February 1, 1922. Original issue, $10,000,000; redeemed to date, $5,000,000; unredeemed, $5,000,000. Coupon, $1,000. Int. paid at B. & O. office, New York. First lien on equipment of original cost of $11,112,000, which does not become the property of the company until the entire series of certificates has been paid. Interest paid without deduction for normal income tax.

Equipment Trust 4½s of 1913: Dated April 1, 1913; due $1,000,000 each April 1 to April 1, 1923. Original issue, $10,000,000; redeemed to date, $3,000,000; unredeemed, $7,000,000. Coupon, $1,000. Interest paid at B. & O. office, New York. Secured on equipment of original cash cost of $11,120,000, which does not become the property of the company until the entire series of certificates has been paid. Interest paid without deduction for normal income tax.

Equipment Trust 4½s of 1916: Dated May 1, 1916; due $500,000 each May 1 to May 1, 1926. Original issue, $5,000,000; outstanding, $5,000,000. Coupon, $1,000. Int. paid March and November, at Girard Trust Co., Philadelphia, and company's office, New York. Callable at 102½ on 60 days' notice. First lien on equipment costing $5,707,500, which does not become property of company until entire issue of certificates has been paid. Normal income tax deducted from interest.

Investment Position: All the divisional and assumed bond issues of the Baltimore & Ohio system stand on a very strong investment plane. As the exhibit shows, their position in the income resources of the property is unusually strong. The "reorganization" issues are also in a very strong position—especially those covering the main lines. The convertible issue has good investment strength because of the general stability of earnings, and the large equities which follow the issue. It now stands in a position similar to that of the new refunding 5s. The equipment obligations are, of course, additionally protected by lien on and title to the equipment.

TABLE E.—Stock Record and Ratings (Based on 10-Year Results, Per Mile of Road)

Name and Details of Issue.	Rate and Date Dividends.	Amount Outstanding per Mile.	Average Income Available per Mile.	Dividend Required per Mile of System.	Factor of Safety.	Basis for Rating.		Net Rating.
						Equity.	Salability.	
1. Balt. & Ohio 4% preferred..... Non-cumulative. Par $100.	4% M&S	$13,219	$3,064	$519	83%	Very high	Very high	A.
2. Balt. & Ohio common..... Par $100.	M & S See text	33,558	2,545	1,673*	34%	Fair	"	Baa.*

* For 5% per annum.

Note: "Average income available" on stock issues is the average surplus, after deducting all fixed and other charges, for the ten years ending June 30, 1916. "Dividend requirement" is the requirement, at the current rate, on the present amounting outstanding. For Key to Stock Ratings, see pages 21 to 23.

REFERENCE NOTES ON STOCK ISSUES

1. Auth. and outstanding, $60,000,000, of which $1,136,818 is in treasury. Preference to 4% non-cumulative dividends but not to assets. Full div. regularly paid since 1899. Listed on New York, Baltimore, London, and Berlin Stock Exchanges.

2. Auth., $210,250,000; outstanding, $152,317,468, of which $371,874 is in treasury. Dividends 6% from 1906 to March, 1915, when only 2½% was paid, reducing rate to 5% per annum. See full record below. Transfer office, 2 Wall Street, New York. Listed on New York, Baltimore, London, and Berlin Stock Exchanges.

Dividends on Common Stock: From the date of organization to the readjustment of the company's finances (July 1, 1899), the company paid on its common stock a total of seventy-four cash dividends aggregating $35,980,871. From July 1, 1899, to September 1, 1916, there have been paid a total of thirty-three cash dividends amounting to $116,-170,608. The annual rates and amounts of these dividends are shown in the following statement:

Besides these cash dividends, the following distributions of stock have been made: Nov., 1848, 3½%; Nov., 1849, 5%; Nov., 1850, 7%; Nov., 1851, 7%; Nov., 1852, 7%; May, 1853, 3%; Jan., 1857, May, 1878, 4%; Nov., 1878, 4%; May, 1879, 4%; Dec., 1891, 20%.

BALTIMORE & OHIO CHICAGO TERMINAL RAILROAD

Incorporated under Illinois laws, Jan. 7, 1910, as successor to the Chicago Terminal Transfer R.R. Co., sold at foreclosure. Lines operated consist of 79.42 miles of terminal tracks in and about the city of Chicago, of which 8.41 miles are operated under trackage rights. Second track, 56.79 miles; spurs, 12.08 miles; sidings, 141.20 miles. Owns 45 locomotives, 740 freight cars, 4 passenger cars and 37 service cars.

The Baltimore & Ohio Chicago Terminal Railroad derives its income not only from the use of its property by the Baltimore & Ohio Railroad, but also from other tenants, who make use of the properties on rental bases. These other tenants include the Chicago Great Western Railway, the Chicago, Hammond and Western R.R. (Indiana Harbor Belt R.R.), Suburban Railroad (Chicago & West Towns), the Pere Marquette Railroad, the Chicago, Terre Haute & Southeastern Railway and the Minneapolis, St. Paul and Sault Ste. Marie Ry. (Canadian Pacific system). Income from these outside sources, it will be noted, nets far more than the regular operating income of the company itself.

Management: F. C. Batchelder, Pres.; H. L. Bond, Jr. Vice-Pres.; C. W. Woolford, Sec.; E. M. Devereux, Treas.; J. T. Leary, Compt.; F. B. Huntington, Aud.; J. L. Nichols, Supt. DIRECTORS: F. C. Batchelder, H. L. Bond, Jr., C. W. Woolford, Daniel Willard, C. D. Clark, L. G. Curtis. O. A. Constans. Annual meeting, Wednesday after second Monday in October. GENERAL OFFICE, Grand Central Station, Chicago, Ill.

The road is directly operated by the Baltimore & Ohio R.R. and these figures are included in the income account of that company.

Bonded Debt: $228,000 Ohio & Little Kanawha R.R. first 5s; dated Mar. 1, 1900; due Mar. 1, 1950; int. paid Mar. and Sept. 1, at B & O. office, New York. Coupon, $100, $500 and $1,000. First lien on entire property. B. & O. R.R. has provided for retirement of these bonds in the Pitts., L. E. & W. Va. ref. mtg., and they are now also provided for in the new 5% refunding mortgage. Income tax is deducted. For rating, see B. & O. bond table page 177.

Capital Stock: Auth., $1,250,000 5% non-cum. pfd. and $1,000,000 common; outstanding, $1,167,500 pfd. (of which B. & O. owns $1,126,900) and $918,000 common (of which B. & O. owns $880,400); par, $100.

SANDY VALLEY AND ELKHORN RAILWAY

History: Incorporated under the laws of Kentucky, Aug. 4, 1902.

Location: Road extends from Shelby Junction to a point 2.5 miles beyond Jenkins, Ky., trackage rights, 1.19 miles, a total of 31.76 miles. Equipment: 3,000 coal cars. This property taps a very rich soft coal region in the Cumberland mountains, which is now undergoing rapid development. It does not connect with the main Baltimore & Ohio system, but the tracks of the Chesapeake & Ohio system are used to make connection at Kenova on the Ohio River.

Management: OFFICERS: Daniel Willard, Pres.; Geo. F. Randolph, 1st Vice-Pres.; Geo. M. Shriver, 2nd Vice-Pres.; A. W. Thompson, 3rd Vice-Pres.; J. V. McNeal, Treas.; C. W. Woolford, Sec.; W. D. Bonded Debt: $511,000 Staten Island Ry. first 4½s; dated June 1, 1893; due June 1, 1943. Int. June and December at Coal & Iron National Bank, New York. Coupon, $1,000. First lien on entire property. Listed on New York Stock Exchange. Legal for Savings Banks in Maine. Normal income tax deducted from interest.

Net Rating, Ba.

Note: The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Bond Ratings, see pages 19 to 21.

Capital Stock: Authorized and outstanding, $1,050,000. Par, $75. The Baltimore & Ohio Railroad Co. owns $1,049,250 of the issue.

STATEN ISLAND RAPID TRANSIT RAILWAY

Incorporated under New York laws July 31, 1899, as successor to the old Staten Island Rapid Transit R.R. Line of road: Arthur Kill to South Beach, N. Y., 10.89 miles. The road forms a connection with the branch of the Baltimore & Ohio, extending from Cranford, N. J., at junction with the Central R.R. of N. J., across the Arthur Kill to Staten Island.

Management: Daniel Willard, Pres.; C. C. F. Bent, Vice-Pres.; C. W. Woolford, Sec.; J. V. McNeal, Treas. DIRECTORS: Above and G. F. Randolph, G. M. Shriver, Oscar G. Murray, W. H. Force, K. P. Emmons, C. A. De Gersdorff. Annual meeting, last Monday in March. OFFICE, 17 State St., New York.

† Reverse item.

Bonded Debt: $3,850,000 Staten Island Rapid Transit Ry. refunding 4s; dated June 1, 1905; due June 1, 1948. First lien on entire property from Arthur Kill to South Beach, N. Y., 10.89 miles. Entire issue is owned by the B. & O. R.R., and deposited under the Refunding and General mortgage.

Note: It will be seen that the margin of safety above the entire fixed charges is very substantial, and these bonds are therefore to be regarded as well secured.

Capital Stock: Outstanding, $500,000. Par $100. All owned by the Baltimore & Ohio and deposited under the latter's Refunding and General mortgage.

CINCINNATI, HAMILTON & DAYTON RAILWAY COMPANY

NOTE: The analysis is based on official documents of the company, including its annual reports of the past ten years.
For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated in July, 1895, as a consolidation of the Cincinnati, Hamilton & Dayton R.R., the Cincinnati, Dayton & Ironton R.R., and the Cincinnati, Dayton & Chicago R.R. In 1903 a general consolidation was formed under the name of the Great Central Railway system, embracing this property, the Pere Marquette R.R., the Chicago, Cincinnati & Louisville R.R., and the property of the Toledo Railway & Terminal Co. This consolidation did not prove a success, and in December, 1905, receivers were appointed for the Cincinnati, Hamilton & Dayton, the Pere Marquette, and the Toledo Railway & Terminal Co. In the meanwhile, the Erie Railroad had controlled the property from 1904, but in 1906 this control was rescinded. Also, on December 20, 1905, the lease of the Pere Marquette R.R. was rescinded by the C. H. & D. directors, and all agreements relating to the Chicago, Cincinnati & Louisville were cancelled. The ownership of $11,000,000 of Pere Marquette stock was, however, retained by the company until 1911, when it was sold. On August 19, 1909, the receivers of the C. H. & D. were discharged and the company resumed possession without foreclosure. In the meanwhile, the Pere Marquette property was reorganized independently, while the Chicago, Cincinnati & Louisville has been acquired by the Chesapeake & Ohio, and is now known as the "Chesapeake & Ohio Railway Co. of Indiana."

Location: The directly operated lines of the company consisted on June 30, 1916, of 621.53 miles, embracing the lines from Cincinnati to Dayton, O., 60.06 miles; Dayton to Delphos, 94.62 miles; Dayton to West Junc. and Byers Junc. to Dean, O., with branches, 160.12 miles; making a total directly owned of 314.80 miles. Proprietary lines, Cincinnati, Findlay & Fort Wayne Ry., 91.39 miles; other controlled lines, 59.52 miles. Leased lines, Dayton and Michigan R.R. and Home Avenue R.R., 143.98 miles; trackage rights, 11.84 miles.

In addition to the above, the company held a joint interest with the C. C. C. & St. Louis Railway in the Dayton & Union R.R., and jointly with the Southern Railway controlled the Cincinnati, New Orleans & Texas Pacific Railway ("Queen and Crescent Route").

Reorganization: On July 2, 1914, the company was again placed in the hands of receivers. In 1915, the lines of the Cincinnati, Indianapolis & Western Railway were divorced from the main system and separately reorganized. (See statement of this company under its own heading). On Feb. 15, 1916, a plan of reorganization was proposed for the main lines, omitting the Cincinnati, Findlay & Fort Wayne. The plan, which has now been declared operative, embraced the following features:

(1) It is proposed that the Baltimore & Ohio Railroad Co. acquire all the securities to be issued by the new company which is to succeed the old Cincinnati, Hamilton & Dayton Railway, and is to retain the interest in the main line between Cincinnati and Toledo and such branches as are indicated below. In exchange for these securities, the Baltimore & Ohio Railroad will issue its own Toledo-Cincinnati Division bonds; thus making the reorganized property an integral part of the Baltimore & Ohio system.

(2) Securities to remain undisturbed embrace the following issues: $2,728,000 Dayton & Michigan Railway consolidated 4½s due Jan. 1, 1931; $1,211,250 Dayton & Michigan 8% guaranteed preferred stock; $2,396,950 Dayton & Michigan 3½% guaranteed common stock; $2,000,000 Cincinnati, Hamilton & Dayton 2nd (now 1st) 4½s, due Jan. 1, 1937; $3,000,000 Cincinnati, Hamilton & Dayton gen. 5s, due June 1, 1942.

(3) Securities disturbed and disposition of same as follows: $7,500,000 Cincinnati, Hamilton & Dayton 1st and ref. 4s (guaranteed by Baltimore & Ohio Railroad) will receive 100% in new Baltimore & Ohio-Toledo & Cincinnati Division 4% bonds and $10 per bond in cash; $1,677,000 Cincinnati, Hamilton & Dayton 1st and ref. 4s (not guaranteed), will receive 85% in new Baltimore & Ohio-Toledo & Cincinnati Division 4% bonds; $3,500,000 Cincinnati, Dayton & Ironton 1st 5s will receive 60% in new Baltimore & Ohio-Toledo & Cincinnati Division 4% bonds; $225,000 Piqua & Troy Branch 1st 4s will receive 100% in new Baltimore & Ohio-Toledo & Cincinnati Division 4% bonds; $17,529,000 Cincinnati, Hamilton & Dayton gen. mortgage bonds of 1939 to receive $700.86 per bond in cash.

Provision is also made in plan for $1,160,000 of equipment obligations and $22,695,143 purchase money and other obligations held by the Baltimore & Ohio Railroad Company. The new Baltimore & Ohio-Toledo & Cincinnati mortgage provides for retirement at or before maturity of all undisturbed underlying liens.

(For later developments consult our regular Investors Service.)

*Owing to the fact that this road was in receiver's hands during 1908 and 1909, no annual reports were published, and the averages are based on a ten-year record with these years omitted. Yard tracks and sidings, 344 miles June 30, 1916.

† 1916 figures exclude the C. I. & W. Ry. which was sold at foreclosure sale September 9, 1915, and turned over to the new company December 1, 1915.

Comment: The Cincinnati, Hamilton & Dayton property as reorganized reported only a portion of the former mileage and there is not much advantage in a comparison in operating results of the previous years. The mileage retained by the new company is a most profitable portion, and as shown by the above exhibit shows a heavy freight density. It simply remains to be seen during the coming years whether a heavy volume of traffic can be maintained at profitable figures. Up to the present time the average freight rates do not reflect a very large margin of profit.

* Excludes C. I. & W. Ry.

Profit and Loss Account, Year ended June 30, 1916: Donations, $15,000; miscellaneous credits, $11,103; debit balance carried to general balance sheet, $34,106,057; total, $34,132,160. Contra: balance brought forward from June 30, 1915, $32,426,307; debit balance from income account, $1,103,661; depreciation on tracks, buildings and structures destroyed, etc., $94,883; depreciation prior to July 1, 1907, on equipment taken out of service during the year, $507,309; total, $34,132,160.

Comment: The operating results of the Cincinnati, Hamilton & Dayton lines which have been retained in the general system, were relatively favorable during 1916, but of course do not equal the old fixed charges. The receivers' report, therefore, indicated a further heavy deficit, although this deficit was far lower than that shown in the previous year.

REFERENCE NOTES ON BOND ISSUES

1. Auth. and outstanding, $2,000,000. Dated Jan. 1, 1887; due Jan. 1, 1937. Int. at J. P. Morgan & Co., New York. Assumed by new company and retirement provided for by Balt. & Ohio-Toledo & Cinn. div. mortgage. First lien, 59.85 miles, Cincinnati to Dayton, and on leaseholds. Underlie Nos. 2, 7 and 8, with provision by No. 7 to retire at or before maturity. Legal for S. B. in Me. Listed on New York Stock Exchange. Interest paid without deduction for normal income tax. Coupon, $1,000.

2. Auth., $7,800,000; outstanding, $3,000,000. Dated June 1, 1892; due June 1, 1942. Int. paid at J. P. Morgan & Co., New York. Assumed by new company and retirement provided for by Balt. & Ohio-Toledo & Cinn. div. mortgage. Second lien, 59.85 miles, Cincinnati to Dayton and on leaseholds; following No. 1. Underlie Nos. 7 and 8, with provision by No. 7 to retire at maturity. Listed on Cincinnati Stock Exchange. Coupon, $1,000.

3. Auth. and outstanding, $1,200,000. Dated April 1, 1892; due April 1, 1942. Int. paid at J. P. Morgan & Co., New York. First lien, 94.62 miles, Delphos to Dayton, O. Underlie Nos. 7 and 8, with provision by No. 7 to retire at maturity. Coupon, $1,000.
Default: Interest defaulted Oct. 1, 1914. Not assumed by new company.

4. Auth. and outstanding, $3,500,000. Dated May 1, 1891; due May 1, 1941. Int. paid at J. P. Morgan & Co., New York. First lien, 160.12 miles, Dayton to West June., Byers Junc. to Dean and branches. Underlie Nos. 7 and 8, with provision by No. 7 to retire at or before maturity. Listed on New York and Boston Stock Exchanges. Coupon, $1,000.
Default: Interest defaulted Nov. 1, 1914. To receive 60% in new Baltimore & Ohio-Toledo & Cinn. div. 4s.

5. Auth. and outstanding, $2,728,000. Dated Jan. 1, 1881; due Jan. 1, 1931. Int. paid at J. P. Morgan & Co., New York. Assumed by new company and retirement provided for by Balt. & Ohio-Toledo & Cinn. div. mortgage. Callable at 102½ on any interest date beginning Jan. 1, 1917, upon 60 days' notice. First lien on 141.82 miles from Dayton to Toledo, Ohio, all the first mortgage bonds on this mileage having been retired or cancelled. Listed on New York and Cincinnati Stock Exchanges. Coupon, $1,000.

6. Auth., $250,000; outstanding, $225,000; in treasury, $25,000. Dated Nov. 1, 1889; due Nov. 1, 1939. Int. paid at Union Savings Bank & Trust Co., Cincinnati. Under the reorganization plan these bonds will receive 100% in new Balt. & Ohio-Toledo & Cinn. div. 4s. First lien. 8.81 miles, Troy to Piqua, O. Legal for S. B. in Maine. Coupon. $1,000. Interest paid without deduction for normal income tax.

7. Auth., $75,000,000; outstanding, $9,177,000; in treasury pledged for advances, $20,013,000. Dated July 1, 1909; due July 1, 1959. Of total outstanding, $7,500,000 guar. prin. and int. by Baltimore & Ohio R.R. by endorsement. Those guaranteed receive 100% and those not guaranteed 85% in new Baltimore & Ohio-Toledo & Cinn. div. 4s. Secured by second lien on 254.74 miles, which are covered by first lien by Nos. 3 and 4; by third lien on 59.85 miles, which are covered by No. 1; also by first collateral lien on the capital stocks of five companies owning 268.22 miles; also a lien upon the leasehold interest in the Home Avenue R.R., 3.15 miles, and the Dayton & Michigan R.R., owning 141.82 miles. Listed on New York Stock Exchange. Coupon $1,000, reg. $1,000, $5,000, $10,000.

8. Auth., $20,000,000; outstanding, $17,529,000; in treasury, $2,471,000. Dated July 1, 1909; due July 1, 1939. Int. at J. P. Morgan & Co., New York. Callable at par and interest on any interest date on thirty days' notice. Interest rate: "To June 30, 1911, 4½% to the extent warranted by net income in discretion of directors; from July 1, 1911, to June 30, 1914, 1% fixed and 3½% non-cumulative; from July 1, 1914, to June 30, 1916, 3% fixed and 1½% non-cumulative; after July 1, 1916. 4½% fixed interest. In July, 1916, or in case at any time prior thereto the B. & O. R.R. shall have acquired the controlling stock of the C. H. & D. Ry., then during the next following July the B. & O. shall either purchase these bonds at 85 and int., or exchange them for a new 4% issue secured by the same mortgage and guaranteed prin. and int. by B. & O. R.R.; such bonds to be callable at 103 and int." Secured on same property as No. 7, but subject thereto. In January, 1915, the fixed interest on above bonds was defaulted. In December, 1915, an offer was made by Kuhn, Loeb & Co., to purchase in the interest of the Baltimore & Ohio Railroad, the above bonds at 70 with interest at 4% on such price from Jan. 1, 1916, to date of payment.

9. Series A 5s; dated June 1, 1910; due $116,000 each J. & D. to June 1, 1920. Original amount, $2,320,000; now outstanding, $812,000. Coupon, $1,000. Int. paid at J. P. Morgan & Co., New York. First lien on 25 locomotives and 2,500 freight cars costing $2,887,005. Interest paid without deduction for normal income tax.

REFERENCE NOTES ON STOCK ISSUES

Dayton & Michigan Railroad Co.: The Dayton & Michigan Railroad Co. was leased to the old Cincinnati, Hamilton & Dayton Railway at a rental equalling interest on its bonds, 8% per annum on its preferred stock and 3½% per annum on its common stock. There is outstanding, $1,211,250 preferred and $2,401,950 common stock. Par, $50 per share. Under the plan of reorganization, whereby the main lines of the Cincinnati, Hamilton & Dayton will be retained as a part of the Baltimore & Ohio system, these issues are left undisturbed and the guarantees are assumed by the new company. A detailed statement of the Dayton & Michigan Railroad will be found below.

Cincinnati, Hamilton & Dayton common stock: The above is the stock of the old company, all of which was owned by the Baltimore & Ohio Railroad. The stock of the new company, as well as all other securities disturbed and not cancelled will also be owned by the Baltimore & Ohio and deposited under its new Toledo & Cincinnati division mortgage.

CINCINNATI, FINDLAY AND FORT WAYNE RAILWAY COMPANY

Owns about 80 miles of line, operating from Findlay, Ohio, to Fort Wayne, Indiana, with line connecting with Cincinnati, Hamilton & Dayton from Delphos to Mandale, Ohio. Total operated, about 91 miles. Leased to C., H. & D. for 99 years from 1903, latter owning all the stock and guaranteeing the bonds, principal and interest. Bonds defaulted in November, 1914.

Reorganization: Under the plan of reorganization of the Cincinnati, Hamilton & Dayton Railway, no provision has been made for the Cincinnati, Findlay & Fort Wayne property. It is understood that in recent years its earning power had declined radically, and the main company was not justified in including the lines in the newly formed system. Plans are now under way for effecting compromise with the bondholders. For later developments, consult our Investors Service.

Bonded Debt: $1,150,000 Cincinnati, Findlay & Fort Wayne first 4s; dated Nov. 1, 1903; due Nov. 1, 1923. Int. payable M. and N. Callable at 102½ and interest. Guaranteed principal and interest by Cincinnati, Hamilton & Dayton Ry., and secured by first lien on entire property. Guaranty has not been assumed by new company. Interest in default since Nov. 1, 1914. Protective Committee: F. N. B. Close, Chairman; D. P. Bogue, Sec. Depository: Bankers' Trust Co., New York. Rating, Caa.

Capital Stock: Authorized and outstanding, $1,250,000; par, $100. All owned by old Cincinnati, Hamilton & Dayton Ry. Co.

DAYTON & MICHIGAN RAILROAD COMPANY

Incorporated under laws of Ohio, March 5, 1851; road first opened in 1862. Line of road: Dayton to Toledo Junc., O., 141.15 miles, with 15.83 miles of second track. Company was leased in perpetuity from May 1, 1863, to the Cincinnati, Hamilton & Dayton R.R., at rental of 8% on preferred and 3½% on common stock, with guaranty of prin. and int. on bonds of company. The guarantor operates the road, its earnings being included in the income account of that company.

Management: Officers: Frank J. Jones, Pres.; Chas J. Livingood, Vice-Pres.; Robert Mecke, Sec. and Treas. Annual meeting, third Tuesday in May. Main Office, Cincinnati, Ohio.

Comparative Income Account, Years Ended June 30

	1916	1915	1914	1913	1912	1911
Rental income	$304,222	$304,342	$303,728	$303,728	$305,728	$312,548
Taxes, etc.	.....	.....	.....	.....	2,000	2,000
Fixed charges	122,760	122,760	122,760	122,760	122,760	129.580

Bonded Debt: $2,728,000 Dayton & Michigan R R. first 4½s; dated Jan. 1, 1881; due Jan. 1, 1931; int. paid at J. P. Morgan & Co., New York. Coupon, $1,000. Guar. prin. and int. by C. H. & D. Ry. by endorsement. Guaranty assumed by new company and final payment provided for by the new Baltimore & Ohio-Toledo & Cinn. div. bonds. Callable at 102½ and interest after Jan. 1, 1917. First lien on entire property. Rating, A.

Note: The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Bond Ratings, see pages 19 to 21.

Capital Stock: Auth., $3,700,000 8% preferred and $3,000,000 common; outstanding, $1,211,250 preferred and $2,403,309 common; par $50. Dividends of 8% on preferred and 3½% on common guaranteed under the lease by C. H. & D. Ry. Payments quar. Jan. on preferred and semi-an. Apr. and Oct. on common. TRANSFER OFFICE, Cincinnati, Ohio.

HOME AVENUE RAILROAD COMPANY

Incorporated under Ohio laws Feb. 2, 1872. Line of road, Dayton to Soldiers' Home, Ohio, 2.83 miles. Property has been leased in perpetuity to Cincinnati, Hamilton & Dayton Railway, from July 1, 1897, rental being guaranty of 3% per annum on stock and one-half of gross earnings—above $6,000—up to $10,000, which has produced 5% regularly in recent years. Latter company operates the road.

Management: OFFICERS: E. J. Barney, Pres.; George G. Shaw, Vice-Pres.; Oscar J. Baird, Sec. and Treas. Annual meeting, second Monday in January. OFFICE, Dayton, Ohio.

Capital Stock: Auth. and issued, $100,000; par $50. Dividends in recent years as follows: 1903, 3¼%; 1904, 4%; 1905 to 1916, 5% per annum. These dividends are guaranteed up to 3% by C. H. & D. Ry. The company has no bonded debt.

BANGOR & AROOSTOOK RAILROAD COMPANY

NOTE: The analysis is based on official documents of the company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated under Maine laws, Feb. 13, 1891. Main lines first opened for traffic in 1895. Owns the entire stock, and leases for 999 years the Northern Maine Seaport R.R., which, however, is operated as part of the system.

Location: Lines cover the northeastern section of the State of Maine, consisting of 568.02 miles of owned lines and 57.82 miles of leased lines. Total mileage operated, 625.84 miles. The system radiates largely throughout eastern and northern Maine, and penetrates the extensive lumber regions of that State. Transportation of lumber and logs has always represented a large part of its freight business. In recent years, however, miscellaneous freight has assumed considerable importance. The road is controlled by the Aroostook Construction Co. Population of Maine in 1890, 661,086; in 1900, 694,466; in 1910, 742,371.

Controlled Properties: In addition to the Northern Maine Seaport Railroad, which is leased and directly operated, the company now controls the Van Buren Bridge Company, the stock of which was purchased in November, 1914. See statement of latter company on page 193.

Management: OFFICERS: Percy R. Todd, Pres.; James Brown, Chairman Executive Committee; Walter A. Danforth, Treas.; J. B. Stewart, Gen. Mgr.; J. W. Crowell, Gen. Auditor; Wingate F. Cram, Clerk. DIRECTORS: Percy R. Todd, T. U. Coe, John Watson, A. W. Spaulding, Chas. E. Oak, Walter A. Danforth, James Brown, Henry P. Binney, C. A. Milliken. Annual meeting, third Thursday in October. GENERAL OFFICE, Bangor, Me.

10-Year Average	580	27	94	84	5,353	75%	45,762	360,677	256	$2.14	2.37c.	1.18c

Yard tracks and sidings, June 30, 1916, 207.56 miles. Weight of rails, 85 lb. steel for 240 miles; 70 lb. steel for 400 miles; 56 lb. steel for balance. The equipment is nearly all owned and fully paid for, there being only about $229,000 equipment trusts outstanding on June 30, 1916.

Comment: The operating exhibit of the Bangor & Aroostook for the fiscal year 1916 was moderately good. The company about maintained its passenger and freight density and reported a slight improvement in the average train load and train mile earnings. As usual a large part of the company's business was represented by forest products.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ended June 30.	Gross Revenues.	Maintenance.		Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.

10-Year Average	$5,723	$878	$703	$1,581	$2,057	$2,085	$2,308	$120	$2,188	$1,877	14%	$311	$191

* Deficit.

Note: Above table is based on average mileage operated for each year. Margin of safety is the proportion of surplus left over after payment of fixed charges. For example, in 1916, "balance for charges" (per mile) was $2,366; fixed charges consumed $1,986, or 84%, leaving $380, or a "margin of safety" of 16%.

* Dividends in 1916 charged to surplus. See below.

† Deficit.

Profit and Loss Account, year ended June 30, 1916. Credit balance July 1, 1915, $286,047; credit balance transferred from income $239,567; donations, $2,058; miscellaneous credits, $1,085; total, $528,757. Contra: Dividend appropriations of surplus, $103,458 *; loss on retired road and equipment, $22,508; miscellaneous debits, $2,049; credit balance carried to balance sheet, $400,742; total, $528,757.

* $68,992 additional dividend paid from appropriated surplus of previous years.

Comment: During the fiscal year 1916, the income results of the Bangor & Aroostook property were only slightly changed from those of 1915. The company, however, increased its outside income, and therefore the surplus available for dividends was moderately better than that shown during the previous year.

TABLE C.—Capitalization Factors (Security Obligations and Earning Power)

	Capitalization Per Mile of Road.								Dividend Record.

Appropriated surplus	161,949	161,949	161,949	161,949	161,949	161,949	161,949
Profit and loss surplus	400,742	286,047	126,283	111,830	236,405	332,088	324,234
Total	$32,758,776	$32,659,183	$29,572,152	$30,028,802	$30,191,276	$29,261,351	$27,490,761

Note: $4,720,000 bonds of Northern Maine Seaport Co. (guaranteed) are included in bond column, Table C; also in "Property Investment" and "Funded Debt" in the balance sheet.

Comment: During the year 1916, the Bangor & Aroostook reported a further increase in its bonded debt. This bonded debt now represents about 80% of its total capitalization which is a relatively heavy one in view of the general character of its business. However, earnings were sufficient to show a net income on net capital of 5.3%, which was slightly higher than the average figure for the decade.

TABLE D.—Bond Record and Ratings (Based on 10-Year Results, Per Mile of Road)

Note: "Average income available" is the average net income per mile available for interest charges, after deducting taxes, for the ten years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not ony on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see introduction. For Key to Bond Ratings, see pages 19 to 21.

REFERENCE NOTES ON BOND ISSUES

1. Auth. and outstanding, $3,360,000. Dated Jan. 1, 1893; due Jan. 1, 1943. Int. paid at Guaranty Trust Co., New York. Coupon, $1,000. First lien, 212.30 miles, as follows: Brownsville to Caribou, 155.13 miles; Ashland Junc. to Ashland, 43.87 miles; Fort Fairfield Junc. to Fort Fairfield, 13.30 miles. Underlie Nos. 2 and 6, with provision by latter to retire at maturity. Legal for Savings Banks in Cal., Mass., Maine. Interest paid without deduction for normal income tax. Market: New York, Boston and Bangor.

2. Auth., $1,050,000; outstanding, $106,000 (closed). Dated Feb. 27, 1895; due July 1, 1945. Int. paid at Guaranty Trust Co., New York. Coupon, $1,000. Second lien, following No. 1, on same property, 212.30 miles. Underlie No. 6 with provision by latter to retire at maturity or before. Legal for S. B. in Maine. Interest paid without deduction for normal income tax.

3. Auth. and outstanding, $1,500,000. Dated April 1, 1899; due Jan. 1, 1943. Int. paid at Guaranty Trust Co., New York. Coupon, $1,000. First lien, 76.13 miles, Old Town to Greenville, Me. Underlie No. 6, with provision by latter to retire or refund. Legal for S. B. in Cal., Mass., Maine. Interest paid without deduction for normal income tax.

4. Auth. and outstanding, $500,000. Dated April 1, 1899; due Jan. 1, 1943. Int. paid at Guaranty Trust Co., New York. Coupon, $1,000. First lien, 33.40 miles, Caribou to Van Buren, Me. Underlie No. 6, with provision by latter to retire or refund. Legal for S. B. in Cal., Mass., Maine. Interest paid without deduction for normal income tax.

5. Auth. and outstanding, $225,000. Dated Oct. 1, 1897; due Oct. 1, 1947. Int. paid at Guaranty Trust Co., New York. Coupon, $1,000. Assumed by B. & A. R.R. First lien, 15.67 miles, Caribou to Limestone, Me. Underlie No. 6, which provides for retirement. Legal for S. B. in Cal., Mass., Maine. Interest paid without deduction for normal income tax. Market: Boston.

6. Auth., $20,000,000; outstanding, $8,431,000. Dated July 1, 1901; due July 1, 1951. Int. paid at Brown Bros. & Co., New York, and Lee Higginson & Co., Boston. Coupon, $1,000. Bangor & Aroostook stock..... Full voting power. Par $100.	See text	$5,509	$311	$165*	47%	Fair	Fair	B.

* For 3% dividend.

Note: "Average income available" on stock issues is the average surplus, after deducting all fixed and other charges, for the ten years ending June 30, 1916. "Dividend requirement" is the requirement, at the current rate, on the present amount outstanding. For Key to Stock Ratings, see pages 21 to 23.

REFERENCE NOTE ON STOCK ISSUE

Auth., $5,000,000; outstanding, June 30, 1916, $3,448,600. Dividends have been paid as follows: 1904, 3%; 1905, 3½%; 1906, to Jan., 1913, 4% per annum; July, 1913, 1%; 1914, 3½%; 1915 and 1916, 3% each, payable 1% in Jan. and 2% in July.

Transfer agent, W. A. Danforth, Bangor, Maine.

AROOSTOOK CONSTRUCTION COMPANY

Incorporated under Maine laws, Feb. 28, 1891, to construct and equip the Bangor & Aroostook R.R. Co. Owns practically all the stock of the latter and $1,825,000 of its refunding 4s.

Management: Officers: I. K. Stetson, Pres.; Samuel H. Wolcott, Treas.; P. A. Hubbard, Clerk. Office, Bangor Maine.

Bonded Debt: $1,915,000 Aroostook Construction Co., 5-year collateral 5s; dated May 1, 1912; due May 1, 1917; int. Mar. and Nov. 1. at Old Colony Trust Co., Boston. Coupon, $1,000. Callable at par on 3 weeks' notice. Secured by pledge of $1,350,000 Bangor & Aroostook cons. ref. 4s, $2,156,500 Bangor & Aroostook stock, and $191,800 Northern Telegraph Co. stock. Interest paid without deduction for normal income tax. Market: Boston. Rating, Baa.

Capital Stock: Outstanding, $500,000; par, $100. Held in voting trust consisting of F. W. Cram, J. R. McAllister, James Brown.

VAN BUREN BRIDGE COMPANY

CONTROLLED BY BANGOR & AROOSTOOK R.R. CO.

History: Incorporated under laws of Maine 1913, to build a railroad bridge between Van Buren, Me., and St. Leonard's, N. B., and one mile of railroad in Canada. Opened for traffic May 1, 1915. This new line connects the Bangor & Aroostook R.R. with the Canadian Pacific Ry., International Ry. of N. B., and National Transcontinental Ry.

Management: Officers: Percy R. Todd, Pres.; W. A. Danforth, Vice-Pres. and Treas.; J. W. Crowell, Gen. Aud.; W. F. Cram, Clerk, Bangor, Me. Directors: James Brown, New York; H. P. Binney, Boston; T. U. Coe, Percy R. Todd, W. F. Cram, Bangor, Me. Annual meeting, third Tuesday in October. Office, Bangor, Me.

Bonded Debt: $250,000 Van Buren Bridge Co. 1st sinking fund 6s. Dated Sept. 1, 1914; due Sept. 1, 1934; interest paid Mar. and Sept. 1, at United States Mortgage & Trust Co., New York. Coupon, $1,000. Authorized, $250,000. Callable at 110 and interest, Sept. 1, 1916, and thereafter. Sinking fund of $4,400 per annum becomes operative June 1, 1916. Guaranteed principal and interest by the Bangor & Aroostook R.R. Co. First lien on the property. Interest paid without deduction for normal income tax. Rating, Ba.

Capital Stock: Auth. and outstanding, $250,000. Par $100. All owned by the Bangor & Aroostook R.R. Co.

BESSEMER & LAKE ERIE RAILROAD COMPANY

NOTE: The analysis is based on official documents of the Company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated under Pennsylvania laws, Jan. 1, 1901, and road completed in 1902. On April 1, 1901, the company leased the Pittsburgh, Bessemer & Lake Erie R.R. for 999 years, at rental equaling interest on bonds. and dividends of 6% on preferred and 3% on common stock of the latter, the lessee assuming the lease of the Meadville, Conneaut Lake & Linesville R.R. The Pittsburgh, Bessemer & Lake Erie R.R. was incorporated in Pennsylvania and Ohio, December 22, 1896, succeeding the Pittsburgh, Shenango & Lake Erie, and the Butler & Pittsburgh R.R.

Location: The operated lines of the Bessemer & Lake Erie R.R. consist of 221.50 miles as follows: Line owned, Kremis to Osgood, Pa., 8.87 miles; leased (Pitts., Bessemer & Lake Erie), North Bessemer to Conneaut Harbor and branches, 191.42 miles; trackage rights, 13.17 miles; leased to Union R.R., North Bessemer to Bessemer, 8.04 miles.

Control: The company is controlled by the Carnegie Company (U. S. Steel Corporation, subsidiary), which owns all the stock and guarantees the lease of the Pittsburgh, Bessemer & Lake Erie R.R.

Management: OFFICERS: J. H. Reed, Pres.; E. H. Utley, Vice-Pres. and Gen. Mgr.; D. G. Kerr, second Vice-Pres.; G. W. Kepler, Sec. and Treas. DIRECTORS: E. H. Gary, R. A. Franks, W. W. Blackburn, L. C. Bihler, D. M. Clemson, G. W. Kepler, E. H. Utley, D. G. Kerr, J. H. Reed. Annual meeting, second Monday in January. MAIN OFFICE, Pittsburgh, Pa.

10-Year Average	211	115	152	61	10,339	*94%	99,641*	7,941,266*	1,032*	$3.80*	1.68c*	.45c*

* Nine-year average.

Comment: For the year ended June 30, 1916, the volume of business on the Bessemer & Lake Erie underwent a very heavy increase, and the freight density reached the highest figures in its record. The average freight train load and train mile earnings were better than ever before, notwithstanding the fact that average freight rates fell to a much lower figure than those reported in 1915.

Earned on stock	795%	500%	205%	360%	387%	100%	354%

* Dividend paid from Profit and Loss Account.

†Deficit.

Profit and Loss Account, year ended June 30, 1916: Credit balance, June 30, 1915, $3,531,026; credit balance transferred from income account, $3,974,520; unrefundable overcharges, $38; miscellaneous credits, $855; total, $7,506,439. Contra: Dividend appropriations, $750,000; surplus appropriated for investment in physical property, $1,600,000; loss on retired road and equipment, $839; miscellaneous debits, $1; credit balance transferred to balance sheet, $5,155,599; total, $7,506,439.

Comment: The income account of the Bessemer & Lake Erie for the fiscal year 1916, was in every way a remarkable one. The net earnings were practically double those of 1914 and as the outside income also substantially increased, the balance available for charges and dividends was far higher than ever before. The surplus above fixed charge requirements equalled no less than 795% on the outstanding capital stock. During the year the company made dividend disbursements of 150%, but could easily have paid a very much larger rate.

Total	$23,984,258	$20,333,200	$16,093,099	$16,151,614	$10,978,649	$10,172,399	$9,652,187

Note: Funded debt for 1916, as shown above, covered equipment obligations. The bonds and stocks of the Pittsburgh, Bessemer & Lake Erie are not shown in the above balance sheet. See Tables D and E.

Comment: The capitalization of the Bessemer & Lake Erie, all the stock of which is owned by the United States Steel Corporation interests, underwent no changes whatever during the fiscal year 1916. It will be noted that the outstanding capital stock is very low as figured on a mileage basis, while the rental charges are relatively very high. While the total gross and net capitalization appear high, yet the earning power of the property is so heavy that this high capitalization is easily carried.

TABLE D.—Bond Record and Ratings (Based on 10-Year Results, Per Mile of Road)

Note: "Average income available" is the average net income available for interest charges, for the ten years ending Dec. 31, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see "Introduction." For Key to Ratings, see pages 19 to 21.

REFERENCE NOTES ON BOND ISSUES

1. Auth., $3,000,000; outstanding, $2,989,000. Dated Oct. 1, 1890; due Oct. 1, 1940. Int. paid at Central Trust Co., New York. Coupon, $1,000. First lien on 122.23 miles from Butler to Wallace Junc., Pa., and branches. Assumed by Pittsburgh, Bessemer & Lake Erie R.R., which is leased to Bessemer & Lake Erie, latter being controlled by the Carnegie Company. Underlie Nos. 2 and 3, with provision by latter to retire. Listed on New York and Pittsburgh Stock Exchanges. Legal for S. B. in Maine, Mo. Interest paid without deduction for normal income tax.

2. Auth., $4,800,000; outstanding, $579,000 (closed). Dated July 1, 1893; due July 1, 1943. Int. paid at Central Trust Co., New York. Coupon, $1,000. Follows No. 1 on 122.23 miles, a first lien on 18.06 miles additional. Underlie No. 3, which provides for retirement. Listed on New York and Pittsburgh Stock Exchanges. Interest paid without deduction for normal income tax.

3. Auth., $10,000,000; outstanding, $6,432,000. Dated Jan. 1, 1897; due Jan. 1, 1947. Int. paid at United States Trust Co., New York. Coupon, $1,000. Direct lien on all the lines of the company, consisting of 201.60 miles, North Bessemer to Conneaut Harbor and branches, subject to Nos. 1 and 2 as to 140.29 miles. Of the authorized issue, sufficient are reserved to retire Nos. 1 and 2. Int. guar. by Bessemer & Lake Erie R.R. Interest paid without deduction for normal income tax.

4. Auth. and outstanding, $2,000,000. Dated June 1, 1899; due June 1, 1919. Int. paid at Union Trust Co., Pittsburgh. Coupon, $1,000. Callable at par and int. with ½% added for each year after July 1, 1909. Not a mortgage. Listed on Pittsburgh Stock Exchange. Interest paid without deduction for normal income tax.

5. Auth. and outstanding, $200,000. Dated July 1, 1891; due July 1, 1921. Int. paid at Merchants' National Bank, Meadville, Pa. Coupon, $1,000. First lien on 20.54 miles, Meadville to Linesville, Pa. Road leased to Bessemer & Lake Erie for 99 years at 25% of gross earnings. Normal income tax deducted from interest.

6. In several series, as follows: $1,220,000 Erie equip. 5s, dated Feb. 28, 1902; due Mar. 1, 1922; int. Mar. and Sept. at Home Trust Co., Hoboken, N. J. $1,060,000 Standard equip. 5s, dated April 1, 1905, due April 1, 1925; int. April and Oct. at Home Trust Co., Hoboken, N. J. $1,100,000 Bessemer equip. 5s, dated Mar. 1, 1907; due $110,000 annually 1918-27; int. paid Mar. and Sept. at Home Trust Co., Hoboken, N. J. $400,000 Greenville equip. trust 5s, dated May 1, 1900; due $100,000 annually to May 1, 1920; int. May and Nov. at Union Trust Co., Pittsburgh. $2,050,000 Butler equip. 5s, dated April 1, 1901; due April 1, 1921; int. paid at Union Trust Co., Pittsburgh. $300,000 Conneaut Equipment trust 5s; dated April 1, 1909; due April 1, 1919; int. April and Oct. 1, at Home Trust Co., Hoboken, N. J. $550,000 Meadville Equipment 5s; dated March 1, 1911; due $55,000 annually from 1922-1931; int. Mar. and Sept. at Home Trust Co., Hoboken, N. J. $950,000 Albion Equipment 5s; dated June 1, 1912; due $75,000 anually from June 1, 1923 to 1932, and $100,000 in 1933 and in 1934; int. June and Dec. 1, at Home Trust Co., Hoboken, N. J. $2,500,000 Euclid Equipment 5s; dated July 1, 1914; due $250,000 annually July 1, 1925-1934; int. Jan. and July at Home Trust Co., Hoboken, N. J. All coupons, $1,000. Total now outstanding, $10,130,000. Interest paid without deduction for normal income tax.

TABLE E.—Stock Record and Ratings (Based on 10-Year Results, Per Mile of Road)

Capital Stock: Auth. and issued, $2,000,000 6% guaranteed preferred and $10,000,000 3% guaranteed common. For details and ratings see Bessemer & Lake Erie R.R. guaranteed stock table.

BOSTON RAILROAD HOLDING COMPANY

Incorporated under Massachusetts laws, June 18, 1909, for the sole purpose of acquiring and holding all or any part of the capital stock, bonds, or other evidences of indebtedness of the Boston & Maine R.R. In October, 1909, the company took over from the John L. Billard Co. $10,994,800 of the Boston & Maine stock. On June 30, 1914, the company owned $21,918,900 common and $654,300 preferred stock of the Boston & Maine; this being 52.9% of the total capital. In March, 1914, it was arranged to transfer this stock to five trustees. These trustees are M. P. Knowlton and James L. Doherty, of Springfield, Mass.; Henry B. Day and Chas. P. Hall, of Boston; Frank P. Carpenter, of Manchester, N. H. These trustees are to sell the stock before Jan. 1, 1917. In March, 1914, by agreement with the Attorney-General of the United States, it was proposed that the Boston R.R. Holding Co. dispose of this stock interest so soon as the necessary authority should be secured from the Massachusetts legislature. In October, 1916, the trustees were granted an extension of one year to January 1, 1918, to dispose of this stock interest. Full details of the proposed segregation of New York, New Haven & Hartford R.R. Co. subsidiaries will be found in statement of that company. See general index.

Management: OFFICERS: M. P. Knowlton, Pres.; Geo. B. Phippen, Treas.; A. B. Nichols, Clerk. DIRECTORS: M. P. Knowlton, Frank P. Carpenter, Henry B. Day, Jas. L. Doherty, Chas. P. Hall. OFFICE, North Station, Boston, Mass.

Capital Stock: Auth. and issued, $27,293,900 4% cum. preferred and $3,106,500 common; par $100. Preferred is callable at 110 and int. On June 30, 1916, the New York, New Haven & Hartford R.R. owned $24,493,900 preferred and all the common.

BOSTON AND MAINE RAILROAD COMPANY

NOTE: The analysis is based on official documents of the Company, including its annual reports of the past ten years.
For Definitions and Key to Ratings, see pages 19-26

Origin: Incorporated Jan. 1, 1842, under laws of Maine, New Hampshire, and Massachusetts, as a consolidation of the Boston & Portland R.R. of Mass., the Boston & Portland R.R. of New Hampshire, and the Maine, New Hampshire and Mass. R.R. of Maine. The original line extended from Wilmington to South Berwick, and was opened Feb. 23, 1843. Further extensions were constructed from time to time and various subsidiaries acquired. The Boston & Lowell R.R. Corporation was leased to the Boston & Maine on April 1, 1887, for 88 years. This lease included the subsidiaries of the Boston & Lowell, *viz.*, the Concord & Claremont, the Connecticut & Passumpsic Rivers R.R., the Manchester & Keene R.R., the Massawippi Valley Ry., the Nashua & Lowell R.R. Corporation, the Northern R.R., the Peterborough & Hillsborough R.R., the Peterborough R.R., Stony Brook R.R., the Wilton R.R. The Concord & Montreal R.R., and leased lines were leased to the Boston & Maine for 91 years from April 1, 1895. The Fitchburg R.R. was leased to the Boston & Maine for 99 years from July 1, 1900. This latter lease involved the control by the Boston & Maine of the Troy & Bennington R.R., and the Vermont & Massachusetts R.R. The Connecticut River R.R. was leased to the Boston & Maine for 99 years from Jan. 1, 1893; the Kennebunk & Kennebunkport for 99 years from May 15, 1883; the Lowell & Andover for 99 years from Dec. 1, 1874; the Manchester & Lawrence for 50 years from Sept. 1, 1887. In addition, the Boston & Maine controls the Vermont Valley R.R., the Sullivan County R.R., the York Harbor & Beach R.R., the Mount Washington Ry., the St. Johnsburg & Lake Champlain R.R., the Montpelier & Wells River R.R., the Barre R.R., and the Conway Electric Street Railway. It formerly controlled the Maine Central R.R. system, through ownership of a majority of the capital stock of the latter.

Location: The directly operated lines of the Boston & Maine Railroad system on June 30, 1916, consisted of 2,298.49 miles, classified as follows: Main lines owned, 524.54 miles (including traffic rights); main line branches owned, 182.79 miles; main lines leased, 798.07 miles; branches of leased lines, 717.33 miles; trackage rights and electric branches, 75.76 miles. Mileage mainly in Massachusetts, New Hampshire, and Maine. Population of these States in 1890, 3,276,559; in 1900, 3,911,400; in 1910, 4,539,359.

Control: The Boston Railroad Holding Company (see page 198) owns a majority of the capital stock of the Boston & Maine R.R., which has been transferred to five trustees pending its sale before Jan. 1, 1918. The former company is controlled by stock ownership by the New York, New Haven & Hartford R.R.

Receivership: On Aug. 21, 1916, President James H. Hustis was appointed temporary receiver by Judge Putnam in the U. S. Circuit Court at Boston. Failure of the various interests to agree upon a reorganization plan and inability to further extend maturing short term notes precipitated the receivership. For further details consult our Special Investors Service.

Management: OFFICERS: Jas. H. Hustis, Pres. and Rec.; Wm. J. Hobbs, Vice-Pres.; Woodward Hudson, Vice-Pres.; Herbert R. Wheeler, Treas.; Arthur B. Nichols, Clerk. DIRECTORS: J. M. Prendergast, F. C. Dumaine, Chas. W. Bosworth, Frank P. Carpenter, Jas. D. Upham, Geo. H. Prouty, Saml. Carr, Jas. H. Hustis, Chas. S. Cook, Henry B. Day, Jas. L. Doherty, Chas. P. Hall, M. P. Knowlton, N. L. Bassett. Annual meeting, second Wednesday in Oct. GENERAL OFFICE, North Station, Boston, Mass.

Yard tracks and sidings, June 30, 1916, 1,360.98 miles.

Comment: During the fiscal year ended June 30, 1916, the Boston & Maine property maintained its volume of passenger and freight business and was able to advance its average freight train load to a higher figure. While freight rates tended to decline, yet train mile earnings improved, and are now far higher than in earlier years. As has always been the case, the freight tonnage on this property is well diversified and is represented very largely by high grade freight.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ended June 30.	Gross Revenues.	Maintenance. Way.	Maintenance. Equipment.	Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.
1907	$17,974	$2,144	$1,931	$3,966	$9.569	$4,439	$4.854	$732	$4,122	$2,877	30%	$1,245	$862

1915	20,272	3,126	2,908	6,034	9,565	4,673	5,208	859	4,349	4,460	.....	111*	.....
1916	23,123	2,658	2,925	5,583	10,490	7,049	7,569	882	6,687	4,834	30	1,853	.....
10-Year Average	$19,815	$2,482	$2,526	$5,159	$9,797	$4,859	$5,323	$860	$4,463	$3,916	14%	$547	$567

Note: Above table is based on the average mileage directly operated each year, whether owned, leased or otherwise controlled. Margin of safety is the proportion of surplus left over after deducting fixed charges. For example, in 1916, the "balance for charges" (per mile) was $6,687; fixed charges per mile amounted to $4,834, or 70%, thus leaving $1,853, a "margin of safety" of 30%.

Comparative Income Account, Years Ended June 30

	1916	1915	1914	1913	1912	1911

* Outside operations included in figures for gross and net revenues.

† Deficit.

Note: Other income in 1916 included $191,090 in dividends and interest on investments; $225,360 in miscellaneous rents received. Fixed charges included, rentals of leased lines, $5,626,029; hire of equipment debit, $2,074,248; interest on bonds, $1,729,548; interest on refunded debt, $970,497.

Profit and Loss Account, year ended June 30, 1916: Credit balance transferred from income account, $4,065,691; profit on road and equipment sold, $7,891; unrefundable overcharges, $26,814; miscellaneous credits, $32,818; total, $4,133,214. Contra: Debit balance, June 30, 1915, $3,814,173; loss on retired road and equipment, $225,397; miscellaneous debits, $69,678; credit balance carried to balance sheet, $23,966; total, $4,133,214.

Comment: Both gross and net revenues underwent a very substantial increase on the Boston & Maine Railroad during the fiscal year 1916, and as outside revenue declined only slightly, the total net income was far in excess of that reported in any previous year. After providing for its full fixed charges, the company reported a surplus equal to nearly 10% on the outstanding common stock. The financial position of the property, however, has become so involved that the company was not able to meet its maturing obligations and during the year a receiver was appointed. The company now awaits reorganization.

TABLE C.—Capitalization Factors (Security Obligations and Earning Power)

Total	$120,327,537	$121,252,341	$127,608,714	$131,823,098	$118,519,614	$113,750,607
Liabilities:						
Capital stock	$49,156,811	$49,156,811	$49,156,811	$49,156,811	$49,156,811	$48,515,757
Funded debt	43,338,000	43,338,000	43,338,000	43,338,000	43,849,000	43,849,000
Working liabilities	21,261,436	23,372,616	31,174,351	34,258,784	19,034,028	14,569,978
Accrued liabilities not due	1,464,575	1,451,939	1,413,518	1,714,602	1,423,455	1,359,286
Deferred credit items	3,445,202	2,420,121	2,526,034	1,993,692	1,954,608	1,949,754
Appropriated surplus	1,637,547	1,512,854	.....	1,361,209	1,289,622	1,221,920
Profit and loss surplus	23,966	.....	.....	.....	1,812,090	2,284,912
Total	$120,327,537	$121,252,341	$127,608,714	$131,823,098	$118,519,614	$113,750,607

Note: The common stock was increased in the year 1911 from $28,841,691 to $38,912,541, thus involving a much larger dividend charge. The rate, however, was reduced to 4% at the end of the year, to 3% in 1913, and omitted entirely in 1914. Interest obligations were also increased in 1911, 1912, 1913 and 1914 by expansion in notes and loans payable. In 1915 loans and bills payable amounted to $17,336,600 (included in working liabilities). In 1916 the corresponding item was $13,306,060. Working assets in 1915 included $13,956,073 in investments, of which $3,886,510 was Maine Rys. Companies 5% notes. (For full details, see statement of Maine Central Ry. Co.)

Comment: There were practically no changes in the financial statement of the Boston & Maine Railroad in 1916. Capitalization in both bonds and stocks remained about the same, and the net capitalization continued to be a relatively heavy one. It will be noted by reference to the balance sheet that the company was able during 1916 to entirely wipe out its profit and loss deficit.

Diversified Investing

Price of the Book, $2.00 per copy net

This subject is fully covered in a small volume entitled "*How to Invest Money Wisely*," by John Moody, which we have recently published. For many years Mr. Moody has made a careful study of this subject in connection with his work as an analyst and adviser for bankers, financial institutions and investors, both at home and abroad. These principles for wisely and intelligently diversifying investment capital have been adopted within the past few years by numerous institutions and several thousand individual investors with satisfaction and profit.

MOODY'S INVESTORS SERVICE, 35 NASSAU STREET, NEW YORK

* After deducting stock dividend guarantees.

Note: Because of the uncertainties regarding the success of a reorganization in the near future for the Boston & Maine system, many of the above bond issues are given a more conservative rating than might otherwise be the case. Until a definite plan of reorganization has been carried through, the general credit of the property and its security issues must be viewed with conservatism.

REFERENCE NOTES ON BOND ISSUES

1. Outstanding, $1,919,000. Dated Feb. 1, 1887; due Feb. 1, 1937. Int. paid at company's office, Boston. Coupon, $1,000. Sinking fund: 1½% annually of bonds outstanding to be invested in these bonds or other approved securities. Now in fund, $1,243,707. Not a mortgage. Legal for S. B. in Me. and N. H. Listed on Boston Stock Exchange. Normal income tax deducted from interest.

*After allowance for guarantees, floating debt, int., etc.

Present Position of Guaranteed Stocks: The ratings given on the several guaranteed stock issues of the Boston & Maine Railroad should be accepted with the following facts in view. The Boston & Maine R.R. has made application to the legislatures of the several states within its territory looking to the revision of a number of these guarantees, or their abrogation. No definite plan for adjusting the leases has yet been adopted, but in view of the heavy rental charges of the Boston & Maine, it will be necessary to make certain readjustments, either of the dividend rates or of the general terms of the leases. One of the proposals is that certain of the guaranteed stocks be exchanged for preferred stock of the Boston & Maine and the properties be directly merged. This change might tend to reduce the investment value of many of the above issues. On the other hand, a more favorable adjustment of the matter, from the standpoint of the various issues, would tend to advance their investment value.

REFERENCE NOTES ON STOCK ISSUES

1. Road leased to Boston & Maine until 1986, and 8% div. guaranteed on stock. Boston & Maine owns $561,900. Legal for Savings Banks in N. H. and Me. Company owns 111.27 miles; Boston to Lowell, Lawrence and branches.

B. in Conn., Maine, Mass., Mich., Minn., N. J., Wis. Normal income tax deducted from interest. Net Rating, Baa.

Capital Stock Outstanding: $1,000,000; par $50. Practically all the stock is owned by the Connecticut River R.R. In 1912, it was proposed to merge the property. Dividends of 10% per annum were regularly paid during seven years to end of 1914. None in 1915. In 1916 paid 10% out of surplus.

BUFFALO, ROCHESTER & PITTSBURGH RAILWAY COMPANY

NOTE: The analysis is based on official documents of the company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated March 11, 1887, as a consolidation of the Buffalo, Rochester & Pittsburgh Railroad and the Pittsburgh & State Line Railroad; succeeding the old Rochester & Pittsburgh Railroad which was formed in 1881. Company has a joint interest in the Ontario Car Ferry Co., Ltd., with the Grand Trunk Railway Co., of Canada. Formerly owned practically all the stock of the Rochester & Pittsburgh Coal & Iron Co., but this was acquired by the Mahoning Investment Co. in 1906 (see that company in "Moody's Analyses of Public Utilities and Industrials").

Location: Total mileage operated consisted, June 30, 1916, of 586.48 miles as follows: Lines owned:—Rochester to Ashford, N. Y., 93.70 miles; Buffalo Creek, N. Y., to Mt. Jewett, Pa., 97.95 miles; Clarion Junc. to Lindsey, Pa., 59.09 miles; branches owned, 116.32 miles; total owned, 367.06 miles. Leased lines: Clearfield & Mahoning Ry., Clearfield to Beech Creek Junc. Pa., 25.70 miles; Allegheny & Western Ry., Punxsutawney to Butler, Pa., and branches, 62.19 miles; Mahoning Valley R.R., 1.89 miles; Allegheny Terminal Ry. (Pittsburg), 0.12 mile; trackage rights, 129.52 miles. The leased lines are all directly operated. Mileage in western New York and western Pennsylvania, penetrating the bituminous coal regions. Population of these States in 1890, 11,255.927; in 1900, 13,571,009; in 1910, 16,778,725.

Management: OFFICERS: William T. Noonan, Pres.; Adrian Iselin, Jr., Vice-Pres.; W. Emlen Roosevelt, Vice-Pres.; Thos. F. Brennan, Vice-Pres.; E. F. Robinson, Gen. Mgr.; John F. Dinkey, Audt. and Treas.; Ernest Iselin, Sec. and Asst. Treas.; Arthur C. Durfee, Asst. Treas. DIRECTORS: Adrian Iselin, Jr., Walter G. Oakman, Samuel Woolverton, Wm. E. Iselin, Henry G. Barbey, C. O'D. Iselin, Oscar Grisch, W. Emlen Roosevelt, Ernest Iselin, William T. Noonan, Hamilton F. Kean, Geo. Emlen Roosevelt, O'Donnell Iselin. Annual meeting, third Monday in November. NEW YORK OFFICE, 36 Wall Street, GENERAL OFFICE, Rochester, N. Y.

Classification of Freight Tonnage (Years Ending June 30)

Yard tracks and sidings, June 30, 1916, 378 miles. Weight of rails, 60 to 100 lbs.; average, 80 lbs.

Comment: The operating exhibit of the Buffalo, Rochester & Pittsburgh Railway during the fiscal year ended June 30, 1916, was in all respects a favorable one. Freight density reached unusually high figures, and the company also succeeded in raising its average freight train load to a very important extent. As usual the company depended chiefly on the transportation of mining products for its volume of freight business. Although average freight rates tended to decline as compared with 1915, the train mile earnings were much better than during that year. It will be noted that during the past ten years the company has reported steady growth in freight density, which is now over 50 per cent. greater than in 1907. The mileage operated has grown but slightly during the period and the growth in business has been chiefly an intensive development. The company's freight equipment has steadily expanded with the growth of business.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ended June 30.	Gross Revenues.	Maintenance. Way.	Maintenance. Equipment.	Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.

Balance	$512,820	.....	.....	$686,701	$506,330	$495,208	$419,677
Earned on stock: Preferred	32.73%	15.21%	22.58%	35.45%	29.4%	28.3%	23.6%
Common	15.28	6.98	9.47	16.83	13.3	12.8	10.

Note: Fixed charges include lease rentals, joint facilities, rentals, interest on bonds, etc. Interest on bonds in 1916 amounted to $1,412,177, rentals and joint rents, $705,593.

Profit and Loss Account, year ended June 30, 1916: Credit balance June 30, 1915, $3,420,985; credit balance transferred from income account, $512,820; unrefundable overcharges, $1,565; miscellaneous credits, $37,336; total, $3,972,706. Contra: Loss on retired road and equipment, $2,476; miscellaneous debits, $4,476; credit balance transferred to balance sheet, $3,965,754; total, $3,972,706.

Comment: Both gross and net revenues rose very sharply on the Buffalo, Rochester & Pittsburgh Railway during the fiscal year 1916. As outside income also increased, the surplus available for charges was far higher than in the previous year, and even exceeded the unusual exhibit of 1913.

TABLE C.—Capitalization Factors (Security Obligations and Earning Power)

Capitalization Per Mile of Road. Dividend Record.

Years Ended June 30.	Stock Outstanding and Per Cent of Whole.		Bonds Outstanding and Per Cent of Whole.		Rentals Cap. at 5 Per Cent.	Total Gross Capital.	Owned by Co. as per Balance Sheet. Total	$57,397,470	$56,445,729	$55,840,068	$51,811,843	$49,496,245	$47,344,022
LIABILITIES:						
Capital stock	$16,500,000	$16,500,000	$16,500,000	$16,500,000	$16,500,000	$16,500,000
Funded debt	30,865,000	31,373,000	30,913,000	27,388,000	26,429,000	25,479,000
Working liabilities	1,039,194	873,888	1,176,097	1,089,880	1,056,708	806,528
Accrued liabil. not due	461,229	451,506	295,815	283,584	282,747	338,163
Deferred credit items ..	1,273,227	1,181,678	994,068	840,370	544,291	413,613
Appropriated surplus ..	3,293,066	2,644,672	1,997,080	1,510,296	1,061,500	686,500
Profit and loss surplus.	3,965,754	3,420,985	3,964,008	4,199,713	3,621,999	3,120,218
Total	$57,397,470	$56,445,729	$55,840,068	$51,811,843	$49,496,245	$47,344,022

Note: The bonded debt as shown above, includes all mortgages, equipment notes, construction and improvement notes, but not the income bonds of the old R. & P. R.R., which are practically all owned and in trusteeship. The rentals as capitalized cover the guaranteed issues and leases of Allegheny & Western, Clearfield & Mahoning, Mahoning Valley, etc.

Prior to 1907 the entire stock of the Rochester & Pittsburgh Coal and Iron Co. was owned, and through that company the Jefferson & Clearfield Coal and Iron Co. was controlled. In 1906 the stock of the R. & P. C. & I. Co. was transferred (subject to gen. mortgage lien) to the Mahoning Investment Company in exchange for $4,125,000 stock of the latter, which was distributed in December, 1906, to the preferred and common stockholders of the road. For full analysis of the Mahoning Investment Co. see "Moody's Analyses of Public Utilities and Industrials."

Comment: During the fiscal year ended June 30, 1916, the only change in the capitalization exhibit of this property was a slight decrease in the bonded debt. While the property as measured on the mileage basis appears to be quite heavily capitalized, yet the earning power is such as to enable the company to easily carry this capitalization. Net income on net capital in 1916 reached 8.2%, which is much higher than the average for the decade. The credit of this property is a strong one, and all of its bond issues appear to be unusually well secured.

* Including principal paid.

Note: "Average income available" is the average net income available for interest charges, after deducting taxes, for the ten years ending, June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Bond Ratings, see pages 19 to 21.

REFERENCE NOTES ON BOND ISSUES

1. Auth., $1,700,000; outstanding, $1,300,000 (closed). Dated Feb. 1, 1881; due Feb. 1, 1921. Int. paid at 36 Wall St., New York. Coupon, $1,000. Assumed by B. R. & P. Ry. First lien, 109.33 miles as follows: Rochester to Salamanca, N. Y., 108.17 miles; Silver Lake Jct. to Silver Springs, N. Y., 1.16 miles. Underlie Nos. 2, 6, and 7. Retirement provided for by No. 7. Legal for Savings Banks in Cal., Conn., Maine, Mich., Minn., N. H., N. J., N. Y., R. I., Wis. Listed on New York Stock Exchange. Normal income tax deducted from interest.

2. Auth., $6,500,000; outstanding, $3,920,000 (closed). Dated Dec. 1, 1882; due Dec. 1, 1922. Int. paid at 36 Wall St., New York. Coupon, $1,000. Assumed by B. R. & P. Ry. First lien, 125.01 miles, as follows: Buffalo to Ashford and East Salamanca to Howard Junc., Pa., 65.92 miles; Clarion Junc. to A. & W. Junc., Pa., 59.09 miles;

* Average balance available before deducting guaranteed dividends. † For 6% dividends.

Note: "Average income available" on stock issues is the average surplus, after deducting all fixed and other charges, for the ten years ending June 30, 1916. "Dividend requirement" is the requirement, at the current rate, on the present amount outstanding. For Key to Stock Ratings, see pages 21 to 23.

REFERENCE NOTES ON STOCK ISSUES

1. ALLEGHENY & WESTERN RY.: Road leased to Buffalo, Rochester & Pittsburgh in perpetuity, rental being endorsed guaranty of prin. and int. on bonds, and 6% per annum on stock. Auth. issue, $3,500,000.

2. CLEARFIELD AND MAHONING RY.: Road leased to Buffalo, Rochester & Pittsburgh in perpetuity, rental being endorsed guaranty of prin. and int. on bonds, and 6% per annum on stock. Authorized issue, $1,000,000.

3 and 4. Auth. amount of preferred is $6,000,000; of common, $12,000,000. Dividend record is as follows: On preferred: 1888, 2½%; 1892, 2½%; 1898 and 1899, 2% each; 1900, 4%; 1901 to date, 6% per annum. On common: 1901, 2%; 1902, 4%; 1903, 4½%; 1904 to 1907, 6%; 1908, 5%; 1909 and 1910, 4%; 1911, 4½%; 1912, 5%; 1913, 6%; 1914, 6%; 1915 and 1916, 4% each. In August, 1916, rate was restored to 6%. TRANSFER AGENTS, A. Iselin & Co., 36 Wall Street, New York. Listed on New York Stock Exchange.

Note: The Buffalo, Rochester & Pittsburgh Ry. also leases in perpetuity the Mahoning Valley R.R., operating about 2 miles from Helvetia to Stanley, Pa. The rental is $15,000 per annum, and 4% dividends are regularly paid on $45,000 stock.

CAROLINA, CLINCHFIELD & OHIO RAILWAY

NOTE: The analysis is based on official documents of the company, including its annual reports of the past eight years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated under Virginia laws as the South & Western Ry. Co. on Jan. 26, 1905; name changed as above Mar. 7, 1908. The property has been largely under the construction stage ever since the re-incorporation of 1908. In 1908 the property of the Lick Creek & Lake Erie R.R. was acquired, and in 1911 the Elkhorn Southern Ry. was purchased. Also controls the Carolina, Clinchfield & Ohio Ry. of Kentucky, the Clinchfield Northern Ry., the Southport Harbor Co., etc.

Location: The operated lines consist of 272.96 miles, as follows: Elkhorn City, Ky. to N. C.-S. C. State line, 258.80 miles; branches and trackage rights, 14.16 miles. In addition to this mileage the company owns 17.95 miles which are operated by the Carolina, Clinchfield & Ohio Ry. of South Carolina.

Control: The company was formerly controlled by the Cumberland Corporation, through ownership of entire capital stock. In 1916 this holding company was dissolved and its assets distributed to the stockholders.

Management: OFFICERS: Mark W. Potter, Chairman and Pres.; J. J. Campion, Vice-Pres.; I. McQuilkin, Vice-Pres. and Comptroller; S. K. Lindsay, Treas.; C. M. Owen, Sec. DIRECTORS: G. L. Carter, M. W. Potter, C. L. Blair, W. T. Rosen, T. F. Ryan, J. B. Dennis, W. K. Whigham, R. F. Herrick, I. McQuilkin, J. W. Pless. MAIN OFFICE, Johnson City, Tenn. NEW YORK OFFICE, 24 Broad Street.

Note: In 1914, 1915 and 1916, above figures are based on operations of main system only, and do not include figures of Carolina, Clinchfield & Ohio Ry. of South Carolina.

Comment: Sharp recovery in volume of tonnage characterized the Carolina, Clinchfield & Ohio Railway during the fiscal year ended June 30, 1916. While the freight density did not rise quite to that of 1914, and the average train load was lower, the train mile earnings were fully maintained. The total tonnage transported increased to new high figures, and as usual, about 75% of the total was represented by products of mines.

Profit and Loss Account, year ended June 30, 1916: Credit balance at beginning of year, $1,041,184; credit balance transferred from income, $651,206; unrefundable overcharges, $6; donations, $4,022; miscellaneous credits, $494; total, $1,696,912. Contra: Debt discount extinguished through surplus, $25,031; loss on retired road and equipment, $3,237; miscellaneous debits, $15,656; credit balance carried to balance sheet, $1,652,988; total, $1,696,912.

Comment: The gross revenues of the Carolina, Clinchfield & Ohio in 1916 far exceeded those of earlier years. Net operating revenues were also at a high level, while the income from other sources brought the total available surplus for fixed charges to figures never before reached. Although fixed charges increased sharply, the company was able to report a final balance equal to 4.82% on the preferred stock. Since the close of the fiscal year the company has made further progress in general business and earning power.

Total	$63,733,830	$62,541,043	$61,128,130	$57,905,435	$54,462,724	$55,066,769

Comment: No important changes occurred in the capitalization figures of the Carolina, Clinchfield & Ohio property in 1916, except that the outstanding stock was moderately increased. The company increased its rental obligations to some extent also. As measured on the mileage basis, the company is heavily capitalized, but bonded debt represents only 40% of the total capitalization and the company is showing a better income on net capital than was formerly the case.

Note: "Average income available" is the average net income per mile available for interest charges, after deducting taxes, for the eight years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Bond Ratings, see pages 19 to 21.

REFERENCE NOTES ON BOND ISSUES

1. Auth. and outstanding, $200,000. Dated, Dec. 23, 1902, due Jan. 1, 1933. Interest paid at Washington Loan & Trust Co., Washington, D. C. Coupon, $1,000. First lien on 7.5 miles, Dante to Fink, Va. Assumed by C., C. & O. Ry. Interest paid without deduction for normal income tax.

2. Auth., $15,000,000; issued, $13,750,000. Dated June 1, 1908; due June 1, 1938. Int. paid at Blair & Co., New York. Callable as whole at 110 and int. on two months' notice. First lien or collateral lien on 233.92 miles as follows: First lien on 215.97 miles, Fink, Va., to S. C.-N. C. State line; second lien on 7.50 miles, following No. 1; first collateral lien on 17.95 miles S. C.-N. C. State line to Spartanburg, S. C., by pledge of $3,000,000 C., C. & O. Ry. of S. C. first 5s. Underlies No. 2. Listed on New York Stock Exchange. Coupon, $100 and $1,000; reg., $1,000 and multiples. Interest paid without deduction for normal income tax.

3. Auth., $5,000,000; outstanding, $2,000,000 (closed). Dated July 1, 1909; due July 1, 1919. Int. paid at Blair & Co., New York. Coupon, $1,000. Callable at par and int. on 30 days' notice. Second lien on 233.92 miles, following No. 1; third lien on 7.50 miles, following No. 1. Interest paid without deduction for normal income tax. Convertible into preferred at par.

4. Auth., $5,500,000; outstanding, $5,500,000. Dated May 1, 1912; due May 1, 1917. Int. paid at Blair & Co., New York. Coupon, $1,000. Callable at par on 30 days' notice. Issued to construct extension from Dante to Elkhorn, about 32 miles, on which they are a first lien; also on all bonds of Clinchfield Northern Ry. of Ky. Interest paid without deduction for normal income tax.

5. Series "A," 5s, auth., $2,600,000; outstanding, $520,000. Dated Dec. 1, 1908; due, $130,000 each June and Dec. 1 to Dec. 1, 1918. Int. paid at Blair & Co., New York. First lien on equipment, costing over $3,200,000. Series "B," 5s, auth., $1,000,000; outstanding, $300,000. Dated Jan. 15, 1910; due, $50,000 each Jan. and July 15 to Jan. 15, 1920. Int. paid at Blair & Co., New York. First lien on equipment costing $1,375,000. Series "C" 5s; dated 1912; due $50,000 each Feb. and Aug. to Aug., 1922; now outstanding, $550,000. First lien on equipment costing $1,385,000. Series "D," 5s, dated July 1, 1913; due $25,000 each Jan. and July to July, 1920, now outstanding, $175,000. First lien on equipment costing $431,000. Series "E," 5s; dated Oct. 1, 1914; due $13,000 each April and Oct. 1 to Oct. 1, 1924; now outstanding, $208,000. First lien on equipment costing $309,604. Interest paid without deduction for normal income tax.

6. Auth. and outstanding, $1,500,000; dated April 1, 1916; due April 1, 1926. Int. paid at Central Trust Co., New York. Coupon and reg., $1,000. Callable at par on 30 days' notice. Convertible at par into Carolina, Clinchfield & Ohio Ry. preferred stock. Guar. prin. and int. by Carolina, Clinchfield & Ohio Ry. by endorsement. Secured by pledge of $1,500,000 preferred stock of C., C. & O. Ry. Normal income tax deducted from interest.

7. Auth., $750,000; outstanding, $500,000. Dated April 1, 1916; due $25,000 annually to April 1, 1936. Int. paid at New York Trust Co., New York. Coupon, $1,000. Guar. prin. and int. by Carolina, Clinchfield & Ohio Ry. by endorsement. First lien on 26 miles, Kona to Escota, N. C. Balance of authorized amount issuable for improvements, to mature April 1, 1936. Normal income tax deducted from interest.

REFERENCE NOTE ON STOCK ISSUES

1 and 2. Auth., $15,000,000 6% non-cumulative preferred and $25,000,000 common; outstanding, $11,500,000 preferred and all the common. Par $100. $1,500,000 preferred is pledged under the Holston Corp. conv. 5% notes. Dividends of 3% paid on preferred in 1913; 6% in 1914; none in 1915 and 1916. Of the preferred stock $2,000,000 is held in treasury for possible conversion of notes. Both issues listed on New York Stock Exchange.

COMPANY AFFILIATED IN INTEREST WITH THE CAROLINA, CLINCHFIELD & OHIO RAILWAY CO.

CAROLINA, CLINCHFIELD & OHIO RAILWAY OF SOUTH CAROLINA

Incorporated under S. C. laws, May 28, 1908. Operates 17.95 miles from N. C. State line to Spartanburg, S. C., connecting with Carolina, Clinchfield & Ohio Ry. of Va. Latter company now directly operates the property.

Management: Mark W. Potter, Pres.; J. J. Campion, Vice-Pres.; I. McQuilkin, Vice-Pres. and Compt.; J. A. Muse, Sec.; S. K. Lindsay, Treas. Directors: M. W. Potter, J. A. Muse, H. G. Morrison, I. McQuilkin, T. H. Morris, F. B. Grier. Office, Johnson City, Tenn.

Income Account, year ended June 30, 1916: Operating revenues, $168,533; maintenance of way, $15,474; maintenance of equipment, $1,068; all other operating expenses, $63,852; net operating income, $88,139; operating ratio, 47.69%; taxes, $8,100; fixed charges, $171,007; deficit, $90,968.

Condensed Balance Sheet, as of June 30, 1916

Assets:		Liabilities:	
Property investment	$3,100,693	Capital stock	$12,000
Working assets	63,357	Funded debt	3,000,000
Deferred debit items	4,037	Working liabilities	850,519
Profit and loss	713,122	Accrued liabilities not due	18.500
		Deferred credit items	190
Total	$3,881,209	Total	$3,881,209

Bonded Debt: $3,000,000 first 30-year 5s; dated June 1, 1908; due June 1, 1938; int. paid July and Dec. at 24 Broad Street, New York. First lien on all lines owned, 17.95 miles. Entire issue pledged under first lien of Carolina, Clinchfield & Ohio Ry.

Capital Stock: Auth., $20,000; outstanding, $12,000; par $100.

THE CHESAPEAKE & OHIO RAILWAY COMPANY

Note: The analysis is based on official documents of the Company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated under laws of Virginia and West Virginia, July 1, 1878, as successor of the old Chesapeake & Ohio Railroad. Again reorganized, without foreclosure, Oct. 1, 1888. Prior to 1909 a dominating interest in the property was owned by the Pennsylvania and New York Central, but in that year a syndicate headed by Edwin Hawley acquired from these and other interests about $24,000,000 stock, giving virtual control. In 1910, the Chicago, Cinn. & Louisville (formerly allied with the Cinn., Hamilton & Dayton) was reorganized as the Chesapeake & Ohio Ry., of Indiana, and its entire stock acquired by this company.

Location: The directly operated lines on June 30, 1916, embraced 2,385.6 miles, as follows: Mileage owned:—Fort Monroe, Va., to Covington, Ky., 663.10 miles; Richmond to Clifton Forge *via* Lynchburg, 229.9 miles; Whitcomb to Winterburn, W. Va., 100.8 miles; St. Albans to Helen and Seth W. Va., and branches, 103.8 miles; Barboursville to Man, W. Va., and branches, 113.9 miles; Denton to Lexington, Ky., 102.7 miles; Big Sandy Junc. to Elkhorn, Ky., 127.8 miles; Covington to Cinn., 1.8 miles; Cinn. to near Chicago (proprietary line), 260.7 miles; Lindsay to Strathmore, Va., 29.8 miles; branches in Virginia and West Virginia, 317.9 miles; branches in Kentucky, 76.3 miles; leased lines, 37.9 miles; trackage rights, including lines from Orange, Va., to Washington, D. C., and from Lexington to Louisville, Ky., 224.2 miles. Of the lines owned, 5 miles are leased to other companies. In addition to its own system, the company owns 88,250 shares out of a total of 110,000 shares of stock of Hocking Valley Ry., and a one-sixth interest in the Richmond Washington Co. The one-half majority interest in the Kanawha & Michigan Ry., formerly owned, has been sold to the Toledo & Ohio Central Ry. Co. The operated lines cross or penetrate the States of Virginia, West Virginia, Kentucky, and Indiana. Population of these States in 1890, 6,470,323; in 1900, 7,476,620; in 1910, 8,273,513.

Chesapeake & Ohio Northern Railway: A new subsidiary company, known as the Chesapeake & Ohio Northern Railway was incorporated in May, 1914, and is constructing a bridge over the Ohio River near New Portsmouth, Ohio, and about 30 miles of lines to form a connection with the Hocking Valley and the Chesapeake & Ohio by means

of a traffic agreement with the Norfolk & Western from Waverly to Valley Crossing, Ohio. The new Chesapeake & Ohio Northern has an authorized issue of $1,000,000 30-year 5% bonds, which are guaranteed by the Chesapeake & Ohio Railway.

Management: OFFICERS: Frank Trumbull, Chairman; Geo. W. Stevens, Pres.; Decatur Axtell, 1st Vice-Pres.; H. T. Wickham, 2nd Vice-Pres.; F. M. Whitaker, 3d Vice-Pres.; Carl Remington, Sec.; Jas. Steuart MacKie, Treas.; L. F. Sullivan, Compt. DIRECTORS: Decatur Axtell, G. W. Stevens, James H. Dooley, Henry E. Huntington, Frank Trumbull, Chas. E. Graham, Theo. P. Shonts, Frank H. Davis, F. H. Rawson. Annual meeting, Tuesday preceding last Tuesday of October. GENERAL OFFICE, Richmond, Va. New York Office and Transfer Agency, 71 Broadway.

Total yard tracks and sidings, June 30, 1916, 1,024 miles.

Comment: During the fiscal year ended June 30, 1916, the Chesapeake & Ohio Railway reported a remarkable expansion in its freight density, and increased its average freight train load to far higher figures than ever before. It will be noted that while average freight rate ranged at the low figures of recent years, yet the company was able to increase its train mile earnings very substantially. As usual the main tonnage on this property was represented by soft coal, the percentage of products of mines being practically three-quarters of the freight tonnage for the year.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

YEARS ENDED JUNE 30.	Gross Revenues.	MAINTENANCE. Way.	MAINTENANCE. Equipment.	Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.

Balance	$6,879,216	$2,035,721	$460,551	$159,423	$1,134,579	$88,660	$3,621,869
Earned on stock	10.95%	4.2%	4.73%	5.25%	6.80%	5.06%	10.02%

Note: Other income in 1916 included $221,215 from hire of equipment, $677,156 interest on investments, etc. Fixed charges included $900,905 for rentals of tracks, leased roads, etc., $8,175,199 for interest on bonds, etc.

Profit and Loss Account, year ended June 30, 1916: Credit balance on June 30, 1915, $2,947,540; credit balance transferred from income account, $6,879,216; delayed income credits, $218; unrefundable overcharges, $2,354; miscellaneous credits, $59,480; total, $9,888,808. Contra: Surplus applied to sinking and other reserve funds, $57,000; debt discount extinguished through surplus, $2,484,602; loss on retired road and equipment, $19,646; delayed income debits, $2,655; miscellaneous debits, $335,011; credit balance carried to balance sheet, $6,989,894; total, $9,888,808.

Comment: The income results of the Chesapeake & Ohio for the fiscal year ended June 30, 1916, were in all respects gratifying. A very heavy increase was shown in the gross revenues, and although maintenance expenses were advanced the general operating costs increased only moderately. As a result the net operating revenues were several millions higher than in the previous year and the balance available above fixed charges was equivalent to almost 11% on the outstanding stock.

Profit and loss surplus.	6,989,894	2,947,540	1,561,833	2,514,681	2,760,398	1,711,100
Total	$311,393,295	$290,529,720	$288,959,118	$276,436,183	$258,205,221	$241,132,298

Note: The total par value of all securities owned on June 30, 1916, was $92,527,058. The total bonds and notes pledged amounted to $65,636,758; stocks pledged, $18,653,400. The increase in the funded debt in 1913 and 1914 was caused chiefly by additional issues of first lien 5s and short term notes. The first lien and improvement 5s are included in "property investment" and, contra, in "funded debt."

Comment: There were some important capitalization changes on the Chesapeake & Ohio during the fiscal year 1916. The company created a new convertible bond issue, and added substantially to its total funded debt. The capitalization of the property, however, is really not very high in view of the large volume of business reported, and although in 1916 the net income on net capital tended to decline, yet the actual result was entirely satisfactory. The position of the property at the end of the fiscal year, as is shown in the balance sheet above, indicated a very heavy increase in the profit and loss surplus.

For Key to Bond Ratings, see page 19.

Note: The ratings are based not only on the statistical exhibits and averages, but other factors are taken into consideration, such as the relative value to the system of the mileage covered, the size of the bond issue, its general character, etc. All the old underlying and divisional liens on the Chesapeake & Ohio answer rigid investment tests, while the junior liens and note issues promise to grow steadily in strength.

REFERENCE NOTES ON BOND ISSUES

1. Auth., $3,000,000; outstanding, $142,000 (closed). Dated June 1, 1882; due June 1, 1922. Int. paid at J. P. Morgan & Co., New York. Coupon, $1,000. First lien, 10 miles, Newport News to Old Point Comfort, Va., and terminals. Underlie Nos. 2, 7, 12, 20, 21 and 22, with provision by No. 2 to retire at maturity. Normal income tax deducted from interest.

2. Auth., $30,000,000; outstanding, $29,858,000; balance reserved for No. 1 (above). Dated Jan. 1, 1889; due May 1, 1939. Int. paid at J. P. Morgan & Co., New York. Coupon, $1,000; reg., $500, $1,000, and $10,000. First lien on 664.50 miles, as follows: Newport News via Richmond and Mineral to Kenova, Ky., 502.80 miles; Coalburg to Acme, W. Va., 14.60 miles; Ashland to Covington, Ky., 143.70 miles; Hawk's Nest to Ansted, W. Va., 3.40 miles; also in effect a first lien on bridge from Covington to Cinn., with approaches, 1.80 miles, being a first collateral lien on all the bonds and $1,479,000 out of $1,500,000 stock of the Covington & Cincinnati Elevator R.R. & Bridge Co.; also a second lien on 10 miles covered by No. 1 (above). Underlie Nos. 7, 12, 20 and 21, with provision by No. 7 to retire at maturity. Listed on New York and London Stock Exchanges. Interest paid without deduction for normal income tax.

3. Auth. and outstanding, $6,000,000. Dated Jan. 20, 1890; due Jan. 1, 1989. Int. at J. P. Morgan & Co., New York. Coupon, $1,000. First lien on 242.03 miles as follows: Richmond to Clifton Forge, Va., 229.90 miles; Loch Laird to East Lexington, Va., 10.50 miles; branches, 1.66 miles. Underlie Nos. 4, 7, 20 and 21. Listed on New York Stock Exchange. Interest paid without deduction for normal income tax.

REFERENCE NOTES ON BOND ISSUES (Continued)

4. Auth. and outstanding, $1,000,000. Dated Jan. 20, 1890; due Jan. 1, 1989. Int. at J. P. Morgan & Co., New York. Coupon, $1,000. Second lien on 242.03 miles covered by No. 3 (above). Underlie Nos. 7, 12, 20 and 21. Listed on New York Stock Exchange. Interest paid without deduction for normal income tax.

5. Auth. and outstanding, $650,000. Dated May 29, 1890; due July 1, 1940. Int. paid at 71 Braodway, New York. Coupon, $1,000. First lien, 26.40 miles, Eagle Mountain to Newcastle, Va. Underlie Nos. 7, 12 20 and 21, with provision by No. 7 to retire at maturity. Listed on New York Stock Exchange. Interest paid without deduction for normal income tax.

6. Auth. and outstanding, $400,000. Dated Nov. 10, 1890; due March 1, 1941. Int. paid at J. P. Morgan & Co., New York. Coupon, $1,000. First lien, 24.70 miles, Covington to Hot Springs, Va. Underlie Nos. 7, 12, 20 and 21, with provision by No. 7 to retire at maturity. Listed on New York Stock Exchange. Interest paid without deduction for normal income tax.

7. Auth., $70,000,000, and $25,000 per mile; outstanding, $48,129,000. Dated Feb. 23, 1892; due March 1, 1992. Int. paid at J. P. Morgan & Co., New York. Coupon, $1,000; reg., $1,000 and $10,000. First lien on 438.67 miles, as follows: New Canton to Rosney, Va., 20.47 miles; Prince to Jenny's Gap, W. Va., 27.50 miles; Acme to Lawson and Republic, W. Va., 30.30 miles; Barboursville to Ethel, W. Va., 71.60 miles; Denton to Lexington, Ky., 102.70 miles; Mount Sterling to Rothwell, Ky., 19.80 miles; Ashland to Whitehouse, Ky., 58.50 miles; Garrison to Carter City, Ky., 19.80 miles; Thurmond to Hawk's Nest, W. Va., 18.30 miles; Gauley to Greenville, W. Va., 71.70 miles; various branches, 39.30 miles. Also a second lien on 801.50 miles, which is covered by first lien by Nos. 2, 5, 6 and 10 (which see). Also a third lien on 252.03 miles, which is covered by first and second lien by Nos. 1, 3 and 4 (which see above). Also a first collateral lien on miscellaneous securities of a par value of $46,000. Underlie Nos. 12, 20 and 21. Listed on New York and London Stock Exchanges. Interest paid without deduction for normal income tax.

8. Auth., $3,000,000; outstanding, $1,782,000. Dated Nov. 1, 1900; due Nov. 1, 1940. Int. paid at J. P. Morgan & Co., New York. Coupon, $1,000. Assumed by C. & O. Ry. Sinking fund, 1% of bonds outstanding annually to be purchased at 105 or less. First lien, 100.80 miles, Whitcomb to Winterburn, W. Va. Underlie Nos. 12, 20 and 21. Listed on New York Stock Exchange. Interest paid without deduction for normal income tax.

9. Auth., $750,000; outstanding, $539,000. Dated Feb. 1, 1905; due Feb. 1, 1945. Int. at J. P. Morgan & Co., New York. Coupon, $1,000. First lien, 22.90 miles, Paint Creek Junc. to Manhan, W. Va. Underlie Nos. 12, 20 and 21. Interest paid without deduction for normal income tax.

10. Auth., $5,000,000; outstanding, $4,618,000. Dated June 1, 1904; due June 1, 1944. Int. at J. P. Morgan & Co., New York. Coupon, $1,000. Assumed by C. & O. Ry. Sinking fund, 1% per annum of outstanding bonds to be retired at 105 or better but not called. Guar. prin. and int. by endorsement of C. & O. Ry., but now assumed. First lien, 86.10 miles, including from Whitehouse to Elkhorn City, Ky., and branch. Underlie Nos. 7, 12, 20 and 21. Listed on New York Stock Exchange. Interest paid without deduction for normal income tax.

11. Auth., $1,000,000; outstanding, $600,000. Dated July 1, 1906; due July 1, 1946. Int. paid at 71 Broadway, New York. Coupon, $1,000. First lien, 20.10 miles; Covington to Bess, Va. Underlie Nos. 12, 20 and 21. Listed on New York Stock Exchange. Interest paid without deduction for normal income tax.

12. Auth., $30,000,000; outstanding, $3,698,000. Dated Jan. 2, 1909; due Jan. 1, 1929. Int. paid at 71 Broadway, New York. Coupon and reg., $1,000. Callable at 107½ and int. on twelve weeks' notice. First lien on 4.20 miles of terminal mileage in Lexington, Ky.; second lien on 743.77 miles (of which 18.40 miles are considered second track), covered by first lien by Nos.7, 8, 9, 11, 14, 15 and 16; third lien on 801.50 miles covered by second lien by No. 7; fourth lien on 252.03 miles covered by third lien by No.7; also a first collateral lien on the entire stock of the Norfolk Terminal Transfer Co., and a second collateral lien on securities covered by No. 2 by first collateral lien. Underlie Nos. 20 and 21. Listed on New York Stock Exchange. Interest paid without deduction for normal income tax.

13. Auth., $900,000; outstanding, $820,000. Dated Oct. 1, 1888; due Oct. 1, 1938. Int. paid at J. P. Morgan & Co., New York. Coupon and reg., $1,000. First lien on grain elevator at Newport News. Guaranteed prin. and int. by Ches. & Ohio Ry. Co. by endorsement. Normal income tax deducted from interest.

14. Auth., $3,000,000; outstanding, $2,809,000. Dated June 1, 1905; due June 1, 1945. Int. paid at J. P. Morgan & Co., New York. Coupon, $1,000. Assumed by C. & O. Ry.; bonds also bear guaranty. Sinking fund, 1% of outstanding bonds annually to be retired at par or better, but not called. First lien, 95.10 miles; St. Albans to Helen, and Sproul to Seth, W. Va. Underlie Nos. 20 and 21. Listed on New York Stock Exchange. Interest paid without deduction for normal income tax.

15. Auth., $1,500,000; outstanding, $857,000. Dated July 1, 1906; due July 1, 1936. Int. at 71 Broadway, New York. Coupon, $1,000. Assumed by C. & O. Ry; bonds also bear guaranty. Sinking fund, 1% of outstanding bonds to be retired annually at par or better, but not called. First lien, 36.40 miles, Piney Creek Branch at Raleigh, W. Va., along Piney, Blade, and Beaver Creeks. Underlie Nos. 12, 20 and 21. Interest paid without deduction for normal income tax .

16. Auth. and outstanding, $900,000. Dated May 1, 1907; due May 1, 1952. Int. paid at 71 Broadway, New York. Callable at 110 and int., on four weeks' notice. Coupon, $1,000. Sinking fund, $7,000 per annum to purchase bonds at 110 or better, but not called. Assumed by Ches. & Ohio Ry. First lien, 29.80 miles, Lindsay to Strathmore, Va. Underlie Nos. 12, 20 and 21. Interest paid without deduction for normal income tax.

17. Auth. and outstanding, $500,000. Dated Feb. 1, 1898; due Feb. 1, 1948. Int. paid at J. P. Morgan & Co., New York. Coupon, $1,000. Prin. and int. guar. by C. & O. Ry. by endorsement. First lien on terminal property at Norfolk, Va. Interest paid without deduction for normal income tax.

18. Auth. and outstanding, $750,000. Dated Aug. 1, 1905; due Aug. 1, 1945. Int. paid at J. P. Morgan & Co., New York. Coupon, $1,000. Callable at 105 and int. on four weeks' notice. Sinking fund, $9,000 annually to buy bonds at 105 or better, but not to be called. Guar. prin. and int. by C. & O. Ry. by endorsement. First lien on about 27,000 acres of coal lands in W. Va., and on coal in about 670 additional acres. Interest paid without deduction for normal income tax.

19. Auth. and outstanding, $1,000,000. Dated Oct, 1, 1915; due Oct. 1, 1945. Int. paid at company's office in New York. Coupon, $1,000; reg., $1,000 and multiples. Callable, as a whole at 105 on sixty days' notice. Guaranteed prin. and int. by C. & O. Ry. by endorsement. First lien on 29.80 miles, from Edgington, Ky., to Waverly, O., and bridge over Ohio River (under construction). Normal income tax deducted from interest.

20. Auth., $37,200,000; outstanding, $31,390,000. Dated Feb. 1, 1910; due Feb. 1, 1930. Int. paid in New York and London. Coupon, $1,000. Callable on and after Feb. 1, 1915, at 102½ and int., on ninety days' notice. Convertible into common stock at par until Feb. 1, 1920, unless called for redemption, in which case they will be convertible up to and including the second day of Jan. or July next preceding the redemption date. A direct obligation, jointly secured with No. 21 (below), on 1,729.80 miles, being a second lien on 4.20 miles; third lien on 671.87 miles; fourth lien on 801.70 miles; fifth lien on 252.03 miles. As long as any of these bonds remain outstanding, no more of No. 12 shall be issued, and the company agrees that it will not, prior to Feb. 2, 1920, issue any stock having preference over the present common stock, nor pay stock dividends. These bonds were issued to pay for a majority of the stock of the Hocking Valley Ry., a half-interest in the stock of the Kanawha & Michigan Railway, for the acquisition of the Chicago, Cincinnati & Louisville Railway (now merged), and for betterments, improvements, etc. Listed on New York and London Stock Exchanges. Interest paid without deduction for normal income tax.

21. Auth., $125,000,000; issued, $47,265,000, of which $45,920,000 are pledged under No. 22, and balance in treasury. Dated Dec. 1, 1910; due Dec. 1, 1930. Int. paid in New York. Coupon, $100, $500 and $1,000; reg., $50, $1,000, etc. Int. rate not to exceed 5%. No. 20 is now equally secured with this issue on 1,729.80 miles. Total mileage covered, 1,842.60 miles, of which 40.90 is first lien, 4.20 is second lien, 743.77 is third lien, 801.70 is fourth lien, and 252.03 miles is fifth lien. Also covers valuable collateral of a par value of $47,148,540. Interest paid without deduction for normal income tax.

22. Auth. and outstanding, $40,180,000. Dated April 1, 1916; due April 1, 1946. Int. paid at company's office in New York. Coupon, $500 and $1,000; reg., $500, $1,000, etc., interchangeable. Callable as a whole at 105 before April 1, 1929, thereafter at par, on sixty days' notice. Convertible into common stock to April 1, 1920, at 75, 1920 to 1923 at 80, 1923 to 1926 at 90, 1926 to April 1, 1936, at par. If called conversion privilege terminates thirty days prior to redemption date. Secured by deposit of $45,920,000 of No. 21, which may be withdrawn in proportion as bonds are converted. Maturity date of this security may be extended to not later than April 1, 1946. Listed on New York Stock Exchange. Normal income tax deducted from interest.

23. In several series as follows: Series N, 4½s, dated June 15, 1914; due $85,000 s. a. to June 15, 1924; int. paid June and Dec. 15, in New York and Philadelphia; coupon, $1,000; now outstanding, $1,275,000; Series O 4½s; dated Jan. 15, 1916; due $158,000 s. a. to Jan. 15, 1926; int. paid Jan. and July 15, in New York and Philadelphia; coupon, $1,000; callable at 102 on sixty days' notice; now outstanding, $2,844,000. Normal income tax deducted from interest on both series.

TABLE E.—Stock Record and Ratings (Based on 10-Year Results, Per Mile of Road)

Name and Details of Issue.	Rate and Date Dividends.	Amount Outstanding per Mile.	Average Income Available per Mile.	Dividend Required per Mile of System.	Factor of Safety.	Basis for Rating.		Net Rating.
						Equity.	Salability.	
Chesapeake & Ohio Ry. Stock. . . . . Full voting power. Par $100 Outstanding, $62,797,000.	See text	$26,441	$1,879	$1,058*	44%	Large	High	B.

* For 4%.

Note: "Average income available" on stock issues is the average surplus, after deducting all fixed and other charges for the ten years ending June 30, 1916. "Dividend requirement" is the requirement, at the current rate, on the present amount outstanding. For Key to Stock Ratings, see pages 21 to 23.

Note: Stock auth., $155,000,000; par $100. Of this amount sufficient is reserved for conversion of the convertible bonds of the company, and can be used for no other purpose. No issue of preferred stock can be created, and no stock dividends can be paid. Dividends in cash have been paid as follows: 1889 to 1908, 1% per annum; 1909, 3%; 1910, 4¾%; 1911 and 1912, 5% each; 1913, 1¼% quarterly to June 30, 1913; Sept. and Dec., 1913, 1% each, Mar. and June, 1914, 1% each; Dec., 1914, 1%. Paid 2% in Dec., 1916. Transfer Agent, J. A. Kelly, 71 Broadway, New York. Listed on New York and London Stock Exchanges.

COMPANIES CONTROLLED BY CHESAPEAKE & OHIO RAILWAY

CINCINNATI INTER-TERMINAL RAILROAD

Incorporated under laws of Ohio, Dec. 20, 1902; first in operation in 1907. Property consists of 6 miles of terminal trackage in Cincinnati and is operated for the joint use of the Chesapeake & Ohio Ry. and the Louisville & Nashville R.R., to make connection with the terminals of the Cincinnati, Hamilton & Dayton R.R. Company is controlled by the Chesapeake & Ohio through the Covington & Cincinnati Elevated R.R. & Transfer & Bridge Co., the latter owning all the common stock, and its own stock being owned by the Chesapeake & Ohio Ry.

Management: Officers: Geo. W. Stevens, Pres.; Decatur Axtell, Vice-Pres.; Carl Remington, Sec.; Jas. Steuart MacKie, Treas. Directors: Geo. W. Stevens, Decatur Axtell, A. Trevvett, John Galvin, Thornton Lewis, L. E. Osborn, F. M. Whitaker. Annual meeting, second Tuesday in Jan. Office, Cincinnati, Ohio.

Capital Stock: Auth., $1,000,000 4% cumulative preferred and $10,000 common; outstanding, $825,000 preferred and all the common; par $100. All common stock is owned by Covington & Cincinnati Elevated R.R. & Transfer & Bridge Co., and $34,500 preferred is owned by Chesapeake & Ohio R.R. Preferred stock has no voting power and is a mortgage on the property. It is callable at 105 on any dividend date. The 4% dividends (semi-annual, Feb. 1 and Aug. 1) are guaranteed by the Covington & Cincinnati Elevated R.R. & Transfer & Bridge Co.

KANAWHA BRIDGE AND TERMINAL COMPANY

Incorporated under laws of West Virginia in 1907. Company owns a bridge over Kanawha River at Charleston, West Virginia, over which the lines of the Chesapeake & Ohio and the Kanawha & Michigan Rys. make connection. Company is controlled through ownership of entire stock by Chesapeake & Ohio Ry. Co.

Management: Officers: Geo. W. Stevens, Pres.; Carl Remington, Sec.; Jas. Steuart MacKie, Treas., New York. Main Office, Richmond, Va.

Comparative Income Account, Years Ended June 30

	1916	1915	1914	1913

Surplus	$10,171	(def.) $1,728	(def.) $1,924	$3,857

Bonded Debt: $485,000 Kanawha Bridge & Terminal Co. first 5s; dated Aug. 1, 1908; due Aug. 1, 1948; int. paid A. & O. 1 at Fidelity Trust Co., Phila. Coupon, $1,000. Callable at 105 after April 1, 1916. Sinking fund, $3,000 per annum from 1913 to 1917; $5,000 per annum from 1918 to 1927; $7,500 per annum from 1928 to 1937; $10,000 per annum thereafter to maturity. First lien on entire property. Interest paid without deduction for normal income tax. Rating Ba.

Capital Stock: Auth. and issued, $400,000; par $100. All owned by Chesapeake & Ohio Railway Co.

THE HOCKING VALLEY RAILWAY COMPANY

NOTE: The analysis is based on official documents of the Company, including its annual report of the past ten years.

For Definitions and Key to Ratings, see pages 19-26.

Origin: Successor in 1899 of Columbus, Hocking Valley & Toledo Railway. In 1889, the Middle States Construction Co. acquired nearly all the capital stock of the Toledo & Ohio Central Ry., and issued $8,421,000 collateral-trust bonds on these shares, which were acquired by the Hocking Valley Ry. The control of the Toledo & Ohio Central involved the control, also, of the Kanawha & Michigan and the Zanesville & Western Rys. In 1909 the Ohio Lower State Court held this control illegal, and after July, 1909, the Toledo & Ohio Central was operated independently, and in March, 1910, was sold to the Lake Shore & Mich. Southern. The Hocking Valley and Toledo & Ohio Central interests also controlled the output of the Continental Coal Co., owning and operating over 30,000 acres of coal lands in Athens, Hocking, and Perry counties, Ohio. Controls the Buckeye Coal & Ry. Co., the Ohio Land & Ry. Co., and the Sunday Creek Co. In 1916 these coal company holdings were sold as a result of an anti-trust suit brought by the Government.

Location: A "soft-coaler." Main lines extend from Toledo, Ohio, through Columbus to Pomeroy, with branches; 321.2 miles; leased lines, 22.4 miles; joint trackage, 6.6 miles; total operated, 350.2 miles. Population of Ohio in 1890, 3,672,316; in 1900, 4,157,545; in 1910, 4,767,121.

Control: A majority of the common stock of the Hocking Valley Ry. was owned by the following five railroad companies: Pittsburgh, Cinn., Chic. & St. Louis (Penna. system), Baltimore & Ohio, Chesapeake & Ohio, Erie, and Lake Shore & Michigan Southern (N. Y. Central system). In March, 1910, the Chesapeake & Ohio bought all these holdings, and now owns $8,825,800 out of a total of $11,000,000 capital stock.

Management: OFFICERS: Frank Trumbull, Chairman; George W. Stevens, Pres.; Decatur Axtell, 1st Vice-Pres.; F. M. Whitaker, 2d Vice-Pres.; M. P. Caples, 3d Vice-Pres.; Carl Remington, Sec.; James Steuart MacKie, Treas., New York. DIRECTORS: Samuel P. Bush, R. S. Warner, Clarence Brown, Henry E. Huntington, F. J. Reynolds, George W. Stevens, Frank Trumbull, Martin J. Caples, C. E. Graham, Francis R. Huntington, Jeremiah Milbank, Jerome B. Zerbe, Frank H. Davis. Annual meeting, first Tuesday in October. MAIN OFFICE, Columbus, Ohio. NEW YORK OFFICE, 71 Broadway.

Classification of Freight Tonnage (Years Ending June 30)

	1907	1908	1909	1910	1911	1912	1913	1914	1915	1916
Products of Agriculture	3.24%	3.28%	3.08%	2.55%	3.26%	3.82%	2.88%	3.86%	5.5%	3.6%
Products of Animals	.24	.30	.34	.28	.34	.46	.45	.54	.6	.4
Products of Mines	75.14	77.40	76.92	80.32	79.67	80.35	79.78	78.04	77.0	79.3
Products of Forests	4.54	4.03	3.91	3.63	3.58	3.71	3.78	3.82	3.2	2.7
Manufactures and Miscel.	16.94	14.99	15.75	13.22	13.15	11.66	13.11	13.74	13.7	14.0

Total revenue tonnage in 1909, 8,034,510 tons; in 1910, 11,191,476 tons; in 1911, 9,792,066 tons; in 1912, 10,292,971 tons; 11,178,636 tons in 1913; 10,487,048 in 1914; in 1915, 9,113,539; in 1916, 11,758,651 tons.

This being one of the leading soft-coal properties, the chief single item of tonnage is soft coal. In 1912, 7,624,000 tons were transported; 7,887,906 tons in 1913; 7,267,521 in 1914; 6,212,429 in 1915; 8,267,309 in 1916.

TABLE A.—Physical Factors (Mileage, Equipment and Operation)

10-Year Average	350	52	151	88	14,653	81%	140,163	3,581,639	802	$2.80	1.73c	.45c

Yard tracks and sidings, owned and leased, June 30, 1916, 308.09 miles. Weight of rails in main track, 67 to 100 lbs.

Comment: Operating results on the Hocking Valley Railway for the year ended June 30, 1916, were very gratifying. The freight density rose to a higher figure than ever in the history of the company, while the freight train load was also still further increased. It will be noted that notwithstanding the tendency of the average freight rates to decline, the company has steadily in recent years increased its train mile earnings, and in 1916, the average reached was unusually high. As has been the case for many years, the property depends mainly on soft coal for its tonnage, and in the year just closed this item of freight represented more than 79% of the total business done.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ended June 30.	Gross Revenues.	Maintenance. Way.	Maintenance. Equipment.	Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.
1907	$19,905	$2,324	$4,300	$6,624	$6,287	$6,994	$8,673	$661	$8,012	$2,745	66%	$5,267	$2,680

1911	20,492	2,398	3,213	5,611	7,530	7,351	9,537	987	8,550	3,313	61	5,237	1,257
1912	20,808	2,431	3,397	5,828	7,218	7,762	9,740	1,180	8,560	3,344	61	5,216	2,191
1913	22,273	2,225	4,545	6,770	7,429	8,074	10,274	1,362	8,912	3,452	61	5,460	3,604
1914	19,942	1,899	4,150	6,049	7,598	6,299	7,666	1,282	6,384	3,664	43	2,720	2,500
1915	17,560	2,009	3,292	5,301	6,586	5,673	6,816	1,189	5,627	4,221	25	1,406	1,250
1916	21,114	2,075	5,168	7,243	6,870	7,001	9,986	1,429	8,557	4,983	42	3,574	1,254
10-Year Average	$19,770	$2,172	$3,932	$6,104	$6,829	$6,837	$9,048	$1,024	$8,024	$3,578	54%	$4,446	$2,351

Note: Above table is based on average mileage directly operated each year, whether owned or otherwise controlled. Margin of safety is the proportion of surplus remaining after payment of fixed charges. For example, in 1916 the "balance for charges" (per mile) was $8,557; fixed charges amounted to $4,983 per mile, or 58%, leaving a surplus of $3,574 per mile, or 42%.

Comparative Income Account, Years Ended June 30

	1916	1915	1914	1913	1912	1911	1910

* Dividend paid from Profit and Loss Account in 1916.

Note: Total net income includes interest and dividends on securities owned, etc., as well as operating profits. Fixed charges include interest on debt, rental of leased lines, etc.

Profit and Loss Account, year ended June 30, 1916: Credit balance, June 30, 1915, $6,973,781; credit balance transferred from income, $1,081,766; profit on road and equipment sold, $6,040; miscellaneous credits, $756; total, $8,062,343. Contra: Dividend appropriations of surplus, $439,980; debt discount extinguished through surplus, $75,062; loss on retired road and equipment, $15,849; miscellaneous debits, $501,822; credit balance carried to balance sheet, $7,029,630; total, $8,062,343.

Comment: The income statement of the Hocking Valley Railway for the year ended June 30, 1916, reflected very great improvement, although the figures did not reach those of the unusual year 1913. However, the outside income of the property greatly expanded in 1916, and therefore the surplus available for charges was almost at the highest level ever reached. Fixed charges tended to increase to some extent and therefore the final surplus was not as good as a few years ago, but nevertheless exceeded 11% on the outstanding capital stock. The company therefore had no difficulty in disbursing the usual dividend of 4%.

Total	$48,114,560	$47,914,979	$50,628,649	$47,742,284	$47,074,448	$46,247,392

Note: In working assets in 1916 was included $554,481 in cash.

Comment: There was a considerable increase in the bonded debt of the Hocking Valley Railway for the fiscal year 1916. The total capitalization of the property as measured on the mileage basis is now much higher than in recent years, but the earning power of the company is such as to enable the company to carry this high capitalization. It will be noted in 1916 the net income on net capital was 9½%.

REFERENCE NOTES ON BOND ISSUES

1. Auth., $1,500,000; outstanding, $1,401,000 (closed). Dated Oct. 1, 1867; due Oct. 1, 1948. Int. paid at J. P. Morgan & Co., New York. Coupon, $500 and $1,000. First lien, 116.60 miles, Columbus to Athens, O., and branches. Underlie No. 3, which provide for retirement. Legal for Savings Banks in Maine, Mo. Listed on New York Stock Exchange. Interest paid without deduction for nomal income tax.

2. Auth., $2,500,000; outstanding, $2,441,000 (closed). Dated Aug. 1, 1875; due Aug. 1, 1955. Int. paid J. P. Morgan & Co., New York. Coupon, $1,000. First lien, 118 miles, Columbus to Walbridge, O Underlie No. 3, which provide for retirement. Legal for S. B. in Maine, Mo. Listed on New York Stock Exchange. Interest paid without deduction for normal income tax.

3. Auth., $20,000,000; outstanding, $16,025,000; retired by sinking fund, $131,000; reserved for Nos. 1 and 2, $3,842,000. Dated July 1, 1899; due July 1, 1999. Int. paid at J. P. Morgan & Co., New York. Coupon, $1,000; reg., $1,000, etc. Direct lien on entire mileage owned, subject to above prior mortgages, to retire which sufficient of the issue are reserved, being a first lien on 88.80 miles from Logan to Pomeroy, O., and on 10,015 acres of coal lands. Secured by a joint mortgage of the Railway and the Buckeye Coal & Railway Co., whereby they are a lien on the coal lands owned by the latter. Additionally secured by deposit of $249,500 capital stock of the Buckeye Coal & Ry. Co., $200,000 capital stock of the Boston Coal Dock & Wharf Co.; $3,236,300 stock of the Sunday Creek Co., $255,000 stock and all the bonds of the Wellston & Jackson Belt Ry. Co.; $200,100 stock and $1,387,000 bonds of the Ohio Land & Ry. Co. Sinking fund provides that the Buckeye Coal & Ry. Co. shall pay to the Hocking Valley Ry. Co. two cents per ton on all coal mined from the lands of the former, to be employed in purchasing bonds at 105 and int.; bonds so purchased to be canceled. Legal for S. B. in Conn., Maine, Mich., Minn., N. H., N. J., R. I., Wis. Listed on New York Stock Exchange. Interest paid without deduction for normal income tax.

Note: Pursuant to court order in the government's anti-trust suit against the company, various coal company holdings, including the Sunday Creek Co., the Buckeye Coal & Ry. Co., and the Ohio Land & Ry. Co. have been sold.

4. Auth. and outstanding, $4,000,000. Dated Nov. 1, 1915; due Nov. 1, 1917. Int. May and Nov. 1 at company's office, New York. Coupon, $1,000. Callable at 101 on May 1, 1916. Not a mortgage, but no new mortgage can be created without making these bonds a prior lien thereto. Normal income tax deducted from interest.

5. Series A, 4s; dated Feb. 1, 1907; due $23,000 each F. and A. 1 to Feb. 1, 1917; now outstanding, $23,000. Int., F. and A. 1. First lien on equipment costing $573,000. Series A-T (No. 2) 4s; dated Feb. 15, 1907; due $48,000 each F. and A. 15 to Feb. 15, 1917; now outstanding, $48,000. Int. F. and A. 15, at Lincoln Trust Co., N. Y. First lien on equipment costing $1,200,000. Series C. 4s; dated Apr. 1, 1907; due $37,000 each A. and O. 1 to Apr. 1, 1917; now outstanding, $37,000. Int. A. and O. 1, at Merchants Trust Co., Chicago. First lien on equipment costing over $800,000. Equip. 4s, dated Aug. 1, 1907; due $25,000 each F. and A. 1 to Aug. 1, 1917; now outstanding, $50,000. Int. F. and A. 1, at Empire Trust Co., New York. First lien on equipment costing $600,000. Equip. 4½s, dated Feb. 15, 1908; due $25,000 each F. and A. 15 to Feb. 15, 1918; now outstanding, $75,000. Int. F. and A. 15, at Guaranty Trust Co., N. Y. First lien on equipment costing $617,000. Equip. 5s, dated Aug. 1, 1913; due $100,000 annually to Aug. 1, 1923; now outstanding $700,000. Int. paid F. and A. First lien on equipment costing $1,250,000. Equip. 4½s, dated Feb. 2, 1914; due $80,000 annually to Feb. 1, 1924; now outstanding, $640,000. Int. paid F. and A. 1, in New York and Phila. First lien on equipment costing $940,000. All issues coupon, $1,000. Interest paid without deduction for normal income tax. Total now outstanding of all series, $1,573,000.

Note: This Company, jointly with the Toledo & Ohio Central Railway Company, guaranteed in 1901 5% first mortgage bonds of The Kanawha and Hocking Coal & Coke Company due 1951 ($3,013,000 outstanding), and in 1902 5% first mortgage bonds of The Continental Coal Company due 1952 ($2,061,000 outstanding). The Ohio courts, in *quo warranto* proceedings, in which bondholders were not represented, have pronounced these guarantees *ultra vires*. These two issues defaulted on interest payments on July 1, 1915. (See statement of Toledo & Ohio Central Ry.) In Dec., 1916, the New York Central R.R. arranged to pay off both these issues at par and interest.

Investment Position of Bonds: The three mortgages on the Hocking Valley system are all unusually secure, having been protected for years by a large margin of safety and also being backed up by heavy equities in property. The highest investment rating is therefore given each issue.

TABLE E.—Stock Record and Ratings (Based on 10-Year Results, Per Mile of Road)

Name and Details of Issue.	Rate and Date Dividends.	Amount Outstanding per Mile.	Average Income Available per Mile.	Dividend Required per Mile of System.	Factor of Safety.	Basis for Rating.		Net Rating.
						Equity.	Salability.	
Hocking Valley Ry. common . . . . . Par $100. Outstanding, $11,000,000.	8% Qu M See text	$31,339	$4,446	$1,254*	72%	Large	High	A.

* For 4% dividend.

Note: "Average income available" on stock issues is the average surplus, after deducting all fixed and other charges, for the ten years ending June 30, 1916. "Dividend requirement" is the requirement, at the current rate, on the present amount outstanding. For Key to Stock Ratings, see pages 21 to 23.

REFERENCE NOTE ON STOCK ISSUE

Auth. and outstanding, $11,000,000; par $100. The Chesapeake & Ohio owned, on June 30, 1916, $8,825,800 of the total issue. Dividends have been paid as follows in recent years: 1901 to 1906, 3% per annum; July, 1907, 2%; 1908 to 1910, 4% per annum; 1911, 5%; 1912, 7½%; 1913, June 28, paid 4½% extra to make full 7% from Jan. 1910; since, rate has been 2% each three months, or 8% per annum until 1915 when only 4% was paid; 1916, 4%. Transfer Agent, J. P. Morgan & Co., New York. Listed on New York Stock Exchange.

COMPANIES LEASED AND OPERATED BY HOCKING VALLEY RAILROAD

POMEROY BELT RAILWAY

Incorporated under Ohio laws, Sept. 30, 1909; road opened in 1911. Owns 4 miles in Pomeroy, Ohio. Leased for 99 years from Nov. 1, 1909, by Hocking Valley Ry., annual rental being $8,500; 5% interest on further investment for additions and improvements, and an amount equal to interest on any further obligations issued.

Management: Officers: Geo. W. Stevens, Pres.; M. J. Caples, Vice-Pres.; Wm. N. Cott, Sec. and Treas.; F. D. Hodgson, Auditor. Directors: Above and M. S. Connors. Annual meeting, first Tuesday in October. Office, Columbus, Ohio.

Income Account, year ended June 30, 1916: Gross income, $13,702; interest, $13,823; deficit for year, $121.

Bonded Debt: $150,000 Pomeroy Belt Ry. first 5s; dated Nov. 1, 1909; due Nov. 1, 1929; int. paid May and Nov. 1, at Columbus, O. Coupon, $1,000. First lien on entire property. Interest guaranteed under lease by Hocking Valley Ry. Normal income tax deducted from interest. Rating, Baa.

Capital Stock: Auth. and outstanding, $150,000; par $100. The Hocking Valley Ry. Co. owns $145,000.

WELLSTON & JACKSON BELT RAILWAY

Incorporated under laws of Ohio, Jan. 22, 1895; operations began March 1, 1896. Line of road: Dundas to Jackson, O., and branches, 18.4 miles. Leased to Hocking Valley Ry. for 99 years from Jan. 1, 1900, rental being equivalent to interest on bonds and 4½% on all advances made for improvements, etc.

Management: OFFICERS: Geo. W. Stevens, Pres.; M. J. Caples, Vice-Pres.; W. N. Cott, Sec. and Treas.; F. D. Hodgson, Audt. DIRECTORS: M. S. Connors, W. N. Cott, M. J. Caples, Geo. W. Stevens, R. S. Warner, Columbus, O. Annual meeting, first Tuesday in October. OFFICE, Columbus, Ohio.

Income Account, year ended June 30, 1916: Gross income, $26,488.02; interest, $26,488.02.

Bonded Debt: $300,000 Wellston & Jackson Belt Ry. first 6s; dated Aug. 1, 1895; due Aug. 1, 1915; int. paid Feb. and Aug. 1 at Guaranty Trust Co., New York. Coupon $1,000. Interest guaranteed under lease by Hocking Valley Ry., which owns all the bonds.

Capital Stock: Auth. and outstanding, $255,000; par $100. All owned by Hocking Valley Ry. Co.

CHICAGO, BURLINGTON & QUINCY RAILROAD COMPANY

NOTE: The analysis is based on official documents of the Company, including its annual report of the past ten years.
For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated as Aurora Branch R.R., Feb. 12, 1849; name changed to Chicago & Aurora R.R., June 22, 1852; changed to present title, Febrary 14, 1855. The original line extended from Chicago to Mendota and Aurora, Ill., additional mileage being acquired by purchase, consolidation, and otherwise from time to time until the property has grown to the present great system. Since the consolidation of 1875, when various lines were absorbed, the company has merged the Chicago, Burlington & Northern, Kansas City, St. Joseph & Council Bluffs, Hannibal & St. Joseph, Burlington & Missouri River, etc. In December, 1903, a majority of the common and a portion of the first and second preferred stock of the Colorado & Southern Railway was acquired. Also owns entire capital stock of the Quincy, Omaha & Kansas City R.R., which is separately operated.

Location: Directly operated lines on June 30, 1916, consisted of 9,369.04 miles, of which 9,015.73 miles were owned and 353.31 leased. The system extends from Chicago westward to St. Paul, Kansas City, Denver, Cheyenne, St. Louis, etc., with numerous branches radiating throughout the States of Illinois, Iowa, Missouri, Kansas, Nebraska, Wisconsin, Colorado, South Dakota, Wyoming and Montana. Population of these States in 1890, 14,518,491; in 1900, 17,080,658; in 1910, 19,238,145.

Control: In 1901 nearly all the capital stock of this company was acquired in the interest of the Great Northern and the Northern Pacific Railroad companies, being exchanged at the ratio of two for one, for 20-year 4 per cent. joint bonds of these companies, the bonds being secured by the deposit of the stock. There are now outstanding $215,227,000 of these bonds, which are secured by deposit of $107,613,500 stock collateral, out of the total stock outstanding of $110,839,100. These bonds, which are commonly known as the "C. B. & Q. joint 4s," are not an obligation of the Chicago, Burlington & Quincy Railroad. They are a joint obligation of the two roads owning the stock, and have been provided for in the new refunding mortgage created by the Great Northern Railway some years ago.

Management: OFFICERS: George B. Harris, Chairman of Board; Hale Holden, Pres.; H. E. Byram, Vice-Pres.; Claude G. Burnham, Vice-Pres.; Thos. S. Howland, Vice-Pres., Sec. and Treas.; W. W. Baldwin, Vice-Pres.; E. A. Howard, Vice-Pres. DIRECTORS: Geo. D. Slade, Geo. B. Harris, Louis W. Hill, Saml. Scotten, Hale Holden, Chester M. Dawes, J. M. Hannaford, Ralph Budd, R. J. Dunham, Chas. E. Perkins, Fredk. H. Rawson. Annual meeting, first Wednesday in November. MAIN OFFICE, Chicago, Ill. NEW YORK OFFICE, 32 Nassau Street.

Classification of Freight Tonnage (Years Ended June 30)

10-Year Average	9,125	756	1,706	1,235	62,048	68%	119,870	875,024	430	$2.52	1.91c	.76c

Note: Yard tracks and sidings, June 30, 1916, 3,038 miles.

Comment: The Chicago, Burlington & Quincy property reported a large increase in its freight density during the fiscal year 1916. The freight train load was also raised to a new high total, and although average freight rates tended to decline slightly, the train mile earnings were far better than in the previous year. As usual the freight tonnage of the property was well diversified, and the proportion of products of mines remained about the same as in recent years.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ended June 30.	Gross Revenues.	Maintenance.		Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.

10-Year Average	$9,680	$1,446	$1,619	$3,065	$3,814	$3,353	$3,240	$363	$2,877	$1,033	63%	$1,844	$971

Note: Above table is based on average mileage directly operated for each year. "Margin of Safety" is the proportion of surplus income left over after providing for interest, sinking funds and all other charges ahead of dividends on stock. For example, in 1916 the "balance for charges" (per mile) was $4,117; fixed charges per mile amounted to $931 or 23%, leaving a final surplus of $3,186 per mile, or 77%.

Comparative Income Account, Years Ended June 30

Earned on stock	26.93%	17.18%	16%	17.53%	12.73%	15.19%	12.01%

* Gross revenues for 1916 excludes $9,548 uncollectible railway revenues.

† Outside operations included in gross revenues and expenses.

Note: Fixed charges as shown above include interest charges, rents, etc. In 1916, interest on funded debt amounted to $7,038,491, rentals $1,585,311; sinking funds, $1,817,679.

Profit and Loss Account, year ended June 30, 1916: Credit balance at beginning of year, $97,879,654; credit balance transferred from income, $6,330,102; profit on road and equipment sold, $840,298; donations, $16,690; miscellaneous credits, $753,424; total, $105,820,168. Contra: Loss on retired road and equipment, $719,198; miscellaneous debits, $12,694; credit balance carried to balance sheet, $105,088,276; total, $105,820,168.

Comment: The income record of the Chicago, Burlington & Quincy system for the fiscal year 1916, reflected a very great improvement in volume of business and profits. The total net income reached the highest figures of the decade and as there was practically no change in fixed charges, the surplus available for dividends rose to nearly 27% on the outstanding stock. As has been customary for many years the company paid the regular 8% dividend on the stock and appropriated a large proportion of its surplus earnings to improvement accounts. Since the close of the fiscal year, business has continued to expand, and at the present time the company's outlook is more brilliant than ever.

Total.....	$530,664,930	$508,855,057	$504,092,719	$484,928,952	$473,751,542	$465,504,192

Note: In the property investment account in 1916 were included, in par value, $31,013,614 of securities owned. The Sinking Fund assets of the company on June 30, 1916, embraced $23,239,063 in book value of bonds and cash. In detail, the Sinking Fund holdings were as follows: Burlington & Missouri River in Nebraska consolidated 6s due 1918, $12,770,800; Republican Valley Railroad 6s of 1919, $878,600; Chic., Bur. & Quincy Denver Extension 4s of 1922, $6,058,200; Chic., Bur. & Quincy Southwestern Extension 4s of 1921, $3,367,000. There was also in the fund, $164,463 in cash.

Comment: There were practically no changes of importance in the financial statement of the Chicago, Burlington & Quincy Railroad for the fiscal year ended June 30, 1916. As compared with its heavy earning power the road is very lightly capitalized, and it will be noted that during the past ten years the net capitalization as measured on the mileage basis has increased nominally only. The resources of the Chicago, Burlington & Quincy system are unusually large. In the last six or seven years the appropriated surplus has almost doubled, while the profit and loss surplus is now in excess of $105,000,000.

TABLE D.—Bond Record and Ratings (Based on 10-Year Results, Per Mile of Road)

Interest requirements, as above, include interest on bonds alive in sinking funds or in treasury.

Note: "Average income available" is the average net income per mile available for interest charges, after deducting taxes, for the ten years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Bond Ratings, see pages 19 to 21.

REFERENCE NOTES ON BOND ISSUES

1 and 2. Auth., $85,000,000; outstanding, $50,451,000 3½s and $33,976,000 4s. Dated July 1, 1899; due July 1, 1949. Int. paid at company's office, New York and Boston. Coupon, $1,000; reg., $5,000 and multiples. Callable at 105 after July 1, 1929, on six months' notice. First lien on terminal property in Chicago, St. Paul, Minneapolis, Burlington, Clinton, Dubuque, Winona, East St. Louis and Quincy, and also on 1,646.86 miles as follows: Chicago to Burlington, 204.04 miles; Galesburg to Quincy, 99.91 miles; S. Aurora, Ill., to St. Paul, 379.66 miles; Rock Island to East Alton, 226.68 miles; Montgomery to Streator, Ill., 57.55 miles; Streator to Walnut Junc., 59.52 miles; Mendota to Savanna, 81.41 miles; Buda to Elmwood, Ill., 44.82 miles; Yates City to Rushville, Ill., 62.79 miles; Galva to New Boston, 50.63 miles; Galesburg to Peoria, 52.77 miles; Carthage Junc. to Quincy, 71.21 miles; Quincy to E. Louisiana and E. Hannibal, Mo., 46.33 miles; Shabbona to Barstow, Ill., 88.42 miles; various branches, 121.23 miles. Underlie No. 12, which provide for retirement. Legal for Savings Banks in Cal., Conn., Fla., Maine, Mass., Mich., Minn., Mo., N. H., N. J., N. Y., R. I., Vt., Wis. Listed on New York and Boston Stock Exchanges. Normal income tax deducted from interest.

3 and 4. Auth., $12,502,000 4s and $3,000,000 5s; outstanding, $5,030,000 4s and $1,931,000 5s (closed). Dated Oct. 1, 1879; due Oct. 1, 1919. Int. paid at company's office, New York and Boston. Coupon, $1,000. Sinking fund, 1½% of bonds issued annually, to retire 4s at 100 and int., and 5s at 105 and int.; callable. First lien, 891.02 miles, as follows: Burlington to Pacific Junc., 270.40 miles; Red Oak to Hamburg, 39.17 miles; Chariton to Leon, 36.54 miles; Creston, Ia., to Hopkins, Mo., 44.61 miles; Leon to Grant City and Bethany Junc. to Albany, Mo., 103.28 miles; Hastings to Sidney, 21.12 miles; Villisca Junc., Ia., to Burlington Junc., Mo., 35.02 miles; Creston to Fontanelle, 30.49 miles; Knoxville to Des Moines, 32.92 miles; Albany to St. Joseph, 48.75 miles; Albia to Knoxville, Mo., 32.97 miles; Van Wert to Shenandoah, 95.34 miles; short branches, 57.79 miles. Underlie No. 12, which provide for retirement. Legal for S. B. in Cal., Conn., Maine, Mass., Mich., Minn., Mo., N. H., N. J., N. Y., R. I., Vt., Wis. Listed on New York and Boston Stock Exchanges. Normal income tax deducted from interest.

5. Auth., $4,300,000; outstanding, $3,667,000, of which $3,367,000 are held in sinking funds (alive), $157,000 are in treasury, leaving in hands of public $143,000. Dated Sept. 1, 1881; due Sept. 1, 1921. Int. paid at company's office, New York and Boston. Coupon, $1,000. Callable at par for sinking fund, which is $43,000 annually. Not secured by mortgage. Underlie No 12, which provides for retirement. Legal for S. B. in N. H., and R. I. Listed on New York and Boston Stock Exchanges. Normal income tax deducted from interest.

6. Auth., $7,968,000; outstanding, $7,310,200, of which $6,058,200 are held alive in sinking funds, and $87,900 in treasury, leaving in hands of public, $1,164,100. Dated Dec. 1, 1881; due Feb. 1, 1922. Int. paid at company's office, New York and Boston. Coupon, $1,000. Callable at par for sinking fund, which is $79,680 per annum. First collateral lien on 369.48 miles, as follows: On entire issue of Republican Valley R.R. first 5s of 1922, covering 194.61 miles from west line of Red Willow County, Neb., to west line of State; from Nemaha to Beatrice, Neb., from Nemaha to Salem, and from Table Rock to Weymore; on entire issue of Burlington & Colorado R.R. first 5s of 1922, covering 174.87 miles from west line of Nebraska to Denver, Colo., also by deposit of $540,000 out of total issue of $2,105,000 Republican Valley first 6s of 1918, covering 180.39 miles, as follows: Aurora to York, to Central City, and to Grand Island, 59.86 miles; Beatrice *via* Weymore to Red Cloud Neb., 120.53 miles. Underlie No. 12, which provide for retirement at maturity. Legal for S. B. in Cal., Conn., Mass., N. H., R. I., Vt. Listed on New York and Boston Stock Exchanges. Normal income tax deducted from interest.

7. Auth., $29,441,000; outstanding, $21,341,000, of which $314,000 are in treasury and $31,000 are pledged, leaving in hands of public, $20,996,000. Dated May 1, 1887; due May 1, 1927. Int. paid at company's office, New York and Boston. Coupon, $1,000; reg., $5,000. Sinking fund, 1% per annum of all bonds issued to purchase at not over 110 and interest; if not purchasable, funds to revert to company. First lien, 296.91 miles, as follows: Grand Island to Alliance and Hastings to Aurora; first collateral lien on 1,174.50 miles, there being deposited the entire issues or first mortgage bonds of companies owning the following mileage: De Witt *via* Strang, Blue Hill and Holdredge to west line of Nebraska, 298.32 miles; Fairmont *via* Strang to Chester, Neb., 45.19 miles; Edgar to Superior, 26.53 miles; Kenesaw to Oxford, 60.67 miles; Omaha *via* Ashland to Schuyler, 80.59 miles; Central City to Ericson, 62.96 miles; Palmer to Arcadia, 53.61 miles; Greeley Center to Burwell, 40.38 miles, west line of Nebraska to south line of Wyoming, 144.58 miles; branch to Cheyenne, 29.01 miles; Orleans to south line of Neb., 59.61 miles; extension to St. Francis, Kas., 74.18 miles; Odell, Neb., to Concordia, Kas., 71.49 miles; Republican City, Neb., to Oberlin, Kas., 78.23 miles; Culbertson to Imperial, Neb., 49.17 miles. Underlie No. 12, which provides for retirement. Legal for S. B. in Cal., Conn., Me., Mass., Mich., Minn., Mo., N. H., N. J., N. Y., R. I., Vt., Wis. Listed on New York and Boston Stock Exchanges. Normal income tax deducted from interest.

8. Auth., $14,000,000; outstanding, $13,613,000, of which $12,770,800 are alive in sinking funds, leaving in hands of public, $842,200. Dated July 1, 1878; due July 1, 1918. Int. paid at company's office, New York and Boston. Coupon, $600 and $1,000. Callable at par and int. for sinking fund, the interest on bonds already in fund being applied to redemption of further bonds. Assumed by C. B. & Q. R.R. First lien, 454.21 miles, as follows: Pacific Junc. to Kearney, Neb., 193.42 miles; Nemaha *via* Nebraska City and Lincoln to York, Neb., 136.53 miles; Hastings to west line of Franklin County, 76.34 miles; Crete to Beatrice, 31.04 miles; also on land grants. Further secured by deposit of $1,565,000 out of total of $2,105,000 Republican Valley first 6s of 1918, covering 180.39 miles; the balance of $540,000 of these bonds being deposited under No. 6 (above). Underlie No. 12, which provides for retirement. Legal for S. B. in Cal., Conn., Maine, Mass., Mich., Minn., Mo., N. H., N. J., N. Y., R. I., Vt., Wis. Listed on Boston Stock Exchange. Normal income tax deducted from interest.

9. Auth., $2,643,000; outstanding, $932,800, of which $878,600 are in sinking funds, leaving in hands of the public, $54,200. Dated July 1, 1879; due July 1, 1919. Int. paid at company's office, New York and Boston. Coupon, $600 and $1,000. Callable at par for sinking fund, the interest on those already in fund being applied for the retirement of the issue; at maturity all will be retired. Assumed by C., B. & Q. R.R. First lien, 90.47 miles, Red Willow County to west line of Franklin County, Neb. Underlie No. 12. Legal for S. B. in Cal., Conn., Maine, Mass., Mich., Minn., Mo., N. H., N. J., N. Y., R. I., Vt., Wis. Listed on Boston Stock Exchange. Normal income tax deducted from interest.

10. Auth., $30,000; outstanding, $15,000 (closed). Dated June 1, 1880; due June 1, 1920. Int. paid at Second National Bank, Boston. Sinking fund, $10,000 per annum, to call bonds at par. Assumed by C. B. & Q. R.R. First lien, 27.61 miles, from Corning, Mo., to connection with C. B. & Q. in Page County, Ia. Underlie No. 12. Legal for S. B. in Cal., Conn., Fla., Maine, Mass., Mich., Minn., Mo., N. H., N. J., N. Y., R. I., Wis. Listed on Boston Stock Exchange. Interest paid without deduction for normal income tax. Coupon, $1,000.

11. Auth., $388,000; outstanding, $9,000 (closed). Dated June 1, 1880; due June 1, 1920. Int. paid at Second National Bank, Boston. Sinking fund, $10,000 per annum to retire at par. Assumed by C. B. & Q. R.R. First lien, 31.54 miles; Bigelow to Burlington Junc., Mo. Underlie No. 12. Legal for S. B. in Cal., Conn., Fla., Maine, Mass., Mich., Minn., Mo., N. H., N. J., N. Y., R. I., Wis. Listed on Boston Stock Exchange. Interest paid without deduction for normal income tax. Coupon, $1,000.

12. Auth., $300,000,000; outstanding, $75,120,000 of which $9,873,000 are in treasury, leaving in hands of public, $65,247,000. Balance reserved for prior liens, for construction, extensions, etc. Dated Mar. 2, 1908; due Mar. 1, 1958. Int. paid at company's office, New York and Boston. Coupon, $1,000; reg., $5,000 and multiples. First lien on 3,327.31 miles, as follows: Burlington, Ia., to St. Louis, Mo., about 211 miles; Harlem, Mo., to Council Bluffs, Ia., about 190 miles; Alliance, Neb., to Huntley, Montana, 462 miles; Concord to Herrin, Ill., 175 miles; Viele, Ia., to Carrolton, Mo., 180 miles; Burlington to Tracy, Ia., 103 miles; Alexander, Mo., to Van Wert. Ia., 141 miles; Des Moines, Ia., to Gainesville, Mo., 105 miles; Ashland, Neb., to Sioux City, Ia., 103 miles; Oneil to South Sioux City, 124 miles; Hannibal *via* Cameron to Atchison, 222.41 miles; and the lines from Napier to Table Rock, Neb., Galesburg to West Havana, Ill., Mt. Pleasant to Keokuk, Ia.; Madison to Batavia, Ia.; Hopkins to Amazonia, Mo.; Sedan, Ill., to Elmer, Mo.; Old Monroe to Mexico, Mo.; Table Rock to Lancaster, Neb.; Stronberg to Alma, Neb.; Denver to Lyons and Tower, Col.; Edgemont to Englewood, S. D.; Aliance, Neb., to British City, Col.; Northport to Guernsey and Ironton, Wyo., etc., etc.; also secured by second lien on the 5,162.99 miles covered by Nos. 1, 2, 3, 4, 6, 7, 8, 9, 10, and 11 (above); also a first collateral lien on a majority of the common stock of the Colorado & Southern Railway. Legal for S. B. in Cal., Conn., Maine, Mass., Mich., Minn., N. H., N. J., N. Y., R. I., Vt., Wis. Listed on New York Stock Exchange. Normal income tax deducted from interest.

TABLE E.—Stock Record and Ratings (Based on 10-Year Results, Per Mile of Road)

Name and Details of Issue.	Rate and Date Dividends.	Amount Outstanding per Mile.	Average Income Available per Mile.	Dividend Required per Mile of System.	Factor of Safety.	Basis for Rating.		Net Rating.
						Equity.	Salability.	
Chic., Bur. & Quincy Stock..... Full voting power. Par $100.	8% Qu J	$11,832	$1,844	$947	49%	Very high	See below	**Aaa.**

Note: "Average income available" on stock issues is the average surplus, after deducting all fixed charges and other charges for the ten years ending June 30, 1916. "Dividend requirement" is the requirement at the current rate, on the present amount outstanding. For Key to Stock Ratings, see pages 21 to 23.

Note: Of the $110,839,100 outstanding, $107,613,500 owned jointly by the Northern Pacific and Great Northern Railroads and deposited under the "Joint" 4% bonds of these railroads. Dividends since 1897: 1898, 5½%; 1899 to 1901, 6%; 1902 to 1907, 7% (with 6% extra in 1907); 1908 to date, 8% per annum. Transfer Offices, 32 Nassau St., New York, and Sears Building, Boston. Listed on New York, Boston and Chicago Stock Exchanges.

QUINCY, OMAHA & KANSAS CITY RAILROAD

History: Incorporated under the laws of Missouri, June 1, 1897, successor to the Quincy, Omaha & Kansas City Ry., which was sold under foreclosure, April 23, 1897. Company was reorganized in 1902, and absorbed the Omaha, Kansas City & Eastern R.R. Co., and in the same year purchased and absorbed the Kansas City, Peoria & Chicago Ry. Co.

Location: Road extends from West Quincy to C. B. & Q. connection, Mo., 243.62 miles; Avondale to Northern Junc., Mo., 1.21 miles; Trimble to Gower, Mo., 10.47 miles; Trenton Junc. to Trenton, Mo., 0.71 mile. There are various coal mine spurs of 4.40 miles. Total owned, 261.62 miles; trackage (C. B. & Q. R.R.) Quincy, Ill., to West Quincy, Mo., 5.65 miles; Harlem to Kansas City, Mo.; 2.16 miles; Quincy to West Quincy, 4.35 miles. Total operated, 265.71 miles; sidings, 32.82 miles.

Equipment: Locomotives, 26; passenger cars, 17; freight, 201; service, 40.

Management: Officers: Geo. F. Baker, Jr., Pres., New York; J. G. Trimble, Vice-Pres., Kansas City, Mo.; Samuel H. Miller, Sec.; C. D. Norton, Treas., New York; C. J. Greene, Aud. and Cashier; W. R. Shrodes, Pur. Agt.; W. B. Throop, Gen. Supt., Kansas City, Mo. Directors: Geo. F. Baker, Jr., Samuel H. Miller, C. D. Norton, W. E. Purdy, New York; Frank Hagerman, J. G. Trimble, Wm. Warner, W. B. Throop, Kansas City, Mo.; H. B. Scott, Burlington, Ia. Annual meeting, in June. General Office, Kansas City, Mo.

Comparative Income Account, Years Ended June 30

	1916	1915	1914	1913	1912

Profit and Loss Account, year ended June 30, 1916: Debit balance at beginning of year, $342,328; loss on retired road and equipment, $40,862; total, $383,190. Contra: Credit balance transferred from income, $53,079; donations, $116; miscellaneous credits, $14,044; debit balance carried to balance sheet, $315,951; total, $383,190.

Capital Stock: Authorized and outstanding, $6,000,000; par $100. No bonded debt. No dividends. All owned by Chicago, Burlington & Quincy R.R.

THE COLORADO & SOUTHERN RAILWAY COMPANY

NOTE: The analysis is based on official documents of the Company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Successor in 1899 to Union Pacific, Denver & Gulf, and Denver, Leadville & Gunnison Railways. Controls Fort Worth & Denver City, Colorado Springs & Cripple Creek District Railway, Wichita Valley Ry., Wichita Falls & Oklahoma Ry., Wichita Valley R.R., Abilene & Northern Ry., Gilpin R.R., Colorado R.R., and Stamford & Northwestern Ry., and holds a one-half interest in Trinity and Brazos Valley R.R.

Location: The directly operated lines on June 30, 1916, aggregated 1,841.72 miles, of which 143.77 miles in Wyoming, 903.63 in Colorado, 83.28 in New Mexico, and 711.04 in Texas. Of this mileage, 134.20 miles are operated under lease or contract. The main stem of the company extends from Orin Junc., Wy. (where connection is made with the C. B. & Q.) southward through Cheyenne, Denver, Pueblo, Trinidad, to Texline, where at the latter point connection is made with the Fort Worth & Denver City line, operating to connection with Trinity & Brazos Valley, thus forming a through line to Galveston. The Colorado Springs & Cripple Creek District Railway, 74.25 miles, operating from Colorado Springs to Cripple Creek, has been leased to the Florence & Cripple Creek R.R. (now the Cripple Creek & Colorado Springs R.R.), since Nov. 1, 1911, and is operated separately from the main system. Held a one-half interest in the Colorado Midland lines, which in 1912 it arranged to sell; but litigation has delayed delivery. Also owns control of Denver & Interurban R.R. Co., which is separately operated. Operated mileage mainly in Colorado. Population of this State in 1890, 419,198; in 1900, 539,700; in 1910, 799,024.

Control: In December, 1908, the Chicago, Burlington & Quincy acquired $23,667,500 out of $31,000,000 common stock of the Colorado & Southern Ry. On June 30, 1916, the Chicago, Burlington & Quincy also owned $1,130,000 first preferred and $6,078,700 second preferred stock.

Management: OFFICERS: Geo. B. Harris, Chairman; Hale Holden, Pres.; E. S. Koller, Vice-Pres.; C. G. Burnham, Vice-Pres.; H. E. Byram, Vice-Pres.; B. F. James, Sec. and Treas.; T. S. Howland, Asst. Sec. and Asst. Treas. DIRECTORS: Harry Bronner, Geo. B. Harris, Geo. F. Baker, Geo. F. Baker, Jr., James N. Hill, E. T. Nichols, A. D. Parker, Hale Holden, C. G. Burnham, H. E. Byram, C. E. Perkins. Annual meeting, November. MAIN OFFICE, Chicago, Ill. NEW YORK OFFICE, 32 Nassau Street.

Total revenue tonnage in 1909, 7,202,657 tons; in 1910, 8,356,913 tons; in 1911, 7,765,015 tons; in 1912, 7,147,906 tons; in 1913, 7,452,941 tons; 6,124,647 in 1914; 6,449,670 in 1915; 7,409,361 tons in 1916.

The chief single item of tonnage on this system is bituminous coal. In 1913, 2,190,553 tons of this product were transported; 1,298,896 tons in 1914; 1,494,584 tons in 1915; 1,655,788 tons in 1916. The company also carries a heavy tonnage of coke and ores. Its dependence on agricultural products is relatively less than with most Western railroads.

TABLE A.—Physical Factors (Mileage, Equipment and Operation)

YEARS ENDED JUNE 30.	Average Miles Operated.	Extra Main Track.	Locomotives Owned.	Passenger Cars Owned.	Freight and Company Cars.	Fgt. to all Traffic.	Passenger Density.	Freight Density. Yard tracks and sidings owned June 30, 1916, 505.07 miles. Of the total mileage operated, 134.20 miles are leased or operated under contract.

Comment: During the fiscal year 1916, the operating results of the Colorado & Southern underwent very substantial improvement. The freight density increased to a new high figure, while the average train load also rose substantially. Although average freight rates were lower than in the previous year, the train mile earnings were considerably higher. As usual, products of mines represented more than half of the company's freight tonnage.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ended June 30.	Gross Revenues.	Maintenance. Way.	Maintenance. Equipment.	Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.
1907	$7,242	$1,198	$953	$2,151	$2,826	$2,265	$2,325	$180	$2,145	$1,019	52%	$1,126	$368
1908	7,395	1,057	1,099	2,156	2,809	2,430	2,609	211	2,398	1,271	47	1,127	352

1913	8,150	1,030	1,682	2,712	3,030	2,408	2,851	281	2,570	1,670	35	900	535
1914	7,086	974	1,171	2,145	3,078	1,863	2,331	342	1,989	1,771	11	218	182
1915	7,702	946	1,480	2,426	3,068	2,208	2,456	335	2,121	1,787	16	334	....
1916	8,555	1,091	1,512	2,603	2,832	3,120	3,445	401	3,044	1,834	40	1,210	93
10-Year Average	$7,723	$1,015	$1,309	$2,324	$2,933	$2,466	$2,746	$269	$2,477	$1,537	37%	$940	$416

Note: Above table is based on average mileage directly operated, whether owned, leased or otherwise controlled. Prior to November 1, 1911, the Colorado Springs and Cripple Creek lines were directly operated, but on that date were leased to the Florence and Cripple Creek Ry. (now the Cripple Creek and Colorado Springs Ry.). Thus, the operations of this mileage are not now included in the operating figures, but the income from the lease is, of course, included in the "Total Net Income" column above.

Margin of safety is the proportion of surplus left over after providing for all fixed charges. For example, in 1916 the "balance for charges" (per mile) was $3,044; fixed charges per mile amounted to $1,834 or 60%, leaving a final surplus of $1,210, or a "margin of safety" of 40%.

Common	17.00	....	....	3.18	2.64	5.22	7.33

Note: Fixed charges include rentals for hire of equipment and use of joint facilities, lease rentals, interest and sinking funds, etc. For 1916, interest on funded debt amounted to $2,868,099; rents, $352,873; miscellaneous deductions, $145,628. In "other income" the chief items were: From lease of road, $273,006; miscellaneous rent income, $16,387; joint facility rent income, $31,296; from securities and accounts, $73,564; miscellaneous, $202,776.

Profit and Loss Account, year ended June 30, 1916: Credit balance at beginning of year, $1,962,574; credit balance transferred from income, $1,202,475; miscellaneous credits, $32,215; total, $3,197,264. Contra: Dividend appropriation of surplus, $264; miscellaneous appropriation of surplus, $500,000; loss on retired road and equipment, $29,657; miscellaneous debits, $36,398. Credit balance carried to balance sheet, $2,630,945; total, $3,197,264.

Comment: During the fiscal year ended June 30, 1916, the Colorado & Southern property reported substantial improvement in its gross revenues, and as operating costs were sharply curtailed, the net operating results were higher than in any year since 1910. Outside income also increased over that shown in 1915, and as fixed charges underwent only a slight advance, the surplus was amply sufficient to justify the company in resuming dividend payments on its first preferred stock. Since the close of the fiscal year earnings have continued to be very favorable and larger dividends are shortly to be expected.

In addition to dividend payments on preferred stocks as shown in above table, the following dividends have been paid on the common stock: 2% Dec. 18, 1908; 2% Dec. 31, 1909; 2% Dec. 31, 1910; 2% Dec. 31, 1911; 1% Dec. 31, 1912. None in Dec., 1913. In April, 1914, payments were omitted on both the first and second preferred stocks. On Sept. 22, 1916 2% was declared on 1st preferred stock.

Note: Investments in Table C include $5,218,447 "securities issued or assumed unpledged." Pledged and unpledged securities of the book value of $11,668,336 not included because no separate statement is given of the book value of such unpledged securities.

Comparative Condensed Balance Sheet, as of June 30

Total	$130,285,969	$128,427,520	$126,398,980	$129,054,979	$127,405,610	$124,539,748

Note: The bonded debt, as shown above, includes not only the direct mortgages of the company, but the bond issues of the Colorado Springs & Cripple Creek District Ry., the Fort Worth & Denver City, the Forth Worth & Denver Terminal Ry., and the various equipment obligations.

Comment: The capitalization changes on the Colorado & Southern system were nominal only in the fiscal year 1916. Capital stock underwent no change, while a slight reduction was shown in the bonded debt through retirement of a moderate amount of equipment notes. While the property is rather heavily capitalized, yet it will be noted that net income on net capital increased sharply in 1916, and was considerably in excess of the average for the decade. The company has in recent years appropriated nearly $9,000,000 out of earnings for improvements, and also has steadily increased its profit and loss surplus.

TABLE D.—Bond Record and Ratings (Based on 10-Year Results, Per Mile of Road)

Name of Issue.	Interest Payable.	Maturity.	Lien on Miles.	Outstanding per Mile.	Average Income Available.	Interest R'q'r'd per Mile of System.	Factor of Safety.	Basis for Rating. Security.	Salability.	Net Rating.
1. Colo. & Southern first 4s....	F&A	F 1929	(1st) 1,089	$18,000	$2,477	$423	83%	High	Very high	**Aaa.**
2. Colo. & So. Rfd. & Ext. 4½4.	M&N	My 1935	(see text)	13,200	2,054	755	64%	"	"	**A.**
3. Col. Spg. & C. Ck. D. Ry. 1st 5s.....	J&J	Ja 1930	(1st) 74	18,430	1,299	37	71%	"	Good	**Aa.**
4. Colo. Spgs. & C. Creek D. Ry. cons. 5s.....	A&O	O 1942	(2d) 74	18,600		38	71%	"	"	**Ba.**

6. Ft. Worth & Den. Term. first 6s.....	J&D	D 1937	(1st) term.	.....		10	71%	"	Good	**Ba.**
7. Equip. trust notes; see below.	A&O	1917-25	.....	.....		25	71%	"	High	**Aa.**

For Key to Bond Ratings, see page 19.

Note: The bond ratings are based not only on the statistical exhibits and average income, but other factors are also taken into consideration, such as the relative value to the main system of the mileage covered by each particular bond, the earning power of the property covered, the character of the physical property, etc. The two large issues of the Colorado Southern both stand on a strong investment plane, while the divisional issues all appear to be well protected. The position of the equipment notes is, of course, very strong.

REFERENCE NOTES ON BOND ISSUES

1. Auth., $20,000,000; outstanding, $19,402,000 (closed). Dated Dec. 31, 1898; due Feb. 1, 1929. Int. at office of Co., New York. Coupon, $1,000. First lien, 1,088.80 miles, as follows: Orin Junc. to Cheyenne, Wyo., 153.68 miles; Denver *via* Boulder and Fort Collins to Greeley, Col., 96.86 miles; Denver to Silver Plume, 52.59 miles; Denver to Manitou Junc., 81.51 miles; Manitou Junc. to Gulf Junc., near Pueblo, 42,86 miles; Denver to Como, 88.12 miles; Como to Leadville, 63.76 miles; Como to Baldwin, 133.02 miles; Walsenburg Junc. to Trinidad, 41.52 miles; Trinidad to Texline, N. M., 134.67; various branches, 200.21 miles; also a first collateral lien on $6,397,783 out of $9,375,000 stock of Fort Worth & Denver City Ry., and on stock interests in the Colorado Midland Ry.; also a second collateral lien on the securities covered by first collateral lien by No. 2 (below). Underlie No. 2 with provision to retire. Legal for Savings Banks in Mo. Listed on New York Stock Exchange. Normal income tax deducted from interest.

2. Auth., $100,000,000; outstanding, $35,594,347, of which $4,790,447 in treasury, leaving $30,803,900 in hands of public. Dated May 1, 1905; due May 1, 1935. Int. paid at office of company in New York. Coupon, $100 and $1,000; reg., $1,000, etc. Callable at 101 and int. on 3 months' notice. A first collateral lien on 1,249.42 miles of road, including 303 miles of Trinity & Brazos Valley Ry., from Cleburne to Houston and from Waxahatchie to Teague in Texas; on 120.35 miles of Colorado R.R.; on 52.50 miles of Wichita Valley R.R.; on 60.70 miles of Wichita Valley Ry.; on 22.80 miles of Wichita Falls & Oklahoma Ry., on 38.70 miles of Abilene & Northern Ry., on 82.50 miles Stamford & Northwest Ry.; and on 22.18 miles of the Denver & Interurban (electric) Ry.; 454.14 miles of Ft. Worth & Denver City Ry.; 74.25 miles of Colo. Spgs. & Cripple Creek Dist. Ry. and 18.78 miles of Gilpin R.R.; also a second direct lien on the 1,088.80 miles covered by No. 1; also a second collateral lien on the securities covered by No. 1 as first collateral lien. Listed on New York Stock Exchange. Interest paid without deduction for normal income tax.

3. Auth., $2,000,000; outstanding, $1,364,000. Dated Jan. 1, 1900; due Jan. 1, 1930. Int. paid at Chemical National Bank, New York. Coupon, $1,000. Sinking fund, 5% of gross earnings, to call bonds at 110 until Jan. 1, 1915; at 107 from 1915 to 1920; at 105 from 1920 to 1925; at 102½ from 1925 to 1929; at par in 1929. First lien, 74.25 miles, Colorado Springs to Cripple Creek and branches. Underlie No. 4. Will be retired by No. 2. Legal for S. B. in Mo. Listed on New York Stock Exchange. Normal income tax deducted from interest.

4. Auth., $3,600,000; outstanding, $1,379,000. Dated Oct. 1, 1902; due Oct. 1, 1942. Int. paid at Chemical Nat. Bank, New York. Coupon, $1,000. Second lien, 74.25 miles, following No. 3. No. 2 provides for retirement. Interest paid without deduction for normal income tax.

5. Auth., $18,000 per mile; outstanding, $8,176,000. Dated Dec. 29, 1881; due Dec. 1, 1921. Int. paid at company's office in New York. Coupon, $1,000. First lien, 454.14 miles, Forth Worth to Sixela on New Mexico State line. Legal for S. B. in Mo., Texas. Listed on New York Stock Exchange. No. 2 provides for retirement. Normal income tax deducted from interest.

6. Auth., $2,500,000; outstanding, $728,000, of which $428,000 are owned by Fort Worth & Denver City Ry. Co., leaving $300,000 in hands of public. Dated Dec. 1, 1907; due Dec. 1, 1937. Int. paid at company's office, New York. Coupon, $1,000. First lien on terminals, realty, etc., at Fort Worth, Tex. Callable at 105, on three months' notice. Interest paid without deduction for normal income tax.

7. Series "A" 5s; due $52,000 semi-annually April and Oct. 1 to April 1, 1917; now outstanding, $52,000. Series "B" 5s (Fort Worth & Denver City); due $19,000 semi-annually to April 1, 1917; now outstanding $19,000. Series "C" 4½s (Fort Worth & Denver City, equipment trust), dated May 1, 1915; due $56,000 each May and Nov. 1, to May 1, 1925; outstanding, $952,000. Interest paid without deduction for normal income tax.

TABLE E.—Stock Record and Ratings (Based on 10-Year Results, Per Mile of Road)

Name and Details of Issue.	Rate and Date Dividends.	Amount Outstanding per Mile.	Average Income Available per Mile.	Dividend Required per Mile of System.	Factor of Safety.	Basis for Rating.		Net Rating.

On unstamped stock: 1912, 5%; 1913, 6%; 1914 and 1915, 6% each; 1916 to June 30, 3%. Colorado & Southern Ry. owns $9,361,016, of which $2,539,992 is "stamped" stock. TRANSFER AGENT, W. O. Hamilton, Fort Worth, Tex.

(THE) GILPIN RAILROAD

Incorporated under laws of Colorado, July 24, 1906, as successor to the Gilpin Tramway Co. Operates 16.5 miles from Black Hawk to various mines near Central City, Col. Colorado & Southern Ry. controls through stock ownership and operates the property.

Management: A. D. Parker, Pres.; B. F. James, Sec. and Treas.; J. H. Bradbury, Auditor. OFFICE, Denver, Col.

Bonded Debt: $71,000 Gilpin Tramway 1st 6s; dated May 15, 1899; due May 15, 1919; int. paid May and Nov. 15, at International Trust Co., Denver Col. Coupon, $500. First lien on entire property. Interest paid without deduction for normal income tax.

Capital Stock: Auth. and issued, $200,000; par $10. All but 5 shares owned by Colorado & Southern Ry. and pledged under its refunding and extension mortgage.

Other Controlled Roads: In addition to above, the Colorado & Southern owns the entire stock and bonds of the Abilene & Northern Ry., Stamford to Abilene, Texas, 38.7 miles; practically the entire stock and all the bonds of the Colorado R.R., owning 120.35 miles of short lines in Colorado; practically all the stock and all the bonds of the Stamford & Northwestern Ry., Stamford to Spur, Texas, 82.5 miles; practically all the stocks and all bonds of the Wichita Valley Ry., Wichita Falls to Seymour, Texas, 52.2 miles; practically all the stock and all the bonds of the Wichita Falls and Oklahoma Ry., Byers to Wichita Falls, Texas, 22.8 miles; practically all the stock and all the bonds of the Wichita Valley R.R., Seymour to Stamford, Texas, 60.7 miles. These companies are all operated as a part of the general system and the securities are deposited under the Colorado and Southern refunding 4½% mortgage.

CHICAGO & EASTERN ILLINOIS RAILROAD COMPANY

NOTE: The analysis is based on official documents of the Company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated under laws of Illinois, June 7, 1894, as a consolidation of the old Chicago & Eastern Illinois R.R. and the Chicago & Indiana Coal Ry. Co. The company owns a one-fifth interest in the Chicago & Western Indiana and a joint interest in the Southern Illinois & Missouri Bridge Co. On July 20, 1911, the Evansville & Terre Haute R.R., and the Evansville Belt Ry., which had formerly been controlled by stock ownership, were merged formally into this company. In this merger, the Evansville & Terre Haute common stockholders received 83⅓% in Chicago & Eastern Illinois common, and the Evansville Belt stockholders received par. The preferred stockholders of the Evansville & Terre Haute were given the privilege to exchange their holdings for new 5% refunding bonds, par for par, these bonds maturing 1941, and being assumed by the Chicago & Eastern Illinois R.R.

Location: Directly operated lines consisted June 30, 1916, of 1,136.46 miles. Main lines embrace: Dolton to Danville, Ill., 107.21 miles; Danville Junc. to Brazil, Ind. (Western division), 61.20 miles; Momence Junc. to Brazil, Ind. (Eastern division), 130.09 miles; Danville Junc. to Thebes and Joppa, Ill., 292.39 miles; Woodland Junc. to Villa Grove, Ill., 62.20 miles; Otter Creek Junc. to Evansville, Ind., 114.66 miles; and also numerous smaller branches. The lines of the old Evansville & Terre Haute Company are included in the directly operated mileage, with the exception of the Evansville & Indianapolis 145.95 miles operated separately since Mar. 1, 1916. The lines of the company are all in Illinois and Indiana. Population of these States in 1890, 6,018,755; in 1900, 7,338,012; in 1910, 8,339,467. The road penetrates the Indiana soft coal fields and has always done a heavy business in this commodity.

Receivership: On May 27, 1913, Edwin W. Winter, of New York, and William J. Jackson, of Chicago, were appointed receivers. Interest was defaulted July 1, 1913, on the refunding 4s, and later on the Evansville & Terre Haute refunding 5s, the Evansville & Indianapolis cons. 6s, and the Chicago and Indiana Coal Railway first 5s. Special protective committees have been appointed for these and other issues. See bond notes on following pages.

The receivership was directly caused by the downfall of the St. Louis & San Francisco R.R Co., which had acquired a large majority of both preferred and common stock and deposited same under its own "Chicago & Eastern Ill. stock certificates." See following pages and also St. Louis & San Francisco R.R. statement.

Recent Developments: No plan for the reorganization of the property has yet been announced, but the Evansville & Indianapolis Railroad has now been divorced from the main system and is being independently operated by its Receiver. In Sept., 1916, the Receiver of the main company stated that the company was rapidly getting on its feet, but that no plan for reorganization was imminent. On October 1, 1916, all coupons due and overdue on the following issues were paid, and it was announced that future interest would be met until otherwise ordered by the Court.

Danville & Grape Creek 1st 6s; Evansville, Terre Haute & Chicago income 6s; Chicago & Eastern Illinois 1st ext. 6s; Chicago & Eastern Illinois 1st consol. 6s; Evansville & Terre Haute 1st cons. 6s, and Evansville Belt Railway 1st 5s.

Under the plan of reorganization of the St. Louis & San Francisco Railroad adopted in April, 1916, it was provided as follows:

(1) The $12,153,750 preferred and $16,944,500 common stock Trust certificates issued for preferred and common stock of the Chicago & Eastern Railroad should be exchanged for the stock of the Chicago & Eastern Illinois R.R. represented by the same;

(2) The reorganization managers delivered in respect to preferred certificates so surrendered, $18 in 6% preferred stock and $2.50 in common stock of the new St. Louis & San Francisco; and also delivered in respect to common stock certificates so surrendered, $30 in 6% preferred stock and $4.25 in common stock of the St. Louis & San Francisco R.R. (See latter company's statement).

Protective Committee: General Committee, representing Danville & Grape Creek 6s, Evansville, Terre Haute & Chicago 6s, all Evansville & Terre Haute issues, Evansville Belt Ry. 1st 5s, Chicago & East Illinois extension 6s and consol. 6s, and ref. and imp. 4s, is represented by John W. Platten, Chairman; Calvert Brewer, Secretary, 55 Cedar Street, New York. Depositary: United States Mortgage & Trust Co., New York, and First Trust & Savings Bank, Chicago.

Management: Wm. J. Jackson, Chicago, Receiver. OFFICERS FOR RECEIVERS: W. H. Lyford, Gen. Counsel; J. P. Reeves, Treas.; H. J. Cronin, Auditor. OFFICERS OF COMPANY: W. J. Jackson, Pres.; Alvin W. Krech, Vice-Pres.; J. P. Reeves, Treas.; H. J. Cronin, Sec. DIRECTORS: Frederic W. Allen, W. J. Jackson, W. H. Lyford, Geo. F. Porter, T. D. Heed, Alvin W. Krech, H. H. Porter, W. Redmond Cross, Chas. S. Holt, W. Emlen Roosevelt, Joseph Walker, Jr. Annual meeting, first Wednesday in June. CHICAGO OFFICE, 332 So. Michigan Ave. NEW YORK OFFICE, 71 Broadway.

Yard tracks and sidings, 684.98 miles on June 30, 1916.

Note: Figures for 1916 include operations of Evansville and Indianapolis for the entire year, though this property has been separately operated since Mar. 1, 1916.

Comment: Operating results on the Chicago & Eastern Illinois during the fiscal year ended June 30, 1916, were very satisfactory. Both passenger and freight density increased, while a sharp advance was shown in the average freight train load. Although freight rates continued low, the train mile earnings rose to a new high figure. The company has usually depended chiefly on the transportation of mining products for its freight tonnage.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ended June 30.	Gross Revenues.	Maintenance. Way.	Maintenance. Equipment.	Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.

10-Year Average	$11,864	$1,422	$2,293	$3,715	$4,918	$3,231	$3,943	$401	$3,542	$2,922	22%	$620	$657

* Deficit.

Note: Above figures are based on average mileage directly operated for each year. Prior to 1911, the figures do not include the old Evansville & Terre Haute R.R. Figures for 1916 include operations of Evansville and Indianapolis for entire year though this property has been separately operated since Mar. 1, 1916. Margin of safety is the proportion of surplus income left over after providing for all charges.

Comparative Income Account, Years Ended June 30

	1916	1915	1914	1913	1912	1911
Gross revenues	$16,848,985	$14,209,129	$15,516,147	$16,214,972	$15,215,513	$14,880,409

Total net income...	$5,170,591	$3,255,934	$3,666,466	$4,415,292	$5,144,954	$5,681,096
Taxes accrued	711,657	641,000	630,500	611,844	426,592	338,128
Balance for charges	$4,458,934	$2,614,934	$3,035,966	$3,803,458	$4,718,362	$5,342,968
Fixed charges	1,585,406	4,443,903	4,559,492	4,252,814	3,660,563	3,801,201
Surp. over charges	$2,873,528	* $1,828,969	* $1,523,526	* $449,366	$1,057,799	$1,541,767
Dividends paid.....	.....	.....	2,366	492,567	952,853	1,215,533
Other deductions	.....	15,528	.....	.....	.....	.....
Balance	$2,873,528	* $1,844,497	* $1,525,892	* $941,933	$104,946	$326,234

* Deficit.

Note: The fixed charges item of $4,443,903, as shown above for 1915, includes all the interest obligations of the company, paid or unpaid. In 1915, $2,262,095 of this amount, by order of the Court, was not paid by the receiver. 1916 report shows a decrease in the accrual of interest on funded debt of $2,726,022.

Note: Above figures for 1916 include those of the Evansville and Indianapolis for the entire year, although the E. & I. was separately operated for the period Mar. 1, 1916, to June 30, 1916.

Profit and Loss Account of the Chicago & Eastern Illinois, for the year ending June 30, 1916: Credit balance transferred from income, $2,923,598; donations, $8,804; miscellaneous credits, $2,839,566; total, $5,771,968. Contra: Debit balance June 30, 1915, $2,883,435; less Evan. & I. eliminated, $196,047; balance, $2,687,388; debt discount extinguished through surplus, $10,319; loss on retired road and equipment, $69,404; miscellaneous debits, $118,194; credit balance carried to balance sheet, $2,886,663; total, $5,771,968.

Profit and Loss Account of the Evansville and Indianapolis for the four months ending June 30, 1916: Miscellaneous credits, $39; debit balance carried to balance sheet, $49,931; total, $49,970. Contra: debit balance transferred from income, $49,970.

Comment: Although still in the hands of receivers, the income results of the Chicago & Eastern Illinois for the year ended June 30, 1916, were of a most gratifying nature. Both gross and net operating revenues increased sharply and there was also a substantial addition to the revenue from outside sources. Surplus carried forward was practically equal to the old fixed charges before the property went into receivers' hands.

The company has not yet gone through reorganization, but it is now evident that a substantial change in its financial position can be achieved without radical assessment of stockholders, or seriously cutting down the junior bond issues.

TABLE C.—Capitalization Factors (Security Obligations and Earning Power)

Years Ended June 30.	Capitalization Per Mile of Road. Stock Outstanding and Per Cent of Whole.		Bonds Outstanding and Per Cent of Whole.		Rentals Cap. at 5 Per Cent. Note: The figures presented above, prior to 1912, cover only the old Chicago & Eastern Illinois main system and not the Evansville & Terre Haute figures. For records of the operations of the latter in earlier years, see "Moody's Analyses" for 1912. For 1916, the figures given above were obtained by combining the balance sheets of the Chicago & Eastern Illinois and of the Evansville & Indianapolis, both as of June 30, 1916.

Comment: As this property is shortly to be reorganized, the balance sheet as shown under date of June 30, 1916, is not of any great significance. There were only nominal changes in the permanent capitalization figures. The company was able, however, to change the former heavy deficit into a very substantial profit and loss surplus.

* After allowance for interest on receivers' certificates and equipment bonds.

For Key to Bond Ratings, see page 19.

Note: While the factor of safety on many of the above issues is relatively high, it must be remembered that the averages are based on a ten-year period, and include the earlier years when results were relatively more favorable. The Ratings on the defaulted bonds are all placed on a speculative basis, pending final reorganization, but also are based on other considerations, such as the trend of available profits over the period.

REFERENCE NOTES ON BOND ISSUES

1. Auth., $250,000; outstanding, $97,000 (closed). Dated April 15, 1880; due May 1, 1920. Int. paid at Central Trust Co., New York. Assumed by Chic. & E. Ill. R.R. First lien, 9 miles, Danville Junc. to Westville, Ill. Underlie Nos. 4, 6 and 7, with provision by latter to retire. Legal for S. B. in Me. Normal income tax deducted from interest. Coupon, $1,000.

2. Auth. and outstanding, $150,000. Dated Aug. 9, 1881; due May 1, 1920. Int. paid at Farmers' Loan & Trust Co., New York. Guar. prin. and int. by Chic. & E. Ill. R.R. First lien, 48.58 miles, Danville Junc., Ill., to Otter Creek Junc., Ind. Underlie Nos. 6 and 7, with provision by latter to retire. Normal income tax deducted from interest. Coupon, $1,000.

3. Auth., $250,000; outstanding, $91,000 (closed). Dated Dec. 1, 1881; due Dec. 1, 1931. Int. paid at Mechanics & Metals Nat. Bank, New York. First lien, 14.10 miles, Westville to Sidell, Ill. Underlie Nos. 4, 6, and 7, with provision by latter to retire. Interest paid without deduction for normal income tax. Coupon, $1,000.

Callable at par on 60 days' notice. Assumed by Chi. & E. Ill. R.R. Third lien on 201.26 miles, following No. 11. This issue was created to retire an equal amount of Evansville & Terre Haute preferred stock, dollar for dollar. Tax-free clause. Interest in default since July 1, 1915.

15. Auth., $7,000,000; outstanding, $5,094,000. Dated Feb. 1, 1912; due Feb. 1, 1942. Int. paid at Central Trust Co., New York. Callable at 105 on 60 days' notice, and at 102½ for sinking fund. Sinking fund, 2 cents per ton on all coal mined from March 31, 1913 to 1917; 3 cents per ton from 1918 to 1927; and 4 cents per ton thereafter. Bonds are held alive in fund and accruing interest is added to the fund. First lien on 41,000 acres of coal lands located on the lines of the system, including ten coal mines. Listed on New York Stock Exchange. Tax-free clause. Coupon and reg., $1,000. Interest in default since Feb. 1, 1915. SPECIAL COMMITTEE: Geo. C. Van Tuyl, Jr., Chairman; Jas. F. McNamara, Sec. Depositary: Metropolitan Trust Co., New York.

16. Auth., $600,000; outstanding, $142,000. Dated Nov. 1, 1910; due Nov. 1, 1940. Int. paid at Columbia Trust Co., New York. Coupon, $1,000. Assumed by Chicago & East. Ill. R.R. First lien on 3.77 miles of railroad and 157.61 acres of real estate and terminal property. Tax-free clause. Interest in default since May 1, 1915

17. Receivers' Certificates: Auth. and outstanding, $6,000,000; dated July 1, 1916; due July 1, 1917. Int. paid at Equitable Trust Co., New York. Coupon, $1,000 and multiples. Secured by first lien on following "trust assets" pledged with Trustee: $1,000,000 (par) Chicago & Western Indiana R.R. stock; $240,000 (par) Belt Ry. of Chicago stock; $10,000 (par) Southern Illinois & Mo. Bridge Co. stock; $612,300 (par) Brazil Black Coal Co. stock; $6,408,300 (par) Chicago & Eastern Illinois common stock; $550,000 Southern Illinois & Missouri Bridge 1st 4s; and other minor collateral; total, $8,890,000. Also secured by lien prior to refunding and improvement 4s (No. 7) on all property covered by that mortgage, but subject to the liens of Nos. 1 to 6, inclusive. The Court reserves the right, however, by future order, to declare these certificates prior in lien to No. 6.

18. Equipment Trusts: Extension Agreement.—The United States District Court for Northern Illinois authorized the receivers to extend the following equipment obligations for a period of three years after their respective maturities, with interest increased to 5½%. The equipment notes are to have brought under their lien the entire properties in the hands of receivers, excepting the properties of the Evansville Belt Ry., the Evansville & Terre Haute R.R., the Evansville & Indianapolis R.R. and the property subject to the lien of the Purchase Money Coal Bonds (No. 15), this arrangement making them a lien upon the property covered by the Refunding and Improvement Mortgage (No. 7), ranking ahead of that mortgage, and upon the "trust assets" securing the Receivers' Certificates (see No. 17), but subject to the latter.

Chicago & Eastern Illinois R.R.: Equipment Bonds, Series "E"; interest to Feb. 1, 1915, 4½%; thereafter, 5½% payable Feb. and Aug. at Blair & Co., New York. Balance outstanding July 1, 1916, $250,000, maturing $125,000 Feb. and Aug. 1, 1918, as extended by order of Court. Secured on 30 locomotives, 2,500 freight cars, 25 caboose cars and 3 postal cars, all of original cost of over $2,800,000.

Equipment Bonds, Series "F"; interest to Feb. 1, 1915, 4½%; thereafter, 5½% payable Feb. and Aug. 1 at Blair & Co., New York. Balance outstanding July 1, 1916, $660,000, maturing $220,000 each on Feb. and Aug. 1, from Feb. 1, 1918, to Aug. 1, 1919, as extended by order of Court. Secured on 89 locomotives, 3,250 freight cars, 25 caboose cars and 3 dining cars, all of an original cost of over $6,000,000.

Equipment Bonds, Series "G"; interest to April 1, 1915, 5%; thereafter, 5½%, payable April and Oct. 1 at Bankers' Trust Co., New York. Balance outstanding, July 1, 1916, $744,000, maturing $124,000 each on April and Oct. 1, from April 1, 1918 to Oct. 1, 1920, as extended by order of Court. Secured on 2,000 dumping gondola cars, all of an original cost of $2,737,912.

Equipment Bonds, Series "H"; interest to Mar. 1, 1915, 5%; thereafter, 5½%, payable Mar. and Sept. 1 at Commercial Trust Co., Phila., and Bankers' Trust Co., New York. Balance outstanding on July 1, 1916, $2,648,000, maturing $166,000 each Mar. 1st, and $165,000 each Sept. 1st from Sept. 1, 1918, to Sept. 1, 1925, as extended by order of Court. Secured on 3,000 freight cars and 20 caboose cars, all of an original cost of over $3,600,000.

Evansville & Terre Haute: Equipment Bonds, Series "B", 5½s, maturity extended by order of Court to July 1, 1917. Now outstanding, $20,000. Series "C," 5½s, maturity extended by order of Court to July 1, 1917. Now outstanding, $180,000. These have been purchased and are pledged under an issue of $200,000 5½% receiver's certificates due July 1, 1917.

All issues are coupon, $1,000; all carry "tax-free clause."

TABLE E.—Stock Record and Ratings (Based on 10-Year Results, Per Mile of Road)

Name and Details of Issue.	Rate and Date Dividends.	Amount Outstanding per Mile.	Average Income Available per Mile.	Dividend Required per Mile of System.	Factor of Safety.	Basis for Rating.		Net Rating.

For Key to Stock Ratings, see page 21.

Note: Of the above outstanding stock, the St. Louis & San Francisco formerly held all the common and $8,102,000 of the preferred, having exchanged its special stock trust certificates therefor. (See that system for details of reorganization plan, etc.)

REFERENCE NOTES ON STOCK ISSUES

(1) Auth., $15,000,000; outstanding, $11,070,400; in treasury, $1,127,700 of which $1,100,000 is pledged; par $100. Has preference as to assets and 6% non-cumulative dividends. Full voting power. Listed on New York Stock Exchange.

(2) Auth., $15,000,000; outstanding, $7,217,800; in addition $6,408,300 is pledged under the receiver's certificates; par $100.

Dividends of 6% were regularly paid on the above preferred stock until receivers were appointed in 1913; on common, 10% was paid in 1907 and 1908; 2% in 1909; 8% in 1910; 9½% in 1911, and 5% in 1912; 4½% in 1913. None since.

CHICAGO GREAT WESTERN RAILROAD COMPANY

Note: The analysis is based on official documents of the Company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated under Illinois laws, Aug. 19, 1909, as successor by reorganization to the old Chicago Great Western Ry. The latter company originally succeeded the Chicago, St. Paul & Kansas City Ry. In the reorganization of 1909, the Mason City & Fort Dodge, and the Wisconsin, Minnesota & Pacific railroads, whose stock is all owned by the Chicago Great Western, were leased on 100-year agreements, whereby all net earnings above fixed charges accrue to the Chicago Great Western R.R. These companies are, however, operated as part of the general system. In 1910, the company acquired the entire capital stock of the Leavenworth Terminal Railway & Bridge Co.

Location: Directly operated lines embrace 1,496.06 miles, as follows: Lines owned:—757.47 miles, including main line from Forest Park near Chicago to Oelwein, Ia., and thence to St. Paul and Minneapolis; also from Oelwein, Ia., to Kansas City, Mo., with branches. Lines leased:—Mason City & Fort Dodge R.R., from Omaha, Neb., to Oelwein, Ia., and Hatfield, Minn., and branches, 375.23 miles; Wisconsin, Minnesota & Pacific R.R., from Winona to Mankato, Minn., and from Rochester, Minn., to Osage, Ia., and branches; total, 277.43 miles; trackage rights, 85.93 miles. Operated mileage chiefly in Minnesota and Iowa. Population of these States in 1890, 3,213,722; in 1900, 3,983,247; in 1910, 4,300,479.

Management: Officers: S. M. Felton, Pres.; J. W. Blabon, Vice-Pres.; J. F. Coykendall, Sec. and Treas. Directors: S. M. Felton, J. R. Morron, Chas. Steele, A. A. Sprague, 2d, J. A. Spoor, E. F. Swinney, C. M. Carr, John Washburn, G. W. Wattles, E. C. Flnkbine, Milton Tootle, Jr., E. A. Cudahy, C. H. Thorne. Annual meeting, Tuesday following first Monday in October. Main Office, Chicago, Ill.

Note: As company was in receiver's hands in 1908 and 1909, full figures are not available for those years.

Yard tracks and sidings, June 30, 1915, 559 miles; June 30, 1916, 575 miles.

Since 1907, the figures as shown cover the leased lines, which, under the old management, were separately operated.

Comment: The operating results of the Chicago Great Western Railroad for the fiscal year ended June 30, 1916, were the best recorded in a great many years. The freight density increased sharply during the year and the average freight train load was also moved up to a new high figure. Although the average freight rates tended to decline moderately, it will be noted that the average freight train loads were better than in 1915. The tonnage continues to be well diversified, the proportion of high grade freight tending to increase, and now averaging over 30%.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Balance	$1,763,994	$868,194	$895,930	$1,245,039	$183,609	$767,907
Earned on stock: Pfd...	4%	1.92%	2.04%	3.03%	.45%	1.87%

Note: Full figures for 1908 and 1909 cannot be given, as road issued no reports. Fixed charges in 1910, 1911, 1912, 1913 and 1914 included rentals of terminals, interest on bonds of main system, and controlled lines. In 1916 the following were included: Interest on Chicago Great Western 1st 4s, $1,032,798; interest on Mason City & Fort Dodge 4s, $480,000; joint facility rents, $690,701; miscellaneous rents, $34,123; miscellaneous charges, $18,038. The marked reduction in fixed charges in 1913 was due to the exchange of Wisconsin, Minnesota & Pacific 4s for 50% of their face value in Chicago Great Western 4s.

Profit and Loss Account, for year ending June 30, 1916, shows: Credit balance, June 30, 1915, $4,524,255; credit balance transferred from income, $1,763,994; profit on road and equipment sold, $1,273; unrefundable overcharges, $813; donations, $3,457; miscellaneous credits, $4,487; total, $6,298,279. Contra: Dividend appropriations of surplus, $877,343; surplus appropriated for investment in physical property, $5,687; loss on retired road and equipment, $72,419; miscellaneous debits, $31,564; credit balance carried to balance sheet, $5,311,266.

Comment: Gross revenues for the fiscal year 1916 reached the highest figures ever recorded, and the net receipts also underwent very substantial improvement. Fixed charges were practically unchanged during the year and therefore the final surplus was nearly double that of 1915. The amount earned on the preferred stock issue equalled approximately 4%, while the company made payments of 2% during the year.

TABLE C.—Capitalization Factors (Security Obligations and Earning Power)

Profit and loss surplus..	5,311,266	4,524,255	3,582,175	2,653,963	1,407,292	1,223,683
Total	$134,962,682	$134,757,708	$134,177,690	$133,408,236	$131,605,866	$131,324,041

Note: On June 30, 1916, the company owned $48,689,452 in par value of securities, of which $44,950,550 was pledged under the first 4s. The Mason City & Fort Dodge owned $720,600; $500,000 of which are pledged. The above balance sheet includes in the funded debt the bond issue of the Mason City & Fort Dodge R.R., although this issue has not been formally assumed.

Comment: There were practically no capitalization changes on the property during the year ended June 30, 1916. As measured on a mileage basis the net capitalization of the property is high, but the bonded debt represents only 30% of the total gross capital, and therefore the company has found little difficulty in carrying this capitalization. In 1916 the net income on net capital was well above the average for the past seven years.

TABLE D.—Bond Record and Ratings (Based on 7-Year Results, Per Mile of Road)

Name of Issue.	Interest Payable.	Maturity.	Lien on Miles.	Outstanding per Mile.	Average Income Available.	Interest R'q'r'd per Mile of System.	Factor of Safety.	Basis for Rating.		Net Rating.
								Security.	Salability.	
1. Chic. Gt. W. R.R. first 4s...	M&S	S 1959	(1st) 1,033	$25,000	$2,122	$700	67%	Fair	High	Ba.
2. Mason City & Ft. Dodge R.R. first 4s.....	J&D	Je 1955	and coll. (1st) 378	31,700	1,422	330	76%	"	Fair	B.
3. Minneapolis Term. first 3½s.	J&J	Ja 1950	Term.	.....		12	76%	Good	"	Baa.

Note: "Average income available" is the average net income available for interest charges, after deducting taxes for the ten years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see "Introduction." For Key to Ratings, see pages 19 to 21.

REFERENCE NOTES ON BOND ISSUES

1. Auth., $75,000,000; outstanding, $25,383,000; in treasury, $3,433,000. Dated Sept. 1, 1909; due Sept. 1, 1959. Int. paid at J. P. Morgan & Co., New York. Coupon and reg., $1,000. First lien on 756.01 miles, as follows: From Forest Hill to Galena Junc., Ill., 147.24 miles; Dubuque, Iowa, to St. Paul, Minn., 252.90 miles; Eden to Mantorville, Minn., 6.95 miles; Sumner to Waverly, Iowa, 21.94 miles; Wilson Junc. to Cedar Falls, Iowa, 7.48 miles; Oelwein to Des Moines, Iowa, 130.51 miles; South Des Moines to St. Joseph, Mo., 156.42 miles; Bee Creek to Beverly, Mo., 22.85 miles; and freight and passenger lines through Des Moines, Iowa, 2.81 miles; freight and passenger lines in Leavenworth, Kan., 0.10 mile; in Kansas City, Kan., 0.47 mile; in Kansas City, Mo., 0.53 mile; 5.81 miles from Sycamore to De Kalb, Ill., first lien on equipment exclusive of that owned by subsidiary companies, valued Jan. 1, 1911, at $8,790,613; first lien on the leasehold interests of the company in the Mason City & Ft. Dodge R.R., owning 378.13 miles, and first collateral lien on 277.43 miles of the Wisconsin, Minnesota & Pacific R.R., through pledge of first 4s of that Company; first lien on the following securities: $19,205,400 common and $13,635,752 preferred stock, being the entire capital stock of the Mason City and Ft. Dodge R.R.; $5,893,400 (entire) capital stock of the Wisconsin, Minnesota & Pacific R.R.; $150,000 (entire) capital stock of the Iowa Development Co.; $10,000 (entire) capital stock of the Iowa Townsite Co.; $7,000 capital stock of the Minnesota Transfer Ry. Co.; $103,600 capital stock of the St. Paul Union Depot Co.; $1,000 capital stock of the St. Joseph Union Depot Co.; $6,200 capital stock of the Iowa Transfer Ry. Co.; $22,700 capital stock of the St. Charles Hotel & Park Co.; and $12,500 capital stock of the Iowa Sugar Co. Legal for Savings Banks in Me., Mo. Listed on the New York and London Stock Exchanges. Interest paid without deduction for normal income tax.

2. Auth. and outstanding, $12,000,000. Dated June 1, 1905; due June 1, 1955. Int. paid at J. P. Morgan & Co., New York. Coupon, $1,000. First lien on 378.13 miles, as follows: From Hayfield, Minn., to Clarion, Iowa, 99.71 miles; Clarion to Ft. Dodge, Iowa, 28.05 miles; Ft. Dodge to Council Bluffs, Iowa, 15.69 miles; Gypsum to Coalville, Iowa, 2.90 miles; Oelwein to Clarion, Iowa, 98.09 miles; and spur at Ft. Dodge Depot, 0.79 mile; first lien on entire capital stock ($100,000) of the Omaha Grain Terminals, and upon the entire capital stock ($400,000) of the Webster County Coal & Land Co. An equal amount of No. 1 are reserved to retire these bonds, but neither interest nor principal is guaranteed. Legal for S. B. in Me. Interest paid without deduction for normal income tax.

3. Auth. and outstanding, $500,000. Dated Jan. 1, 1900; due Jan. 1, 1950. Int. paid at Bank of Montreal, New York. Coupon, $1,000. Redeemable at 105 and int. Assumed by Chicago Great Western R.R. First lien on the Minneapolis Terminal properties purchased from the Wisconsin Central Ry., including 7.56 miles of trackage, 22.79 acres of real estate on Boom Island, Minn., a freight house 80 x 417 ft., on a tract of ground 95 x 1000 ft., fronting Hennepin Sq., Minn., round house, coaling and water stations. Normal income tax deducted from interest.

For Key to Stock Ratings, see page 21. * To pay 4% per annum.

Note: Auth., $50,000,000 preferred and $46,000,000 common. In addition to above, amounts outstanding, $269,500 preferred and $36,400 common is held in the treasury. During the year ending June 30, 1914, $2,878,000 preferred stock was issued to acquire with an equal amount of the first 4s the $6,232,000 Wisconsin, Minnesota & Pacific first 4s, which defaulted in 1912. Preferred has preference as to assets, and 4% dividends; latter became cumulative on July 1, 1914. First dividend payment of 1% was made, December 1, 1915; 1% paid May 1, 1916, and 1% Oct. 2, 1916. Transfer Agents, J. P. Morgan & Co., New York. Both issues listed on New York and London Stock Exchanges.

COMPANIES CONTROLLED BY CHICAGO GREAT WESTERN RAILROAD

MASON CITY & FORT DODGE RAILROAD COMPANY

Incorporated under laws of Iowa, May 23, 1881. Line of road: Hayfield to Clarion, Ia., 99.71 miles; Clarion to Fort Dodge, 28.05 miles; Fort Dodge to Council Bluffs, 132.90 miles; Fort Dodge to Lehigh and Coalville, 18.59 miles; Oelwein to Clarion, 98.09 miles; trackage and spurs, 8.91 miles; total operated, 386.25 miles. Owns terminals in Council Bluffs and Omaha which have cost over $1,000,000, and has perpetual rights for use of Union Passenger Station in Omaha, owned by Union Pacific Railroad. Controlled by ownership of all capital stock by Chicago Great Western R.R., which operates the road under a 100-year lease from April, 1901, the lessee agreeing to pay the interest (but not the principal) on the company's bonds from net earnings of the property, retaining all surplus income.

Management: OFFICERS: S. M. Felton, Pres.; J. W. Blabon, Vice-Pres.; J. F. Coykendall, Sec. and Treas.; DIRECTORS: S. M. Felton, J. W. Blabon, W. H. McCord, Geo. A. Hormel, Luther Drake, C. H. McNider. OFFICE, Chicago, Ill.

Bonded Debt: $12,000,000 Mason City & Fort Dodge first 4s; dated June 1, 1905; due June 1, 1955; int. paid June and Dec. 1 at J. P. Morgan & Co., New York. Coupon, $1,000. First lien on entire property. The Chicago Great Western has reserved first 4s which may be used in retiring these bonds. For rating, see Chicago Great Western bond table.

Capital Stock: Auth., $14,000,000 4% non-cumulative preferred and $20,000,000 common; par $100. Outstanding, $13,635,752 preferred and $19,205,400 common, all owned by Chicago Great Western R.R. and deposited as collateral under that company's first 4s of 1959.

THE LEAVENWORTH TERMINAL RAILWAY & BRIDGE COMPANY

Origin: Incorporated in Kansas, January, 1892, to construct and operate a bridge and railway terminals between Stillings, Mo., and Leavenworth, Kan. Controlled through stock ownership by Chicago Great Western Railroad Co.

Location: Owns 1,110-foot railway bridge over Missouri River and terminals in Leavenworth, Kan. Was leased to K. C., St. Jo. & Council Bluffs Railroad, and Chicago, Rock Island and Pacific Railway till January, 1924, at $16,000 per annum for each company, and to Chicago, Great Western till July, 1924, at $12,000 per annum. In August, 1910, the Chicago Great Western R.R. acquired all the capital stock of the company. Line of road, Leavenworth to Stillings, Mo., 1¾ miles, including bridge over Missouri River.

Management: OFFICERS: S. M. Felton, Pres.; C. R. Berry, Vice-Pres.; J. F. Coykendall, Sec. and Treas. OFFICE, Leavenworth, Kan.

Bonded Debt: $560,000 Leavenworth Terminal Railway & Bridge first 5s; dated Jan. 1, 1893; due Jan. 1, 1923; interest Jan. 1 and July 1, at Central Trust Co., New York. Callable at 105 and interest. First lien on entire property. Chicago Great Western, which owns the stock of this company, does not guarantee the bonds, but the fixed income from rentals more than covers the interest requirements. Interest paid without deduction for normal income tax. Coupon, $1,000. Net Rating, Ba.

Capital Stock: Auth. and outstanding, $600,000; par $100. All owned by Chicago Great Western R.R. Co.

WISCONSIN, MINNESOTA & PACIFIC RAILROAD COMPANY

Incorporated under laws of Minnesota, April 24, 1894, succeeding the Wisconsin, Minnesota & Pacific Railway, which was sold under foreclosure. Line of road: Red Wing to Mankato, Minn., 95.7 miles; Red Wing to Osage, Ia., 118.2 miles; Winona to Simpson, Minn., 54.2 miles; branches, 8.41 miles; total, 277.43 miles. Controlled by Chicago Great Western R.R., which owns all outstanding stock, and leases the property for 999 years from April, 1901, lessee agreeing to pay interest on the company's bonds from the net earnings of the property, and to retain any remaining balance.

Management: OFFICERS: S. M. Felton, Pres.; J. W. Blabon, Vice-Pres.; J. F. Coykendall, Sec. and Treas. DIRECTORS: S. M. Felton, J. W. Blabon, John H. Rich, Benjamin Sommers, C. F. McConville. OFFICE, Chicago, Ill.

Bonded Debt: $6,232,000 Wisconsin, Minnesota & Pacific R.R. first 4s; dated Oct. 1, 1900; due Oct. 1, 1950; int. paid April and Oct. (if earned). Coupon, $1,000. First lien on entire property owned. In October, 1912, interest was defaulted on this issue, following which the Chicago Great Western R.R. offered to purchase the bonds, paying 50% of the par value in its own first 4s, and 50% in preferred stock. Up to June 30, 1916, all but $16,000 has been so acquired by the Chicago Great Western R.R. The bonds acquired have been deposited under the Chicago Great Western 4% mortgage.

Capital Stock: Auth., $10,000,000; outstanding, $5,893,400; par $100. All owned by Chicago Great Western R.R., and deposited as collateral under that company's 4% mortgage.

CHICAGO, INDIANAPOLIS & LOUISVILLE RAILWAY COMPANY

NOTE: The analysis is based on official documents of the Company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated Mar. 31, 1897, as successor to the Louisville, New Albany & Chicago Railway, which was sold under foreclosure.

Location: Lines directly operated consist of 622.41 miles, as follows: New Albany to Michigan City, Ind., 288.86 miles; Indianapolis to near Chicago, with branches, trackage rights, and other controlled mileage to Cincinnati, etc., 219.93 miles; total owned, 508.79 miles; trackage right, 104.40 miles; Indiana Stone R.R., 9.22 miles. Company controls and operates the Indianapolis & Louisville Ry., the Indiana Stone Railway, and has 999-year lease to use the tracks of the Chicago & Western Indiana Ry. and owns one-fifth of the stock of that company. These companies were purchased and directly merged in 1916. Also owns one-third interest in Kentucky & Indiana Terminal Co., at Louisville. Mileage is chiefly in Indiana. Population of this State in 1890, 2,192,404; in 1900, 2,516,462; in 1910, 2,700,876. In March, 1914, the company acquired all the stock, and $347,000 first mortgage bonds of the Chicago & Wabash Valley Ry. See page 250. Also controls the Monon Coal Co., and guarantees the interest on its bonds. See "Moody's Analyses of Industrials" for details regarding latter company.

Control: In August, 1902, the Louisville & Nashville and the Southern Railway jointly acquired 93% of $10,500,000 common stock and 77% of $5,000,000 preferred stock on basis of $78 per share for common and $90 per share for preferred. This stock was paid for at these rates by exchange for joint fifty-year collateral trust 4% bonds of these companies, which are secured by the stock acquired and are a joint obligation of the two companies mentioned. See description of these bonds under Southern Railway system (also general index). The Louisville & Nashville makes connection with the property at Cincinnati and at Louisville and the Southern Railway at Louisville. By this means these latter companies have a direct entrance into Chicago, Indianapolis, Michigan City, etc.

Management: OFFICERS: H. R. Kurrie, Pres.; M. F. Plant, Vice-Pres.; Fred Zimmerman, Vice-Pres.; Byron Cassell, Treas. and Asst. Sec.; J. A. Hilton, Sec. and Asst. Treas., New York. DIRECTORS: R. M. Gallaway, John I. Waterbury, Morton F. Plant, Henry Walters, H. R. Kurrie, S. T. Murdock, Adrian Iselin, Jr., Fairfax Harrison, F. B. Adams, Guy Cary, R. H. McCormick, Jr. Annual meeting, third Wednesday in September. NEW YORK OFFICE, 52 Broadway. CHICAGO OFFICE, 608 South Dearborn Street.

Classification of Freight Tonnage (Years Ending June 30)

	1907	1908	1909	1910	1911	1912	1913	1914	1915	1916
Products of Agriculture	13.63%	13.68%	12.03%	12.20%	12.16%	14.11%	11.85%	12.01%	11.21%	11.33%
Products of Animals	3.93	4.60	3.92	3.07	3.14	3.26	3.03	3.27	3.35	3.14
Products of Mines	41.42	42.65	46.98	46.23	46.10	48.26	50.08	52.27	55.82	55.47
Products of Forests	11.46	9.92	9.28	9.32	8.16	7.18	7.79	7.21	6.23	6.89
Manufactures	14.01	15.31	15.11	15.41	30.44	27.19	27.25	11.94	13.56	15.25
Merchandise and Miscel.	10.35	13.84	12.68	13.77				13.30	9.83	7.92

Total revenue tonnage in 1909, 2,961,152 tons; in 1910, 3,520,739 tons; in 1911, 3,656,179 tons; in 1912, 3,858,084 tons; in 1913, 4,546,441 tons; 4,652,608 tons in 1914; 4,335,682 tons in 1915; 5,297,567 tons in 1916.

The freight tonnage on this road is unusually well diversified. The single class of freight which represents the heaviest tonnage is stone, sand, etc., which in 1912 amounted to 1,104,052 tons; in 1913, 1,249,515 tons; 1,207,421 in 1914; 1,288,190 tons in 1915; in 1916 the heaviest tonnage was bituminous coal, 1,443,595 tons.

Diversified Investing

Price of the Book, $2.00 per copy net

This subject is fully covered in a small volume entitled "*How to Invest Money Wisely*," by John Moody, which we have recently published. For many years Mr. Moody has made a careful study of this subject in connection with his work as an analyst and adviser for bankers, financial institutions and investors, both at home and abroad. These principles for wisely and intelligently diversifying investment capital have been adopted within the past few years by numerous institutions and several thousand individual investors with satisfaction and profit.

MOODY'S INVESTORS SERVICE, 35 NASSAU STREET, NEW YORK

10-Year Average	615	....	133	111	6,486	67%	134,861	882,190	354	$1.76	1.89c	.79c

Yard tracks and sidings, June 30, 1916, 274 miles. The total mileage operated, as shown above, includes the Indiana Stone R.R., 9 miles, and 114 miles of tracks used under contract. The company had outstanding on June 30, 1916, $1,378,000 of equipment trusts.

Comment: During the fiscal year 1916, the Chicago, Indianapolis & Louisville made substantial progress in its volume of freight and passenger business. The freight density reached the highest average of the decade, while the average freight train load also improved very substantially. Average freight rates declined, but this did not prevent the train mile earnings from rising to a new high figure. There was practically no change in the character of the tonnage transported during the year, the company as usual depending primarily on soft coal.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ended June 30.	Gross Revenues.	Maintenance. Way.	Maintenance. Equipment.	Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.

Earned on stock: Pfd.	17.84%	4.8%	2.91%	10.77%	8.18%	14.25%
Com.	6.60	.4	.....	3.22	1.99	4.88

* Dividend charged in profit and loss account in 1916. † Deficit.

Note: Fixed charges in 1916 included: Interest on bonds, $913,502; rentals, $648,070; hire of equipment, $4,861.

Profit and Loss Account, year ended June 30, 1916: Credit balance on June 30, 1915, $5,196,328; credit balance transferred from income, $892,084; unrefundable overcharges, $1,433; donations, $3,866; miscellaneous credits, $2,315; total, $6,096,026. Contra: Dividend appropriations of surplus, $540,882; debt discount extinguished through surplus, $356,255; loss on retired road and equipment, $124,842; miscellaneous debits, $103,955; credit balance carried to balance sheet, $4,970,092; total, $6,096,026.

Comment: Gross operating revenues increased sharply on the Chicago, Indianapolis & Louisville system during the fiscal year ended June 30, 1916, and there was also a healthy growth in the net revenues. As fixed charges advanced only moderately, the surplus carried forward was far higher than that reported in any year during the past decade.

TABLE C.—Capitalization Factors (Security Obligations and Earning Power)

	Capitalization Per Mile of Road.								Dividend Record.

10-Year Average	$25,210	47%	$27,441	52%	$15,247	$67,898	$4,074	$63,824	5.5%	$325	4%	$462	2.7%	54%	19%

Note: The bonded debt exhibit embraces the direct obligations of the company only. The rental figures include the guaranteed stock issue payments, the Monon Coal Company guaranty, and the rentals for joint facilities as capitalized at 5%. The investments owned by the company in 1916 aggregated $2,810,696, and embraced Belt Ry. of Chicago stock, Indiana Stone R.R. stocks and bonds, Chicago & Western Indiana stock and bonds, Indianapolis & St. Louis stock and bonds, Chicago & Wabash Valley Ry. stocks and bonds, etc.

Of the capital stock issues, a large majority is held by the Louisville & Nashville and Southern Railway companies, and deposited as collateral under their joint mortgage. The control of the road is of special value to these systems as a Chicago connection.

Comparative Condensed Balance Sheet, as of June 30

Assets:	1916	1915	1914	1913	1912	1911

Profit and loss surplus.	4,970,092	5,196,328	2,891,649	2,497,804	4,187,149	5,463,261
Total	$45,554,130	$42,426,990	$42,237,853	$39,865,531	$39,227,056	$41,198,205

Note: Funded debt in 1916 includes $6,705 government grants in aid of construction.

Comment: During the year ended June 30, 1916, the Chicago, Indianapolis & Louisville moderately increased its outstanding funded debt, but there was no change in the capital stock. It will be noted as measured on the mileage basis, the net capitalization of this road is rather heavy and has tended to increase sharply during the last ten years.

HOW TO INVEST MONEY WISELY

By JOHN MOODY

Every investor should have a copy of this little book. It is a complete and practical treatise of the subject of "Diversified Investing," and is the first authentic attempt to present sound principles for the investment of money on the plan of geographical distribution.

Price, $2.00 Per Copy

* Inclues maturing principal.

Note: The bond ratings are based not only on the statistical exhibits, but other considerations are factors in determining the rating, such as the relative position of the bond in relation to other issues, its size, the character of the mortgage, etc. For key to ratings, see page 19.

REFERENCE NOTES ON BOND ISSUES

1, 2 and 3. Auth., $15,000,000; outstanding, $4,700,000 6s; $5,000,000 5s; $5,300,000 4s. Date of 5s and 6s, July 1, 1897; date of 4s, April 1, 1910; due July 1, 1947. Int. paid at J. P. Morgan & Co., New York. Coupon, $1,000. No. 3 also reg., $1,000 and multiples. First lien on 508.79 miles (all in Indiana), as follows: From New Albany to Michigan City, 288.86 miles; Bedford to Switz City, 40.29 miles; Orleans to French Lick Springs, 17.70 miles; and Hammond to Indianapolis, 161.94 miles. Further secured on leaseholds and equipment and pledge of $1,240,000 securities. Underlie No. 4, which provides for retirement. Legal for S. B. in Maine and Missouri. Listed on New York Stock Exchange. Interest paid without deduction for normal income tax.

4. Auth., $40,000,000; outstanding, $3,250,000 Series A.; dated May 1, 1916; due May 1, 1966. Int. paid at Guaranty Trust Co., New York. Coupon, $500 and $100; reg., $100 and multiples. C. & R. interchangeable. First collateral lien on $500,000 first lien bonds of Chicago & Wabash Valley Ry., 36 miles from McCoysburg to Dinwiddie, Ind., and $253,000 first lien bonds of Indiana Stone R.R., 9.22 miles from Harrodsburg to Clear Creek, Ind. Second lien on 508.79 miles following Nos. 1, 2 and 3, and leasehold interests in terminal facilities in Chicago, Louisville and Indianapolis, the Kentucky and Indiana Bridge over the Ohio River and equipment valued at $6,264,421. Further secured by pledge of securities of par value of $1,768,000 of which $1,240,000 are subject to prior pledge. In addition to outstanding amount, balance of Series A, $1,280,000, are held in treasury. Sufficient reserved to retire Nos. 1, 2, 3 and 5 and 60% of equipment bonds; balance for extensions and improvements. Normal income tax deducted from interest.

5. Auth., $6,000,000; outstanding, $1,650,000 (closed); of which $478,000 are pledged under No. 4. Dated Jan. 1, 1906; due Jan. 1, 1956. Int. paid at Guaranty Trust Co., New York. Coupon, $1,000. Guar. prin. and int. by Chicago, Indianapolis & Louisville Ry. First lien on 64.17 miles (all in Indiana), as follows: From Wallace Junc. on the Chicago, Indianapolis & Louisville Main Line to Shirley Hill, 54.70 miles; from Vicksburg to Cass, 5 miles, and Midland to Lattas Creek, 4.47 miles. Sufficient of No. 4 reserved for retirement. Legal for S. B. in Me., Mo. Listed on New York Stock Exchange. Interest paid without deduction for normal income tax.

6. Auth., $3,000,000; outstanding, $2,875,000. Dated June 1, 1911; due June 1, 1936. Int. paid at Bankers' Trust Co., New York. Coupon, $1,000. Callable at par for sinking fund, or as a whole at 110, on any interest date. Sinking fund, 3 cents per ton on all coal mined (minimum $60,000) after 1913. Interest only guar. by C. I. & Louisville Ry. A first lien on entire property embracing 23.814 acres of coal lands in Clay, Green, Sullivan and Vigo counties, Ind., in the "Terre Haute field," on the lines of the C. I. & L. Ry. Interest paid without deduction for normal income tax.

7. Auth., $425,000; outstanding, $194,000. Dated March 15, 1911; due $21,000 each Sept. 15 and March 15 to Sept. 15, 1918, and thereafter $22,000 each March and Sept. 15 until March 15, 1921. Int. at 4½%, paid at Equitable Trust Co., New York. Coupon, $1,000. First lien on equipment. Interest paid without deduction for normal income tax.

8. Auth., $750,000; outstanding, $375,000. Dated Oct 16, 1911; due $37,000 each April 15 and $38,000 each Oct. 15, beginning April 15, 1912, and ending Oct. 15, 1921. Int. at 4½%, paid at Bankers' Trust Co., New York. Coupon, $1,000. First lien on equipment. Interest paid without deduction for normal income tax.

9. Auth., $1,000,000; outstanding, $700,000. Dated Aug. 1, 1913, due $50,000 each Feb. and Aug. 1 to Aug. 1, 1923. Int. at 4½% paid Feb. and Aug. 1, at Bankers' Trust Co., New York. Coupon, $1,000. Secured on 1,000 50-ton steel gondola cars and 250 50-ton steel flat cars, all costing $1,262,750. Interest paid without deduction for normal income tax. Market: New York.

Note: The company also guarantees principal and interest on $253,000 first 5s of the Indiana Stone R.R. These bonds are due in 1948, interest being payable March and September, and are a first lien on 9.22 miles from Harrodsburg to Clear Creek, Ind. They are all owned by the Chicago, Indianapolis & Louisville Ry, and pledged under No. 4. Jointly with the Baltimore & Ohio R.R. and the Southern Ry., the company guarantees principal and interest on $6,282,781 Kentucky & Indiana Terminal Ry. 1st 4s. See General Index. There were also outstanding on June 30, 1916, $26,160 5½% notes of Monon Realty Co. dated July 6, 1914, due semi-annually to July 6, 1924, assumed by C. I. & L. Ry.

Investment Position. Nos. 1, 2 and 3, being a direct first mortgage on the entire owned lines of the company, and the issue being closed, a strong rating is justified. The new general 5s are also well protected and of promising value. The guaranty on the Indianapolis & Louisville 4s adds to the strength of that issue. Monon Coal 5s stand in doubtful position. The equipment issues are well protected by the direct liens on equipment.

TABLE E.—Stock Record and Ratings (Based on 10-Year Results, Per Mile of Road)

Name and Details of Issue.	Rate and Date Dividends.	Amount Outstanding per Mile.	Average Income Available per Mile.	Dividend Required per Mile of System.	Factor of Safety.	Basis for Rating.		Net Rating.

* For 3¼% dividends.

Note: Of the above preferred stock 77% is jointly owned by the Louisville & Nashville and the Southern Railway and deposited as collateral under the joint 4% bonds; 93% of the common stock is so owned and deposited. Dividends have been paid on preferred at full rate of 4% since 1903, and on common as follows: 1902, 1%; 1903, 3¾%; 1904, 2½%; 1905 to 1908, 3% each; 1909, 3⅛%; 1910 to 1913, 3¼% each; 1914, 1⅝%; none in 1915; 1916, 3¼%. Preferred issue listed on New York Stock Exchange. Transfer Agents, J. P. Morgan & Co., New York.

COMPANIES CONTROLLED BY CHICAGO, INDIANAPOLIS & LOUISVILLE RAILWAY

THE CHICAGO & WABASH VALLEY RAILWAY COMPANY

Origin: Incorporated May 3, 1900, and consolidated with the Dinwiddie & Gary Ry. July 29, 1909. On March 15, 1914, control was acquired by Chicago, Indianapolis & Louisville Ry. through purchase of $347,400 out of $350,000 capital stock and all the first mortgage bonds. In Sept., 1916, it was proposed to directly merge this property with the C. I. & L. Ry.

Location: Line of road, McCoysburg to Dinwiddie, Ind., 36 miles. A further extension of 26 miles is projected. The road is now being rebuilt with 75 lb. rails. Equipment: Locomotives, 2; cars, 5.

Management: Officers: H. R. Kurrie, Pres.; Fred. Zimmerman, Vice-Pres.; Byron Cassell, Sec. and Treas. Directors: Byron Cassell, H. R. Kurrie, Fred Zimmerman, F. E. Lewis, H. T. Evans, Perry McCart, E. F. Thomson, Firman Thompson, O. Dinwiddie. Annual meeting, third Friday in Sept. Office, Chicago, Ill.

Bonded Debt: $1,650,000 Indianapolis & Louisville Ry. 1st 4s, due Jan. 1, 1956. For details and rating, see C. I. & L. bond table, page 249.

Capital Stock: Auth. and issued, $100,000; par $1.00. All owned by Chicago, Indianapolis & Louisville Ry.

INDIANA STONE RAILROAD COMPANY

Incorporated under laws of Indiana, Jan. 3, 1898. Line of road: Clear Creek to Harrodsburg, Ind., 9.22 miles. Leased to Chicago, Indianapolis & Louisville Ry. for 99 years from Sept. 1, 1899, rental being guarantee of principal and interest on bonds. Directly operated by lessee. In Sept., 1916, it was proposed to directly merge this property.

Management: OFFICERS: H. R. Kurrie, Pres.; Fred. Zimmerman, Vice-Pres.; Byron Cassell, Sec. and Treas.; H. T. Evans, Aud. DIRECTORS: H. R. Kurrie, Fred Zimmerman, H. T. Evans, W. J. Holmes, A. S. Kent, Perry McCart, E. F. Thomson. Annual meeting, third Wednesday in Sept. OFFICE, Chicago, Ill.

Bonded Debt: $253,000 Indiana Stone R.R. 1st 5s; dated Sept. 1, 1899; due Sept. 1, 1949; int. paid M. and S. 1 at Central Trust Co., New York. First lien on entire property. All now owned by C. I. & L. Ry.

Capital Stock: Auth. and issued, $15,000; par $100. All owned by Chicago, Indianapolis & Louisville Ry.

CHICAGO, MILWAUKEE & ST. PAUL RAILWAY COMPANY

NOTE: The analysis is based on official documents of the company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated May 5, 1863, under Wisconsin laws as the Milwaukee & St. Paul Railway Co.; name changed to above on February 14, 1874. Many smaller lines were acquired by purchase, and a system gradually developed extending from Chicago and Milwaukee to St. Paul, Duluth, Kansas City, Omaha, and many points in the States of Wisconsin, Iowa, Minesota, North and South Dakota, etc.

Location: Prior to 1913, the directly operated lines of the company embraced 7,294.40 miles only, and included the original main system; but on Jan. 1, 1913, the Chicago, Milwaukee & Puget Sound Ry. was formally merged with the main company, its bonded debt being assumed and its entire capital stock of $1,000,000 being held as an evidence of title. The total length of lines on June 30, 1916, including trackage rights, was 10,207.94 miles, the average operated during the year being 10,130.08 miles. Of the total operated, 9,670.37 miles was owned absolutely, 105.54 miles owned jointly with other companies, and the balance operated under trackage rights. The lines of the road are in the following States: Wisconsin, 1,823.59 miles; Illinois, 415.04 miles; Iowa, 1,875.95 miles; Minnesota, 1,244.90 miles; North Dakota, 379.93 miles; South Dakota, 1,794.87 miles; Missouri, 140.27 miles; Michigan, 197.39 miles; Montana, 1,056.13 miles; Idaho, 237.89 miles; Washington, 690.79 miles.

Interests in other Companies: Aside from its directly operated lines, the company controls the Big Blackfoot Ry., Tacoma Eastern R.R., the Bellingham & Northern Ry., the Gallatin Valley Railway, the Milwaukee Terminal Ry., the Idaho & Washington Northern Ry., and the Seattle, Port Angeles & Western Ry. In Jan., 1916, the Idaho & Washington Northern was purchased at foreclosure sale and is now operated as part of the main system.

Management: OFFICERS: A. J. Earling, Pres.; H. R. Williams, Vice-Pres.; C. B. Ferry, Vice-Pres., Asst. Sec. and Asst. Treas.; J. H. Hiland, Vice-Pres.; E. S. Keeley, Vice-Pres.; E. D. Sewall, Vice-Pres.; D. L. Bush, Vice-Pres.; H. B. Earling, Vice-Pres.; C. A. Goodnow, J. W. Taylor, Assts. to Pres.; E. W. Adams, Sec.; A. C. Hagensick, Asst. Sec.; R. J. Marony, Asst. Yard tracks and sidings, June 30, 1916, 3,395 miles.

Comment: During the fiscal year ended June 30, 1916, the freight business of the Chicago, Milwaukee & St. Paul Railroad underwent a very great improvement, and the freight density was raised to figures never before reached. The average freight train load was also much higher than in the past, while in the face of declining freight rates the company reported a substantial improvement in train mile earnings.

* Outside operations are included in Gross and Net Revenues.

† Dividends charged in profit and loss account. See next page.

‡ Deficit.

Note: Other income in 1916 included: interest and dividends on securities owned, $2,279,811; rents received, $464,892; miscellaneous, $380,006. Fixed charges included: interest on bonds, $15,604,262; rents paid, $1,039,907; hire of equipment, $1,260,315; miscell. charges, $42,843. The increase in fixed charges as shown above 1913 was chiefly due to the consolidation of the Puget Sound lines with the main system. This also explains the large increase in revenues in that year.

Profit and Loss Account, year ended June 30, 1916: Credit balance at beginning of year, $33,847,585; credit balance transferred from income, $16,717,358; unrefundable overcharges, $45,891; donations, $19,959; miscellaneous credits, $2,892,920; profit on road and equipment sold, $740,327; total, $54,264,040. Contra: Surplus applied to sinking and other reserve funds, $92,270; dividend appropriation of surplus, $13,391,478; surplus appropriated for investment in physical property, $19,959; debt discount extinguished through surplus, $1,160,922; loss on retired road and equipment, $446,152; miscellaneous debits, $403,967; credit balance carried to balance sheet, $38,749,292; total, $54,264,040.

Comment: Gross operating revenues increased very sharply on the St. Paul system during the fiscal year 1916, and although operating and maintenance costs were high, the net revenues were far higher than in any previous year. Income from outside sources declined, however, and therefore the final surplus available for charges, while large, did not show as great an increase as would have otherwise been the case. Fixed charges also advanced and therefore the surplus available for dividends, while better than in 1914, did not reach the high average figures of good years like 1910 and 1911. The disbursement of 5% on the common stock of the company was continued.

TABLE C.—Capitalization Factors (Security Obligations and Earning Power)

	Capitalization Per Mile of Road.								Dividend Record.					
Years Ended June 30.	Stock Outstanding and Per Cent of Whole.		Bonds Outstanding and Per Cent of Whole.		Rentals Cap. at 5 Per Cent.	Total Gross Capital	Owned by Co. as per Balance Sheet. Accrd. liabilities not due	870,434	4,403,097	5,929,558	5,810,589	4,584,491	4,441,824
Deferred credit items...	4,396,216	4,163,079	3,189,081	3,178,764	2,948,931	2,229,739
Appropriated surplus...	678,547	543,612	430,269	319,234	1,221,687	1,102,214
Profit and loss surplus..	38,749,292	33,904,375	40,860,896	43,417,093	42,931,525	49,278,508
Total	$651,754,813	$643,876,647	$630,762,992	$751,497,727	$560,990,474	$527,782,412

Note: In 1914, the item of Working Assets was radically reduced by the elimination of the large holding of C. M. & Puget Sound first 4s, which was removed from both sides of the balance sheet. This was done in connection with the issuance of the new general mortgage. Property investment account included in 1916, $10,711,663 of unpledged securities.

Comment: There were practically no capitalization changes of importance on the St. Paul System during the fiscal year 1916. It will be noted that as measured on the mileage basis the net capitalization of the property has rather radically increased during the past ten years, but earning power has also been well maintained with this increase in capital, and the capitalization today is being carried without any serious difficulty. The financial position of the St. Paul is strong as shown by the fact that the surplus of the company continues to range at high figures.

TABLE D.—Bond Record and Ratings (Based on 10-Year Results, Per Mile of Road)

Name of Issue.	Interest Payable.	Maturity.	Lien on Miles.	Outstanding per Mile.	Average Income Available.	Interest R'q'r'd per Mile of System.	Factor of Safety.	Basis for Rating.		Net Rating.

Note: "Average income available" is the average net income available for interest charges, after deducting taxes, for the ten years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Bond Ratings, see pages 19 to 21.

REFERENCE NOTES ON BOND ISSUES

1. Auth., $20,000 per mile; outstanding, $1,360,000 (closed). Dated July 21, 1881; due July 1, 1921. Int. paid at office of company in New York. Coupon, $1,000. First lien, 175.00 miles, as follows: Portage to East Madison, Wis., 33.01 miles; Madison to Beloit, 56.86 miles; Rockton to Rockford, Ill., 14.94 miles; Elkhorn to Eagle, Wis., 16.59 miles; Horicon to Winneconne, 50.39 miles; branches, 3.21 miles. Underlie Nos. 9, 10 and 18, which provide for retirement. Legal for Savings Banks in Cal., Conn., Fla., Maine, Mass., Mich., Mo., N. H., N. J., N. Y., R. I., Wis. Listed on New York and London Stock Exchanges. Normal income tax deducted from interest.

2. Auth. and outstanding, $3,083,000 (closed). Dated July 1, 1886; due July 1, 1926. Int. paid at office of company in New York. Coupon, $1,000. First lien, 75.02 miles, as follows: Tripp to Armour, S. D., 20.45 miles; Roscoe to Orient, 40.99 miles; Roscoe to Bowdle, 13.58 miles. Underlie Nos. 9, 10 and 18, which provide for retirement. Legal for S. B. in Cal., Conn., Fla., Maine, Mass., Mich., Minn., Mo., N. H., N. J., N. Y., R. I., Wis. Listed on New York Stock Exchange. Normal income tax deducted from interest.

3. Auth. and outstanding, $25,334,000 (closed). Dated Jan. 1, 1881; due Jan. 1, 1921. Int paid at office of company, New York. Coupon, $1,000. First lien, 1,124.21 miles, as follows: Marion to Council Bluffs, 261.06 miles; Marion to Farley, Ia., 52.13 miles; Marion to Coburg, Mo., 298.73 miles; Manila, Ia., to Aberdeen, S. D., 354.44 miles; Elk Point to Sioux Falls, 70.09 miles; Woonsocket to Egan, S. D., 87.76 miles. Underlie Nos. 9, 10 and 18, which provide for retirement. Legal for S. B. in Cal., Conn, Maine, Mass., Mich., Minn., Mo., N. H., N. J., N. Y., R. I., Vt., Wis. Listed on New York and London Stock Exchanges. Normal income tax deducted from interest.

4. Auth., $6,500,000; outstanding, $4,532,000 (closed). Dated July 1, 1880; due July 1, 1920. Int. paid at office of company, New York. Coupon, $1,000. First lien, 350.85 miles as follows: Clinton, Ia., to River Junc., Minn., 176.01 miles; Reno to Preston, Minn., 57.78 miles; Waukon to Waukon Junc., Ia., 22.95 miles; Turkey River Junc. to West Union, Ia., 58.34 miles; Bellevue to Cascade, Ia., 35.77 miles. Underlie Nos. 9, 10 and 18, which provide for retirement at maturity. Sinking fund of 1% per annum to purchase bonds at 103. Legal for S. B. in Cal., Conn., Mass., Mich., Minn., Mo., N. H., N. J., N. Y., R. I., Vt., Wis. Listed on New York and Boston Stock Exchanges. Normal income tax deducted from interest.

5. Auth., $3,000,000; outstanding, $2,496,000 (closed). Dated July 1, 1879; due July 1, 1919. Int. paid at office of company, New York. Coupon, $1,000. First lien, 186.75 miles, as follows: Davenport to Jackson Junc. and connection, 152.14 miles; Eldridge to Maquoketa, 34.61 miles. Underlie Nos. 9, 10 and 18, which provide for retirement at maturity. Legal for S. B. in Cal., Conn., Mass., Mich., Minn., Mo., N. H., N. J., N. Y., R. I., Vt., Wis. Listed on New York Stock Exchange. Normal income tax deducted from interest.

6. Auth. and outstanding, $4,755,000. Dated July 1, 1881; due July 1, 1921. Int. paid at office of company in New York. Coupon, $1,000. First lien, 213.52 miles, as follows: Wabasha to Zunbrota, Minn., 54.21 miles; Wabasha to Chippewa Falls, 61.38 miles; Red Cedar Junc. to Menominee, 16.32 miles; Cannon Junc. to Northfield, 31.98 miles; Hastings to Stillwater and to St. Paul, 41.33 miles; St. Paul to Minneapolis, 8.30 miles. Underlie Nos. 9, 10 and 18, which provide for retirement. Legal for S. B. in Cal., Conn., Maine, Mass., Mich., Minn., Mo., N. H., N. J., N. Y., R. I., Vt., Wis. Listed on New York Stock Exchange. Normal income tax deducted from interest.

7. Auth. and outstanding, $1,526,000. Dated July 1, 1880; due July 1, 1920. Int. paid at office of company, New York. Coupon, $1,000. First lien, 161.49 miles, Tomah to Minocqua, Wis. Underlie Nos. 9, 10 and 18, which provide for retirement at maturity. Sinking fund of 1% per annum to purchase bonds at 103. Legal for S. B. in Cal., Conn., Maine, Mass., Mich., Minn., Mo., N. H., N. J., N. Y., R. I., Vt., Wis. Listed on New York and Boston Stock Exchanges. Normal income tax deducted from interest.

8. Auth. and outstanding, $1,248,000 (closed). Dated Oct. 10, 1883; due Jan. 1, 1924. Int. paid at C. M. & St. Paul office, New York. Coupon, $1,000. Assumed by C. M. & St. Paul Ry. First lien, 116.97 miles; Fargo, N. D., to Ortonville, Minn. Underlie Nos. 9, 10 and 18, which provide for retirement. Legal for S. B. in Cal., Conn., Mass., Mich., Minn., Mo., N. H., N. J., N. Y., R. I., Vt., Wis. Listed on New York Stock Exchange. Normal income tax deducted from interest.

9-10. Auth., $150,000,000; outstanding, $48,241,000 4s, $8,950,000 3½s, and $42,597,000 4½s. The 4s are Series A, the 3½s Series B, and the 4½s Series C. Dated May 1, 1889; due May 1, 1989. Int. paid at office of company, New York. First lien, 3,909.55 miles, as follows: Chicago to Milwaukee, 82.99 miles; North Chicago to Savanna, Ill., 136.42 miles; Savanna to E. M. & St. Paul Ry. First lien 292.46 miles, as follows: Green Bay to Champion, 146.78 miles; Channing to Ontonagon, Mich., 92.87 miles; branches, 52.81 miles; also second lien on 128.25 miles, following No. 11. Underlie No. 18, which provides for retirement. Legal for S. B. in Cal., Conn., Mass Minn., N. H., N. Y., R. I., Vt. Listed on New York Stock Exchange. Normal income tax deducted from interest.

13. Auth., $50,000,000; outstanding, $33,286,000 (closed). Dated July 1, 1909; due July 1, 1934. Int. paid at company's office, New York. Coupon and reg., $1,000. Originally debentures, but now equally secured with No. 18 (which see). Legal for S. B. in Cal., Conn., Mass., N. H., N. Y., Vt. Listed on New York and London Stock Exchanges. Interest paid without deduction for normal income tax.

14 and 15. Auth., $48,176,655; oustanding, $17,608,185, (No. 14) dated June 1, 1910; and $30,568,470, (No. 15) dated Dec. 1, 1915; both due June 1, 1925; interest payable Jan. & Dec. 1 on No. 14 in London and Paris and on No. 15 at company's office in New York. Coupon (No. 14), 2,500 francs, 500 francs and £19 15s. 6d. and (No. 15), $1,000. This issue was originally an European loan dated June 1, 1910, which in 1915 the company arranged to take up with new gold bonds, dated Dec. 1, 1915, secured by pledge of the former. The new issue is callable as a whole only at par after June 1, 1922, on eight weeks' notice. On June 30, 1916, there were still outstanding $17,608,185 of the franc bonds upon pledge of which a like amount of gold bonds are issuable. Equally secured with No. 18. Legal for S. B. in N. H. and R. I. No. 15 listed on New York Stock Exchange. Normal income tax deducted from interest.

16. Auth., $50,000,000; outstanding, $49,980,800. Dated June 1, 1912; due June 1, 1932. Int. paid at office, New York. Coupon, $100, $500 and $1,000; reg., $500, etc. C. & R. interchangeable. Callable at 105 and int. on ninety days' notice on and after Dec. 1, 1922. Convertible into common stock at par after June 1, 1917, and prior to June 1, 1922. The new general and refunding mortgage (No. 18) equally secures these bonds, sufficient of which are reserved to retire this issue. See below. Legal for S. B. in Cal., Conn., Mass., N. H., N. Y., Vt. Listed on New York and London Stock Exchanges. Interest paid without deduction for normal income tax.

17. Auth., $200,000,000; outstanding, $173,525,511 (closed), of which $26,175,000 are in hands of public. $1,000,000 are in the ins. reserve fund and balance deposited under No. 18. Dated Jan. 1, 1909; due Jan. 1, 1949. Int. paid at office of company in New York. Coupon, $100, $500 and $1,000; reg. $500, etc., C. & R. interchangeable. Guar. prin. and int. by C. M. & St. Paul Ry., by endorsement, and now assumed. Secured by first lien on 2,333.71 miles, from Mobridge, S. D., to Maple Valley, Wash., with branches of which 70.80 miles, Black River Junc. to Tacoma Junc. and from Helsing Junc. to Hoquiam, Wash., are owned jointly; also upon terminals at Tacoma, Seattle, Butte and Spokane, and 126.47 miles of trackage rights. Underlie No. 18. Legal for S. B. in Cal., Conn., Mass., N. Y., N. J., Mich., Minn., N. H., R. I., Vt. and Wis. Listed on New York Stock Exchange. Interest paid without deduction for normal income tax.

REFERENCE NOTES ON BOND ISSUES (Continued)

18. Auth. to limit of three times cap. stock, less prior liens; outstanding, $18,089,000 Series A, 4½s. Dated Nov. 1, 1913; due Jan. 1, 2014. Int. paid at office of company, New York. Coupon, $1,000. Direct (probably following No. 9-10) on 459.74 miles of branches and extensions in Iowa, S. D. and Minn.; direct second lien on 6,535.72 miles, following No. 9-10 on 3,909.55 miles, following No. 12 on 292.46 miles and following No. 17 on 2,333.71 miles; a direct third lien on 2,532.06 miles, as follows: following No. 9-10 on 2,403.81 miles, following No. 13 on 128.25 miles; a lien on the joint use of 368.88 miles. Nos. 13, 14, 15, 16 and 19 are equally secured with these bonds on the same property.

The present outstanding Series A bonds are part of an issue of $154,489,500 issued for exchange for a like amount of Chicago, Milwaukee & Puget Sound first 4s, which are owned by the St. Paul company and pledged under this mortgage. Of the unissued amount, $316,428,500 are reserved to retire all prior liens as well as Nos. 13, 14, 15 and 16, at or before maturity. Of the balance, $226,951,600 may be issued, subject to restrictions for the corporate purposes of the company; beyond this limit, further issues shall only be for 75% of cost of improvements, etc. Interest is limited to 6% for all series; any series may be made convertible into capital stock or redeemable. Series A is neither convertible nor redeemable. Legal for S. B. in Conn., Mass., Mich., N. J., N. Y., R. I., Vt. Listed on New York Stock Exchange. Normal income tax deducted from interest.

19. Outstanding, $29,129,800 Series B 5s. Dated Feb. 1, 1915; due Jan. 1, 2014. Int paid at office of company in New York. Coupon, $100, $500, and $1,000; reg., $1,000. Convertible at the option of the holder from February 1, 1916, to February 1, 1926, into common stock at par. Not subject to call. This issue is part of the new general and refunding mortgage, described under No. 18, and is equally secured with that issue and with Nos. 13, 14, 15 and 16. Legal for savings banks in Conn., Mass., Mich., N. J., N. Y., etc. Normal income tax deducted from interest.

20. Auth. and issued $2,999,500. Dated June 1, 1913; due June 1, 1918. Int. paid June and Dec. to holders of record on May 20 and Nov. 20 preceding at U. S. Trust Co., New York. Reg., $100, etc. Callable at 102½ on 30 days' notice. Guar. Prin. and int. by C. M. & St. Paul Ry., by endorsement. Secured by deposit of like amount of capital stock of Puget Sound & Willapa Harbor Ry. The trust agreement provides that the C. M. & St. Paul Ry. shall purchase this stock at $100 per share on July 1, 1918. Interest paid without deduction for normal income tax.

Bonded Debt: $884,000 Tacoma Eastern R.R. first 5s; dated Jan. 1, 1903; due Jan. 1, 1923; int. paid Jan. & July 1, at Harris Trust & Savings Bank, Chicago. Coupon, $1,000. First lien on entire property of company. Interest paid without deduction for normal income tax.

Capital Stock: Auth. and issued, $750,000 6% non-cumulative preferred and $750,000 common; par, $100. All owned by Chicago, Milwaukee & St. Paul Ry. In fiscal year 1910-11, dividends from surplus of 11% each were paid on both classes of stock. None since.

CHICAGO AND NORTH WESTERN RAILWAY COMPANY

NOTE: This analysis is based on official documents of the company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated under Illinois laws, June 6, 18 9 as successor to the Chicago, St. Paul & Fond du Lac R.R. operating from Chicago to Fond du Lac, Wis., about 177 miles. Extensions were made from time to time, and construction of further lines added to the length of the system. The Sioux City & Pacific R.R. was acquired in 1901, and the Fremont, Elkhorn & Missouri Valley was formally absorbed in 1903. In 1909 the company purchased the Manitowoc, Green Bay & Northwestern and the Milwaukee & State Line Ry. In 1910-11 the Sioux City, Dakota & Northwestern and the Lee County Ry. were acquired. These and other lines were built in the interest of the main company. Among the lines recently organized are the Belle Fourche Valley Ry., the James River Valley & Northwestern Ry., Milwaukee, Peoria & St. Louis R.R., the Milwaukee, Sparta & Northwestern Ry. and the St. Louis, Peoria & Northwestern Ry.

Location: The directly operated lines of the company on June 30, 1916, amounted to 8,107.82 miles, of which 7,946.13 miles were owned, 82.93 miles operated under lease, 1.98 miles operated under stock ownership and 76.78 operated under trackage rights. This mileage was located as follows: In Illinois, 824.53 miles; in Wisconsin, 2,170.03 miles; in Michigan, 519.88 miles; in Minnesota, 650.30 miles; in Iowa, 1,633.14 miles; in North Dakota, 14.28 miles, in South Dakota, 1,063.15 miles; in Nebraska, 1,102.05 miles; in Wyoming, 130.46 miles. Mileage mainly in Wisconsin, Iowa, Minnesota, Michigan, South Dakota and Nebraska. Population of these States in 1890, 8,382,209; in 1900, 9,941,141; in 1910, 11,220,614.

In addition to its directly operated lines, the company controls by ownership of a majority of stock the Chicago, St. Paul, Minneapolis & Omaha Railway (which see). The company also has a part interest in the Indiana Harbor Belt R.R.; owns all the stock of the Des Plaines Valley Ry., and controls two new companies which began operation in 1914, viz.: Macoupin County Extension Ry., and the Iowa Southern Ry.

Management: OFFICERS: Marvin Hughitt, Chairman; Richard H. Aishton, Pres.; Samuel A. Lynde, Vice-Pres.; Marvin Hughitt, Jr., Vice-Pres.; H. R. McCullough, Vice-Pres.; Edw. M. Yard tracks and sidings, June 30, 1916, 3,511 miles. Of the total mileage operated, as shown above, 7,946 miles are fully owned. A portion of the equipment is held under equipment trusts.

Comment: During the fiscal year 1916, the Chicago & North Western Railway reported a sharp increase in its freight density, and its freight train load also underwent an important advance. Although freight rates tended to decline, train mile earnings ranged at a very high figure and the condition of the property in general was most satisfactory. During 1916, the company reported a larger proportion of mining products in its freight tonnage than at any time previously.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ended June 30.	Gross Revenues.	Maintenance.		Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.

Note: Total net income, as shown in the above table,includes, besides the operating earnings, dividends and interest on securities owned, rentals, etc. Fixed charges include rentals of tracks and of joint facilities, interest on debt and sinking funds, etc. In 1916, interest on funded debt aggregated $9,312,125; rentals, $941,166; other deductions, $124,381.

Profit and Loss Account, year ended June 30, 1916: Credit balance, June 30, 1915, $35,810,758; credit balance transferred from income account, $6,166,325; miscellaneous credits, $244,818; profit on equipment sold, $44,197; total, $42,266,098. Contra: Debt discount extinguished through surplus, $1,545; loss on equipment retired, $1,208,526; miscellaneous debits, $38,220; credit balance carried to balance sheet, $41,017,807; total, $42,266,098.

Comment: Gross revenues on the Chicago & North Western system reached the highest totals in its history during the fiscal year ended June 30, 1916. Notwithstanding the fact that maintenance and operating costs tended to advance, the net earnings were also far higher than ever before, and the surplus available for charges was an unusually heavy one. Fixed charges themselves declined slightly and the balance carried forward was equal after providing for the preferred dividends, to nearly 12% on the outstanding common stock. Since the close of the fiscal year, the operating results have continued to show substantial progress.

Stock outstanding does not include that owned by company, which amounted to $2,342,337 in 1916.

Comment: A considerable increase was reported in the funded debt of the Chicago & North Western System during the fiscal year 1916. Nevertheless the earning power of this property is so high that the increase in capitalization was easily carried, and as will be seen by the exhibit above, the company reported income of 8.5% on its net capitalization. The general financial position of the property is strong as is shown by the fact that a large addition was made during the year to the surplus of the company.

Diversified Investing

Price of the Book, $2.00 per copy net

This subject is fully covered in a small volume entitled "*How to Invest Money Wisely*," by John Moody, which we have recently published. For many years Mr. Moody has made a careful study of this subject in connection with his work as an analyst and advisor for bankers, financial institutions and investors, both at home and abroad. These principles for wisely and intelligently diversifying investment capital have been adopted within the past few years by numerous institutions and several thousand individual investors with satisfaction and profit.

Note: "Average income available" is the average net income available for interest charges, after deducting taxes, for the ten years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Ratings, see pages, 19 to 21.

REFERENCE NOTES ON BOND ISSUES

Normal income tax deducted from interest for all series.

TABLE E.—Stock Record and Ratings (Based on 10-Year Results, Per Mile of Road)

Name and Details of Issue.	Rate and Date Dividends.	Amount Outstanding per Mile.	Average Income Available per Mile.	Dividend Required per Mile of System.	Factor of Safety.	Basis for Rating.		Net Rating.
						Equity.	Salability.	
Chicago & North Western Ry., preferred..... Prior right to 7% non-cumulative; then common receives 7%; then preferred 3% more; then common 3% more; after which both issues share equally. Par $100. Outstanding $22,395,120.	8% QuJ	$2,762	$1,728	$221	87%	Very high	Very high	Aa.*
Chicago & North Western Ry., common..... Par $100. See dividend terms above. Outstanding $130,117,029.	7% J&J	16,048	1,507	1,123	25%	Large	High	A.

For Key to Stock Ratings, see page 21.

* For 8% dividend. Rate would have to be cut to 7% before any reduction is made on common, or when such reduction should be made.

Note: "Average income available" on stock issues is the average surplus, after deducting all fixed and other charges, for the ten years ending June 30, 1916. "Dividend requirement" is the requirement, at the current rate, on the present amount outstanding. For Key to Ratings, see pages 21 to 23.

Auth. (both issues), $200,000,000; par, $100. Since 1864 the company has paid over $70,000,000 in dividends on its preferred and over $120,000,000 on its common stock. The rate on the preferred since 1902 has been 8% per annum; prior to that, 7% from 1886; prior to 1886 paid rates varying from 7 to 10% for many years. On common, since 1902, rate has been 7% per annum. Stock is transferred at company's office. Both issues listed on New York Stock Exchange.

New Stock: In Dec., 1916, it was proposed to issue $15,250,950 additional common stock to be offered to stockholders at par.

COMPANIES LEASED BY CHICAGO & NORTH WESTERN RAILWAY

BELLE FOURCHE VALLEY RAILWAY

Incorporated under laws of South Dakota, May 26, 1909, and opened July 1, 1910. Line of road: Belle Fourche to Newell, S. D., 23.52 miles. Sidings, 2.96 miles. Leased to Chicago & North Western Ry. to July 1, 1912; lease then renewed to July 1, 1914; again renewed to July 1, 1939, rental being 5% per annum on indebtedness to lessee.

Management: Officers: Richard H. Aishton, Pres.; Marvin Hughitt, Jr., Vice-Pres.; A. B. Jones, Treas.; J. D. Caldwell, Sec. Office, Chicago, Ill.

Capital Stock: Auth. and issued, $5,000; par, $100. Owned by Chicago & North Western Railway. No bonds.

JAMES RIVER VALLEY & NORTHWESTERN RAILWAY

Incorporated under laws of South Dakota, July 3, 1909; opened Sept. 1, 1910. Line of road: Gettysburg to Blunt, S. D., 39.55 miles. Sidings, 4.03 miles. Leased to Chicago & North Western Ry. to Sept. 1, 1912; lease then extended to Sept. 1, 1914; lease then extended to Sept. 1, 1939, rental being 5% per annum on indebtedness to lessee.

Management: Officers: Richard H. Aishton, Pres.; Marvin Hughitt, Jr., Vice-Pres.; A. B. Jones, Treas.; J. D. Caldwell, Sec. Office, Chicago, Ill.

Comparative Condensed Balance Sheet as of June 30

Assets:	1916	1915	1914	1913
Property investment	$778,416	$778,067	$778,207	$777,848
Total	$778,416	$778,067	$778,207	$777,848

Capital Stock: Auth., $13,000,000; outstanding, $25,000; par, $100; all owned by Chicago & N. W. Ry. Indebtedness due latter company, $2,773,379. No bonds.

CHICAGO, ST. PAUL, MINNEAPOLIS & OMAHA RAILWAY COMPANY

NOTE: The analysis is based on official documents of the Company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated under laws of Wisconsin, May 25, 1880, as a consolidation of the Chicago, St. Paul & Minneapolis and the North Wisconsin Rys. In 1881 the St. Paul & Sioux City R.R. was acquired; in 1893 the Sault Ste. Marie & Southwestern Ry.; in 1895 the Superior Short Line Ry.; in 1904 the Chippewa Valley & Northwestern Ry. and the Eau Claire, Chippewa Falls & Northeastern Ry. were absorbed.

Location: The directly operated lines on June 30, 1916, consisted of 1,752.81 miles, of which 1,683.22 miles were owned and 69.59 miles operated under trackage rights. This mileage was located as follows: In Wisconsin, 781.14 miles; in Minnesota, 473.04 miles; in Iowa, 102.04 miles; in South Dakota, 88.20 miles; in Nebraska, 308.39 miles. Mileage mainly in Wisconsin, Minnesota, and Nebraska. The operating divisions are as follows: Eastern Division, 357.41 miles; Northern Division, 463.53 miles; Western Division, 620.24 miles; Nebraska Division, 311.63 miles. Population of States traversed, in 1890, 4,047,617; in 1900, 4,886,736; in 1910, 5,601,702.

Control: Company is controlled by the Chicago & North Western Railway Co., which owns a majority of its capital stock, viz.: $5,380,000 preferred and $9,540,000 common.

Management: OFFICERS: Marvin Hughitt, Chairman; Jas. T. Clark, Pres.; Samuel A. Lynde, Vice-Pres. and Asst. Sec.; Edw. M. Hyzer, Vice-Pres. and Gen. Counsel; A. W. Trenholm, Vice-Pres. and Gen. Mgr.; John D. Caldwell, Sec.; Arthur S. Pierce, Treas. and Asst. Sec. DIRECTORS: Marvin Hughitt, Harold S. Vanderbilt, Chauncey M. Depew, D. P. Kimball, Zenas Crane, W. K. Vanderbilt, W. K. Vanderbilt, Jr., Oliver Ames, James T. Clark, Fred'k W. Vanderbilt, Samuel Carr, E. M. Hyzer. Annual meeting, first Friday after third Thursday in October. MAIN OFFICE, St. Paul, Minn. NEW YORK OFFICE, 111 Broadway.

Classification of Freight Tonnage (Years Ending June 30)

Yard tracks and sidings, June 30, 1916, 633 miles.

Comment: This property reported a sharp increase in its freight density during the fiscal year 1916, and also showed considerable improvement in the average freight train load. Freight rates, however, continued to decline with the result that train mile earnings were only moderately better than during the previous year. As usual, the property depended mostly on agricultural products for its tonnage, but manufactures and miscellaneous articles represented a substantial amount of the business done.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ended June 30.	Gross Revenues.	Maintenance. Way.	Maintenance. Equipment.	Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Tota Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.

Common	11.90%	7.7%	6.60%	8.03%	6.97%	10.92%	9.85%

* Deficit.

Note: Fixed charges include interest on bonds and rentals. Rentals aggregated $387,160 and interest charges, $1,826,264 in 1913; $641,603 and $2,052,901, respectively, in 1914; $673,696, $2,152,313 in 1915; and $756,784 and $2,215,377 in 1916.

Profit and Loss Account, year ended June 30, 1916; Credit balance, June 30, 1915, $3,973,702; credit balance transferred from income account, $915,910; profit on road and equipment sold, $13,634; unrefundable overcharges, $20,522; donations, $15,600; miscellaneous credits, $18,308; total, $4,957,676. Contra: Dividend appropriations of surplus, $6,307; loss on retired road and equipment, $296,316; miscellaneous debits, $8,111; credit balance carried to balance sheet, $4,646,942. Total, $4,957,676.

Comment: For the fiscal year ended June 30, 1916, the Chicago, St. Paul, Minneapolis & Omaha made a very satisfactory income exhibit. Both gross and net revenues reached new high totals, and the surplus available for charges was far higher than that reported in the previous year. Only a nominal increase occurred in the fixed charges of the company, and therefore the surplus for dividends was amply sufficient to justify the disbursements which were made on the common stock. The position of the property since the close of the fiscal year has still further improved.

TABLE C.—Capitalization Factors (Security Obligations and Earning Power)

1915	17,009	43	22,438	57	.....	39,447	120	39,327	8.8	449	7	741	7	65	9
1916	17,010	42	23,609	58	.....	40,619	121	40,498	9.9	450	7	744	7	74	41
10-Year Average	$17,643	48%	$19,560	52%	$324	$37,527	$1,080	$36,447	8.6%	$453	7%	$747	7%	68%	21%

Above table is based on average miles operated for each year. Net income on net capital is the percentage of total net income, before deducting taxes, per mile of road, on the net capitalization as shown in the table.

Note: No change was made in the stock outstanding during the years 1909-1916, but the above mileage figures are reduced by reason of the fact that the amount of stock owned by the company itself has not been included in the above exhibit after 1908. In prior years this stock was included in the "outstanding" column and offset in the "securities owned" column. There has therefore been only a slight difference in the net result. The investments include Minnesota Transfer Co. 5s, Minneapolis Eastern 5s, etc. The Chicago & North Western owns $9,540,000 common and $5,380,000 preferred, out of a total issue of $18,559,086 common and $11,259,859 preferred.

Comparative Condensed Balance Sheet as of June 30

Assets:	1916	1915	1914	1913	1912	1911
Property investment	$74,901,849	$73,292,108	$74,593,418	$72,461,152	$68,138,142	$65,765,382

Appropriated surplus	197,350	197,350	.....	.....	.....	.....
Profit and loss surplus	4,646,942	3,973,702	4,097,426	4,592,020	4,626,822	4,887,309
Total	$80,377,770	$77,164,269	$83,391,211	$82,589,131	$79,016,205	$74,164,489

Comment: There was a moderate increase in the outstanding debt of the Omaha System during the fiscal year 1916. The total capitalization of the company, however, as measured on the mileage basis is not heavy, and it will be noted that during the last ten years net income on net capital has been continuously maintained at a high figure. For the year just closed, this net income was equivalent to nearly 10%.

TABLE D.—Bond Record and Ratings (Based on 10-Year Results, Per Mile of Road)

Note: "Average income available" is the average net income available for interest charges, after deducting taxes, for the ten years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Ratings, see pages, 19 to 21.

REFERENCE NOTES ON BOND ISSUES

1. Auth., $3,000,000; outstanding $778,000 (closed). Dated May 9, 1878; due May 1, 1918. Int. at C. & N. W. office, New York. Coupon $500 and $1,000. Assumed by Chi., St. Paul, Minn. & Omaha Ry. Sinking fund, $30,000 per annum from land sales to purchase bonds; not callable; exchangeable for No. 4 at par. First lien, 177.60 miles, Elroy to St. Croix River near Hudson, Wis.; also on land grants and equipment. Underlie Nos. 4-5, which provide for retirement. Legal for Savings Banks in Cal., Conn., Maine, Mass., Mich., Minn., Mo., N. H., N. J., N. Y., R. I., Vt., Wis. Listed on New York Stock Exchange. Normal income tax deducted from interest.

2. Auth., $7,000,000; outstanding, $6,070,000. Dated July 1, 1879; due April 1, 1919. Int. paid at C. & N. W. office, New York. Coupon, $1,000. Assumed by C., St. Paul, Minn. & Omaha Ry. First lien, 611.24 miles, as follows: St. Paul, Minn., to Le Mars, Ia., 241.49 miles; Lake Crystal to Elmore, Minn., 43.69 miles; Heron Lake to Pipestone, Minn., 55.10 miles; Trent to Salem, S. D., 98 miles; Luverne, Minn., to Doon, Ia., 28 miles; Ponca *via* Sioux City to Omaha, 139.39 miles; branches, 5.57 miles. Underlie Nos. 4-5, which provide for retirement. Legal for S. B. in Cal., Conn., Fla., Maine, Mass., Mich., Minn., Mo., N. H., N. J., N. Y., R. I., Vt., Wis. Listed on New York Stock Exchange. Normal income tax deducted from interest.

3. Auth., $10,000 per mile; outstanding, $572,000. Dated Jan. 1, 1880; due Jan. 1, 1930. Int. paid at C. & N. W. office, New York. Coupon, $1,000. Assumed by C., St. Paul, Minn. & Omaha Ry. First lien, 177.51 miles, Bayfield to St. Croix River, Wis. Underlie Nos. 4-5, which provide for retirement at maturity. Exchangeable for No. 4 at par. Legal for S. B. in Cal., Conn., Maine, Mass., Mich., Minn., Mo., N. H., N. J., N. Y., R. I., Vt., Wis. Listed on New York Stock Exchange. Normal income tax deducted from interest.

4 and 5. Auth., $30,000,000; outstanding, $17,533,000 6s and $3,734,000 3½s. Dated June 1, 1880; due June 1, 1930. Int. paid at C. & N. W. office, New York. Coupon, $1,000. First lien on 706.87 miles, as follows: St. Paul, Minn., to Lake St. Croix, Wis., 15.40 miles; Hudson to Ellsworth, 24.82 miles; Merillion to Marshfield, Wis., 38.67 miles; Fairchild to Mondovi, Wis., 36.75 miles; Emerald to Weston, 36.37 miles; Eau Claire to Spooner, 81.51 miles; Trego to Superior, 61.70 miles; Tuscobia to Park Falls, 76.25 miles; Chippewa Falls to Yellow River, 49.28 miles; Madelia to Fairmount, Mont., 29.38 miles; Bingham Lake to Currie, Mont., 38.63 miles; Salem to Mitchell, S. D., 32.73 miles; Ponca to Wynot, Neb., 29.06 miles; Emerson to Norfolk, Neb., 46.50 miles; Wakefield to Crofton, 49.14 miles; Wayne to Bloomfield, Neb., 43.14 miles; branches, 17.54; also second lien on 976.35 miles, being the mileage covered by first lien by Nos. 1, 2, 3 and 6. Nos. 1 and 3 are exchangeable into No. 4 at par at holder's option. Legal for S. B. in Cal., Conn., Mass., Mich., Minn., N. H., N. J., N. Y., R. I., Vt., Wis. Listed on New York Stock Exchange. Normal income tax deducted from interest.

6. Auth. and outstanding, $1,500,000. Dated June 1, 1895; due June 1, 1930. Int. at C. & N. W. office, New York. Coupon, $1,000. Assumed by C., St. Paul, Minn. & Omaha Ry. First lien on terminals at Duluth and Superior and about 10 miles of main track and 33 miles of side track in these cities. Underlie Nos. 5-6. Legal for S. B. in Conn., Maine, Mich., Minn., Mo., N. H., N. J., R. I., Wis. Listed on New York Stock Exchange. Normal income tax deducted from interest.

7. Auth., $15,000,000; outstanding, $11,200,000. Dated Mar. 1, 1912; due Mar. 1, 1930. Int. Mar. and Sept. at company's office in New York. Not a mortgage, but no new mortgage except for extensions shall be created without giving these bonds equal security. Legal for S. B. in N. H., R. I. Listed on New York Stock Exchange. Interest paid without deduction for normal income tax. Coupon, $1,000; reg. $1,000, etc.; C. & R. interchangeable. $2,000,000 issued in 1915 are stamped "Federal Income Tax not assumed by company."

TABLE E.—Stock Record and Ratings (Based on 10-Year Results, Per Mile of Road)

Name and Details of Issue.	Rate and Date Dividends.	Amount Outstanding per Mile.	Average Income Available per Mile.	Dividend Required per Mile of System.	Factor of Safety.	Basis for Rating.		Net Rating.
						Equity.	Salability.	
1. Chicago, St. P., M. & Omaha Ry. preferred.. Non-cumulative; has prior right to 7%; but common is never to receive more than preferred. Par, $100.	7% F&A	$6,423	$1,396	$450	68%	Very high	Very high	Aa.
2. Chic., St. Paul, M. & Omaha common..... Par, $100.	7% F&A	10,587	946	744	22%	High	"	A.

Note: "Average income available" on stock issues is the average surplus, after deducting all fixed and other charges, for the ten years ending June 30, 1916. "Dividend requirement" is the requirement, at the current rate, on the present amount outstanding. For Key to Stock Ratings, see pages 21 to 23.

REFERENCE NOTES ON STOCK ISSUES

1. Auth., $20,000,000; issued, $12,646,834, of which $1,386,974 is held in treasury, leaving $11,259,859 outstanding. Of latter, Chicago & North Western Railway owns $5,380,000.

2. Auth., $30,000,000; issued $21,403,294, of which $2,844,207 is held in treasury, leaving $18,559,087 outstanding. Of latter, Chicago & North Western Railway owns $9,540,000.

Note: Full dividends have been paid on preferred at 7% rate for many years. On common: 1897 and 1898, 2% each; 1899, 3½%; 1900 and 1901, 5% each; 1902, 8%; 1903 and 1904, 6% each; 1905 to date, 7% each. Transfer Office, 111 Broadway, New York. Both issues listed on New York Stock Exchange.

Investment Position: The investment ratings of all of the bond issues of the Chicago, St. Paul, Minn., & Omaha Railway are high. Relatively to its earning power, the property is lightly bonded and in recent years had displayed decided stability. The preferred stock issue also stands on a strong investment plane, while the common stock is assured of full dividends in all normal years.

CHICAGO, PEORIA & ST. LOUIS RAILROAD COMPANY

Note: The analysis is based on official documents of the company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated under Illinois laws, Nov. 29, 1909, and on Jan. 1, 1913, took over the property of the Chicago, Peoria & St. Louis Railway. The latter company was incorporated under Illinois laws Jan. 2, 1900, as successor of the Chicago, Peoria & St. Louis R.R. of Illinois and the St. Louis, Chicago & St. Paul Ry. of Illinois.

Location: The directly operated lines consisted on June 30, 1916, of 255.47 miles as follows: Main line, Pekin to Granite City, Ill., 179.20 miles; Havana to Jacksonville, Ill., 41.88 miles; Lockhaven to Grafton, Ill., 8.40 miles; other branches, 4.84 miles; trackage rights, 20.15 miles. The company owns the entire stock of the Alton Terminal Ry. and 25% of the stock of the Peoria & Pekin Union Ry.

Receivership: On July 31, 1914, Bluford Wilson and William Cotter were appointed receivers of the property, default having been made June 1, on the new gen. and ref. 4½% bonds. A reorganization is now pending.

Management: Bluford Wilson and Wm. Cotter, Recs. Officers: Bluford Wilson, Pres.; W. C. Hurst, Vice-Pres.; H. W. Berger, Sec.; F. J. Wilson, Treas. Directors: Bluford Wilson, H. W. Berger, P. B. Warren, William Cotter, W. C. Hurst, H. L. Child. Office, Springfield, Ill.

Total revenue tonnage, in 1909, 2,028,469 tons; in 1910, 2,422,424 tons; in 1911, 2,140,058 tons; in 1912, 2,070,108 tons. In 1912, 513,274 tons were soft coal, as compared with 455,208 tons in 1911. 2,086,267 in 1914. Tonnage figures are not available for 1913. Total tonnage for 1915 (12 months), 2,029,167; for 1916, 2,345,911.

HOW TO INVEST MONEY WISELY

By JOHN MOODY

Every investor should have a copy of this little book. It is a complete and practical treatise of the subject of "Diversified Investing," and is the first authentic attempt to present sound principles for the investment of money on the plan of geographical distribution.

Price, $2.00 Per Copy

MOODY'S INVESTORS SERVICE, 35 NASSAU STREET, NEW YORK

TABLE A.—Physical Factors (Mileage, Equipment and Operation)

Years Ended June 30.	Average Miles Operated.	Extra Main Track.	Locomotives Owned.	Passenger Cars Owned.	Freight and Company Cars.	Fgt. to all Traffic.	Passenger Density.	Freight Density.	Average Freight Train Load (Tons).	Train Mile Earnings.	Average Rate per Passenger per Mile. (Cents)	Average Rate per Ton per Mile. (Cents)

10-Year Average	255	....	47	37	2,551	75%	62,134	835,442	357	$1.61	2.03c	.60c

Yard tracks and sidings, June 30, 1916, 81.76 miles.

Note: No full report was issued for the fiscal year 1913, and therefore the operating statistics for that year are omitted. The averages are based on the ten years shown, out of the eleven-year period.

Comment: The operating results of this company underwent some improvement in the year 1916, but nevertheless the freight tonnage reported was light and the freight train load was small for a company of this general character. The company reported practically no change in average freight rates, but was able to show a moderate improvement in train mile earnings. As usual the freight tonnage was well diversified, but the growth in tonnage was not substantial enough to greatly strengthen the position of the property.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ended June 30.	Gross Revenues.	Maintenance.		Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.

10-Year Average	$6,521	$994	$1,364	$2,358	$3,443	$720	$781	$220	$561	$752	.....	$191*	.....

* Deficit.

Note: Above table is based on the average mileage directly operated for each year. No full income account was furnished for the year 1913, and therefore the averages for that year are omitted. Margin of safety is the proportion of surplus left over after providing for all charges. For example, in 1916 the "balance for charges" was (per mile) $1,065; fixed charges amounted to $653 per mile, or 61%, leaving $412 per mile, a "margin of safety" of 39%.

Comparative Income Account, Years Ended June 30

	1916	1915	1914	1912	1911	1910	1909
Gross revenues	$1,752,800	$1,597,909	$1,676,617	$1,688,867	$1,766,300	$1,766,968	$1,564,833
Maintenance of way	236,325	273,311	325,286	237,769	251,266	278,011	205,753

All other operating expenses	844,642	819,156	963,371	940,175	943,157	875,904	820,264
Net operating revenues	$323,021	$185,594	*$11,894	$165,911	$210,709	$281,851	$163,902
Operating ratio	88.4%	88.4%	100.7%	90.2%	88.1%	84%	89.5%
Other income	11,653	7,201	13,734	21,100	42,726	6,979	4,017
Total net income	$334,674	$192,795	$1,840	$187,011	$253,436	$228,830	$167,919
Taxes accrued	63,015	65,863	*72,265	50,505	52,031	53,786	51,401
Balance for charges	$271,659	$126,932	*$70,425	$136,506	$201,405	$175,044	$116,518
Fixed charges	166,472	215,226	287,103	156,425	161,207	122,988	233,721
Surplus	$105,187	*$88,289	*$357,528	*$19,918	$40,198	$112,055	*117,202

* Deficit.

Note: For comparative purposes, the fixed charges in above statement were shown in full up to 1909, and after that to 1914 the amounts charged include only the items which were actually paid. The interest on the first consolidated 5s was defaulted at the end of 1909. In 1914, the charges of the new company are shown in full.

Receivers' Profit and Loss Account, for the year ended June 30, 1916: Credit balance transferred from income account, $105,187; profit on road and equipment sold, $811; miscellaneous credits, $2,142; total, $108,140. Contra: Debit balance at beginning of year, $77,218; loss on retired road and equipment, $482; credit balance at close of year, $30,440; total, $108,140.

Company's Profit and Loss Account, for the year ended June 30, 1916: Miscellaneous credits, $9,773; debit balance at close of year, $766,912; total, $776,685. Contra: Debit balance at beginning of year, $617,146. Loss on retired road and equipment, $19,648. Miscellaneous debits, $139,891; total, $776,685.

Comment: While this company reported some improvement in its gross and net revenues during the fiscal year 1916, yet this growth was not sufficient to place the company on a very strong basis. The light fixed charges were of course covered and for the first time in several years the company reported a final surplus.

TABLE C.—Capitalization Factors (Security Obligations and Earning Power)

Note: In above table, figures for 1912 are those originally proposed prior to the reorganization of 1913. Those shown for 1914 are the actual figures as finally adopted.

No balance sheet was furnished by the receivers for the year ended June 30, 1915, and therefore the year 1915 is omitted from the above table. As the property is to be reorganized, a financial statement is now of little practical value.

June 30, 1914: Property investment, $9,550,963. Working assets, $416,857; profit and loss deficit, $474,318; total assets, $11,332,883. Capital stock, $4,000,000; funded debt, $5,525,000; working liabilities, $613,437.

Condensed Balance Sheet, as of June 30, 1916

Assets:	Receiver's Account	Company Account	Liabilities:	Receiver's Account	Company Account

Comment: There were practically no capitalization changes in the Chicago, Peoria & St. Louis property during the fiscal year ended June 30, 1916. The property is lightly capitalized as measured on the mileage basis, but the volume of business is small and therefore the percentage of net income on net capital continues to be small.

TABLE D.—Bond Record and Ratings (Based on 10-Year Results, Per Mile of Road)

REFERENCE NOTES ON BOND ISSUES

1. Auth. and outstanding, $2,000,000. Dated Mar. 1, 1900; due Mar. 1, 1930. Int. paid at Liberty National Bank, New York. Callable at 107½ at option of company. These bonds were undisturbed in the reorganization, and are assumed by the new company. First lien on 234.32 miles, including main line from Pekin to Granite City, Ill., and branches to East St. Louis, Jacksonville, and Grafton, Ill. Underlie No. 2, which provides for retirement. Defaulted, Sept. 1, 1914.

2. Auth., $15,000,000; outstanding, $2,000,000; in treasury, $850,000. Dated Dec. 1, 1909; due Dec. 1, 1939. Int. paid at Liberty Nat. Bank, New York. Coupon, $1,000. Follow No. 1 on same property. Of those issued, $1,100,000 bore only 3% interest for first six years. Issue defaulted, June 1, 1914.

3. Series A, 6s; original issue, $590,000; dated April 1, 1913; due $59,000 annually to April 1, 1923; now outstanding, $413,000. Int. paid April and Oct. 1 in New York. First lien on equipment costing $704,500.

Protective Committee: For No. 1: Sidney C. Borg, Chairman; Henry E. Cooper, Thomas Denny, Robert Struthers, Jr.; Secretary, J. N. Babcock, 37 Wall Street, New York.
For No. 2: F. J. Lisman, Chairman; Alfred Shepherd; Secretary, Graham Adams, 30 Broad Street, New York.

Capital Stock: Auth. and outstanding, $4,000,000; par $100. Was held in voting trust to 1915, consisting of Geo. F. Baker, Jr., Chas. F. Warren, Al. Shepherd. Transfer agent, Liberty National Bank, New York.

CHICAGO, ROCK ISLAND & PACIFIC RAILWAY COMPANY

NOTE: The analysis is based on official documents of the Company, including its annual reports of the past ten years.
For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated under laws of Illinois and Iowa, June 2, 1880, as successor of the original Chicago, Rock Island & Pacific R.R. and its various subsidiary lines. In 1902, control of the Burlington, Cedar Rapids & Northern Ry. and of the Rock Island & Peoria Ry. were acquired and in 1903 absorbed into the main system. In 1904, the Choctaw, Oklahoma & Gulf R.R. was leased for 999 years and all its stock acquired. In 1910, the Chicago, Rock Island & El Paso Ry. was formally absorbed. Other companies controlled include the Keokuk & Des Moines Ry., White and Black River Valley, Peoria & Bureau Valley, Consolidated Indiana Coal Co., Rock Island, Arkansas & Louisiana R.R., and the St. Paul & Kansas City Short Line R.R. Also has a joint interest in the Rock Island-Frisco Terminal Ry. (with the St. Louis & San Francisco); in the Peoria Ry. Terminal Co., and other terminal properties.

Location: The directly operated lines of the system embraced, on June 30, 1916, 8,024.13 miles, including main line from Chicago to Colorado Springs, Col., the general system radiating throughout the States of Iowa, Illinois, Minnesota, Kansas, Oklahoma, Colorado, Arkansas, Texas, etc. Population of these States in 1890, 12,311,903; in 1900, 13,573,697; in 1910, 19,557,189.

Receivership and Reorganization: On April 20, 1915, receivers were appointed for the property, owing to the inability of the company to finance short-term notes, etc. A general reorganization is now pending under which the present bond issues remain undisturbed with the exception of the $20,000,000 debenture 5s which are to be exchanged for a like amount of new 6% preferred stock (cumulative up to 5%). Common stockholders upon paying an assessment of $40 per share receive new common stock share for share and $40 in new 7% preferred stock (cumulative up to 5%). The 5% arrears in interest on the debentures are to be paid in cash.

The proposed plan in detail is as follows:

A new company will be formed with an authorized capital stock of $125,000,000, issuable as follows:

$30,000,000 7% preferred stock, of which $29,743,889 will be issued at par to holders of present common stock who pay the proposed assessment of $40 per share;

$20,000,000 6% preferred stock, all of which will be issued to the holders of the debenture 5% bonds of the present company;

$75,000,000 common stock, of which $74,359,722.50 shall be exchanged, share for share, for the present common stock, on payment of the $40 per share assessment.

The funds derived from the assessment will pay off or acquire $18,188,000 current obligations, including $7,500,000 of two-year collateral trust notes, $2,500,000 Central Trust Co. loan, $1,600,000 Hayden, Stone & Co. loan and $6,588,000 Receivers' Certificates. The balance of $11,555,889 will be employed to settle other claims, including those of the Receiver, pay costs of reorganization and provide additional funds for the company.

All the bond issues and divisional obligations of the company will remain undisturbed, and will be assumed by the new company, with the exception of the $20,000,000 debenture 5s, provided for as above.

For all later developments, consult our Investors Service.

Management: OFFICERS: Jacob M. Dickinson, Rec.; J. G. Shedd, Chairman; (Vacancy) Pres.; J. E. Gorman, 1st Vice-Pres.; A. C. Ridgway, 2d Vice-Pres.; Geo. H. Crosby, Vice-Pres., Sec. and Treas.; J. J. Yard tracks and sidings, year ending on June 30, 1916, 2,301 miles.

Comment: During the year ended June 30, 1916, the passenger and freight density of the Rock Island system increased very substantially and the train load was moved up to a higher figure than ever before reported. It will be noted also there was practically no change in freight or passenger rates. The train mile earnings made an unusually favorable showing. As usual, the tonnage of the property was well diversified, and the proportion of high grade freight such as manufactures and miscellaneous articles represented a larger total than ever before.

* Deficit.

Note: Foregoing statement covers operations of Chicago, Rock Island & Pacific Railway Company and has no relation to the defunct Rock Island (holding) Company. The charges, dividends and surplus shown are those of the Railway. Fixed charges in 1916 included interest, $12,312,198; joint facility and other rentals, $2,522,333; hire of equipment, $275,155.

Profit and Loss Account, year ended June 30, 1916: Surplus for year ended June 30, 1916, $2,957,282; profit on land and securities sold, $50,351; interest prior to current fiscal year on advances for construction and purchase of property, $106,551; inventory adjustment proportion applicable to period, prior to June 30, 1915, $89,851; recovery of a portion of losses charged off in previous years by realization of investment, $42,952; sundry adjustments, etc., $38,598; debit balance, June 30, 1916, $10,707,555; total, $13,993,140. Contra: Debit balance, June 30, 1915, $12,530,963. Tracks removed, $32,644; structures sold, removed and destroyed, $34,781; equipment sold and destroyed, $991,818; adjustment in the property account of the C., R. I. & E. P. Ry. Co., prior to current fiscal year, $276,480; reserve for charges to June 30, 1915, less recoveries in respect of agreement and guarantees abrogated by the receiver, $61,976; other miscellaneous adjustments not affecting current year, $64,478.

Comment: The Rock Island property went into receivers' hands during the year 1915, but under the receivership the operating results have shown steady improvement. Both gross and net receipts for the year ended June 30, 1916, were far in excess of any ever before reported, and the enlarged fixed charges were easily earned with a substantial surplus over.

The reorganization plan of the Rock Island property involves some moderate decrease in the fixed charges, and supplies the company with a substantial amount of much needed working capital. The outlook for the property in view of its present prosperity is therefore unusually favorable.

TABLE C.—Capitalization Factors (Security Obligations and Earning Power)

Capitalization Per Mile of Road. | Dividend Record.

* $227 per mile paid from surplus.

Note: Above table is based on the average mileage directly operated for each year. The stock column covers the total stock issue of the Railway; the bond column includes all net amounts outstanding of bonds and equipment trusts, but not the loans payable; rentals represent the leaseholds, as capitalized. Securities owned represent those held unpledged, including marketable securities. For 1916 this figure represents those issued or assumed unpledged other securities amounting to $19,197,802 book value not segregated between pledged and unpledged.

Comment: During the fiscal year ended June 30, 1916, there were no important capitalization changes on the Rock Island System, but the new reorganization plan now pending proposes considerable readjustment. While the funded debt cannot be reduced to any great extent, the company will provide itself with new capital through an issue of new preferred stock. The new company will enter into control of the property at a very favorable period as the prospects at the present time are that the present heavy earning power will be permanently maintained.

Note: Average income available is the annual average surplus available for charges (per mile of system), after deducting all operating expenses and taxes. The factor of safety is the proportion of this available income left over after deducting charges. For full explanation, see Introduction. For Key to Bond Ratings, see pages 19-21. For Reference Notes on Bond issues, see next page.

REFERENCE NOTES ON BOND ISSUES

1. Auth. and outstanding, $12,500,000. Dated May 1, 1877; due July 1, 1917. Int. paid at First National Bank, New York. Coupon, $1,000; reg., $5,000. Assumed by present C. R. I. & Pcf. Railway. First lien, 765.39 miles, as follows: Chicago to Council Bluffs, 500.46 miles; Davenport to Knoxville, Ia., 144.12 miles; Wilton to Muscatine, 11.97 miles; Newton to Monroe, 17.02 miles; Atlantic to Audubon, Ia., 25.12 miles; lesser branches, 73.57 miles. Underlie Nos. 2 and 12, which provide for retirement. Legal for Savings Banks in Me., Mo. Listed on New York Stock Exchange. Normal income tax deducted from interest.

2. Auth., $100,000,000; outstanding, $61,581,000. No more of these bonds are to be sold, all further issues to be deposited under No. 12. Dated Jan. 1, 1898; due Jan. 1, 1988. Int. paid at First National Bank, New York. Coupon, $1,000; reg., $1,000 and $5,000. First lien on 2,396 miles, as follows: So. Omaha, Neb., to Colorado Springs, 562.63 miles; Washington, Ia., to Terral, Okla., 643.75 miles; Des Moines to Winterset, 42.60 miles; Nelson, Neb., to Fairbury Junc., 51.60 miles; Cameron, Mo., to Leavenworth Bridge, 53.19 miles; Edgerton Junc. to near Atchison, Kans., 29.24 miles; McFarland to Belleville, Kans., 103.19 miles; Herington to Salina, Kans., 49.30 miles; North Enid to Billings, Okla., 26.75 miles; Chickasha to Mangum, Okla., 97.78 miles; Anadarko to Lawton, Okla., 36.45 miles; Herington to Liberal, Kans., 262.67 miles; Bucklin to Dodge City, Kans., 26.57 miles; Altamont to St. Joseph and Elwood to Jansen, Neb., 198.10 miles; Horton to North Topeka, 48.09 miles; Gowrie to Sibley, 109.72 miles; branches, 54.37 miles; also a first collateral lien on 93.09 miles, from near Terral to Fort Worth, Texas; also second lien on 765.39 miles, following No. 1; also first lien on lease of Keokuk & Des Moines Railway, covering 162.31 miles, and on the lease of the Peoria & Bureau Valley R.R., covering 46.99 miles. Note: Under the proposed reorganization plan these notes are to be paid off in cash.

Joint Guarantees: The C., R. I. & Pcf. Ry. jointly guarantees with the St. Louis & San Francisco Railroad $3,390,000 5% bonds of the Rock Island-Frisco Terminal Ry., and jointly with the Colorado & Southern guarantees the equipment notes of the Trinity & Brazos Valley Ry., and is pledged to pay one-half the principal of $8,760,000 first mortgage 4s of the latter company, these bonds being all deposited under the Colorado & Southern refunding mortgage. The Rock Island portion of interest and principal on Trinity & Brazos equipment trusts is not being paid by receiver who has also disavowed an agreement with the Colorado & Southern under which the Rock Island was to pay one-half the cost of constructing the Brazos line or $5,517,301. The Rock Island with other companies also jointly guarantees the bonds of various terminal properties whose facilities it uses. Guarantees interest on $600,000 first 5s of the White & Black River Valley Ry. and prin. and int. of $453,600 Rock Island, Arkansas & Louisiana R.R. 4% notes due 1939.

Chicago, Rock Island & Pacific Railway stock..	See text	$9,262	$506	None	.....	Mod.	Good	Note

Note: Under the proposed plan, this stock will be exchanged for a like amount of new common stock, but holders must first pay the assessment of $40 per share, for which they will receive 7% preferred stock. The latter issue will be entitled to a fair rating, but the rating on the new common stock will remain speculative for some time to come.

REFERENCE NOTE ON STOCK ISSUE

Auth., $75,000,000; outstanding, $74,877,200, of which $517,478 is in treasury. Of the issued stock $71,353,500 was formerly deposited under the collateral 4% bonds, due 2002, of the Chicago, Rock Island & Pacific RR. (which, however, is now released), par $100. The unissued balance of $122,800 is held by the company against $114,100 stock of Burlington, Cedar Rapids Ry. still outstanding, and $8,700 of the stock of the Rock Island & Peoria Ry. still outstanding. Under the terms of the merger of these latter properties, the Chicago, Rock Island & Pacific Railway guarantees dividends at 6% per annum on these outstanding shares. Par, $100. Dividends have been paid in recent years, as follows on the Railway stock: 1891, 3%; 1892 to 1894, 3½%; 1895 and 1896, 2% each; 1897, 2½%; 1898, 4%; 1899 to 1901, 5½% each; 1902, 5%; 1903, 6¼%; 1904, 8%; 1905 and 1906, 6¼% each; 1907, 5½%; 1908, 1909 and 1910, 5%; 1911 and 1912, 5¼% each; 1913, 2½%; 1914, 2½%, latter paid from surplus; none since. Listed on New York Stock Exchange.

Proposed Recapitalization: Under the proposed reorganization plan, submitted to security holders in November, 1916, reorganized company will have: (1) An authorized issue of $30,000,000 7% preferred stock, of which $29,743,889 will be issued to present common stockholders on payment of an assessment of $40 per share. Callable at 105. Dividends on this issue are cumulative up to 5% with preference over the 6% preferred stock (described below) as to dividends to the extent of 1% in any fiscal year, but after setting aside such 1% in any fiscal year both classes of preferred shall share equally in any further dividends paid thereon. (2) An issue of $20,000,000 6% preferred stock, cumulative up to 5% is authorized to be issued in exchange for a like amount of debenture 5s. Callable at 102. (3) New common stock to the amount of $74,359,723 of an authorized issue of $75,000,000 is to be issued in exchange for a like amount of old common.

COMPANIES CONTROLLED BY CHICAGO, ROCK ISLAND AND PACIFIC RAILWAY.

KEOKUK & DES MOINES RAILWAY

Origin: Incorporated under laws of Iowa, December 19, 1873. The company was leased to the Chicago, Rock Island & Pacific Railway Co., from Oct. 1, 1878, to the expiration of its charter, the rental being 25% of gross earnings with a minimum guaranty equal to the interest on the outstanding bonds. On July 1, 1915, the receiver of the lessee company, on authority from the court, renounced the lease and payments thereunder. The road is now separately operated by the receiver.

Location: Line of road, Keokuk to Des Moines, 162.31 miles. Leased, 1.81 miles. Trackage, 5.06 miles. Sidings, 22.57 miles.

Management: Officers: G. E. Gorman, Pres., Chicago, Ill.; Geo. H. Crosby, Vice-Pres., Treas. and Asst. Sec., Chicago, Ill.; F. W. Sargent, Sec., Des Moines, Iowa; Carl Nyquist, Asst. Sec. and Asst. Treas., Chicago. Annual meeting, first Thursday in October. Offices, 14 Wall Street, New York; Chicago, Ill., and Des Moines, Iowa.

Comparative Income Account, Years Ended June 30

WHITE & BLACK RIVER VALLEY RAILWAY

Operates 62.26 miles, Brinkley to Jacksonport, Ark., and branches. Leased to Choctaw, Oklahoma & Gulf R.R. until 1980, at rental equaling interest on bonds. Lease assumed by C. R. I. & Pcf. Ry., which operates the property.

Management: OFFICERS: E. G. Thompson, Pres. and Treas.; C. C. Rose, Vice-Pres.; S. W. Reyburn, Sec. Annual meeting, second Tuesday in March. OFFICE, Little Rock, Ark.

Bonded Debt: Auth., $800,000; outstanding, $600,000. Dated June 30, 1900; due July 1, 1980. Int. paid J. and J. at First National Bank, New York. Int. guar. by Choctaw, Okla. & Gulf R.R., and guarantee assumed by Chic. R. I. & Pacific Ry. First lien, 62.26 miles, Brinkley to Jacksonport, and Wiville to Gregory, Ark. Coupon, $1,000. Interest paid without deduction for normal income tax. Net Rating, Ba.

Capital Stock: $400,000; par $100. No dividends. Of the outstanding stock, $399,100 is deposited with the Union Trust Co. of Little Rock, Ark., as trustee under the terms of the lease.

ROCK ISLAND, STUTTGART & SOUTHERN RAILWAY

Incorporated under laws of Arkansas, Jan. 20, 1913, succeeding the Stuttgart & Rice Belt R.R. Line of road, Mesa to Stuttgart, Ark. Miles of road, 21.22. Leased for 999 years from Feb. 1, 1914, to Chicago, Rock Island & Pacific Railway, which operates the property and owns the stock. Rental covers guaranty of bond interest.

Management: OFFICERS: Thos. S. Buzbee, Pres ; A. C. Ridgway, Vice-Pres.; A. E. Walker, Vice-Pres.; Geo. B. Pugh, Sec. and Treas.; Geo. H. Crosby, Asst. Sec. and Asst. Treas. OFFICES, Stuttgart, Ark., and Chicago.

Bonded Debt: $180,000 first 5s; dated Dec. 1, 1913; due Dec. 1, 1934. Int. paid J. and D. 1 at Chicago. Auth., $1,000,000. First lien on entire property. Interest guaranteed under lease. Rating B.

Capital Stock: Auth. and issued, $300,000; par $100. All owned by Chicago, Rock Island & Pacific Ry. Co.

CHICAGO, TERRE HAUTE & SOUTHEASTERN RAILWAY

NOTE: The analysis is based on official documents of the company, including its annual reports of the past nine years.

For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated under Indiana laws in November, 1910, as successor, through reorganization, of the Southern Indiana Railway and the Chicago Southern Railway. These properties were first acquired by the Chicago, Terre Haute & Southeastern Ry Co. of Illinois, and were then transferred to the present company. The new company also took title to the Bedford Belt Railway, which had formerly been leased to the Southern Indiana Ry.

Location: The operated lines of the company consist of 372.85 miles, as follows: Main lines, from Chicago Heights, Ill., to Westport, Ind., 298.02 miles; from Blackhawk to Sullivan, Ind., 18.52 miles; from Bedford to Oolitic, Ind., 4.19 miles. Branches, 39.35 miles; trackage rights, 12.77 miles. At Chicago Heights the line forms a connection with the Baltimore & Ohio Chicago Terminal Co. and extends southwardly to a point on the Illinois-Indiana State line; thence it extends southeasterly through coal territory in Vermillion and Vigo counties, Ind., to the City of Terre Haute. Southeast of Terre Haute it passes through the Linton and Clinton coal fields to Bedford, Ind. An easterly extension to Westport, Ind., gives connection with the Michigan division of the C. C. C. & St. Louis.

Management: OFFICERS: M. J. Carpenter, Pres.; E. K. Boisot, Vice-Pres.; W. F. Peter, Sec.; F. J. Lawlor, Treas.; W. N. Rockwell, Compt. DIRECTORS: M. J. Carpenter, E. K. Boisot, J. S. Field, A. W. Howard, F. O. Wetmore, Chas. Porter, J. T. Beasley. Annual meeting, first Thursday in October, in Chicago, Ill. MAIN OFFICE, Grand Central Station, Chicago, Ill.

SOUTHEASTERN RAILWAY

Comment: The operating results of the Chicago, Terre Haute & Southeastern Railway for the fiscal year ended June 30, 1916, underwent sharp improvement, and the freight density reached a very heavy figure. Average freight train load was also much higher than previously, while the train mile earnings increased heavily notwithstanding the fact that there was no improvement in average freight rates, and was a distinct decline in average passenger rates. As usual the company did mainly a soft-coal business and over 90% of its total tonnage was represented by mining products.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

*Deficit

Note: Above table is based on average mileage directly operated each year. Prior to 1912 company was in receivers' hands, and the fixed charges as shown in the column above are simply those of the Indiana Southern under the receivership. The income figures of the old Chicago Southern Ry. are not available for those years.

Margin of safety is the proportion of surplus left over after providing for all fixed charges. For example, in 1916 the "balance for charges" per mile was $2,409; fixed charges consumed $1,835, or 76%, leaving a balance of $754, a "margin of safety" of 24%.

Other Income	318,039	265,593	480,351	490,352	332,964	222,205	227,869
Total net income	$1,033,013	$839,179	$863,334	$918,273	$865,249	$825,009	$722,900
Taxes accrued	134,296	134,641	138,000	120,000	104,400	106,146	83,142
Balance for charges	$898,717	$704,538	$725,334	$798,273	$760,849	$718,863	$639,758
Fixed charges	684,386	684,385	674,048	695,145	640,448	172,716	82,897
Surplus over charges	$214,331	$20,153	$51,246	$103,128	$120,401	$546,147	$556,861

Note: In above exhibits, the earnings prior to 1912 are for the Southern Indiana Ry. and the Chicago Southern Ry. combined, except for the years 1909 and 1910 in Table B, which do not include Chicago Southern. The fixed charges shown above in 1909, 1910, and 1911 are only those which were paid under the receivership. In 1912 and since, the charges shown are those of the new Chicago, Terre Haute & Southeastern Ry.

Comment: During the fiscal year 1916, a very substantial increase occurred in the gross revenues of the property, and as maintenance and operating costs advanced only moderately, the net revenues were far higher than in the previous year. Outside income was also better than in 1915, and therefore the surplus above charges equaled a very substantial amount. The company made no dividend disbursement, but the liberal surplus reported substantially increased its profit and loss account.

Profit and Loss Account, year ended June 30, 1916: Credit balance at beginning of year, $239,250; credit balance transferred from Income, $214,331; profit on road and equipment sold, $18,050; miscellaneous credits, $6,931; total credits, $478,562. Contra: Loss on retired road and equipment, $36,225; miscellaneous debits, $595; credit balance carried to balance sheet, $441,742; total, $478,562.

Note: Above table is based on the average mileage directly operated each year. "Net income on net capital" is the percentage of total net income per mile before deducting taxes or other charges.

Comparative Condensed Balance Sheet, as of June 30

Assets:	1916	1915	1914	1913	1912
Property investment	$26,869,973	$26,908,785	$26,628,759	$24,331,561	$14,447,531
Working assets	1,111,892	885,857	1,054,469	770,062	895,773
Deferred debit items	1,229,308	965,246	621,220	457,360	65,960
Total	$29,211,173	$28,759,888	$28,304,448	$25,558,983	$15,409,264
Liabilities:					
Capital stock	$4,300,000	$4,300,000	$4,300,000	$4,300,000	$4,300,000
Funded debt	21,361,000	21,451,000	21,407,000	20,247,000	10,469,375
Working liabilities	1,781,648	1,769,715	1,650,031	411,088	270,330
Accrued liabilities not due	263,157	258,592	289,737	337,322	96,822
Deferred credit items	1,063,626	741,331	425,577	94,841	.....
Surplus	441,742	239,250	232,103	168,732	272,737
Total	$29,211,173	$28,759,888	$28,304,448	$25,558,983	$15,409,264

Note: The balance sheet for 1912 did not include the bonds of the old company, amounting in all to $7,887,000, which have now been assumed. The increase in debt in 1914 was due to the creation of time loans, secured by treasury bonds. "Working assets" in 1916 included $359,342 in cash.

Comment: There were practically no changes of importance in the financial statement of this property during the fiscal year 1916. As measured on a mileage basis, the net capitalization appears high, but in recent years the company has been carrying this capitalization successfully, and at present is reporting a larger percentage earned on it than ever before. The company is also slowly increasing its profit and loss surplus.

TABLE D.—Bond Record and Ratings (Based on 9-Year Results, Per Mile of Road)

Name of Issue.	Interest Payable.	Maturity.	Lien on Miles.	Outstanding per Mile.	Average Income Available.	Interest R'q'r'd per Mile of System.	Factor of Safety.	Basis for Rating.		Net Rating.

Note: "Average income available" is the average net income available for interest charges, after deducting taxes, for the nine years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation see Introduction. For Key to Bond Ratings, see pages 19 to 21.

REFERENCE NOTES ON BOND ISSUES

1. Auth., $350,000; outstanding, $250,000. Dated June 30, 1898; due July 1, 1938. Int. paid at First Nat. Bank, Chicago. Coupon, $1,000. Assumed. First lien on 4.19 miles from Bedford to Oolitic, Ind., and on terminals at Bedford, Ind. Provided for by No. 3. Normal income tax deducted from interest.

2. Auth., $7,537,000; outstanding, $7,534,000 (closed). Dated Feb. 1, 1901; due Feb. 1, 1951. Int. paid at New York, Phila., and Boston. Coupon, $1,000. Assumed. First lien on 242.81 miles, as follows: Terre Haute to Seymour, Ind., 121.42 miles; Chicago Junc., Ill., to Indiana-Illinois State line, 28.46 miles; Seymour to Westport, Ind., 26.45 miles; McKeen to Chicago Junc., Ill., 7.45 miles; Blackhawk to Sullivan, Ind., 18.52 miles; and various branches aggregating 40.51 miles; second collateral lien on 4.19 miles, following No. 1. Underlie Nos. 3 and 5, with provision by former for retirement. Normal income tax deducted from interest.

3. Auth., $20,000,000; outstanding, $4,244,000; also, $1,979,000 held by company and pledged. Dated Dec. 1, 1910; due Dec. 1, 1960. Int. paid at Bankers' Trust Co., New York. Coupon and reg., $1,000. Callable as a whole at 107½ and int. on any int. date, on 60 days' notice. First lien on 114.24 miles of road between Chicago Heights, Ill., and the Indiana-Illinois State line; also a first lien on 671 50-ton coal cars and 19 locomotives, there being a prior lien of $100,000 against five of the latter; second mortgage on 242.81 miles, following No. 2; third lien on 4.19 miles, following No. 2; also secured on various equipment. Underlies No. 5. Listed on New York Stock Exchange. Interest paid without deduction for normal income tax.

4. In two series: Issue of April 1, 1913: Original amount, $810,000; now outstanding, $530,000; due $40,000 each April and Oct. to April 1, 1922, inc.; $45,000 Oct. 1, 1922, and April 1, 1923. Coupon, $1,000. First lien on 900 steel hopper cars and 13 caboose cars. Int., A. and O. 1. Issue of July 1, 1913: Original amount, $100,000; now outstanding, $60,000; due $10,000 annually to July 1, 1923. Int. Jan. and July. Coupon, $1,000. First lien on 7 locomotives. Interest paid without deduction for normal income tax on both series.

5. Auth., $6,500,000; outstanding, $6,336,055. Dated Dec. 1, 1910; due Dec. 1, 1960. Int. paid at New York and Chicago. Callable as whole at par and int. on 60 days' notice. Voting power: one vote for each $100 par value. Lien by direct mortgage on entire property, stocks, bonds, and rights of the company, including 361.24 miles of road, described in No. 3 and subject thereto. Interest rate 4% non-cumulative until Dec. 1, 1912; 5% cumulative thereafter. 2% paid in 1912 and 1913; 1¼% in 1914; none since. Interest paid without deduction for normal income tax.

Capital Stock: Authorized and issued, $4,300,000; par $100. Entire issue held in voting trust until Dec. 24, 1920. trustees being Roy C. Osgood, Frank F. Taylor, and Geo. A. Jackson.

THE CINCINNATI, NEW ORLEANS & TEXAS PACIFIC RAILWAY CO.

NOTE: The analysis is based on official documents of the company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated under Ohio laws, Sept. 8, 1881. The company leased the Cincinnati Southern Railway for 25 years from Oct. 12, 1881, at an annual rental of $800,000 for the first five years; $900,000 for the second five years; $1,000,000 for the third five years; $1,090,000 for the fourth five years, and $1,250,000 for the last five years ending Oct. 12, 1906. In 1901, however, the lease was modified and extended for fifty years from Oct. 12, 1906, the rental being changed from July 12, 1902, to Oct. 12, 1906, to $1,050,000 per annum, the excess of $200,000 per annum to be deferred as it accrued and to be paid quarterly at the rate of $40,000 per year with interest on deferred payments at 3%. The rental rate under the renewal (beginning Oct. 12, 1906) is $1,050,000 yearly for the first 20 years, $1,100,000 annually for the second 20 years, and $1,200,000 for the last 20 years.

Location: Lines operated consist of 335.46 miles, extending from Cincinnati to Chattanooga, and 1.81 miles of trackage rights; total operated, 337.27. The Cincinnati Southern Railway was built by the city of Cincinnati, the cost of construction being provided by the city through the issue of municipal bonds. It was completed in February, 1880. Lines are in Kentucky and Tennessee. Population of these States in 1890, 3,623,153; in 1900, 4,167,790; in 1910, 4,474,694.

In addition to this directly operated property, the Cincinnati, New Orleans & Texas Pacific controls, through stock ownership, the Cincinnati, Burnside & Cumberland River Ry., and the Harriman & Northeastern R.R. See on following pages.

Control: The Cincinnati, New Orleans & Texas Pacific Railway is controlled by stock ownership by the Southwestern Construction Company, which is itself controlled jointly by the Southern Railway and the Cincinnati, Hamilton & Dayton Railway. It forms part of the "Queen & Crescent Route" between Cincinnati and New Orleans.

Management: OFFICERS: Fairfax Harrison, Pres.; T. C. Powell, Vice-Pres.; Charles Patton, Treas.; F. S. Wynn, Sec. DIRECTORS: Fairfax Harrison, Oscar G. Murray, W. C. Procter, M. R. Waite, Daniel Willard, John M. Davis, Thos. Carr Powell, Clifford B. Wright. Annual meeting, third Tuesday in November. MAIN OFFICE, Cincinnati, Ohio. NEW YORK OFFICE, 120 Broadway.

Classification of Freight Tonnage (Years Ending June 30)

Yard tracks and sidings, June 30, 1916, 255 miles. Of the total mileage operated, as shown above, practically all is leased from the Cincinnati Southern Railway, which is owned by the city of Cincinnati.

Comment: The operating exhibit of this property during the fiscal year 1916 was of a very gratifying nature. It will be noted that the freight density rose to far higher figures than ever before, while there was also a substantial increase in the volume of passenger business. The freight train load reached a new high figure and train mile earnings were the best reported since 1910. As usual freight tonnage of the property was well diversified and the proportion of manufactures and miscellaneous articles repesented more than a third of the total business done.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ended June 30.	Gross Revenues.	Maintenance.		Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividenda Paid.

Note: Fixed charges include rental to city of Cincinnati ($1,235,823 in 1916), interest on equipment trusts, miscellaneous interest and rentals.

Profit and Loss Account, year ended June 30, 1916: Credit balance, June 30, 1915, $6.106,060; credit balance transferred from income, $1,127,662; delayed income credits, $8,797; miscellaneous credits, $12,022; total, $7,254,541. Contra: $328,900; delayed income debits, $313,454; miscellaneous debits, $2,148; credit balance carried to balance sheet, $6,610,039; total, $7,254,541.

Comment: The income statement of the Cincinnati, New Orleans and Texas Pacific for the year ended June 30, 1916, reflected great prosperity. Both gross and net revenues of the property increased very sharply, and as there was practically no change in the fixed charges, the surplus available for dividends reached a very high total. The company disbursed the usual liberal amounts in dividends and carried forward a surplus never before equaled.

Note: Company has no direct mortgage debt. Bonded debt column above covers equipment obligations only. Rentals as capitalized represent the rental charge to the city of Cincinanti. No recent capital changes, but the officials of the city of Cincinnati have authorized $500,000 bonds for construction of terminals to be issued at rate of $100,000 per annum, and this road will undertake to pay the interest on the bonds and a sinking fund of 1% per annum. Thus far $100,000 only have been issued. Interest is not to exceed 4%.

Note: Auth., $3,000,000 preferred and $3,000,000 common; outstanding, $2,453,400 preferred and all the common; par, $100. Majority of common stock (67%) owned by Southwestern Construction Co., which is controlled jointly by the Cincinnati, Hamilton & Dayton Ry., and the Southern Ry. Dividend on preferred paid at full rate since 1902; on common, 5% from 1907 to 1911; 6% regular and 5% extra from 1912 to 1916; in Dec., 1916, paid 3½% extra, instead of usual 2½%. Transfer Office, Cincinnati, Ohio. Both issues listed on Cincinnati Stock Exchange.

COMPANIES CONTROLLED BY CINCINNATI, NEW ORLEANS & TEXAS PACIFIC RAILWAY

CINCINNATI, BURNSIDE & CUMBERLAND RIVER RAILWAY

Origin: Incorporated in Aug., 1905, under Kentucky laws as successor to Burnside & Cumberland River Railway. Controlled through stock ownership by Cincinnati, New Orleans & Texas Pacific Railway.

Location: Line of road, Burnside Junc. to Burnside Landing, 1.35 miles, connecting the Cincinnati Southern Ry. way with the Cumberland River, and also forming a belt railway at Burnside. Uses equipment of C., N. O. & T. P. Ry.

Management: Officers: T. C. Powell, Pres.; H. Baker, Vice-Pres. and Gen. Mgr.; Chas. Patton, Treas.; A. Telford, Sec. General Office, Ludlow, Ky.

Comparative Income Account, Years Ended June 30

	1916	1915	1914
Gross revenues	$25,619	$26,193	$38,923
Operating expenses	16,423	15,944	16,875

Comment: This property has shown little growth in volume of business during recent years, but the earnings have been of a stable nature, and the company has generally succeeded in earning a moderate surplus above its interest requirements. The bond issue is not a large one and can be regarded as fairly secure. The outstanding equipment trusts are evidently well protected.

Bonded Debt: (1) $300,000 Harriman & Northeastern R.R. first 6s; dated Jan. 1, 1896; due Jan. 1, 1921. Interest paid Jan. and July at Central Trust Co., New York. Coupon, $100, $500, $1,000. Callable at par. First lien on 19.7 miles, Harriman Junc. to Petros, Tenn. (2) $102,000 Equipment Trust 5s; dated June 15, 1914, matures $6,000 semi-annually to 1924; int. payable June and Dec. Secured on 200 steel coal cars. Normal income tax deducted from interest. Net Rating, Ba.

Capital Stock: Authorized and outstanding, $600,000; par, $100. All owned by Cincinnati, New Orleans & Texas Pacific Ry. Dividends of 3% paid in 1915 and 1916.

COAL & COKE RAILWAY COMPANY

NOTE: The analysis is based on official documents of the company, including its annual reports of the past eight years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated May 14, 1902, under laws of West Virginia and in the following year absorbed the Charleston Clendennin & Sutton R.R., operating from Charleston to Otter, W. Va. The company has what is virtually a lease of the properties of the Davis Colliery Co., and the latter is conducted as the coal department of the Railway company. The Davis Colliery Co. owns about 25,000 acres of coal lands and coal mining rights in the Roaring Creek coal fields in Randolph and Barbour counties, W. Va. The Roaring Creek & Belington R.R. is now operated as part of the Coal & Coke Railway. In addition to the above, the company controls or owns coal lands in Upshur, Lewis, Gilmer, and Braxton counties, W. Va., its total holdings aggregating 100,000 acres.

Location: The lines of the Coal & Coke Railway now in operation are as follows: Elkins to Charleston, 175.6 miles; Belington to Mable, 16.1 miles; Sutton Branch, 6.5 miles; total, 198.2 miles. The company connects with the Baltimore & Ohio at Belington; with the Western Maryland at Roaring Creek Junc. and Elkins; with the Kanawha & Michigan at Charleston.

Management: OFFICERS: R. C. Kerens, Pres.; Arthur Lee, Vice-Pres.; C. M. Hendley, Sec. and Treas.; I. K. Dye, Gen. Mgr. DIRECTORS: J. T. Davis, R. C. Kerens, Davis Elkins, Arthur Lee, G. E. Price, C. M. Hendley. Annual meeting, second Tuesday in August. MAIN OFFICE, Elkins, W. Va. BRANCH OFFICES, Baltimore, Philadelphia, and Columbus, O.

Yard tracks and sidings, June 30, 1916, 45 miles. Weight of rails, 60, 70, and 85 pounds.

Comment: During the fiscal year 1916, the freight density on the Coal & Coke Railway substantially improved, and the average freight train load rose to a very high figure. As has been characteristic of recent years, products of mines represented the bulk of the company's freight business, and although average freight rates were low, it is evident by the increase in train mile earnings, that this type of business has been profitable.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

*Deficit

Note: Margin of safety is the proportion of surplus left over after providing for fixed charges. For example, the fixed charges in 1916 amounted to $1,621, thus consuming 92% of the available surplus, and leaving a "margin of safety" of 8%.

Comparative Income Account, Years Ended June 30

	1916	1915	1914	1913	1912	1911	1910
Gross revenues	$1,157,723	$1,046,099	$989,716	$1,247,870	$1,117,958	$942,753	$882,792
Maintenance of way	215,121	187,899	186,049	187,481	152,351	135,358	127,723

Surplus over charges	$29,331	def.$39,913	$89,789	$216,416	$76,004	$38,084	$21,223
Earned on preferred	0.3%	.....	0.9%	2.16%	.76%	.38%	.21%

Note: Fixed charges in 1916 included interest on bonds, $207,450; rentals, $2,300; other interest, $109,547.

Profit and Loss Account, year ended June 30, 1916: Credit balance, June 30, 1915, $145,471. Credit balance transferred from income, $29,331. Miscellaneous credits, $513. Total, $175,315. Contra: Loss on retired road and equipment, $51,112; credit balance carried to balance sheet, $124,203. Total, $175,315.

Comment: Both gross and net revenues increased substantially on the Coal & Coke Railway during the fiscal year 1916. There was, however, a falling off in the outside income, and therefore the balance available for charges,

while showing an improvement over 1915, did not equal the figures reported in 1913 or 1914. However, the fixed charges of the property were fully covered, and a moderate surplus carried forward.

Deferred credit items	389,838	3,086	2,287	2,088,377	2,108,490	1,418,198
Appropriated surplus	.....	.....	.....			
Profit and loss surplus	124,203	145,471	185,385	95,416	.....	.....
Total	$28,367,122	$26,890,956	$26,751,315	$26,483,346	$26,416,387	$26,366,812

Note: Working liabilities in 1916 included bills payable of $1,697,852.

Comment: There was a moderate increase in the funded debt of the Coal & Coke Railway during the year ended June 30, 1916. As measured on a mileage basis, the capitalization of this property is very high, and the net income on net capital continues to range at a low figure. The proportion of bond issues in the capitalization, however, is very small, and thus the property is able to carry capitalization without its becoming a burden. However, while the chief outstanding bond issue seems to be fairly well protected, there seems little prospect of any dividend disbursements on the large issue of outstanding stock.

TABLE D.—Bond Record and Ratings (Based on 8-Year Results, Per Mile on Road)

Name of Issue.	Interest Payable.	Maturity	Lien on Miles.	Outstanding per Mile.	Average Income Available.	Interest R'q'r'd per Mile of System.	Factor of Safety.	Basis for Rating. Security.	Basis for Rating. Salability.	Net Rating.
1. Coal & Coke Ry. first 5s	A&O	Ap 1919	(see text)	.....	$1,762	$1,030	41%	High	Good	Ba.
2. Equipment Trusts, Series "B"	F&A	F 1917	"	.....		8	41%	"	"	A.

Note: "Average income available" is the average net income available for interest charges, after deducting taxes, for the eight years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Ratings, see pages, 19 to 21.

REFERENCE NOTES ON BOND ISSUES

1. Auth., $5,000,000; outstanding, $4,059,000. Dated April 1, 1904; due April 1, 1919. Int. paid at Davis Trust Co., Elkins, W. Va., and at Mercantile Trust & Deposit Co., Baltimore. Coupon, $1,000. Direct first lien on

entire property of company 182.1, including coal lands, leases, real estate, etc., subject to $30,000 Charleston, Clendennin & Sutton R.R. first 5s, due Oct. 1, 1944, on 63.6 miles. Listed on Baltimore Stock Exchange. Interest paid without deduction for normal income tax.

2. Series B, 5s, dated Feb. 1, 1907; due $30,000 annually on Feb. 1, to 1917. Int. paid at Fidelity Trust Co., Baltimore. Now outstanding, $30,000. Interest paid without deduction for normal income tax. Covers equipment costing over $300,000.

Capital Stock: Authorized and outstanding, $10,000,000 5% non-cumulative preferred and $10,000,000 common; par, $100. Listed on Baltimore Stock Exchange. TRANSFER AGENT, C. M. Hendley, Washington, D. C.

COLORADO MIDLAND RAILWAY COMPANY

NOTE: The analysis is based on official documents of the company, including its annual reports of the past ten years.
For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated under Colorado laws, Oct. 11, 1897, as successor by reorganization to the Colorado Midland Railroad Co. In addition to its own lines, the company leases, jointly with the Denver & Rio Grande R.R., the Rio Grande Junction Ry. (operating from Rifle to Grand Junction, Col.), and until recently owned $737,500 stock of the latter out of a total of $2,000,000. Also owns nearly all the stock of the Utah Midland Ry., amounting to $250,000. This stock holding was, however, sold at $55 per share at auction on Nov. 12, 1912 (and acquired by Denver & Rio Grande), with $513,000 of the Colorado Midland Company's own bonds at 16%. These securities had been deposited under the company's notes due July 1, 1912, which were not paid at maturity.

The Denver & Rio Grande owns a half interest in the stock of the Colorado Midland. The other half was held by the Colorado & Southern Railway, which in 1912 arranged to sell same to Messrs. Blair & Co.

Location: The operated lines consist of 337.64 miles, as follows: Colorado Springs to New Castle, Col., 221.92 miles; Basalt to Aspen, 19.37 miles; Cardiff to Spring Gulch, Col., 15.01 miles; Arkansas Junc. to Leadville, 4.80 miles; Rio Grande Junction Ry. (leased), 62.08 miles; trackage rights, 14.46 miles.

Receivership: On Dec. 13, 1912, Geo. W. Vallery, the President, was appointed receiver. The interest due since Jan. 1, 1913, on the first mortgage bonds of the company is now in default.

Protective Committee: J. N. Wallace, Chairman; J. N. Jarvie, H. Bronner, B. A. Sands, F. L. Leland, Clark Williams, W. DeL. Kountze. Secretary, C. E. Siglar. Depositary, Central Trust Co., New York.

Management: OFFICERS: Geo. W. Vallery, Pres.; H. L. Hobbs, Treas.; W. S. Wing, Aud. DIRECTORS: Geo. W. Vallery, Henry T. Rogers, Samuel C. Mathews, Edwin Gould, Winslow S. Pierce, E. T. Jeffery, Chas. H. Schlacks. MAIN OFFICE: Denver, Col.

Classification of Freight Tonnage (Years Ending June 30)

Yard tracks and sidings, June 30, 1916, 122.98 miles.

Comment: The Colorado & Midland reported a slight improvement in its freight density during the year 1916, but there was a falling off in the train mile earnings resulting mainly no doubt from lower average freight rates. The company reported a moderate improvement in its coal revenue tonnage, but this tonnage was not heavy enough to make the operations of the company profitable.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ended June 30.	Gross Revenues.	Maintenance. Way.	Maintenance. Equipment.	Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.

Maintenance of equipmt.	365,233	386,805	426,855	409,896	338,802	393,260
All other oper. expenses	817,265	866,915	960,266	977,470	967,498	986,750
Net oper. revenues	$75,609	$157,604	$18,461	$170,507	$275,200	$247,282
Operating ratio	95%	90.7%	98.9%	90.7%	85%	87.1%
Other income	33,380	30,465	23,744	14,592	39,115	37,443
Total net income	$108,989	$188,069	$42,205	$185,099	$314,315	$284,725
Taxes accrued	96,862	109,710	108,000	95,477	91,200	91,800
Balance for charges	$12,127	$78,359	def. $65,795	$89,622	$223,115	$192,925
Fixed charges	77,393	89,569	74,889	282,439	474,537	460,641
Deficit	$65,266	$11,210	$140,684	$192,817	$251,422	$267,716

Profit and Loss Account, year ended June 30, 1916: Debit balance, June 30, 1915, $618,287, debit balance transferred from income account, $65,266; loss on retired road and equipment, $316; total, $683,869. Contra: Unrefundable overcharges, $56; debit balance transferred to balance sheet, $683,813. Total, $683,869.

Comment: Both gross and net revenues tended to decline on the Colorado & Midland Railway during the fiscal year 1916. As has been the case for several years, the company reported a very small surplus after paying taxes and, of course, failed to earn any proportion of its fixed charges. This property has now been in receivers' hands for over four years, and there seems little prospect of a reorganization in the near future.

TABLE C.—Capitalization Factors (Security Obligations and Earning Power)

Capitalization Per Mile of Road. | Dividend Record.

Deferred credit items..	79,587	28,779	41,383	41,816	36,731	38,497
Total	$20,505,933	$20,437,960	$20,481,911	$20,381,868	$20,900,176	$20,598,240

Comment: There were no capitalization changes in the Colorado & Midland Ry. during the fiscal year 1916. The capitalization of the property as measured on a mileage basis is high in view of the very nominal earning power of the company.

TABLE D.—Bond Record and Ratings (Based on 10-Year Results, Per Mile of Road)

NAME OF ISSUE.	Interest Payable.	Maturity.	Lien on Miles.	Outstanding per Mile.	Average Income Available.	Interest R'q'r'd per Mile of System.	Factor of Safety.	BASIS FOR RATING.		Net Rating.
								Security.	Salability.	
1. Colorado Midland first 50-year 4s.....	J&J	Jl 1947	(1st) 261	$36,500	$720	$1,120	.....	Poor	Poor	In Default

REFERENCE NOTE ON BOND ISSUE

1. Auth., $10,000,000; outstanding, $9,532,000. Dated July 1, 1897; due July 1, 1947. Int. payable at 26 Liberty St., New York (in default since Jan. 1, 1913). Coupon, $1,000. First lien on entire lines owned, consisting of 261.10 miles, including the main line from Colorado Springs to New Castle, with branches to Aspen, Leadville and Spring Gulch. Interest payable without deduction for normal income tax. Listed on New York and London Stock Exchanges.

Note: On Nov. 13, 1912, $513,000 of the above treasury bonds were sold at auction at 16%, with $737,500 Rio Grande Junction Ry. stock at 55%; these securities having been deposited under the company's notes, due July 1, 1912, which were not met at maturity. The company has thus disposed of practically all of its treasury bonds and also its stock holdings in the Rio Grande Junction Ry. It still makes use of this property through its lease, however.

Capital Stock: Authorized and outstanding, $6,000,000 4% non-cumulative preferred and $4,000,000 common, of which there are in the treasury of the company $578,700 preferred and $1,045,200 common. Par, $100. The Denver & Rio Grande R.R. holds a half-interest in the outstanding stock. The Colorado & Southern also held a half interest which it arranged to sell in 1912, but litigation prevented delivery.

CORNWALL RAILROAD

Origin: Incorporated in Pennsylvania in 1850; absorbed the Cornwall & Mount Hope Railroad in 1886.

Location: Operates 12.67 miles, Lebanon to Mount Hope, Pa. Main tonnage consists of ores transported in connection with Lackawanna Iron & Steel Co., etc. Sidings, 13.51 miles. Equipment: Locomotives, 7; passenger and freight cars, 172.

Control: The Lackawanna Iron & Steel Co. has a 20-year lease of the Cornwall Railroad, and controls and operates the property.

Management: OFFICERS: A. M. Patch, Pres.; E. A. S. Clarke, Vice-Pres.; C. H. McCullough, Jr., Vice-Pres.; H. C. Shirk, Sec.; J. W. Yake, Treas. and Aud. DIRECTORS: S. P. Light, A. M. Patch, H. C. Shirk, E. A. S. Clarke, Moses Taylor. Annual meeting, second Monday in January. MAIN OFFICE, Lebanon, Pa.

Tonnage: For the year 1916: Products of agriculture, 0.44%; mines, 73.93%; forests, 1.08%; manufactures, 13.48%; miscellaneous, 11.07%. Total tonnage, 1,191,314; total revenue tonnage, 1915, 667,182 tons; 1914, 892,036 tons; 1913, 1,297,421 tons; 1912, 1,055,003 tons.

INDUSTRIALS The Public Utility and Industrial Edition of "Moody's Analyses of Investments" covers the field of industrial enterprises in the same broad way that Steam Railroads are covered in this edition. No banker or investor can afford to be without this very important book. The price is the same as that of the Steam Railroad Edition, $15 per copy net.

MOODY'S INVESTORS SERVICE
35 NASSAU STREET, NEW YORK CITY

TABLE A.—Physical Factors (Mileage, Equipment and Operation)

Years Ended June 30.	Average Miles Operated.	Extra Main Track.	Locomotives Owned.	Passenger Cars Owned.	Freight and Company Cars.	Fgt. to all Traffic.	Passenger Density.	Freight Density.	Average Freight Train Load (Tons).	Train Mile Earnings.	Average Rate per Passenger per Mile. (Cents)	Average Rate per Ton per Mile. (Cents)
1907	..	.	.	..	....	....	.....	.....	....	.....	.....	.....
1908	13	6	6	6	150	74%	71,000	206,528	174	$2.40	1.90c	3.20c
1909	13	6	6	6	166	72	94,296	165,237	158	2.09	1.72	3.48
1910	13	6	6	10	162	78	99,000	334,000	229	3.42	1.78	3.82
1911	13	6	6	10	162	78	87,179	264,679	200	3.23	1.58	3.88
1912	13	6	6	10	162	81	82,542	213,616	183	4.30	2.23	4.26
1913	13	6	6	10	162	81	96,991	324,548	214	4.40	2.05	4.63
1914	13	6	6	10	162	77	96,161	272,944	173	3.23	2.01	3.94
1915	13	6	6	10	162	75	89,246	191,871	134	2.49	1.95	3.86
1916	13	6	7	10	162	75	78,203	305,408	211	4.11	1.97	4.22
9-Year Average	13	6	6	9	161	77%	88,291	253,203	186	$3.30	1.91c.	3.92c.

Yard tracks and sidings, 13.51 miles.

Comment: The Cornwall Railroad heavily increased the freight density during the fiscal year 1916, and also added to its average freight train load very substantially. Average freight rates were higher than usual, and train mile earnings also improved. The property, which is a small one, depends largely on mining products for its freight tonnage.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ended June 30.	Gross Revenues	Maintenance.		Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.
		Way.	Equipment.										
1907	.....	.....	.....	.....	.....	.....	.....	.....	.....	.....	.....	.....	.....
1908	$9,056	$1,039	$1,139	$2,178	$3,435	$3,443	$3,531	$335	$3,196	$167	95%	$3,029	$4,000

1916	16,978	1,389	1,821	3,210	4,613	9,155	9,285	523	8,762	2,453	72	6,309	5,540
9-Year Average	$13,334	$1,378	$1,546	$2,924	$4,003	$6,407	$6,486	$468	$6,018	$984	85%	$5,034	$4,995

Note: Above table is based on average mileage operated each year. Margin of safety is the proportion of surplus left over after deducting fixed charges. For example, in 1916 the "balance for charges (per mile) amounted to $8,762; fixed charges consumed $2,453, or 28%, leaving $6,309, a "margin of safety" of 72%. As this road has no bond issues, the fixed charges are made up entirely of miscellaneous items.

Comparative Income Account, Years Ended June 30

	1916	1915	1914	1913	1912	1911	1910
Gross revenues	$220,725	$128,189	$177,448	$240,851	$196,750	$168,291	$203,697
Maintenance of way	18,065	16,018	19,553	21,558	16,226	20,429	22,640
Maintenance of equipment	23,675	14,748	22,643	22,719	22,877	19,400	23,868
All other operating expenses	59,965	49,790	56,745	60,889	55,605	50,236	50,524
Net operating revenues	$119,020	$47,633	$78,507	$135,685	$102,042	$78,226	$106,665
Operating ratio	46%	62.8%	55.8%	43.8%	48.2%	53.5%	47.6%
Other income	1,683	2,253	561	876	638	845	489
Total net income	$120,703	$49,886	$79,068	$136,561	$102,681	$79,071	$107,154
Taxes accrued	6,805	5,634	7,389	7,743	7,070	5,687	6,168
Balance for charges	$113,898	$44,252	$71,679	$128,818	$95,611	$73,384	$100,986
Fixed charges	31,885	7,857	18,686	22,372	10,717	6,019	12,384
Surplus over charges	$82,013	$36,395	$52,993	$106,446	$84,894	$67,365	$88,602
Dividends paid	72,000	36,395	40,000	112,000	80,000	80,000	72,000
Balance	$10,013	.....	$12,963	def. $5,554	$4,894	def. $12,635	$16,602
Earned on Stock:	10.3%	4.5%	6.6%	13.3%	10.6%	8.4%	11.1%

Note: There is no bonded debt, and fixed charges, as shown above, cover hire of equipment and a small amount of rentals.

Comment: Gross revenues during the year 1916 reached a relatively high figure on the Cornwall Railroad, and as operating costs did not sharply advance the net income available for charges was better than for any year since 1913. After paying fixed charges, the surplus was amply sufficient to justify the disbursement of 9% dividends on the outstanding stock.

TABLE C.—Capitalization Factors (Security Obligations and Earning Power)

Capitalization Per Mile of Road. Dividend Record.

Note: Above table is based on the average mileage directly operated. The entire capitalization is embraced in the stock issue. There are no bonds or other permanent debts.

Comparative Condensed Balance Sheet, as of June 30

Assets:	1916	1915	1914	1913	1912	1911	1910
Property investment	$847,111	$839,365	$844,666	$892,189	$843,384	$889,138	$889,138
Working assets	85,417	69,524	70,836	55,244	66,929	47,399	54,377
Deferred debit items	103	310	517				
Total	$932,631	$909,199	$916,019	$947,433	$910,313	$936,537	$943,515
Liabilities:							
Capital stock	$800,000	$800,000	$800,000	$800,000	$800,000	$800,000	$800,000
Working liabilities	17,715	5,490	210	2,981	10,228	52,047	46,391
Accrued liabilities not due	8,785	7,590	8,084	49,721			
Deferred credit items	200	200	200	200			
Appropriated surplus	10,701	10,701	10,701	10,701	10,701	.....	.....
Profit and loss surplus	95,230	85,218	96,824	83,830	89,384	84,490	97,124
Total	$932,631	$909,199	$916,019	$947,433	$910,313	$936,537	$943,515

Comment: There were no capitalization changes in this property in the year 1916. The company has no bonded debt, and the outstanding stock as measured on the mileage basis, appears relatively heavy. However, the earning power of the property has always been substantial, and this capitalization has been carried without any great difficulty.

TABLE E.—Stock Record and Ratings (Based on 9-Year Results, Per Mile of Road)

Name of Issue.	Rate of Dividend.	Amount Outstanding.	Average Income Available.	Dividend Requirement.	Factor of Safety.	Basis for Rating.		Net Rating.
						Equity.	Salability.	
Cornwall R. R. Stock	(see text)	$61,538	$5,024	$3,076*	49%	High	Fair	Baa.

* For 5%.

Note: "Average income available" on stock issues is the average surplus, after deducting all fixed and other charges, for the nine years ending June 30, 1916. "Dividend requirement" is the requirement, at the current rate, on the present amount outstanding. For Key to Ratings, see pages 21 to 23.

Capital Stock: Auth. and outstanding, $800,000; par, $100. Dividends in recent years as follows: 1900 and 1901, 8% each; 1903, 2%; 1906, 10%; 1907, 13%; 1909, 5%; 1910, 9%; 1911 and 1912, 10% each; 1913, 14%; 1914, 5%; 1915, 6%; 1916, 9%. In 1902, a stock dividend of 100% was paid, increasing the issue from $400,000 to $800,000. The company has no bonded debt. Transfer Office, Lebanon, Pa.

COUDERSPORT & PORT ALLEGANY RAILROAD

Origin: Incorporated May 16, 1882, in Pennsylvania. Acquired Coudersport & Pine Creek R.R. in 1896.

Location: Operates line from Port Allegany to Ulysses, 39 miles. Equipment: Locomotives, 5; passenger and freight cars, 84.

Management: OFFICERS: Jas. L. Knox, Pres.; Henry Hamlin, Vice-Pres.; A. B. Mann, Sec.; R. A. Knox, Treas. DIRECTORS: B. A. McClure, J. W. Wells, F. D. Knox, H. Hamlin, J. Forrest, Frank Rumsey, J. L. Knox, B. A. McClure, F. G. Reese, R. A. Olmsted. OFFICE: Coudersport, Pa. Annual meeting, first Monday in October.

Tonnage, year ended June 30, 1916: Products of agriculture, 4.54%; animals, 3.86%; mines, 6.95%; forests, 49.51%; manufactures, 7.92%; miscellaneous, 27.22%. Total revenue tonnage, 237,110 tons.

* Deficit.

Profit and Loss Account, year ended June 30, 1916: Credit balance, June 30, 1915, $89,959; credit balance transferred from income, $23,761; total, $113,720. Contra: Credit balance carried to balance sheet, $113,720.

Comment: Gross revenues on this property in 1916 were far better than in 1915, although not quite equaling the results of 1910. However, the fixed charges on this property are very light and therefore the company finds little difficulty in reporting a substantial surplus. In the year 1916 the surplus equaled nearly 9% on the outstanding stock.

Total	$696,225	$675,316	$674,570	$672,736	$672,893	$661,238	$644,742
Liabilities:							
Capital stock	$300,000	$300,000	$300,000	$300,000	$300,000	$300,000	$300,000
Funded debt	245,000	245,000	245,000	245,000	245,000	245,000	245,000
Working liabilities	1,600	.....	.....	.....	.....	.....	.....
Accrued liabilities not due	5,614	7,214	5,614	5,614	5,614	5,614	.....
Appropriated surplus	30,291	33,143	32,382	.....	.....	.....	.....
Surplus	113,720	89,959	91,574	122,122	122,279	110,624	99,742
Total	$696,225	$675,316	$674,570	$672,736	$672,893	$661,238	$644,742

Comment: There were no capitalization changes in the property during 1916. It will be noted that the company is lightly capitalized, and that although its earning power is also light, the net income on net capital has continuously ranged at substantial figures.

TABLE D.—Bond Record and Ratings (Based on 9-Year Results, Per Mile of Road)

Name of Issue.	Interest Payable.	Maturity.	Lien on Miles.	Outstanding per Mile.	Average Income Available.	Interest R'q'r'd per Mile of System.	Factor of Safety.	Basis for Rating. Security.	Basis for Rating. Salability.	Net Rating.
1. Coudersport & Port Allegany first 5s	J&J 15	Je 1936	(1st) 39	$6,282	$913	$312	66%	High	Good	Ba.

Note: "Average income available" is the average net income available per mile for interest charges, after deducting taxes for the nine years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Ratings, see pages 19 to 21.

REFERENCE NOTE ON BOND ISSUE

1. Auth. and outstanding, $245,000. Dated June 15, 1896; due June 15, 1916; extended to June 15, 1936. Int. paid at Commonwealth Trust Co., Harrisburg, Pa. Coupon, $100 and $1,000. First lien on 45 miles, as follows: Port Allegany to Ulysses, Pa., 39 miles. Interest paid without deduction for normal income tax.

Capital Stock: Auth. and outstanding, $300,000; par, $100. Dividends in recent years as follows: 1900, 10%; 1901 and 1902, 12% each; 1903, 10%; 1904, 7%; 1905, 9%; 1906, 14%; 1907, 13%; 1908, 6%; 1909 and 1910, 8% each; 1911, 7%; 1912, 6½%; 1913, 7½%; 1914, 6%; 1% Oct. 4, 1915. Payments made quarterly January. Transfer Office, Coudersport, Pa.

THE DELAWARE AND HUDSON COMPANY

NOTE: The analysis is based on official documents of the company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated April 23, 1883, as the Delaware & Hudson Canal Company; name changed to Delaware & Hudson Company, April 28, 1899. The company formerly operated the Delaware & Hudson Canal, extending from Honesdale, Pa., to Rondout, N. Y., but this was sold in June, 1899, and the cost of the property charged off. Within the past ten years the company has merged a number of its controlled properties, including the Adirondack Railway, the Schenectady & Duanesburg R.R., the New York & Canada R.R., the Cherry Valley, Sharon & Albany R.R., etc. The Albany & Susquehanna, Albany & Vermont, Chateaugay & Lake Placid, Cooperstown & Susquehanna Valley, Rensselaer & Saratoga, and Saratoga & Schenectady companies are controlled or leased, but directly operated. The Greenwich & Johnsonville, Napierville Junction, the Quebec, Montreal & Southern, and Schoharie Valley companies are controlled but separately operated. Also operates the Wilkesbarre Connecting R.R., a line of 7 miles, from Buttonwood to Hudson, Pa., placed in operation in 1915, which connects with the Pennsylvania R.R.

Location: Directly operated lines consist of 909.07 miles, as follows: Lines owned: Saratoga Springs to North Creek, N. Y., 56.68 miles; Nineveh to Jefferson Junc., Pa., 22.01 miles; Lookout Junc. to Honesdale Junc., 27.62 miles; Carbondale to Green Ridge, 15.32 miles; Cherry Valley Junc. to Cherry Valley, 21.04 miles; Glenville to Coons, N. Y., 9.68 miles; Schenectady to Ballston, 14.12 miles; Charlotte Crossing to Davenport Center, N. Y., 3.96 miles; Greenwich to Greenwich Junc., N. Y., 10.20 miles; Whitehall to Rouses Point, N. Y., and branches, 125.71 miles; Albany & Susquehanna R.R., Albany to Binghamton, N. Y., and branches, 142.59 miles; Rensselaer & Saratoga R.R., Albany to Whitehall, N. Y., and branches, 198.41 miles; Chateaugay & Lake Placid Ry., Bluff Point to Lake Placid, N. Y., 79.44 miles; Union R.R., Green Ridge to Hudson, Pa., and branches, 28.60 miles; Cooperstown & Susq. Valley Ry., Cooperstown Junc. to Cooperstown, N. Y., 19.48 miles; Ticonderoga R.R., Ticonderoga to Ticonderoga Junc., N. Y., .92 mile; total leased, 469.44 miles. Trackage rights, 104.18 miles. In addition, the Delaware & Hudson Company leases the Rome & Clinton R.R., and the Utica, Clinton & Binghamton R.R., but these companies are sub-leased to and operated by the New York, Ontario & Western Ry. Mileage is chiefly in New York State. Population of New York State in 1890, 5,998,853; in 1900, 7,268,894; in 1910, 9,113,614.

Coal Properties: The company has for many years been a large producer and carrier of anthracite coal. In 1915 the coal mined by its coal-mining department was stated as 8,100,767 tons as compared with 7,400,695 tons in 1914. Title to the coal properties is held either directly or through stock ownership by the Hudson Coal Company, and in conformity with the Hepburn Law a contract was made with the Hudson Coal Company in June, 1909, whereby that company purchases outright at the mines all coal produced by the coal properties controlled.

Traction Properties: The Delaware & Hudson Company owns the entire capital stock of the United Traction Company (controlling the Hudson Valley Railway Co.), the Plattsburg Traction Co., and the Troy & New England Ry. Co.; and also one-half of the capital stock of the Schenectady Railway Co. (For full information regarding these companies, see "Moody's Analyses of Public Utilities and Industrials.")

Allied Boat Lines: Company controls the Champlain Transportation Co. and the Lake George Steamboat Co. In 1916 the Interstate Commerce Commission authorized the company to retain ownership in these properties.

Management: OFFICERS: L. F. Loree, Pres.; Robert M. Olyphant, Chairman Executive Com.; Chas. A. Peabody, Vice-Pres.; C. S. Sims, 2d Vice-Pres. and Gen. Mgr.; W. H. Williams, 3d Vice-Pres.; Chas. A. Walker, Treas.; F. M. Olyphant, Sec. DIRECTORS: R. M. Olyphant, Chauncey M. Depew, W. H. Williams, Geo. I. Wilber, Chas. A. Peabody, Chas. S. Weston, L. F. Loree, W. S. Opdyke, R. S. Lovett, Cornelius Vanderbilt, Robert C. Pruyn, Archibald D. Russell, Henry W. DeForest. Annual meeting, second Tuesday in May. MAIN OFFICE, 32 Nassau Street, New York.

Classification of Freight Tonnage (Years Ending Dec. 31, 1907–1912 and June 30, 1913–1916)

	1907	1908	1909	1910	1911	1912	1913	1914	1915	1916
Products of Agriculture	4.47%	4.50%	5.76%	5.21%	5.10%	5.34%	4.88%	5.39%	5.7%	4.5%
Products of Animals	1.22	1.10	1.21	.93	1.11	1.24	1.16	.86	.9	.8
Products of Mines	68.39	69.31	62.70	64.79	65.56	62.83	64.12	63.52	64.8	64.9
Products of Forest	4.52	4.48	5.48	4.76	4.41	5.32	5.23	5.39	4.6	5.0

Merchandise and Miscel.	7.83	7.98	10.63	10.42	9.77	11.04	11.37	9.69	8.3	8.2

Total revenue tonnage in 1909, 17,817,464 tons; 1910, 18,825,328 tons; 1911, 19,887,973 tons; 1912, 19,319,161 tons; 20,443,250 tons in year ended June 30, 1913; 19,976,154 tons in 1914; 19,906,057 tons in 1915; 22,623,328 tons in 1916.

The chief items of tonnage on this road are anthracite and bituminous coal. For the year 1911 there were transported 9,295,307 tons of anthracite and 2,095,052 tons of bituminous; in 1912, anthracite, 8,009,596 tons; bituminous, 2,494,643; in year ended Dec. 31, 1913, anthracite, 8,911,989 tons; bituminous, 2,406,953 tons; in year ended June 30, 1915, anthracite, tonnage, 9,591,200 tons; bituminous tonnage, 1,843,481 tons; in year ended June 30, 1916, anthracite tonnage, 9,851,123 tons; bituminous tonnage, 2,716,043 tons.

Public Utilities

If you are interested in any way in the securities of Gas, Electric Light, Electric Traction, Telephone and Telegraph or Power Companies, the "Public Utilities and Industrials" Edition of "MOODY'S ANALYSES OF INVESTMENTS" will prove indispensable. This whole field is covered in the same comprehensive and accurate way that Steam Railroads are covered in the Railroad Edition. In fact, the two volumes constitute a complete Service for the Banker and Investor. Separately, the editions sell at $15 each; in combination, they are supplied at $25, when ordered in advance.

MOODY'S INVESTORS SERVICE, 35 NASSAU STREET, NEW YORK

* On basis of 847 miles of passenger traffic in 1912. Above mileage does not include Cooperstown & Charlotte Valley R.R., 23 miles, reported separately.

Yard tracks and sidings, June 30, 1916, 641.96 miles.

Comment: For the year ended June 30, 1916, the Delaware & Hudson Company reported a heavy increase in its freight density, and also a great improvement in its train load. Notwithstanding the fact that average freight rates fell to a new low figure, the train mile earnings were better than ever before. The company as usual depended primarily on coal for its freight tonnage, and in 1916 this item of tonnage equaled nearly 65% of the total business done.

Balance	$5,817,550	$1,715,009	$288,525	$3,153,305	$1,680,819	$1,412,411
Earned on stock	13.66%	13.04%	9.68%	16.42%	12.96%	12.32%

* Paid from surplus.

Note: Fixed charges include rentals of leased lines (a large item), interest on bonds, equipment, notes, etc. Fiscal year ends Dec. 31. "Net operating revenues," as shown above, is net for railroad alone.

Profit and Loss Account, year ended June 30, 1916: Credit balance June 30, 1915, $16,883,996; credit balance transferred from income, $5,817,550; delayed income credits, $9,066; unrefundable overcharges, $327; miscellaneous credits, $27,582; total, $22,738,521. Contra: Dividend appropriations of surplus, $3,825,234; debt discount, commissions, etc., extinguished through surplus, $368,640; miscellaneous appropriations of surplus, $12,410; loss on retired road and equipment, $14,395; miscellaneous debits, $28,232; credit balance carried to balance sheet, $18,489,610; total, $22,738,521.

Comment: The income statement of the Delaware & Hudson for the year ended June 30, 1916, was a very satisfactory one. Both gross and net revenues underwent a large advance, although there was some falling off in outside income. However, the surplus available for charges and dividends reached very heavy figures. While fixed charges again increased, they were actually earned almost twice over. The surplus on the stock equaled 13 2/3%.

Total	$143,683,168	$139,783,210	$138,154,971	$134,784,933	$131,497,371	$127,198,621

Note: Above balance sheets for 1913 to 1916 are those submitted to Interstate Commerce Commission and not to stockholders. On Dec. 31, 1915, in statement to stockholders, company reported stocks and bonds owned of $28,644,317.

Comment: There were practically no changes in the capitalization figures of the Delaware & Hudson Company during the year ended June 30, 1916. There was, however, a further moderate increase in results and something of a decline in the amount of investments owned. As a result the net capitalization is now higher than in 1915, but the earning power is such as to easily carry this capitalization. Last year the net income on net capital equaled nearly 11%.

It will be noted that during the past ten years there has been a considerable expansion in the bonded debt per mile of the company, while the capital stock outstanding has shown no increase. The bonded debt now represents about 60% of the aggregate of stock and bonds, as compared with only 43% ten years ago. This change has naturally resulted in larger fixed charges, but the earning power of the company has kept pace with these increases. The company has a splendid record as a dividend payer.

Stocks and Bonds Owned on Jan. 1, 1916, were as follows:

Shares	*Stocks*	*Par Value*
30,000	The Chateaugay & L. P. Ry. Co. (Pref.)	$3,000,000.00

* Includes sinking fund.

Note: "Average income available" is the average net income per mile available for interest charges, after deducting taxes for the ten years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Bond Ratings, see pages 19 to 21.

REFERENCE NOTES ON BOND ISSUES

1. Auth. and outstanding, $5,000.000. Dated Sept. 1, 1877; due Sept. 1, 1917. Int. paid at office of company in New York. Coupon, $1,000; reg., $5,000. First lien, 47.30 miles, as follows: Penn.-N. Y. State line to Jefferson Junc., Pa., 4.36 miles; Carbondale to Green Ridge, 15.32 miles; Lookout Junc. to Honesdale, 27.62 miles; also on coal lands and other realty in Luzerne, Wayne, and Susquehanna Counties, Pa. Underlie No. 4, which provides for retirement. Legal for Savings Banks in Cal., Conn., Maine, Mass., Mich., Minn., N. H., N. J., N. Y., R. I., Wis. Listed on New York Stock Exchange. Normal income tax deducted from interest.

2. Auth., $2,000,000; outstanding, $1,000,000 (closed). Dated Mar. 1, 1892; due Mar. 1, 1942. Int. paid at D. & H. office, New York. Coupon, $1,000. Guar. prin. and int. by D. & H. Co. First lien, 60.08 miles, Saratoga to North Creek, and Thurman to Warrensburg, N. Y. Underlie No. 4. which provide for retirement. Legal for S. B. in Cal., Conn., Maine, Mass., Mich., Minn., N. H., N. J., N. Y., R. I., Wis. Normal income tax deducted from interest.

3. Auth. and outstanding, $500,000. Dated Sept. 1, 1874; due Sept. 1, 1924. Int. paid at D. & H. office, New York. Coupon, $100, $500 and $1,000. Guar. as to int. by D. & H. Co., by endorsement. First lien, 13.79 miles, Schenectady to Duanesburgh, N. Y. Underlie No. 4, which provide for retirement. Legal for S. B. in Cal., Conn., Maine, Mass., Mich., Minn., N. H., N. J., N. Y., R. I., Wis. Normal income tax deducted from interest.

4. Auth., $50,000,000; outstanding, $32,204,000. Dated May 1, 1908; due May 1, 1943. Int. paid at office of company, New York. Coupon, $1,000; reg., $1,000, $5,000 and $10,000. Callable at 107½ and int., on and after May 1, 1918, on 13 weeks' notice. Sinking fund, 1% of outstanding bonds per annum, bonds not called. First lien, 220.14 miles, as follows: Whitehall to Rouses Point, N. Y., 112.93 miles; Canada Junc. to Mooers Junc., 12.78 miles; South Junc. to Ausable Forks, 18.87 miles; Ft. Ticonderoga to Baldwin, 4.77 miles; Cherry Valley Junc. to Cherry Valley, 21.04 miles; Glenville to Coons, 9.68 miles; Nineveh to N. Y.-Penna. State line, 17.65 miles; branches, 22.42 miles; also secured by second lien on 121.09 miles which are covered by Nos. 1, 2, and 3; also secured by first lien on leasehold interests covering 441.79 miles additional and 57.01 miles of trackage rights. Legal for S. B. in Conn., Me., Mass., Mich., Minn., N. H., N. J., N. Y., R. I., Wis. Listed on New York Stock Exchange. Interest paid without deduction for normal income tax.

5. Auth. and outstanding, $300,000. Dated Jan. 1, 1890; due Jan. 1, 1940. Int. paid at D. & H. office, New York. Coupon, $1,000. The D. & H. owns $28,000 of these bonds. First lien on realty at Bluff Point, Lake Champlain, N. Y. Guar. prin. and int. by D. & H. Co. Normal income tax deducted from interest.

6. Auth., $1,550,000; outstanding, $1,300,000. Dated Jan. 1, 1902; due Jan. 1, 1942. Int. paid at D. & H. office, New York. Coupon and reg., $1,000. Callable at 105. Guar. prin. and int. by D. & H. Co. Interest paid without deduction for normal income tax.

7. Auth., $1,600,000; now outstanding, $75,000; dated May 1, 1901; due May 1, 1917. Int. paid at D. & H. office, New York. Reg., $1,000. Guar. prin. and int. by D. & H. Co. Normal income tax deducted from interest.

8. Auth., $1,850,000; now outstanding, $200,000; dated May 1, 1902; due $100,000 annually to May 1, 1918. Int. paid at D. & H. office, New York. Reg., $1,000. Guar. prin. and int. by D. & H. Co. Normal income tax deducted from interest.

9. Auth., $10,000,000; outstanding, $6,444,000 (closed). Dated April 1, 1906; due April 1, 1946. Int. at D. & H. office, New York. Coupon, $1,000. These bonds were convertible into capital stock of D. & H. Co., until April 1, 1916, at rate of $500 in stock for each $1,000 bond. Guar. prin. and int. by D. & H. Co., by endorsement. First lien, 142.59 miles, Albany to Binghamton, N. Y. Legal for S. B. in Cal., Conn., Maine, Mass., Mich., Minn., N. H., N. J., N. Y., R. I., Wis. Listed on New York Stock Exchange. Interest paid without deduction for normal income tax.

10. Auth. and outstanding, $2,000,000. Dated May 1, 1871; due May 1, 1921. Int. paid at D. & H. office, New York. Coupon and reg., $1,000. Int. guaranteed by D. & H. Co. First lien, 135.28 miles, as follows: Troy to Ballston Spa, 25.82 miles; Saratoga Springs to Whitehall, 40.39 miles; Whitehall to N. Y.-Ver. State line, 6.63 miles; Rutland, Vt., to Eagle Bridge, N. Y., 62.44 miles. Legal for S. B. in Cal., Conn., Maine, Mich., Minn., N. J., N. Y., R. I., Wis. Listed on New York Stock Exchange. Normal income tax deducted from interest.

11. Auth. and outstanding, $800,000. Dated July 1, 1889; due July 1, 1939. Int. paid at N. Y. Trust Co., New York. Coupon, $1,000. First lien, 31 miles, Utica to Randallville, N. Y. This road is leased to D. & H. Co. in perpetuity at guarantee of principal and interest on bonds and dividends on stock (see below), but is operated by N. Y. O. & W. Ry. (which see). Interest paid without deduction for normal income tax.

12. Auth., $10,000,000; outstanding, $9,643,000; retired, $357,000. Dated June 1, 1907; due July 1, 1922. Int. paid at New York. Coupon, $1,000. Sinking fund, $650,000 per annum, to purchase these or other legal bonds; total sum in fund on Dec. 31, 1915, $5,556,503. A first lien on equipment costing $11,000,000. Interest paid without deduction for normal income tax. Listed on New York Stock Exchange. Legal for S. B. in N. H. and R. I.

13. Auth. and outstanding, $14,451,000. Dated Oct. 1, 1915; due Oct. 1, 1935. Interest paid at D. & H. office, New York. Coupon and reg., $500 and $1,000; interchangeable. Callable as a whole on Oct. 1, 1922, or any interest date thereafter, at 105 and interest, on 90 days' notice. Convertible from Oct. 1, 1917, to Oct. 1, 1927, into capital stock of the company at the rate of $1,500 par value of bonds for ten shares of stock (with adjustment of interest and dividends). If called, bonds may be converted up to 30 days prior to redemption date. Not secured by mortgage, but a direct obligation of the company. Listed on New York Stock Exchange. Legal for S. B. in N. H. and R. I. Normal income tax deducted from interest.

* Average before deducting dividend guarantees, but after deducting all interest charges and other rentals.
† On guaranteed portion.

Note: "Average income available" on stock issues is the average surplus, after deducting all fixed and other charges, for the ten years ending June 30, 1916. "Dividend requirement" is the requirement, at the current rate, on the present amount outstanding. For Key to Stock Ratings, see pages 21 to 23.

REFERENCE NOTES ON STOCK ISSUES

1. Road leased to Delaware & Hudson Co. in perpetuity, rental being interest on bonds and 12.45% per annum on stock. See below.

2. Road leased in perpetuity to Delaware & Hudson Co., rental being 3% on stock and $2,000 per annum organization expense. See following pages.

3. Road leased to Delaware & Hudson Co. in perpetuity, rental being interest on bonds and 8% on stock. See following pages.

4. Road leased in perpetuity to Delaware & Hudson Co., but operated by N. Y., Ont. & Western Ry. under contract to 1921. Rental, $22,375 per annum, and taxes; equalling 6¼% on stock. See under its own heading.

5. Road leased to Delaware & Hudson Co. at annual rental of $61,500, and subleased to New York, Ontario & Western Ry. It controls 10 miles of street lines in addition to its railway, the former being leased to the Utica & Mohawk Valley Ry. at a rental of $15,000. On $200,000 of the stock 5% dividends are paid and guaranteed by the Delaware & Hudson Co. On the balance, the dividend rate is 3¾% per annum. See under its own heading.

6. Auth., $55,711,500; outstanding, $42,503,000. TRANSFER OFFICE, 32 Nassau St., New York.

Dividends: From the date of its organization, the company declared a total of 226 cash dividends aggregating 686%, or $118,334,286. The yearly rates and amounts are shown in the following statement:

			1889.....	7	1,715,000			

Besides the above cash dividends, the following distributions of stock, aggregating $6,643,500, have been made: 1845; 25%, $480,500; 1856, 4%, $288,000; 1864, 16 2/3%, $1,250,000; 1865, 14 2/7%, $1,250,000; 1868, 20%, $2,000,000; 1890, 5 3/5%, $1,375,000.

Investment Position: All of the bond obligations of the Delaware & Hudson Company, whether direct company issues or guarantees, stand on a very high investment plane; as is indicated by the record of the company for a long series of years. The guaranteed stock issues, where fully guaranteed under leases, are also on a high credit basis. The company's own capital stock presents a remarkable dividend exhibit, and in all normal years should be assured of its present rate of 9%.

COMPANIES CONTROLLED BY DELAWARE & HUDSON COMPANY

ALBANY AND SUSQUEHANNA RAILROAD

Incorporated under New York laws, April 19, 1851; first operated 35 miles in 1863. Line of road, Albany to Binghamton, N. Y., 142.59 miles, of which 95.33 miles is double track. Sidings, 155.48 miles. Leased Feb. 24, 1870, for term of charter to Delaware & Hudson Co., rental being interest on bonds, dividends of 7% on stock until 1902, and 9% thereafter. In 1906, however, the Courts decided that the stockholders were entitled to the saving effected through the refunding of the old 7% bonds at 3½%, and that during the life of these bonds (to 1946), the stockholders are to receive 3.25% additional to the regular 9% each year. Property is directly operated.

Management: OFFICERS: A. W. Butler, Pres.; G. W. Murray, Vice-Pres.; W. L. M. Phelps, Sec. and Treas. Annual meeting, third Tuesday in October. MAIN OFFICE, Albany, N. Y.

Bonded Debt: $10,000,000 Albany & Susquehanna R.R. first 3½s; dated April 1, 1906; due April 1, 1946; int. paid April and Oct. at D. & H. Co., office, New York. Coupon and reg., $1,000. Guar. prin. and int. by D. & H. Co., and convertible into D. & H. Co. stock until April 1, 1916, on basis of $1,000 for 5 shares of stock. First lien on entire property. For rating, see D. & H. Co. bond table, page 304.

Capital Stock: Authorized and issued, $3,500,000; par, $100. Dividends, 9% per annum, "regular" and 3.25% extra each year, making 12.25% per annum; on Nov. 30, 1909, an extra dividend of 30% was paid to cover arrears on the "extra" disbursement. TRANSFER AGENT, C. H. Booth, 32 Nassau St., New York. For rating, see D. & H. Co. guaranteed stock table, page 305.

ALBANY & VERMONT RAILROAD

Incorporated under New York laws, Oct. 17, 1859, succeeding the Albany, Vermont & Canada R.R. Line of road, Albany to Waterford Junc., N. Y., 12.18 miles, of which 11.15 miles is second track. Leased in perpetuity from June 12, 1860, to Rensselaer & Saratoga R.R.; lease assigned to D. & H. Co., which operates the property. Rental, $20,000 per annum, equalling 3% on stock and $2,000 organization expenses.

Management: OFFICERS: E. C. Gale, Pres.; Le Grand C. Cramer, Vice-Pres.; S. S. Bullions, Sec. and Treas. Annual meeting, third Tuesday in October. OFFICE, Troy, N. Y.

CHATEAUGAY AND LAKE PLACID RAILWAY

Incorporated under New York laws July 10, 1903, as a consolidation of the Chateaugay R.R., the Chateaugay Ry. and the Saranac & Lake Placid Railway. Line of road, Bluff Point to Lake Placid, N. Y., 79.44 miles. Sidings, 38.05 miles. Leased to D. & H. Co. for 99½ years from July 1, 1903, rental being the surplus earnings of the property. Property is directly operated by lessee.

Management: OFFICERS: S. M. Weed, Pres.; L. F. Loree, Vice-Pres.; C. S. Sims, Vice-Pres.; W. H. Williams, Vice-Pres.; G. H. Parker, Vice-Pres.; C. A. Walker, Treas; F. M. Olyphant, Sec.; W. H. Davies, Compt. OFFICE, 32 Nassau St., N. Y. Annual meeting, second Wednesday in June at Lyon Mt., N. Y.

Income Account, year ended June 30, 1916: Net income from lease, $126,741; net after charges, $85,037; dividend on preferred stock (2.83%) $85,037.

Capital Stock: Auth. and issued, $3,000,000 preferred and $450,000 common; par, $100. D. & H. Co. owns all preferred and $75,000 common. No bonded debt.

COOPERSTOWN & CHARLOTTE VALLEY RAILROAD

Incorporated under laws of New York, April 30, 1888, as a consolidation of the old company of same name with the West Davenport R.R. Line of road, Charlotte Crossing to Davenport Centre, N. Y., 3.96 miles. Leased, 19.79 miles; sidings, 3.13 miles. Also operates the Cooperstown & Susquehanna Valley R.R. under lease (see below). Controlled through stock ownership by D. & H. Co.

Management: OFFICERS: L. F. Loree, Pres.; C. S. Sims and W. H. Williams, Vice-Pres.; C. A. Walker, Treas.; F. M. Olyphant, Sec. Annual meeting last Tuesday in December. MAIN OFFICE, 32 Nassau St., New York.

Comparative Income Account, Years Ended June 30

	1916	1915	1914	1913	1912	1911
Gross revenue	$53,956	$53,097	$57,345	$61,556	$60,415	$63,953
Maintenance of way	19,087	11,595	3,767	26,362	9,971	7,987
Maint. of equipment	5,000	2,451	1,984	3,316	3,816	1,686
All other oper. expenses	38,700	37,009	35,074	38,359	32,751	32,844

Total net income	(def.) $8,244	$2,724	$17,192	(def.) $5,775	$14,149	$21,323
Taxes	3,984	4,667	3,304	2,872	3,335	2,800
Fixed charges	11,547	11,046	11,043	(cr.) 8,647	11,120	11,597
Surplus	(def.) $23,775	(def.) $12,989	$2,845	.....	(def.) $306	$6,926

Note: This property has recently been showing a rather heavy net deficit, and its gross revenues have inclined to fall during recent years. Its value to the Delaware & Hudson Company, however, is probably sufficient to warrant the latter to take care of the issue of Cooperstown & Susquehanna Valley 1st 5s, the interest on which is guaranteed by the Cooperstown & Charlotte Valley Railroad. (See below.)

THE DELAWARE, LACKAWANNA & WESTERN RAILROAD COMPANY

NOTE: The analysis is based on official documents of the company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated under Pennsylvania laws, March 19, 1849, as the Liggetts Gap R.R., name changed to Lackawanna & Western R.R., April 14, 1851. April 30, 1853, was consolidated with the Delaware & Cobbs Gap R.R., and title changed to Delaware, Lackawanna & Western R.R. Later, other small roads were absorbed, and also a large number of leased lines. In 1909, the Bangor & Portland Ry. and the Hanover & Newport R.R. were absorbed.

Location: The directly operated lines of the company on Dec. 31, 1915, were 980.55 miles, embracing a main line from Hoboken, N. J., to Buffalo, with branches to Ithaca, Oswego, N. Y., Northumberland, Pa., and many other points. Of the above mileage, 236.12 miles were owned, 683.32 miles leased and 61.11 mile controlled by stock ownership. The leased lines include Morris & Essex R.R., Morris & Essex Extension R.R., Newark & Bloomfield R.R., Passaic & Delaware R.R., Passaic & Delaware Extension R.R., Warren R.R., Chester R.R., Valley R.R., Cayuga & Susquehanna R.R., New York, Lackawanna & Western Ry., Utica, Chenango & Susquehanna Valley Ry., Greene R.R., Oswego & Syracuse R.R., Syracuse, Binghamton & New York R.R., and Lackawanna R.R. of N. J. Lines controlled and operated include Sussex R.R., Lackawanna & Montrose R.R., Hopatcong R.R., Erie & Central New York R.R. Also leases the Hoboken Ferry Co. The operated mileage is chiefly in New York, New Jersey and Pennsylvania. Population of these States in 1890, 12,700,800; in 1900, 15,454,708; in 1910, 19,315,557.

Coal Properties: The company owns in fee simple extensive coal lands in Lackawanna and Luzerne counties, Penn., estimated to contain 400,000,000 tons of unmined anthracite coal. Formerly, the coal produced was directly distributed by the company, but in compliance with the recent decision of the U. S. Supreme Court, the operation of the properties was divorced from the railroad company through the formation of the Delaware, Lackawanna & Western Coal Sales Co., with which a contract has been made for the sale of all the coal produced at the mines of the company. (See latter company under its own heading in "Moody's Analyses of Public Utilities and Industrials.")

Management: OFFICERS: Wm. H. Truesdale, Pres.; E. E. Loomis, Vice-Pres.; P. J. Flynn, Vice-Pres.; W. S. Jenney, Vice-Pres. and Gen. Counsel; Arthur D. Chambers, Sec. and Treas.; R. B. Scofield, Asst. Sec. and Asst. Treas. DIRECTORS: Wm. Rockefeller, Henry A. C. Taylor, Geo. F. Baker, H. R. Taylor, M. Taylor Pyne, E. E. Loomis, M. H. Dodge, Wm. H. Moore, William Fahnestock, Geo. F. Baker, Jr., William H. Truesdale, John F. Talmage, Harold S. Vanderbilt, Beekman Winthrop. Annual meeting, Tuesday preceding last Friday in February. GENERAL OFFICE, 90 West St., New York.

Classification of Freight Tonnage (Years Ending Dec. 31, 1907–1912 and June 30, 1913–1916)

Yard tracks and sidings, Dec. 31, 1915, 1,027 miles. Of the total mileage of main line operated, 236 miles is directly owned, and the balance is leased or otherwise controlled. In addition to the above 955 miles, on which the accompanying earnings are based, the company controls and now directly operates 26 miles more, making 981 miles in all.

Comment: Great prosperity was reflected in the operating exhibit of the Delaware, Lackawanna & Western for the year ended June 30, 1916. The freight density reached far higher figures than ever before, and both train mile earnings and the average freight train load underwent substantial improvement. The company's tonnage was more widely diversified during the past year than usual, the proportion of high-grade freight undergoing a large increase.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ended	Gross Revenues.	Maintenance. Way.	Maintenance. Equipment.	Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.
1907 Dec. 31....	$48,395	$6,461	$4,846	$11,307	$16,667	$20,423	$27,039	$379	$26,660	$8,687	67%	$17,973	$6,805

10-Year Average	$44,306	$4,998	$6,419	$11,417	$14,924	$17,765	$23,558	$1,791	$21,767	$7,077	67%	$14,690	$7,275

Note: Above table is based on average mileage operated for each year, whether owned, leased or otherwise controlled. Margin of safety is the proportion of surplus left over after providing for all fixed charges. For example, in 1916, the "balance for charges" was (per mile), $21,906; fixed charges required $6,943 per mile, or 32%, leaving $14,963, a "margin of safety" of 68%.

Comparative Income Account, Years Ended December 31, 1911, and 1912; June 30, 1913, to 1916

	1916	1915	1914	1913	1912	1911

Earned on stock.....	28.93%	25.72%	24.35%	32.25%	38.76%	38.76%

• Outside operations included in gross and net revenues.

Note: Fixed charges include interest and rentals of leased lines and miscellaneous items. Other income includes investments, receipts from coal earnings, etc.

The percentage, as shown, of amounts earned on stock is after deducting appropriations for improvements in each year. For current monthly earnings and all later news, consult our Special Service.

Profit and Loss Account, year ended June 30, 1916: Credit balance, June 30, 1915, $37,909,643; credit balance transferred from income account, $3,788,694; profit on road equipment sold, $52,353; unrefundable overcharges, $5,906; miscellaneous credits, $1,990,687; total, $43,747,283. Contra: Loss on retired road and equipment, $84,271; miscellaneous debits, $18,577; credit balance carried to balance sheet, $43,644,435; total, $43,747,283.

Comment: Gross and net revenues on this property underwent very large increases during the year ended June 30, 1916. There was a falling off, however, in investment income, but the surplus available for dividends after payment of the usual fixed charges was nevertheless far higher than ever before. The company reported earnings of nearly 29% on its present enlarged stock issue. As usual 20% was paid during the year.

It will be noted that in 1916 the gross revenues per mile well exceeded those of ten years previously, being no less than $51,657. Operating and maintenance costs in the meantime have risen, as have also taxes. But fixed charges per mile have tended to decline, and therefore the company has been able to maintain a high margin of safety through the entire decade.

TABLE C.—Capitalization Factors (Security Obligations and Earning Power)

Capitalization Per Mile of Road. Dividend Record.

Present figures are based on 955 miles, as compared with 770 miles in 1908; the Bangor & Portland property having been merged, and other lines constructed or acquired. The bonded debt represents the bonds assumed of the Bangor & Portland road ($320,000). Rentals represent all leased line obligations, but not rents for joint facilities. Investments owned include bonds and stocks in treasury. The latter include $7,163,300 stocks and bonds of leased lines. Rentals of leased lines in 1915 amounted to $6,063,815, and included the following: Morris & Essex R.R., New York, Lackawanna & Western, Lackawanna R.R. of N. J., Syracuse, Binghamton & New York R.R., etc.

Comparative Condensed Balance Sheet, as of December 31, 1911-1912 and June 30, 1913-1916

Assets:	1916	1915	1914	1913	1912	1911
Property investment....	$137,678,344	$134,011,037	$108,670,324	$105,175,414	$59,313,976	$55,485,228

Appropriated surplus..	55,892,724	55,884,396	56,496,881	56,966,945	14,198,218	12,477,520
Profit and loss surplus..	43,644,435	37,909,643	35,954,790	32,088,524	29,515,902	25,502,631
Total	$153,138,398	$146,506,013	$144,704,923	$136,102,541	$83,497,805	$78,127,513

Note: The Property Investment account, as shown above, includes securities, advances in proprietary companies, unpledged securities, etc. Above balance sheet for 1915 is that submitted to the Interstate Commerce Commission. The statement to stockholders of Dec. 31, 1915, showed total investments in treasury of $31,053,502. These included $17,172,000 par value of leased-line stocks and bonds, as follows: Lackawanna R.R. of N. J., stock, $167.300; Morris & Essex R.R. bonds, $9,364,000; Morris & Essex Extension R.R. stock, $42,300; Newark & Bloomfield R.R. stock, $1,575,350; N. Y. Lack. & Western Ry. stock, $70,400; N. Y., Lack. & Western bonds, $2,000,000; Syracuse, Binghamton & N. Y. R.R. stock, $2,155,700; and several small issues of minor leased roads.

Comment: There were no important changes in the capitalization exhibit of the Delaware, Lackawanna & Western during the year ended June 30, 1916. As measured on the mileage basis, however, there was some decline in the net capitalization, as rental charges fell off and the amount of investments owned tended to increase. The capitalization as a whole appears high per mile, but the remarkable earning power of the property enables it to carry this capitalization with great ease. In 1916 the net income on net capital exceeded 17%.

TABLE D.—Bond Record and Ratings (Based on 10-Year Results, Per Mile of Road)

For Reference Notes on Bond Issues, see next page.

Note: "Average income available" is the average net income per mile available for interest charges, after deducting taxes, for the ten years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Bond Ratings, see pages 19 to 21. For bonds of N. Y. & Hoboken Ferry Co., see "Moody's Anaylses of Public Utilities and Industrials.

REFERENCE NOTES ON BOND ISSUES

I., Wis. Seconds and thirds are legal in N. H. Normal income tax deducted from interest.

HOW TO ANALYZE RAILROAD REPORTS

By JOHN MOODY

THIS attractive book, which has just been issued, covers in a complete and popular way the entire subject of railroad operation and finance. It is intended primarily for the Investor who holds railroad stocks or bonds, and supplies a long-felt want for every one who is in any way interested in railroad securities.

Every stockholder receives his annual report from the railroad in which he has invested his money, but very few stockholders have the time or the technical knowledge to clearly analyze the meaning of the figures presented. This little book explains the principles whereby every statement and figure in the report can be clearly understood, and the significance properly judged.

HOW TO INVEST MONEY WISELY

By JOHN MOODY

DIVERSIFIED investing is something which no investor, large or small, should ignore. The general plan of this book is based on principles for intelligently diversifying investment capital, a subject which the writer has been carefully studying for many years in connection with his work as an analyst and investigator of investments for bankers, institutions, and individual investors both at home and abroad. These methods for wisely and intelligently investing money on comprehensive and intelligent principles of diversification have within the past few years been adopted by numerous institutions and many thousand individual investors with advantage and profit.

Price, $2.00 per copy each, in uniform binding

THE DENVER & RIO GRANDE RAILROAD COMPANY

NOTE: The analysis is based on official documents of the company, including its annual reports of the past ten years.
For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated under Colorado and Utah laws, Aug. 1, 1908, as a consolidation of the old Denver & Rio Grande R.R. (which was itself formed in 1886, succeeding at that time the Denver & Rio Grande Ry.) and the Rio Grande Western Railway, the latter having been first acquired in 1901. The Denver & Rio Grande Railroad has since the consolidation of 1908, acquired by merger several smaller constituent companies, including the Utah Central Ry., the San Pete Valley Ry., etc. The company also controls the Utah Fuel Co. through oiwnership of its entire capital stock.

Location: The directly operated lines of the Denver & Rio Grande R.R. embrace 2,576.75 miles, including lines from Denver, Colo., to Ogden, Utah, with branches; Pueblo to Trinidad, Colo., with branches; Cucharas to Creede. Colo., Salida to Grand Junction, Mears Junc. to Silverton, Col., Thistle Junc. to Marysville, Utah, etc. Mileage chiefly in Colorado and Utah. Population of these States in 1890, 627,103; in 1900, 816.449; in 1910, 1,172,-375. In addition to its directly operated lines the company controls the Rio Grande Southern R.R., and jointly with the Colorado Midland Ry. leases the Rio Grande Junction Ry. It also holds an important interest in the Colorado Midland.

MISSOURI PACIFIC INTEREST: On June 30, 1916, $17.295,000 common and $9,805,000 preferred stock of the Denver and Rio Grande was owned by the Missouri Pacific Ry.

WESTERN PACIFIC RY.: This company, which has constructed a western extension of the Denver & Rio Grande system from Salt Lake City to San Francisco, was formerly controlled by stock ownership by the Denver & Rio Grande, which guaranteed the interest on its first mortgage bonds, and owned its entire issue of second mortgage bonds. This property has now been reorganized after receivership as the Western Pacific Railroad, in which the Denver & Rio Grande has no interest, though litigation in regard to the alleged guarantee by the Denver & Rio Grande of the old company's bonds is now pending. For details, see statement of Western Pacific Railroad.

Management: OFFICERS: H. U. Mudge, Pres.; Kingdon Gould, Vice-Pres.; A. E. Sweet, Vice-Pres.; Jas. Russell, Gen. Mgr.; John P. Howland, Sec.; John B. Andrews, Asst. Sec.; Thos. H. Marshall, Treas., and Jesse White, Asst. Treas. DIRECTORS: Geo. J. Gould, Edward T. Jeffery, Kingdon Gould, Arthur Coppell, Finley J. Shepard, H. A. Mudge, Benj. B. McAlpin, Edgar L. Marston, Edward D. Adams, Benjamin F. Bush, Edward L. Brown. Annual meeting, third Tuesday in October. MAIN OFFICE, Denver, Col. NEW YORK OFFICE, 165 Broadway.

Classification of Freight Tonnage (Years Ending June 30)

10-Year Average } ..	2,546	140	579	409	17,415	73%	101,390	530,137	301	$2.79	1.93c	1.24c

Of the total mileage operated, 1,791 miles is standard gauge and 786 miles narrow (3-foot) gauge.

Comment: During the year ended June 30, 1916, both passenger and freight density underwent a very decided improvement on the Denver & Rio Grande property. The average freight train load was also far higher than usual, while the train mile earnings, notwithstanding lower freight and passenger rates, reached a new high level. As usual, the company depended mainly on the products of mines for its freight tonnage, this character of tonnage last year representing over 80% of the business done.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

YEARS ENDED JUNE 30.	Gross Revenues.	MAINTENANCE. Way.	MAINTENANCE. Equipment.	Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.
1907.....	$8,563	$940	$1,176	$2,116	$3,184	$3,263	$3,360	$280	$3,080	$1,409	54%	$1,671	$915

Common	3.5%	.....	.....	.....	.....	.....	4.08%

Note: Fixed charges, in 1916, include rental of yards and terminals, hire of equipment, and interest on direct funded debt, including interest on adjustment 7s.

Profit and Loss Account, year ended June 30, 1916: Credit balance at beginning of year, $8,970,651; credit balance transferred from income account, $1,228,690; unrefundable overcharges, $447; donations, $6,712; miscellaneous credits, $10,662; total, $10,217,162. Contra: Redemption of equipment bonds, $12,000; loss on retired road and equipment, $38,103; surplus appropriated for investment in physical property, $6,922; advance surveys, $18,695; settlement of litigation, $5,174; miscellaneous debits, $2,018; credit balance carried to balance sheet, $10,134,250; total, $10,217,162.

Comment: A very pronounced improvement in shown in the income exhibit of the Denver and Rio Grande for the fiscal year ended June 30, 1916. Both gross and net earnings reached higher figures than for many years past, and although there was some falling off in the outside income the balance available for fixed charges was very high. The fixed charges themselves tended to decline slightly, and therefore the final surplus for dividends rose to the high figure of 7.7% on the preferred stock. No attempt was made to resume payments of dividends during the year.

TABLE C.—Capitalization Factors (Security Obligations and Earning Power)

	Capitalization Per Mile of Road.								Dividend Record.					
Years Ended June 30.	Stock Outstanding and Per Cent of Whole.		Bonds Outstanding and Per Cent of Whole.		Rentals Cap. at 5 Per Cent.	Total Gross Capital.	Owned by Co. as per Balance Sheet. Note: Bonded debt, as shown above, includes the company's own and assumed obligations, but not any issues of separately operated controlled lines. Investments owned included at the book value the various issues held. Among the latter is now the Utah Central stock, the Rio Grande Junction Ry. stock, the Western Pacific stock, and second mortgage bonds, etc. The Western Pacific investment has since been wiped out in the reorganization of the latter company. In the 1913, 1914, 1915 and 1916 exhibit above, the pledged securities are not included.

Comparative Condensed Balance Sheet, as of June 30

Assets:	1916	1915	1914	1913	1912	1911
Property investment	$228,217,779	$228,510,393	$216,643,450	$201,086,988	$195,987,024	$195,600,198
Working assets	7,380,425	8,825,873	16,397,197	13,981,708	12,238,047	13,095,646

Total	$251,148,509	$246,909,892	$244,057,348	$239,316,667	$225,908,770	$219,536,730

LIABILITIES:	1916	1915	1914	1913	1912	1911
Capital stock	$87,779,800	$87,779,800	$87,779,800	$87,779,800	$87,779,800	$87,779,800
Funded debt	134,717,346	134,812,449	133,803,000	130,991,000	121,626,463	117,831,000
Working liabilities	3,097,096	2,770,332	3,667,398	3,917,424	3,411,390	3,325,932
Accrd. liabilities not due	1,215,335	1,606,712	1,540,246	1,557,752	1,456,594	1,359,933
Deferred credit items..	7,592,644	7,132,569	6,317,495	5,150,936	3,767,901	2,508,133
Appropriated surplus ..	6,612,038	3,837,378	3,110,658	2,731,840	1,932,533	1,650,769
Profit and loss surplus.	10,134,250	8,970,651	7,828,751	7,187,915	5,934,089	5,081,163
Total	$251,148,509	$246,909,892	$244,057,348	$239,316,667	$225,908,770	$219,536,730

Note: In above balance sheet for 1915, the securities held in treasury are included in the funded debt, and offset on the asset side. Working assets included $4,220,769 in cash in 1916. "Property investment," 1915 and 1916 apparently include investments formerly carried in working assets as "marketable securities" or "loans and bill receivable." Impossible to ascertain exact amount so transposed.

Comment: There were practically no capitalization changes in the Denver & Rio Grande during the fiscal year 1916. As measured on the mileage basis, the average net capitalization was considerably lower than previously for the reason that certain formerly assumed obligations were not included in the figures. It will be noted that a gratifying improvement took place in the percentage of net income on net capital.

TABLE D.—Bond Record and Ratings (Based on 10-Year Results, Per Mile of Road)

NAME OF ISSUE.	Interest Payable.	Maturity.	Lien on Miles.	Outstanding per Mile.	Average Income Available.	Interest R'q'r'd per Mile of System.	Factor of Safety.	BASIS FOR RATING. Security.	BASIS FOR RATING. Salability.	Net Rating.

8. Equipment trust, Series B 5s	M&S	(see text)	.....	.....		30	77%	Good	Good	Aa.

Note: "Average income available" is the average net income per mile available for interest charges, after deducting taxes, for the ten years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Ratings, see pages 19 to 21.

REFERENCE NOTES ON BOND ISSUES

1 and 2. Auth., $42,000,000; outstanding, $35,570,000 4s, of which $1,445,000 are in treasury (closed), $6,382,000 4½s (closed). Date of 4s, July 15, 1886; date of 4½s, Jan. 1, 1898; due Jan. 1, 1936. Int. paid at National Park Bank, New York. Coupon, $500 and $1,000. First lien on 1,646.83 miles, as follows: Denver to Rifle, Col., 386.92 miles; Pueblo to Alamoso, 132.66 miles; Salida to Crevasse, 227.80 miles; Leadville to Dillon, 36.28 miles; Cucharas to Trinidad, Col., 41.94 miles; Alamosa to Silverton, Col., 245.42 miles; Alamosa to Wagon Wheel Gap, Col., 60.34 miles; Walsenburg to Maitland, Col., 4.85 miles; Leadville to Dillon, Col., 36.28 miles; Glenwood Springs to Aspen, Col., 42.48 miles; Mears Junc. to Alamosa, Col., 73.44 miles; Poncha Junc. (Salida) to Monarch, Col., 15.66 miles; Gunnison to Floresta, Col., 32.31 miles; Crested Butte to Anthracite, Col., 10.71 miles; Sapinero to Lake City, Col., 35.84 miles; Montrose to Ouray, Col., 35.70 miles; Delta to Somerset, Col., 43.06 miles; Antonio, Col., to Espanola, N. M., 91.82 miles; Carbon Junc. (Durango), Col., to Farmington, N. M., 47.66 miles; and branches aggregating 81.94 miles. Underlie Nos. 3, 6 and 7, with provision by No. 6 to retire. Legal for Savings Banks in Mo., R. I. Listed on New York, London and Philadelphia Stock Exchanges. Interest paid without deduction for normal income tax.

3. Auth., $5,000 per mile; outstanding, $8,335,000 (closed). Dated June 1, 1888; due June 1, 1928. Int. paid at National Park Bank, New York. Coupon, or reg., $500. Assumed by Denver & Rio Grande R.R. Second lien on 1,646.83 miles, following Nos. 1 and 2. Underlie Nos. 6 and 7, with provision by former to retire. Listed on New York and London Stock Exchanges. Interest paid without deduction for normal income tax.

4. Auth., $16,000,000; outstanding, $15,200,000 (closed), of which $10,000 are in treasury. Dated July 1, 1889; due July 1, 1939. Int. paid at Guaranty Trust Co., New York Coupon, $1,000; reg., $1,000 and multiples. Assumed by Denver & Rio Grande R.R. First lien on 421.27 miles, as follows: From Cravasse, Col., to Ogden, Utah, 314.61 miles; Colton to Scofield, Utah, 15.97 miles; Thistle to Manti, Utah, 61.63 miles; Bingham Junc. to Bingham, Utah, 14.23 miles; Wasatch to Midvale, Utah, 6.83 miles; and spurs, 8.05 miles. Underlie Nos. 5, 6 and 7, with provision by No. 6 to retire. Listed on New York and London Stock Exchanges. Normal income tax deducted from interest.

5. Auth., limited to $16,475,000; outstanding, $16,475,000, of which $1,395,000 are in treasury. Dated April 1, 1899; due April 1, 1949. Int. paid at Guaranty Trust Co., New York. Redeemable at par on any interest date on six months' notice. Assumed by Denver & Rio Grande R.R. First lien on 277.72 miles, as follows: Mounds to Sunnyside, Utah, and spurs, 17.86 miles; Scofield to Clear Creek, Utah, 5.57 miles; Provo to Heber, Utah, 26 miles; Welby to Garfield, Col., 15.94 miles; Manti to Marysville, Utah, 70.88 miles; Salina to Nioche, Utah, 20 miles; Springville to Silver City, Utah, 43.75 miles; Nephi to Manti, Utah, 42.13 miles; various spurs and branches, 23.30 miles; second lien on 423 miles, following No. 4. Also secured by deposit of entire stock ($10,000,000) of Utah Fuel Co. Underlies No. 6, which provides for retirement, and No. 7. Listed on New York Stock Exchange. Interest paid without deduction for normal income tax. Coupon, $1,000; reg., $1,000 and multiples.

6. Auth., $150,000,000; outstanding, $33,039,000. Dated Aug. 1, 1908; due Aug. 1, 1955. Int. paid at Bankers' Trust Co., New York, and at Berlin. Redeemable as whole at 110 and int. on ninety days' notice. Sinking fund: $120,000 annually on or before Aug. 1, 1913, and on or before Aug. 1 in each year thereafter, to be used for the purchase of these bonds or underlying bonds at not exceeding 105 and int. First lien on 196.90 miles, as follows: Texas Creek to West Cliffe, Col., 25.49 miles; Maitland to Big Four Mines, Col., 9.43 miles; Moffat to Crestone, 11.44 miles; Wagon Wheel Gap to Creede, Col., 9.59 miles; Espanola to Santa Fe, N. M., 33.97 miles; and Pagosa Junc. to Pagosa Springs, Col., 30.85 miles; and branch, 3.36 miles; Reliance Junc. to Ojo, 5.41 miles; Taos Junc. to La Madera, 16.43 miles; Spring Canyon Junc. to Standard, 5.13 miles; Salt Lake City to Park City, Utah, 29.23 miles; spurs, 16.57 miles; second lien on 277.72 miles, following No. 5; third lien on 2,086.10 miles, as follows: On 1,647 miles, following No. 3, and on 421 miles, following No. 4; also secured by deposit of $1,221,150 out of $2,000,000 capital stock of the Rio Grande Junc. Ry., and $149,200 (par value) capital stock of the Rio Grande & Southwestern R.R. Underlies No. 7. Listed on New York and London Stock Exchanges. Interest paid without deduction for normal income tax.

7. Auth., $25,000,000; outstanding, $10,000,000. Dated May 1, 1912; due April 1, 1932. Int. paid at New York, London, Berlin, Paris, and Amsterdam, if earned, but cumulative. Coupon, $1,000. Redeemable at 115 and interest on any interest date on ninety days' notice in lots of not less than $50,000. Second lien on 196.90 miles, following No. 6; third lien on 277.72 miles, following No. 6; fourth lien on 2,086.10 miles, following No. 6; second lien on securities described in No. 6, but subject thereto; also secured by deposit of $737,150 additional stock of Rio Grande Junc. Ry. Interest paid without deduction for normal income tax.

8. Auth., $1,500,000; outstanding, $150,000. Dated Sept. 1, 1907; due $75,000 semi-annually on Mar. and Sept. 1, each year, to Aug. 31, 1917. Int. paid at Blair & Co., New York. Redeemable at 101 and interest on four weeks' notice. First lien on equipment, costing $1,790,700. Interest paid without deduction for normal income tax. Coupon, $1,000.

TABLE E.—Stock Record and Ratings (Based on 10-Year Results, Per Mile of Road)

Name and Details of Issue.	Rate and Date Dividends.	Amount Outstanding per Mile.	Average Income Available per Mile.	Dividend Required per Mile of System.	Factor of Safety.	Basis for Rating.		Net Rating.
						Equity.	Salability.	
Denver & Rio Grande R.R. preferred..... 5% non-cumulative. Par $100. Outstanding, $49,775,670.	None	$19,311	$1,036	.....	.....	See below	High	Caa.

Earned on common	9.7%	5.4%	8.1%	9.7%	6.1%	5.7%	6.5%

* Deficit. Other income in 1916 was chiefly net profit from rental of equipment.

Profit and Loss Account, year ended June 30, 1916: Profit on road and equipment sold, $9,230; miscellaneous credits, $108. Contra: Debit balance from income account, $8,407. Credit balance at close of year, $931.

Comment: The income statement of the Detroit & Mackinac Railway during the year ended June 30, 1916, made a much better exhibit than in 1915. The company also benefited to some extent by increasing its outside income, and therefore the balance available for charges was much better than in the previous year. Fixed charges tended to decline with the result that the surplus left over was equal to more than 25% on the outstanding preferred stock.

Comment: There were no capitalization changes in this property during the year ended June 30, 1916. As measured on the mileage basis, the road is very lightly capitalized, and although the volume of business is not heavy the company finds little difficulty in carrying this capitalization.

TABLE D.—Bond Record and Ratings (Based on 10-Year Results, Per Mile of Road)

NAME OF ISSUE.	Interest Payable.	Maturity.	Lien on Miles.	Outstanding per Mile.	Average Income Available.	Interest R'q'r'd per Mile of System.	Factor of Safety.	BASIS FOR RATING. Security.	BASIS FOR RATING. Salability.	Net Rating.
1. Det. & Mackinac first lien 4s.	J&D	Je 1995	(1st) 404	$2,600	$795	$110	86%	High	High	**Aa.**
2. Det. & Mackinac mortgage 4s	J&D	Je 1995	(2d) 404	3,094	685	130	80%	"	"	**Baa.**

Note: "Average income available" is the average net income per mile available for interest charges, after deducting taxes, for the ten years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Bond Ratings, see pages 19 to 21.

REFERENCE NOTES ON BOND ISSUES

1. Auth., $1,500,000; outstanding, $1,050,000; in treasury, $450,000. Dated May 1, 1895; due June, 1995; int. paid at J. P. Morgan & Co., New York. Coupon, $1,000. First lien on 404.44 miles, including line from Bay City to Cheboygan, Mich., 195.02 miles, and various branches. Underlie No. 2. Listed on New York and London Stock Exchanges. Interest paid without deduction for normal income tax.

2. Auth., $2,500,000; outstanding, $1,250,000. Dated May 1, 1895; due June 1, 1995. Int. paid at J. P. Morgan & Co., New York. Secured subject to No. 1 on same property. Callable at par and interest on any interest date. Of the total authorized issue of $2,500,000, $500,000 are held as a free treasury asset, and $750,000 have been exchanged for preferred stock and retired. Listed on New York Stock Exchange. Interest paid without deduction for normal income tax.

For Key to Stock Ratings, see page 21.

Auth., $1,000,000 preferred and $2,000,000 common; outstanding, $950,000 preferred and all the common. Preferred stock has preference as to 5% non-cumulative dividends, but not to assets. Full rate has been paid on preferred since 1903. On common, 5% from 1911 to 1914; 2½% in 1915; 5% in 1916. TRANSFER AGENTS: J. P. Morgan & Co., New York. Listed on New York Stock Exchange.

DETROIT, TOLEDO & IRONTON RAILROAD COMPANY

NOTE: The analysis is based on official documents of the company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated under Delaware laws, Feb. 20, 1914, as a reorganization of the Detroit, Toledo & Ironton R.R. Latter was successor in 1905 of Detroit Southern R.R., and acquired control of Ann Arbor R.R. by purchase of over 70% of the capital stock of the latter. Default was made in February, 1908, on the consolidated mortgage bonds of the company, and receivers were appointed; control of the Ann Arbor property was relinquished in November, 1910.

Location: Lines extend from Tecumseh, Mich., to Jackson, Ohio, 273.35 miles; Delray to Dundee, Mich., 39.6 miles; Bloom to Ironton, Ohio, 30.81 miles, with branches from Kingman to Sedalia, Jackson to Cornelia, etc., 52.5 miles; trackage rights, 45.03 miles. Total operated, 441.29 miles. In May, 1916, leased the Toledo-Detroit R.R., 22 miles from West Toledo to Detroit. Population of Michigan and Ohio in 1890, 5,766,205; in 1900, 6,578,527; in 1910, 7,577,294.

Management: OFFICERS: James M. Kurn, Pres.; F. H. Osborn, Vice-Pres.; E. C. Davis, Sec. and Treas. DIRECTORS: James M. Kurn, Wm. C. Osborn, Otto T. Bannard, Sidney C. Borg, F. H. Ecker, Harry Forsyth, F. H. Osborn. Annual meeting, first Monday in March. OFFICE, Detroit, Mich.

Yard tracks and sidings, June 30, 1916, 154.40 miles.

Comment: The Detroit, Toledo & Ironton Company did not increase its freight and passenger density during the year 1916, but there was a very substantial improvement in the average freight train load. Average freight rates also increased substantially with the result that train mile earnings were far in excess of those ever before reported. The freight tonnage of the property was widely diversified during the past year, the proportion of high grade freight being far above the average for the decade.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

YEARS ENDED JUNE 30.	Gross Revenues.	MAINTENANCE. Way.	MAINTENANCE. Equipment.	Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.

Balance for charges	$564,943	$121,730	* $888,535	*$220,111	$144,017	*$29,195	$72,177
Fixed charges	237,006	253,864	789,308	1,207,646	1,209,887	1,170,792	986,475
Deficit	sur.$327,937	$132,134	$1,677,843	$1,427,757	$1,065,869	$1,199,987	$914,298

Note: Fixed charges prior to 1914 are the full charges of the old company. In 1916 the charges include $112,120 in hire of equipment items.

Profit and Loss Account, year ended June 30, 1916: Credit balance, June 30, 1915, $28,986; credit balance transferred from income, $327,937; miscellaneous credits, $1,295; total, $358,218. Contra: Loss on retired road and equipment, $8,644; miscellaneous debits, $1,481; credit balance carried to balance sheet, $348,093; total, $358,218.

Comment: Both gross and net revenues on this property underwent very marked improvement during the fiscal year ended June 30, 1916. It will be noted that whereas in the previous year only a small surplus was left over available for fixed charges, in the year just closed the company earned its total fixed charges far more than twice over. The position of the property at the present time gives very good promise for the future. Current earnings are being maintained at or above the high levels reported during the past year.

Comment: There were no important capitalization changes in the Detroit, Toledo & Ironton property for the year ended June 30, 1916. The company succeeded, however, in presenting a stronger financial statement than in previous years and it will be noted, added very substantially to its surplus account. The road since its reorganization has had a relatively light capitalization and the management is now succeeding in carrying this capital without difficulty. The position of the first mortgage bond issue created at the time of the reorganization is steadily becoming stronger.

TABLE D.—Bond Record and Ratings (Based on 2-Year Results, Per Mile of Road)

Name of Issue.	Interest Payable.	Maturity.	Lien on Miles.	Outstanding per Mile.	Average Income Available.	Interest R'q'r'd per Mile of System.	Factor of Safety.	Basis for Rating. Security.	Basis for Rating. Salability.	Net Rating.
1. Det. Tol. & Ironton first 5s..	J&J	Mr 1964	(1st) 398	.....	$77S*	$122	84%	Good	Fair	Baa.
2. Det. Tol. & Ironton adj. 5s..	A&O	Mr 1954	(2d) 398	.....	656	See note	.....	Fair	.....	Caa.
3. Equipment trust 6s.....	Var.	Var.	Equip.	.....		30	High	Good	Good	A.

* Average income available is the two-year average covering the operations of the new company. While the figures for prior years are available, during the long receivership no attempt was made to show any real surplus for fixed charges, practically the entire earnings of the company having been each year appropriated for maintenance and improvement purposes. Thus, in 1914, the receiver spent $2,941 per mile for maintenance, whereas about $1,200 per mile would be the normal expenditure under ordinary traffic conditons. For Key to Ratings, see pages 19-21.

REFERENCE NOTES ON BOND ISSUES

1. Authorization not limited; outstanding, $1,075,000. Dated Mar. 1, 1914; due Mar. 1, 1964. Int. paid Jan. and July 1, at New York Trust Co. Coupon, $1,000. Callable at 105 on 60 days' notice. First lien on 397.57 miles, including 272.20 miles from Tecumseh, Mich., to Jackson, Ohio; 39.60 miles, Delray to Dundee, Mich.; 31.00 miles, Kingman to Sedalia, O.; 30.60 miles, Bloom to Ironton, O.; 18.65 miles, Jackson to Cornelia, O.; 5.26 miles, Lisman Junc. to Dean, O. Underlies No. 2. Interest paid without deduction for normal income tax.

2. Auth. and outstanding, $8,000,000. Dated Mar. 1, 1914; due Mar. 1, 1954. Int. not cum. until Dec. 31, 1918; cumulative thereafter. Coupon, $100 and $1,000. Callable as a whole on 60 days' notice as follows: to April, 1915, at 70% of face value; to April, 1916, at 75%; to April, 1917, at 80%; to April, 1918, at 85%; to April, 1919, at 90%; thereafter at par. Bonds carry voting power until March, 1919, or until interest has been paid in full for two consecutive years. Thus far, no interest payments have been made. Follow No. 1 on same property. Normal income tax deducted from interest.

3. Equipment trust 6s. Dated April 15, 1914; due $50,000 each April and Oct. 15, to Oct. 15, 1917. Int. paid April and Oct. 1 at New York Trust Co., New York. Coupon, $1,000. Original issue, $250,000; now unredeemed, $100,000. Interest paid without deduction for normal income tax. Equipment trust 6s; dated Nov. 1, 1915; due $6,600 each May and Nov. to Nov. 1, 1925. Int. paid May and Nov. at New York Trust Co., New York. Coupon, $500. Original amount, $132,000; now outstanding, $118,800. Callable on 60 days' notice. First lien on 200 box cars. Interest paid without deduction for normal income tax.

Capital Stock: Auth., $6,000,000 4% non-cumulative preferred and $6,500,000 common; par $100. Outstanding, $5,989,998 preferred and all the common.

DETROIT & TOLEDO SHORE LINE RAILROAD

Origin: Incorporated under the laws of Michigan, Mar. 28, 1898, under the name of the Pleasant Bay Ry.; title changed as above April 14, 1899. Controlled by Grand Trunk Western Ry. and Toledo, St. Louis & Western Ry., through ownership of 50% each of its capital stock. Road first opened for traffic in September, 1903. Miles of second track, 20.90; sidings, 36.22 miles.

Location: Line of road from Toledo, O., to Delray, Mich., with various branches and trackage rights, making 80.80 miles in all.

Management: Officers: W. L. Ross, Pres.; Toledo, O.; H. S. Kelley, Vice-Pres., Montreal, Que.; George W. Alexander, Sec. and Treas.; J. P. Main, Gen. Mgr.; L. F. Lang, Aud., Detroit, Mich. Directors: J. S. MacKie, New York; A. B. Atwater, Detroit, Mich.; W. L. Ross, B. C. Stevenson, Toledo, O.; H. S. Kelley, E. J. Chamberlin, Montreal. Annual meeting, first Monday in October. Office, Detroit, Mich.

Profit and Loss Account, year ended June 30, 1916: Credit balance at beginning of year, $314,478; credit balance transferred from income account, $334,953; total, $649,431. Contra: Credit balance carried to balance sheet, $649,431; total, $649,431.

Comment: This property, which forms a freight line between Delray and Toledo, Ohio, and a connecting link the Grand Trunk Western Railway and the Toledo, St. Louis & Western, has reported steady progress in earning power during the past few years. It is every year becoming a more profitable investment to its owners.

Comment: In relation to its earning power, this property is very lightly capitalized. It will be noted that during the past ten years the net income on net capital has continuously ranged at high figures, and in 1916 was no less than 22.2%. The bond issue is entitled to a strong investment rating, entirely independent of the guarantee feature.

TABLE D.—Bond Record and Ratings (Based on 10-Year Results, Per Mile of Road)

Name of Issue.	Interest Payable.	Maturity.	Lien on Miles.	Outstanding per Mile.	Average Income Available.	Interest R'q'r'd per Mile of System.	Factor of Safety.	Basis for Rating. Security.	Salability.	Net Rating.

REFERENCE NOTE ON BOND ISSUE

Note: "Average income available" is the annual average surplus, after payment of taxes, for ten years ended June 30, 1916. The ratings are based, not only on the guarantees, but also on the earning power of the property, its financial position, etc. For full information, see Introduction. For Key to Bond Ratings, see pages 19-21.

1. Auth. and outstanding, $3,000,000. Dated Jan. 1, 1903; due Jan. 1, 1953. Int. paid Jan. and July 1, at Bankers' Trust Co., New York. Coupon and registered, $1,000; coupon bonds may be registered as to principal or exchanged for fully registered issues. Guar. prin. and int. by endorsement, by the Grand Trunk Western Ry Co., and the Toledo, St. Louis & Western R.R. Co. First lien on 47.6 miles, Toledo, O., to Delray, Mich. Interest paid without deduction for normal income tax.

Capital Stock: Authorized, $1,500,000; outstanding, $1,428,000; par $100. The stock is owned jointly by the Grand Trunk Western Ry., and the Toledo, St. Louis & Western R.R. companies. Dividends have been paid as follows: 4% each in 1908 and 1909; 6% in 1910; 8% each in 1911, 1912, 1913, 1914, 1915, 1916; and an extra dividend of 8% in 1912; in 1914, an extra dividend of $630,000 (44.11%) from accumulated surplus, and in 1915, an extra dividend of 6%.

THE DULUTH & IRON RANGE RAILROAD COMPANY

NOTE: The analysis is based on official documents of the company, including its annual reports of the past nine years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated under Minnesota laws, Dec. 21, 1874; sections of the road opened in 1884, 1886, 1888, 1893 and 1910.

Location: Operates 287.77 miles, as follows: Duluth to Winton, Minn., with various extensions, spurs, and branches into the Mesaba ore deposits. All mileage is owned except less than one mile operated under traffic rights.

Control: The Minnesota Iron Company owns the entire capital stock of the Duluth & Iron Range R.R. The Federal Steel Co. controls the Minnesota Iron Co., and is itself controlled by the United States Steel Corporation.

Management: OFFICERS: F. E. House, Pres. and Gen. Mgr.; J. H. McLean, 1st Vice-Pres.; J. H. Hearding, 2nd Vice-Pres.; H. Johnson, Sec.; F. C. Marshall, Treas. DIRECTORS: Thos. Murray, E. H. Gary, J. A. Farrell, Geo. L. Reis, J. H. McLean, F. E. House, H. Johnson. MAIN OFFICE, Duluth, Minn. NEW YORK OFFICE, 71 Broadway.

Classification of Freight Tonnage (Years Ending June 30)

	1907	1908	1909	1910	1911	1912	1913	1914	1915	1916

Yard tracks and sidings, June 30, 1916, 184.16 miles.

Comment: A sharp increase occurred in the volume of freight business in this property in the fiscal year 1916, and the average train load was raised to a new high figure. Although freight rates tended to decline, train mile earnings were better than in any year since 1912, and are now ranging nearly up to the average for the decade. The property it will be noted depends almost entirely on products of mines for its tonnage, this item of tonnage representing over 93% of the total business done in 1916.

Balance for charges	$3,097,252	$2,102,876	$3,138,649	$3,738,586	$3,710,534	$4,004,046
Fixed charges	578,155	730,857	789,351	1,112,407	1,132,301	837,557
Surplus over charges	$2,519,097	$1,372,028	$2,340,298	$2,626,179	$2,578,233	$3,166,489
Dividends paid	*	600,000	2,250,000	2,700,000	2,700,000	4,050,000
Other deductions	271,238	178,015	240,727	.....	.....	.....
Balance	$2,247,859	$594,013	(def.) $150,429	(def.) $73,821	(def.) $121,767	(def.) $883,511

* Dividend was charged in profit and loss account in 1916.

Note: Fixed charges in 1916 consisted of sinking fund and interest on debt, hire of equipment, etc.

Profit and Loss Account, year ended June 30, 1916: Credit balance, June 30, 1915, $2,606,502; credit balance from income account, $2,247,859; miscellaneous credits, $370; total, $4,854,731. Contra: Dividends, $1,500,000; loss on retired road and equipment, $1,960; miscellaneous debits, $29; credit balance to balance sheet, $3,352,742; total, $4,854,731.

Comment: Gross revenues on the Duluth & Iron Range property for the fiscal year ended June 30, 1916, were far better than in 1915, but did not quite equal those of 1914. Net receipts also underwent a very substantial improvement with the result that the surplus above the light fixed charges, was unusually heavy, and almost equaled the average for the good years 1913 and 1914. The company paid during the year dividends of 50% on its outstanding stock.

TABLE D.—Bond Record and Ratings (Based on 9-Year Results, Per Mile of Road)

Name of Issue.	Interest Payable.	Maturity.	Lien on Miles.	Outstanding per Mile.	Average Income Available.	Interest R'q'r'd per Mile of System.	Factor of Safety.	Basis for Rating.		Net Rating.
								Security.	Salability.	
1. Duluth & Iron Range first 5s	A&O	O 1937	(1st) 271	$30,000	$14,407	$1,500	90%	Very high	High	Aaa.

Note: "Average income available" is the average net income per mile available for interest charges, after deducting taxes, etc., for the nine years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Bond Ratings, see pages 19-21.

REFERENCE NOTE ON BOND ISSUE

1. Outstanding, $8,151,000. Further bonds may be issued as follows: Not over $25,000 per mile for new single track; not over $7,000 per mile additional for new equipment; not over $12,000 per mile additional for second track. Dated Oct. 1, 1887; due Oct. 1, 1937. Int. paid at company's office, 71 Broadway, New York. Coupon and reg., $1,000. First lien on 271.47 miles, as follows: Duluth to Ely, Minn., 117.22 miles; Tower Junc. to Tower, Minn., 1.40 miles; Allen Junc. to Virginia, Minn., 24.58 miles; McKinley to Eveleth, Minn., 9.06 miles; Waldo to Mile 49 of Main Line, 15.02 miles; Mesaba to Dunka River, Minn., 18.29 miles; various branches and spurs aggregating 85.90 miles; also a first lien on all other property of the company, excepting land grants from the State of Minnesota. Legal for Savings Banks in Conn., Fla., Maine, Mich., Minn., N. J., R. I., Wis. Normal income tax deducted from interest. Listed on New York Stock Exchange.

Capital Stock: Auth., $10,000,000: outstanding, $6,500,000; par $100. Dividends in recent years: 1904, 150%; 1905, 105%; 1908, 120%; 1909, 175%; 1910, 100%; 1911, 135%; 1912, 90%; 1913, 90%; 1914, 75%; 1915, 20%; 1916, 50%. All the stock is owned by the Minnesota Iron Company.

DULUTH, MISSABE & NORTHERN RAILWAY

Note: The analysis is based on official documents of the company, and reports to Interstate Commerce Commission. For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated under Minnesota laws, Feb. 11, 1891, for the purpose of affording railroad facilities to the ore beds of the Lake Superior Consolidated Iron Mines.

Location: Operates 399.20 miles, including lines from Missabe Junc. to Mountain Iron, Minn., Wolf to Hibbing and to Virginia, Minn., etc.

Control: A majority of the capital stock is owned by the Lake Superior Consolidated Iron Mines, the latter being controlled by the United States Steel Corporation.

Management: Officers: W. A. McGonagle, Pres., William J. Olcott, Vice-Pres.; P. Mitchell, Vice-Pres.; Chas. E. Carlson, Sec.; E. S. Kempton, Treas. Directors: W. A. McGonagle, W. J. Olcott, H. L. Dresser, E. S. Kempton, D. G. Kerr, W. J. Filbert, G. D. Swift. Annual meeting, first Monday after first Tuesday in February. Main Office, Duluth, Minn. New York Office, 71 Broadway.

Revenue Tonnage: Tons moved in 1912, 11,427,731, of which 9.921,821 were ores; 14.789,112 tons in 1913, of which 13,653,525 tons were ores; 12,465,553 tons in 1914, of which 95% was ores; 10,851,960 tons in 1915, of which 96% was products of mines; 21,721,379 tons in 1916, of which 97% was products of mines.

Yard tracks and sidings, June 30, 1916, 212.89 miles.

Comment: During the year ended June 30, 1916, the freight density of the Duluth, Missabe & Northern underwent a very remarkable advance as compared with recent years. The train load was higher than ever before and the train mile earnings were higher than in any year since 1910. This property depends almost entirely on the transportation of ores for its tonnage.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ended June 30.	Gross Revenues.	Maintenance. Way.	Maintenance. Equipment.	Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.

Other income	224,315	113,214	111,985	122,776	109,918	85,106
Total net income	$6,870,234	$3,415,083	$3,403,390	$4,824,617	$4,185,686	$6,159,378
Taxed accrued	635,065	332,457	406,118	423,320	347,077	484,277
Balance for charges.	$6,235,169	$3,082,626	$2,997,272	$4,401,297	$3,838,609	$5,675,101
Fixed charges (inc. imps.)	1,163,643	1,173,312	666,101	1,160,824	1,159,790	1,079,203
Surplus over charges	$5,071,526	$1,909,314	$2,331,171	$3,240,473	$2,678,819	$4,595,897
Dividends paid	3,084,375	411,250	3,084,375	3,495,625	4,112,500	5,140,625
Earned on stock	123.3%	46%	56%	79%	65%	112%

Note: Fixed charges as shown above include interest and sinking funds, hire of equipment, miscellaneous appropriations, etc.

Profit and Loss Account, year ended June 30, 1916: Credit balance on June 30, 1915, $4,600,281; credit balance transferred from income, $5,071,526; profit on road and equipment sold, $1,651; unrefundable overcharges, $569; donations, $1,000; miscellaneous credits, $618; total, $9,676,646. Contra: Dividend appropriations of surplus, $3,084,375; loss on retired road and equipment, $2,124; miscellaneous debits, $23,006; credit balance carried to balance sheet, $6,566,141; total, $9,675,646.

Comment: Gross revenues on this property were better in the fiscal year 1916, and the surplus available for fixed charges was more than double that reported in 1915. The balance after payment of the fixed charges also was far heavier than usual, and fully justified the disbursement of 75% dividends on the outstanding stock.

Note: "Average income available" is the average net income per mile available for interest charges after deducting taxes, for the nine years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other consideration are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Bond Ratings, see pages 19 to 21.

REFERENCE NOTES ON BOND ISSUES

1. Auth., $1,300,000; outstanding, $1,174,000 (closed). Dated Jan. 1, 1892; due Jan. 1, 1922. Int. paid at 71 Broadway, New York. Coupon, $1,000. Guar. as to int. by Mountain Iron Co. by endorsement. First lien on 63.69 miles, as follows: Stony Brook to Mountain Iron, Minn., 48.32 miles; Iron Junc. to Biwabik, Minn., 15.37 miles. Underlies Nos. 2 and 3, with provision by latter to retire. Legal for S. B. in Conn., Maine., Minn., Miss., Mich., Mo. N. H., N. J., R. I., Wis. Normal income tax deducted from interest.

2. Auth., $3,500,000; outstanding, $127,000; (balance are in sinking fund). Dated Jan. 1, 1893; due Jan. 1, 1923. Int. paid at Central Trust Co., New York. Coupon, $1,000. Callable at 105. Follows No. 1 on 63.69 miles. Underlies No. 3. Interest paid without deduction for normal income tax.

3. Auth., $30,000 per mile for single track; $50,000 per mile for double main track; $20,000 per mile for additional single track; also for 75% of cost of new equipment, etc. Provision for Nos. 1 and 2. Outstanding, $10,991,000. Dated Jan. 1, 1906; due Jan. 1, 1941. Int. paid at 71 Broadway, New York. Callable at 105 and int. for sinking fund. Sinking fund: $20 for each bond outstanding (including those in sinking fund) on the first of April of each year. All moneys received for sinking fund, including interest on bonds in fund, to be used for purchase in open market of outstanding bonds at not to exceed 105 and int., and when not so purchasable shall be drawn by lot at same rate as above, and all bonds shall be kept alive in sinking fund. First lien on 160.60 miles; second lien on 63.69 miles following Nos. 1 and 2; also secured on 25 miles of leasehold interests, trackage rights, equipment, etc. Legal for S. B. in Me., Mich., Minn., N. H., N. J., R. I. and Wis. Listed on New York Stock Exchange Interest paid without deduction for normal income tax.

Capital Stock: Auth., $5,000,000; outstanding, $4,112,500; par, $100. Dividends: 1905, 91.65%; 1906, 82.77%; 1907, none; 1908 and 1909, 145% each; 1910, 240%; 1911, 125%; 1912, 100%; 1913, 80%; 1914, 75%; 1915, 10%; 1916, 75%. Listed on New York Stock Exchange.

ELGIN, JOLIET & EASTERN RAILWAY

NOTE: The analysis is based on official documents of the company, including its annual reports of the past nine years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated Dec. 11, 1888, under laws of Illinois and Indiana, as a consolidation of two companies of similar name. The company operates what is known as the "Chicago Outer Belt Line," and on June 1, 1909, leased the Chicago, Lake Shore & Eastern Ry. for 60 years.

Location: The operated mileage on June 30, 1916, including that of the Chicago, Lake Shore & Eastern Ry. tracks leased, (319.84 miles), was 799.77 miles, which includes lines leased, 18.73 miles; trackage rights, 244.23; tracks to mines owned, 38.15 miles; leased, 303.70 miles. The main line extends from Waukegan, Ill., to Porter, Ind., with branches to Aurora, Whiting, etc., 194.96 miles. The whole forms a network of terminal tracks around and in the City of Chicago, connecting with all roads entering the district, and also giving close connection with the plants of the Illinois Steel Co., etc.

Control: The Federal Steel Company owns 60% of the capital stock of the Elgin, Joliet & Eastern Ry., and the Chicago, Lake Shore & Eastern Ry. owns 40%; all the stock of the latter is owned by the Illinois Steel Company. Both of these companies are subsidiaries of the United States Steel Corp.

Management: OFFICERS: A. F. Banks, Pres.; S. M. Rogers, Vice-Pres.; F. L. Koontz, Sec. and Treas. DIRECTORS: E. H. Gary, W. J. Filbert, J. A. Farrell, Richard Trimble, A. F. Banks, R. W. Campbell, F. W. Sutton, S. M. Rogers, W. L. Louis, K. K. Knapp, F. L. Koontz. MAIN OFFICE, Chicago, Ill.

Total revenue tonnage, 1908, 6,234,846 tons; 1909, 7,733,031 tons; 1910, 21,671,111 tons; 1911, 18,376,392 tons; 1912, 24,402,199 tons; 1913, 29,656,658 tons; 25,193,339 in 1914; 19,627,397 in 1915; 31,672,385 in 1916, of which 56.6% was mineral products and about 30% manufactures.

Yard tracks and sidings, 311.38 miles on June 30, 1916. Rails, 50 to 100 lbs.

Comment: Operating results on this property for the year ended June 30, 1916, underwent very substantial improvement. The freight density was raised to a new high figure, and the average freight train load was also substantially increased. It will be noted that the train mile earnings in 1916 were far in excess of those ever before reported. This company, of course, depends very largely on mining products for its tonnage, but manufactures also now represent a substantial amount.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Earned on stock	13.36%	11.22%	1.41%	25%	19.5%	4.86%	1.01%

* Dividend paid from profit and loss in 1916 (see below).

Note: Fixed charges in 1916 include rentals of leased lines, $2,303,139; interest on bonds, $500,000; hire of equipment, $1,019,905; joint facility rents, $290,750.

Profit and Loss Account, year ended June 30, 1916: Credit balance, June 30, 1915, $2,577,392; credit transferred from income account, $1,336,395; adjustment of depreciation on equipment, $12,441; unrefundable overcharges, $1,426; miscellaneous credits, $2,341; total, $3,929,995. Contra: Dividend appropriation out of surplus, $400,000; loss on retired road and equipment, $47,993; adjustment of personal injury fund, $24,050; miscellaneous debits, $8; balance carried to balance sheet, $3,457,994; total, $3,929,995.

Comment: Gross revenues on the Elgin, Joliet & Eastern for the fiscal year 1916 even exceeded the high figures of 1913, and net revenues were also practically equal to those of that year. The balance available for charges was nearly double that reported in 1915, and the dividend requirement was therefore easily earned. Since the close of the fiscal year earnings have continued to range at a high level.

			Appropriated surplus....	574,319	618,760
			Profit and loss surplus..	3,457,944	2,577,392
Total	$31,154,959	$25,623,866	Total	$31,154,959	$25,623,866

Comment: The chief capitalization change in the Elgin, Joliet & Eastern for the year 1916 was a large increase in the amount of rentals as capitalized on a 5% basis. The net capitalization of the property looks high as measured on the mileage basis, but the net income on net capital has tended to increase with the general growth of the business. It will be noted in 1916 this net income was far above the average for the decade.

This is one of the valuable railroad properties controlled by the United States Steel Corporation, and its credit has been very high for many years. The margin of safety on its bond issues is strong, and they are entitled to the highest investment rating. Even in years of depression, they are usually well protected.

TABLE D.—Bond Record and Ratings (Based on 9-Year Results, Per Mile on Road)

Name of Issue.	Interest Payable.	Maturity.	Lien on Miles.	Outstanding per Mile.	Average Income Available.	Interest R'q'r'd per Mile of System.	Factor of Safety.	Basis for Rating. Security.	Basis for Rating. Salability.	Net Rating.
1. Elgin, Joliet & Eastern first 5s.....	M&N	My 1941	(1st) 237	$42,200	$4,688	$625	87%	Very high	High	Aaa.
2. Chic., Lake Shore & Eastern first 4½s.....	J&D	Je 1969	(see text)	28,125	4,063	500	88%	"	"	Aaa.

Note: "Average income available" is the average net income per mile available for interest charges after deductinug taxes, for the nine years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issues, etc. For full explanation, see Introduction. For Key to Ratings, see pages 19 to 21.

For Reference Notes on Bond Issues, see next page.

REFERENCE NOTES ON BOND ISSUES

1. Auth. and outstanding, $10,000,000. Dated May 1, 1891; due May 1, 1941. Int. paid at 71 Broadway, New York. Coupon, $1,000. First lien on 236.61 miles, as follows: Waukegan, Ill., to Porter, Ind., 129.94 miles; Normantown to Aurora, Ill., 9.65 miles; Walker to South Wilmington, Ill., 32.72 miles; East Joliet, Ill., to Sand Pit, Ind., 41.09 miles; Rockdale Junc. to Rockdale, 6.57 miles; Griffith to Shearson, Ind., 9.76 miles; Hammond to Whiting, Ind., 6.92 miles. Legal for Savings Banks in Conn., Maine, Mich., Minn., Mo., N. H., N. J., R. I., Wis. Listed on New York Stock Exchange. Interest paid without deduction for normal income tax.

2. Auth., $20,000,000; outstanding, $9,000,000. Dated June 1, 1909; due June 1, 1969. Int. paid at company's office, 71 Broadway, New York. Coupon, $1,000. Callable at 110 and int., in whole or in part by lot after June 1, 1919, on four weeks' notice. Guar. prin. and int. by Elgin, Joliet & Eastern Ry. and the United States Steel Corporation by endorsement. First lien on entire property of the company, including 320 miles main track, terminals and sidings, and on roundhouses, shops, yards, etc. Legal for S. B. in Maine, Mich., Minn., Mo., N. H., R. I., Wis. Interest paid without deduction for normal income tax. Listed on New York and London Stock Exchanges.

Capital Stock: Auth. and outstanding, $10,000,000; par $100; increased from $6,000,000 in May 1909, the new stock being taken by the Chicago, Lake Shore & Eastern Ry. The original $6,000,000 is owned by the Federal Steel Co. All the stock of the Chicago, Lake Shore & Eastern Ry., is owned by the Illinois Steel Co. Dividends of 4% per annum have been paid from 1899 to date.

ERIE RAILROAD COMPANY

NOTE: The analysis is based on official documents of the company, including its annual reports of the past ten years.
For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated Nov. 30, 1895, as successor by reorganization of the New York, Lake Erie & Western R.R. The Buffalo & Southwestern R.R., the Lockport & Buffalo Ry., and the Erie International Ry. were absorbed at the time of the reorganization. In March, 1896, the securities of the Nypano R.R. were purchased, and from time to time other properties were acquired. In 1899, control of the New York, Susquehanna & Western Ry. was acquired. On June 10, 1901, the company purchased the entire capital stocks of the Pennsylvania Coal Co., Erie & Wyoming Valley R.R., Dunmore Iron & Steel Co., and the Delaware Valley & Kingston R.R. The latter was a projected road, to be built in the interest of the Pennsylvania Coal Co., from the Wyoming coal fields to the Hudson River at Rondout, following the line, partially, of the old Delaware & Hudson Canal.

Location: The Erie Railroad system embraces a main line from Jersey City to Chicago, Ill., 998 miles, with branches, 1,446 miles; total, 2,257 miles, classified as follows: Lines owned in fee:—Piermont, N. Y., to Dunkirk (the old main lines), 447 miles; Buffalo to Jamestown, 67 miles; Buffalo to Corning, 140 miles; shorter branches, 138 miles. Lines controlled by stock ownership:—Chicago & Erie R.R., 250 miles; Jefferson R.R., 45 miles; New York & Greenwood Lake R.R., 52 miles; New Jersey & New York R.R., 38 miles; Erie & Wyoming Valley R.R., 59 miles; Nypano R.R., 422 miles; Tioga R.R., 58 miles; smaller lines, 159 miles. Leased lines (directly operated):—Avon, Geneseo & Mt. Morris R.R., 13 miles; Montgomery & Erie R.R., 10 miles; Northern R.R. of N. J., 26 miles; Goshen & Deckertown, 12 miles; Rochester & Genesee Valley, 18 miles; Cleveland & Mahoning Valley, 81 miles; Sharon Ry., 32 miles; shorter lines, 98 miles. Trackage rights, 131 miles. Also controls by stock ownership the Bath & Hammondsport R.R. which is separately operated), and the New Jersey & New York R.R. See following pages. Lines enter, besides New York and Chicago, Buffalo, Cleveland and Cincinnati, and a large number of intermediate towns and cities. Sections of the road penetrate the soft coal sections of Ohio, and in recent years the proportion of bituminous coal transported has become steadily larger. The company now also does a much larger business in the transportation of steel and iron products than was the case a few years ago. Mileage mainly in New York, Ohio and Indiana. Population of these States in 1890, 11,862,573; in 1900, 13,949,901; in 1910, 16,581,611.

Coal Properties: The Erie coal properties, aside from those of the Pennsylvania Coal Co., represent an aggregate of 12,400 acres of anthracite, of which 9,000 acres are held in fee; also 53,000 acres of bituminous coal lands held in fee and 14,000 acres held under mineral rights. The properties are owned through the Hillsdale Coal & Iron Co., the Blossburg Coal Co., and the Northwestern Mining & Exchange Co.

Management: OFFICERS: F. D. Underwood, Pres.; G. F. Brownell, Vice-Pres. and Gen. Solicitor; G. N. Orcutt, Vice-Pres.; Delos W. Cooke, Vice-Pres.; David Bosman, Vice Pres. and Sec.; A. J. Stone, Vice-Pres.; C. P. Crawford, Compt.; D. W. Bigoney, Treas. DIRECTORS: Geo. F. Baker, Ogden Mills, M. D. Follansbee, Francis Lynde Stetson, F. D. Underwood, Robt. W. Pomeroy, L. F. Loree, B. A. Eckhart, E. J. Berwind, Gates W. McGarrah, Albert H. Wiggin, G. F. Brownell, A. M. Anderson, Grenville Kane, G. G. Mason. Annual meeting, second Tuesday in October. MAIN OFFICE, 50 Church Street, New York City.

Total revenue tonnage in 1909, 32,707,205 tons; in 1910, 38,763,600 tons; in 1911, 37,570,662 tons; in 1912, 36,961,686 tons; in 1913, 40,987,993 tons; 38,125,409 tons in 1914; 40,659,919 tons in 1915; 49,830,940 tons in 1916.

The Erie does a heavy carrying business in both anthracite and bituminous coal. For the year of 1914, there were 9,882,781 tons of anthracite carried, representing 25.92% of the total freight tonnage, and 6,821,387 tons of bituminous, representing 17.89% of the total freight tonnage. In calendar year 1915, 9,436,093 tons of anthracite and 7,104,854 tons of bituminous were carried.

Yard tracks and sidings, 1,772 miles June 30, 1916.

Comment: The year ended June 30, 1916, was by far the best ever recorded by the Erie Railroad. The freight density reached far heavier figures than ever before, while the average freight train load rose to 684 tons. Freight and passenger rates per ton and passenger mile underwent practically no change, but the train mile earnings rose sharply.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

YEARS ENDED JUNE 30.	Gross Revenues.	MAINTENANCE. Way.	MAINTENANCE. Equipment.	Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.

* Outside operations are included in operating revenues and expenses.

Note: The Erie Railroad has now changed its fiscal year to December 31, and the report to the Interstate Commerce Commission, under date of June 30, does not include the 288 miles of the Chicago & Erie, nor the operation of the Chicago & Western Indiana mileage, but these figures are included in the above tables. The company's income statement to stockholders is for the calendar year (now fiscal year) ended December 31.

Profit and Loss Account of the Erie R.R. Co., for year ending June 30, 1916: Credit balance, June 30, 1915, $31,610,423; credit balance transferred from income, $8,363,642; profit on road and equipment sold, $5,284; unrefundable overcharges, $3,954; donations, $7,019; miscellaneous credits, $1,498,964. Total, $41,489,286. Contra:—Debt discount extinguished through surplus, $3,488,615; loss on retired road and equipment, $3,047,897; miscellaneous debits, $82,469; credit balance carried to balance sheet, $34,870,305. Total, $41,489,286.

Profit and Loss Account of the Chicago & Erie R.R. Co., for year ended June 30, 1916: Credit balance, June 30, 1915, $183,614; miscellaneous credits, $908; debit balance carried to balance sheet, $12,743. Total, $197,265. Contra:—Loss on retired road and equipment, $26,903; miscellaneous debits, $170,362. Total, $197,265.

Comment: Both gross and net operating revenues underwent notable improvement on the Erie Railroad during the year ended June 30, 1916. The net revenues were practically 60 per cent. higher than those of the previous year. Taxes increased, but fixed charges tended to decline, and the final surplus was equal to nearly 7 per cent. on the common stock, after allowing for full dividends on both first and second preferred. Since July 1, operating costs have tended to rise, but the heavy business is being fully maintained.

Note: Securities owned by company as shown above for 1915 and 1916, based on securities of affiliated companies held and stock of non-affiliated companies pledged less the $10,000,000 income bonds and $100,000 stock of Chicago & Erie R.R.

Note: Above table is based on average mileage directly operated for each year, and, of course, includes the leased lines. "Rentals" are the amounts paid for lease of other roads, capitalized at 5%. "Net income on net capital" is the percentage of total net income (before deducting taxes) on the net capitalization as shown.

Comparative Condensed Balance Sheet, as of June 30

Comment: There was a moderate increase in the outstanding funded debt of the Erie Railroad during the year to June 30, 1916. As measured on the mileage basis the road is heavily capitalized, but in 1916 the earning power was so great as to materially increase the net income on net capital, the figure reaching 8.1 per cent., which is far higher than the average for the decade.

While during the past ten years there has been a considerable increase per mile in the funded debt of the Erie Railroad, it will be noted that the earning power has kept full pace with this growth. At the present time the general credit of the property is stronger than at any time since the reorganization of 1895.

TABLE D.—Bond Record and Ratings (Based on 10-Year Results, Per Mile of Road)

Note: "Average income available" is the average net income per mile available for interest charges after deducting taxes, for the ten years ending June 30, 1916. "Interest requirement" is the current requirement. Interest required per mile is based on mileage of full system in 1916 (2,257 miles). The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Bond Ratings, see pages 19 to 21.

REFERENCE NOTES ON BOND ISSUES

1. Auth., $3,000,000; outstanding, $2,482,000 (closed). Dated July 1, 1847; due July 1, 1947. Int. paid at 50 Church St., New York. Coupon, $1,000. Formerly carried 7% with maturity in May, 1897, but extended as above at 4%. Assumed by Erie R.R. First lien, 446.78 miles. Piermont to Dunkirk, N. Y. Underlie Nos. 2, 3, 4, 5, 7, 8,

36-40. Retirement provided for by No. 37. Legal for Savings Banks in Maine. Listed on New York Stock Exchange. Interest paid without deduction for normal income tax.

2. Auth., $4,000,000; outstanding, $2,149,000 (closed). Dated Mar. 1, 1849; due Sept. 1, 1919. Int. paid at 50 Church St., New York. Coupon, $1,000. Formerly carried 7% with maturity on Mar. 1, 1879, but extended as above at 5%. Assumed by Erie R.R. Second lien, 446.78 miles, following No. 1. Underlie Nos. 3, 4, 5, 7, 8, 36-40. Retirement provided for by No. 37. Listed on New York Stock Exchange. Normal income tax deducted from interest.

3. Auth., $10,000,000; outstanding, $4,617,000 (closed). Dated Mar. 1, 1853; due Mar. 1, 1923. Int. paid at 50 Church St., New York. Coupon, $1,000. Formerly carried 7%, with maturity in Mar., 1883, but extended as above at 4½%. Assumed by Erie R.R. Third lien, 446.78 miles following No. 2. Underlie Nos. 4, 5, 7, 8, 36-40. Retirement provided for by No. 37. Listed on New York Stock Exchange. Normal income tax deducted from interest.

4. Auth., $6,000,000; outstanding $2,926,000 (closed). Dated Aug. 15, 1857; due Oct. 1, 1920. Int. paid at 50 Church St., New York. Coupon, $1,000. Formerly carried 7% with maturity in Oct., 1880, but extended as above at 5%. Assumed by Erie R.R. First lien on 18.73 miles, Greycourt to Newburgh, N. Y., and fourth lien on 446.78 miles, following No. 3. Also secured on the leases of the Union R.R., the Paterson & Hudson River R.R., the Paterson and Ramapo R.R. and the rights of the company in the Long Dock Co. Underlie Nos. 5, 7, 8, 36-40. Retirement provided for by No. 37. Listed on New York Stock Exchange. Normal income tax deducted from interest.

5. Auth., $5,000,000; outstanding, $709,500 (closed). Dated June 1, 1858; due June 1, 1928. Int. paid at 50 Church St., New York. Coupon $500 and $1,000. Formerly carried 7% with maturity in June, 1888, but extended as above at 4%. Assumed by Erie R.R. Second lien on 18.73 miles, following No. 4, and fifth lien on 446.78 miles, following No. 4. Underlie Nos. 7, 8, 36-40. Retirement provided for by No. 37. Listed on New York Stock Exchange. Normal income tax deducted from interest.

6. Auth., $200,000; outstanding, $182,400 (closed). Dated July 1, 1861; due July 1, 1931. Int. paid at 50 Church St., New York. Coupon, $200 and $1,000. Formerly carried 7% with maturity in July, 1891, but extended as above at 4%. Assumed by Erie R.R. First lien, 61.16 miles, Hornell to Attica, N. Y. Underlie Nos. 7, 8, 36-40. Retirement provided for by No. 37. Normal income tax deducted from interest. Legal for S. B. in Cal., Maine.

7. Auth., $30,000,000; outstanding, $16,891,000 (closed). Dated Sept. 1, 1870; due Sept. 1, 1920. Int. paid at J. P. Morgan & Co., New York. Assumed by Erie R.R. Second lien on 61.6 miles, following No. 6; third lien on 18.73 miles, following No. 5; sixth lien on 446.78 miles, following No. 5. Underlie Nos. 36-40. Retirement provided for by No. 37. Listed on New York and London Stock Exchanges. Normal income tax deducted from interest. Coupon, £200 and $1,000.

8. Auth. and outstanding, $3,699,500. Dated Sept. 1, 1878; due Sept. 1, 1920. Int. paid at J. P. Morgan & Co., New York. Assumed by Erie R.R. Secured by deposit with trustee of uncanceled coupons of No. 7, dated Sept. 1, 1875; Mar. 1, 1876; Mar. 1, 1877; Sept. 1, 1877; Sept. 1, 1878; Sept. 1, 1879, amounting to the face value of these bonds. Thus, these bonds rank equally, as to lien, with No. 7. Underlie Nos. 36-40. Retirement provided for by No. 37. Listed on New York and London Stock Exchanges. Normal income tax deducted from interest. Coupon, $500 and $1,000.

9. Auth. and outstanding, $1,500,000. Dated Dec. 17, 1877; due July 1, 1918. Int. paid at 50 Church St., New York. Coupon, $50, $100, $500 and $1,000. New Refunding and Improvement Mortgage Authorized: On December 1, 1916, stockholders authorized the creation of a new refunding and improvement mortgage to be limited to $500,000,000, such action superseding the authorization in Oct., 1914, of a refunding and improvement mortgage limited to three times the amount of capital stock at any time outstanding. The new bonds will be issuable in series, each series dated on or after Dec. 1, 1916, to bear such rate of interest, to mature on such date as therein shall be stated not later than Dec. 1, 2000, and to be payable principal and interest in U. S. gold coin or in foreign currency, all as may be determined by the board of directors. The new mortgage is intended to provide for all prior and underlying mortgage bonds (of which $31,531,500 wil mature prior to 1922), equipment trusts and also for capital expenditures for additions, improvements and betterments.

* To pay 4% dividend.

Note: "Average income available" on stock issues is the average surplus, after deducting all fixed and other charges, for the ten years ending June 30, 1916. "Dividend requirement" is the requirement, at the current rate, on the present amounts outstanding. For Key to Stock Ratings, see pages 21 to 23.

REFERENCE NOTES ON STOCK ISSUES

1. Cleveland & Mahoning Valley Railway. Line of road: Cleveland to Pennsylvania State Line, and Niles to Lisbon, Ohio, 117 miles. Operated by the Erie Railroad under lease to Atlantic & Great Western Ry., and under supplemental lease to Nypano R.R. until October, 1982, at a rental of $525,968 per annum, which pays all charges and dividends. Dividends in recent years as follows: 1900 to 1904, inclusive, 13½% per annum; 1905, 11.42%; 1906 to 1911, inclusive, 11.40%; 1912, 8¾%; 1913, 11.20%; 1914, 11.25%; 1915, 11.40%. In Feb., 1917, it was proposed to increase stock to $6,111,000 and renew lease for 999 years from Jan, 1917.

2. Goshen & Deckertown Railway. Line of road: Goshen to Pine Island, N. Y., 11.64 miles. Leased in perpetuity to the Erie Railroad at an annual rental of $19,035. This covers interest on the bonds and a surplus for dividends. The rate of dividends is 4%, but the rental does not quite equal this amount after deduction of taxes and a deficit has accumulated which now amounts to about $2,500.

3. Montgomery & Erie R.R. Line of road: Montgomery to Goshen, N. Y., 10.43 miles. Road leased in perpetuity to Erie R.R. at a rental of $16,000 per annum. This rental covers charges and equals slightly less than 4½% on the stock. Dividends paid: 4½% per annum, resulting in a small deficit which now amounts to about $1,500.

4. Northern Railroad of New Jersey. Line of road: Bergen Junction, N. J., to Sparkill, N. Y., with branch to Nyack, 26.05 miles. Leased for corporate existence to Erie Railroad, rental being interest on bonds, taxes, organization expenses, and 4% per annum on capital stock. Stock is legal for investment by New Hampshire savings banks.

5. **Paterson & Hudson River Railroad.** Line of road: Jersey City to Paterson, N. J., 13.11 miles. Leased to Erie R.R. for corporate existence at rental of $53,400 per annum and taxes, equaling over 8% on stock. Dividends paid at rate of 8% per annum.

6. **Paterson & Ramapo Railroad.** Line of road: Paterson, N. J., to New York State Line, 14.47 miles. Leased for corporate existence to Erie R.R. at a rental of $26,500 per annum. Dividends have been paid as follows in recent years: 1907, 12%; 1908 and 1909, 8%; 1910, 6%; 1911 to date, 8% per annum.

7. **Rochester & Genesee Valley R.R.** Line of road: Rochester to Avon, N. Y., 18.4 miles. Leased for corporate existence to Erie R.R. at rental equalling 6% on stock, and $700 per annum for organization expenses. Dividends of 6% per annum are regularly paid. Stock is legal for investment in New Hampshire savings banks.

8. **Avon, Geneseo & Mt. Morris Railroad.** Line of road: Avon to Mt. Morris, N. Y., 15.35 miles. Leased for corporate existence to Erie R.R., rental being $100 per annum for organization expenses and 3½% on capital stock. Dividends regularly paid at the latter rate.

9. **Sharon Railway.** Line of road: Sharon to Pymatuning, Pa., with branches to New Castle and Sharpsville, 32.75 miles. Leased to Nypano R.R. for 999 years from 1900, and operated by Erie R.R. Rental, interest on bonds of this company and the New Castle & Shenango Valley R.R., taxes, $2,100 per annum for organization expenses, and an amount equalling 6% on capital stock. Dividends are regularly paid at the latter rate.

10. Auth., $48,000,000; par, $100. Entitled to 4% non-cumulative dividends prior to payments on either second preferred or common. No additional mortgage can be put on the property without the consent of a majority of the whole amount of this issue and the second preferred. The stock has full voting power and is callable at option of the company at par. Dividends have been paid as follows: 1901, 1½%; 1902, 3%; 1903, 3½%; 1904 to 1906, inclusive, 4% per annum; 1907, 2%.

11. Auth., $16,000,000; par, $100. Has preference over common stock to 4% non-cumulative dividends, but is entitled to no other division of earnings. The amount cannot be increased without the consent of a majority of the holders of this issue. Callable at par at the option of the company. Dividends have been paid as follows: 1905, 2%; 1906, 4%; 1907, 2%.

12. Auth., $153,000,000; par, $100; has full voting power and entitled to all profits after first preferred and second preferred have received 4% in any one year. Of the authorized amount sufficient is reserved for conversion of Erie R.R. "B" and "D" convertible 4s. No dividends have been paid. TRANSFER AGENT for all isues: J. P. Morgan & Company, New York. All issues listed on New York Stock Exchange.

Note: The voting power of the Erie R.R. Co. stock is shared by the prior and general lien 4% bonds, each $1,000 bond having 10 votes. As these two bond issues aggregate nearly $85,000,000, they control the policy of the company jointly with the first preferred stock.

COMPANIES CONTROLLED BY ERIE RAILROAD COMPANY

BATH AND HAMMONDSPORT RAILROAD

Incorporated under New York laws, January 18, 1872. Line of road, Bath to Hammondsport, N. Y., 10 miles. Controlled since 1908 by Erie R.R. through stock ownership, but separately operated.

Management: OFFICERS: F. D. Underwood, Pres.; G. A. Richardson, and G. F. Brownell, Vice-Pres.; David Bosman, Vice-Pres., and Sec.; D. W. Bigoney, Treas. C. P. Crawford, Auditor. Annual meeting, first Tuesday in December, at Hammondsport, N. Y. NEW YORK OFFICE, 50 Church Street.

Profit and Loss Account, year ended June 30, 1916: Miscellaneous credits, $88; debit balance carried to balance sheet, $195,312; total, $195,400. Contra: Debit balance at beginning of year, $159,279; debit balance transferred from income, $28,098; loss on retired road and equipment, $8,023; total, $195,400.

Bonded Debt: (1) $394,000 New Jersey & New York R.R. 1st 5s; dated April 30, 1880; due April 30, 1910; extended to May 1, 1950; int. paid May and Nov. 1 at Erie R.R. office New York. Coupon, $500 and $1,000. First lien on all roads owned, 34.5 miles. Interest paid without deduction for normal income tax. Rating, Baa.

(2) $960 New Jersey & New York R.R. 2d 5s; dated Nov. 27. 1885; due Nov. 27, 1985; int. paid Jan. and July 1 at 50 Church St., New York. Reg., $100 and $500. Auth., $100,000, of which $97,000 are pledged under No. 3. Follows No. 1 on same property. Normal income tax deducted from interest.

(3) $631,000 New Jersey & New York R.R. gen. 5s; dated Dec. 31, 1892; due Dec. 31, 1932; int. paid Jan. and July 1 at 50 Church St., New York. Coupon, $500 and $1,000. Auth., $1,200,000. Callable at 105. Follows Nos. 1 and 2 on same property. Interest paid without deduction for normal income tax. Rating, B.

Capital Stock: Auth., $800,000 preferred and $2,000,000 common; outstanding $787,800 preferred and $1,440,800 common; par $100. Erie R.R. owns a majority of total issue. No dividends.

Other Companies Controlled: In addition to the foregoing the Erie R.R. controls a number of other small companies which maintain separate organizations, but which are practically all directly operated. These include: Buffalo, Bradford & Pittsbugh R.R., Elmira State Line R R., Middletown & Crawford R.R., New York & Greenwood Lake Ry., Nyack & Southern R.R., Westerman R.R., Columbus & Erie R.R., Erie & Wyoming Valley R.R., Genesee River R.R. Nearly all the securities of these smaller companies are owned by the Erie R.R.

NEW YORK, SUSQUEHANNA & WESTERN RAILROAD COMPANY

NOTE: The analysis is based on official documents of the company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Successor by consolidation in 1893 of old New York, Susquehanna & Western Railroad and Hudson River Railroad & Terminal Company. Controls the New York, Susq. & Western Coal Co., and the New York & Wilkesbarre Coal Co.

Location: Main lines extend from Jersey City to Stroudsburg, Pa., with branches. Mileage is classified as follows: Jersey City to Stroudsburg, Pa., 99 miles; Beaverlake. N. J., to Unionville, 21 miles; Wilkesbarre & Eastern Ry., 77 miles; Susquehanna Connecting R.R., 8 miles; smaller branches. 24 miles; trackage. 8 miles; total operated, 225 miles. Mileage mainly in New Jersey and Pennsylvania. Population of these States in 1890, 6,702,947; 1900, 8,185,784; 1910, 10,202,278. Tonnage mainly anthracite coal, this commodity representing two-thirds of freight business.

Control: The Erie Railroad owns $25,599.002 out of $26,000,000 capital stock of the New York, Susquehanna & Western R.R. About one-half of this stock is deposited under the Erie R.R.-Pennsylvania Coal collateral mortgage.

Management: OFFICERS: F. D. Underwood. Pres.; G. F. Brownell, Vice-Pres.; G. A. Richardson, Vice-Pres.; David Bosman, Vice-Pres. and Sec.; D. W. Cooke, Vice-Pres.; A. J. Stone, Vice-Pres.; G. N. Orcutt, Vice-Pres.; C. P. Crawford, Compt.; D. W. Bigoney, Treas. DIRECTORS: G. F. Baker, G. F. Brownell, E. J. Berwind, G. A. Richardson, F. L. Stetson, F. D. Underwood, A. J. Stone, Gates W. McGarrah, David Bosman, D. W. Cooke, C. S. Goldsborough, W. P. Hamilton, G. N. Orcutt. MAIN OFFICE, 50 Church Street, New York.

* Figures not reported. † 4-year average.

Yard tracks and sidings, Dec. 31, 1915, 128 miles. Since 1907, no tonnage or train-mile figures have been published in the company's reports, and the above exhibit is necessarily incomplete. Mileage given to Interstate Commerce Commission as "road operated" is 140.14 miles. The figures 225 are taken from the 23d report to stockholders, Dec. 31, 1915.

Comment: During the year ended June 30, 1916, there was substantial improvement in the freight and passenger density of the New York, Susquehanna & Western, and the freight train load was also improved. Train mile earnings reached a new high figure, being helped to some extent by better average freight and passenger rates. As usual this company depended very largely upon the transportation of mining products for its tonnage.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ended June 30.	Gross Revenues.	Maintenance. Way.	Maintenance. Equipment.	Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.
1907	$12,781	$1,428	$1,585	$3,013	$5,211	$1,560	$4,700	$612	$4,088	$4,075	.....	$13	.....

Surplus over charges	$271,206	$301,284	$230,383	$207,656	$172,894	$534,536	$189,752

Note: The above figures for 1915 and 1916 are those filed with the Interstate Commerce Commission for the year ended June 30. The fiscal year ends Dec. 31.

Profit and Loss Account, year ended June 30, 1916: Credit balance at beginning of year, $1,188,581; credit balance transferred from income account, $271,206; unrefundable overcharges, $85; miscellaneous credits, $590; total, $1,460,462. Contra: Loss on retired road and equipment, $24,853; miscellaneous debits, $11,683; credit balance carried to balance sheet, $1,423,926; total, $1,460,462.

Comment: Both gross and net revenues underwent substantial improvement on this property during the year ended June 30, 1916. The surplus available for fixed charges was much higher than in 1915, but moderately below the results of 1914. After payments of fixed charges and other appropriations the surplus was substantial.

Comparative Condensed Balance Sheet, as of June 30

Assets:	1916	1915	1914	1913	1912	1911
Property investment	$41,024,073	$40,480,247	$43,086,223	$42,677,487	$43,054,184	$41,877,890
Working assets	890,058	1,295,474	1,173,665	1,423,858	1,376,405	1,712,476
Deferred debit items	210,822	.....	947,978	957,912	956,239	954,008
Accrued income not due	5,341	1,343	.....	.....	.....	.....
Total	$42,130,294	$41,777,064	$45,207,866	$45,059,257	$45,386,828	$44,544,374
Liabilities:						
Capital stock	$26,000,000	$26,000,000	$25,000,000	$26,000,000	$26,000,000	$26,000,000
Funded debt	13,171,500	13,294.500	16,416,500	16,113,500	16,188,000	15,433,000
Working liabilities	716,900	626,878	625,888	633,278	589,133	643,404
Accrued liabilities not due	58,451	68,952	150,050	148,358	149,810	135,561
Deferred credit items	30.164	29.451	552,912	556,573	561,032	560,711
Appropriated surplus	729,353	568,702	514.948	478 030	389,357	300,049
Profit and loss surplus	1,423,926	1,188,581	947,568	1,129,518	1,509,496	1,471,649
Total	$42,130,294	$41,777,064	$45,207,866	$45,059,257	$45,386,828	$44,544,374

Note: Balance sheet as above for 1915 and 1916 does not include Wilkesbarre & Eastern.

Comment: There were no capitalization changes on this property during the year ended June 30, 1916. As measured on the mileage basis it will be noted that the capitalization of this property is very high and the earning power being relatively light, the capital is carried with some difficulty.

TABLE D.—Bond Record and Ratings (Based on 10-Year Results, Per Mile of Road)

Name of Issue.	Interest Payable.	Maturity.	Lien on Miles.	Outstanding per Mile.	Average Income Available.	Interest R'q'r'd per Mile of System.	Factor of Safety.	Basis for Rating. Security.	Salability.	Net Rating.

9. Equip. notes 4½s and 5s	F&A	(see text)	Equip.	(see text)		247	33%	"	"	A.

Note: "Average income available" is the average net income per mile available for interest charges, after deducting taxes, for the ten years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relatives position of the issue, etc. For full explanation, see Introduction. For Key to Bond Ratings, see pages 19 to 21.

REFERENCE NOTES ON BOND ISSUES

1. Auth., $3,500,000; outstanding, $3,488,500. Dated April 1, 1880; due April 1, 1940. Extended in 1910 to 1940 at 5%; formerly 6%, maturing April, 1910. Int. paid at 50 Church St., New York. Coupon, $500 and $1,000. Assumed by New York, Susquehanna & Western R.R. First lien on 71.6 miles from Marion to Unionville, N. Y. Underlie Nos. 3, 5 and 6. Legal for Savings Banks in Maine. Listed on New York Stock Exchange. Interest paid without deduction for normal income tax.

2. Auth., $250,000; outstanding, $200,000 (closed). Dated June 1, 1881; due June 1, 1950. Extended in 1910 to 1950 at 5%; formerly 6%, maturing June, 1910. Int. paid at 50 Church St., New York. Coupon, $1,000. Assumed by New York, Susquehanna & Western R. R. First lien on 0.75 mile from Broadway to Straight St., Paterson, N. J. Underlie Nos. 3, 5 and 6. Legal for S. B. in Maine. Interest paid without deduction for normal income tax.

3. Auth., $3,750,000; outstanding, $3,745,000 (closed). Dated Jan. 1, 1887; due Jan. 1, 1937. Int. paid at 50 Church St., New York. Coupon, $1,000. First lien on 64.69 miles from Two Bridges to Gravel Place, Pa., and branches; second lien on 72.35 miles, as follows: on 71.60 miles following No. 1; second lien on 0.75 mile, following No. 2. Underlie Nos. 5 and 6. Listed on New York Stock Exchange. Normal income tax deducted from interest.

4. Auth. and outstanding, $2,000,000. Dated May 1, 1893; due May 1, 1943. Int. paid at 50 Church St., New York. Coupon, $1,000; reg., $5,000. First lien on 3 miles from Little Ferry to Edgewater, N. J.; first lien on 62 acres of terminal property fronting on the Hudson River and tunnel under the Palisades. Legal for S. B. in Maine. Listed on New York Stock Exchange. Interest paid without deduction for normal income tax.

5. Auth., $1,000,000; outstanding, $447,000 (closed). Dated Feb. 1, 1887; due Feb. 1, 1937. Int. paid at 50 Church St., New York. Coupon, $1,000. Second lien on 64.69 miles, following No. 3; third lien on 72.35 miles, following No. 3. Underlies No. 6, which provides for retirement. Listed on New York Stock Exchange. Normal income tax deducted from interest.

6. Auth., $3,000,000; outstanding, $2,552,000; reserved to retire No. 5, $447,000; in treasury, $1,000. Dated Aug. 1, 1890; due Aug. 1, 1940. Int. paid at 50 Church St., New York. Coupon, $1,000. Third lien on 64.69 miles, following No. 5; fourth lien on 72.35 miles, following No. 5. Listed on New York Stock Exchange. Normal income tax deducted from interest.

7. Auth. and outstanding, $3,000,000. Dated June 1, 1892; due June 1, 1942. Int. paid at 50 Church St., New York. Coupon, $1,000. Guar. prin. and int. by New York, Susquehanna & Western R.R., by endorsement. First lien on 65.15 miles from Stroudsburg to Wilkes-Barre, Pa., and branch. Legal for S. B. in Maine. Listed on New York Stock Exchange. Normal income tax deducted from interest.

8. Outstanding, $70,000. Dated Dec. 1, 1885; due Dec. 1, 1940. Int. paid at 50 Church St., New York. Coupon, $500. Guar. as to int. by N. Y. S. & W. R.R., which owns all the capital stock of this company and operates the road. First lien, 3 miles, Passaic to Passaic Junc., N. J. Interest paid without deduction for normal income tax.

9. Series A, 4½s; auth., $800,000; outstanding, $400,000. Dated Aug. 1, 1911; due $40,000 each Feb. and Aug. to Aug. 1, 1921. Int. paid at Commercial Trust Co., Philadelphia. Coupon, $1.000. Guar. prin. and int. by New York, Susquehanna & Western R. R. by endorsement. Secured by an equipment lease covering 1,000 self-clearing 50-ton steel hopper cars, built by the Standard Steel Car Co. The railroad company to make cash payments aggregating $245,850 in part payment for the equipment these certificates being issued for the balance. Title to equipment to remain in name of trustee (Commercial Trust Co., Phila.) until final payment is made. Series B, 5s; auth., $425,000; outstanding, $278,000. Dated May 1, 1913; due $21,000 each May and Nov. to Nov. 1, 1920; thereafter $22,000 each May and Nov. to May 1, 1923. Int. paid at Phila. Trust. Safe Dep. & Ins. Co., Phila., Pa. Guar. prin. and int. by N. Y. S. & W. R.R. by endorsement. First lien on 500 steel underframe box cars costing $541.620, on which the company paid $116,620 in cash. Title does not pass to company until these certificates are paid. Coupon, $1.000. Interest paid without deduction for normal income tax. Series C, 4½s; auth., $550,000; outstanding, $522,000. Dated July 1, 1916; due $28,000 each Jan. 1 and July 1 to July 1, 1926. Int. paid Jan. and July 1 at Philadelphia Trust Co., Phila. Coupon, $1,000. First lien on 500 steel hopper cars, costing $695,080, of which the company paid $145,080 in cash. Normal income tax deducted from interest.

Capital Stock: Authorized and outstanding, $13,900,000 5 per cent. non-cumulative preferred and $13,000,000 common; par $100. Nearly all owned by Erie Railroad Company. Last dividend paid on preferred, 1¼ per cent. in November, 1893.

FLORIDA EAST COAST RAILWAY COMPANY

NOTE: The analysis is based on official documents of the company, including its annual reports of the past nine years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated Sept. 13, 1895, under Florida laws as successor to the Jacksonville, St. Augustine & Indian River R.R. In 1899 the company acquired a division of the Tampa & Key West Ry. and the Jacksonville & Atlantic Ry. Extensions have been under construction for many years, along the East coast of Florida.

Location: The operated lines consist of 744.89 miles, as follows: Main line from Jacksonville to Key West, 522.22 miles; branches, 217.02 miles; trackage rights, 5.65 miles. From Key West the company operates car-ferries to Havana. Mileage all in Florida. Population of Florida in 1890, 391,422; in 1900, 528,542; in 1910, 751,139.

Management: OFFICERS: W. H. Beardsley, Pres.; J. E. Ingraham, Vice-Pres.; J. P. Beckwith, Vice-Pres.; Wm. R. Kenan, Jr., Vice-Pres.; L. C. Haines, Treas.; J. C. Salter, Sec. DIRECTORS: R. W. Parsons, Wm. A. Blount, J. E. Ingraham, Wm. R. Kenan, Jr., J. P. Beckwith, W. H. Beardsley, Geo. W. Perkins, J. C. Salter, L. C. Haines. MAIN OFFICE, St. Augustine, Fla. NEW YORK OFFICE, 26 Broadway.

Yard tracks and sidings, June 30, 1916, 155.48 miles.

Comment: During the fiscal year 1916, the Florida East Coast Railway reported a very decided increase in its volume of freight business and advanced its average freight train load to a relatively heavy figure. While average freight rates tended to decline it will be noted that train mile earnings were well above the figures reported for the previous year. As has always been the case the freight tonnage on this property was unusually well diversified.

Other income	163,210	54,626	36,931	.....	.....	.....	8,592
Total net income	$3,371,482	$2,148,714	$1,718,363	$1,467,191	$1,309,854	$1,577,567	$1,490,213
Taxes accrued	326,855	236,090	239,717	214,519	186,561	173,641	164,775
Balance for charges	$3,044,627	$1,912,624	$1,478,646	$1,252,672	$1,123,293	$1,403,926	$1,325,438
Fixed charges	2,161,738	1,699,305	1,362,431	1,212,241	1,072,073	1,336,797	1,211,453
Surplus over charges	$882,889	$213,319	$116,215	$40,431	$51,220	$67,130	$113,925

Note: Fixed charges, as shown above, included in 1916, $1,250,000, in 1915, $1,000,000, and in 1914, $625,000 interest on the gen. mtg. income bonds as well as rentals, hire of equipment and interest on first mortgage bonds.

Profit and Loss Account, year ended June 30, 1916: Credit balance at beginning of year, $221,900; balance transferred from income account, $882,889; delayed income credit, $45,000; donations, $13,993; miscellaneous credits, $8,639. Contra: Surplus appropriated for property, $13.993; loss on retired road and equipment, $79,142; miscellaneous debits, $29,237; credit balance at close of year, $1,050,049.

Comment: The income account of this property for the year ended June 30, 1916 was a very satisfactory one. It will be noted that both gross and net revenues increased very radically, while the outside income also underwent substantial improvement. The company had no difficulty in taking care of its enlarged fixed charges, after which it carried forward an unusually heavy surplus. Since the close of the fiscal year earnings have continued to show satisfactory results.

Deferred credit items	59,772	55,426	142,872	54,946	35,963	37,153
Appropriated surplus	13,993	.....	.....	.....	.....	.....
Profit and loss surplus	1,050,049	221,900	9,530	.....	.....	.....
Total	$53,563,638	$51,493,517	$49,392,021	$45,706,943	$42,696,267	$38,539,161

Comment: There were practically no capitalization changes on this property during the year ended June 30, 1916. As measured on the mileage basis the capitalization looks a little high, but it will be noted that the stable progress in earning power makes it progressively easier for this company to carry the capitalization. The net income on net capital was 7.2%, which is by far the best figure ever reported.

TABLE D.—Bond Record and Ratings (Based on 9-Year Results, Per Mile of Road)

Name of Issue.	Interest Payable.	Maturity.	Lien on Miles.	Outstanding per Mile.	Average Income Available.	Interest R'q'r'd per Mile of System.	Factor of Safety.	Basis for Rating.		Net Rating.

3. Florida East Coast equip. 5s.	M&N	1917–22	(see text)			20	.....	High	Good	A.

*5% per annum.

Note: "Average income available" is the average net income per mile available for interest charges, after deducting taxes, for the nine years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Bond Ratings, see pages 19 to 21.

REFERENCE NOTES ON BOND ISSUES

1. Auth. and outstanding, $12,000,000. Dated June 1, 1909; due June 1, 1959. Int. paid at Bankers Trust Co., New York. Coupon, $1,000; reg., $1,000, $5,000 and $10,000. First lien on 690.13 miles as follows: From Jacksonville to Key West, Fla., 522 miles; Mayport to South Jacksonville, Fla., 24.14 miles; Titusville to Enterprise, Fla., 35.26 miles; New Smyrna to Orange City Junc., 27.42 miles; Maytown to Kenonsville, 73.50, and 7.81 miles of branches; also upon entire equipment of the company. Also upon the following securities: $12,500 out of $25,000 capital stock of the Atlantic & East Coast Terminal Ry., and on $49,800 out of $200,000 capital stock of the Jacksonville Terminal Co. Underlie No. 2. Listed on New York Stock Exchange. Interest paid without deduction for normal income tax.

2. Auth. and outstanding, $25,000,000. Dated July 1, 1909; due July 1, 1959. Int. paid annually if earned. Int. is non-cumulative, and only from available net earnings above interest requirements on No. 1. Nov. 1, 1910, 3½% was paid; Nov. 1, 1911, 4%; Nov. 1, 1912, 2½%; Nov. 1, 1913, 2½%; Nov. 1, 1914, 2½%; Nov. 1, 1915, 4%; Nov. 1, 1916, 5%. Second lien on 690.13 miles, following No. 1. Interest paid without deduction for normal income tax. Entire issue owned by estate of Henry M. Flagler.

3. Auth., $400,000; outstanding, $300,000. Dated April 27, 1914; due $50,000 annually on May 1 to 1922. Int. paid at United States Mortgage & Trust Co., New York. Coupon, $1,000. Secured on 500 box cars of an original cost of over $450,000. Normal income tax deducted from interest.

Capital Stock: Authorized and outstanding, $10,000,000; par $100. The original stock issue of $5,000,000 was all issued for cash at par, and is held by estate of Henry M. Flagler.

FONDA, JOHNSTOWN & GLOVERSVILLE RAILROAD COMPANY

Notes The analysis is based on official documents of the company, including its annual report of the past eight years. For Definitions and Key to to Ratings, see pages 19-26.

Origin: Incorporated under New York laws, Jan. 17, 1867, and for many years operated lines between Fonda, Gloversville, Schenectady, etc. In 1903, acquired the Cayadutta Electric R.R. and the Amsterdam Street R.R. Co.; also the Johnstown, Gloversville & Kingsboro Horse R.R. Now owns a two-thirds interest in the Adirondack Lakes Traction Co., and the entire capital stocks of the Coal Co.of Fulton county and the Edison Electric Light & Power Co. of Amsterdam. The Gloversville & Broadalbin R.R. is leased for 999 years, its debt being guaranteed.

Location: Mileage operated consists of 88.45 miles, of which 31.62 miles are steam, and the balance electric power. The total track, including yard tracks and sidings, is 124.72 miles. The lines extend from Fonda to Northville, 25.47 miles; Gloversville to Schenectady, 32.26 miles; Gloversville to Fonda, 8.70 miles; Gloversville to Johnstown, 4.08 miles; Broadalbin Junc. to Broadalbin, 6.15 miles; also local lines in Gloversville, Amsterdam, etc.

Management: Officers: J. Ledlie Hees, Pres.; Gustav Levor and John G. Ferres, Vice-Pres.; Frank Burton, Sec.; Lyman K. Brown, Treas. Directors: J. Ledlie Hees, Gustav Levor, John G. Ferres, James P. Argersinger, Frank Burton, Zenas B. Whitney, Alvah J. Zimmer, William Harris, John Barnes, Jacob S. Friedman, E. C. Decker, G. C. Potter, J. R. Blood. Annual meeting, third Wednesday in January. Main Office, Gloversville, N. Y.

Classification of Freight Tonnage (Years Ending June 30)

	1907	1908	1909	1910	1911	1912	1913	1914	1915	1916
Products of Agriculture	.....	.....	.....	9.5%	6.6%	11.1%	10.5%	9.67%	9.50%	8.7%

Total revenue tonnage, 1910, 260,162 tons; 1911, 290,569 tons; 1912, 279,423 tons; 1913, 299,189 tons; 292,052 tons in 1914; 263,351 tons in 1915; 294,081 tons in 1916.

Note: The statistics given in the company's annual reports are not adequate for presenting a complete and uniform statement of the company's physical factors, such as density, train-load, etc.; and as the lines are in large part operated by electric power, a statement of this nature, in comparison with other steam railroads, would not be of great value. The figures are therefore omitted. The equipment of the company on June 30, 1916, was as follows: Locomotives, 7; passenger cars, 90; freight cars, 42. The passenger density in 1916 was 403,318, as compared with 370,122 in 1915, 414,378 in 1914, 413,136 in 1913; 388,378 in 1912; 392,668 in 1911 and 375,783 in 1910.

Common	1.0%	.....	2.51%	2.56%	2.86%	4.13%	3.48%

Note: Fixed charges in 1916 included interest, rentals, etc. In Table B, the figures are based on 88 miles for 1915 and 1916, 89 miles for 1914, 88 miles for 1912 and 1913, and 86 miles for the earlier years.

Profit and Loss Account, year ended June 30, 1916: Credit balance at beginning of year, $398,285; credit balance from income account, $23,864; miscellaneous credits, $159; total, $422,308. Contra: Credit balance carried to balance sheet, $422,308; total, $422,308.

Comment: Both gross and net earnings showed substantial improvement on the Fonda, Johnstown & Gloversville for the year ended June 30, 1916. Surplus available for charges was well in excess of the requirement and enabled the company to carry forward a final surplus substantially in excess of the preferred dividend requirement. Since the close of the fiscal year the operating results have continued to be satisfactory.

Diversified Investing

Price of the Book, $2.00 per copy net

This subject is fully covered in a small volume entitled "*How to Invest Money Wisely*," by John Moody, which we have recently published. For many years Mr. Moody has made a careful study of this subject in connection with his work as an analyst and adviser for bankers, financial institutions and investors, both at home and abroad. These principles for wisely and intelligently diversifying investment capital have been adopted within the past few years by numerous institutions and several thousand individual investors with satisfaction and profit.

MOODY'S INVESTORS SERVICE, 35 NASSAU STREET, NEW YORK

Comment: The capitalization exhibit of this company underwent no important change in the fiscal year 1916. The property is heavily capitalized as compared to its earning power, and the bonded debt represents about 70% of the capitalization. But the company has had no difficulty in carrying this capitalization, and in recent years has kept its net income on net capital up to a substantial average. While the prospect of resumption of dividends on the common stock seems remote, yet there is promise of a permanent maintenance of the preferred dividend.

Note: "Average income available" is the average net income per mile available for interest charges, after deducting taxes, for the eight years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Bond Ratings, see pages 19 to 21.

REFERENCE NOTES ON BOND ISSUES

1. Auth., $500,000; outstanding, $200,000 (closed). Dated Apr. 1, 1881; due Apr. 1, 1921. Int. paid at Importers & Traders' Nat'l Bank, New York. Coupon, $100, $500 and $1,000. First lien, 25.47 miles, Fonda to Northville, N. Y. Underlie No. 4, which provides for retirement. Normal income tax deducted from interest. Legal for S. B. in Maine and New York.

2. Auth., $700,000; outstanding, $500,000 (closed). Dated July 1, 1897; due July 1, 1947. Int. paid at New York Trust Co. Coupon, $1,000. Second lien on 25.47 miles, following No. 1. Underlie No. 4, which provides for retirement. Interest paid without deduction for normal income tax.

3. Auth., $1,500,000; outstanding, $800,000 (closed). Dated July 1, 1900; due July 1, 1950. Int. paid at New York Trust Co. Coupon, $1,000. Third lien on 25.47 miles, following No. 2. Underlie No. 4, which provides for retirement. Interest paid without deduction for normal income tax.

4. Auth., $7,000,000; outstanding, $5,150,000; balance of $1,850,000 reserved to retire Nos. 1, 2, 3, and 5. Dated Nov. 1, 1902; due Nov. 1, 1952. Int. paid at New York Trust Co. Coupon and reg., $1,000. First lien on 39.8 miles, from Sulphur Springs June. to Schenectady including lines in Amsterdam, and fourth lien on 25.47 miles, following No. 3. Legal for Savings Banks in New York and Maine. Interest paid without deduction for normal income tax.

5. Auth. and outstanding, $350,000. Dated Oct. 1, 1892; due Oct. 1, 1922. Int. paid at Farmers' Loan & Trust Co., New York. Coupon, $1,000. Guar. prin. and int. by Fonda, Johnstown & Gloversville R.R. First lien on 8.7 miles, Fonda to Gloversville, N. Y. Retirement provided for by No. 4. Normal income tax deducted from interest.

6. Auth. and outstanding, $30,000. Dated Aug. 1, 1895; due Aug. 1, 1925. Int. paid at Farmers' Loan & Trust Co., New York. Coupon, $1,000. Guar. prin. and int. by Fonda, Johnstown & Gloversville R.R. First lien on 6.2 miles from Broadalbin June. to Broadalbin, N. Y. Normal income tax deducted from interest.

7. Auth. and outstanding, $50,000. Dated Jan. 1, 1893; due Jan. 1, 1913; extended at 5% to Jan. 1, 1933. Int. paid at Fulton County Nat'l Bank, Gloversville, N. Y. Coupon, $1,000. Guar. prin. and int. by Fonda, Johnstown & Gloversville R.R. First lien, 4.23 miles, Johnstown to Gloversville. Normal income tax deducted from interest.

Capital Stock: Auth., $1,000,000 6% cumulative preferred and $2,500,000 common; outstanding, all the common and $500,000 preferred; par $100. Dividends on preferred: 6% from May, 1909, to date; on common, 2% per annum from July 20, 1910-1913 inclusive. None since. Payments are now made in August. TRANSFER AGENT, Ernest J. Beach, Gloversville, N. Y.

GALVESTON, HOUSTON & HENDERSON RAILROAD COMPANY

Origin: Successor by reorganization in 1882 of original property of same name.

Location: Operates 50 miles, Houston to Virginia Point, Tex., with branch to Galveston, etc. Of total, 48.28 miles are owned, and 1.22 miles leased. The Missouri, Kansas & Texas and the International & Great Northern railways have joint trackage rights over the road until 1935, at a fixed annual rental of $65,050 each, or $130,100 in all. Of this rental, $106,100 is paid semi-annually to the trustees of the Galveston, Houston & Henderson first mortgage, for meeting the interest on the latter.

Management: OFFICERS: J. N. Wallace, Pres.; J. H. Hill, Vice-Pres., Gen. Mgr. and Treas.; J. E. O'Neill, Sec. and Aud. DIRECTORS: J. N. Wallace, E. T. Jeffery, C. E. Schaff, J. W. Daley, Frank Trumbull, J. A. Baker, Jr., A. G. Whittington. Annual meeting, first Tuesday after first Monday in April. MAIN OFFICE: Galveston, Texas.

Classification of Freight Tonnage (Years Ending June 30)

	1907	1908	1909	1910	1911	1912	1913	1914	1915	1916

Yard tracks and sidings, June 30, 1916, 80.30 miles.

Comment: Business on this property has shown little tendency towards growth in recent years. Passenger density has steadily declined, continues to range at low figures. The freight rates received by the company are high, and the train mile earnings have been fairly well maintained. The freight tonnage is well diversified, but has shown little improvement in volume during the past decade.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ended June 30.	Gross Revenues.	Maintenance. Way.	Maintenance. Equipment.	Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.

* Deficit.

Note: Above table is based on average mileage directly operated. Margin of safety is the proportion of surplus left over after providing for fixed charges. In 1916 there was no surplus so left over. In 1915 the "balance for charges" amounted to $4,486; fixed charges consumed $3,480, or 78% of the total, leaving a surplus of $1,066, or a "margin of safety" of 22%.

Comparative Income Account, Years Ended June 30

Earned on stock	.....	5.03%	2.27%	5.22%	5.04%	14.53%	10.02%

Profit and Loss Account, year ended June 30, 1916: Credit balance, June 30, 1915, $787,917; miscellaneous credits, $134; total, $788,051. Contra: Debit balance transferred from income, $954; miscellaneous debits, $86; credit balance carried to balance sheet, $787,011; total, $788,051.

Comment: The direct operating results of the Galveston, Houston & Henderson property have become less satisfactory with each succeeding year, and the only thing that enables the company to meet its fixed charges is the fixed annual rental of the International & Great Northern and the Missouri, Kansas & Texas Railway Co. for trackage rights.

Public Utilities

If you are interested in any way in the securities of Gas, Electric Light, Electric Traction, Telephone and Telegraph or Power Companies, the "Public Utilities and Industrials" Edition of "MOODY'S ANALYSES OF INVESTMENTS" will prove indispensable. This whole field is covered in the same comprehensive and accurate way that Steam Railroads are covered in the Railroad Edition. In fact, the two volumes constitute a complete Service for the Banker and Investor. Separately, the editions sell at $15 each; in combination, they are supplied at $25, when ordered in advance.

MOODY'S INVESTORS SERVICE, 35 NASSAU STREET, NEW YORK

Working liabilities	155,708	181,004	235,638	301,698	155,879	104,711
Accrd. liabilities not due	31,525	32,269	32,536	30,104	29,009	29,954
Deferred credit items..	41,663	23,461	16,756	15,260	13,599	15,865
Profit and loss surplus	787,011	787,917	720,390	697,328	641,610	589,217
Total	$4,137,907	$4,146,651	$4,127,320	$4,044,390	$3,840,097	$3,739,747

Comment: The fixed rental income of this property has enabled it to carry its relatively large interest charges without difficulty, and a considerable profit and loss surplus has been built up during recent years. But as far as its own operations are concerned, it appears to be in a stagnant position, without any particular promise for the future. An abrogation of the traffic contracts might greatly weaken the credit of the property.

TABLE D. Bond Record and Ratings (Based on 10-Year Results, Per Mile of Road)

Name of Issue.	Interest Payable.	Maturity.	Lien on Miles.	Outstanding per Mile.	Average Income Available.	Interest R'q'r'd per Mile of System.	Factor of Safety.	Basis for Rating. Security.	Salability.	Net Rating.
1. Gal. Houston & Hen. first 5s.	A&O	Ap 1933	(1st) 50	$42,440	$4,198	$2,122	49%	High	Fair	Baa.

Note: The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Ratings, see pages 19 to 21.

REFERENCE NOTE ON BOND ISSUE

1. Authorized, $5,000,000; outstanding, $2,122,000; dated April 1, 1913; due April 1, 1933; interest paid at Central Trust Co., New York. Callable at 105 on 60 days' notice. Trackage contracts with the M., K. & T. Ry. of Tex., and I. & G. N. Ry., under which these companies each agree to pay a fixed annual compensation of $65,050, which covers interest charges, are pledged under these bonds. Coupon and reg., $1,000; interchangeable. Issued to provide for payment of $2,000,000 old first 5s, which matured April 1, 1913, and for improvements. Unissued balance are reserved for improvements and equipment, under restriction. First lien on entire property, including 50 miles of railroad from Houston to Galveston, and also extensive terminal at Galveston Island. Listed on New York Stock Exchange. Normal income tax deducted from interest.

Capital Stock: Outstanding, $1,000,000; par, $100. No dividends since 1905, when 4% was paid. The Missouri, Kansas & Texas Ry. owns $500,000 of the stock.

THE GREAT NORTHERN RAILWAY COMPANY

NOTE: The analysis is based on official documents of the company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated March 1, 1856, as the Minneapolis & St. Cloud Ry. Name changed as above Sept. 18, 1889. Acquired control of St. Paul, Minneapolis & Manitoba Ry. Co. in 1890, on 999-year lease, afterwards formally absorbing this property and assuming its security obligations. From time to time acquired other lines, and now controls the Vancouver, Victoria & Eastern Ry. & Navigation Co., and the Great Northern Steamship Co., the latter operating between Seattle and Yokohama. Jointly with Northern Pacific controls the Spokane, Seattle & Portland Ry Co. Also owns the Northern Steamship Co., operating on the Great Lakes, from Buffalo to Duluth, and owns an interest in the Spokane & Inland Empire R.R. In 1916, purchased the Watertown & Sioux Falls R.R., formerly the South Dakota Central Ry. extending 103 miles from Watertown to Sioux Falls, S. D.

Location: The total operated lines of the Great Northern Railway system consisted June 30, 1916 of 8,120.06 miles, the average mileage operated for the year being 8,053. The mileage is classified as follows: Main lines directly owned and operated, 7,112.91 miles; lines owned by controlled companies and trackage rights, 1,007.15 miles. The system extends westward from Duluth, St. Paul and Minneapolis to Seattle and Vancouver, and entering Fargo, Sioux Falls, Great Falls, Helena, Butte, Everett, Spokane, Tacoma, etc. Mileage chiefly in Minnesota, North Dakota, Montana, Idaho, and Washington. Population of these States in 1890, 2,050,379; in 1900, 2,993,794; in 1910, 4,496,401.

Chicago, Burlington & Quincy Control: Jointly with the Northern Pacific Ry., the company controls the Chicago, Burlington & Quincy system, nearly all of the stock of the latter being owned, and deposited as collateral under the 4% joint mortgage of these two companies. By means of this joint control, the Great Northern lines have access into Chicago, Denver, Omaha, and Kansas City, and through the Colorado Southern lines (controlled by the C. B. & Q.) a direct line through Texas to the Gulf of Mexico.

Management: OFFICERS: L. W. Hill, Chairman of Board and Pres.; R. Budd, Asst. to Pres. (St. Paul); E. C. Lindley, Vice-Pres. and Gen'l Counsel; J. M. Gruber, Vice-Pres.; W. P. Kenney, Vice-Pres.; E. T. Nichols, Vice-Pres. and Asst. Sec.; G. R. Martin, Vice-Pres.; L. E. Katzenbach, Sec. and Treas.; N. Terhune, Asst. Treas. and Asst. Sec. DIRECTORS: Louis W. Hill, Edward T. Nichols, W. P. Kenney, E. C. Lindley, A. D. Thomson, F. E. Weyerhauser, Wm. B. Dean, Ralph Budd, Pierce L. Howe, L. Emery Katzenbach, A. L. Ordean, A. B. Hepburn. Annual meeting, second Tuesday in October. MAIN OFFICE, St. Paul, Minn. NEW YORK OFFICE, 32 Nassau St.

Classification of Freight Tonnage (Years Ending June 30)

	1907	1908	1909	1910	1911	1912	1913	1914	1915	1916
Products of Agriculture	.....	.....	.....	.....	.....	.....	.....	.....	20.76%	22.32%

Manufactures	.....	.....	.....	.....	.....	.....	.....	.....	6.46	6.22
Miscellaneous	.....	.....	.....	.....	.....	.....	.....	.....	4.58	4.09

Character of Tonnage: The Great Northern Railway does not furnish details of its freight tonnage, and the above exhibit is that filed with the Interstate Commerce Commission. The total tonnage carried (all freight) in recent years has been reported as follows: 1909, 18,097,264 tons; 1910, 23,224,972 tons; 1911, 23,070,655 tons; 1912, 27,543,172 tons; 33,626,618 tons in 1913; 30,857,578 tons in 1914; 23,453,059 tons in 1915; 28,927,130 tons in 1916.

TABLE A.—Physical Factors (Mileage, Equipment and Operation)

YEARS ENDED JUNE 30.	Average Miles Operated.	Extra Main Track.	Locomotives Owned.	Passenger Cars Owned.	Freight and Company Cars.	Fgt. to all Traffic.	Passenger Density	Freight Density.	Average Freight Train Load (Tons).	Train Mile Earnings.	Average Rate per Passenger per Mile. (Cents)	Average Rate per Ton per Mile. (Cents)
1907	5,982	115	943	668	40,043	75%	74,655	897,719	549	$3.10	2.37c	.77c

1913	7,686	224	1,284	1,044	55,433	74	78,796	993,226	635	3.24	2.50	.77
1914	7,781	238	1,324	1,193	57,144	73	83,744	890,669	663	3.27	2.34	.79
1915	8,102	241	1,321	1,215	57,507	70	71,331	716,239	650	3.22	2.27	.82
1916	8,051	237	1,288	1,184	57,787	74	74,681	970,043	663	3.43	2.72	.77
10-Year Average	7,264	193	1,181	983	49,893	74%	77,837	835,590	581	$3.10	2.37c	.79c

Yard tracks and sidings, June 30, 1916, 2,181.51 miles. There are no equipment trusts outstanding. Weight of rails, 56 to 90 lbs. Over 2,300 miles of main track are now laid with 90-lb. rails.

Comment: During the year ended June 30, 1916, the Great Northern Railway reported very substantial recovery in its freight density, which almost equaled the high figures of 1913. The average freight train load also advanced to a new high figure, and, notwithstanding the fact that average freight rates tended to decline, the train mile earnings were better than in the previous year. The tonnage of this system is quite well diversified, although products of mines represent approximately 55% of the total business done.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ended June 30.	Gross Revenues.	Maintenance. Way.	Maintenance. Equipment.	Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.
1907	$9,218	$1,341	$940	$2,281	$3,162	$3,775	$4,318	$343	$3,975	$893	78%	$3,082	$1,750

1912	8,983	1,251	1,066	2,317	2,794	3,872	4,391	473	3,918	979	75	2,939	1,995
1913	10,238	1,604	1,218	2,822	3,144	4,272	4,705	557	4,148	952	77	3,196	1,911
1914	9,699	1,634	1,263	2,897	3,085	3,717	4,186	616	3,570	941	74	2,629	1,936
1915	8,329	1,025	887	1,912	2,654	3,763	4,636	580	4,056	1,521	62	2,535	2,084
1916	10,089	1,201	1,085	2,289	3,158	4,642	5,569	637	4,932	1,501	70	3,431	2,168
10-Year Average	$9,034	$1,407	$1,073	$2,480	$2,871	$3,683	$4,237	$490	$3,747	$998	74%	$2,749	$2,004

Note: Above table is based on average mileage directly operated for each year, including directly operated controlled companies and trackage. Margin of safety is the proportion of surplus left after deducting all charges. For example, in 1916, the "balance for charges" (per mile) amounted to $4,932; fixed charges consumed, $1,501 per mile, or 30%, leaving $3,431, a "margin of safety" of 70%.

Comparative Income Account, Years Ended June 30

	1916	1915	1914	1913	1912	1911	1910
Gross revenues	$81,228,185	$67,130,113	$75,473,869	$78,692,767	$66,197,819	$61,257,633	$64,465,370

Earned on stock	11.08%	8.19%	8.85%	11.69%	10.31%	8.34%	8.47%

* Outside operations included in gross and net revenues.

Profit and Loss Account, year ended June 30, 1916: Credit balance at beginning of year, $66,953,805; credit balance transferred from income, $2,311,582; profit on road and equipment sold, *$4,954; unrefundable overcharges, $17,270; donations, $31,423; miscellaneous credits, $174,265. Total, $69,483,391. Contra: Debt discount extinguished through surplus, $6,156; loss on retired road and equipment, $44,362; miscellaneous debits, $649,091; credit balance carried to balance sheet, $68,783,782. Total, $69,483,391. * Reverse item.

Comment: Both gross and net revenues underwent very sharp advances on the Great Northern Railway during the fiscal year 1916, and as outside income also increased, the balance available for fixed charges was over 20% heavier than in the previous year. The surplus above charges also ranged higher and the company reported earnings in excess of 11% on the outstanding capital stock. As has been the custom in recent years a large proportion of the final surplus was appropriated to improvement accounts. The half-interest in the Chicago, Burlington & Quincy equity, owned by the Great Northern Railway is steadily becoming an asset of greater value to the latter. The Chicago, Burlington & Quincy has now accumulated a surplus of much more than $100,000,000. Each year it is reporting earnings far in excess of its dividend disbursements.

TABLE C.—Capitalization Factors (Security Obligations and Earning Power)

Years Ended June 30.	Capitalization Per Mile of Road. Stock Outstanding and Per Cent of Whole.		Bonds Outstanding and Per Cent of Whole.		Rentals Cap. at 5 Per Cent.	Total Gross Capital. Total	$674,798,975	$661,540,099	$676,817,447	$643,947,852	$610,832,732	$593,529,839

Note: The actual amount of stock now outstanding is $250,000,000, of which $19,000,000 had been subscribed for by stockholders during the year 1914, payments to be made in instalments. In March, 1914, stockholders were offered the right to take $19,000,000 more stock at par, payable May, August and October, bringing the total outstanding to $250,000,000. Certain securities formerly carried as "property investment" are now carried as "working assets."

Comment: The capitalization figures of the Great Northern Railway underwent a slight change during the fiscal year 1916. It will be noted that as measured on a mileage basis the capitalization of this property is not high, and is now averaging somewhat less than the figures reported a few years ago. The net income on net capital has always ranged high and in the year just closed was better than at any time during the last ten years.

TABLE D.—Bond Record and Ratings (Based on 10-Year Results, Per Mile of Road)

Name of Issue.	Interest Payable.	Maturity.	Lien on Miles.	Outstanding per Mile.	Average Income Available.	Interest R'q'r'd per Mile of System.	Factor of Safety.	Basis for Rating. Security.	Salability.	Net Rating.

For Reference Notes on Bond Issues, see next page.

Note: "Average income available" is the average net income per mile available for interest charges, after deducting taxes, for the ten years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Bond Ratings, see pages 19 to 21.

REFERENCE NOTES ON BOND ISSUES

1. Auth., $50,000,000; outstanding, $8,237,000 4s; $21,098,000 4½s; $13,344,000 6s (closed). Dated May 1, 1883; due July 1, 1933. Int. paid at company's office, 32 Nassau St., New York. Coupon and reg., $1,000. Sinking fund: Proceeds of all land sales are pledged to the payment of interest and to redemption of principal of these bonds at lowest market price. D., 69.61 miles; Fargo to Surrey, N. D., 226.07 miles; Aneta to Devils Lake, N. D., 57.72 miles; Armington to Laurel Junc., Mont., 196.21 miles; Shelby Junc. to Great Falls, Mont., 97.49 miles; Marcus, Wash., to International Boundary Line at Laurier, Wash., 27.66 miles; International Boundary Line at Danville to International Boundary Line at Ferry, Wash., 25.13 miles; International Boundary Line at Molsom, Wash., to International Boundary Line at Chopaka, Wash., 48.46 miles; Seattle, Wash., to International Boundary Line at Blaine, Wash.. 123.91 miles; Anacortes to Rockport, Wash., 57.72 miles, and small portions of main line mileage aggregating 24.79 miles; branch line mileage being from Mississippi to Kelly Lake, Minn., 31.71 miles; Fermoy to Kelly Lake, Minn., 23.40 miles; Sundry Mine Spurs at Messabe Range Minn., 17.41 miles; Ellendale to Forbes, N. D., 13.36 miles; Lakota to Sarles, N. D., 73.13 miles; York to Dunseith, N. D., 42.27 miles; Bottineau to Antler, N. D., 41.89 miles; Towner to Maxbass, N. D., 46.10 miles; Granville to Sherwood, N. D., 61.82 miles; Berthold to Crosby, N. D., 89.16 miles; Stanley to Wildrose, N. D., 50.75 miles; Bainville to Scobey, Mont., 97.83 miles; Virden, Mont., to the International Boundary Line, at Sweet Grass, Mont., 36.54 miles; Kalispell to Marion, Mont., 25.57 miles; Kalispell to Somers, Mont., 10.45 miles; Curlew to Repuhlic, Wash., 21.09 miles; Oroville to Wenatchee, Wash., 135.88 miles; Columbia River to Mansfield, Wash., 60.62 miles; Belleville to Yukon, Wash., 11.38 miles; Monroe to Tolt, Wash., 17.84 miles; Bonners Ferry to International Boundary at Port Hill, Idaho, 25.95 miles; Niobe to International Boundary at Northdate, N. D., 21.69 miles; Vaughn to Gilman, Mont., 40.28 miles; Moccasin to Lewiston, Mont., 30.27 miles; Power to Bynum, Mont., 42.97 miles; and small portions of branch line mileage, aggregating 261.67 miles; first collateral lien on 575.13 miles of the following companies: Manitoba Great Northern Ry., 91.77 miles; Brandon, Saskatchewan & Hudson's Bay Ry., 69.45 miles; Crow's Nest Southern Ry., 74.18 miles; Nelson & Fort Sheppard Ry., 55.42 miles; Red Mountain Ry., 9.59 miles; Vancouver, Victoria & Eastern Ry. & Navigation Co., 261.67 miles; Brandon, Devils Lake & Southern Ry., 13.05 miles; second lien on 4,112.98 miles, as follows: On 2,541.35 miles, following No. 1; on 421.06 miles, following No. 2; on 432.95 miles, following No. 3; on 284.36 miles, following No. 4; on 304.09 miles, following No. 6; on 130.14 miles, following No. 8; third lien on 668.99 miles, as follows: on 401.48 miles and branches, 15.70 miles, following No. 3; on 2.63 miles, following No. 1; on 249.18 miles, following No. 2; first lien on entire capital stock (except directors' shares) of the Minneapolis Western Ry. Co., 1.69 miles; first collateral lien on $2,583,000 of No. 8, covering 130.14 miles; upon $21,000 of No. 6, and on 1,632 shares out of a total present isue of 4,956 shares capital stock of the Lake Superior Terminal & Transfer Ry.; first lien on equipment costing $46,200,068, and second lien on equipment costing $12,873,122. Also first lien on entire capital stocks of the Great Northern Office Building Co. and the Great Northern Equipment Co. Legal for S. B. in Cal., Conn., Maine, Mass., Mich., Minn., N. H., N. Y., N. J., R. I., Vt., Wis. Listed on New York Stock Exchange. Interest paid without deduction for normal income tax. Coupon, $1,000; reg., $1,000, $5,000 and multiples, interchangeable.

10. Auth., $222,400,000; outstanding, $215,227,000; reserved for balance of C. B. & Q. stock, $7,173,000. Dated July 1, 1901; due July 1, 1921. Int. paid at J. P. Morgan & Co., New York. Coupon, $1,000; reg., $1,000, $5,000, etc. Secured by deposit of 1,076,135 shares out of 1,108,391 shares of Chicago, Burlington & Quincy capital stock. Callable at 105 and int. A joint obligation of the Great Northern and the Northern Pacific Railway companies. In the above table the Great Northern's share of interest on these bonds is not deducted for the reason that the income from dividends on the C. B. & Q. stock is not included in the income table, one item offsetting the other. No. 9 provides for retirement of entire issue. Legal for S. B. in N. H., R. I. Listed on New York and London Stock Exchanges. Interest paid without deduction for normal income tax.

TABLE E.—Stock Record and Ratings (Based on 10-Year Results, Per Mile of Road)

Name and Details of Issue.	Rate and Date Dividends.	Amount Outstanding per Mile.	Average Income Available per Mile.	Dividend Required per Mile of System.	Factor of Safety.	Basis for Rating.		Net Rating.
						Equity.	Salability.	
Great Northern Ry. stock..... Outstanding, $249,476,850. Par, $100. Full voting power.	7% Qu F	$30,987	$2,749	$2,168	22%	High	Very high	Aa.

Note: "Average income available" on stock issues is the average surplus, after deducting all fixed and other charges, for the ten years ending June 30, 1916. "Dividend requirement" is the requirement, at the current rate, on the present amount outstanding. For Key to Stock Ratings, see pages 21 to 23.

Auth., $250,000,000; outstanding, $249,476,850; par $100. The issue was originally designated "preferred," but in 1898 the right to issue "common" stock was surrendered. Dividends, 7% per annum. See full record below. Transfer Office, 32 Nassau Street, New York. Listed on New York Stock Exchange.

Dividends: From November 1, 1890, to June 30, 1916, the company paid on its stock a total of 107 cash dividends, aggregating $214,498,743. Dividends as paid in the fiscal years ended June 30 are as follows:

Fiscal Year.	Rate.	Amount.	Fiscal Year.	Rate.	Amount.	Fiscal Year.	Rate.	Amount.
1891.....	3¼%	$650,000	1899.....	6¾%	$3,851,034	1908.....	7%	$10,483,055
1892.....	5	1,000,000	1900.....	7	6,408,778	1909.....	7	14,697,473
1893.....	5	1,000,000	1901.....	7	6,897,369	1910.....	7	14,698,663

Bonded Debt: $438,000 Farmers' Grain & Shipping Co.'s R.R. first 5s. Dated July 1, 1905; due July 1, 1925. Int. Jan. and July 1, at Minneapolis Trust Co., Trustee. Coupon, $1,000. All owned by Brandon, Devil's Lake & Southern Ry. Co. Authorized, $465,000. A first lien on all property of the company.

Capital Stock: Authorized and outstanding, $200,000. Par, $25. The Brandon, Devil's Lake & Southern Ry. Co. owns $121,025 of the stock. Stock of latter company owned by Great Northern Ry.

VANCOUVER, VICTORIA AND EASTERN RAILWAY AND NAVIGATION COMPANY

Incorporated under laws of British Columbia, May 8, 1897, and on June 13, 1898, by Act of Dominion Parliament became a Dominion corporation. Line of road: Laurier, Danville and Grand Forks, Grand Forks to Phoenix, B. C., Midway to Molson, Wash., Chopaka, Wash., to Brookmere, B. C., Blaine, Wash., to Vancouver, B. C., and various other branches; total operated 263.15 miles. All mileage is near international boundary. Equipment: Locomotives, 2; cars, 260. Controlled by Great Northern Ry. by stock ownership and included in that company's directly operated mileage.

Management: OFFICERS: R. Budd, Pres.; J. H. O'Neill, Vice-Pres.; L. E. Katzenbach, Treas.; A. H. McNeill, Sec.; G. R. Martin, Compt. Annual meeting, second Friday in March. OFFICE, Vancouver, B. C.

Capital Stock: Auth., $25,000,000; outstanding, $20,850,000; par, $100; all owned by Great Northern Railway. No bonded debt.

GULF, MOBILE AND NORTHERN RAILROAD COMPANY

Origin: Formed in 1915 as successor to the New Orleans, Mobile & Chicago Railroad, which was sold under foreclosure. New company did not take possession until Jan., 1917, owing to litigation as to legality of sale. The old company was incorporated under laws of Alabama, Mississippi and Tennessee, Dec. 1, 1909, as successor to the Mobile, Jackson & Kansas City R.R. and the Gulf & Chicago Ry. Co.

Location: Operates 402.9 miles, of which main lines extend from Mobile, Ala., to Middleton, Tenn., and from Beaumont to Hattiesburg, Miss., with branch to Ellisville, Miss. Extensions were planned to give the company connection with the Nashville, Chattanooga & St. Louis (L. & N. system) and the Chicago & Eastern Illinois. In October, 1916, Receiver William F. Owen began making surveys for an extension from Middleton, Tenn., northerly to Jackson, Tenn., 34 miles, at an estimated cost of between $700,000 and $800,000, and construction will begin shortly. Extension to New Orleans is also projected. The property was formerly controlled jointly by the Louisville & Nashville Railroad and the St. Louis & San Francisco Railroad Co., through ownership of a majority of the old capital stock.

Reorganization Plan: Under the reorganization plan which was declared operative in May, 1915, the holders of the 5% bonds of the old company were offered, in exchange for their bonds, 83 1/3% in new preferred stock and 75% in new common stock. The old preferred and common stockholders were each assessed $10 per share, for which they received 50% in new preferred and common stock, respectively. For current news, consult our Investors Service.

Management (New Company): OFFICERS: John W. Platten, Chairman; W. F. Owen, Pres.; J. H. Wood, Vice-Pres. and Compt.; H. F. Ricker, Asst. to Pres. and Sec.; Eugene Harvey, Treas. DIRECTORS: W. F. Owen, John W. Platten, F. W. Scott, A. H. S. Post, C. Nelson Strother, W. H. Cloverdale, J. S. Dale, J. C. Rich, C. K. Beekman, C. M. Murphey, I. B. Tigrett. MAIN OFFICE, Mobile, Ala. NEW YORK OFFICE, 71 Broadway.

Figures prior to 1909 are those of old company, Mobile, Jackson and Kansas City R.R.

Yard-tracks and sidings, 76.19 miles.

Comment: During the year ended June 30, 1916, this property made substantial recovery in its volume of freight business and reported the best train load shown since 1913. Train mile earnings were also better than in 1915 and the position of the property generally seemed very favorable. As has always been the case forest products represent the bulk of this company's freight business and in the year 1916 this type of tonnage represented over 60% of the total. Under the new management it is possible that a very considerable increase can be made to the tonnage of the road, especially when the proposed extensions are completed which it is expected will enable the company to get the benefit of a large amount of through traffic.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ended June 30.	Gross Revenues.	Maintenance. Way.	Maintenance. Equipment.	Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.

All other oper. expenses	763,432	758,459	847,833	1,120,811	830,743	674,716
Net oper. revenues	$640,388	$449,967	$752,305	$727,044	$630,261	$745,688
Operating ratio	68.5%	74.6%	65.9%	70.8%	68.5%	59.2%
Other income	100,326	54,180	3,960	.....	.....	.....
Total net income	$740,714	$504,147	$756,265	$727,044	$630,261	$745,688
Taxes accrued	80,472	75,838	85,727	69,454	53,000	50,319
Balance for charges	$660,242	$428,309	$670,538	$657,590	$577,261	$695,369
Fixed charges	745,848	756,204	779,170	956,486	727,714	611,805
Surplus over charges	(def.) $85,606	(def.) $327,895	(def.) $108,632	(def.) $298,896	(def.) $150,453	$83,564

Profit and Loss Account, year ended June 30, 1916: Credits, unrefundable overcharges, $622; donations, $848; miscellaneous credits, $1,549; debit balance carried to balance sheet, $941,586; total, $944,605. Contra: Debit balance at beginning of year, $855,093; debit balance transferred from income, $85,607; loss on retired road and equipment, $115; miscellaneous debits, $3,790; total, $944,605.

Comment: Both gross and net operating revenues underwent substantial improvement on this property during the year ended June 30, 1916, although they ranged somewhat below the good results of 1913 and 1914. The total net income, while somewhat under the fixed charge requirements, was nevertheless much better than for some years past and indicates that the property is now heading toward a more stable position.

TABLE C.—Capitalization Factors (Security Obligations and Earning Power)

Note: Above are the capitalization figures of the old company. The new company is to have no bonded debt outstanding, but will issue $11,344,333 6% preferred stock, and $10,820,894 common stock. Both classes of stock are to be vested for not over 5 years in voting trustees, viz.: John W. Platten, Frederick Wm. Scott, Samuel S. Campbell, Maurice Hely-Hutchinson and A. H. S. Post. The preferred stock is to be 6% non-cumulative for first 3 years and cumulative thereafter.

GULF & SHIP ISLAND RAILROAD COMPANY

NOTE: The analysis is based on official documents of the company, including its annual reports of the past ten years.
For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated under Mississippi laws, Feb. 23, 1882. Line was first partially operated in 1897, and completed in the period from 1900 to 1906. In addition to its railway property has valuable terminal rights on Mississippi Sound at Gulfport, and has dredged a harbor at that point under arrangement with the United States Government.

Location: Lines operated consist of 307.56 miles, as follows: Gulfport to Jackson, Miss., 161.06 miles; Maxie to Mendelhall, Miss, 104.75 miles; Saratoga to Laurel, Miss., 41.75 miles. At Jackson connection is made with the Illinois Central lines and the Alabama & Vicksburg. Population of Mississippi in 1890, 1,289,600; in 1900, 1,551,-270; in 1910, 1,797,114.

Management: OFFICERS: (Vacancy), Pres.; W. T. Stewart, Vice-Pres.; J. C. Simpson, Sec.; P. A. Stilwell, Treas. DIRECTORS: J. C. Simpson, M. E. Jones, J. W. Thomas, W. T. Stewart, B. E. Eaton, J. H. Brown, W. E. Leonard, G. E. Jones. Annual meeting, first Monday in June. MAIN OFFICE, Gulfport, Miss.

Yard tracks and sidings, June 30, 1916, 101.08 miles. Weight of rails, 56 to 75 lbs. All equipment is owned; there are no equipment trusts..

Comment: During the year ended June 30, 1916, the Gulf & Ship Island reported some improvement in both passenger and freight density, and the train load was also held up. Train mile earnings were better than in 1915 and were well above the average for the decade. As usual, the company depended mainly on forest products for its tonnage, these representing over 73% of the total business done. The total tonnage was the largest ever reported.

* Deficit.

Note: Above table is based on average mileage directly operated for each year. "Margin of safety" is the proportion of surplus left over after providing for all charges. For example, the "balance for charges" (per mile) in 1916 amounted to $2,463; fixed charges consumed $825, or 33%, leaving $1,638, a "margin of safety" of 67%.

Profit and Loss Account. year ended June 30, 1916: Credit balance at beginning of year, $640,898; credit balance transferred from income, $414,016; miscellaneous credits, $17,651; donations, $67; total, $1,072,632. Contra: Surplus applied to sinking and other reserve funds, $12,583; miscellaneous appropriations of surplus, $399; loss on retired road and equipment, $7,555; miscellaneous debits, $2,458; credit balance carried to balance sheet, $1,049,637; total, $1,072,632.

Comment: Both gross and net revenues recovered substantially on the Gulf and Ship Island property during the year ended June 30, 1916. The total net income was the best reported during the decade, and as the fixed charges did not increase, the final surplus was equal to 7.2% on the outstanding stock. The credit of the company materially improved during the year.

Appropriated surplus	898,002	794,657	682,676	597,553	517,442	452,135
Profit and loss surplus	1,049,637	640,898	523,940	342,678	181,173	125,372
Total	$14,863,307	$14,236,257	$14,219,389	$14,182,989	$13,872,984	$13,866,311

Comment: The small increase in the funded debt of the Gulf & Ship Island Railroad in 1916 was due to the issue of equipment trusts. The fixed debt of the company, however, underwent a further reduction. After April 1 of the present year, all of the 6% debenture bonds will have been retired. During recent years the company has steadily reduced its bonded debt, and has thus been able to show a substantial increase in its margin of safety.

TABLE D.—Bond Record and Ratings (Based on 10-Year Results, Per Mile of Road)

Name of Issue.	Interest Payable.	Maturity.	Lien on Miles.	Outstanding per Mile.	Average Income Available.	Interest R'q'r'd per Mile of System.	Factor of Safety.	Basis for Rating. Security.	Salability.	Net Rating.
1. Gulf & Ship Island first ref. and ter. 5s	J&J	F 1952	(1st) 236 (2d) 71	$13,443	$1,884*	$700	63%	High	Good	Baa.
2. Gulf & Ship Island gen. and ref. 6s	A&O	Ap 1917	(gen). 307	1,300	1,184	40	(text)	Good	Good	A.
3. Gulf & Ship Island deb. 6s	M&N	My'18-'24	Not mtg.	.....	1,144	70	"	"	"	A.

* After allowance for int. on $16,000 first 6s.

Note: "Average income available" is the average net income per mile available for interest charges, after deducting taxes, for the ten years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Ratings, see pages 19 to 21.

REFERENCE NOTES ON BOND ISSUES

1. Auth., $5,000,000; outstanding, $4,134,000; alive in sinking fund, $850,000. Dated Feb. 1, 1902; due Feb. 1, 1952. Int. paid at Metropolitan Trust Co., New York. Coupon, $1,000; reg., $1,000, $5,000 and $10,000. Redeemable at 110 and interest for sinking fund. Sinking fund: equal to 1% annually of outstanding bonds for purchase of bonds at not exceeding 110 and int. First lien on 236.13 miles, as follows: Hattiesburg to Jackson, Miss., 89.63 miles; Maxie to Mendenhall, Miss., 104.75 miles; Saratoga to Laurel, Miss., 41.75 miles; second lien on 71.43 miles from Gulfport to Hattiesburg, Miss., subject to only $16,000 first 5s; due 1926 for retirement of which provision is made. Underlies No. 2. Listed on New York Stock Exchange. Interest paid without deduction for normal income tax.

2. Auth., $1,000,000; outstanding, $200,000; retired, $800,000. Dated Feb. 1, 1911; due April 1, 1917. Int. paid at Metropolitan Trust Co., New York. Redeemable at 103 and int. on any interest date, on ninety days' notice. Second lien on 236.13 miles, and third lien on 71.43 miles, following No. 1. Interest paid without deduction for normal income tax. Interest charge in above table does not include maturity payments, which are not being directly charged to current income.

3. Auth. and outstanding $350,000; dated May 1, 1916; due $50,000 annually from May 1, 1918, to 1924. Int. paid at Bankers Trust Co., Buffalo, N. Y. Coupon, $1,000. Callable at 105. Not a mortgage. Normal income tax deducted from interest.

TABLE E.—Stock Record and Ratings (Based on 10-Year Results, Per Mile of Road)

Name and Details of Issue.	Rate and Date Dividends.	Amount Outstanding per Mile.	Average Income Available per Mile.	Dividend Required per Mile of System.	Factor of Safety.	Basis for Rating.		Net Rating.
						Equity.	Salability.	
Gulf & Ship Island R.R. stock ..... Par $100. Outstanding, $7,000,000.	See text	$22,727	$808	.....	.....	Small	Fair	Ca.

Note: "Average income available" on stock issues is the average surplus per mile, after deducting all fixed charges, for the ten years ending June 30, 1916. "Dividend requirement" is the requirement at the current rate on the present amount outstanding. For Key to Ratings, see pages 21-23.

Note: Auth. and outstanding, $7,000,000. Amount was increased from $6,750,000 in Feb., 1913. Dividends: 1903 to 1911, 4% per annum; 1912 and 1913, 2% each; none since. Transfer Agent, R. E. Powers, Vice-Pres., Ellicott Square, Buffalo, N. Y.

HUNTINGDON & BROAD TOP MOUNTAIN RAILROAD & COAL COMPANY

Note: The analysis is based on official documents of the company, including its annual reports of the past nine years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated May 6, 1852, under Pennsylvania laws, and in July, 1864, consolidated with the Bedford R.R. Co. The business of the company is mainly the transportation of coal in the Broad Top coal region of Pennsylvania.

Location: Lines extend from Huntingdon to Mount Dallas, Pa., with branches and extensions to mines in the Broad Top region. Total operated, 71.78 miles.

Management: Officers: Carl M. Gage, Pres. and Gen. Mgr.; Joseph Bancroft, Vice-Pres.; J. A. Pfouts, Sec. and Treas. Directors: Joseph Bancroft, Edward Bringhurst, 5th, C. D. Barney, W. K. Wetherill, C. S. Farnum, Miles White, Jr., M. W. Stroud, Lewis A. Riley, Carl M. Gage, B. F. Haywood Shreve, Edward Cadwallader, H. M. Watts, W. M. Canby. Main Office, North American Building, Phila., Pa.

Classification of Freight Tonnage (Years Ending June 30)

	1907	1908	1909	1910	1911	1912	1913	1914	1915	1916
Products of Agriculture									1.0%	.8%
Products of Animals									.2	.1
Products of Mines									74.8	74.8
Products of Forests									9.9	8.2
Manufactures									12.9	9.6
Miscellaneous									1.2	6.5

Total revenue tonnage in 1912, 1,853,439 tons; in 1913, 2,085,067 tons; in 1914, 1,823,008; in 1915, 1,489,095 tons; in 1916, 1,935,951 tons.

Comment: The operating results of this company during the year ended June 30, 1916, reflected very substantial recovery in earning power. It will be noted that there was a very distinct improvement in the average train load and although there was no change in freight rates, the train mile earnings ranged higher than in previous years. As has always been the case this company depended primarily on mining products for this tonnage. In 1916, this tonnage represented nearly 75% of the total.

* Deficit.

Note: Above figures are based on the average mileage operated for each year. Margin of safety is the proportion of surplus left over after deducting fixed charges. For example, in 1916, the "balance for charges" (per mile) was $2,825; fixed charges consumed 61% of this, or $1,717, leaving $1,108, a "margin of safety" of 39%.

Earned on preferred stock.	3.99%	.....	3.26%	2.79%	0.12%	.....	3.3%

* Deficit.

Note: "Other income" in recent years, represents chiefly rental of equipment. Fixed charges include interest on bonds and miscellaneous items. Last dividend on preferred was 7%, paid in 1908.

Profit and Loss Account, for year ended June 30, 1916: Credit balance June 30, 1915, $371,926; credit balance transferred from income, $79,764; total, $451,690. Contra: Miscellaneous debits, $113,762; credit balance carried to balance sheet, $337,928; total, $451,690.

Comment: The gross revenues of this company in 1916 were the best reported since 1910, and the net revenues were also well in excess of those reported during recent years. As outside income also underwent an advance, the total net income was well in excess of the fixed charge requirements. During the year the company reported a surplus equal to nearly 4% on its preferred stock, as compared with a small deficit during the previous year.

Comparative Condensed Balance Sheet, as of June 30

	1916	1915	1914
Assets:			
Property investment	$6,162,129	$6,343,540	$6,321,298
Working assets	213,079	276,004	306,133
Deferred debits	48,645		
Total	$6,423,853	$6,619,544	$6,627,431
Liabilities:			
Capital stock	$3,371,750	$3,371,750	$3,371,750
Funded debt	2,466,500	2,499,500	2,532,500
Working liabilities	216,585	253,522	224,879
Accrued liabilities	31,090		
Profit and loss	337,928	494,772	498,312
Total	$6,423,853	$6,619,544	$6,627,431

Comment: There were no capitalization changes of importance on this property during the year ended June 30, 1916. The company is rather heavily capitalized, but in recent years there has been no tendency toward an increase in its capitalization and the management has succeeded in reporting fair net income on net capital.

TABLE D.—Bond Record and Ratings (Based on 9-Year Results, Per Mile of Road)

Name of Issue.	Interest Payable.	Maturity.	Lien on Miles.	Outstanding per Mile.	Average Income Available.	Interest R'q'r'd per Mile of System.	Factor of Safety.	Basis for Rating. Security.	Salability.	Net Rating.
1. Huntingdon & Broad Top first 4s	A&O	O 1920	(1st) 72	$5,800	$2,670	$230	91%	High	Fair	Baa.

3. Huntingdon & Broad Top consol. 5s	A&O	Ap 1925	(3d) 72	21,000	2,230	1,040	49%	Fair	"	B.
4. Equipment trust 4½s	A&O	1917-21	(see text)	.....		109	49%	Good	"	A.

Note: "Average income available" is the average "balance for charges" (per mile) for the nine years ended June 30, 1916. Interest requirement is the current requirement. For full explanation, see Introduction. For Key to Bond Ratings, see pages 19 to 21.

REFERENCE NOTES ON BOND ISSUES

1. Auth., $500,000; outstanding, $416,000. Dated August 18, 1854; extended to October 1, 1920. Int. paid by company in Philadelphia. Coupon $500. First lien on 71.78 miles, Huntingdon to Mt. Dallas, Pa.; and branches. Listed on Philadelphia Stock Exchange. Interest paid without deduction for normal income tax.

2. Auth., $500,000; outstanding, $367,500. Dated Jan. 30, 1857; extended to Feb. 1, 1925. Int. paid by company in Philadelphia. Coupon, $500. Second lien on 71.78 miles, following No. 1. Listed on Philadelphia Stock Exchange. Interest paid without deduction for normal income tax.

3. Auth., $1,500,000; outstanding, $1,497,000. Dated March 1, 1865; extended to April 1, 1925. Int. paid by company in Philadelphia. Coupon $1,000. Third lien on 71.86 miles, following No. 2. Listed on Philadelphia Stock Exchange. Interest paid without deduction for normal income tax.

4. Series 16, 4½s; dated Oct. 1, 1906; due $17,000 each April and October to Oct. 1, 1921; originally issued $500,000; now outstanding, $170,000. Int. paid at Phila. Trust, Safe Dep. & Ins. Co. Coupon $1,000. First lien on 500 hopper gondola cars. Interest paid without deduction for normal income tax.

Capital Stock: Auth., $2,000,000 preferred and $1,550,000 common; outstanding, $2,000,000 preferred and $1,371,750 common. Preferred entitled to 7% non-cumulative. Last paid, 7% in 1908. A majority of the stock is held in a voting trust, and an agreement was entered into on Jan. 6, 1913, with a special committee, providing for the sale of a majority of the stock.

ILLINOIS CENTRAL RAILROAD COMPANY

NOTE: The analysis is based on official documents of the company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated Feb. 10, 1851, under Illinois laws. Main lines from Chicago to Cairo, and from Centralia to Dubuque, Ia., opened in September, 1856. From time to time smaller lines were acquired, including the Yazoo & Mississippi Valley, which is separately operated but controlled through the Mississippi Valley Corporation. In June, 1909, the stock of Central of Georgia Ry. was purchased, and in May, 1911, the Indianapolis Southern Ry. merged. In 1913, control of the Chicago, Memphis & Gulf Ry. was acquired.

Location: The directly operated lines of the Illinois Central R.R. consisted on June 30, 1916, of 4,773.64 miles, classified as follows: Original main lines owned, 705.50 miles; purchased lines, 1,555.15 miles; lines owned or controlled through capital stock, 2,287.83 miles; lines owned jointly with other companies 11.05 miles; lines leased, 22.43 miles; lines operated under trackage rights, 180.49 miles; other lines, 12.19 miles. Mileage chiefly in States of Illinois, Iowa, Indiana, Tennessee, and Mississippi. Population of these States in 1890, 10,987,769; in 1900, 13,131,751; in 1910, 14,546,741.

Control: The Union Pacific Railroad on June 30, 1916, owned directly $22,500,000 of the capital stock of the Illinois Central, and also owned nearly all the capital stock of the Railroad Securities Co., the latter owning $9,200,000 Illinois Central stock.

Management: OFFICERS: C. H. Markham, Pres.; W. L. Park, Vice-Pres.; F. B. Bowes, Vice-Pres.; C. F. Parker, Vice-Pres.; M. P. Blauvelt, Comptroller; D. R. Burbank, Sec.; A. J. Wykes, Treas.; T. J. Foley, Gen. Mgr. DIRECTORS: Hon. Edw. F. Dunne, Walther Luttgen, John W. Auchincloss, Robert Walton Goelet, Cornelius Vanderbilt, Chas. A. Peabody, John G. Shedd, Wm. Averell Harriman, J. Ogden Armour, Robert S. Lovett, Chas. H. Markham, H. W. DeForest, Philip Stockton. Annual meeting, third Wednesday in October. MAIN OFFICE, Chicago, Ill. NEW YORK OFFICE, 26 Liberty St.

Classification of Freight Tonnage (Years Ending June 30)

Yard tracks and sidings, June 20, 1916, 2,127 miles. Equipment bonds outstanding, $11,812,000, and maturing serially to 1926. See page 378.

Comment: During the year ended June 30, 1916, both passenger and freight density underwent substantial improvement on the Illinois Central Railroad. The freight train load and train mile earnings also advanced sharply, while there was a very pronounced increase in the total amount of tonnage transported. As usual the tonnage of this company was well diversified, the proportion of the high grade freight being well up to the average. It will be noted that in recent years products of mines has represented a larger proportion of the total business than formerly.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ended June 30.	Gross Revenues.	Maintenance. Way.	Maintenance. Equipment.	Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.
1907	$13,619	$1,602	$2,146	$3,748	$5,578	$4,293	$4,938	$507	$4,431	$1,757	60%	$2,674	$1,522

1912	12,330	1,615	2,909	4,524	5,579	2,227	3,339	564	2,775	2,047	26	728	1,606
1913	13,496	1,789	2,929	4,718	5,990	2,788	4,231	610	3,621	2,241	38	1,380	1,377
1914	13,813	1,930	3,013	4,973	5,674	3,166	4,697	701	3,996	2,290	43	1,706	1,146
1915	13,021	1,859	2,927	4,786	5,272	2,963	4,627	679	3,948	2,510	36	1,438	1,146
1916	14,486	1,994	3,471	5,465	5,269	3,752	5,769	782	4,987	2,509	50	2,478	1,146
10-Year Average	$13,226	$1,700	$2,768	$4,468	$5,381	$3,377	$4,608	$598	$4,010	$2,188	45%	$1,822	$1,448

Note: Above table is based on average mileage directly operated for each year, including leased lines and trackage rights. Margin of safety is the proportion of surplus left over after deducting all charges prior to dividends. Thus, in 1916, 50% of such income was consumed by these charges, leaving a "margin of safety" of 50%.

Comparative Income Account, Years Ended June 30

Balance	$11,654,633	$1,240,646	$2,362,583	$17,353	def. $4,245,752	$3,499,777
Earned on stock	10.80%	6.28%	7.45%	6%	3.18%	10.38%

* Dividends amounting to $5,640,190 charged in profit and loss account in 1916.

Note: "Other Income" includes interest and dividends received on investments, hire of equipment credits, and items of like nature. Fixed charges include interest on bonds, rentals of leased lines, joint facility rents, etc. Interest on funded debt in 1916 amounted to $5,536,942; lease rentals, $5,512,902; joint facility rents, $730,260.

Profit and Loss Account, year ended June 30, 1916: Credit balance on June 30, 1915, $4,814,263; credit balance transferred from income, $11,654,633; profit on road and equipment sold, $1,103; unrefundable overcharges, $33,778; donations, $7,041; miscellaneous credits, $257,254; total, $16,768,072. Contra: Dividend appropriation of surplus, $5,464,190; surplus appropriated for investment in physical property, $7,040; stock discount extinguished through surplus, $9,592; loss on retired road and equipment, $534,183; miscellaneous debits, $660,831; credit balance carried to balance sheet, $10,092,236; total, $16,768,072.

Comment: The gross revenue on this property reached the highest figures in 1916 ever reported by this company. The net receipts also were very large and the total net income was increased to a record figure. Fixed charges underwent practically no change and therefore the final balance carried forward was equal to no less than 10.8% on the outstanding stock. Since the close of the fiscal year operating revenues have continued to make steady progress.

The Illinois Central property has now completely restored its earnings to the high levels reported in the years prior to 1912, and it will be noted that in 1916 the final surplus reported after paying the much larger fixed charges than those of earlier years, wns equal to a higher percentage on its stock than in 1911.

The company has been receiving an increasing benefit in recent years from its income on investments. In 1916 its "other income" amounted to $9,620,744. A large part of this represented dividends received from the holdings in Central of Georgia Railway common nnd preferred stocks. The latter property has been steadily becoming a more valuable asset to the Illinois Central.

Note: During the year 1909 the capital stock of the Illinois Central was increased more than 10%, and a considerable addition was made to the bonded debt. The latter was represented by the issuance of $20,000,000 new refunding 4s, increased now to $32,740,000. The par value of all securities of others owned on June 30, 1916, was reported as $113,402,519. Bonds outstanding in 1916 is net amount.

Comparative Condensed Balance Sheet, as of June 30

Assets:	1916	1915	1914	1913	1912	1911

Total	$311,934,185	$315,522,729	$349,948,300	$352,995,591	$338,481,965	$330,139,534

Note: In the above table, leased line stock ($10,000,000) is included in the capital stock item of $119,296,000. Funded debt as shown for 1915 and 1916 is "net debt." Funded debt shown in above balance sheet in 1916 includes $11,079 governmental grants in aid of construction.

Comment: There were no important capitalization changes on the Illinois Central Railroad in the fiscal year 1916. As measured on the mileage basis, the net capitalization appears high, but it will be noted there has been no very great increase in the figure in the past six or seven years. The net income on net capital has been steadily maintained at a substantial total, and in the year just closed was higher than at any time since 1907. The company had no trouble in paying the 5% dividend and large earnings justified an increase in the rate to 6% shortly after the close of the fiscal year.

Other investments—notes, advances, etc	1,989,060

As deductions from liabilities:

Under common stock	10,468
Under funded debt	7,858,000

a—Pledged to secure in part Illinois Central 4% bonds of 1952.
b—Pledged to secure Illinois Central 3½% sterling bonds of 1950.
c—Pledged to secure Illinois Central Cairo Bridge bonds of 1950.
d—Pledged to secure Illinois Central 4% bonds of 1953.
e—Excludes interest on company's bonds and issues of subsidiary companies guaranteed.

Public Utilities

If you are interested in any way in the securities of Gas, Electric Light, Electric Traction, Telephone and Telegraph or Power Companies, the "Public Utilities and Industrials" Edition of "MOODY'S ANALYSES OF INVESTMENTS" will prove indispensable. This whole field is covered in the same comprehensive and accurate way that Steam Railroads are covered in the Railroad Edition. In fact, the two volumes constitute a complete Service for the Banker and Investor. Separately, the editions sell at $15 each; in combination, they are supplied at $25, when ordered in advance.

MOODY'S INVESTORS SERVICE, 35 NASSAU STREET, NEW YORK

Note: "Average income available" is the average net income per mile available for interest charges, after deducting taxes, for the ten years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Bond Ratings, see pages 19 to 21.

REFERENCE NOTES ON BOND ISSUES

1 to 6. Auth. and outstanding (No. 1), $2,500,000. Dated April 1, 1875; due April 1, 1951. Int. paid at London, England. Auth. and outstanding (No. 2), $1,000,000. Dated Feb. 16, 1876; due Dec. 1, 1950. Int. paid in New York and London, England. Auth. and outstanding (No. 3), $1,500,000. Dated Jan. 1, 1886; due Jan. 1, 1951. Int. paid at company's office, New York. Auth. (No. 4), $2,500,000; outstanding, $2,499,000. Dated Jan. 1, 1886; due Jan. 1, 1951. Int. paid at company's office, New York. Auth. and outstanding (No. 5), $2,500,000. Dated Aug. 31, 1895; due Mar. 1, 1951. Int. paid at New York and at London, England. Auth. and outstanding (No. 6) $3,000,000. Dated April 1, 1903; due April 1, 1951. Int. paid at New York and at London, England. Denominations: No. 1 and No. 2, coupon £200; Nos. 3 and 4, coupon, $1,000; No. 5, coupon £200; No. 6, coupon $1,000. All issues closed. Each issue jointly secured by the same mortgage. First lien on 705.50 miles; from Chicago, via Mattoon, to Cairo, Ill., 364.73 miles, and from Centralia Junc. to East Dubuque, Ill., 340.77 miles. Underlie Nos. 7 and 27, with provision by latter for retirement of these issues. Legal for Savings Banks in Cal., Conn., Fla., Maine, Mass., Mich., Minn., Mo., N. H., N. J., N. Y., R. I., Vt., Wis. Listed on New York and London Stock Exchanges. Normal income tax deducted from interest.

REFERENCE NOTES ON BOND ISSUES (Continued)

7. Auth., $5,352,000; outstanding, $5,266,000 (closed). Dated July 1, 1886; due July 1, 1950. Int. paid at company's office, New York, or at office of Baring Bros., London, England. Coupon and reg., $1,000 and £200. First collateral lien on an equal amount ($5,266,000) of No. 23; second lien on 705.50 miles, following Nos. 1 to 6; a second lien on the 565.09 miles covered by Nos. 23 and 24. Underlie No. 27, a sufficient amount of which is reserved to retire this issue. Legal for S. B. in Conn., Mass., N. H., N. Y., R I., Vt., Wis. Listed on London Stock Exchange. Normal income tax deducted from interest.

8. Auth. and outstanding, $2,000,000. Dated Jan. 1, 1898; due Jan. 1, 1951. Interest paid at company's office, New York. Coupon, $1,000. First lien from Gilman, *via* Laurette, to Springfield, Ill., 111.30 miles. Underlies No. 27, which provides for the retirement of these bonds. Legal for S. B. in Cal., Conn., Fla., Maine, Mass., Mich., Minn., Mo., N. H., N. J., N. Y., R. I., Vt., Wis. Listed on New York Stock Exchange. Normal income tax deducted from interest.

9. Auth., $1,000,000; outstanding, $968,000 (closed). Dated Aug. 1, 1881; due Aug. 1, 1921. Int. paid at company's office, New York. Coupon, $1,000. First lien from Otto to Normal Junc., Ill., 79.15 miles; Buckingham to Tracey, Ill., 9.51 miles; Kempton Junc. to Minonk Junc., Ill., 41.87 miles; total, 130.48 miles. Underlie No. 19 and No. 27, with provisions to retire. Legal for S. B. in Cal., Conn., Fla., Maine, Mass., Mich., Minn., Mo., N. H., N. J., N. Y., R. I., Wis. Normal income tax deducted from interest.

10. Auth. and outstanding, $15,000,000. Dated Mar. 31, 1888; due April 1, 1952. Int. paid at company's office, New York. First collateral lien on 87.89 miles from Aberdeen to Kosciusko, Miss.; on the 140.36 miles from Parsons to Jackson, with branch to Durant, Miss.; on the 130.51 miles from Champaign to Havana, with branch from White Heath to Decatur, Ill.; on the 74.43 miles from Leroy, Ill., to West Lebanon, Ind.; on the 41.85 miles from Cedar Rapids to Manchester, Ia.; on the 156.99 miles from Onawa, Ia., to Sioux Falls, S. D., and on the 231.30 miles from Chicago, Ill., to Dodgeville, Wis., and Madison, Wis.; total, 863.03 miles. Underlies No. 27 with provision to retire. Legal for S. B. in Mass., R. I., N. H. Listed on New York and London Stock Exchanges. Normal income tax deducted from interest. Coupon, $500 and $1,000; reg., $1,000 and sterling equivalents.

11. Auth. and outstanding, $3,000,000. Dated June 1, 1892; due Dec. 1, 1950. Int. paid at company's office, New York. Coupon, $1,000. First collateral lien on the bridge over the Ohio River, between Cairo Junc., Ill., and E. Cairo, Ky., and on Kentucky approach; first lien on the Illinois approach to said bridge, 1.54 miles, and upon lease of said bridge to the Illinois Central until July 1, 2282, at the annual rental of $180,000 and taxes. Underlies Nos. 27 and 28, with provision by No. 27 to retire. Legal for S.B. in Cal., Conn., Mass., N. H., N. Y., R. I., Vt. Listed on New York and London Stock Exchanges. Normal income tax deducted from interest.

12. Auth. $25,000,000; outstanding, $24,929,000. Dated, Sept. 1, 1892; due Nov. 1, 1953. Int. paid at company's office, New York. Coupon and reg., $500 and $1,000. First collateral lien on 798 miles, as follows: From Tennessee to New Orleans, La., 456.15 miles; Jackson to Natchez, Miss., 98.32 miles; Coahoma to Lamont, Miss., 75.61 miles; Moore's to Leland, Miss., 13.55 miles; Wilczinski to Riveside Junc., Miss., 42.31 miles; Trotter's Point to Eagle's Nest, Miss., 20.24 miles; Clarksdale to Minter City, Miss., 39.60 miles; Slaughter to Woodville, La., 41.60 miles; branches, 10.62 miles; practically a first coll. lien on lands in the counties of De Soto, Tunic, Quitman, Coahoma, Bolivar, Washington, Issequena, Sharkey, Warren and Tate, Miss.; first collateral lien on $9,104,000 (entire issue) Louisville, New Orleans & Texas 2d income 5s and $4,481,000 capital stock of the Louisville, New Orleans & Texas Ry. Note: Governmental grants amounting to $2,528 included in funded debt in 1916.

Bonded Debt: (1) $2,800,000 Yazoo & Miss. Valley R.R. first 5s; dated Dec. 1, 1887; due June 1, 1852; int. paid June and Dec. 1. First lien on original property. All owned by Illinois Central R.R. and pledged under its first 4s of 1952.

(2) $10,915,000 Yazoo & Miss. Valley R.R. improvement 5s. Series A to T; dated Sept. 29, 1914; due Jan., 1934; int. paid Jan. and July 1. Of outstanding issue, Illinois Central R.R. owns $10,432,000. Second lien on 485 miles, following No. 1. Rating Baa.

(3) $16,832,000 Louisv., New Orleans & Texas first 4s; dated Sept. 1, 1886; due Sept. 1, 1934; int. paid Mar. and Sept. 1. All owned by Illinois Central R.R. and pledged under its collateral 4s of 1953.

(4) $9,104,000 Louisv., New Orleans & Texas second cum. income 5s; dated Sept., 1886; due Sept. 1, 1934. All owned by Illinois Central R.R., and pledged under its collateral 4s of 1953.

(5) $6,553,277 Louisv., New Orleans & Texas land-grant income 6s; dated Sept. 1, 1884; due Sept. 1, 1934; int. payable if earned. All owned by Illinois Central R.R., and pledged under its collateral 4s of 1953.

Capital Stock: Auth., $15,000,000; outstanding, $6,012,600; par, $100. The Mississippi Valley Corporation owns 85% of the stock. No dividends have ever been paid.

Note: All of the bond issues, except a part of No. 2 (above) are owned by the Illinois Central Railroad, and 85 per cent of the outstanding stock is owned by the Mississippi Valley Corporation in the interest of the Illinois Central. All bonds owned except No. 2 are pledged directly under certain issues of the Illinois Central. No. 2 is entitled to a fair rating, in view of the extent and character of mileage covered, although it is not guaranteed by the Illinois Central R.R. Co.

Diversified Investing

Price of the Book, $2.00 per copy net

This subject is fully covered in a small volume entitled "*How to Invest Money Wisely*," by John Moody, which we have recently published. For many years Mr. Moody has made a careful study of this subject in connection with his work as an analyst and advisor for bankers, financial institutions and investors, both at home and abroad. These principles for wisely and intelligently diversifying investment capital have been adopted within the past few years by numerous institutions and several thousand individual investors with satisfaction and profit.

MOODY'S INVESTORS SERVICE, 35 NASSAU STREET, NEW YORK

CENTRAL OF GEORGIA RAILWAY COMPANY

NOTE: The analysis is based on official documents of the company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated Oct. 17, 1895, under Georgia laws, as successor to the Central Railroad and Banking Co., of Ga., the Georgia, Savannah & Atlantic Ry., the Macon & Northern Ry., the Savannah & Western R. R., the Montgomery & Eufaula Ry. and the Mobile & Girard R.R. From time to time, control of other companies has been acquired. The company also controls the Ocean Steamship Co., the New England & Savannah Steamship Co., and the Upson County R.R. It has a stock interest in the Atlanta & West Point R.R., and controls the Louisville & Wadley R.R., the Wadley Southern Ry., the Sylvania Central R.R. and the Southwestern Railroad. Has a large interest in the Wrightsville & Tennille R.R. Among the leased and directly operated lines included in the system are the Augusta & Savannah R.R. and the Chattahoochee & Gulf R.R. Co.

Location: The directly operated lines of the Central of Georgia Railway consisted, June 30, 1916, of 1,924.09 miles, of which 1,432.39 miles were owned, 477.52 miles leased, and 14.18 miles operated under traffic rights. Of the total operated, 1,340.47 miles are in Georgia, 579.55 miles in Alabama, and 4.07 miles in Tennessee. Population of Georgia and Alabama in 1890, 3,350,370; in 1900, 4,045,028; in 1910, 4,747,214.

Control: In November, 1907, control was acquired by E. H. Harriman, through purchase of entire capital stock, and in June, 1909, this stock was sold to the Illinois Central R.R. Co. In 1912, the company issued $15,000,000 preferred stock, all of which was acquired by the Illinois Central (see text).

Management: OFFICERS: C. H. Markham, Chairman; W. A. Winburn, Pres.; Alex. R. Lawton, Vice-Pres.; C. F. Parker, Vice-Pres.; Chas. F. Groves, Sec.; W. C. Askew, Treas.; W. D. Beymer, Comptroller; L. 1916	1,924	9	296	264	10,791	66	78,048	425,859	314	2.01	2.02	1.01
10-Year Average	1,917	6	314	255	10,673	65%	79,343	403,332	265	$1.98	2.15c	1.07c

Note: Of above equipment, 77 locomotives and 3,019 freight and company cars were held under equipment trusts on June 30, 1916, balance being owned.

Comment: During the fiscal year 1916 the freight revenue of the Central of Georgia Railroad underwent a substantial improvement, and was nearly as high as the figures reported for 1914. Average freight train load also reached a new high figure, while the train mile earnings were kept up to the average of former years. The tonnage was widely diversified, the proportion of high-grade freight being much better than in the previous year.

During the past decade the Central of Georgia Railway has reported only a slight increase in its directly operated mileage, while there has been practically no increase in the amount of equipment in use. It will be noted, however, that the company has steadily increased its train load, and has reported much better train mile earnings than in the early years of the decade, notwithstanding the fact that both passenger and freight rates have tended downward.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ended June 30.	Gross Revenues.	Maintenance. Way.	Maintenance. Equipment.	Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.
1907	$6,363	$832	$1,184	$2,016	$2,817	$1,530	$1,694	$226	$1,468	$1,222	16%	$236	$236

Note: In the above exhibit, the three issues of preference incomes were included in the stock column to 1912. The bonded debt column includes all the direct obligations of the company, including the equipment notes; the rental column covers the rental payments of leased lines capitalized, and the investments represent the book-value of holdings in Ocean Steamship Co. and other properties. Up to the end of 1906, the company paid the full 5% interest on the First, Second and Third Preference incomes, but in 1907 only 3½% was paid on the Seconds, and nothing on the Thirds. In June, 1911, 5% was paid on the First and Second incomes and 1.458% on the Thirds. In February, 1911, a balance of 1.271% on the Seconds, not paid in October, 1907, was paid, and also the 5% for that year on the Thirds. In June, 1911, there was paid the full 5% on the Firsts for the year 1908, 2.821% on the Seconds, and also 2.312% for each of the years 1909 and 1910, on the Firsts. In the fiscal year 1912, the company paid the full balance of deferred interest covering the years 1908, 1909 and 1910 on the three classes of incomes, and also the amount required for the fiscal year 1912, on all three classes.

In December, 1911, the Illinois Central Railroad purchased from the Central of Georgia Ry. $15,000,000 new 6% cumulative preferred stock of the latter, the proceeds of which were used to retire the three income bond issues.

An offer was then made to purchase the First Preference Incomes at 95, the Second Preference Incomes at 92½, and the Third Preference Incomes at 90. By June 30, 1912, the Illinois Central had acquired, under this plan, $14,700,700 out of $15,000,000 of the three issues. Thus, there is now outstanding on the Central of Georgia system, $15,000,000 of 6% cumulative preferred stock, in place of the three issues of income bonds.

Comparative Condensed Balance Sheet as of June 30

ASSETS:	1916	1915	1914	1913	1912	1911

* Included in "deferred debit items," if any.

Comment: The capitalization changes on the Central of Georgia were very slight during the fiscal year ended June 30, 1916. As measured on the mileage basis, the capitalization of this company is really very light, and has shown no tendency to increase in recent years. The earning power of the company has been well maintained and the net income on net capital has continuously ranged at substantial figures.

Note: "Average income available" is the average net income per mile available for interest charges, after deducting taxes, for the ten years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Bond Ratings, see pages 19 to 21.

REFERENCE NOTES ON BOND ISSUES

1. Auth. and outstanding, $7,000,000. Dated Nov. 1, 1895, due Nov. 1, 1945. Int. paid at Guaranty Trust Co., New York. Coupon and reg., $1,000. First lien from Savannah to Atlanta, Ga., with branch to Milledgeville, 311.34 miles; second collateral lien on $1,995,000 out of $2,000,000 capital stock of the Ocean S.S. Co., of Savannah. Underlie Nos. 10 and 16, with provision by latter for retirement. Listed on New York Stock Exchange. Interest paid without deduction for normal income tax.

2. Auth. and outstanding, $1,000,000. Dated Nov. 1, 1895; due Jan. 1, 1946. Int. paid at Guaranty Trust Co., New York. Coupon, $1,000. First lien from Columbus, Ga., to Andalusia, Ala., 137.96 miles, with, terminal, bridge and acreage at Columbus. Underlie Nos. 10 and 16, which provides for retirement. Listed on New York Stock Exchange. Interest paid without deduction for normal income tax.

3. Auth. and outstanding, $840,000. Dated Nov. 1, 1895; due Jan. 1, 1946. Int. paid at Guaranty Trust Co., New York. Coupon $1,000. First lien from Macon to Athens, Ga., 101.78 miles. Underlie Nos. 10 and 16, which provides for retirement. Listed on New York Stock Exchange. Interest paid without deduction for normal income tax.

4. Auth., $581,000; outstanding, $413,000 (closed). Dated Jan. 1, 1897; due Jan. 1, 1947. Int. paid at Guaranty Trust Co., New York. Coupon, $1,000. First lien, 43.57 miles, Eatonton to Covington, Ga., and second lien on 21 miles, following No. 5 (below). Underlie Nos. 10 and 16, which provides for retirement. Listed on New York Stock Exchange. Interest paid without deduction for normal income tax.

5. Auth. and outstanding, $168,000. Dated June 1, 1896; due June 1, 1926. Int. paid at Savannah Bank and Trust Co., Savannah, Ga. Coupon $500. First lien, 21 miles, Eatonton to Milledgeville, Ga. Underlie Nos. 4, 10 and 16, which provides for retirement. Interest paid without deduction for normal income tax.

6. Auth. and outstanding, $462,000. Dated June 1, 1901; due Dec. 1, 1945. Int. paid at Guaranty Trust Co., New York. Coupon, $1,000. First lien, 77.02 miles, Dover to Brewton, Ga. Underlie Nos. 10 and 16, which provides for retirement. Interest paid without deduction for normal income tax.

7. Auth., $500,000; outstanding, $343,000 (closed). Dated July 1, 1897; due July 1, 1947. Int. paid at Union Trust Co., New York. Coupon, $1,000. First lien, 136.82 miles, Chattanooga, Tenn., to Carrollton, Ga. Underlie Nos. 8, 10 and 16, which provides for retirement. Interest paid without deduction for normal income tax.

8. Auth., $2,400,000; outstanding, $2.057,000. Dated June 1, 1901; due June 1, 1951. Int. paid at Guaranty Trust Co., New York. Coupon, $1,000. First lien, 26.91 miles, from Chickamauga to Durham, Ga., and from Lyerly, Ga., to Dewey, Ala.; also second lien on 136.82 miles, following No. 7. Underlie Nos. 10 and 16, the latter providing for retirement. Listed on New York Stock Exchange. Interest paid without deduction for normal income tax.

9. Auth., $600,000; outstanding, $270,000 (closed). Dated Aug. 1, 1905; due $15,000 each Feb. and Aug. 1 to Aug. 1, 1925. Int. paid at Guaranty Trust Co., New York. Callable at 102½ on any interest date on 3 weeks' notice. First lien on 10.49 miles in Alabama, and also on 4,200 acres of coal land in St. Clair county, Ala., and on 5.000 acres of coal and mineral rights. Underlie Nos. 10 and 16, with provision by latter for retirement. Coupon, $1,000. Interest paid without deduction for normal income tax.

10. Auth. and outstanding, $18,500,000. Dated Nov. 1, 1895; due Nov. 1, 1945. Int. paid at Guaranty Trust Co., New York. First lien on 595.87 miles, as follows: Savannah to Tybee, Ga., 17.72 miles; Meldrim to Lyons, Ga., 58.09 miles; Griffins to Carrollton, Ga., 60 miles; Americus, *via* Columbus, to Greenville, Ga., and Birmingham, Ala., 266.39 miles; Opelika to Roanoke, Ala., 36.12 miles; Montgomery, *via* Eufaula, to Ozark, Ala., 139.65 miles; smaller branches 1.67 miles; Thomaston to Barnesville, Ga., 16.25 miles; also a second lien on 555.13 miles, following Nos. 1, 2, 3 and 16; also a third lien on 181.66 miles, following No. 16, being the mileage covered by Nos. 4, 6, 8, 9 and 12 by first lien; fourth lien on 157.82 miles covered by first lien of Nos. 5 and 7; also a first collateral lien on certain stocks held of the Atlanta & West Point R.R., Savannah & Ogeechee Canal Co., Southwestern R.R. Co., Wrightsville & Tennille R.R. Co., Louisville & Wadley R.R. Co., $500,000 Ocean S.S. cert. of indebt. and $30,000 bonds of Talbotton R.R.; a second collateral lien on certain of the stock of the Atlanta & West Point R.R. Co., half of the stock of Western Ry. of Alabama. and $1,589,000 Charleston & West. Car. Ry. income bonds, a third collateral lien on practically all the stock of the Ocean Steamship Co. Underlie No. 16, which provides for retirement. Listed on New York and Richmond Stock Exchanges. Interest paid without deduction for normal income tax. Coupon and reg., $1,000.

11. Auth., $5.000,000; outstanding, $4,840,000 (closed). Dated May 2, 1887; due May 1, 1937. Int. paid at Guaranty Trust Co., New York. Callable at 110 on six months' notice. First collateral lien on $1,995,000 (out of $2,000.000) stock of Ocean Steamship Co., $1,500,000 stock of Western Ry. of Alabama, $145,400 stock of Atlanta & West Point R.R. and $1,589,000 1st cons. mtge. bonds of Charleston & Western Carolina Ry. On this collateral they underlie the lien of Nos. 1 and 10. Listed on New York Stock Exchange. Normal income tax deducted from interest. Coupon, $1,000.

12. Auth., $600,000; outstanding, $270.000 (closed). Dated Sept. 1, 1905; due $15,000 on each March and Sept. 1, to Sept. 1, 1925. Int. paid at Guaranty Trust Co., New York. Coupon $1.000. Callable at 102½ on three weeks' notice. First lien, 23.67 miles, Greenville, to Raymond, Ga. Underlie Nos. 10 and 16, with provision by latter for retirement. Int. paid without deduction for normal income tax.

13. Auth. and outstanding, $1,000,000. Dated July 1, 1890; due July 1, 1920. Int. paid at Guaranty Trust Co., New York. Coupon $1,000. First lien on certain steamships of the company, and on 297 acres of land near Savannah, Ga. Normal income tax deducted from interest.

14. Auth., $2.000,000; outstanding, $242,000; retired by sinking fund, $165.000. Dated July 2, 1900; due July 1, 1930. Int. paid January and July at Citizens' Bank of Savannah. Coupon $1,000. Callable at 102½ on January 1 of any year. Company is leased to Central of Ga., at 6% on cost until bonds are paid off. First lien, 91.47 miles, Columbia to Lockhart, Ala. Legal for S. B. in Mich., Minn., N. J., Wis. Interest paid without deduction for normal income tax.

15. In two series, as follows: Series K, dated March 1 1907; due March 1, 1917 ($38,000 semi-annually). Int. paid March and September. at 5%. Now outstanding, $38,000. Series L, 4½s; dated Jan. 3, 1916; due $50.000 each J. and J. to Jan. 1, 1926; now outstanding, $900,000. Interest paid without deduction for normal income tax.

16. Auth., $80,000.000; outstanding, $6,637,000, of which $122.000 only had been sold June 30, 1916. In addition, $1,324.000 are deposited with trustee for authentication on request; making $7,839.000 available for the company's uses; dated Oct. 1, 1912; due Oct. 1, 1962. Interest paid in New York. Coupon and reg., $1.000. Direct lien on all property of company, subject to all prior liens, for the retirement of which provision is made, being a first lien on 4.05

miles, from Covington to Porterdale, Ga.; second lien on 777.53 miles, following Nos. 4, 6, 8, 9, 10 and 12; also third lien on 708.90 miles, following No. 4 as to 21 miles, No. 8 as to 136.82 miles and No. 10 as to 551.08 miles. Those issued are designated Series A, and are subject to call at 110 and interest as a whole. Further series may be issued at lower rates of interest. Interest paid without deduction for normal income tax.

Preference Incomes: On June 30, 1916, there were still outstanding $146,500 first preference incomes, $104,800 second preference incomes and $48,000 third preference incomes. These have a claim on income prior to the preferred stock and interest is being paid at the rate of 5% per annum. They are a mortgage on the entire property prior to No. 16.

TABLE E.—Stock Record and Ratings (Based on 10-Year Results, Per Mile of Road)

Name and Details of Issue.	Rate and Date Dividends.	Amount Outstanding per Mile.	Average Income Available per Mile.	Dividend Required per Mile of System.	Factor of Safety.	Basis for Rating.		Net Rating.
						Equity.	Salability.

5. Central of Georgia Ry. com. stock. Par $100.	5%	2,605	111	130	....	Moderate	....	Ba.

Note: "Average income available" on stock issues is the average surplus, after deducting all fixed and other charges, for the ten years ending June 30, 1916. "Dividend requirement" is the requirement, at the current rate, on the present amount outstanding. For Key to Ratings, see pages 21 to 23.

REFERENCE NOTES ON STOCK ISSUES

1. Road leased to Central of Ga. Ry. until 1994, at rental of 5% per annum on stock. For full details see below.

2. Road leased to Central of Ga., at rental equaling 6% on cost of road. After payment of bond interest and 5% on stock, balance of rentals available for retiring bonds. For full details, see below.

3. Road leased to Central of Ga. Ry. until 1995, at rental equaling 5% per annum on stock. For full details see following pages.

4. Auth. and outstanding, $15,000,000. Entire issue is now owned by Illinois Central Railroad. Issue is 6% cumulative preferred stock, which was sold to the Illinois Central R.R. at par. First dividend, 3% paid Jan., 1913, and semi-annually since at full rate of 6% per annum.

5. Auth. and outstanding, $5,000,000. All owned by Illinois Central Railroad. The first annual dividend of 5% was paid Aug., 1913, which rate has been maintained since.

COMPANIES CONTROLLED BY CENTRAL OF GEORGIA RAILWAY COMPANY

AUGUSTA AND SAVANNAH RAILROAD

Incorporated under Georgia laws Dec. 31, 1838; first operated in 1854. Line of road: Millen to Augusta, Ga., 53.21 miles. Sidings, 17.99 miles. Leased to Central of Georgia Ry. for 101 years, from Nov. 1, 1895, with right of indefinite renewal. Rental, 5% on stock and $2,000 per annum for organization expenses. Directly operated by lessee.

Management: Officers: Malcolm Maclean, Pres.; G. J. Mills, Vice-Pres.; J. Sullivan Bond, Sec. and Treas. Annual meeting, first Monday in January. Office, Savannah, Ga.

Capital Stock: Auth. and outstanding, $1,022,900; par $100. Dividends 5% per annum paid J. and J. 5, and guaranteed by Central of Georgia Ry. No bonded debt. For rating, see Central of Georgia guaranteed-stock table above.

CHATTAHOOCHEE AND GULF RAILROAD

Incorporated under laws of Alabama, July 7, 1899. Line of road, Columbia to Lockhart, Ga., 91.47 miles. Leased in perpetuity to Central of Georgia Ry. from July 2, 1900, rental being 6% on cost of road, until bonded debt is retired; after retirement of debt, stock is to receive 5% per annum. During life of bonds, after payment of interest and 5% dividends, balance of rental is used as sinking fund on bonds.

Management: Officers: E. T. Comer, Pres.; John D. Comer, Vice-Pres.; S. B. Adams, Vice-Pres.; H. W. Johnson, Sec. and Treas. Annual meeting, second Wednesday in January. Office, Savannah, Ga.

Bonded Debt: $242,000 Chattahoochee & Gulf R.R. first 5s; dated July 1, 1900; due July 1, 1930; int. paid J. and J. 1 at Citizens' Bank of Savannah. Coupon, $1,000. Callable for sinking fund at 102½. Guar. under lease by Central of Georgia Ry. Auth. issue, $2,000,000. Sinking fund is 1% per annum on $436,400 stock and outstanding bonds. There are now $135,000 of latter in fund. For rating, see Central of Georgia Ry. Bond Table, page 387.

Capital Stock: Auth. and Issued, $435,900; par $100. Divs. J. and J. 1, at 5% per annum guar. under lease by Central of Georgia Ry. For rating, see Central of Georgia stock table above.

LOUISVILLE & WADLEY RAILROAD

Incorporated under Georgia laws, Aug. 14, 1879. Line of road, Wadley to Louisville, Ga., 10 miles. Sidings, 1.16 miles. Controlled by Central of Georgia Ry. through stock ownership, but separately operated. 1 Locomotive, 2 Cars.

Management: OFFICERS: J. C. Little, Pres.; A. R. Lawton, Vice-Pres.; C. F. Groves, Sec.; W. C. Askew, Treas.; T. T. Holloman, G. Supt.; W. D. Beymer, Aud. DIRECTORS: W. L. Phillips, L. R. Farmer, S. M. Clark, A. P. Little, J. C. Little, A. R. Lawton, S. C. Evans, Jr. Annual meeting, third Monday in Oct. OFFICE, Savannah, Ga.

Total	$114,656	$116,703	$123,081	$115,763	$103,160	$97,154

Capital Stock: Auth. and issued, $29,000 preferred and $50,400 common; par $100. Central of Georgia Ry. owns all the preferred and $38,900 common. Dividends of 6% per annum have been paid on preferred since 1911, payments A. and O. 1. No bonded debt, former bonds having been retired in 1910 by issue of preferred stock.

SOUTHWESTERN RAILROAD

Origin: Incorporated under laws of Georgia and Alabama, Feb. 10, 1848; in 1868 merged the Muscogee R.R. Line of road: Macon, Ga., to Eufaula, Ala., 143.6 miles; Fort Valley to Perry, 12.73 miles; Fort Valley to Columbus, Ga., 71 miles; Cuthbert to Fort Gaines, 20.5 miles; Smithville, Ga., to Columbia, Ala., 85.01 miles; total operated, 332.84 miles. Sidings, 110.14 miles. Leased to Central of Georgia Ry. for 101 years from Oct. 17, 1895, rental being 5% on stock and $2,500 per annum for organization expenses. Directly operated by lessee.

Management: OFFICERS: J. F. Minis, Pres.; W. R. Cox, Vice-Pres.; G. I. Hardeman, Treas., John M. Walker, Sec. Annual meeting, second Tuesday in February. OFFICE, Macon, Ga.

Income: As the property is leased and directly operated by the Central of Georgia Railway Co., no separate statement of earnings is available. The road is evidently a substantial carrier, however, as its mileage penetrates some well populated and fertile territory. Capitalized at less than $16,000 per mile. Reserve fund invested in State and Municipal bonds, $157,628.

Capital Stock: Auth., $6,000,000; outstanding, $5,191,100; par, $100. Dividends, 5% per annum, paid J. and J. 5, and guaranteed by Central of Georgia Ry. No bonded or other debt. For rating, see Central of Georgia guaranteed-stock table, page 389.

WADLEY SOUTHERN RAILWAY

Incorporated July 1, 1906, under laws of Georgia, as a consolidation of the Stillmore Air Line Ry., and the Wadley & Mount Vernon R.R. Line of road: Wadley to Rockledge, and to Collins, Ga., 88.74 miles. Sidings, 6.86 miles. Equipment: Locomotives, 5; cars, 16.

Management: OFFICERS: W. A. Winburn, Pres.; H. P. Smart, Vice-Pres.; W. C. Askew, Treas.; J. G. Corbett, Sec. DIRECTORS: H. P. Smart, W. A. Winburn, A. R. Lawton, G. F. Flanders, W. J. Kincaid, W. D. Evans, Frank Mitchell, W. J. Evans, J. C. Coleman, Brooks Simmons, H. R. Smith. Annual meeting, second Monday in Oct. OFFICE, Savannah, Ga.

TABLE D.—Bond Record and Ratings (Based on 7-Year Results, Per Mile of Road)

NAME OF ISSUE.	Interest Payable.	Maturity.	Lien on Miles.	Outstanding per Mile.	Average Income Available.	Interest R'q'r'd per Mile of System.	Factor of Safety.	BASIS FOR RATING.		Net Rating.
								Security.	Salability.	
1. Wrightsville & Tennille R. R. Co. first mtge. gold 5s...	J&J	Ja 1958	(1st) 103	$1,941	$646	$97	85%	High	Fair	A.

Note: Average income available is the annual average per mile of the surplus available for charges, after average allowance for taxes. Although the company has made a relatively poor showing during the past two years, the bonded debt is very light and therefore the issue is still entitled to a strong rating. For Key to Ratings, see pages 19-21.

1. Auth., $250,000; outstanding, $200,000. Dated Oct. 1, 1907; due Jan. 1, 1958. Int. paid at Tennille, Ga. Coupon, $1,000. Registerable as to principal. Registered, $1,000. Interchangeable. Redeemable at 102½ and interest on any interest date after Oct. 1, 1912, upon four weeks' notice. Sinking Fund: $5,000 per annum, beginning 1912. First lien from Tennille to Hawkinsville, Ga., 74.28 miles; Dublin to Eastman, Ga., 28.54 miles; total, 102.82 miles. Legal for S. B. in Mich., Minn., N. H., N. J., R. I., Wis. Normal income tax deducted from interest.

Capital Stock: Outstanding, $70,000 6% non-cumulative preferred and $530,000 common. Par, $25. Dividends paid in recent years on both preferred and common: 1905, 12%; 1906, 11%; 1907, 11%; 1908 to 1914, 6% each; 1915, 3%; Jan., 1916, 3%. The Central of Georgia owns all the preferred stock, and $278,575 of the common.

INTERNATIONAL & GREAT NORTHERN RAILWAY COMPANY

NOTE: The analysis is based on official documents of the company, including its annual reports of the past nine years
For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated Aug. 10, 1911, under Texas laws as successor of the International & Great Northern Railroad, which was sold under foreclosure of its second mortgage. The company is controlled by the International & Great Northern Corporation, a holding company organized under Virginia laws in November, 1911, and which owns the common stock of the railway company.

Location: The lines operated consist of 1,159.5 miles, of which 1,106 are owned and 53.5 operated under traffic rights all in the State of Texas. Main line extends, from Longview Junc. to Laredo; other divisions extend from Palestine to Houston, Soring to Fort Worth, Troupe to Mineola, while branches enter Austin, Madisonville, etc. By traffic rights, the lines operate into Galveston.

Receivership: On Aug. 10, 1914, Judge Burns, in the United States Court at Houston, Tex., appointed James A. Baker, of Houston, Tex., and Cecil A. Lyon, of Sherman, Tex., as receivers of this company at the instance of the protective committee, which endeavored to arrange for an extension of the 5% notes due Aug. 1, 1914; both the principal and interest then due having defaulted.

Protective Committee for Gold Notes: Alexander J. Hemphill, Chairman; Franklin Q. Brown, Willard V. King, Alvin W. Krech, Edwin G. Merrill, Frederick Strauss, Benjamin Strong, Jr., S. H. Voorhees, R. Lancaster Williams, William J. Cox, secretary, 140 Broadway, New York, N. Y. Depositary, Guaranty Trust Co., New York, N. Y. A large majority of the notes have been deposited under the agreement to date.

Management: OFFICERS: Jas. A. Baker, Rec.; Thornwell Fay, Asst. to Rec.; Thos. J. Freeman, Pres.; Geo. H. Taylor, First Vice-Pres.; A. G. Whittington, Second Vice-Pres. and Gen. Manager; A. R. Howard, Sec. and Treas. DIRECTORS: T. J. Freeman, A. R. Howard, A. G. Whittington, Walter K. Morrow, Jesse H. Jones, Fred W. Cook, Kingdon Gould, Frank J. Gould, R. Lancaster Williams. MAIN OFFICE, Houston, Texas. Annual Meeting, first Monday in November. NEW YORK OFFICE, 165 Broadway.

Classification of Freight Tonnage (Years Ending June 30)

	1907	1908	1909	1910	1911	1912	1913	1914	1915	1916

* Nine and one-half months only, Sept. 15, 1911, to June 30, 1912.

Yard tracks and sidings, June 30, 1916, 320.78 miles.

Comment: During the fiscal year ended June 30, 1916, the tonnage on this property underwent some improvement as compared with previous years, and the train load was also increased to a better figure. Train mile earnings underwent very little improvement, however, and continue to range at figures shown for recent years. This company's traffic seems quite well diversified and the proportion of high grade freight is up to the recent average.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ended June 30.	Gross Revenues.	Maintenance. Way.	Maintenance. Equipment.	Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.

Divldend on pfd	.....	.....	.....	136,000	.....	.....
Balance	def.$293,070	def.$1,121,397	def.$448,896	$187,518	.....	.....

Profit and Loss Account, year ended June 30, 1916: Unrefundable overcharges, $9,915; donations, $11,032; miscellaneous credits, $8,212; debit balance carried to balance sheet, $1,016,480; total, $1,045,639. Contra: Debit balance, June 30, 1915, $723,802; debit balance transferred from income, $293,070; miscellaneous appropriations of surplus, $1,573; loss on retired road and equipment, $5,597; miscellaneous debits, $21,597; total, $1,045,639.

Note: The above income statement for 1915 is that of the company, and includes all the fixed charges, whether paid or unpaid. Actually, the receiver did not pay the bond interest of $842,482, which is included in above fixed charges. In 1916, interest on funded debt accrued, amounted to $813,612, of which $743,220 was paid. No interest was paid on the refunding 5s.

Comment: While the income figures of the International Great Northern are still well below those reported a few years ago, yet in 1916 they reflect improvement as compared with results of 1915. Curtailment of operating costs in 1916 resulted in a very substantial improvement in net income, and although the heavy fixed charges were not covered, the final deficit was much smaller than that reported during the past two years. This property is now in receiver's hands and must undergo reorganization. With a radical cutting down of fixed charges, it is probable that the credit of the company can be promptly restored.

Comparative Condensed Balance Sheet, as of June 30

ASSETS:	1916	1915	1914	1913	1912	1911

Note: "Average income available" is the average net income per mile available for interest charges, after deducting taxes, for the nine years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Bond Ratings, see pages 19 to 21.

REFERENCE NOTES ON BOND ISSUES

1. Auth. for each mile of completed road constructed or acquired, $10,000; outstanding, $11,290,500 (closed). Dated Nov. 1, 1879; due Nov. 1, 1919. Int. paid at Equitable Trust Co., New York. First lien on 1,106 miles, as follows: Longview Junc. to Laredo, Tex., 493.90 miles; Palestine to Houston, Tex., 150.70 miles; Spring to Texas & Pacific Ry. connection; Ft. Worth, Tex., 271.80 miles; Troupe to Mineola, Tex., 44.40 miles; Navasota to Madisonville, Tex., 44.70 miles. Houston to East Columbia, Tex., 50 miles; Houston to Buffalo Bayou, Tex., 10.20 miles; various tracks and spurs. Underlies No. 4 with provision to retire. Listed on New York Stock Exchange. Normal income tax deducted from interest. Coupon, $500 and $1,000.

2. Auth., $1,400,000; outstanding, $800,000; in treasury, $600,000. Dated May 1, 1916; due May 1, 1917. Of this issue $700,000 were sold to retire a like amount of receiver's certificates, due May 1, 1916, and balance were sold to provide funds for betterments and improvements. Additional amounts will be sold from those in treasury as funds are needed for additions and betterments. The certificates are prior in position to Nos. 3 and 4, but not prior to Nos. 1, 5 or 6.

3. Auth. and outstanding, $11,000,000. Dated Aug. 1, 1911; due Aug. 1, 1914. Int. paid at New York. Callable at 101 and int. on 30 days' notice. Not a mortgage. Secured by pledge of $13,750,000 of No. 4, and subject to Nos. 1 and 2. In default since Aug. 1, 1914. Listed on New York Stock Exchange.

REFERENCE NOTES ON BOND ISSUES (Continued)

4. Auth., $50,000,000; outstanding, $1,108,000; $13,750,000 additional pledged as security for No. 3 (above). Dated Aug. 1, 1911; due Aug. 1, 1941. Int. paid at Equitable Trust Co., New York. The issue is subject to Nos. 2, 5 and 6, following No. 1 as a second lien on the entire property. Interest paid without deduction for normal income tax. In default since Aug. 1, 1914. Coupon and reg., $500 and $1,000.

5. Auth., $225,000; outstanding, $198,000. Dated June 1, 1880; due May 1, 1920. Int. paid at Farmers' Loan & Trust Co., New York. First lien on bridge over Colorado River at Austin, Tex. Assumed. Sinking fund, $2,000 per annum. Normal income tax deducted from interest. Coupon, $1,000.

6. Outstanding, $700,000; dated Aug. 1, 1913; due $50,000 s.a. from Feb. 1, 1914, to Aug. 1, 1923. Int. paid F. & A. 1, at Blair & Co., New York. First lien on equipment costing $1,245,580. Interest paid without deduction for normal income tax.

Note: There are also outstanding, $95,000 receivers' equipment notes of 1908, due $19,000 each April and October to Oct. 1, 1918, and $738,000 dated Jan. 1, 1916, due $39,000 each January and July.

Capital Stock: Auth., $5,000,000 5% non-cumulative preferred, and $6,500,000 common; outstanding, $3,400,000 preferred and $1,422,000 common; par $100. The preferred has preference as to assets and to 5% dividends, after which common stock is to receive 5%, but is to share with preferred in any further dividends. First dividend on preferred, 1% on Aug. 1, 1912; also 4% on Jan. 2, 1913, making 5% for fiscal year. None since. TRANSFER OFFICE, Houston, Tex.

THE KANSAS CITY SOUTHERN RAILWAY COMPANY

NOTE: The analysis is based on official documents of the company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated March 19, 1900, under Missouri laws, as successor to the Kansas City, Pittsburg & Gulf Ry. which was sold under foreclosure. The Texas lines are owned by the Texarkana & Fort Smith Ry. Co., and those in Louisiana, exclusive of the Shreveport Depot property, are owned by the Kansas City, Shreveport & Gulf Ry. The Texas lines are operated separately, in accordance with Texas laws, but results are reported as a whole by the controlling company. The company owns a fourth interest in the Joplin Union Depot Co., of Joplin, Mo., and a proprietary interest in the Kansas City Terminal Ry. Also owns the Kansas City Southern Elevator Co., and a three-quarter interest in the Glen-Pool Tank Line Co.

Location: The directly operated lines of the company consisted, June 30, 1916, of 840.86 miles, as follows: Kansas City to Belt Junc., Mo., and Grandview, Mo., to Port Arthur, Tex., 777.13 miles; branches, 45.86 miles; trackage rights, 17.86 miles. Lines mainly in Missouri, Arkansas and Louisiana. Population of these States in 1890, 4,925,950; in 1900, 5,799,854; in 1910, 6,524,172.

In addition to its directly operated lines, the Kansas City Southern Railway controls the Arkansas Western Ry., operating 32.33 miles from Heavener, Okla., to Waldron, Ark.; Port Arthur Canal & Dock Co.; Poteau Valley R.R., 6.59 miles; Kansas City, Shreveport & Gulf Terminal Co., K. C. So. Elevator Co.; and Mena Land & Improvement Co. All the securities of the latter companies are owned, also 75% of the stock of the Glen-Pool Tank Line Co.

Management: OFFICERS: L. F. Loree, Chairman; J. A. Edson, Pres.; J. F. Holden, Vice-Pres. in charge of Traffic, R. J. McCarty, Vice-Pres., in charge of accounts; J. Sorensen, Vice-Pres. and Asst. Treas.; G. C. Hand, Sec.; H. Visscher, Treas. DIRECTORS: L. F. Loree, Hermann Sielcken, Walter T. Rosen, A. J. Miller, James A. Blair, John J. Mitchell, S. W. Fordyce, J. A. Edson, W. G. Street, W. H. Williams, Samuel McRoberts, Arthur Turnbull, Edward F. Swinney, B. S. Guinness, J. F. Stillman. Annual Meeting, second Tuesday in May. MAIN OFFICE, Kansas City, Mo. NEW YORK OFFICE, 25 Broad Street.

Classification of Freight Tonnage (Years Ending June 30)

	1907	1908	1909	1910	1911	1912	1913	1914	1915	1916
Products of Agriculture									20.81%	12.46%
Products of Animals									1.64	1.75
Products of Mines									22.78	26.22
Products of Forests									27.22	29.60
Manufactures									19.58	21.41
Miscellaneous									7.97	8.56

Note: This company does not furnish any table showing the characteristics of the freight tonnage, but it is well known as a transporter of agricultural products, mining products, petroleum, etc., as well as diversified manufactures. In the past two years the petroleum tonnage has tended to decline, and that of manufactures and miscellaneous commodities to increase. The figures for 1915 and 1916 above are those filed with the Interstate Commerce Commission.

Total revenue tonnage, years ended June 30, 1915, 3,921,723 tons; 1916, 4,105,929 tons.

SUPPLEMENTARY SERVICE Users of this book should not overlook our Supplementary Investors Service. For a moderate annual fee we undertake to keep investors in the above and all other securities constantly up to date. Send for full details.

Yard tracks and sidings, June 30, 1916, 421 miles. Of the total average mileage operated, as shown above, 777 miles is "main" line, the branches of the system representing a nominal amount only.

Comment: During the fiscal year 1916, the Kansas City Southern maintained its passenger and freight density at recent high totals, and reported a further improvement in its average freight train load. Train mile earnings were also considerably better than in previous years. The tonnage it will be noted is diversified and the company does not depend primarily on any particular type of tonnage for its business.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ended June 30.	Gross Revenues.	Maintenance.		Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.

1916.....	12,639	1,352	1,526	2,878	4,722	5,039	5,373	672	4,701	2,632	44	2,069	1,004
10-Year Average	$11,747	$1,223	$1,488	$2,711	$4,727	$4,309	$4,507	$491	$4,016	$2,059	48%	$1,957	$1,013

Note: Above table is based on average mileage directly operated for each year, including trackage rights, etc. Margin of safety is the proportion of surplus left over after deducting fixed charges. For example, in 1916, the "balance for charges" (per mile) was $4,701; fixed charges consumed $2,632, or 56% of this, leaving $2,069, a "margin of safety" of 44%.

Note: Fixed charges consist of interest on bonds and on equipment trusts, rents, hire of equipment.

Profit and Loss Account, year ended June 30, 1916: Credit balance June 30, 1915, $5,888,833; credit balance transferred from income account, $891,716; profit on road and equipment sold, $1,597; unrefundable overcharges, $551; donations, $9,761; miscellaneous credits, $5,193; total, $6,794,651. Contra: Debt discount extinguished through surplus, $92,487; loss on retired road and equipment, $115,451; delayed income debits, $3,551; miscellaneous debits, $530,753; total, $6,794,651.

Comment: Gross revenues improved moderately on the Kansas City Southern in the year 1916, but as operating costs were held down, the improvement in net receipts was much heavier. After providing for enlarged fixed charges, the surplus left over was equal to no less than 8¼% on the outstanding preferred stock. Since the close of the fiscal year the company has continued to report continued progress in its earning power.

Note: Bonded debt was increased in 1910 and 1911 by issue of $15,000,000 new refunding 5s (see Table D). Stock outstanding remains the same. While the Kansas City Southern Railway is practically one operating whole, there are several separately operated subsidiary companies, including the Arkansas Western Ry., Kansas City, Shreveport & Gulf Terminal Co., Port Arthur Canal & Dock Co. The securities of these subsidiarie are all owned by the parent company.

Comparative Condensed Balance Sheet, as of June 30

Assets:	1916	1915	1914	1913	1912	1911

Total	$110,292,095	$108,589,661	$107,735,056	$106,964,367	$104,006,923	$104,227,094

Comment: There were no important capitalization changes in this property during the year ended June 30, 1916. As measured on the mileage basis, the capitalization of this property appears very heavy, but the fixed charges are relatively light because of the fact that the chief bond issue carries an interest rate of only 3%. It will be noted that during the past ten years net income on net capital has remained very stable, and has fully justified the disbursement of the 4% dividend on the preferred stock.

TABLE D.—Bond Record and Ratings (Based on 10-Year Results, Per Mile of Road)

Name of Issue.	Interest Payable.	Maturity.	Lien on Miles.	Outstanding per Mile.	Average Income Available.	Interest R'q'r'd per Mile of System.	Factor of Safety.	Basis for Rating. Security.	Salability.	Net Rating.
1. Kansas City Southern first 3s	A&O	Ap 1950	(1st) 823	$36,452	$4,016	$1,070	74%	High	Very high	Aaa.
2. Kan. C. So. ref. & imp. 5s	J&J	Ap 1950	(2d) 823	21,871	2,946	1,070	62%	"	High	A.
3. Kansas City So. Equip. notes	Var.	(see text)	(Equip.)	.....		59	62%	"	"	Aa.

For Reference Notes on Bond Issues, see next page.

Note: "Average inocme available" is the averge net income per mile available for interest charges, after deducting taxes, for the ten years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Ratings, see pages 19 to 21.

REFERENCE NOTES ON BOND ISSUES

1. Auth. and outstanding, $30,000,000. Dated April 2, 1900; due April 1, 1950. Int. paid at New York Trust Co. Coupon and reg., $1,000. First lien or first collateral lien, about 822.99 miles, covering main line from Kansas City to Port Arthur, Tex., with branches. Also on the stock of the Kansas City, Shreveport & Gulf Terminal Co., and on the stocks and bonds of the Port Arthur Canal & Dock Co., etc. Underlie No. 2. Legal for Savings Banks in Maine, Mo., R. I. Listed on New York and London Stock Exchanges. Interest paid without deduction for normal income tax.

2. Auth., $21,000,000; outstanding, $18,000,000. Dated July 1, 1909; due April 1, 1950; int. paid at New York Trust Co. Coupon, $1,000; reg., $1,000 and $5,000. Callable as a whole only at 105 on 60 days' notice. Secured subject to No. 1, on same property. Also a first lien on entire stock of Arkansas & Western Ry., the Maywood & Sugar Creek Ry. and the Hot Springs, Ouachita & Mena Ry. Callable at 105 and int. on any interest date, on sixty days' notice. Listed on New York and London Stock Exchanges. Interest paid without deduction for normal income tax.

3. Series D, 5s; dated Dec. 15, 1912; due $62,000 each June and Dec. 15 to Dec. 15, 1924; originally authorized $1,488,000; now outstanding, $992,000. Coupon, $1,000. Int. June and Dec. 15 at Blair & Co., New York. First lien on equipment costing $1,758,993. Interest paid without deduction for normal income tax.

LEHIGH AND HUDSON RIVER RAILWAY COMPANY

NOTE: The analysis is based on official documents of the Company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated April 1, 1882, under New York and New Jersey laws. In 1907, the Orange County R.R. was absorbed. The South Easton & Phillipsburg R.R., which owned the line from South Easton to Phillipsburg, and the Mine Hill R.R., were merged in 1912.

Location: Main line extends from Belvidere N. J., to Maybrook, N. Y., with trackage rights giving entry to Phillipsburg and Port Morris, N. J., total, 96.60 miles. At Maybrook, connection is made with the Central New England Ry. Mileage mainly in New Jersey. Population of this State in 1890, 1,444,938; in 1900, 1,883,669; in 1910, 2,537,167.

Control: The property is affiliated with the anthracite-coal railway interests, a portion of its general-mortgage bonds being guaranteed jointly by the Central R.R. of N. J. and the Lehigh Coal and Navigation Co., the latter owning directly or controlling through a trusteeship, $450,000, while the Central R.R. of N. J., the D. L. & W. R.R., the Erie R.R., the Lehigh Valley R.R. and the Pennsylvania R.R. each own a little over $163,000 of the stock.

Management: OFFICERS: Lewis A. Riley, Pres.; Morris Rutherfurd, Vice-Pres. and Gen. Mgr.; John Sayer, Sec. and Treas. DIRECTORS: Robert W. deForest, John J. Beattie, Edwd. T. Stotesbury, Lewis A. Riley, Morris Rutherfurd, Eben B. Thomas, W. H. Truesdale, F. D. Underwood, R. H. Wilbur, Wm. G. Besler, Geo. D. Dixon, Geo. H. Frazier, Saml. D. Warriner. Annual meeting, first Tuesday in December. MAIN OFFICE, Warwick, New York. PHILADELPHIA OFFICE, 437 Chestnut Street.

Classification of Freight Tonnage (Years Ending June 30)

10-Year Average	97	....	44	11	798	93%	26,656	2,613,263	490	$2.25	2.32c	.57c

Yard tracks and sidings, 51.57 miles.

Comment: The volume of freight density on this property underwent a further increase during the year ended June 30, 1916, while the average train load was raised to a new high figure. Train mile earnings were also considerably better than in the previous year. The freight tonnage of this company is largely represented by mining products, but high grade freight represents a substantial proportion of the total business done.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ended June 30.	Gross Revenues	Maintenance. Way.	Maintenance. Equipment.	Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.
1907	$8,741	$1,010	$466	$1,476	$4,115	$3,150	$3,244	$239	$3,005	$2,558	15%	$447	.....

Total	$7,044,860	$6,419,550	$6,738,013	$6,652,533	$6,382,579	$6,201,262

Comment: There were practically no capitalization changes on this property for the year ended June 30, 1916. For an Eastern property of its freight density, this road is very lightly capitalized and in recent years there has been no tendency toward an increase in capitalization. It will be noted that net income on net capitalization has always ranged high and in recent years has steadily tended toward an increase. For the year just closed the percentage was no less than 20%.

During the past ten years the Lehigh & Hudson River Railway has presented a very remarkable exhibit in view of the fact that with an unusual ratio of increase in the volume and density of its business it has made no capital increases whatever. Many other roads have shown similar progress in developing freight density and train load, but few have at the same time kept their capitalization figures down as has this property.

TABLE D.—Bond Record and Ratings (Based on 10-Year Results, Per Mile of Road)

* For guaranteed bonds

Note: "Average income available" is the average net income available per mile for interest charges, after deducting taxes, for the ten years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Bond Ratings, see pages 19 to 21.

REFERENCE NOTES ON BOND ISSUES

1. Auth., $500,000; outstanding, $164,000 (closed). Dated July 1, 1887; due July 1, 1917. Int. paid at Irving National Bank, New York, and in Warwick, N. Y. Coupon, $1,000. Now a first lien on 63.2 miles from Belvidere, N. J., to Greycourt, N. Y. Underlie No. 2, which provide for retirement. Interest paid without deduction for normal income tax.

2. Auth., $3,000,000; outstanding, $2,587,000. Dated Jan. 1, 1890; due July 1, 1920. Int. paid at Irving Exchange Bank, New York, or at First National Bank, Warwick, N. Y. Coupon, $1,000. $1,062,000 of the outstanding bonds are guaranteed jointly and severally as to prin. and int. by the Lehigh Coal & Navigation Co., and the Central R.R. of New Jersey, by endorsement. Secured on about 74.6 miles from Maybrook, N. Y., to Belvidere, N. J., and from South Easton, Pa., to Phillipsburg, N. J., being subject to No. 1 on 63.2 miles, and first lien on balance of 11.4 miles. Legal for S. B. in Minn., N. H., R. I., where guaranteed. Those guaranteed are listed on New York Stock Exchange. Interest paid without deduction for normal income tax.

3. Auth. and outstanding, $400,000. Dated June 30, 1907; due July 1, 1920. Int. paid May and November at Irving National Bank, New York. Coupon, $1,000. Not a mortgage. Callable after Nov. 1, 1911, at 105. Interest paid without deduction for normal income tax.

Capital Stock: Auth., $1,740,000; outstanding, $1,340,000; par value, $100. The stock is owned by the various anthracite coal interests, including the Lehigh Coal & Navigation Co., Central R.R. of New Jersey, Reading, Pennsylvania, etc. In September, 1913, the Government brought suit to divorce this control. Dividends have been paid as follows: 1913, 4%; 1914, 4%; 1915, 8%; 1916, 12%. TRANSFER AGENT, John Sayer, Warwick, N. Y.

LEHIGH & NEW ENGLAND RAILROAD

NOTE: The analysis is based on official documents of the company, including its annual reports of the past nine years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated April 2, 1895, under laws of Pennsylvania and New Jersey as successor to the Pennsylvania, Poughkeepsie & Boston R.R. In 1903, the company absorbed the Northampton R.R., and in 1904 the Lehigh & Delaware R.R. On Jan. 1, 1908, it leased the Campbell Hall Connecting R.R., and owns all the bonds and stock of the latter. Also controls the Pochuck R.R. The Lehigh & New England R.R. is itself controlled by the Lehigh Coal & Navigation Co. (See "Moody's Analyses of Investments—Public Utilities and Industrials.")

Location: The directly operated lines of the company consist of 295.53 miles, including the following: Hauto, Pa., to Hainesburg Junc., N. J.; Swartswood Junc., N. J., to Liberty Corners, N. Y.; Pen Argyl to Northampton Junc., Pa.; Bethlehem Junc. to Benders Junc., Pa.; Bath to Martin's Creek, Pa., and many branches and spurs operating in the Lehigh coal region of Penn. Mileage owned, 190.69 miles; leased, 8.50 miles; trackage rights, 96.34 miles.

Management: OFFICERS: S. D. Warriner, Pres.; R. H. Wilbur, Vice-Pres. and Gen. Manager; W. J. Turner, Vice-Pres. and Counsel; Henry H. Pease, Sec. and Treas. DIRECTORS: Bayard Henry, L. A. Riley, E. W. Clark, W. J. Turner, R. Y. Cook, J. S. Wentz, E. J. Fox, Geo. H. Frazier. Annual meeting, first Monday in May. MAIN OFFICE, 437 Chestnut Street, Philadelphia.

Classification of Freight Tonnage (Years Ending June 30)

	1907	1908	1909	1910	1911	1912	1913	1914	1915	1916
Products of Agriculture								.93%	.80%	.60%
Products of Animals								.56	.15	.10
Products of Mines								72.90	76.76	78.40
Products of Forests								2.10	1.71	1.90
Manufactures								22.19	19.41	17.50
Miscellaneous								1.32	1.17	1.50

Total revenue tonnage in 1914, 4,372,174 tons; in 1915, 5,662,255 tons; in 1916, 6,982,471 tons. "Products of mines" consists chiefly of anthracite coal, which amounted to 3,931,691 tons in 1916, 3,326,743 tons in 1915 and 2,292,012 in 1914. Bituminous coal amounted to 645,846 tons in 1916 and 604,660 tons in 1915.

Yard tracks and sidings, June 30, 1916, 105 miles.

Comment: For the year ended June 30, 1916, the freight density on this property was far above any figures ever before reported, being practically double the result shown five years ago. Average freight train load was also better than ever, and the train mile earnings reached a remarkable average. The company's business is mainly that of the transportation of coal, this type of tonnage representing over 78% of the business done in 1916.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ended June 30.	Gross Revenues.	Maintenance. Way.	Maintenance. Equipment.	Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.

* Deficit.

Note: Above figures are based on average mileage directly operated in each year. Margin of safety is the proportion of surplus left over after deducting fixed charges. For example, in 1916, the "balance for charges" was $4,978; fixed charges consumed $1,803 or 36% of this balance, leaving $3,175 a "margin of safety" of 64%.

Comparative Income Account, Years Ended June 30

	1916	1915	1914	1913	1912	1911	1910

Surplus	* $939,708	$692,947	$185.511	$358,184	(def.) $9,992	$52,707	$39,328
Earned on stock	15.66%	11.55%	12.28%	8.6%	.....	5.27%	3.93%

* Excludes $33 appropriated for reserve.

† Dividends of $660,000 (11%) in 1916 and $480,000 (8%) in 1915 charged in profit and loss account.

Note: Fixed charges in 1916 included interest on bonds, $324,574; joint facilities, $110,900, etc. Dividend was paid from profit and loss account in 1915 and 1916.

Profit and Loss Account for year ending June 30, 1916: Credit balance June 30, 1915, $499,922; credit balance transferred from income, $939,708; miscellaneous credits, $174; total, $1,439,804. Contra: Dividend appropriations from surplus, $660,000; miscellaneous appropriations of surplus, $2,538; delayed income debits, $45; credit balance carried to balance sheet, $777,221; total, $1,439,804.

Comment: Both gross and net revenues underwent great improvement on the Lehigh & New England property in 1916. The total surplus above fixed charges was equal to nearly 16% on the outstanding stock. Since the close of the fiscal year the tendency toward higher earnings has continued.

It will be noted that during recent years this company has reported an unusual ratio of increase in its volume of business. The gross revenues in 1916 equaled $11,077 per mile as compared with only $3,856 per mile in 1908. This is an increase of nearly 300%, whereas at the same time the net capitalization of the property has increased only about 50%. Fixed charges per mile are now only about 20% higher than they were in 1908. In view of this record, it will be realized that the credit of the company has vastly improved within the last decade.

Deferred credit items	82,178	53,130	414	302	500	200,000
Surplus	777,220	499,922	399,190	218,289	.....	.....
Total	$15,024,758	$13,989,060	$11,497,679	$9,678,161	$9,134,575	$7,736,975

Comment: During the fiscal year 1916, the Lehigh & New England property further increased its outstanding bonded debt, but the increase was not large enough to materially change the capitalization of the company. As measured on a mileage basis the net capitalization is really very light in view of the earning power. It will be noted that the company has recently been reporting each year an average net income on net capital double that shown eight or nine years ago.

TABLE D.—Bond Record and Ratings (Based on 9-Year Results, Per Mile of Road)

Name of Issue.	Interest Payable.	Maturity.	Lien on Miles.	Outstanding per Mile.	Average Income Available.	Interest R'q'r'd per Mile of System.	Factor of Safety.	Basis for Rating. Security.	Basis for Rating. Salability.	Net Rating.
1. Lehigh & New Eng. first 5s	J&J	Jl 1945	(1st) 191	$5,235	$2,667	$170	94%	High	High	Aaa.
2. Lehigh & New Eng. gen. 5s	J&J	Jl 1954	(see text)	21,000	2,497	678	73%	"	"	Aa.
3. Equip. trusts, 4½s	Var.	(see text)	.....	.....	1,819	370	80%	"	"	Aaa.

Note: "Average income available" is the average net income per mile available for interest charges, after deducting taxes, for the nine years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Bond Ratings, see pages 19 to 21.

REFERENCE NOTES ON BOND ISSUES

1. Auth. and outstanding, $1,000,000. Dated July 1, 1895; due July 1, 1945. Int. paid at company's office, Phila. Coupon, $1,000. First lien on 190.69 miles from Hauto, Pa., to Hainesburg Junc., N. J., 66 miles; from Swartswood Junc., N. J., to Liberty Corners, N. Y., 20.84 miles; and branches, 103.86 miles. Underlie No. 2, with provision by latter for retirement. Interest paid without deduction for normal income tax.

2. Auth., $15,000,000; outstanding, $4,000,000 Series A. Dated July 1, 1914; due July 1, 1954. Int. paid at office of company in Philadelphia. Coupon, $1,000. Follows No. 1 on 190.69 miles; also direct lien on leasehold in-

terests and on all securities of Campbell Hall Connecting R.R. and Pochuck R.R. Callable at 105 on 8 weeks' notice. Listed on Philadelphia Stock Exchange. Interest paid without deduction for normal income tax.

3. Series A, 4½s, dated June 1, 1908; due $30,000 per annum to June 1, 1923; now outstanding $210,000. Guar. prin. and int., by Lehigh Coal & Nav. Co. Series B, 4½s, dated May 1, 1911; due $45,000 per annum to May 1, 1925, and $70,000 on May 1, 1926. Now outstanding, $475,000. Series C, 4½s, dated Feb. 1, 1913; due $35,000 per annum to Feb. 1, 1927, and $60,000 on Feb. 1, 1928; now outstanding, $410,000. Series D, 4½s, dated March 2, 1914; due $40,000 annually to March 1, 1929. Now outstanding, $520,000. Series E, 4½s, dated April 1, 1916; due $55,000 per annum to April 1, 1930, and $30,000 April 1, 1931. Now outstanding, $800,000. Total outstanding, $2,415,000. Interest paid without deduction for normal income tax.

Capital Stock: Auth., $7,500,000; outstanding June 30, 1916, $6,000,000; par $50. The outstanding issue was increased in 1913 from $1,000,000, a part of the new stock being used to retire $2,885,000 general 4s of 1958, and from $4,645,000 in 1915, the new stock being sold to pay the rental of the Panther Creek R.R., acquired in 1913. A majority of the issue is owned by the Lehigh Coal & Navigation Co., the latter being controlled by the Central R.R. of New Jersey. A dividend of 8% ($4 per share) was paid in 1915 and 11% in 1916. TRANSFER AGENT, H. H. Pease, Treasurer.

COMPANIES CONTROLLED BY LEHIGH & NEW ENGLAND RAILROAD CO.

CAMPBELL HALL CONNECTING RAILROAD

Origin: Incorporated under laws of New York, April 3, 1889. Line of road: Liberty Corners to Pine Island Junc., N. Y., 4.11 miles. Leased from Jan. 1, 1908, to Lehigh & New England R.R., which operates the property and pays taxes, but may discontinue lease on ten days' notice.

Management: OFFICERS: S. D. Warriner, Pres.; R. H. Wilbur, Vice-Pres.; Henry H. Pease, Sec. and Treas. Annual meeting, third Monday in April. OFFICE, 143 Liberty Street, New York.

Bonded Debt: $500,000 Campbell Hall Connecting R.R. first 5s; dated Aug. 1, 1889; due Aug. 1, 1939. Coupon, $1,000. By terms of lease, no interest is now paid on these bonds. First lien on entire property. All owned by Lehigh & New England R.R.

Capital Stock: Auth., $450,000; outstanding, $125,000; par $100. A majority is owned by Lehigh & New England Railroad.

POCHUCK RAILROAD

Origin: Incorporated under laws of New York, June 22, 1897. Line of road: Glenwood Junc. to Glenwood, N. J., and Alba, N. Y., to Empire quarries; total, 4.39 miles. Leased from Jan. 1, 1908, to Lehigh & New England R.R., lessee paying taxes and holding right to cancel lease on ten days' notice.

Management: OFFICERS: S. D. Warriner, Pres.; R. H. Wilbur, Vice-Pres.; Henry H. Pease, Sec. and Treas. Annual meeting, third Monday in April. OFFICE, 143 Liberty Street, New York.

Capital Stock: Auth. and issued, $20,000; par $50. All owned by Lehigh & New England R.R. No bonded debt.

LEHIGH VALLEY RAILROAD COMPANY

NOTE: The analysis is based on official documents of the company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated under Pennsylvania laws, April 21, 1846, as the Delaware, Lehigh, Schuylkill & Susquehanna R.R.; changed to present title, January 7, 1853. In July, 1864, the Beaver Meadow R.R. was absorbed; in August, 1864, the Penn Haven & White Haven was acquired; in May and June, 1868, the Hazleton R.R. and the Lehigh & Luzerne R.R. were acquired. In 1871, the company leased the property of the Morris Canal & Banking Co., which it still controls, although the property many years ago was abandoned for transportation purposes. At the present time, the company controls, through stock ownership, the Lehigh Valley R.R. of New Jersey; the Easton & Northern R.R.; the Schuylkill & Lehigh Valley R.R.; the Delaware, Schuylkill & Susquehanna R.R.; the Pennsylvania & New York Canal & R.R.; the Loyalsock R.R.; the Montrose R.R.; the Lehigh Valley Railway (of New York); the Wyoming Valley Water Supply Co., and the Lehigh & New York R.R. Also controls by lease the State Line & Sullivan R.R., and the Hayt's Corners, Ovid & Willard R.R.

Location: The directly operated lines of the Lehigh Valley R.R. consisted, June 30, 1916, of 1,443.81 miles, as follows: Main lines owned in fee:—Phillipsburg to Wilkesbarre and Penn Haven Junc. to Mt. Carmel, Pa., and branches, 316.71 miles. Controlled by ownership of entire stock:—Lehigh Valley R.R. of New Jersey, Jersey City to Phillipsburg and branches, 122.25 miles; Penn. & New York Canal & R.R., Wilkesbarre to Penn. State line and branches, 137.08 miles; Lehigh Valley Railway (of New York), Penn. State line to Buffalo and branches, 514.22 miles; Delaware, Susquehanna & Schuylkill R.R., Eckley to Sheppton, Pa., and branches, 31.78 miles; Easton & Northern R.R., Easton to Belfast, Pa., and branches, 12.78 miles; Schuylkill & Lehigh R.R., Lizard Creek Junc. to Blackwood, Pa., and branches, 41.84 miles; Loyalsock R.R., Luzerne to Bernice, Pa., and branches, 50.29 miles; Montrose R.R., Tunkhannock to Montrose, Pa., 27.36 miles. Controlled by ownership of majority of stock:—Lehigh & New York R.R., Penn. State line to North Fair Haven, N. Y., 115.37 miles. Operated under lease: 27.63 miles. Trackage rights, 45.82 miles. Lines cross populous parts of Penn., N. J., and N. Y. Population of these States in 1890, 12,650,800; in 1900, 15,454,678; in 1910, 19,315,892.

Lehigh Valley Coal Co.: Incorporated May 29, 1871, under Pennsylvania laws as the Green Land Co.; name changed as above in 1875. Company owns the properties of the Delano Land Co., Hazleton Coal Co., Westwood Coal Co., Seneca Coal Co., and other properties on the lines of the Lehigh Valley R.R. The capital stock amounts to $1,965,000, and is all owned by the Lehigh Valley R.R., and the outstanding bonds of the company are guaranteed. For Lehigh Valley Coal Co. and Lehigh Valley Coal Sales Co., see "Moody's Analyses of Industrials."

Management: OFFICERS: E. B. Thomas, Pres.; J. A. Middleton, Vice-Pres.; F. L. Blendinger, Vice-Pres.; T. N. Jarvis, Vice-Pres.; L. D. Smith, Vice-Pres.; D. G. Baird, Sec.; C. J. Kulp, Treas. DIRECTORS: Geo. F. Baker, Fred M. Kirby, S. T. Bodine, Edward B. Smith, Edward T. Stotesbury, E. S. Moore, D. G. Reid, W. H. Moore, William R. Butler, H. B. Coxe, Morris L. Clothier, Wm. P. Clyde. Annual meeting, third Tuesday in January. NEW YORK OFFICE, 143 Liberty Street. PRINCIPAL OFFICE, 228 South Third Street, Philadelphia, Pennsylvania.

Classification of Freight Tonnage (Years Ending June 30)

	1907	1908	1909	1910	1911	1912	1913	1914	1915	1916
Products of Agriculture	9.64%	10.20%	10.30%	9.06%	8.73%	8.96%	9.46%	8.91%	10.26%	11.14%
Products of Animals	3.43	3.25	3.26	2.79	2.70	2.61	2.24	2.30	1.88	1.62

1916	1,441	741	971	631	44,840	83	158,084	4,148,521	639	3.28	1.88	.65
10-Year Average	1,443	706	905	575	44,602	83%	171,355	3,514,674	568	$2.85	1.78c	.64c

Yard tracks and sidings, June 30, 1916, 1,270 miles. There are outstanding about $500,000 equipment trusts (see Table D).

Comment: The freight density of the Lehigh Valley Railroad for the fiscal year ended June 30, 1916, reached the highest figures ever reported, and the average freight train load was also far above any previous year. While average freight rates showed no tendency to advance the company was able to report much better train mile earnings than in the past years. During the year the proportion of high grade freight, such as manufactures and miscellaneous articles tended to advance, but the transportation of mining products continues to represent more than 60% of the total business done.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ended June 30.	Gross Revenues.	Maintenance.		Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.
		Way.	Equipment.										
1907	$24,995	$2,215	$4,288	$6,503	$8,823	$9,670	$10,402	$458	$9,944	$1,258	57%	$5,686	$1,404
1908	24,509	2,414	4,135	6,549	8,797	9,163	10,240	587	9,653	3,787	61	5,866	1,678

1913	29,665	3,925	5,211	9,136	10,925	9,604	10,999	997	10,002	3,963	60	6,039	4,177
1914	27,628	3,177	4,869	8,046	11,127	8,455	10,248	1,076	9,172	4,272	53	4,900	4,209
1915	29,450	3,105	5,685	8,790	11,950	8,710	10,615	1,245	9,370	4,842	48	4,528	4,197
1916	32,807	3,226	6,485	9,711	13,206	9,890	12,308	1,181	11,127	5,669	49	5,458	4,197
10-Year Average	$26,879	$2,798	$4,741	$7,539	$10,101	$9,236	$10,547	$857	$9,690	$4,407	54%	$5,283	$3,041

Note: Above table is based on average mileage directly operated, whether owned, leased or otherwise. Margin of safety is the proportion of surplus left over after deducting fixed charges. For example, in 1916, the "balance for charges" (per mile) was $11,127; fixed charges consumed $5,669 or about 51% of this, leaving $5,458, a "margin of safety" of 49%.

Comparative Income Account, Years Ended June 30

	1916	1915	1914	1913	1912	1911	1910
Gross revenues	$47,373,984	$42,511,180	$39,783,564	$43,043,372	$36,905,935	$37,687,403	$36,167,398

* Deficit.

† Outside operations included in gross and net revenues in 1915 and 1916.

‡ Dividends of $6,060,800 (10%) charged in Profit and Loss account in 1916.

NOTE: In above income account for 1916, fixed charges include interest, rentals, joint facilities, etc. Interest on bonds consumed $3,500,437; lease rentals, $2,142,589; joint facility rents, $212,625. Other income in 1914 included a dividend of $685,080 on Temple Iron Co. stock.

Profit and Loss Account, year ended June 30, 1916: Credit balance June 30, 1916, $23,692,717; credit balance transferred from income account, $7,666,440; profit from liquidation of securities, $132,344; total, $31,491,501; Contra: Dividend appropriation out of surplus, $6,060,800; securities written off, $1,000,000; readjustment of real estate values, $246,078; debt discount extinguished through surplus, $179,194; loss on retired road and equipment, $13,408; miscellaneous debits, $30,157; balance carried to balance sheet, $23,961,863; total, $31,491,501.

Comment: The fiscal year 1916 was by far the best ever reported in gross revenues by the Lehigh Valley. Operating costs, however, were relatively high and therefore the net operating income was not quite as good as shown in 1910. However, revenue from investment sources underwent a sharp increase with the result that the surplus available for fixed charges was far in excess of any previous year. Fixed charges advanced radically, but notwithstanding this fact the surplus was equal to 13% on the outstanding stock.

TABLE C.—Capitalization Factors (Security Obligations and Earning Power)

	Capitalization Per Mile of Road.									Dividend Record.					
										Preferred Dividend.		Common Dividend.

Total	$201,510,357	$188,323,977	$190,306,068	$182,719,411	$180,367,290	$185,584,849

Note: The securities owned by the company on June 30, 1916, amounted in par value to $97,912,897, of which $46,161,897 were stocks and $51,751,000 were bonds. Of the total, $63,610,575 were pledged and $34,302,322 were unpledged. The funded debt as shown for 1916 includes $18,760,000 securities held in treasury. Working assets in 1916 include $15,126,595 cash.

Comment: Bonded debt was further increased on the Lehigh Valley in the fiscal year ended June 30, 1916. The capitalization of the road as measured on the mileage basis in relatively high, but the earning power has in recent years been so heavy as to make it easy to carry this capitalization. It will be noted in 1916, the net income on net capital equaled nearly 13%.

* Includes maturing principal.

Note: "Average income available" is the average net income per mile available for interest charges, after deducting taxes, for the ten years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Bond Ratings, see pages 19 to 21.

REFERENCE NOTES ON BOND ISSUES

1. Auth. and outstanding, $5,000,000. Dated May 15, 1868; due June 1, 1948. Int. paid at company's office, Philadelphia and at J. P. Morgan & Co., New York. First lien on 286.22 miles, as follows: From Phillipsburg, N. J., to Wilkes-Barre, Pa., 99.28 miles; Gracedale to Avoca, Pa., 18.61 miles; Penn Haven June. to Mt. Carmel, 52.34 miles; Port Bowlkey to Luzerne, Pa., 2.30 miles; Hazleton to New Boston June., Pa., 17.10 miles; and branches and spurs to collieries, etc., 96.83 miles; together with lands, bulldings, etc. Underlie Nos. 2, 3 and 4 with provision by No. 4 to retire. Issue may be extended for a period not exceeding two years from 1948. Legal for Savings Banks in Conn., Cal., Maine, Mass., Mich., Minn., N. H., N. J., N. Y., R. I., Vt., Wis. Listed on Philadelphia Stock Exchange. Interest paid without deduction for normal income tax. Coupon and reg., $1,000.

2 and 3. Auth., $40,000,000; outstanding, $7,300,000 4½s and $15,700.000 6s (closed). Dated Nov. 13, 1873. Of the 6s, $10,062,000 are irredeemable, and of the 4½s, $2,538,000 are irredeemable; remainder of each are due Dec. 1, 1923. Int. paid at company's office, Philadelphia and at J. P. Morgan & Co., New York. First lien on 30.49 miles from Hazel Creek June. to Harleigh June., and from Stockton June. in another direction toward Harleigh June.; second lien on 286.22 miles, following No. 1. Underlies No. 4, with provision to retire, which may be extended for a period not exceeding two years. Coupon and reg., $1,000. Legal for S. B. in Conn., N. H., R. I. Listed on Philadelphia Stock Exchange. Interest paid without deduction for normal income tax.

4. Auth., $150,000,000; outstanding, $47,336,000, of which $26,639,000 bear 4% interest and $20,697,000 4½%. (In treasury, $13,000,000 4s and $1,000,000 4½s.) Dated Sept. 30, 1903; due May 1, 2003. Int. paid at company's office, Philadelphia and at J. P. Morgan & Co., New York. Direct general lien, subject to Nos. 1, 2 and 3, on 316.71 miles of road, and a first collateral lien on the entire capital stocks of various corporations owning 878.46 miles, and

REFERENCE NOTES ON BOND ISSUES (Continued)

a majority capital stock of a company owning 115.37 miles, comprising practically the entire Lehigh Valley system, and also on the entire equipment of the system, with the exception of that pledged to secure outstanding equipment trust obligations, and equipment belonging to the Lehigh & New York R.R. * For 10% dividend.

Note: "Average income available" on stock issues is the average surplus, after deducting all fixed and other charges, for the ten years ending June 30, 1916. "Dividend requirement" is the requirement, at the current rate, on the present amount outstanding. For Key to Ratings, see pages 19 to 21.

REFERENCE NOTES ON STOCK ISSUES

1 and 2. Property consists of canal extending from Jersey City to Phillipsburg, N. J., 106 miles (not now operating). The bond issue of $500,000 is entirely owned by the Lehigh Valley R.R., that company having leased the canal for 999 years from 1871, assuming the bonds, and guaranteeing dividends of 10% per annum on the guaranteed stock, and 4% per annum on the consolidated stock. Nearly all of both issues are now owned by the Lehigh Valley R.R. It is proposed to abandon the canal and pay off stock, as soon as legislation permitting this has been passed.

3 and 4. Auth., $80,000,000; outstanding, $60,608,000; par, $50; this includes $106,300 10% cumulative preferred. Dividends on common as follows: 1887, 4¼%; 1888 to 1891, 5% per annum; 1892, 5¼%; 1893, 4%; 1907 to July, 1909, 4% regular and 2% extra; 1910, 6%; 1911 to date, 10% per annum. Dividends are now paid quarterly Jan. On Feb. 28, 1912, an extra dividend of 10%, amounting to $6,060,800, was paid out of the accumulated surplus, and the right given to apply same in payment at par of 121,216 shares (par $50) of the capital stock of the Lehigh Valley Coal Sales Company. Transfer offices, 228 So. Third Street, Philadelphia, and 143 Liberty Street, New York. Listed on New York and Philadelphia Stock Exchanges.

COMPANY CONTROLLED BY LEHIGH VALLEY RAILROAD COMPANY

STATE LINE & SULLIVAN RAILROAD

Incorporated under laws of Pennsylvania, as successor to the Sullivan & Erie R.R., Dec. 2, 1874. Line of road: Monroeton to Bernice, Pa., 24.06 miles. The company also owns coal mines, which are separately leased to the Connell Anthracite Mining Co., Scranton, Pa. The company itself is leased to the Penna. & New York Canal & R.R. Co., until 1934, at an annual rental of $40,000. The latter company is controlled by Lehigh Valley R.R., which directly operates the State Line & Sullivan R.R.

Officers: R. J. Thomson, Pres.; E. M. Dunham, Vice-Pres.; T. V. Thomson, Sec.; R. W. Hale, Treas. Office, 204 Walnut Place, Philadelphia.

Total	$1,209,192	$1,281,166	$1,281,598	$1,281,428	$1,277,906	$1,277,926

Bonded Debt: $272,000 first 4½s; due Jan. 1, 1929. For details and ratings, see Lehigh Valley Bond Table, page 409.

Capital Stock: Auth., $1,000,000; outstanding, $931,600, of which $48,650 is in treasury; par, $50. Dividends in recent years as follows: 1908-9, 20%; 1909-10, 31%; 1910-11, 6%; 1911-12, 9%; 1912-13, 6%; 1913-14, 8%; 1914-15, 12%; 1916, 6%.

LOUISIANA & ARKANSAS RAILWAY

Origin: Incorporated under laws of Arkansas, June 10, 1902, as successor to the Louisiana & Arkansas Railroad Co.

Location: Operates 278.72 miles of road, of which 188.91 miles are from Hope, Ark., to Tioga, La. Branches extend to Wildsville Junc. and Shreveport. An extension from Wildsville Junc. to a point on the Mississippi River, opposite Natchez, is under construction. When the extensions are completed the company will connect with the St. Louis, Iron Mountain & Southern, the Illinois Central, and the Mississippi Central.

The Eastern Extension from the end of the line at Jena, Louisiana, to Jonesville, Louisiana, has been completed, and is laid with 75-lb. rail, and ballasted with the durable cement gravel found on the line of the railway. This line will connect with Natchez on the Mississippi River, giving the Louisiana and Arkansas Ry. a connection with the Illinois Central R.R., and also other connections at that point. The Extension of the line to the Mississippi River crosses the rich rice and cotton lands of the Tensas Delta.

Management: OFFICERS: Wm. Buchanan, Pres.; F. H. Drake, W. R. Grim, Vice-Pres.; J. A. Buchanan, Sec. and Treas. DIRECTORS: Wm. Buchanan, W. R. Grim, F. H. Drake, J. G. Ferguson, J. A. Buchanan, C. L. Cabe, T. A. Brown, Robt. Buchanan, W. J. Buchanan, Henry Moore, F. W. Green. Annual meeting, second Saturday in February. OFFICE, Texarkana, Ark.

Yard tracks and sidings, June 30, 1916, 71 miles.

Comment: The freight density on this property in 1916 was fully maintained and there was a further moderate improvement in the average freight train load. The train mile earnings on the property were also better than in the previous year. As usual the company reported a large proportion of lumber products in its freight tonnage, these representing nearly 70% of the total business done.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

Years Ended June 30.	Gross Revenues.	Maintenance. Way.	Maintenance. Equipment.	Total Maintenance.	All Other Operat'g Expenses.	Net Operat'g Revenues	Total Net Income.	Taxes Accrued.	Balance for Charges.	Fixed Charges.	Margin of Safety.	Surplus over Charges.	Dividends Paid.

1916	5,920	1,055	925	1,980	1,852	2,088	2,259	333	1,926	1,002	48	924	.....
9-Year Average	$5,777	$989	$920	$1,909	$1,855	$2,013	$2,200	$187	$2,013	$1,070	47%	$943	$242

Note: Above table is based on average mileage directly operated for each year, including trackage rights. Margin of safety is the proportion of surplus left over after deducting fixed charges. For example, in 1916, the "balance for charges" (per mile) was $1,926; fixed charges per mile consumed $1,002 of this, or about 52%, thus leaving $924, "a margin of safety" of about 48%.

Comparative Income Account, Years Ended June 30

	1916	1915	1914	1913	1912	1911	1910

Taxes accrued	92,997	85,058	69,255	50,235	45,303	37,009	27,785
Balance for charges	$537,365	$524,642	$536,752	$607,337	$525,901	$536,273	$540,850
Fixed charges	279,562	301,909	313,766	328,038	308,292	268,947	243,500
Surplus over charges	$257,803	$222,733	$222,986	$279,299	$217,609	$267,326	$297,350
Dividends paid	.....	.....	.....	.....	62,500	118,750	112,500
Appropriation to sinking fund	35,150	29,492	.....	.....	.....	.....	.....
Balance	$222,653	$193,241	$222,986	$279,299	$155,109	$148,576	$184,850
Earned on stock	4.45%	3.8%	4.45%	5.58%	4.35%	5.34%	5.95%

Note: Fixed charges in 1916 included $235,119 for interest on bonds, $12,717 for hire of equipment, and $30,058 joint facility rents.

Profit and Loss Account, year ended June 30, 1916: Credit balance, June 30, 1915, $1,315,534; credit balance transferred from income, $222,653; profit on road and equipment sold, $315; unrefundable overcharges, $113; miscellaneous credits, $10,845; total, $1,549,460. Contra: Surplus applied to sinking and other reserve funds, $83,596; loss on retired road and equipment, $3,096; miscellaneous debits, $288; credit balance carried to balance sheet, $1,462,480; total, $1,549,460.

Comment: There was a slight decline in the gross revenues on the Louisiana & Arkansas Ry. in 1916, but the net revenues and total net income underwent a moderate improvement. As fixed charges were further reduced the surplus equaled nearly 4½% on the outstanding capital stock as compared with 3.8% during the previous year. Since the close of the fiscal year the earnings of the property have been well maintained.

While the volume of business on this property during the past decade has not shown any tendency to increase rapidly, yet the total net income has each year ranged at a substantial figure, and even in the poorest years a liberal surplus has been reported above all fixed charge requirements. Thus, the company has been able to strengthen its financial position.

Appropriated surplus	802,363	652,973	542,786	443,448	359,145	301,988
Profit and loss surplus	1,462,480	1,348,713	1,234,644	1,121,420	912,603	901,419
Total	$12,924,086	$12,755,631	$12,499,249	$12,122,752	$11,628,882	$11,104,887

Comment: There were practically no capitalization changes on this property during the year 1916. The company is not heavily capitalized, and in recent years as measured on the mileage basis, there has been a tendency toward lower capitalization. Although the company is not a heavy earner, it has succeeded in reporting a net income on net capital in the neighborhood of 6%.

TABLE D.—Bond Record and Ratings (Based on 9-Year Results, Per Mile of Road)

Name of Issue.	Interest Payable.	Maturity.	Lien on Miles.	Outstanding per Mile.	Average Income Available.	Interest R'q'r'd per Mile of System.	Factor of Safety.	Basis for Rating. Security.	Basis for Rating. Salability.	Net Rating.

2. Louisiana & Ark. equip. 6s	Text	Text	Equip.	.....		25	53%	"	"	Baa.

Note: Average income available is the annual average balance for charges per mile for the nine years ended June 30, 1916. Interest requirement is the present requirement. For Key to Bond Ratings, see pages 19 to 21.

REFERENCE NOTES ON BOND ISSUES

1. Auth., $7,000,000; outstanding, $5,196,000. Dated Sept. 1, 1902; due Sept. 1, 1927. Int. paid at Guaranty Trust Co., New York. Coupon, $1,000. Callable as whole at 110 and int. on nine weeks' notice. Sinking Fund: $75,000 annually for purchase of these bonds at not more than 110 and int. Bonds so purchased to be kept alive in sinking fund. If not purchased at price stated, money to be invested in other approved securities. First lien on entire road (273 miles), mileage being as follows: From Hope, Ark., to Pineville, La., 193 miles, and extensions from Packton to Wildwoods Junc., 53.32 miles, and Minden to Shreveport, La., 27.15 miles, and on all other property of the company. Listed on New York and Amsterdam Stock Exchanges. Interest paid without deduction for normal income tax.

2. On June 30, 1916, the net equipment trusts outstanding were $162,000, carrying 6% interest and maturing as follows: First series, $3,000 each May and Nov. to Nov., 1923; second series, $8,000 each April and Oct. to Oct., 1923, making a total of $22,000 retired each year.

Capital Stock: Auth. and outstanding, $5,000,000; par, $100. Dividends: 1909, 3%; 1910, 2½%; 1911, 2½%; 1912, 1¼%; none since. TRANSFER AGENT, Guaranty Trust Co., New York.

LOUISIANA RAILWAY & NAVIGATION COMPANY

Origin: Incorporated under laws of Louisiana, May 9, 1903, as successor to the Shreveport & Red River Valley Ry. The company was first put in operation through to New Orleans, La., in October, 1906.

Location: Line of road, Shreveport, to New Orleans, with branches to Winnfield and Ems, La., making a total of 350.50 miles. Sidings 98.19 miles.

Management: OFFICERS: Wm. Edenborn, Pres.; New Orleans, La.; H. B. Helm, Vice-Pres.; L. M. McForlin, Treas.; J. J. Tippin, Sec. and Aud.; C. C. Colley, Pur. Agt., Shreveport, La. DIRECTORS: Wm. Edenborn, Sarah Edenborn, E. O. Mann, New Orleans, La.; H. B. Helm, W. F. Taylor, E. H. Randolph, J. J. Tippin, Shreveport, La. Annual meeting, first Tuesday after first Monday in January. MAIN OFFICE: Shreveport, La.

Classification of Freight Tonnage (Years Ending June 30)

Yard tracks and sidings, 98.19 miles.

Comment: During the year ended June 30, 1916, the freight density on the Louisiana Ry. & Navigation Company was maintained in the neighborhood of recent totals, and the average freight train load was also held at a good figure. There was a substantial improvement in the train mile earnings due principally to the fact that the average freight rates were better than has recently been the case. This company depends to a substantial extent on forest products for its tonnage, but the proportion of high grade freight, such as manufactures, is large.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

For explanations, see next page.

* Deficit.

Note: Above table is based on average mileage operated for each year. Margin of safety is the proportion of surplus left over after deducting fixed charges. In this case, there is no "margin of safety" as the company has not reported any surplus above its full fixed charges for many years, although the actual interest on the bond issue has been covered.

Comparative Income Account, Years Ended June 30

	1916	1915	1914	1913	1912	1911	1910
Gross revenues	$2,179,872	$2,023,698	$1,971,718	$1,891,823	$1,783,969	$1,699,605	$1,421,250

Net operating revenues	$667,087	$487,968	$426,118	$466,396	$463,201	$429,194	$315,368
Operating ratio	69.39%	75.88%	78.38%	75.34%	74.04%	74.75%	77.81%
Other income	13,119	13,288	13,121	55,783	74,172	71,000	62,018
Total net income	$680,206	$501,256	$439,239	$522,179	$537,373	$500,194	$377,386
Taxes accrued	113,955	111,655	80,060	59,505	56,867	51,947	49,112
Balance for charges	$566,251	$389,601	$359,179	$462,674	$480,506	$448,247	$328,274
Fixed charges	632,187	686,485	654,062	642,697	637,848	610,101	580,047
Deficit	$65,936	$296,884	$294,883	$180,023	$157,342	$161,854	$251,773

Profit and Loss Account, year ended June 30, 1916: Credit balance, June 30, 1915, $801,221; miscellaneous credits, $426; total, $801,647. Contra: Debit balance transferred from income, $65,936; delayed income debits, $162; miscellaneous debits, $2,291; credit balance carried to balance sheet, $733.258; total, $801,647.

Comment: The gross and net revenues of this property for the year ended June 30, 1916, were much higher than in the previous year, and the balance available for charges was also much better than for many years past. Fixed charges were reduced moderately and therefore the deficit finally reported was much lighter than in recent years.

Total	$21,041,373	$20,704,642	$20,590,683	$20,846,978	$22,375,424	$21,983,947

Comment: There were practically no capitalization changes on this property during the year 1916. The company is not heavily capitalized as measured on a mileage basis, but its earning power is relatively light, therefore the company has not in recent years been able to report any real surplus above its fixed charges. In the year 1916, however, the net income on net capital was well above the average for the decade.

TABLE D.—Bond Record and Ratings (Based on 10-Year Results, Per Mile of Road)

Name of Issue.	Interest Payable.	Maturity.	Lien on Miles.	Outstanding per Mile.	Average Income Available.	Interest R'q'r'd per Mile of System.	Factor of Safety.	Basis for Rating.		Net Rating.

REFERENCE NOTE ON BOND ISSUE

1. Auth., $23,000 per mile, but limited to a total of $17,500,000. outstanding, $10,545,000. Dated July 1, 1903; due July 1, 1953. Int. paid at Shreveport, La. Coupon, $1,000. Principal may be registered. First lien on entire properties, except equipment covered by equipment trust obligations. Interest paid without deduction for normal income tax.

Note: There were also outstanding on June 30, 1916, $38,518 equipment trust notes, secured on 3 locomotives and 30 tank cars.

Capital Stock: Auth., $12,000,000; outstanding, $8,131,000; par, $100. No dividends.

MAINE CENTRAL RAILROAD COMPANY

Note: The analysis is based on official documents of the company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated Oct. 28, 1862, under Maine laws, as a consolidation of the Androscoggin & Kennebec R.R., and the Penobscot & Kennebec R.R. In 1874 the Portland & Kennebec R.R., the Somerset & Kennebec R.R., and the Leeds and Farmington R.R. were absorbed. The Maine Shore Line R.R. was absorbed in 1888, and the Knoxville & Lincoln Ry. in 1901. In addition to lines absorbed, the Maine Central controls a number of leased roads, including the Belfast & Moosehead Lake, leased in 1871 for fifty years; the Dexter & Newport, leased in 1888 for 999 years; the Dexter & Piscataquis, leased in 1888 for 999 years; the Eastern Maine Ry., leased in 1883 in perpetuity; the European & North American Ry., leased in 1882 for 999 years; the Hereford Ry., leased in 1890 for 999 years; the Portland & Ogdensburg Ry., leased in 1888 for 999 years; the Portland & Rumford Falls R.R. (including Portland & Rumford Falls Ry. and Rumford Falls & Rangeley Lakes R.R.), leased in 1907 for 1,000 years; the Upper Coos R.R., leased in 1890 for 999 years. In July, 1912, the Maine Central also leased the property of the St. Johnsbury & Lake Champlain (which see). On July 1, 1911, the Sebasticook & Moosehead R.R., the Somerset Ry., and the Washington County Ry. were formally merged into the Maine Central R.R. In addition, the Maine Central controls the Portland Terminal Co., the Sandy River & Rangeley Lakes R.R., the Bridgton & Saco R.R., and the Ricker Hotel Co.

Location: The directly operated lines of the Maine Central R.R. consisted, June 30, 1916, of 1,221.15 miles, classified as follows: Main and branch lines owned, 655.82 miles; leased main lines and branches (including 14.94 miles trackage rights), 565.33 miles. System extends northward and eastward from Portland, Maine, traversing a large part of both Maine and New Hampshire, and forming an extension of the Boston & Maine system. A portion also extends into the Province of Quebec, making connection with the Canadian Pacific and the Quebec Central. Population of Maine and New Hampshire in 1890, 1,037,616; in 1900, 1,106,054; in 1910, 1,172,943.

Acquisition of Control by Maine Railways Companies: An agreement was entered into on April 1, 1914, with three trustees of the Maine Railways Companies, involving the following plan: The Maine Central Railroad subscribed to and paid for at par the entire capital stock of the Maine Railways Companies, amounting to $3,000,000. The latter company issued its 5% notes, due April 1, 1919, to the amount of $12,202,000, and with these notes and the $3,000,000 received from the sale of its shares, purchased from the Boston & Maine Railroad 159,601 shares of the capital stock of the Maine Central Railroad at $95.25 per share. This stock was deposited with the Fidelity Trust Company of Portland, Maine, as security for the notes of the Maine Railways Companies. With the consent of the owners of the notes, $5,000,000 par value of these notes were endorsed as exchangeable for an equal amount of Maine Central Railroad stock on or before October 1, 1918, or prior to any date fixed for the redemption of the notes. Any profits from the operation of the trust, after paying interest charges and expenses of the Maine Railways Companies, will accrue to the Maine Central Railroad. Under the operation of the trust, the Maine Central Railroad stock will ultimately be distributed among individual stockholders.

The accounts of the Maine Rys. Cos. were closed May 31, 1916, and the Maine Central investment in the company's stock has been written off. On June 30, 1916, there were outstanding $2,492,000 Maine Rys. notes which were called for payment October 1, 1916. The balance of the notes were paid during the year and the Maine Central stock pledged thereunder was cancelled, sold or exchanged for Maine Rys. convertible notes.

Management: Officers: Morris McDonald, Pres.; G. S. Hobbs, 2d Vice-Pres.; Dana C. Douglass, Gen. Mgr.; Arthur P. Foss, Compt.; Frank W. York, Treas. Directors: J. W. Symonds, Edward P. Ricker, Morris McDonald, John S. Hyde, Weston Lewis, Wm. T. Cobb, Geo. A. Curran, F. H. Appleton, Geo. E. Macomber, E. R. Brown, Edward B. Winslow, Hugh J. Chisholm, Thos. P. Shaw, S. M. Carter. Annual meeting, third Wednesday in October. General Office, Portland Me.

Classification of Freight Tonnage (Years Ending June 30)

	1907	1908	1909	1910	1911	1912	1913	1914	1915	1916

10-Year Average	1,063	65	210	294	8,942	62%	140,153	548,825	277	$2.16	2.13c	1.04c

Yard tracks and sidings, June 30, 1916, 376 miles. Of the total mileage operated, 655.82 miles are directly owned, and the balance leased.

Comment: During the fiscal year ended June 30, 1916, the Maine Central Railroad reported a further substantial increase in the freight density, and there was also a noticeable improvement in the average train load. While average freight rates tended to decline moderately a better showing was made on train mile earnings than ever before.

TABLE B.—Income Factors (Earnings and Their Distribution, Per Mile of Road)

10-Year Average	$9,430	$1,399	$1,377	$2,776	$3,882	$2,772	$3,065	$463	$2,602	$1,693	34%	$909	$672

Note: Above table is based on average mileage directly operated, including leased lines, trackage rights, etc. Margin of safety is the proportion of surplus left over after deducting fixed charges. For example, in 1916, the "balance for charges" (per mile) was $3,109; fixed charges consumed $1,797, or 58% of this, leaving $1,312, a "margin of safety" of 42%.

Comparative Income Account, Years Ended June 30

	1916	1915	1914	1913	1912	1911
Gross revenues	$12,000,507	$11,350,232	$11,635,802	$11,291,013	$10,643,051	$9,067,803

Total net income	$4,429,261	$4,012,845	$3,618,836	$3,330,877	$3,113,021	$2,943,445
Taxes accrued	636,423	648,515	611,496	548,622	530,223	476,187
Balance for charges	$3,392,838	$3,364,330	$3,007,340	$2,782,255	$2,582,798	$2,467,258
Fixed charges	2,192,361	1,746,251	1,621,151	1,663,712	2,055,830	2,036,221
Surplus over charges	$1,600,477	$1,618,079	$1,386,189	$1,118,543	$526,968	$431,037
Dividends paid	1,111,123	1,483,002	1,491,797	1,010,277	441,897	398,152
Other deductions	241,496	114,693	38,128	80,000	61,849	26,311
Balance	$247,858	$20,384	(def.) $143,736	$28,266	$23,222	$6,574
Earned on common stock	12.08%	6.5%	5.54%	4.52%	5.28%	8.62%

Note: Fixed charges include rentals of leased lines, $909,491, improvements to leased roads charged to rental $297,878, interest and sinking funds $735,767, hire of equipment $119,354, etc.

Comment: Gross revenues underwent a further substantial improvement on the Maine Central in 1916, and as operating costs advanced only slightly, the net revenues also showed a sharp increase. The total income after deduction of taxes was far in excess of all fixed charge requirements, and the final balance equaled fully 9% on the outstanding stock. Conditions since the close of the fiscal year have continued to show marked improvement.

TABLE C.—Capitalization Factors (Security Obligations and Earning Power)

Total	$51,407,556	$48,295,059	$47,568,772	$42,832,347	$40,207,567	$33,982,309

Note: The securities owned by Maine Central on June 30, 1916, consisted of $6,070,914 stocks and $583,800 bonds. These included $1,000,000 stock of Portland Terminal Co., $1,450,000 Ricker Hotel Co., $2,881,500 treasury stock. Sinking fund on June 30, 1916, amounted to $704,030. Included in working assets for 1916 was $2,513,737 cash.

Comment: The chief change in the capitalization exhibit of the Maine Central Railroad in 1916 was made in connection with the retirement of $10,000,000 of common stock and the creation of an issue of $3,000,000 preferred stock. The bonded debt underwent a substantial increase also as in December of 1915 the company issued a new refunding 4½% mortgage. While these increases in capitalization added greatly to the liabilities of the company, yet the progress in earning power has been so substantial that this new capitalization is being easily carried. It will be noted that for the year 1916 the net income on net capital was no less than 7.8%.

Since 1912 some radical readjustments have taken place in the capitalization structure of this company. These changes have chiefly grown out of the company's entanglement with the affairs of the Boston & Maine Railroad and the New York, New Haven & Hartford. On page 417 will be found full details of the acquisition of control by the Maine Railways Companies in 1914 and the final liquidation of the latter. The property is now entirely independent of the Boston & Maine or New York, New Haven & Hartford systems, and gives promise of substantial success in the future.

TABLE D.—Bond Record and Ratings (Based on 10-Year Results, Per Mile of Road)

Note: "Average income available" is the average net income per mile available for interest charges, after deducting taxes, for the ten years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Ratings, see pages 19-21.

REFERENCE NOTES ON BOND ISSUES

1. Auth., $700,000; outstanding, $648,000; retired by sinking fund, $52,000. Dated June 1, 1883; due June 1, 1923. Int. paid at American Trust Co., Boston. Coupon. $1.000. Sinking fund: 1% of outstanding bonds, less trustee's fees, to be used to purchase these bonds up to 105; otherwise to be invested in other securities with the assent of the company. First collateral lien on an equal amount of No. 4. Legal for Savings Banks in Conn., Maine, Mass., N. H., R. I., Vt. Normal income tax deducted from interest.

2. Auth. and outstanding, $250,000. Dated July 1, 1887; due July 1, 1917. Int. paid at First National Bank, Portland, Me., National Park Bank, New York, Treasurer's office, Portland, Me., or Second National Bank, Boston. Coupon, $1,000. Sinking fund: $3,750 annually for purchase of these bonds at up to 105 and int.; otherwise in other approved securities. Direct obligation of the company; also secured by Sinking Fund amounting on July 1, 1916, to $200,915 invested in bonds of the B. & M. system. Legal for S. B. in Conn., Maine, N. H., R. I. Normal income tax deducted from interest.

3. Auth. and outstanding, $400,000. Dated Feb. 1, 1891; due Feb. 1, 1921. Int. paid at First National Bank, Portland, Me., Second National Bank, Boston, National Park Bank, New York, or Treasurer's office, Portland, Me. Coupon, $1,000. Assumed by Maine Central R.R. Second lien on the railroad and ferry from Bath to Rockland, Me., following No. 5. Underlie No. 6 which provides for retirement. Legal for S. B. in Conn., Me., N. H., R. I. Normal income tax deducted from interest.

4. Auth., $750,000; outstanding, $102,000 of which $24,000 are in treasury (balance being deposited under No. 1). Dated June 1, 1883; due June 1, 1923. Int. paid at First National Bank, Portland, Me., Second National Bank, Boston, National Park Bank, New York, or at office of company. Coupon, $1,000. Assumed by Maine Central R.R. First lien from Brewer Junc. to Mt. Desert Ferry, Me., 41.13 miles. Underlie No. 6. Legal for S. B. in Cal., Conn., Maine, Mass., Mich., Minn., N. H., N. J., N. Y., R. I., Vt., Wis. Normal income tax deducted from interest.

5. Auth. and outstanding, $1,300,000. Dated Aug. 1, 1890; due Aug. 1, 1920. Int. paid at First National Bank, Portland, Me., Second National Bank, Boston, National Park Bank, New York, or at office of company. Coupon and reg., $1,000. Assumed by Maine Central R.R. First lien from Woolwich to Rockland, Me., 47.13 miles; and branch in Rockland, 1.44 miles; also the Ferry between Woolwich and Bath. Underlie Nos. 3 and 6 with provision by latter for retirement. Legal for S. B. in Cal., Conn., Maine, Mass., Mich., Minn., N. H., N. J., N. Y., R. I., Vt., Wis. Normal income tax deducted from interest.

REFERENCE NOTES ON BOND ISSUES (Continued)

6. Auth., $25,000,000; outstanding, Series A, $7,000,000; Series B, $6,000,000. Dated Dec. 1, 1915, due Dec. 1, 1935. Int paid at Irving National Bank, New York, company's office, Portland, Me., and in Boston. Coupon, $1,000, reg. $1,000, etc., interchangeable. Series A is callable at 102 on 60 days notice after December 1, 1918. Series B, callable under the same conditions after June 1, 1918. First lien on 324.36 miles, Falmouth to Bangor, 130.04; Royal Junc. to Waterville, 72.30; Waterville Freight Yard to Skowhegan, 17.23; Oquossoc to Kennebago, 10.65; Pittsfield to Harmony, 17.76; Brunswick to Leeds Junc., 25.94; Crowley's Junc. to Lewiston, 4.88; Leeds Junc. to Farmington, 36.66; and Brunswick to Bath, 8.90 miles. A second lien on 41.13 miles following No. 4. A third lien on 48.57 miles following No. 5. Further secured on 311.59 miles of leaschold interests and by pledge of $1,000,000 capital stock of the Portland Terminal Co. Sufficient reserved to retire Nos. 3 and 5. Legal for S. B. in Cal., Conn., Maine, Mass., Mich., Minn., N. H., N. J., R. I., Vt., Wis. Interest paid without deduction from normal income tax.

7. Auth. and outstanding, $175,000. Dated Sept. 1, 1897; due Sept. 1, 1917. Int. paid at First National Bank, Portland, Me., Second National Bank, Boston, National Park Bank, New York, or Treasurer's office, Portland. Coupon, $1,000. Guar. prin. and int. by Maine Central R.R., by endorsement. First lien from Newport to Dexter, Me., 14.23 miles. Legal for S. B. in Cal., Conn., Fla., Me., Mass., Mich., Minn., N. H., N. J., N. Y., R. I., Wis. Normal income tax deducted from interest.

8. Auth. and outstanding, $175,000. Dated July 1, 1889; due July 1, 1929. Int. paid at Boston Safe Deposit & Trust Co., Boston. Coupon, $1,000. Guar. prin. and int. by Maine Central R.R. First lien from Dexter to Foxcroft, Me., 16.54 miles. Legal for S. B. in Cal., Conn., Fla., Me., Mass., Mich., Minn., N. H., N. J., N. Y., R. I., Wis. Normal income tax deducted from interest.

9. Auth. and outstanding, $1,000,000. Dated Jan. 2, 1893; due Jan. 1, 1933. Int. paid at First National Bank, Portland, Me., Second National Bank, Boston, National Park Bank, New York or Treasurer's office, Portland, Me. Coupon, $1,000. First lien from Bangor to Winn., Me., 55 miles. Legal for S. B. in Cal., Conn., Fla., Me., Mass., Mich., Minn., N. H., N. J., N. Y., R. I., Wis. Normal income tax deducted from interest.

10. Auth. and outstanding, $800,000. Dated May 1, 1890; due May 1, 1930. Int. paid at First National Bank and office of Maine Central R.R., Portland, Me., Second National Bank, Boston, and National Park Bank, New York. Coupon, $1,000. Guar. prin. and int. by Maine Central R.R. by endorsement. First lien from International Boundary Line (Beecher Falls) to Lime Ridge, Can., 52.85 miles. Legal for S. B. in Cal., Me., Mich., N. H., N. J., N. Y., Wis. Normal income tax deducted from interest.

11. Auth., $1,000,000; outstanding, $901,000; retired by sinking fund, $99,000. Dated Nov. 2, 1896; due Nov. 2, 1926. Int. paid at Old Colony Trust Co., Boston. Coupon, $1,000. Sinking fund: Two-thirds of 1% per annum of par value of bonds issued to be used for purchase of these bonds at not exceeding par and int.; otherwise to be invested in approved securities. Guar. as to int. by Portland & Rumford Falls R.R. First lien from Rumford Junc. to Rumford Falls, 52.75 miles, and from Canton to Chisholm's Mills, etc., 11.21 miles; total, 63.96 miles. Legal for S. B. in Cal., Conn., Maine, Mass., Mich., Minn., N. J., Wis. Normal income tax deducted from interest.

12. Auth. and outstanding, $350,000. Dated Aug. 1, 1897; due Aug. 1, 1927. Int. paid at Portland Trust Co., Portland, Me. Coupon $500 and $1,000. Guar. as to int. by Portland & Rumford Falls R.R. Not a mortgage. Legal for S. B. in Me., N. H. Normal income tax deducted from interest.

13. Auth. and outstanding, $300,000. Dated June 1, 1915; due June 1, 1935. Int. paid at company's office, Portland, Me. Coupon, $1,000. Guar. prin. and int. by Maine Central R.R. by endorsement. Legal for S. B. in Maine. Normal income tax deducted from interest.

14. Auth. and outstanding, $500,000. Dated Feb. 1, 1904; due Feb. 1, 1934. Int. paid at Portland Trust Co., Portland, Me. Coupon, $500 and $1,000. Callable at par and int. on any Feb. 1 beginning 1924; callable until then for Sinking Fund on any Feb. 1 at 105 and interest. Sinking fund: $10,000 annually to redeem these bonds at not exceeding 105 and Int. Guar. as to Int. by the Portland & Rumford Falls R.R. Direct obligation of the company and secured by the deposit of $87.000 6% twenty-year mortgage bonds of the Intl. Paper Co., and $450,000 5% twenty-year bonds of the Oxford Paper Co. Legal for S. B. in Maine, N. H. Interest paid without deduction for normal income tax.

15. Auth. and outstanding, $400,000. Dated Oct. 1, 1897; due Oct. 1, 1937. Int. paid at Old Colony Trust Co., Boston. Coupon, $500 and $1,000. Company operates 103.35 miles of narrow gauge lines north of Farmington, Me. Controlled by Maine Central R.R., through stock ownership. Equipment: Locomotives, 14; cars, 319.

Management: Morris McDonald, Pres.; Geo. S. Hobbs, Vice-Pres.; F. W. York, Treas.; A. P. Foss, Compt.; C. H. Blatchford, Clerk. Annual meeting, third Wednesday in October. OFFICE, Portland, Me.

Comparative Income Account, Years Ended June 30

	1916	1915	1914	1913	1912	1911	1910
Gross earnings	$197,328	$177,276	$174,369	$176,267	$166,697	$153,173	$162,654
Net earnings	52,987	47,973	42,027	44,532	47,939	47,500	53,220
Total net income	54,318	48,261	42,280	46,111	48,017	47,658	53,301
Interest charges and taxes	38,971	37,540	35,558	35,653	33,764	32,982	32,599
Dividends paid	6,800	6,800	3,250	11,688	11,000	9,664	9,664

Comment: This subsidiary company, controlled by the Maine Central Railroad, has maintained substantial earning power during recent years although there has been no unusual tendency towards growth in its business. The small bond issue appears to be quite well protected, however, and is entitled to a fair investment rating.

Comparative Condensed Balance Sheet, as of June 30
